(3) Date of birth of the homeworker, if under 19 years of age.
(4) Description of work performed.
(5) Amount of cash wage payments made to the homeworker for each pay period.
(6) Date of such payment.
(7) Schedule of piece rates paid.

These records shall be kept by each employer for each of his Indian homeworkers engaged in making hand-fashioned jewelry on Indian reservations, as provided in this section, in lieu of the records required under §§ 516.2 and 516.21 of this chapter: *Provided, however*, That nothing in this section shall relieve an employer from maintaining all other records required by Part 516 of this chapter.

§ 607.13 *Petition for amendment of regulations.* Any person wishing an amendment, addition, or revision of any of the terms of the regulations of this part may submit in writing to the Administrator a petition setting forth the changes desired and reasons for proposing them. If upon inspection of the petition or upon his own motion the Administrator believes that reasonable cause for amendment of the rules and regulations appears, the Administrator will, unless it is impractical, unnecessary, or contrary to the public interest to do so, either schedule a hearing with due notice to interested persons or make other provisions to afford interested persons opportunity to present their views in support of or in opposition to the proposed changes.

PART 617—KNITTED OUTERWEAR INDUSTRY, HOMEWORKER REGULATIONS

Sec.
617.1 Definitions.
617.2 Restriction of homework.
617.3 Application on official forms.
617.4 Terms and conditions for the issuance of certificates.
617.5 Investigation.
617.6 Termination of certificates.
617.7 Revocation and cancellation.
617.8 Preservation of certificates.
617.9 Records and reports.
617.10 Delegation of authority to grant, deny, or cancel a certificate.
617.11 Petition for review.
617.12 Petition for amendment of regulations.

AUTHORITY: §§ 617.1 to 617.12 issued under secs. 8, 11, 52 Stat. 1064, 1066; 29 U. S. C. 208, 211.

§ 617.1 *Definitions.* (a) The meaning of the terms "person", "employ", "employer", "employee", "goods", and "production", as used in this part, is the same as in the Fair Labor Standards Act of 1938, as amended.

(b) "Industrial homeworker" and "homeworker", as used in this part, mean any employee employed or suffered or permitted to perform industrial homework for an employer.

(c) "Industrial homework", as used in this part, means the production by any person in or about a home, apartment, tenement, or room in a residential establishment of goods for an employer who suffers or permits such production, regardless of the source (whether obtained from an employer or elsewhere) of the materials used by the homeworker in such production.

(d) The knitted outerwear industry, to which this part shall apply, is defined as follows: The knitting from any yarn or mixture of yarns and the further manufacturing, dyeing or other finishing of knitted garments, knitted garment sections, or knitted garment accessories for use as external apparel or covering which are partially or completely manufactured in the same establishment as that where the knitting process is performed; and the manufacture of bathing suits from any purchased fabric: *Provided*, That the manufacturing, dyeing or other finishing of the following shall not be included:

(1) Knitted fabric, as distinguished from garment sections or garments, for sale as such.

(2) Fulled suitings, coatings, topcoatings, and overcoatings.

(3) Garments or garment accessories made from purchased fabric, except bathing suits.

(4) Gloves or mittens.

(5) Hosiery.

(6) Knitted garments or garment accessories for use as underwear, sleeping wear, or negligees.

(7) Fleece-lined garments made from knitted fabric containing cotton only or containing any mixture of cotton and not more than 25 percent, by weight, of wool or animal fiber other than silk.

(8) Knitted shirts of cotton or any synthetic fiber or any mixture of such fibers which have been knit on machinery of 10-cut or finer: *Provided*, That this exception shall not be construed to exclude from the knitted outerwear industry the manufacturing, dyeing, or other finishing of knitted shirts made in the same establishment as that where the knitting process is performed, if such shirts are made wholly or in part of fibers other than those specified in this clause, or if such shirts of any fiber are knit on machinery coarser than 10-cut.

§ 617.2 *Restriction of homework.* No work in the knitted outerwear industry, as defined in § 617.1 (d), shall be done in or about a home, apartment, tenement, or room in a residential establishment unless a special homework certificate issued and in effect pursuant to this part has been obtained for each homeworker or unless the homeworker is so engaged under the supervision of a Sheltered Workshop, as defined in § 525.1 of this chapter.

§ 617.3 *Application on official forms.* Certificates authorizing the employment of industrial homeworkers in the knitted outerwear industry may be issued upon the following terms and conditions upon application therefor on forms provided by the Wage and Hour and Public Contracts Divisions. Such forms shall be signed by both the homeworker and the employer.

§ 617.4 *Terms and conditions for the issuance of certificates.* (a) Upon application by the homeworker and the employer on forms provided by the Wage and Hour and Public Contracts Divisions, certificates may be issued to the applicant employer authorizing him to employ a particular worker in industrial homework: *Provided*, That the application is in proper form and sets forth facts showing that the worker:

(1) (i) Is unable to adjust to factory work because of age or physical or mental disability; or

(ii) Is unable to leave home because his presence is required to care for an invalid in the home; and

(2) (i) Was engaged in industrial homework in the industry, as defined, prior to August 20, 1941 (except that if this requirement shall result in unusual hardship to the individual homeworker it shall not be applied); or

(ii) Is engaged in industrial homework under the supervision of a State Vocational Rehabilitation Agency.

(b) No homeworker shall perform industrial homework for more than one employer in the knitted outerwear industry, but homework employment in another industry shall not be a bar to the issuance of a certificate for the knitted outerwear industry.

§ 617.5 *Investigation.* An investigation may be ordered in any case to obtain additional data or facts. A medical examination of the worker or invalid may be ordered or a certification of facts concerning eligibility for the certificate by designated officers of the State or Federal Government may be required.

§ 617.6 *Termination of certificates.* (a) Certificates shall be valid under the terms set forth in the certificate for a period of not more than 12 months from the date of issuance or such shorter period as may be fixed in the certificate. Application for renewal of any certificate shall be filed in the same manner as an original application under this part.

(b) No effective certificate shall expire until action on an application for renewal shall have been finally determined: *Provided*, That such application has been properly executed in accordance with the requirements, and filed not less than 15 nor more than 30 days prior to the expiration date. A final determination means either the granting of or initial denial of the application

for renewal of a certificate, or withdrawal of the application. A "properly executed" application is one which contains the complete information required on the form.

§ 617.7 *Revocation and cancellation.* Any certificate may be revoked for cause at any time. Violation of any provision of the Fair Labor Standards Act shall be sufficient grounds for revocation of all certificates issued to an employer, in which event no certificates shall be issued to the offending employer for a period of one year. Before any certificate is cancelled, however, interested parties shall be notified in writing of the facts warranting such cancellation and afforded an opportunity to demonstrate or achieve compliance.

§ 617.8 *Preservation of certificates.* A copy of the certificate shall be sent to the homeworker, who shall keep such certificate on the premises on which the work is performed. A copy shall also be sent to the employer, who shall keep this copy on file in the same place at which the worker's employment records are maintained.

§ 617.9 *Records and reports.* The issuance of a certificate shall not relieve the employer of the duty of maintaining the records required by the regulations in Part 516 of this chapter and failure to keep such records shall be sufficient cause for the cancellation of certificates issued to such an employer.

§ 617.10 *Delegation of authority to grant, deny, or cancel a certificate.* The Administrator may from time to time designate and appoint members of his staff or State agencies as his authorized representatives with full power and authority to grant, deny, or cancel homework certificates.

§ 617.11 *Petition for review.* Any person aggrieved by the action of an authorized representative of the Administrator in granting or denying a certificate may, within 15 days thereafter or within such additional time as the Administrator for cause shown may allow, file with the Administrator a petition for review of the action of such representative praying for such relief as is desired. Such petition for review, if duly filed, will be acted upon by the Administrator or an authorized representative of the Administrator who took no part in the proceeding being reviewed. All interested parties will be afforded an opportunity to present their views in support of or in opposition to the matters prayed for in the petition.

§ 617.12 *Petition for amendment of regulations.* Any person wishing an amendment, addition, or revision of any of the terms of the regulations of this part may submit in writing to the Administrator a petition setting forth the changes desired and reasons for proposing them. If upon inspection of the petition or upon his own motion the Administrator believes that reasonable cause for amendment of the rules and regulations appears, the Administrator will, unless it is impractical, unnecessary, or contrary to the public interest to do so, either schedule a hearing with due notice to interested persons or make other provisions to afford interested persons opportunity to present their views in support of or in opposition to the proposed changes.

AUTHORITY: §§ 621.1 to 621.13 issued under secs. 8, 11, 52 Stat. 1064, 1066; 29 U. S. C. 208, 211.

§ 621.10 *Definitions.* (a) The meaning of the terms "person", "employ", "employer", "employee", "goods", and "production", as used in this part, is the same as in the Fair Labor Standards Act of 1938, as amended.

(b) "Industrial homeworker" and "homeworker", as used in this part, mean any employee employed or suffered or permitted to perform industrial homework for an employer.

(c) "Industrial homework", as used in this part, means the production by any person in or about a house, apartment, tenement, or room in a residential establishment of goods for an employer who suffers or permits such production, regardless of the source (whether obtained from an employer or elsewhere) of the materials used by the homeworker in such production.

(d) The gloves and mittens industry, to which this part shall apply, is defined as follows: The production of gloves and mittens from any material or combination of materials, except athletic gloves and mittens.

§ 621.2 *Restriction of homework.* No work in the gloves and mittens industry, as defined in § 621.1 (d), shall be done in or about a home, apartment, tenement, or room in a residential establishment unless a special homework certificate issued and in effect pursuant to this part has been obtained for each homeworker or unless the homeworker is so engaged under the supervision of a Sheltered Workshop, as defined in § 525.1 of this chapter.

§ 621.3 *Application on official forms.* Certificates authorizing the employment of industrial homeworkers in the gloves and mittens industry may be issued upon the following terms and conditions upon application therefor on forms provided by the Wage and Hour and Public Contracts Divisions. Such forms shall be signed by both the homeworker and the employer.

§ 621.4 *Terms and conditions for the issuance of certificates.* (a) Upon application by the homeworker and the employer on forms provided by the Wage and Hour and Public Contracts Divisions, certificates may be issued to the applicant employer authorizing him to employ a particular worker in industrial homework: *Provided,* That the application is in proper form and sets forth facts showing that the worker:

(1) (i) Is unable to adjust to factory work because of age or physical or mental disability; or

(ii) Is unable to leave home because his presence is required to care for an invalid in the home; and

(2) (i) Was engaged in industrial homework in the industry, as defined, prior to April 1, 1941 (except that if this requirement shall result in unusual hardship to the individual homeworker it shall not be applied); or

(ii) Is engaged in industrial homework under the supervision of a State Vocational Rehabilitation Agency.

(b) No homeworker shall perform industrial homework for more than one employer in the gloves and mittens industry, but homework employment in another industry shall not be a bar to the issuance of a certificate for the gloves and mittens industry.

§ 621.5 *Effect of homework certificates issued by the New York State Department of Labor.* Any certificate issued to an industrial homeworker by the New York State Department of Labor under paragraph II of Home Work Order No. 4 Restricting Industrial Home Work in the Glove Industry, dated June 28, 1941, will be given effect by the Administrator as a certificate permitting the employment of the homeworker under the terms of § 621.4 for the period during which such certificate shall continue in force.

§ 621.6 *Investigation.* An investigation may be ordered in any case to obtain additional data or facts. A medical examination of the worker or invalid may be ordered or a certification of facts concerning eligibility for the certificate by designated officers of the State or Federal Government may be required.

§ 621.7 *Termination of certificates.* (a) Certificates shall be valid under the terms set forth in the certificate for a period of not more than 12 months from the date of issuance or such shorter period as may be fixed in the certificate. Application for renewal of any certificate shall be filed in the same manner as an original application under this part.

(b) No effective certificate shall expire until action on an application for renewal shall have been finally determined: *Provided,* That such application has been properly executed in accordance with the requirements, and filed not less than 15 nor more than 30 days prior to the expiration date. A final determination means either the granting of or initial denial of the application for renewal of a certificate, or withdrawal of the application. A "properly executed" application is one which contains the complete information required on the form.

§ 621.8 *Revocation and cancellation.* Any certificate may be revoked for cause at any time. Violation of any provision of the Fair Labor Standards Act shall be sufficient grounds for revocation of all certificates issued to an employer, in which event no certificates shall be issued to the offending employer for a period of one year. Before any certificate is cancelled, however, interested parties shall be notified in writing of the facts warranting such cancellation and afforded an opportunity to demonstrate or achieve compliance.

§ 621.9 *Preservation of certificates.* A copy of the certificate shall be sent to the homeworker, who shall keep such certificate on the premises on which the work is performed. A copy shall also be sent to the employer, who shall keep this copy on file in the same place at which the worker's employment records are maintained.

§ 621.10 *Records and reports.* The issuance of a certificate shall not relieve the employer of the duty of maintaining the records required by the regulations in Part 516 of this chapter and failure to keep such records shall be sufficient cause for the cancellation of certificates issued to such an employer.

§ 621.11 *Delegation of authority to grant, deny, or cancel a certificate.* The Administrator may from time to time designate and appoint members of his staff or State agencies as his authorized representatives with full power and authority to grant, deny, or cancel homework certificates.

§ 621.12 *Petition for review.* Any person aggrieved by the action of an authorized representative of the Administrator in granting or denying a certificate may, within 15 days thereafter or within such additional time as the Administrator for cause shown may allow, file with the Administrator a petition for review of the action of such representative praying for such relief as is desired. Such petition for review, if duly filed, will be acted upon by the Administrator or an authorized representative of the Administrator who took no part in the proceeding being reviewed. All interested parties will be afforded an opportunity to present their views in support of or in opposition to the matters prayed for in the petition.

§ 621.13 *Petition for amendment of regulations.* Any person wishing an amendment, addition, or revision of any of the terms of the regulations of this part may submit in writing to the Administrator a petition setting forth the changes desired and reasons for proposing them. If upon inspection of the petition or upon his own motion the Administrator believes that reasonable cause for amendment of the rules and regulations appears, the Administrator will, unless it is impractical, unnecessary, or contrary to the public interest to do so, either schedule a hearing with due notice to interested persons or make other provisions to afford interested persons opportunity to present their views in support of or in opposition to the proposed changes.

- 625.12 Petition for amendment of regulations.

AUTHORITY: §§ 625.1 to 625.12 issued under secs. 8, 11, 52 Stat. 1064, 1066; 29 U. S. C. 208, 211.

§ 625.1 *Definitions.* (a) The meaning of the terms "person", "employ", "employer", "employee", "goods", and "production", as used in this part, is the same as in the Fair Labor Standards Act of 1938, as amended.

(b) "Industrial homeworker" and "homeworker", as used in this part, mean any employee employed or suffered or permitted to perform industrial homework for an employer.

(c) "Industrial homework", as used in this part, means the production by any person in or about a home, apartment, tenement, or room in a residential establishment of goods for an employer who suffers or permits such production, regardless of the source (whether obtained from an employer or elsewhere) of the materials used by the homeworker in such production.

(d) The button and buckle manufacturing industry, to which this part shall apply, is hereby defined as follows: The manufacture of buttons, buckles, and slides, and the manufacture of blanks and parts for such articles from any material except metal, for use on apparel.

§ 625.2 *Restriction of homework.* No work in the button and buckle manufacturing industry, as defined in § 625.1 (d), shall be done in or about a home, apartment, tenement, or room in a residential establishment unless a special homework certificate issued and in effect pursuant to this part has been obtained for each homeworker or unless the homeworker is so engaged under the supervision of a Sheltered Workshop, as defined in § 525.1 of this chapter.

§ 625.3 *Applications on official forms.* Certificates authorizing the employment of industrial homeworkers in the button and buckle manufacturing industry may be issued upon the following terms and conditions upon application therefor on forms provided by the Wage and Hour and Public Contracts Divisions. Such forms shall be signed by both the homeworker and the employer.

§ 625.4 *Terms and conditions for the issuance of certificates.* (a) Upon application by the homeworker and the employer on forms provided by the Wage and Hour and Public Contracts Divisions, certificates may be issued to the applicant employer authorizing him to employ a particular worker in industrial homework: *Provided,* That the application is in proper form and sets forth facts showing that the worker:

(1) (i) Is unable to adjust to factory work because of age or physical or mental disability; or

(ii) Is unable to leave home because his presence is required to care for an invalid in the home; and

(2) (i) Was engaged in industrial homework in the industry, as defined, prior to April 4, 1942 (except that if this requirement shall result in unusual hardship to the individual homeworker it shall not be applied); or

(ii) Is engaged in industrial homework under the supervision of a State Vocational Rehabilitation Agency.

(b) No homeworker shall perform industrial homework for more than one employer in the button and buckle manufacturing industry, but homework employment in another industry shall not be a bar to the issuance of a certificate for the button and buckle industry.

§ 625.5 *Investigation.* An investigation may be ordered in any case to obtain additional data or facts. A medical examination of the worker or invalid may be ordered or a certification of facts concerning eligibility for the certificate by designated officers of the State or Federal Government may be required.

§ 625.6 *Termination of certificates.* (a) Certificates shall be valid under the terms set forth in the certificate for a period of not more than 12 months from the date of issuance or such shorter period as may be fixed in the certificate. Application for renewal of any certificate shall be filed in the same manner as an original application under this part.

(b) No effective certificate shall expire until action on an application for renewal shall have been finally determined: *Provided,* That such application has been properly executed in accordance with the requirements, and filed not less than 15 nor more than 30 days prior to the expiration date. A final determination means either the granting of or initial denial of the application for renewal of a certificate, or withdrawal of the application. A "properly executed" application is one which contains the complete information required on the form.

§ 625.7 *Revocation and cancellation.* Any certificate may be revoked for cause at any time. Violation of any provision of the Fair Labor Standards Act shall be sufficient grounds for revocation of all certificates issued to an employer, in which event no certificates shall be issued to the offending employer for a period of one year. Before any certificate is cancelled, however, interested parties shall be notified in writing of the facts warranting such cancellation and afforded an opportunity to demonstrate or achieve compliance.

§ 625.8 *Preservation of certificates.* A copy of the certificate shall be sent to the homeworker, who shall keep such certificate on the premises on which the work is performed. A copy shall also be sent to the employer, who shall keep

this copy on file in the same place at which the worker's employment records are maintained.

§ 625.9 *Records and reports.* The issuance of a certificate shall not relieve the employer of the duty of maintaining the records required by the regulations in Part 516 of this chapter and failure to keep such records shall be sufficient cause for the cancellation of certificates issued to such an employer.

§ 625.10 *Delegation of authority to grant, deny, or cancel a certificate.* The Administrator may from time to time designate and appoint members of his staff or State agencies as his authorized representatives with full power and authority to grant, deny, or cancel homework certificates.

§ 625.11 *Petition for review.* Any person aggrieved by the action of an authorized representative of the Administrator in granting or denying a certificate may, within 15 days thereafter or within such additional time as the Administrator for cause shown may allow, file with the Administrator a petition for review of the action of such representative praying for such relief as is desired. Such petition for review, if duly filed, will be acted upon by the Administrator or an authorized representative of the Administrator who took no part in the proceeding being reviewed. All interested parties will be afforded an opportunity to present their views in support of or in opposition to the matters prayed for in the petition.

§ 625.12 *Petition for amendment of regulations.* Any person wishing an amendment, addition, or revision of any of the terms of the regulations of this part may submit in writing to the Administrator a petition setting forth the changes desired and reasons for proposing them. If upon inspection of the petition or upon his own motion the Administrator believes that reasonable cause for amendment of the rules and regulations appears, the Administrator will, unless it is impractical, unnecessary, or contrary to the public interest to do so, either schedule a hearing with due notice to interested persons or make other provisions to afford interested persons opportunity to present their views in support of or in opposition to the proposed changes.

PART 628—HANDKERCHIEF MANUFACTURING INDUSTRY, HOMEWORKER REGULATIONS

Sec.

628.9 Records and reports.
628.10 Delegation of authority to grant, deny, or cancel a certificate.
628.11 Petition for review.
628.12 Petition for amendment of regulations.

AUTHORITY: §§ 628.1 to 628.12 issued under secs. 8, 11, 52 Stat. 1064, 1066; 29 U. S. C. 208, 211.

§ 628.1 *Definitions.* (a) The meaning of the terms "person", "employ", "employer", "employee", "goods", and "production", as used in this part, is the same as in the Fair Labor Standards Act of 1938, as amended.

(b) "Industrial homeworker" and "homeworker", as used in this part, mean any employee employed or suffered or permitted to perform industrial homework for an employer.

(c) "Industrial homework", as used in this part, means the production by any person in or about a home, apartment, tenement, or room in a residential establishment of goods for an employer who suffers or permits such production, regardless of the source (whether obtained from an employer or elsewhere) of the materials used by the homeworker in such production.

(d) The handkerchief manufacturing industry, to which this part shall apply, is hereby defined as follows: The manufacture of men's, women's and children's handkerchiefs, plain or ornamented, from any materials.

§ 628.2 *Restriction of homework.* No work in the handkerchief industry, as defined in § 628.1 (d), shall be done in or about a home, apartment, tenement, or room in a residential establishment unless a special homework certificate issued and in effect pursuant to this part has been obtained for each homeworker or unless the homeworker is so engaged under the supervision of a Sheltered Workshop, as defined in § 525.1 of this chapter.

§ 628.3 *Applications on official forms.* Certificates authorizing the employment of industrial homeworkers in the handkerchief manufacturing industry may be issued upon the following terms and conditions upon application therefor on forms provided by the Wage and Hour and Public Contracts Divisions. Such forms shall be signed by both the homeworker and the employer.

§ 628.4 *Terms and conditions for the issuance of certificates.* (a) Upon application by the homeworker and the employer on forms provided by the Wage and Hour and Public Contracts Divisions, certificates may be issued to the applicant employer authorizing him to employ a particular worker in industrial homework: *Provided*, That the application is in proper form and sets forth facts showing that the worker:

(1) (i) Is unable to adjust to factory work because of age or physical or mental disability; or

(ii) Is unable to leave home because his presence is required to care for an invalid in the home; and

(2) (i) Was engaged in industrial homework in the industry, as defined, prior to October 7, 1942 (except that if this requirement shall result in unusual hardship to the individual homeworker it shall not be applied); or

(ii) Is engaged in industrial homework under the supervision of a State Vocational Rehabilitation Agency.

(b) No homeworker shall perform industrial homework for more than one employer in the handkerchief industry, but homework employment in another industry shall not be a bar to the issuance of a certificate for the handkerchief industry.

§ 628.5 *Investigation.* An investigation may be ordered in any case to obtain additional data or facts. A medical examination of the worker or invalid may be ordered or a certification of facts concerning eligibility for the certificate by designated officers of the State or Federal Government may be required.

§ 628.6 *Termination of certificates.* (a) Certificates shall be valid under the terms set forth in the certificate for a period of not more than 12 months from the date of issuance or such shorter period as may be fixed in the certificate. Application for renewal of any certificate shall be filed in the same manner as an original application under this part.

(b) No effective certificate shall expire until action on an application for renewal shall have been finally determined: *Provided*, That such application has been properly executed in accordance with the requirements, and filed not less than 15 nor more than 30 days prior to the expiration date. A final determination means either the granting of or initial denial of the application for renewal of a certificate, or withdrawal of the application. A "properly executed" application is one which contains the complete information required on the form.

§ 628.7 *Revocation and cancellation.* Any certificate may be revoked for cause at any time. Violation of any provision of the Fair Labor Standards Act shall be sufficient grounds for revocation of all certificates issued to an employer, in which event no certificates shall be issued to the offending employer for a period of one year. Before any certificate is canceled, however, interested parties shall be notified in writing of the facts warranting such cancellation and afforded an opportunity to demonstrate or achieve compliance.

§ 628.8 *Preservation of certificates.* A copy of the certificate shall be sent to the homeworker, who shall keep such certificate on the premises on which the work is performed. A copy shall also be sent to the employer, who shall keep this copy on file in the same place at which the worker's employment records are maintained.

§ 628.9 *Records and reports.* The issuance of a certificate shall not relieve the employer of the duty of maintaining the records required by the regulations in Part 516 of this chapter and failure to keep such records shall be sufficient cause for the cancellation of certificates issued to such an employer.

§ 628.10 *Delegation of authority to grant, deny, or cancel a certificate.* The Administrator may from time to time designate and appoint members of his staff or State agencies as his authorized representatives with full power and authority to grant, deny, or cancel homework certificates.

§ 628.11 *Petition for review.* Any person aggrieved by the action of an authorized representative of the Administrator in granting or denying a certificate may, within 15 days thereafter or within such additional time as the Administrator for cause shown may allow, file with the Administrator a petition for review of the action of such representative praying for such relief as is desired. Such petition for review, if duly filed, will be acted upon by the Administrator or an authorized representative of the Administrator who took no part in the proceeding being reviewed. All interested parties will be afforded an opportunity to present their views in support of or in opposition to the matters prayed for in the petition.

§ 628.12 *Petition for amendment of regulations.* Any person wishing an amendment, addition, or revision of any of the terms of the regulations of this part may submit in writing to the Administrator a peition setting forth the changes desired and reasons for proposing them. If upon inspection of the petition, or upon his own motion the Administrator believes that reasonable cause for amendment of the rules and regulations appears, the Administrator will, unless it is impractical, unnecessary, or contrary to the public interest to do so, either schedule a hearing with due notice to interested persons or make other provisions to afford interested persons opportunity to present their views in support of or in opposition to the proposed changes.

PART 633—EMBROIDERIES INDUSTRY, HOMEWORKER REGULATIONS

Sec.

AUTHORITY: §§ 633.1 to 633.12 issued under secs. 8, 11, 52 Stat. 1064, 1066; 29 U. S. C. 208, 211.

§ 633.1 *Definitions.* (a) The meaning of the terms "person", "employ", "employer", "employee", "goods", and "production", as used in this part, is the same as in the Fair Labor Standards Act of 1938, as amended.

(b) "Industrial homeworker" and "homeworker", as used in this part, means any employee employed or suffered or permitted to perform industrial homework for an employer.

(c) "Industrial homework", as used in this part, means the production by any person in or about a home, apartment, tenement, or room in a residential establishment of goods for an employer who suffers or permits such production, regardless of the source (whether obtained from an employer or elsewhere) of the materials used by the homeworker in such production.

(d) The embroideries industry, to which this part shall apply, is hereby defined as follows: The production of all kinds of hand and machine-made embroideries and ornamental stitchings, including, but not by way of limitation, tucking, shirring, smocking, hemstitching, hand rolling, fagoting, Bonnaz embroidery, appliqueing, crochet beading, hand drawing, machine drawing, rhinestone trimming, sequin trimming, spangle trimming, eyelets, passementerie, pleating, the application of rhinestones and nailheads, stamping and perforating of designs, Schifli embroidery and laces, burnt-out laces and velvets, Swiss handmachine embroidery, thread splitting, embroidery thread cutting, scallop cutting, lace cutting, lace making-up, making-up of embroidered yard goods, straight cutting of embroidery and cutting out of embroidery, embroidery trimmings, bindings (not made in textile establishments), pipings, and emblems: *Provided*, That (1) the foregoing when produced or performed by a manufacturer of a garment, fabric or other article for use on such garment, fabric or other article, and (2) the manufacture of covered buttons and buckles, shall not be included.

§ 633.2 *Restriction of homework.* No work in the embroideries industry, as defined in § 633.1 (d), shall be done in or about a home, apartment, tenement, or room in a residential establishment unless a special homework certificate issued and in effect pursuant to this part has been obtained for each homeworker or unless the homeworker is so engaged under the supervision of a Sheltered Workshop as defined in § 525.1 of this chapter.

§ 633.3 *Application on official forms.* Certificates authorizing the employment of industrial homeworkers in the embroideries industry may be issued upon the following terms and conditions upon application therefor on forms provided by the Wage and Hour and Public Contracts Divisions. Such forms shall be signed by both the homeworker and the employer.

§ 633.4 *Terms and conditions for the issuance of certificates.* (a) Upon application by the homeworker and the employer on forms provided by the Wage and Hour and Public Contracts Divisions, certificates may be issued to the applicant employer authorizing him to employ a particular worker in industrial homework: *Provided*, That the application is in proper form and sets forth facts showing that the worker:

(1) (i) Is unable to adjust to factory work because of age or physical or mental disability; or

(ii) Is unable to leave home because his presence is required to care for an invalid in the home; and

(2) (i) Was engaged in industrial homework in the industry, as defined, prior to November 2, 1942 (except that if this requirement shall result in unusual hardship to the individual homeworker it shall not be applied); or

(ii) Is engaged in industrial homework under the supervision of a State Vocational Rehabilitation Agency.

(b) No homeworker shall perform industrial homework for more than one employer in the embroideries industry, but homework employment in another industry shall not be a bar to the issuance of a certificate for the embroideries industry.

§ 633.5 *Investigation.* An investigation may be ordered in any case to obtain additional data or facts. A medical examination of the worker or invalid may be ordered or a certification of facts concerning eligibility for the certificate by designated officers of the State or Federal Government may be required.

§ 633.6 *Termination of certificates.* (a) Certificates shall be valid under the terms set forth in the certificate for a period of not more than 12 months from the date of issuance or such shorter period as may be fixed in the certificate. Application for renewal of any certificate shall be filed in the same manner as an original application under this part.

(b) No effective certificate shall expire until action on an application for renewal shall have been finally determined: *Provided*, That such application has been properly executed in accordance with the requirements, and filed not less than 15 nor more than 30 days prior to the expiration date. A final determination means either the granting of or initial denial of the application for renewal of a certificate, or withdrawal of the application. A "properly executed" application is one which contains the complete information required on the form.

§ 633.7 *Revocation and cancellation.* Any certificate may be revoked for cause at any time. Violation of any provision of the Fair Labor Standards Act shall be sufficient grounds for revocation of all certificates issued to an employer, in which event no certificates shall be issued to the offending employer for a period of one year. Before any certificate is cancelled, however, interested parties shall be notified in writing of the facts warranting such cancellation and afforded an opportunity to demonstrate or achieve compliance.

§ 633.8 *Preservation of certificates.* A copy of the certificates shall be sent to the homeworker, who shall keep such certificate on the premises on which the work is performed. A copy shall also be sent to the employer, who shall keep this copy on file in the same place at which the worker's employment records are maintained.

§ 633.9 *Records and reports.* The issuance of a certificate shall not relieve the employer of the duty of maintaining the records required by the regulations in Part 516 of this chapter and failure to keep such records shall be sufficient cause for the cancellation of certificates issued to such an employer.

§ 633.10 *Delegation of authority to grant, deny, or cancel a certificate.* The Administrator may from time to time designate and appoint members of his

staff or State agencies as his authorized representatives with full power and authority to grant, deny, or cancel homework certificates.

§ 633.11 *Petition for review.* Any person aggrieved by the action of an authorized representative of the Administrator in granting or denying a certificate may, within 15 days thereafter or within such additional time as the Administrator for cause shown may allow, file with the Administrator a petition for review of the action of such representative praying for such relief as is desired. Such petition for review, if duly filed, will be acted upon by the Administrator or an authorized representative of the Administrator who took no part in the proceeding being reviewed. All interested parties will be afforded an opportunity to present their views in support of or in opposition to the matters prayed for in the petition.

§ 633.12 *Petition for amendment of regulations.* Any person wishing an amendment, addition, or revision of any of the terms of the regulations of this part may submit in writing to the Administrator a petition setting forth the changes desired and reasons for proposing them. If upon inspection of the petition or upon his own motion the Administrator believes that reasonable cause for amendment of the rules and regulations appears, the Administrator will, unless it is impractical, unnecessary, or contrary to the public interest to do so, either schedule a hearing with due notice to interested persons or make other provisions to afford interested persons opportunity to present their views in support of or in opposition to the proposed changes.

Signed at Washington, D. C., this 13th day of June 1955.

STUART ROTHMAN,
Solicitor of Labor.

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 55-24]

LICENSING OR CERTIFICATING OF MERCHANT MARINE PERSONNEL AND DENIAL OR REVOCATION OF LICENSES, DOCUMENTS, OR CERTIFICATES

A notice regarding proposed changes in the navigation and vessel inspection rules and regulations was published in the FEDERAL REGISTER dated February 18, 1955 (20 F. R. 1055-1057), as Items I to IX, inclusive, on the Agenda to be considered by the Merchant Marine Council, and a public hearing was held on March 22, 1955, at Washington, D. C. This document is the fourth of a series of documents covering the rules and regulations considered at this public hearing.

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing have been very helpful to the Coast Guard and are very much appreciated. The amendments in this document are based on Items V, VI, and IX in the Agenda.

The provisions of Public Law 500, 83d Congress (68 Stat. 484), provide authority for the revocation or denial of licenses, documents, or certificates to persons involved in certain narcotic violations or who are the users of or addicted to the use of narcotic drugs. This law also provides that if a person has been issued a license, document, or certificate by the Coast Guard, then the Coast Guard may take action seeking to revoke such holder's license, document, or certificate. This authority is specific and applies regardless of whether or not the holder of a Coast Guard license, document, or certificate is acting under the authority of such a license, document, or certificate. The amendments in this document to 46 CFR 10.02-1, 10.02-9, 10.13-5, 10.13-21, 10.15-25, 10.20-3, 10.20-9, and 10.25-7 revise the regulations regarding licensing of officers and motorboat operators and registration of staff officers to implement the requirements in Public Law 500, 83d Congress, approved July 15, 1954. These amendments are based on Item VI in the Agenda.

The amendment to 46 CFR 12.02-4 describes the new requirements regarding denial of documents or certificates to merchant seamen. This amendment is based on Item VI in the Agenda.

The amendment to 46 CFR 12.25-5 revises the requirements regarding commitment of employment for merchant seamen applying for additional endorsements in entry ratings or for more than one entry rating at the time the commitment of employment is presented. This amendment is based on Item IX in the Agenda.

The purpose for amending 46 CFR 10.05-15 is to revise the service requirements for a license as master of steam and motor vessels navigating bays, sounds, and lakes other than the Great Lakes. This amendment is based on Item V in the Agenda.

The amendment to 46 CFR 10.05-39 revises the regulations governing qualifying requirements for examinations for pilots. This amendment establishes the type of service required in order for a person to be eligible for examination as a pilot. The amendment to 46 CFR 10.05-41 revises the requirements governing the eligibility of the holders of certain grades and classes of licenses for endorsements on such licenses as pilots. This amendment allows the holders of ocean or coastwise deck licenses to be considered eligible for a pilot's endorsement on any waters upon completing the number of round trips over the pilotage routing required for their particular grade and class of license. The amendment to 46 CFR 10.05-43 revises the regulations regarding the examination for license as pilot. The examination syllabus for pilot has been changed to show in more detail the subject matter now covered in the examination. These amendments are based on Item V in the Agenda.

As a result of the enactment of Public Law 500, 83d Congress (68 Stat. 484), certain changes in the regulations governing suspension and revocation proceedings are necessary. The amendments in this document to 46 CFR Part 137 eliminate or revise certain requirements to conform with the changes made by Public Law 500, 83d Congress. In addition certain changes have been made to clarify the regulations and to meet objections raised in connection with the administration of suspension and revocation proceedings involving licenses, documents, or certificates issued to merchant seamen. The amendments to 46 CFR 137.01-1 to 137.01-15 revise and bring up to date the scope and authority of these regulations. The new regulations designated 46 CFR Subpart 137.04, consisting of §§ 137.04-1 to 137.04-20, establish new proceedings to be followed when seeking the revocation of licenses, documents, or certificates under Public Law 500. The amendment to 46 CFR 137.04-5 (a), regarding investigating procedures, brings up to date the procedures followed by the investigating officer. The amendment to 46 CFR 137.17-5, regarding final opinions and orders, will make available for public inspection at Coast Guard Headquarters, Washington, D. C., and in each district office a file of final decisions of the Commandant on appeals in the adjudication of disciplinary proceedings. This file may be inspected or examined by parties in interest during the usual business hours of the Coast Guard. Any and all portions of these files may be reproduced and supplied upon cost of reproduction.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and Treasury Department Order 179-9, dated August 3, 1954 (19 F. R. 5195), to promulgate regulations in accordance with the statutes cited with the regulations below: *It is ordered,* That:

(a) The temporary instructions regarding denial or revocation of seamen's documents (CGFR 54-41) published in the FEDERAL REGISTER dated October 16, 1954, are canceled 90 days after the date of the publication of this document in the FEDERAL REGISTER, except that all actions initiated or in process of determination under these temporary instructions shall be continued as though the instructions had not been canceled; and,

(b) All the amendments and new regulations in this document are prescribed and shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER.

Subchapter B—Merchant Marine Officers and Seamen

PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

SUBPART 10.02—GENERAL REQUIREMENTS FOR ALL DECK AND ENGINEER OFFICERS' LICENSES

1. Section 10.02-1 (a) is amended to read as follows:

§ 10.02-1 *Issuance of licenses.* (a) Applicants for licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be entitled to be issued licenses. Until an applicant meets this mandatory requirement, he is not entitled to be licensed to serve as an officer on a vessel of the United States. No person who has been convicted by court-martial of desertion or treason in time of war, or has lost his nationality for any of the other reasons listed in 8 U. S. C. 801, is eligible for a license. Neither is a person eligible for a license, who has been convicted by a court of record of a violation of the narcotic drug laws of the United States, the District of Columbia, or any State or Territory of the United States, within ten years prior to the date of filing the application; or who, unless he furnishes satisfactory evidence that he is cured, has ever been the user of or addicted to the use of a narcotic drug.

2. Section 10.02-9 is amended by adding a new subparagraph (1) to paragraph (a) and by revising paragraph (b) (1), reading as follows:

§ 10.02-9 *Requirements for renewal of license.* (a) • • •

(1) *Written application.* The Officer in Charge, Marine Inspection, shall, before granting renewal of license, require the applicant to make written application on Coast Guard Form CG-3479.

(b) • • •

(1) A letter of transmittal indicating reasons for not appearing in person and stating to the best of his knowledge no physical incapacity exists, together with a properly executed applications on Coast Guard Form CG-3479.

SUBPART 10.05—PROFESSIONAL REQUIREMENTS FOR DECK OFFICERS' LICENSES (INSPECTED VESSELS)

3. Section 10.05-15 is amended to read as follows:

§ 10.05-15 *Master of bays, sounds and lakes other than the Great Lakes, steam and motor vessels.* (a) The minimum service required to qualify an applicant for license as master of steam and motor vessels on bays, sounds and lakes other than the Great Lakes is:

(1) One year's service as first class pilot of steam and motor vessels on bays, sounds and lakes other than the Great Lakes; or,

(2) One year's service as mate of steam and motor vessels on bays, sounds and lakes other than the Great Lakes; or,

(3) One year's service as master of steam or motor vessels of 150 gross tons or under on bays, sounds and lakes other than the Great Lakes, while acting under the authority of a first-class pilot's license, for a license as master of bays, sounds and lakes other than the Great Lakes, steam or motor vessels of a tonnage commensurate with the experience of the applicant, but of not more than 500 gross tons; or,

(4) Two years' service in the deck department of steam or motor vessels on bays, sounds and lakes other than the Great Lakes, while holding a license as first-class pilot for bays, sounds and lakes other than the Great Lakes, as quartermaster or wheelsman for a license as master of steam and motor freight and towing vessels on bays, sounds and lakes other than the Great Lakes, limited to a gross tonnage commensurate with the experience of the applicant, but not more than 500 gross tons.

4. Section 10.05-39 is amended to read as follows:

§ 10.05-39 *Pilot.* (a) The minimum service required to qualify an applicant for a license as pilot is:

(1) Three years' service in the deck department of ocean, coastwise, Great Lakes or bays, sounds and lakes, other than the Great Lakes, steam or motor vessels, of which 18 months shall have been as able seaman, or service in a capacity at least the equivalent of able seaman. Of the 18 months as able seaman, or equivalent capacity, at least 1 year shall have been on vessels operating on the waters of the class for which pilotage is desired in the capacity of quartermaster, wheelsman, able seaman or equivalent capacity, who stands regular watches at the wheel or in the pilothouse as part of his routine duties; and,

(i) Twenty-five percent of such service shall have been obtained within the 3 years immediately preceding the date of application; and,

(ii) The required service shall include a minimum number of round trips over the route for which the applicant seeks license as pilot, as may be fixed by the Officer in Charge, Marine Inspection, having jurisdiction. (Experience on motorboats as defined by statutes may be accepted by Officers in Charge, Marine Inspection, for a license or endorsement as pilot, but such licenses or endorsements shall be limited to a gross tonnage commensurate with such experience, irrespective of any other license or endorsement held by the applicant); and,

(iii) One of the required number of round trips shall have been made over the route within the 6 months immediately preceding the date of application; or,

(2) Three years' service in the deck department of any vessel of which at least one year shall have been on vessels operating on waters of rivers while serving in the capacity of quartermaster, wheelsman or deckhand who stands watches at the wheel as part of his routine duties, for license as pilot of river routes. The provisions of subdivisions (i) through (iii) in subparagraph (1) of this paragraph are applicable to this subparagraph.

(3) Two years' service in the deck department of steam or motor vessels navigating canals and small lakes, such as the New York State Barge Canal and Seneca and Cayuga Lakes in the State of New York, 1 year of which shall have been within the 2 years immediately preceding the date of application for a license as pilot of steam and motor vessels of limited tonnage for the waters and/or routes on which the qualifying service was acquired.

(b) The Officer in Charge, Marine Inspection, issuing a license or endorsement as pilot shall impose suitable limitations, commensurate with the past experience and qualifications of the applicant, with respect to class of vessel for which valid, tonnage, route and waters.

5. Section 10.05-41 is amended to read as follows:

§ 10.05-41 *Endorsement of masters' or mates' license as pilot or extension of pilot's route.* (a) A master or mate applying for endorsement of his license for authority to act as pilot, or a pilot desiring an extension of route, shall produce proof of experience acquired by a minimum number of round trips over the particular waters for which he seeks such endorsement or extension as may be required by the Officer in Charge, Marine Inspection, having jurisdiction. One of the required number of round trips shall

have been made within the 6 months immediately preceding the date of application.

(b) The holder of a license as master or mate of ocean or coastwise vessels who has had recent satisfactory service under the authority of his license is eligible for examination for endorsement as pilot on any waters upon completing the number of round trips over the route required for his grade of license by the Officer in Charge, Marine Inspection, having jurisdiction, while serving in the capacity of quartermaster, wheelsman or able seaman who stands regular watches at the wheel as part of his routine duties. Experience as an observer, properly certified by the master and/or pilot of the vessel is also acceptable in such cases. An endorsement as pilot granted under these provisions shall be limited to the tonnage and class of vessels for which the holder's license as master or mate is valid, except as provided in § 10.05–39 (a) (1) (ii).

6. Section 10.05–43 is amended to read as follows:

§ 10.05–43 *Examination for license as pilot.* (a) An applicant for license as pilot or endorsement of masters' or mates' license as pilot or extension of pilot's route shall be required to pass a satisfactory examination as to his knowledge of the subjects listed in this paragraph:

(1) Pilot rules.
(2) Inland rules applicable to route.
(3) Local knowledge of winds, weather, tides, currents, etc.
(4) Chart navigation.
(5) Aids to navigation.
(6) Ship handling.
(7) Chart sketch of the route and waters applied for, showing courses, distances, shoals, aids to navigation, depths of water and other important features of the route.
(8) General: Such further examination as the Officer in Charge, Marine Inspection, may consider necessary to establish the applicant's proficiency.

(b) An applicant for extension of pilot's route on waters of the same class and general area as that for which he is already licensed shall only be examined on the italicized subjects in paragraph (a) of this section.

SUBPART 10.13—LICENSING OF RADIO OFFICERS

7. Section 10.13–5 (a) is amended to read as follows:

§ 10.13–5 *General provisions respecting all licenses issued.* (a) Applicants for licenses, issued in accordance with this subpart, are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as, age, experience, character and citizenship, before they shall be entitled to be issued licenses. Until an applicant meets this mandatory requirement, he is not entitled to be licensed to serve as an officer on a vessel of the United States. No person who has been convicted by court-martial of desertion or treason in time of war, or has lost his nationality for any of the other reasons listed in 8 U. S. C. 801, is eligible for a license. Neither is a person eligible for a license, who has been convicted by a court of record of a violation of the narcotic drug laws of the United States, the District of Columbia, or any State or Territory of the United States, within ten years prior to the date of filing the application; or who, unless he furnishes satisfactory evidence that he is cured, has ever been the user of or addicted to the use of a narcotic drug.

8. Section 10.13–21 is amended by adding a new subparagraph (1) to paragraph (a) and by revising paragraph (b) (1), reading as follows:

§ 10.13–21 *General requirements for renewal of license.* (a) • • •

(1) *Written application.* The Officer in Charge, Marine Inspection, shall, before granting renewal of license, require the applicant to make written application on Coast Guard Form CG–3479.

(b) • • •

(1) A letter of transmittal indicating reasons for not appearing in person and stating that to the best of his knowledge no physical incapacity exists, together with properly executed application on Coast Guard Form CG–3479.

SUBPART 10.15—LICENSING OF OFFICERS FOR UNINSPECTED VESSELS

9. Section 10.15–25 (a) is amended to read as follows:

§ 10.15–25 *Application and experience required for original or raise of grade of licenses.* (a) Applicants for original or raise of grade of licenses are charged with the duty of establishing to the satisfaction of the Coast Guard that they possess all of the qualifications necessary, such as age, experience, character and citizenship, before they shall be entitled to be issued such license. Until an applicant meets this mandatory requirement, he is not entitled to be licensed. No person who has been convicted by court-martial of desertion or treason in time of war, or has lost his nationality for any of the other reasons listed in 8 U. S. C. 801, is eligible for a license. Neither is a person eligible for a license, who has been convicted by a court of record of a violation of the narcotic drug laws of the United States, the District of Columbia, or any State or Territory of the United States, within ten years prior to the date of filing the application; or who, unless he furnishes satisfactory evidence that he is cured, has ever been the user of or addicted to the use of a narcotic drug.

SUBPART 10.20—MOTORBOAT OPERATORS LICENSES

10. Section 10.20–3 (b) is amended by adding a new subparagraph (4), reading as follows:

§ 10.20–3 *General requirements.* • • •
(b) • • •

(4) No person shall be eligible for a motorboat operator's license, who has been convicted by a court of record of a violation of the narcotic drug laws of the United States, the District of Columbia, or any State or Territory of the United States, within ten years prior to date of filing the application; or who, unless he furnishes satisfactory evidence that he is cured, has ever been the user of or addicted to the use of a narcotic drug.

11. Section 10.20–9 (a) is amended by adding a new subparagraph (1), reading as follows:

§ 10.20–9 *Requirements for renewal.* (a) • • •

(1) *Written application.* The Officer in Charge, Marine Inspection, shall, before granting renewal of license, require the applicant to make written application on Coast Guard Form CG–3479.

SUBPART 10.25—REGISTRATION OF STAFF OFFICERS

12. Section 10.25–7 (d) is amended to read as follows:

§ 10.25–7 *General requirements.* • • •

(d) An applicant for registry and a certificate of registry as staff officer shall not be required to take an examination, but he shall be required to submit with his application satisfactory proof of his good character and of his prior service, including at least two letters of recommendation from present or former employers. No person shall be eligible for a certificate of registry, who has been convicted by a court of record of a violation of the narcotic drug laws of the United States, the District of Columbia, or any State or Territory of the United States, within ten years prior to the date of filing the application; or who, unless he furnishes satisfactory evidence that he is cured, has ever been the user of or addicted to the use of a narcotic drug.

PART 12—CERTIFICATION OF SEAMEN

SUBPART 12.02—GENERAL REQUIREMENTS FOR CERTIFICATION

1. Subpart 12.02 is amended by adding a new § 12.02–4, reading as follows:

§ 12.02–4 *Basis for denial of documents.* No certificate of identification, certificate of service, certificate of efficiency nor continuous discharge book shall be issued to any person who, within ten years prior to the date of filing the application, has been convicted in a court of record of a violation of the narcotic drug laws of the United States, the District of Columbia, or any State or Territory of the United States; or who, unless he furnishes satisfactory evidence that he is cured, has ever been the user of or addicted to the use of a narcotic drug.

(Secs. 1, 2, 68 Stat. 484)

SUBPART 12.25—CERTIFICATES OF SERVICE FOR RATINGS OTHER THAN ABLE SEAMAN OR QUALIFIED MEMBER OF THE ENGINE DEPARTMENT

2. Section 12.25–5 is amended to read as follows:

§ 12.25–5 *Commitment of employment.* An applicant for a certificate of service in an entry rating shall produce satisfactory proof that he has a commitment of employment as a member of the crew of a United States merchant vessel. This proof, however, shall not be required if the applicant is already in possession of a seaman's document. A transcript of service in the U. S. Navy, U. S. Coast Guard, U. S. Military Sea Transportation Service, or U. S. Army Transport Service shall be accepted in lieu of a letter of commitment. In any of these cases, the applicant may be given more than one entry rating if requested by him and if otherwise qualified.

(R. S. 4405, 4417a, 4488, 4551, as amended, sec. 13, 38 Stat. 1169, as amended, secs. 1, 2, 49 Stat. 1544, sec. 7, 49 Stat. 1936, sec. 1, 52 Stat. 753, 55 Stat. 579; 46 U. S. C. 375, 391a, 481, 643, 672, 367, 689, 672b, 672–1, 672–2)

AUTHORITY: §§ 137.01–1 to 137.04–20 issued under R. S. 4405, as amended, secs. 1, 2, 49 Stat. 1544, sec. 3 (c), 68 Stat. 676. Interpret or apply R. S. 4450, as amended, secs. 1, 2, 68 Stat. 484; 46 U. S. C. 239).

NOTE: The regulations in Subpart 137.03, consisting of §§ 137.03–1 to 137.03–30, inclusive, regarding "statements of policy", which were published in the Federal Register dated January 9, 1954, are continued in effect.

§ 137.01–1 *Purpose of regulations.* The regulations in this part establish minimum requirements and procedures governing the suspension or revocation of a license or certificate or document issued by the Coast Guard or predecessor authorities to a person qualified therefor as required by law or regulation in this chapter.

§ 137.01–5 *Assignment of functions.* (a) By Reorganization Plan No. 3 of 1946, effective July 16, 1946, the marine inspection functions of the former Bureau of Marine Inspection and Navigation and its officers and employees were transferred to the Commandant, United States Coast Guard. By Reorganization Plan No. 26 of 1950 (15 F. R. 4935; 3 CFR, 1950 Supp., p. 178; 5 U. S. C. Note under 241), effective July 31, 1950, the functions formerly vested in the Commandant, United States Coast Guard, were transferred to the Secretary of the Treasury with certain specified exceptions. The Secretary of the Treasury by an order dated July 31, 1950 (15 F. R. 6521), delegated to the Commandant the functions formerly performed by him under Reorganization Plan No. 3 of 1946. This included suspension or revocation under R. S. 4450 of any license, or certificate, or document issued by the Coast Guard or predecessor authorities.

(b) The Acting Secretary of the Treasury in Treasury Department Order 167–9, CGFR 54–33, dated August 3, 1954 (19 F. R. 5195), delegated, inter alia, to the Commandant, United States Coast Guard, the functions vested in the Secretary of the Treasury by Public Law 500, 83d Congress, 2d Session, 68 Stat. 484, approved July 15, 1954, to revoke a license or certificate or document of a person convicted of narcotic law violations or otherwise involved with narcotics. The Commandant hereby further delegates the authority to revoke a license or certificate or document to examiners which was originally granted by order dated October 11, 1954 (19 F. R. 6678).

§ 137.01–10 *Authority for regulations.* (a) The authority to prescribe regulations generally is set forth in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416), as well as in other provisions of Title 52 of the Revised Statutes and acts amendatory thereof or supplemental thereto. Under the provisions of R. S. 4403, as amended (46 U. S. C. 372), the Commandant, United States Coast Guard, superintends the administration of the navigation and vessel inspection laws and is required to produce a correct and uniform administration of such laws, rules and regulations.

(b) The mandatory provisions in R. S. 4450, as amended (46 U. S. C. 239), is the basic authority; and the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001–1011) and Public Law 500, 83d Congress, 2d Session (68 Stat. 484), require a hearing presided over by an examiner before the Coast Guard may suspend or revoke a license or certificate or document.

§ 137.01–15 *Disciplinary proceedings.* Suspension or revocation proceedings shall be instituted by an investigating officer in any case in which it appears, as a result of any investigation made under Part 136 of this subchapter, or otherwise, that there are reasonable grounds to believe that a holder of a license or certificate or document issued by the Coast Guard or its predecessor authority:

(a) Has been guilty of an act of incompetence, misconduct, negligence, unskillfulness or endangering of life, while acting under the authority of his license, certificate or document, or has violated any of the provisions of Title 52 of the Revised Statutes, as amended, or any of the regulations issued thereunder; or,

(b) Has been convicted of a narcotic drug law violation, or has been a user of or addicted to the use of a narcotic drug, so as to be subject to the provisions of Public Law 500, 83d Congress, 2d Session (secs. 1, 2, 68 Stat. 484).

SUBPART 137.04—PROCEEDINGS UNDER PUBLIC LAW 500

§ 137.04–1 *Revocation of seamen's documents.* The act of July 15, 1954, provides for the revocation of seamen's documents held by persons involved with narcotics. The term "seamen's document" includes any and all types of licenses, certificates, and documents issued to merchant mariners by the Coast Guard and predecessor authorities. Section 2 (b) of the act of July 15, 1954 (Pub. Law 500, 83d Cong.; 68 Stat. 484), reads as follows:

Sec. 2. The Secretary may—

• • • • • •

(b) Take action, based on a hearing before a Coast Guard examiner, under hearing procedures prescribed by the Administrative Procedure Act, as amended (U. S. C., title 5, secs. 1001–1011), to revoke the seaman's document of—

(1) Any person who, subsequent to the effective date of this act and within ten years prior to the institution of the action, has been convicted in a court of record of a violation of the narcotic drug laws of the United States, the District of Columbia, or any State or Territory of the United States, the revocation to be subject to the conviction's becoming final; or

(2) Any person who, unless he furnishes satisfactory evidence that he is cured, has been, subsequent to the effective date of this act, a user of or addicted to the use of a narcotic drug.

§ 137.04–5 *Procedures and proceedings.* The procedures and proceedings seeking the revocation of a seaman's document based in whole or in part on the act of July 15, 1954 (Pub. Law 500, 83d Cong.; 68 Stat. 484), as well as the appeal therefrom, shall be in accordance with the applicable regulations in this part, except where those requirements are inconsistent with the act of July 15, 1954, or this subpart. These proceedings shall be predicated upon holding an outstanding license or certificate or document, regardless of whether or not the holder was in the service of a vessel at the time of the alleged offense.

§ 137.04–10 *Suspension of seaman's document or issuance of a temporary document.* In view of the fact that the act of July 15, 1954, provides for revocation only, the only order which an examiner may enter in cases brought under this act, when the case is proved, is one of revocation. In every case proved under this act, no temporary license, certificate, or document will be issued pending determination of an appeal to the Commandant.

§ 137.04–15 *Effect of court convictions.* (a) After proof of a court conviction in accordance with section 2 (b) (1) of the act, but pending the determination of an appeal, the Coast Guard is not precluded from taking action based upon this conviction, and the examiner may enter an order revoking the seaman's document.

(b) This order of revocation will be rescinded by the Commandant if the holder submits satisfactory evidence that the court conviction on which the revocation is based has been set aside. Such order of revocation, however, will not be rescinded by the Commandant by

virtue of the provisions of any law or ruling by a court subsequent to the conviction which would relieve disabilities arising out of a suspended sentence or probation.

§ 137.04–20 *Charges and specifications.* Where proceedings are based exclusively on the provisions of section 2 (b) of the act of July 15, 1954, the charge should be "conviction of narcotic law violation" or "use of narcotics" or "addiction to use of narcotics," depending on the circumstances. The specification should allege jurisdiction by stating the elements as required by Public Law 500 and the approximate time and place of the offense. The specifications covering "use" or "addiction to the use" of narcotic drugs should be stated as dual specifications when possible. The actual proof presented at a hearing may support only a specification of "use" or "addition to the use" of narcotic drugs.

SUBPART 137.05—INVESTIGATING OFFICERS AND INVESTIGATIONS

2. Section 137.05–5 is amended by revising the first two sentences of paragraph (a) to read as follows:

§ 137.05–5 *Investigating procedures.* (a) The investigating officer shall investigate marine casualties and inquire into complaints of such nature as are set forth in § 137.01–15. Upon the completion of such investigation or inquiry, the investigating officer shall take one of the following courses of action:

SUBPART 137.17—DISCLOSURE OF RECORDS

3. Section 137.17–5 is amended to read as follows:

§ 137.17–5 *Final decision of Commandant.* There shall be maintained at Coast Guard Headquarters, Washington, D. C., and in each district office, a file of final decisions of the Commandant on appeals in the adjudication of disciplinary proceedings, which file may be inspected or examined by parties in interest during usual business hours. Any and all portions of these files may be reproduced and supplied upon payment of costs of reproduction.

Subchapter E—Load Lines

[CGFR 55–25]

PART 44—VARIANCE FOR STEAM COLLIERS, TUGS, BARGES, AND SELF-PROPELLED BARGES (WHEN ENGAGED IN SPECIAL SERVICES OF COASTWISE AND INTER-ISLAND VOYAGES)

PART 45—MERCHANT VESSELS WHEN ENGAGED IN A VOYAGE ON THE GREAT LAKES

LOAD LINES FOR TOWED BARGES AND VESSELS OF SPECIAL DESIGN

A notice regarding proposed changes in the navigation and vessel inspection rules and regulations was published in the FEDERAL REGISTER dated February 18, 1955 (20 F. R. 1055–1057), as Items I to IX, inclusive, on the Agenda to be considered by the Merchant Marine Council, and a public hearing was held on March 22, 1955, at Washington, D. C. This document is the fifth of a series of documents covering the rules and regulations considered at this public hearing.

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing have been very helpful to the Coast Guard and are very much appreciated. The amendments in this document are based on Item VII in the Agenda.

The purpose for the amendments to 46 CFR 44.05–20 (c) and 45.01–20, regarding load lines for towed barges and vessels of special design, is to provide a basis for such control of the operation of hopper type barges on load line waters as is necessary for safety and for compliance with the Coastwise Load Line Act.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statute cited with the regulations, the following amendments are prescribed and shall be in effect on and after April 1, 1956:

1. Section 44.05–20 (c) is amended to read as follows:

§ 44.05–20 *Conditions of assignment.*
* * *

(c) *Towed barges.* The conditions of assignment for towed cargo barges where the cargo is carried under deck shall be in accordance with §§ 45.10–5 to 45.10–100 of this subchapter. In the case of tank barges and cargo barges carrying cargo only on deck, compliance will also be required with the supplementary conditions of §§ 45.20–1 to 45.20–70 of this subchapter. In the case of cargo barges of the open type, assignment will be limited to barges in unmanned operation and the construction of the vessel must be such as to satisfy the assigning authority that no unusual hazards will be experienced.

2. Section 45.01–20 is amended to read as follows:

§ 45.01–20 *Vessels of special design.* (a) Sand suckers and other vessels of special design that cannot be assigned load lines by direct application of the rules set forth in this subchapter, will be assigned load lines based on the individual consideration of each vessel. Before such vessels are marked and certified, the assigning authority shall obtain the approval of the Commandant, U. S. Coast Guard, as to the position of the load line marks.

(b) In the location of load lines on sand suckers and similar vessels, consideration will be given to the effect of flooding of open cargo spaces, and the draft permitted will not be in excess of that which, in the judgment of the assigning authority, with the approval of the Commandant, U. S. Coast Guard, provides a reasonable margin of safety under such circumstances.

(c) Open hopper type barges will be limited to unmanned operation over restricted routes.

(Sec. 2, 49 Stat. 888, as amended; 46 U. S. C. 88a)

Dated: June 10, 1955.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 941]

[Docket No. AO–101–A20]

MILK IN CHICAGO, ILL., MARKETING AREA

NOTICE OF HEARING AND PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT AND TO ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the La Salle Hotel, Chicago Room, La Salle and Madison Streets, Chicago, Illinois, beginning at 10:00 a. m., c. d. t., July 5, 1955.

The hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Chicago, Illinois, marketing area and to the proposed amendments set forth herein below, or modifications thereof, to the tentative marketing agreement as heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the said marketing area. The amendments proposed have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

By the Pure Milk Association:

1. Amend § 941.3 (Chicago, Illinois, marketing area) to add Kankakee County, Illinois, and to include all of Will County, Illinois.

By the Beatrice Foods Company:

2. Section 941.3, "Chicago, Illinois, milk marketing area," be amended so as to include all of Lake County, Illinois, in the marketing area.

By the Maple Lane Dairy:

3. That Order No. 41 be amended to include Crete Township in Will County in the Chicago milk marketing area.

By the Pure Milk Association:

4. In § 941.52 change (a) (1) to make Class I price differentials $1.10 per hundredweight for August, September, October and November, and 90 cents per hundredweight for all other months.

5. Amend §§ 941.80 and 941.81 to provide that bulk tank milk transferred to another tank truck will be considered as received by the handler at place where re-loaded from farm pick-up truck, and if re-loaded within marketing area the location adjustment to producers will be 4 cents per hundredweight.

By the Pure Milk Products Cooperative:

6. Revise or eliminate § 941.71, the base rating provisions, and such other related sections as bear upon the base rating plan in order to provide equity among producers in consideration of all base surplus provisions in accordance with the evidence introduced at the hearing.

By the Pure Milk Association:

7a. Section 941.69, change base rules to include the following:

After January 15, 1956, a producer for whom a base has been computed may not be allotted a new producer base; and

For the 1955 base making period a producer will have until January 15, 1956 to notify market administrator of his desire to relinquish base.

b. Delete subparagraph (3) in § 941.69 (b).

By the Racine Milk Producers Cooperative Association:

8. Amend § 941.69 (a) (1) by adding: "Any producer not shipping to a handler during the months of September, October and November, immediately preceding may have his base determined in this manner upon presentation to the market administrator of satisfactory records of milk marketed on other markets for the base determination period for his farm. Such evidence must be presented not later than February 28 immediately preceding."

By Barron Cooperative Creamery; Wisconsin Cooperative Dairies, Inc.; Farmers Cooperative Creamery; Falls Dairy, Inc.:

9. Delete § 941.71 (d) and (g) and add thereto a new undesignated paragraph as follows:

For each of the months of March, April, May, and June the uniform price for excess milk shall be the Class IV price; and amend such other sections of the order as is necessary to prevent the uniform price for excess milk in all zones from falling below the Class IV price.

By the Dairy Division:

10. Add § 941.69 (b) (3) as follows:

(3) Where two or more producers deliver milk from the same farm, the market administrator shall compute one base for each such farm, which base shall be jointly held in the names of the producers. During March, April, May and June each producer having an interest in a jointly held base shall share the base in the same proportion as he shares in the milk delivery.

11. Add § 941.69 (b) (4) as follows:

(4) A jointly held base may be divided among the producers having an interest in such base by notification in writing to the market administrator postmarked not later than the last day of the month during which the division is to be effective, such notification to specify the terms of division of base and bearing the signatures of all interested producers: *Provided*, That in the event producers holding a joint base cease producing milk from the same farm and do not notify the market administrator of their agreed terms of division of base, the market administrator shall divide the base equally among the interested producers.

12. Add § 941.69 (b) (5) as follows:

(5) Subject to the provisions set forth in subparagraph (2) of this paragraph, a producer who discontinues shipping milk to a pool plant during September, October or November may transfer to another producer credit for milk deliveries for base making purposes.

By Pure Milk Association:

13a. In § 941.41 (b) establish a new and separate class designated Class IIa by adding: "Class IIa milk shall consist of ice cream and other frozen desserts."

b. In § 941.44 (d) add:

Compute the milk equivalent of Class IIa milk by—

1. Divide the pounds of butter fat in Class IIa milk by 0.0467;

2. Divide the pounds of non-fat milk solids in Class IIa milk by 0.14; and

3. Add the figures obtained from 1 and 2 to obtain the total pounds of Class IIa milk.

By Lake to Lake Dairy Cooperative:

14a. Amend § 941.41 *Classes of utilization* as follows: "Paragraph (d) (1)—Contained in butter, cheese (except cottage and American cheese), (e) Class IVa shall be all milk manufactured into American Cheddar cheese."

b. Amend § 941.50 *Basic formula price* to read: "* * * shall be the higher of prices for Class III milk, Class IV milk or Class IVa milk as computed by the market administrator, etc."

c. Amend § 941.52 *Class prices* by adding paragraph (e) as follows:

(e) *Class IVa milk.* The price per hundredweight for Class IVa milk shall be that computed from the following formula:

(1) Multiply by 9.745 the simple average as computed by the market administrator of the selling prices on the Wisconsin Cheese Exchange.

(2) Multiply by .3 the simple average, as computed by the market administrator, of the daily wholesale Grade "A" (92 score) prices of butter at Chicago as reported by the U. S. D. A., and

(3) From the sum of the results arrived at under sub-paragraphs 1 and 2 of this paragraph subtract 46.8 cents.

By Alto Cooperative Creamery:

15a. Amend § 941.41 *Classes of utilization*, as follows: "Paragraph (d) (1)—Contained in butter, cheese (except cottage and American cheese); (e) Class IVa shall be all milk manufactured into American Cheddar cheese."

b. Amend § 941.50 *Basic formula price* to read: "* * * shall be the higher of prices for Class III milk, Class IV milk and IVa milk as computed by the market administrator, etc."

c. Amend § 941.52 *Class prices* by adding paragraph (f) as follows:

(f) *Class IVa milk.* The price per hundredweight for Class IVa milk shall be that computed from the following formula:

(1) Subtract 1.610 cents per pound from the average wholesale price of cheese (Cheddars) at Wisconsin Primary Markets as computed and reported by the United States Department of Agriculture, during the delivery period.

(2) Multiply the difference obtained in subparagraph (1) of this paragraph by 9.1486.

By Associated Milk Dealers, Inc.

16. Delete paragraph (a) of § 941.45 and insert instead the following:

Subtract from the pounds in each class the pounds of milk received from a handler's own farm production in the following manner:

(a) The percentage of Class I milk of a handler's own farm production to be subtracted from Class I sales shall be determined by dividing the total pounds received of milk and cream by the total pounds of Class I sales. The butterfat allocated to Class I of a handler's own farm production shall be the product of the pounds of milk as determined above multiplied by the percent of fat in Class I sales.

(b) The butterfat and 3.5 percent milk equivalent remaining of a handler's own farm production after allocating to Class I shall be subtracted pro rata from remaining classifications in the following manner:

(1) Determine the sum of the pounds of butterfat in Classes II, III, IIIA, and IV. Divide this sum of the pounds of fat in these classifications by the pounds in each class to secure the percentages to be applied to the butterfat remaining of a handler's own farm production.

By Dean Milk Company:

17a. Amend § 941.70 *Net pool obligation(s) of handlers* by eliminating paragraph (d).

b. In § 941.80 *Time and method of payment for producer milk*, amend paragraph (a) and (b) to provide for any payments made to cooperative associations or producers, for milk received from producers at a pool plant located within the marketing area, shall be paid

by handlers receiving such producer milk.

c. To make such other amendments as necessary to eliminate any pool credits to handlers receiving milk at a pool plant located within the marketing area from producers.

By Beatrice Foods Company:

18a. Amend § 941.41 by deleting in the first sentence of each paragraph the phrase "all milk and milk products" and substitute therefor the words "all skim milk and butterfat."

b. Amend § 941.44 by deleting the language in the present order and substituting therefor the following:

§ 941.44 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report of receipts and utilization submitted by each handler and shall compute the pounds of skim milk and butterfat in each class according to its usage, pursuant to § 941.41.

c. Amend § 941.45 as follows:

§ 941.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations shall be the pounds in such class allocated to producer milk:

[Paragraphs (a) through (i) shall remain as now in the order, but shall be numbered (1) through (8). Paragraphs (j) and (k) shall be deleted, having new paragraph (b) added to provide as follows: "Allocate classified butterfat to producer milk according to the method prescribed in paragraph (a) of this section for skim milk."]

d. Amend § 941.52 so as to allow for the establishment of class prices based on the hundredweight of milk of 3.5 percent butterfat content, retaining the same methods as now used for establishing Class III and Class IV milk prices. However, adjust Class I pricing to an extent that producer returns will not be materially affected as a result of changing the accounting method in the order to a fat-skim basis.

e. Amend the order by adding the following:

§ 941.54 *Handling butterfat differential.* If the average butterfat test of milk used in any class as calculated pursuant to § 941.44 is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization for each one-tenth of one percent that such average butterfat test is above or below 3.5 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound of Grade AA (93-score) bulk creamery butter at Chicago as reported by the United States Department of Agriculture during the month specified below by the applicable factor listed, and rounding to the nearest one-tenth cent:

(1) *Class I and Class II milk.* Multiply such price for the preceding month by 0.125;

(2) *Class III and Class IV milk.* Multiply such price for the current month by 0.115.

f. Amend § 941.61, § 941.62 and § 941.64 so as to provide for the substitution of the phrase "skim milk and butterfat" wherever the word "milk" is now used.

g. Amend § 941.68 by striking the words "milk and milk products" and substituting therefor the words "skim milk and butterfat" where applicable in both paragraphs (a) and (b).

h. Amend § 941.41 (d) by adding the following: "Any skim milk dumped after prior notification to, and opportunity for verification by, the market administrator."

By Lake to Lake Dairy Cooperative:

19. Amend § 941.45 (k) to read as follows:

(k) In the event the total pounds remaining in the several classes is greater or less, than the pounds of milk received from producers (excluding the handler's own farm production) reconciliation shall be effected by respectively deducting such differences from, or adding such differences to, the lower of Class III or Class IV.

By the Dairy Division, Agricultural Marketing Service:

20. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the said order, as amended, may be procured from the Market Administrator, 73 West Monroe Street, Chicago 3, Illinois, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: June 14, 1955.

[Docket No. AO-263]

HANDLING OF MILK IN INDIANAPOLIS, INDIANA, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order, to regulate the handling of milk in the Indianapolis, Indiana, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 20th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed marketing agreement and order were formulated, was conducted at Indianapolis, Indiana, on November 15–19, 1954, pursuant to notice thereof which was issued on October 28, 1954 (19 F. R. 7085).

The material issues of record related to:

(1) Whether the handling of milk in the market is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk or its products;

(2) Whether marketing conditions justify the issuance of a marketing agreement or order;

(3) Extent of the marketing area;

(4) The scope of regulation;

(5) The classification of milk;

(6) Class prices;

(7) Payments to producers; and

(8) Administrative provisions.

Findings and conclusions. Upon the evidence adduced at the hearing and the record thereof, it is hereby found and concluded that:

(1) *Character of commerce.* The handling of milk in the Indianapolis, Indiana, marketing area is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk and milk products.

Grade A milk processing and distributing plants located in the Indianapolis marketing area draw their supply from approximately three thousand Grade A milk producers in a production area of some 39 counties surrounding the marketing area. From these farms, in 1953, the average monthly movement of milk, either to Marion County processing and bottling plants or to dairy product manufacturing plants for surplus disposal, was slightly under 25¾ million pounds. Seventy-five percent of this supply was moved into fluid consumption, the rest into manufactured products. In 1954, only about 65 percent was used in the fluid trade. This Grade A supply was developed since the early 40's in response to the growing needs of the market. It was 17 percent greater in 1953 than in 1952 and 6 or 7 percent more in 1954 than in 1953.

In addition to this supply of Grade A milk that finds its market at plants located in the Indianapolis trade area, there are route sales from 3 to 4 plants at varying distances—up to nearly 100 miles—from the marketing area. Such sales are estimated at 5 percent or more of all Grade A milk distributed in Marion County. These plants represent a considerable volume of milk qualified for the Indianapolis trade which is distributed in part in the Indianapolis area and in part in other Indiana localities, or shipped in bulk to distant urban areas in other states.

Evidence concerning this trade shows significant interstate aspects. In 1953 and 1954 there was some movement of Grade A milk and cream from approved plants in this central Indiana region to out-of-state markets. In previous years when the supply in the area was short, Indianapolis handlers usually received shipments from out-of-state sources.

Of greater importance in interstate markets is the part of this supply of Grade A milk that goes into the production of dairy products (cream, cheese, milk powder, evaporated and condensed milk). Such products are sold in regional and national markets. From the record it appears that from 20 to 30 percent of current supplies in the Indianapolis area is disposed of in such products. Although production of Indianapolis approved milk is primarily for fluid use, reserve supplies to cover fluctuation in sales and production can be utilized only in manufactured dairy products, which are marketed in interstate trade.

Most of this Grade A milk that goes into manufactured dairy products is delivered by producers directly from the farms to dairy manufacturing plants located in the milkshed. A few distributors of milk in the Indianapolis area also operate manufacturing plants where they utilize their excess Grade A milk with receipts of ungraded milk in the production of dairy products.

Besides these direct connections with interstate commerce there is significant indirect-relation of the Indianapolis milk trade to that of interstate fluid markets and to the manufacturing milk industry in the neighboring States of Illinois, Ohio and Kentucky. Exhibit No. 17 of the hearing record, entitled "The Indianapolis Milk Market," Station Bulletin 554, Purdue University, shows the market relations of the Central Indiana Grade A milk supply to that of other milk produced in this region.

In earlier years most of the milk in this region found its market in numerous dairy manufacturing plants located in most of the towns and cities. Some of these plants distributed fluid milk to local consumers, but most of them were primarily manufacturers of dairy products, which were sold in national markets. Many of the farms which previously produced milk for manufacturing plants are now delivering to plants which sell primarily in fluid markets. While the fluid trade currently absorbs a larger proportion of this milk supply, many plants of this sort still operate in the region. The Purdue University Study referred to above states that in 1950 there were 64 such plants in this milkshed. The Indianapolis market and other local fluid markets in the milkshed compete for milk supply with such plants and many dairymen now producing for the Indianapolis market were recruited from the patrons of these plants. They became producers for this Grade A market when relative price returns afforded sufficient incentive.

On another front, also, Indianapolis milk handlers encounter interstate commerce. Milk distributors in the large cities to the north, east, and south—Ft. Wayne, Dayton-Springfield, Cincinnati and Louisville—compete for producers with Indianapolis handlers. Testimony shows that producers shift from one market to another when there is opportunity to gain price advantage.

(2) *Marketing conditions and need for regulation.* Marketing conditions in the area defined in this decision as the Indianapolis marketing area indicate that issuance of a marketing order, such as that set forth herein, will tend to effectuate the declared policy of the act with respect to milk produced for the area.

Stability of marketing conditions for the Indianapolis marketing area can be assured only if all handlers in the area have substantially equal cost of milk according to use, and if farmers receive prices which are uniform in accordance with utilization of their milk.

In recent years a system of marketing has been developed in the area which has resulted in considerable uniformity both in respect to cost to handlers and prices to producers. Most of the milk in the market has come from the members of three producers' associations which have established the Milk Producers' Auditing Agency. This agency has handled the accounting for milk from all three of the associations as to utilization by handlers, and with respect to returns to producers has arranged for pooling of utilization of all handlers to which the associations sell their milk. The associations have arrived at milk price terms with handlers, and payment has been on a classified-use basis. The associations have arranged for allocation of milk supplies among handlers according to their needs. The producer associations have also carried on programs of checking weights and butterfat tests of milk from members' farms.

During recent years there have been additional supplies of milk entering the market with respect to which the three associations mentioned do not participate in the pricing, accounting, and payment therefor. This milk is purchased on a flat-price basis, which often results in widely varying costs of milk utilized in the fluid trade. Because of generally increased milk production and development of improved techniques for processing and distributing milk, the potential supply from such other sources appears to be large. With a sizable and increasing segment of the supply entering the market from sources not subject to the same uniform practices with respect to prices and accounting, instability of marketing conditions is likely to result.

A milk marketing order is needed to assure equality of cost among handlers according to use of the milk they receive. Producers regularly supplying the market should be assured that milk from other producers will not come into the market at prices lower than the level justified by supply and demand conditions. An order would be a means of establishing uniform prices to producers and of adjusting the level of such prices in accordance with changing supply and demand conditions.

(3) *Extent of the marketing area.* The marketing area in which the handling of milk would be regulated by the proposed order should include all the territory within Marion County, Indiana.

The main population center within Marion County is the City of Indianapolis, but there is a large urban population in surrounding areas within the county. The county has a population of 551,777. The entire area is served largely by handlers selling in the City of Indianapolis. Only a small part, estimated to be about 5 percent of the sales within the county is by handlers not operating in the City of Indianapolis. On the other hand, it was testified that a considerable part of the business of Indianapolis handlers is outside of the city.

The only objection raised to inclusion of all of Marion County was by a handler who indicated such objection would be withdrawn if the entire county were under one health ordinance and administration with respect to sanitary requirements in marketing of milk. Official notice is hereby taken of issuance subsequent to the hearing of a milk ordinance by the Health and Hospital Board for Marion County, Indiana. This action provides uniform health regulations for milk marketed within the proposed marketing area.

The record indicates that most milk for the Indianapolis market was, at the time of the hearing, from farms with inspection certificates issued by the City of Indianapolis. It was indicated that some milk, however, came from a plant at Bluffton, Indiana, originating on farms not under the direct inspection of the City of Indianapolis. The milk from Bluffton was accepted by the City of Indianapolis as milk subject to equivalent quality requirements imposed by local ordinance.

No proposal was made that the marketing area should extend beyond Marion County. On the basis of sanitary administration and uniformity of marketing conditions, the limits of the county appear to be an appropriate boundary for the marketing area.

(4) *Scope of regulation.* The milk to be priced by the order should be only that milk which is produced by dairy farmers approved for the production of milk for fluid consumption in the marketing area and delivered to plants disposing of milk for fluid consumption in the marketing area. Testimony indicated that some milk not approved for the City of Indianapolis was being distributed in Marion County outside the city. Inasmuch as the entire county, including Indianapolis, is now under one health authority, only one grade of milk is eligible within the county. The ordinance prescribes a Grade A standard. Since the supply for plants selling milk in the county must come from approved farms, all Class I disposition, whether within or without the marketing area, from regulated plants should be credited to producer milk.

The milk to be priced under the order will be all milk constituting the supply for the trade in the marketing area. This milk may be identified by appropriate definitions of "producer," "handler," and "producer milk plant."

A "producer" should be defined as a dairy farmer who produces milk under approval by the Marion County Health

and Hospital Board for fluid consumption, if such milk is received at a "producer milk plant" or is caused by the handler to be delivered for his account to a plant which is not a "producer milk plant." A farm inspection certificate issued by the Marion County Health and Hospital Corporation, or such a certificate issued by another health authority whose certification is accepted by the Marion County health authority, would be the basis for considering the dairy farmer approved for the marketing area.

No dairy farmer would become a milk producer merely by meeting the health requirements. He would need also to deliver his milk to a "producer milk plant."

A "producer milk plant" should be defined first as any plant from which a volume of Class I milk in excess of an average of 200 units per day (one-half pint of cream or one quart of any other Class I product counted as one unit) is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except other fluid milk plants) in the marketing area. Such a plant would be a distributing plant. This definition exempts from regulation any plant from which the only distribution in the marketing area is a minor quantity which may be accidental, or incidental to distribution outside the area. Distribution in the marketing area of the volume indicated (200 units per day) would not cause instability of marketing conditions. Regulation of such plants might place them at a disadvantage in competition for trade outside the marketing area.

Currently all plants supplying the market are distributing milk in the marketing area. Supply conditions shown by the record indicate that these plants generally are amply supplied directly from farms. While milk has been supplied to distributing plants by other plants on a temporary basis, none have become regular sources of supply. The development of supply plants for the market which do not distribute in the market is a possibility, however, and accordingly the definition of producer milk plant should include provision for such plants.

The category of supply plants would include plants from which no distribution is made in the marketing area, but which supply milk, skim milk or cream regularly or from time to time to distributing plants. If a handler who operates a distributing plant also operates a plant at which the supply of milk is qualified (as evidenced by dairy farm inspection permits) for distribution in the marketing area, such a plant would be considered as part of the handler's supply for the market and should be regulated as a producer milk plant.

Other supply plants would be plants operated by a handler who does not operate a plant distributing in the marketing area. Such plants should be producer milk plants in any delivery period in which they supply milk to a producer milk plant distributing in the marketing area if the dairy farmers delivering milk to such supply plant are approved for the marketing area. Approval of the milk supply of these plants by the health authority for the marketing area and actual movement of milk to the marketing area indicates such plants are part of the supply and should be subject to regulation.

This definition of producer milk plant would not include plants which are accorded temporary approval as sources of milk supply during periods of shortage.

The term "handler" should apply to any person who receives at a plant milk which is disposed of in the marketing area as Class I milk, either directly or through another plant. Handlers would be responsible for reporting receipts of milk and disposition thereof, and for payment to producers for milk received from them. An operator of a producer milk plant would be the responsible handler with respect to milk of a producer which is diverted for his account to a plant from which no Class I milk is disposed of in the marketing area. If a cooperative association causes a producer's milk to be so diverted for its account, the cooperative would in this case be the handler responsible for reporting and payment.

The proposed definition of "handler" is sufficiently broad to cover all persons supplying fluid milk to the marketing area; but in the case of some types of handlers it would not be necessary to apply all the order requirements. Producer-handlers would be required to submit reports, but since they receive no milk from other producers, they would not be subject to payment provisions. Handlers operating plants regulated under another Federal milk marketing order would not be subject to similar regulation under this order, but the market administrator could require such reports as may be necessary properly to account for milk of producers under this order. Also, a handler operating only a distributing plant from which less than enough milk to qualify it as a producer milk plant is disposed of in the marketing area would be exempt from the pricing provisions of the order.

It is contemplated that some producer milk plants will at times handle milk other than milk from producers. Such milk would be called "other source milk." Inasmuch as the order has been designed to price nearly all milk sold in the marketing area, there would ordinarily be little other source milk. In times of milk shortage, larger quantities of other source milk might be drawn from plants given temporary approval by the health authority. Under any of these circumstances the amount of other source milk in the market would not appear to be an unstabilizing factor.

(5) *Classification of milk.* All milk and milk products received by a handler should be classified on the basis of the form in which it is used or the purpose for which it is used.

Producers proposed that there be separate classification of skim milk and butterfat and separate prices for each. The current method of classification is on the basis of utilization of butterfat and the volume of milk in each class is determined as the milk equivalent of the butterfat. The proposed change to skim milk and butterfat accounting will change the cost of some product utilizations, particularly skim milk products. Since skim milk and butterfat are not used in the same proportions in product disposition as the proportions in which they are received in milk from producers, it is appropriate that they should be classified separately, according to their separate uses. No objection was made on the record to this method of classification.

Class I milk should include those uses for which milk from approved sources is required and the definition should specify definite product utilizations. Provision for automatic inclusion of any new product utilization or any product newly designated by the health authority as required to be from approved milk would pose administrative difficulties. The market administrator might then be called upon to interpret the health ordinance and give judgment on whether it is enforced. Any change in classification, whether it relates to a new product or a change in sanitary requirements, should be effectuated only on the basis of a public hearing.

Class I milk should include all skim milk and butterfat disposed of in the form of milk, skim milk, flavored milk drinks, buttermilk, cream, sour cream, and skim milk and butterfat not accounted for as Class II milk. Producers proposed that the Class I milk definition also specify skim milk and butterfat used to produce reconstituted milk, skim milk, or cream and disposed of in the form of products already named as Class I uses. This serves to make definite the classification and accounting to be applied in the case of reconstituted items. Concentrated milk is also specified as a Class I item inasmuch as it is a form of milk for fluid consumption, not sterilized, for which health approved milk normally is required.

Payment for milk by handlers in the market has generally been on a classified-use basis. The classification now proposed, differs, however, from previous practice by including skim milk drinks in Class I. With this change, specified Class I products will include all uses for which approved milk is required, and only such uses.

Producers proposed that closing inventory be accounted for as a Class I item. More general practice under Federal orders is to account for inventory in a lower class. This does not result in producers receiving any less for their milk, inasmuch as any product held in inventory and used in Class I in the following month would be subject to a reclassification charge. This method of accounting for inventory also facilitates the operation of an automatic price adjustor based on utilization. It is likely that such an automatic price adjustor similar to those used under other orders will be needed in the order for this market, although such adjustor may not be developed until after the order has been in operation for a year or more.

Inventory would include only those products held in a form of the products named in the Class I milk definition. This will avoid a requirement that handlers report in inventory skim milk and butterfat held in the form of Class II

disposition such as butter or cheese, since such products will already be accounted for as Class II milk. Handlers will need to keep stock records, however, of such products subject to audit by the market administrator.

It is concluded that closing inventory should be accounted for as Class II milk. This method of accounting allows for treating beginning inventory as a receipt which is allocated to class utilization by subtracting it first from Class II milk, after subtracting other source milk, and subtracting any remainder from Class I. To the extent that this procedure results in opening inventory being allocated to Class I milk, and an equivalent amount of producer milk was classified in Class II in the previous month, a reclassification charge should be made at the difference between the Class I price in the current month and the Class II price in the previous month.

Although current marketing conditions indicate that "other source milk" is not likely to be needed for supplying the fluid market, it is possible that the supply of producer milk may at times be insufficient for temporary periods. It is also possible that the handler may have other source milk in his plant for use in products for which approved milk is not required. Accordingly, it is necessary to provide a method for allocating such other source milk to classes of utilization. Inasmuch as producer milk is regularly available for fluid consumption in the marketing area, the method of allocation provides that other source milk shall be allocated first to Class II milk to the extent of Class II utilization, and any excess of other source milk over Class II will be allocated to Class I.

Milk, skim milk, or cream received from a producer-handler should be allocated in the same manner as other source milk. Since such receipts would be the excess supply from the producer's own Class I handling operations they should not share, with the milk of other producers, in the Class I utilization of other plants. All receipts from producer-handlers should be allocated to Class II if there is sufficient Class II utilization available, after prior allocation of shrinkage and other source milk, for such assignment.

Class II milk should be defined as all skim milk and butterfat used in products not specifically named in Class I and accounted for as actual plant shrinkage of producer milk not exceeding two percent of the skim milk or butterfat, respectively, in receipts of milk from producers. Any excess of shrinkage over two percent would be considered Class I milk in accordance with that part of the Class I definition including milk not accounted for as Class II milk. The record indicates that two percent would provide some margin over the amount of loss which might be expected in plants of reasonable operating efficiency. Unlimited allocation of plant loss to Class II would place a premium on unaccounted-for milk. Provision should be made for prorating plant loss between producer milk and other source milk. No shrinkage should be allowed to a handler on milk diverted to a non-producer milk plant inasmuch as such milk is not processed in his plant.

Inasmuch as there may be transfers of milk and other fluid items between handlers or to non-producer milk plants, specific provision should be made for classifying such transfers.

Milk transferred between producer milk plants may be classified as agreed upon by the handlers operating the plants, providing that if Class II use is claimed the transferee handler has sufficient use in such class after allocating any other source milk to classes in sequence beginning with Class II. This system of classification assures priority for producer milk over other source milk in assignment to Class I Milk transferred from a producer milk plant to a non-producer milk plant should be accounted for as Class I utilization unless Class II utilization can be proven. If the transferring handler claims Class II utilization, the transferee plant must keep books and records which make it possible for the market administrator to verify such use. Producer milk would be assigned to the highest use remaining in the transferee plant after subtracting in series, beginning with Class I, the receipts of skim milk and butterfat at the transferee plant directly from dairy farmers who are not producers.

Milk disposed of to a producer-handler would be accounted for as Class I milk inasmuch as that is the use for which a producer-handler would need milk in excess of his own production.

(6) *Class prices*—(a) *Class I prices.* The Class I price per hundredweight for the first eighteen months of the order should be a butter-powder formula, or the average price paid by 13 Midwest condenseries, whichever is higher, plus $1.10. For subsequent periods the Class I price would be subject to determination on the basis of the record of another public hearing.

The appropriate level of the price for milk which is the supply for a fluid market may depend on many factors to which it would be difficult to give individual recognition in establishing a price, but which may be reflected in a general way by dairy products and milk prices which are independent of the fluid market. A common method is to use prices paid to farmers by milk manufacturing plants, or prices of standard dairy products in central markets, as a basis for reflecting changes in general supply and demand conditions. These may be used as factors in a basic formula price.

Although the function of a basic formula price is to indicate changes in supply and demand conditions, it does not alone determine the Class I price. The Class I price is a combination of the basic formula price and the Class I price differential added thereto. Accordingly, the amount of the differential would depend in part on the kind of basic formula used.

The three alternative formulas proposed by producers for the basic formula price were: (1) Prices paid by a group of condenseries in Michigan and Wisconsin; (2) 120 percent of the Chicago 92-score butter price times 3.5, plus 8.2 times a value calculated by deducting 5.5 cents from the average of prices for spray process and roller process nonfat dry milk f. o. b. Chicago area plants; and (3) prices paid for milk by five manufacturing plants in Indiana and Ohio. The formula yielding the highest price would be called the basic formula price. Producers proposed to this should be added a fixed differential of $1.30 per hundredweight, to arrive at the Class I price.

These formulas are generally similar in structure to formulas employed in other federally regulated markets although important differences as compared to some markets are pointed out in subsequent discussion. Such similarity is important, since it provides a basis for aligning the price level in this market with prices in other markets. For this purpose, however, a basic formula without the four nearby manufacturing plants would be better adapted. Examination of the several formulas proposed shows that the prices paid by the five plants would have been seldom effective as the basic formula price. It is concluded that this series is unnecessary and should not be included in the basic formula.

The appropriateness of the butter-powder and condensery price formulas as a basis for establishing a Class I price for this market also derives from the nearness of areas where milk is produced for manufacturing purposes. The Indianapolis fluid market draws its supply from an area in which there are many milk manufacturing plants which draw their supply from dairy farmers throughout the milkshed of this market. The market is also close to those areas, generally north from Indianapolis, in which there is a relatively heavy production and use of milk for manufacturing. Such areas also produce an excess over local needs of milk qualified for fluid consumption. Accordingly, conditions in these major milk producing areas must be considered as a factor in the supply situation. The butter-powder formula and average condensery price serve this purpose.

Payment of a premium over a value for manufacturing milk provides an incentive to the dairy farmer to meet the quality requirements of the fluid market. The Class I price differential is such a premium. In deciding on an appropriate Class I price differential, experience in both this market and neighboring markets is considered relevant.

Beginning with 1951, a seasonal pattern of Class I differentials has been used in this market, with respect to most of the milk sold therein, which has averaged for each year about $1.30 per hundredweight. As pointed out previously herein, the proposed order would include skim milk drinks in Class I, which previously had been accounted for as a Class II item. Data and testimony given by producers and handlers show that this change in classification would be equivalent to a price increase on all Class I milk (as defined in the proposed order) of about 20 cents per hundredweight. Accordingly, although the annual average differential has been

about $1.30 per hundredweight, producers would receive about the same returns for the proposed Class I utilization with a differential of $1.10.

The record shows that although the supply for this market was short a few years ago, a general increase in supplies has occurred without any change in the annual level of Class I price differentials. Data submitted by a representative for handlers indicated that in the month of November, which is normally the month of lowest production, utilization in Class I dropped from 96 percent in 1951 to about 78 percent in 1953. For November 1954, it was indicated that utilization would be lower than in November 1953. Other testimony showed that this did not include the milk of all handlers in the market, and that inclusion of their supplies and sales would somewhat reduce these utilization figures. It is apparent that the level of Class I price differentials currently employed in the market is sufficient to attract an adequaate market supply under supply conditions indicated on the record for recent periods.

With respect to experience in neighboring markets, it is noted that four federally regulated markets, namely, Cincinnati, and Dayton - Springfield, Ohio; Louisville, Kentucky; and Fort Wayne, Indiana, lie within a range of 120 miles from Indianapolis. The record indicates there has been interchange of producers between Indianapolis and Ohio markets and Louisville. Currently milk in consumer packages from a plant much nearer to Fort Wayne than Indianapolis is being marketed in Indianapolis. The Chicago and South Bend-LaPorte markets are somewhat beyond the range indicated, but it is conceivable that handlers in those markets could supply and distribute milk in Indianapolis.

Alignment of market prices is important both as to assurance of a stable supply for the market, and as to possible competition from handlers operating in other markets. The price should not be so high that handlers in other markets can furnish milk to Indianapolis at lower cost than Indianapolis handlers, for this would result in disorderly marketing conditions.

It appears that sales competition from plants not now selling in the Indianapolis marketing area would most likely come from areas to the north and west of Indianapolis. The general pattern of price levels in markets surrounding Indianapolis were shown in the record to be highest in the southerly and easterly directions and lowest to the north. This pattern results from generally greater concentration of milk supplies in areas to the north of the market. Also, the most distant plant selling milk in the marketing area is well to the north of the market.

In relating the Class I price differentials in this and neighboring markets, allowance must be made for the fact that the differentials stated in the orders are modified by supply-demand factors. One method of making allowance for the supply-demand adjustments in other markets is to compare the effective Class I prices in the other markets with prices which would result from the formulas proposed for Indianapolis.

Another factor of difference which arises in comparison with other markets is the differences in the basic formulas to which the differentials are added. With respect to the Midwest condenseries paying prices, the list of plants proposed is the same as used in most surrounding markets. The butter-powder formula proposed is the same as that used in the Dayton-Springfield and Cincinnati markets, but it is about 12.6 cents higher than the butter-powder formula in the Fort Wayne order. It differs from the butter-powder formula in the Chicago order which (1) is based on 93-score butter rather than 92-score, (2) uses the spray process price rather than an average for spray and roller nonfat dry milk, and (3) has a deduction factor of 75.2 cents per hundredweight of milk as compared to 45.1 cents in the formula proposed for this market.

In view of these differences in price formulas, comparison of differentials in the several markets may be misleading unless all of these differences were taken into account.

Data were offered on the record to make price comparisons on a 3.5 percent butterfat basis with Class I prices in surrounding markets. It was testified that the Class I prices for four percent milk were converted to prices for 3.5 percent milk on a direct ratio basis. This resulted in a considerably greater downward adjustment for butterfat content than would apply in the other markets or on the basis of the proposed method for an order. Also, the Indianapolis Class I prices did not apply to skim milk drinks which in other markets were in Class I. As a result, this series of prices would not provide a useful basis of comparison with other markets.

Comparison of actual Class I prices in neighboring markets (using in each case the price for 3.5 percent test) with the prices which would result if a Class I price differential of $1.10 were added to the basic formula price proposed herein, shows the following differences over the prices effective in the other markets: Over Chicago, in 1952, 18 cents; in 1953, 44 cents; in 1954, 59 cents. Over Fort Wayne, in 1952, 50 cents; in 1953, 30 cents; in 1954, 31 cents. Over Dayton-Springfield, in 1952, 5 cents; in 1953, 2 cents. In 1954 the basic formula price proposed plus $1.10 would have yielded a price 4 cents less than the average Class I price in the Dayton-Springfield market. The relationship to the South Bend-LaPorte market is indicated by the fact that the price in that market currently averages about 20 cents more than the Chicago price on an annual basis.

These price differences indicate that a differential of $1.10 would have resulted in prices nearly the same as prices in the Dayton-Springfield market, but at times considerably higher than prices in Chicago and Fort Wayne. Historical market price relationships and information as to character of milk production in the milksheds indicate that some difference over the markets to the north of Indianapolis is normal because of distances involved and lesser concentration of milk production in this area. Under current supply conditions it appears that the difference over the other markets should not be more than enough to compensate handlers in these other markets for the cost of moving milk to this market. Data submitted on cost of tank truck movement indicates that perhaps 20 cents would cover the cost of moving milk to Indianapolis from Fort Wayne. As to movement of milk from the Chicago 70-mile zone, the cost on this basis is slightly more for transportation, but total cost to an Indianapolis handler would probably involve also an additional mark-up over the Chicago order Class I price as is ordinarily charged for delivery of milk in tank loads.

These factors indicate that a Class I differential of $1.10 would have yielded in some recent years a price high in relation to prices in important neighboring markets. The most recent trends in neighboring markets, however, indicate a more favorable supply-sales relationship, and a lessening of downward price adjustments based on this relationship. In this connection official notice is taken of the Class I prices, utilization figures, and supply-demand adjustments published since the close of the hearing by market administrators for Federal orders in Chicago, Louisville, Fort Wayne, Dayton-Springfield, and Cincinnati. In view of these changes in surrounding markets a differential of $1.10 does not appear to be too high for the current period. It is concluded that this differential should be adopted for an initial period.

More complete and accurate data as to supply and demand conditions which can be accumulated under the operation of the proposed order may indicate need for adjustment of the Class I differential from time to time. Although the basic formula is designed to respond to general supply and demand conditions affecting the production of milk, it is desirable also to make the price respond to conditions which are definitely local in character. One of these local conditions which is of great importance is the relationship between the supply of milk immediately available to the market and the amount of this milk being used for fluid consumption. Apparently the simplest measure of this relationship would be the ratio of producer milk to Class I disposition. Because of the limitations of the record data, no supply-demand price adjustor is proposed herein. It is concluded that the effective level of Class I differential for the first eighteen months of order operation should be $1.10. This will allow a period for assembly of data referred to bearing on the appropriate Class I price for subsequent periods. The price for periods after the first eighteen months would need to be established on the basis of a further public hearing.

Although $1.10 is considered to be the appropriate level for the Class I differential in the initial eighteen-month period, the differential should be subject to seasonal adjustment. Because the order cannot be made effective in time to make the seasonal production incentive plan, otherwise discussed herein, operative this year, it is necessary to use seasonal adjustments of the Class I price differential. The Class I price differential, as herein proposed for the initial period of order operation, would have the same seasonal changes as the differentials shown by the record to be generally used in the market, but the level of the differentials would be 20 cents less. The seasonal pattern of differentials, equivalent to an annual average of $1.10, would therefore be $1.30 for the months of September through February, $1.15 for March, $0.95 for April, $0.70 for May, June, and July, and $1.15 for August. The full schedule of such seasonal differentials would not become effective, inasmuch as the level differential of $1.10 would be used when the seasonal production incentive plan would become effective in April 1956.

The Class I price should be announced by the market administrator on or before the 6th day of the month. Such foreknowledge of the price for milk to be delivered is desirable for operations of both handlers and producers. This method of announcement may be arranged by using for the basic formula the prices reported for the previous month.

(b) *Class II prices.* The Class II price should be the higher of two formulas: the average of the monthly paying prices of five manufacturing plants in Ohio and Indiana or a combined value of butter and nonfat dry milk.

It was proposed by producers' associations that the price for Class II milk should be an average of the prices paid by five manufacturing plants in Indiana and Ohio, namely:

Indiana Condensed Milk Company, Sherdon, Ind.
Kroger Company, Marion, Ind.
Nestles Milk Company, Greenville, Ohio.
Pet Milk Company, Coldwater, Ohio.
Pet Milk Company, Angola, Ind.

The paying prices of these plants were proposed as a measure of the value of milk for manufacturing uses in nearby areas.

Comparison of the prices paid by these manufacturing plants in recent years with the other price series considered to be representative of the value of milk in manufacturing uses shows that the paying prices of these plants averaged well below the prices paid by condenseries in Michigan and Wisconsin, which are named in the basic formula price proposal, and also below the proposed basic butter-powder price. In 1952, the paying prices of the five plants averaged 20 cents lower than the proposed basic butter-powder price formula and in 1953, 50 cents lower. There appears to be need for an additional measure of the value of producer milk in Class II uses so that the Class II price will be more representative of the competitive market values for butterfat and nonfat solids as indicated by prices in central markets. It has been pointed out that the need for a broad measure of the value of milk for manufacturing purposes has been recognized in the formulas for the basic formula price. Formulas used in establishing a price for Class II milk need not be, however, the same as those used in the basic formula. Those used in the basic formula serve to represent the general changes in the market value of milk in manufacturing uses and may not be designed to represent the value for manufacturing milk under local conditions.

The type of price formula applied in the case of surplus milk should be related to the kind of manufacturing operations in the market and other outlets available for such milk. Prior to 1953 the excess of fluid milk over fluid requirements of the market was relatively small except for a few months in the spring, but in recent years there has been more surplus. Much of the excess has been disposed of by diversion directly from farms to outlying manufacturing plants. Also some of the handlers in the market make cottage cheese and ice cream. It appears, therefore, that utilization of producer milk in Class II does not involve generally the more costly practice of receipt at bottling plants with subsequent transportation to other plants for manufacturing. To the extent that the milk can be used in handlers' own plants for cottage cheese and ice cream, cost is minimized and value of producer milk in such disposition should be relatively high. Such disposition would apparently make up the larger proportion of producer Class II milk in the shorter production months, while use in lower valued products would increase considerably in spring months.

It would appear from the record that the butter-powder basic price formula, or the average paying price of the local manufacturing plants, whichever is higher, would be suitable as a price for surplus milk in most months of the year. A witness for producers who operates a manufacturing plant testified that the basic formula butter-powder price could be taken as representative of value for milk in manufacturing.

On the basis of comparison with prices in other markets it appears that some reduction from the butter-powder price in high-production months of the year may be needed to facilitate disposal of milk to nonhandler plants. For this reason the proposed order provides for a 15-cent deduction in the butter-powder formula for the months of March through July.

(c) *Handlers' butterfat differentials.* The Class I and Class II prices under the order should be stated in terms of the price per hundredweight of milk containing 3.5 percent of butterfat. The price for milk of a butterfat content other than 3.5 percent should be determined by a butterfat differential, i. e., the amount which the price is raised or lowered for each one-tenth of one percent that the butterfat test differs from three and one-half percent. The butterfat differential for Class I utilization should be 0.120 times the price per pound of 92-score butter at Chicago, and for Class II, 0.115 times the butter price.

It has been the practice in this market to determine class prices for milk of four percent butterfat content and to adjust the price for other butterfat tests, in both Class I and Class II, on a direct ratio basis, i. e., the price would be increased or decreased from the four percent price in the same ratio as the butterfat test. This has resulted in a relatively high value per point of butterfat.

Producers proposed separate accounting for butterfat and skim milk used in each class. This system of accounting is used in a number of Federal milk market orders. Producers have proposed also that the class price be in terms of a price for butterfat and a separate price for skim milk. Although this method of pricing has been used in some orders, the more common method is to state the price for whole milk of a basic butterfat content and to specify butterfat differentials to determine the price for milk of different tests. Although there is no difference in the results between the two methods of stating the class prices, the method using a butterfat differential gives a simpler statement of the price and focuses attention on the price of whole milk of approximately the test used in average Class I disposition.

Producer associations proposed that the value for butterfat in each class should be 1.15 times the price of 92-score butter in Chicago. The same result would be accomplished by providing a butterfat differential equal to 0.115 times the price of 92-score butter for each one-tenth of one percent above or below 3.5 percent butterfat. The resulting reduction in the value for butterfat as compared to the value of skim milk is in contrast to current practice in the market which results in a relatively high charge to handlers per point of butterfat.

The butterfat differential proposed by producers is in line with butterfat values in surplus product classes in surrounding markets although it represents a somewhat lower value for butterfat in Class I than in the other markets.

Although the record does not indicate that a Class I butterfat differential as high as in surrounding markets is appropriate in this area, a differential of 0.120 times the price of butter would result in closer adjustment, and would establish a value as high as indicated by the commonly accepted over-run figure in the manufacture of butter. This somewhat higher differential for Class I represents a partial allocation to butterfat of the difference in value of Class I and Class II milk. It is concluded that a differential of 0.120 times the price of 92-score butter at Chicago as reported for the previous month is appropriate for Class I milk, and 0.115 times the price of butter in the current month for Class II milk.

(d) *Location differentials to handlers.* Information as to location of plants supplying the market showed that some were at a distance from the area, one as far as 95 miles. Equity among handlers as to cost of milk requires some allowance for the additional cost of bringing milk from such plants to the marketing area and the lower cost of delivery to such plants by producers.

One witness submitted data as to the cost of moving milk to market in tank trucks. This witness also proposed a schedule of plant location differentials: 13 cents for 45 miles from the center of Indianapolis plus one cent for each ten miles in excess of 45 miles. There was no testimony to question this schedule as a reasonable pattern for location dif-

ferentials on milk used in Class I. The rates are not out of line with rates used in other orders. It is concluded that the proposed schedule should be adopted as plant location allowances to handlers.

Such location allowances shouud not apply to all milk in the handler's plant. Location allowances should apply to milk moved to the marketing area for Class I use. There is no question as to the use of milk moved to the market in consumer packages, but milk in bulk may be moved to a plant in the marketing area which manufactures Class II products. The record shows that some plants in the marketing area manufacture ice cream and cottage cheese. In case of movements of milk to other producer milk plants, therefore, the location allowance should apply only to the amount of skim milk or butterfat moved less the weight of producer skim milk and butterfat, respectively, in Class II utilization at the plant to which the milk moved.

Milk not moved to the marketing area, but used in Class I trade outside the marketing area, should be subject to the same location differential. This is in keeping with the principal of applying the same price for all milk received at a plant and disposed of for Class I use.

7. *Payments to producers*—(a) *Distribution of the proceeds to producers.* The individual-handler type of pool should be included in the order as a means of distributing to producers the returns from the sale of their milk. Under this type of pool, the minimum prices will be uniform to all producers delivering their milk to the same handler. The blend, or actual pay prices, that a producer receives will depend on the proportion of producer milk used in Class I and Class II milk by the handler receiving his milk. Although each handler subject to the order will be required to pay uniform minimum prices to all the producers who deliver to him during each month, the minimum blend price payable to producers by the various handlers will differ according to the variation among handlers in the proportion of milk delivered in each class.

Under conditions in this market, an individual-handler pool will tend to result in optimum allocation of producer milk among handlers according to Class I needs of the handler and in maximum returns to producers from their milk. The record indicates that currently no handler in the area is carrying excess milk as reserve supply for other handlers. All handlers operating plants in the marketing area receive their milk from producers who are members of cooperative associations. These have joined together in the organization of a supply system for their handlers. This integrated supply system is implemented by a central cooperative agency that manages the movement of milk from farms to area plants so as, with lowest delivery costs, to supply each plant in accordance with its daily requirements. Supplies in excess of daily requirements of all the plants are moved directly from farms into the most accessible dairy product plants that constitute a market for that portion of the daily supply which is the reserve supply for these particular handlers.

Other handlers, with producer milk plants located at a distance from the marketing area, in localities of relatively heavy production, obviously are well supplied. One such handler proposed an equalization of all producer prices in this market. His grounds were: (1) That it would assure, better than individual-handler pools, market stability; and (2) that it would enable plants with long supply to serve as sources of supplemental supply for plants that may at times be short of supplies.

But the testimony failed to substantiate these points. In regard to the first, it was not shown how handler pools, where all plants are well supplied, directly from farms, generate market instability. The experience of other markets demonstrates the contrary. In regard to the second point, it seems clear that the extent to which handlers depend on each other for supplemental supply is chiefly a matter of interhandler relations that are little affected by the type of pool. Competing handlers rarely depend much upon each other for such supply service.

(b) *Seasonal production incentive plan.* In making payments to producers, a portion of the monies owed by handlers for milk purchased during the months of April, May, June and July should be paid to the market administrator and held by him to be added into the payments made to producers in the following months of October, November and December. For this purpose the market administrator should establish a separate account into which the payments will be made in April, May, June and July and from which money will be withdrawn for making the payments to producers in the following October, November and December.

Producers proposed that the amounts to be set aside in the spring months should be 30 cents per hundredweight of producer milk received during April and 40 cents per hundredweight in each of the months of May, June and July. These deductions would be for the purpose of making excessive production during these months less profitable to the individual producer and encourage him to maintain a more even production.

Under the producer proposal, for each of the months of October, November and December, one-third of the money turned over to the market administrator for this purpose by the handlers in the previous April, May, June, and July, would be returned to handlers pro rata per hundredweight of milk received by each handler from producers in the delivery period and added into payments for milk received from producers in such month. These payments would be part of the uniform price.

The foregoing seasonal production incentive plan proposed by the producer associations was explained and recommended by an expert witness from the College of Agriculture, University of Kentucky. He testified to its success in other markets where seasonal changes in Class I prices had failed to reduce seasonal fluctuations in production. In this market, too, the record shows that production continues to be very uneven in spite of the range of the Class I price differential from 90 cents in the flush months to $1.50 in the fall and winter.

Clearly some method of encouraging producers to hold down seasonal variations in production is needed in this market. The plan proposed by producers is similar to plans used satisfactorily in other markets and appears well adapted to the needs of this market. It is concluded it should be adopted. As explained elsewhere in this decision, the plan could not become effective until April 1956.

(c) *Payments to individual producers and to members of cooperative associations.* Handlers should make payments to each producer for milk delivered by such producer at the uniform price computed for each handler by the market administrator. Payments due any producer for milk should be paid by the handler to a cooperative association if the cooperative association makes a written request for such payments and if the producer has given the cooperative association written authorization, in the form of a contract or in any other form, to collect such payments. The association making such request should also agree to indemnify the handler for any loss incurred because of an improper claim. In making such payments for producer milk to a cooperative association, the handler should at the same time furnish the cooperative association with a statement showing the name of each producer for whom payment is being made to the cooperative association, the volume and average butterfat content of milk delivered by each such producer, and the amount of and reasons for any deductions which the handler withheld from the amount payable to each producer. This statement is necessary so that the cooperative association can make proper distribution of the money it collects to producers for whom it collects.

It is necessary that a cooperative association receive payment for the milk marketed on behalf of its producer-members, so that it can reblend the sales proceeds from milk sold in various outlets. Such reblending may be involved in connection with the distribution of proceeds from milk diverted by an association to nonpool dairy product plants, or on milk sold for fluid use in other marketing areas, or in arranging for allocation of milk supplies among handlers.

All payments and accounting should be on a monthly basis, which is the uniform practice under all Federal orders except where daily accounting may be used to prove utilization of producer milk. Payments and accounting on a twice monthly basis, as proposed by producers, would occasion administrative expense, particularly as to checking reports, computation of prices, and auditing payments and utilization, out of proportion to the expense in other markets. It would be possible to achieve payment to producers on approximately an equivalent basis if handlers made advance payments for milk received during the first half of the month. These advance payments could be based on an approximation of the uniform price—such approximation could be the uniform price for the previous month.

In the attached proposed order no advance payment plan is provided. While there is some basis in the testimony for such a provision the need for it is not clear and it seems advisable at this time to leave the matter to voluntary arrangements.

(d) *Producer butterfat differential.* The uniform prices of each handler should be computed for milk containing 3.5 percent of butterfat. In distributing proceeds to producers a differential should be established for milk containing more or less than 3.5 percent of butterfat.

This differential should return to producers the value paid by handlers for differential butterfat. This may be accomplished by using a producer butterfat differential which is the average of the Class I and Class II butterfat differentials weighted by the butterfat accounted for in each class. Such a differential would result in only slightly different returns to individual producers from the differential proposed by producers. It is concluded that the weighted average butterfat differential should be adopted.

(e) *Location differentials to producers.* The difference in the charge to a handler for the location at which he receives milk at a plant 45 miles or more from the central point in the marketing area, as compared to the price within the 45-mile zone, should be reflected in location differentials applied to the uniform prices to producers.

From the record it appears that among the handlers now operating in the marketing area, there is only one which is a multiple plant operator with a plant (or plants) which may be in differential territory. In such a case there would arise the question of the appropriate differential with respect to the uniform producer prices at these plants. The differential applied to producers' uniform prices should be the same as the differential allowed handlers with respect to Class I milk. This differential represents the difference in value for whole milk at plants in the several locations.

(8) *Administrative provisions.* The remaining provisions of the order are of a general administrative nature, are incidental to the other provisions of the order, and are necessary for the proper and efficient administration of the order. They provide for the selection of a market administrator, define his powers and duties, provide for an administrative assessment, prescribe the information to be reported by handlers and set forth the rules to be followed in making the computations required by the order. They also prescribe the length of time that records must be retained and provide a plan for the liquidation of the order in the event of its suspension or termination. They are similar to like provisions of other orders, and except as set forth below require no comment.

(a) *Expenses of administration.* As his share of the expenses of administering this order each handler should pay not in excess of four cents per hundredweight with respect to all producer milk received, and all other source milk received at a producer milk plant which is classified as Class I milk. The market administrator must verify receipts and utilization of all such milk; therefore all such milk should be subject to the expenses of administration. Experience in other markets of approximately the same size indicates that 4 cents per hundredweight with respect to all such milk should yield sufficient money to cover expenses of administration. If payment of expenses of administration at the rate of 4 cents per hundredweight yields more money than is needed, provision is made for the Secretary to prescribe a lesser rate of payment from time to time.

(b) *Marketing services.* A provision should be included in the order for furnishing marketing services to producers, such as verifying of tests and weights and furnishing market information. These should be provided by the market administrator and the cost should be borne by the producer receiving the service. If a cooperative association is performing such services for any member-producers and is approved for such activities by the Secretary, the market administrator may accept this in lieu of his own service.

Orderly marketing will be promoted by assuring individual producers that payments received for their milk are based on the pricing provisions of the order, and reflect accurate weights and tests of such milk. To accomplish this fully, it is necessary that the butterfat tests and weights of individual producer deliveries of milk as reported by the handler be verified for accuracy. An important phase of the marketing service program is to furnish producers with current market information.

To enable the market administrator to furnish such services, provision should be made for a maximum deduction of 5 cents per hundredweight with respect to receipts of milk from producers for whom he renders marketing services. Comparison of the extent of the milkshed and the volume of milk involved with that of several other markets now under Federal regulation leads to the conclusion that this will reflect the maximum cost of such services. If later experience indicates that marketing services can be performed at a lesser rate, provision is made for the Secretary to adjust the rate downward without the necessity of a hearing.

(c) *Records and reports.* Reports are required from handlers on receipts and utilization so that the market administrator may compute each handler's uniform price to producers. Handlers would also be required to submit payroll reports which would show the details of milk receipts from each producer, the value of the milk received from the producer, deductions therefrom, and net amount paid to the producer.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444), covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of the decision.

(d) *Time schedule.* Dates must be prescribed for announcing prices, filing reports and making payments. The following time schedule should allow all interested persons adequate time to perform each function. (These time limits apply to the indicated day of the month following the month for which computations are being made.)

Day of the Month and Function

6th—Announcement of class prices by market administrator.

8th—Submission of monthly report of receipts and utilization by handlers.

13th—Announcement of uniform prices and names of handlers who received producer milk and notification to handlers of the value of their producer milk by market administrator.

14th—Payment by handlers of amounts due seasonal production incentive fund and for expenses of administration.

16th—Payments by handlers to cooperative associations and by market administrator out of seasonal production incentive fund.

18th—Payments by handlers to producers.

(e) *Milk subject to other Federal orders.* A handler who operates a plant at which minimum prices to dairy farmers are established under another order issued pursuant to the act, but who also sells milk in the Indianapolis marketing area, should not be subject to the price regulations of this order. When there is doubt as to which order applies, the matter must be subject to determination by the Secretary of Agriculture. Any plant which the Secretary determines is subject during a delivery period to another Federal order should be exempted during the delivery period from all provisions of this order except the provisions with respect to records and reports.

A proposal was made by producers that milk sold in the form of a Class I product in Indianapolis, but paid for under another Federal order at a price less than the Class I price in this market, should be subject to a payment which would be made to the market administrator and would be distributed by him among Indianapolis producers. It is concluded that the need for such payments was not substantiated. As pointed out in a previous section of this decision, handlers in the lower priced markets to the north would not necessarily have advantage over Indianapolis handlers in selling milk in this area. If they did, it might signify that prices were out of line. Then too, the market is, in a measure, protected by the provision that such milk, designated "other source milk," would be first allocated to the Class II utilization of the purchasing handler and thus displace little or no producer milk in Class I.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, the available supply of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of a producer cooperative association and milk distributors in the area. The briefs contained proposed findings and conclusions, and arguments with respect to the provisions of the proposed order. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and order. The following order is recommended as the appropriate means whereby the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order.

DEFINITIONS

§ 986.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 986.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or such other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 986.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 986.4 *Indianapolis, Indiana, marketing area.* "Indianapolis, Indiana, marketing area," hereinafter called "marketing area" means all the territory within the County of Marion in Indiana.

§ 986.5 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 986.6 *Producer.* "Producer" means any person who produces under approval by the Marion County Health and Hospital Corporation milk for fluid consumption which is (a) received at a producer milk plant; or (b) caused by a handler to be delivered for his account to a nonproducer milk plant.

§ 986.7 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer and received by a handler.

§ 986.8 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 986.9 *Handler.* "Handler" means (a) any person, with respect to milk (including any milk from his own farm production) received by him at a plant from which Class I milk is disposed of in the marketing area or to a producer milk plant; or (b) any cooperative association, or other person included under paragraph (a) of this section, with respect to any producer milk which such cooperative association or person causes to be delivered for its (his) account to a plant from which Class I milk is not disposed of in the marketing area. Milk caused to be delivered by a handler in accordance with paragraph (b) of this section shall be considered as having been received by such handler.

§ 986.10 *Producer-handler.* "Producer-handler" means any person who is both a producer and a handler and receives no milk from other producers.

§ 986.11 *Producer milk plant.* "Producer milk plant" means (a) any plant from which a volume of Class I milk equal to an average of 200 units per day (one-half pint of cream or one quart of any other fluid product to be counted as one unit) is disposed of during the month on routes (including routes operated by vendors) or through stations or plant stores to retail or wholesale outlets (except other producer milk plants) in the marketing area, or (b) any plant which receives milk from farmers holding dairy farm permits or ratings issued or approved by the Marion County health authority, and from which milk, skim milk or cream is moved during the month to a plant qualified pursuant to paragraph (a) of this section, or (c) any plant which receives milk from farmers holding dairy farm permits or ratings issued or approved by the Marion County health authority, and which is operated by a handler who also operates a plant qualified pursuant to paragraph (a) of this section: *Provided*, That if a portion of a plant is operated separately and no producer milk is received in such portion of the plant, it shall not be considered as part of a producer milk plant.

§ 986.12 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines to be (a) qualified pursuant to provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; (b) to be engaged in making collective sales or marketing of milk or its products for the producer thereof; and (c) to have full authority in the sale of milk of its members.

§ 986.13 *Delivery period.* "Delivery period" means a calendar month.

§ 986.14 *Unit.* "Unit" means one-half pint of cream or one quart of any other Class I product.

MARKET ADMINISTRATOR

§ 986.20 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

§ 986.21 *Powers.* The market administrator shall have the power:

(a) To administer this subpart in accordance with its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations of the provisions of this subpart;

(c) To make rules and regulations to effectuate the terms and provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 986.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 986.87, (1) the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, (2) his own compensation, and (3) all other expenses necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties, except those incurred under § 986.86;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and, upon request by the Secretary, surrender the same to his successor or to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate the name of any person who, within ten days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 986.30 and 986.31, or (2) payments pursuant to §§ 986.80 to 986.82, 986.84, 986.86, 986.87, and 986.88;

(g) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times;

(h) On or before the 13th day after the end of each delivery period, report to each cooperative association for such period, with respect to each handler the utilization on a pro rata basis, of milk of producers, payment for which is to be made to such cooperative association;

(i) Audit all reports and payments by each handler by inspection of such handler's records and of any person upon whose utilization the classification of milk depends;

(j) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part; and

(k) On or before the date specified, publicly announce and notify each handler in writing of the following: (1) The 6th day of each month, the Class I price and the applicable butterfat differential, both for the current month, and the Class II price, and the applicable butterfat differential both for the preceding month, and (2) the 13th day after the end of each delivery period, the names of handlers who received producer milk, the uniform prices for each handler pursuant to § 986.71 and the producer butterfat differential, pursuant to § 986.81.

REPORTS, RECORDS AND FACILITIES

§ 986.30 *Reports of receipts and utilization.* On or before the 5th day after the end of the delivery period each handler who operates a producer milk plant shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(e) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 986.31 *Other reports.* (a) Each producer-handler and each handler who does not operate a producer milk plant shall make reports at such time and in such manner as the market administrator may request; and

(b) On or before the 20th day of each month each handler who received milk from producers shall report his producer payroll for the preceding delivery period which shall show:

(1) The pounds of milk received from each producer and the percentage of butterfat contained therein,

(2) The amount and date of payment to each producer (or to a cooperative association), and

(3) The nature and amount of each deduction or charge involved in the payments referred to in subparagraph (2) of this paragraph.

§ 986.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business, such accounts and records of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify, or to establish the correct data with respect to (a) the utilization in whatever form of all skim milk and butterfat received; (b) the weights, samples and tests for butterfat content of all milk and milk products previously received or utilized or currently being received or utilized; and (c) payments to producers and associations of producers.

§ 986.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler or producer-handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if within such three-year period the market administrator notifies the handler or producer-handler in writing that the retention of such books and records or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler or producer-handler shall retain such books and records or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler or producer-handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 986.40 *Basis of classification.* All skim and butterfat received by a handler which is required to be reported pursuant to § 986.30 shall be classified by the market administrator pursuant to the provisions of §§ 986.41 through § 986.45.

§ 986.41 *Classes of utilization.* Subject to conditions set forth in §§ 986.42 and 986.43, classes of utilization shall be:

(a) Class I milk shall be all skim milk and butterfat (1) disposed of in the form of milk, skim milk, flavored milk drinks, buttermilk, cream, sour cream, (2) used to produce reconstituted milk, skim milk, or cream which is disposed of in a form specified in subparagraph (1) of this paragraph, (3) used to produce nonsterilized concentrated milk disposed of for fluid consumption, and (4) all other skim milk and butterfat not specifically accounted for as Class II milk; and

(b) Class II milk shall be all skim milk and butterfat (1) disposed of as or in products not named in paragraph (a) of this section, (2) accounted for as

plant shrinkage of skim milk or butterfat in producer milk pursuant to § 986.45, but not exceeding two percent, and (3) contained in inventory of products designated as Class I pursuant to paragraph (a) (1) of this section.

§ 986.42 *Responsibility of handlers.* All skim milk and butterfat shall be classified as Class I utilization unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 986.43 *Transfers.* (a) Skim milk and butterfat disposed of from a producer milk plant to the producer milk plant of another handler in the form of milk, skim milk, or cream shall be Class I utilization, unless Class II utilization is indicated by both handlers in their reports submitted pursuant to § 986.30: *Provided,* That in no event shall the amount so classified in Class II be greater than the amount of producer milk used in such class by the transferee handler, at the plant of receipt, after allocating other source milk in his plant in series beginning with the lowest priced utilization;

(b) Skim milk and butterfat moved in the form of milk, skim milk or cream from a producer milk plant to a nonproducer milk plant shall be Class I utilization unless the market administrator is permitted to audit the records of receipts and utilization at the transferee plant, in which case the classification of all skim milk and butterfat received at the transferee plant shall be determined, and the skim milk and butterfat transferred shall be allocated to the highest use remaining after subtracting in series, beginning with Class I milk, the receipts of skim milk and butterfat at the transferee plant directly from dairy farmers whom the market administrator determines constitute the regular supply for the plant of the buyer; and

(c) Skim milk and butterfat disposed of from a producer milk plant to a producer-handler shall be Class I utilization.

§ 986.44 *Computation of the skim milk and butterfat in each class.* For each delivery period the market administrator shall correct for mathematical and other obvious errors the report of receipts and utilization submitted by each handler for the period and shall compute the respective amounts of skim milk and butterfat from milk of producers in Class I milk and Class II milk, as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 986.41 (b) (2),

(2) Subtract from the remaining pounds of skim milk in each class, in sequence beginning with Class II milk, the pounds of skim milk received as other source milk,

(3) Subtract from the remaining pounds in each class in sequence beginning with Class II milk the pounds of skim milk received from producer-handlers,

(4) Subtract from the remaining pounds of skim milk in each class, in sequence beginning with Class II milk, the pounds of skim milk contained in inventory on hand at the beginning of the delivery period and classified pursuant to § 986.41 (b) (3),

(5) Subtract from the remaining pounds of milk in each class the pounds of skim milk received from other handlers according to its classification as determined pursuant to § 986.43,

(6) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph, and

(7) Subtract from the remaining pounds of skim milk in each class in sequence beginning with Class II milk the pounds of skim milk by which the total pounds remaining in all classes exceeds the pounds of skim milk received from producers;

(b) Allocate classified butterfat to milk according to the method prescribed in paragraph (a) of this section for skim milk; and

(c) Determine the weighted average butterfat test of the remaining Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

§ 986.45 *Shrinkage.* The gross shrinkage of skim milk and butterfat for each handler shall be prorated between milk received directly from producers and milk received from other handlers and other sources.

MINIMUM PRICES

§ 986.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section.

(a) The average of the basic (or field) prices ascertained to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the preceding delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture by the companies indicated below:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) To the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the mid-point of any price range as one price) of Grade "A" (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the preceding delivery period, add 20 percent thereof and multiply by 3.5, and

(2) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray, and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the second preceding month through the 25th day of the preceding month by the Department, deduct 5.5 cents, and multiply by 8.2.

§ 986.51 *Class I milk prices.* The minimum price per hundredweight for milk of 3.5 percent butterfat content to be paid by each handler for producer milk received and classified as Class I milk shall be the basic formula price computed pursuant to § 986.50 adjusted as follows:

(a) Add $1.10 per hundredweight for each of the delivery periods during the eighteen-month period beginning with the effective date of the order: *Provided,* That for the following delivery periods there shall be added instead of $1.10 per hundredweight the following amounts: for August 1955, $1.15; for the delivery periods of September 1955 through February 1956, $1.30; and for March 1956, $1.15.

§ 986.52 *Class II milk prices.* The minimum price per hundredweight for milk of 3.5 percent butterfat content to be paid by each handler for producer milk received and classified as Class II milk shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section:

(a) The average of the prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Indiana Condensed Milk Co., Sheridan, Ind.
Kroger Co., Marion, Ind.
Nestles Milk Co., Greenville, Ohio.
Pet Milk Co., Coldwater, Ohio.
Pet Milk Co., Angola, Indiana; or

(b) The sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph for the delivery periods of August through February, and such price less 15 cents per hundredweight in other months:

(1) To the simple average, as computed by the market administrator of the daily wholesale selling prices (using the mid-point of any price range as one price) of Grade "A" (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the delivery period, add 20 percent thereof and multiply by 3.5, and,

(2) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 8.2.

§ 986.53 *Butterfat differentials to handlers.* If for any handler, the weighted average butterfat test of his producer milk in each class is more or less than 3.5 percent, there shall be added to or subtracted from, as the case may be, the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential (computed to the nearest tenth of a cent) calculated by the market administrator for such class as follows:

(a) For Class I milk, multiply by 0.120 the average daily wholesale selling price for Grade A (92-score) butter at Chicago described in § 986.50 (b) (1) for the previous month; and

(b) For Class II milk, multiply by 0.115 the average daily wholesale selling price for Grade A (92-score) butter at Chicago described in § 986.50 (b) (1) for the current month.

§ 986.54 *Location adjustment credits to handlers.* In the case of producer milk received by a handler at a plant located 45 miles or more from Monument Circle in Indianapolis, a location adjustment credit shall be allowed to the handler to the extent that such milk (a) is moved as milk, skim milk, or cream, in fluid form, to a plant in the marketing area and exceeds the volume of milk disposed of by the plant in the marketing area as Class II milk, or (b) is (milk, skim milk or cream) not moved to a plant in the marketing area but is disposed of from the plant of receipt as Class I milk, at the rate of 13 cents per hundredweight of milk, skim milk or cream plus one cent per hundredweight for each full ten miles by which the distance of the plant from the Monument Circle in Indianapolis exceeds 45 miles.

APPLICATION OF PROVISIONS

§ 986.60 *Producer-handlers.* Sections 986.40 through 986.45, 986.50 through 986.54, 986.70 through 986.72 and 986.80 through 986.88 shall not apply to a producer-handler.

§ 986.61 *Handlers subject to other orders.* A handler operating a plant which the Secretary determines to be subject to another Federal order during the delivery period shall be exempted with respect to the milk received at such plant during the delivery period from all provisions of this subpart except §§ 986.30, 986.31, 986.32 and 986.33.

DETERMINATION OF UNIFORM PRICES

§ 986.70 *Net obligation of handlers.* The net obligation of each handler for producer milk received at his producer milk plants during each delivery period shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amount computed by multiplying the pounds of overage deducted from each class pursuant to § 986.44 (a) (7) and the corresponding step of § 986.44 (b) by the applicable class price; and

(c) Add an amount computed as follows:

(1) Determine the pounds, if any, that skim milk or butterfat in inventory, subtracted from Class I milk pursuant to § 986.44 (a) (4) and the corresponding step of § 986.44 (b) is not in excess of pounds in producer milk classified as Class II milk (other than as shrinkage) for the preceding delivery period; and

(2) Multiply such pounds by the difference between the Class I price in the current delivery period and the Class II price in the preceding delivery period adjusted by the appropriate butterfat differentials.

§ 986.71 *Computation of uniform price.* For each delivery period, the market administrator shall compute for each handler the "uniform price" per hundredweight for producer milk, on the basis of 3.5 percent butterfat content as follows:

(a) Subtract from the value of milk computed for such handler pursuant to § 986.70, if the weighted average butterfat test of all producer milk represented by such value is greater than 3.5 percent or add if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by: Multiplying the difference of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 986.81 and multiplying the result by the hundredweight of milk computed pursuant to § 986.70;

(b) Add an amount computed by multiplying the hundredweight of milk received by the handler from producers at each plant at which location differentials apply pursuant to § 986.82 by the amount of such differentials;

(c) For the month of April, deduct 30 cents per hundredweight, and for each of the months of May, June and July, deduct 40 cents per hundredweight;

(d) For each of the months of October, November, and December, add the amount calculated pursuant to § 986.85 (b) with respect to producer milk received by the handler in the delivery period;

(e) Add or subtract, as the case may be, the amount necessary to correct errors for previous delivery periods pursuant to § 986.88;

(f) Add the sum of money represented by the adjustment with respect to the previous delivery period pursuant to paragraph (h) of this section if such adjustment was a deduction, or subtract such sum of money if the adjustment was an addition;

(g) Divide the resulting amount by the total hundredweight of producer milk received by the handler; and

(h) Adjust the resulting figure to the nearest cent.

§ 986.72 *Notification.* On or before the 13th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing for such month:

(a) The amount and value of his producer milk in each class; and

(b) The amounts to be paid by such handler pursuant to §§ 986.80, 986.84, 986.86, 986.87 and 986.88.

PAYMENT FOR MILK

§ 986.80 *Time and method of payment.* On or before the 18th day after the end of each month each handler who received milk from producers or producer milk from a cooperative association shall pay for milk received during such month to each producer, or pursuant to § 986.89 to a cooperative association for milk received from such association or from producers for the account of such association, the uniform prices as provided in § 986.71 adjusted by the butterfat differential pursuant to § 986.81.

§ 986.81 *Producer butterfat differential.* In making payments pursuant to § 986.80, the uniform price shall be increased or decreased for each one-tenth of one percent of butterfat content in the milk received from each producer or a cooperative association above or below 3.5 percent, as the case may be, by a butterfat differential equal to (the same as) the butterfat differential calculated as follows: Multiply the Class I butterfat differential by the pounds of butterfat in producer milk classified as Class I, multiply the Class II butterfat differential by the pounds of butterfat in producer milk classified as Class II, add the resulting amounts of these calculations, divide the sum by the total pounds of butterfat in producer milk, and round to the nearest tenth of a cent.

§ 986.82 *Location differential to producers.* Location differentials to producers shall apply to all milk received at a producer milk plant located 45 miles or more from Monument Circle in Indianapolis and shall be at the rate of 13 cents per hundredweight plus one cent per hundredweight for each full ten miles by which the distance of the plant from Monument Circle in Indianapolis exceeds 45 miles.

§ 986.83 *Seasonal production incentive fund.* The market administrator shall establish and maintain a fund known as the "seasonal production incentive fund" into which he shall deposit all payments made by handlers pursuant to § 986.84 and out of which he shall make all payments to handlers pursuant to § 986.85.

§ 986.84 *Payments into the seasonal production incentive fund.* On or before the 14th day after the end of the delivery periods of April, May, June and July each handler shall pay to the market administrator the amount of money deducted pursuant to § 986.71 (c) for all producer milk received by him.

§ 986.85 *Payments out of the seasonal production incentive fund.* On or before the 16th day after the end of the delivery periods of October, November, and December, the market administrator shall pay to each handler the amounts computed as follows:

(a) Divide the total amount in the seasonal production incentive fund on the last day of October by three; and

(b) Prorate the resulting amount among handlers according to the hundredweight of producer milk received by each handler during the delivery period, *Provided*, That such proration with respect to milk received from producers during the delivery period of December shall include all money remaining in the seasonal production incentive fund prior to payment of such money by the market administrator to handlers.

§ 986.86 *Marketing services.* In making payments to producers or cooperative associations pursuant to § 986.70 a handler shall make deductions and dispose of amounts so deducted as follows:

(a) (1) Except as set forth in paragraph (b) of this section, a handler shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to all producer milk for which payment is being made pursuant to § 986.70 and shall pay the total amount of such deductions to the market administrator on or before the 15th day after the end of the period in which such producer milk was received.

(2) Such amount shall be expended by the market administrator to verify weights and tests of milk of producers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him; and

(b) In the case of producers for whom a cooperative association is actually performing the services described in paragraph (a) of this section as determined by the market administrator a handler shall make in lieu of the deductions specified in paragraph (a) of this section such deductions from payments required pursuant to § 986.70 (b) for producer milk received in the preceding month as may be authorized by such producers and pay such deductions on or before the 15th day after the end of the period in which such producer milk was received to the cooperative association rendering such services.

§ 986.87 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 14th day after the end of each month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of milk from producers, including milk of such handler's own production, and all other source milk received by him at producer milk plants and classified as Class I.

§ 986.88 *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in moneys due:

(a) To the market administrator from such handler;

(b) To such handler from the market administrator; or

(c) To any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 986.89 *Payments to cooperatives for milk.* (a) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the association, each handler shall pay to the cooperative association on or before the 16th day of each month, in lieu of payments to individual producers an amount equal to the gross sum due for all milk received from certified members, less amounts owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer, and submit to the cooperative association written information which shows for each such member-producer (1) the total pounds of milk received from him during the preceding month, (2) the total pounds of butterfat contained in such milk; and (3) the amounts withheld by the handler in payment for supplies sold. The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association;

(b) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler shall be made by written notice to the market administrator, and shall be subject to his determination.

§ 986.90 *Effective time.* The provisions of this subpart or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 986.92.

§ 986.91 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart, whenever he finds that this subpart or any provisions of this subpart, obstructs, or does not tend to effectuate, the declared policy of the act. This subpart shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 986.92 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under this subpart, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate; and

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until discharged by the Secretary, (2) from time to time account for all receipts and disbursements, and, when so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary may direct, and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant to this subpart.

§ 986.93 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 986.94 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 986.95 *Separability of provisions.* If any provision of this subpart, or the application thereof to any person or circumstances, is held invalid, the remainder of the subpart, and the application of such provision to other persons or circumstances, shall not be affected thereby.

§ 986.96 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation,

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled, and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligations are made available to the market administrator or his representatives;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

TURTLE MOUNTAIN BAND OF CHIPPEWA INDIANS OF NORTH DAKOTA

FEDERAL INDIAN LIQUOR LAWS

Pursuant to the act of August 15, 1953 (Public Law 277—83d Cong., 1st Sess.), I certify that the following ordinance relating to the application of the Federal Indian liquor laws on the Turtle Mountain Reservation was duly adopted by the Turtle Mountain Band of Chippewa Indians of North Dakota which has jurisdiction over the area of Indian country included in the resolution:

Whereas, Public Law 277, 83d Congress, approved August 15, 1953, provides that sections 1154, 1156, 3113 and 3618 of title 18, United States Code, commonly referred to as the Federal Indian liquor laws, shall not apply to any act or transaction within any area of Indian country provided such act or transaction is in conformity with both the laws of the State in which such act or transaction occurs and with an ordinance duly adopted by the tribe having jurisdiction over such area of Indian country, certified by the Secretary of the Interior, and published in the FEDERAL REGISTER.

Therefore, be it resolved that the introduction, sale or possession of intoxicating beverages shall be lawful within the Indian country under the jurisdiction of the Turtle Mountain Band of Chippewas, Provided, that such introduction, sale or possession is in conformity with the laws of North Dakota and in conformity with Ordinances of this tribe hereafter enacted.

Be it further resolved, that any tribal laws, resolutions or ordinances heretofore enacted which prohibit the sale, introduction or possession of intoxicating beverages are hereby repealed.

CLARENCE A. DAVIS, *Acting Secretary of the Interior.*

Office of the Administrator

URBAN RENEWAL COMMISSIONER AND HHFA REGIONAL ADMINISTRATORS

AMENDMENT OF DELEGATION OF AUTHORITY WITH RESPECT TO SLUM CLEARANCE AND URBAN RENEWAL PROGRAM, DEMONSTRATION AND URBAN PLANNING GRANT PROGRAMS

The delegation of authority with respect to the slum clearance and urban renewal program, demonstration and urban planning grant programs effective as of December 23, 1954 (20 F. R. 428–429, 1/19/1955), is hereby amended in the following respects:

1. By inserting the word "and" immediately after the semicolon in subparagraph 4 (g), deleting the semicolon and the word "and" at the end of subparagraph 4 (h) and inserting a period, and deleting subparagraph 4 (i).

2. By adding a new paragraph 5 reading as follows:

5. Each Regional Administrator is further authorized to:

(a) Redelegate to Project Representatives in his Region any of the authority to approve contracts between local public agencies and third parties.

(b) Designate an employee in his Region to act in the place of the Regional Director of Urban Renewal, with the title of "Acting Regional Director of Urban Renewal" and with power to perform the functions of the Regional Director of Urban Renewal, during his absence or disability.

3. By renumbering existing paragraphs 5 and 6 as paragraphs 6 and 7, respectively.

Effective as of the 17th day of June 1955.

OAKLEY HUNTER,
Acting Housing and Home Finance Administrator.

TITLE 7—AGRICULTURE

PART 725—BURLEY AND FLUE-CURED TOBACCO

PROCLAMATION OF THE RESULTS OF MARKETING QUOTA REFERENDUM

§ 725.607 *Basis and purpose.* Sections 725.607 and 725.608 are issued to announce the results of the Burley tobacco marketing quota referendum for the marketing year beginning October 1, 1955. Under the provisions of Public Law 21, 84th Congress, approved March 31, 1955, the Secretary proclaimed a redetermined national marketing quota for Burley tobacco for the 1955–56 marketing year (20 F. R. 2299). The Secretary announced (20 F. R. 2338) that a referendum would be held on April 28, 1955, to determine whether Burley tobacco producers were in favor of or opposed to the redetermined national marketing quota for the marketing year beginning October 1, 1955. Since the only purpose of this proclamation is to announce the results of the referendum, it is hereby found and determined that with respect to this proclamation, application of the notice and procedure provisions of the Administrative Procedure Act (5 U. S. C. 1003) is unnecessary.

§ 725.608 *Proclamation of the results of the redetermined Burley tobacco marketing quota referendum for the marketing year beginning October 1, 1955.* In a referendum of farmers engaged in the production of the 1954 crop of Burley tobacco held on April 28, 1955, 340,822 farmers voted. Of those voting, 327,059 or 96.0 percent favored the redetermined quota for the marketing year beginning October 1, 1955, and 13,763 or 4.0 percent were opposed to the redetermined quota. Therefore, the redetermined national marketing quota of 334,000,000 pounds proclaimed April 8, 1955 (20 F. R. 2299) for Burley tobacco for the 1955–56 marketing year will be in effect for such year.

Done at Washington, D. C., this 15th day of June 1955. Witness my hand and the seal of the Department of Agriculture.

Acting Secretary of Agriculture.

PART 730—RICE

SUBPART—1955–56 MARKETING YEAR

MISCELLANEOUS AMENDMENTS

The amendments herein are issued pursuant to Public Laws 27 and 29, 84th Congress, to provide for (1) increasing each State rice acreage allotment by two per centum or such greater acreage as may be necessary to provide the State with an allotment equal to the 1950 allotment, (2) a minimum reserve acreage of 500 acres for each State for "new" farms or "new" producers, (3) the apportionment of the increase in each State acreage allotment among counties (in States where county allotments are determined) and farms in the State, and (4) the release and reapportionment of unused 1955 farm rice acreage allotments which are voluntarily released to the county committee.

Since rice producers are currently in the process of planting 1955 crop rice, it is imperative they be notified as soon as possible of these amendments. Therefore, it is hereby determined that compliance with the provisions of the Administrative Procedure Act with respect to notice, public procedure thereon, and effective date is contrary to the public interest, and the amendments herein shall become effective upon the date of filing this document with the Director, Division of the Federal Register.

1. A new § 730.606 is added to read as follows:

§ 730.606 *Increased State acreage allotments.* The State acreage allotments in § 730.605, as increased pursuant to Public Law 29, 84th Congress, are as follows:

	Acres
Arizona	269
Arkansas	444,352
California	350,229

2. Section 730.617 is amended by adding a new paragraph (d) to read as follows:

§ 730.617 *1955 acreage allotments for old farms.* * * *

(d) Notwithstanding the provisions of paragraphs (a), (b), and (c) of this section, there shall be apportioned to old farms in the county in addition to the allotments provided for in paragraphs (a), (b), and (c) of this section the increase in the county acreage allotment made pursuant to Public Law 29, 84th Congress. Such increase shall be apportioned primarily on the basis of the need for additional allotment to correct inequities and prevent hardships so as to establish farm acreage allotments which are fair and reasonable in relation to the past production of rice on the farm during the years 1950 through 1954; abnormal conditions affecting acreage; land, labor, water, and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice. In apportioning such increase the acreage available under paragraphs (b) and (c) of this section may be increased and adjustments may be made without regard to the percentage limitations in paragraph (b) of this section. In counties where all the increase in the county allotment is not needed to correct inequities and prevent hardships in individual farm acreage allotments, such part of the increase not so needed may be apportioned pro rata among farms pursuant to paragraph (a) of this section.

3. Section 730.618 is amended by (1) adding in the first sentence the language "Oklahoma," immediately following the language "Missouri,"; (2) adding a new sentence immediately preceding the last sentence thereof to read as follows: "The rice acreage allotment for a new farm in any State for which no State acreage allotment is determined shall be fair and equitable in comparison with allotments established for new farms in adjoining States which are similar with respect to land suitable for the production of rice, crop-rotation practices, labor, water, and equipment available for the production of rice, and the soil and other physical factors affecting the production of rice."; and (3) changing the last sentence to read as follows: "The sum of all such new farm rice acreage allotments in any State determined under this secton shall not exceed the reserve for new farms established by the State committee. Such reserve shall not exceed 3 per centum of the State rice acreage allotment or be less than 500 acres. In the States of Illinois, Missouri, Oklahoma, and South Carolina for which additional acreages were made available for apportionment to new farms under Public Law 29, 84th Congress, requests for new farm allotments shall be filed with the county ASC office not later than June 20, 1955."

4. Section 730.621 is amended by changing the designations of paragraphs (d) and (e) to (e) and (f), respectively, and by adding a new paragraph (d) to read as follows:

§ 730.621 *Determination of preliminary acreage allotments for old producers and allocation to farms.* * * *

(d) Notwithstanding the provisions of paragraphs (a), (b), and (c) of this section, the State committee, with the assistance of the county committee, shall apportion to old producers in the State in addition to the preliminary allotments provided for in paragraphs (a), (b), and (c) of this section the increase in the State acreage allotment made pursuant to Public Law 29, 84th Congress. Such increase shall be apportioned on the basis of the need for additional allotment to correct inequities and prevent hardships so as to establish preliminary allotments which are fair and equitable in relation to the allotments for other old producers with respect to crop-rotation practices, the land, labor, water, and equipment available for the production of rice, and the soil and other physical factors affecting the production of rice during the years 1950 through 1954. In apportioning such increase, the acreage available under paragraphs (b) and (c) of this section may be increased and adjustments made without regard to the percentage limitations in paragraph (b) of this section.

5. Section 730.622 is amended by adding the following language at the end of paragraph (a) thereof: "The sum of all rice acreage allotments for new producers determined under this section shall not exceed the reserve for new producers established by the State committee. Such reserve shall not exceed 3 per centum of the State rice acreage allotments or be less than 500 acres. In the States of Arizona, Florida, and Tennessee for which additional acreages were made available for apportionment to new producers under Public Law 29, 84th Congress, new producers shall file requests for allotments with the county ASC office not later than June 20, 1955."

6. A new § 730.630 is added to read as follows:

§ 730.630 *Reallocation of allotments released voluntarily to county committee.* (a) In the States of Arkansas, Illinois, Louisiana, Mississippi, Missouri, and South Carolina, any part of any 1955 farm rice acreage allotment on which rice will not be planted in 1955 and which is voluntarily released by the owner or operator of the farm to the county committee by June 20, 1955, shall be deducted from the rice acreage allotment for such farm and may be reapportioned by the county committee not later than June 20, 1955, to other farms (old or new) receiving allotments in the same county in amounts determined to be fair and reasonable on the basis of the production of rice on the farm during the years 1950 through 1954; the 1950 farm acreage allotment; abnormal conditions affecting acreage; land, labor, water, and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice, but without regard to the limitations imposed under § 730.617 (b). In considering farms to receive additional allotment from released acreage, preference shall be given to farms having small allotments. Any rice acreage allotment released for 1955 shall, in determining future rice acreage allotments, be regarded as having been planted on the farm releasing such allotment if rice was seeded on such farm in at least one of the five years immediately preceding the year for which the allotment is determined, and shall not be considered as having been planted on the farm to which such released acreage is reapportioned.

(b) In the States of Arizona, California, Florida, Tennessee, and Texas, a producer may, not later than June 20, 1955, voluntarily release to the county committee all or any part of his 1955 preliminary rice acreage allotment on which rice will not be planted in 1955. Such released acreage shall be deducted from the preliminary allotment established for such producer and may be reapportioned by the county committee not later than June 20, 1955, to other producers (old or new) in the same county receiving allotments in amounts determined to be fair and reasonable on the basis of the production of rice by the producer during the years 1950 through 1954; the 1950 preliminary acreage allotment for the producer; abnormal conditions affecting acreage; land, labor, water, and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice, but without regard to the limitations imposed under § 730.621 (b). Any part of a producer's preliminary allotment which is not assigned to a farm by reason of a field size adjustment under § 730.621 (e) shall, upon request of the producer, be considered as released acreage under this paragraph. In considering producers to receive additional allotment from released acreage, preference shall be given to producers having small allotments. Any preliminary rice acre-

age allotment released for 1955 shall, in determining future preliminary rice acreage allotments, be regarded as having been planted by the producer releasing such preliminary allotment if rice was seeded by such producer in at least one of the five years immediately preceding the year for which the allotment is determined, and shall not be considered as having been planted by the producer to which such released acreage is reapportioned.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply sec. 353, 52 Stat. 61, as amended. Pub. Laws 27, 29, 84th Cong.; 7 U. S. C. 1353)

Done at Washington, D. C., this 15th day of June 1955. Witness my hand and the seal of the Department of Agriculture.

[Amdt. 1]

PART 730—RICE

SUBPART—REGULATIONS PERTAINING TO RICE MARKETING QUOTAS FOR 1955 CROP

DATE FOR DISPOSAL OF EXCESS RICE ACREAGE

The amendment herein is issued under the rice marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, for the purpose of providing for the disposal of excess rice acreage in advance of the date harvesting of rice normally begins in the county.

Since the purpose of this amendment is to provide a date for the disposal of excess rice acreage in advance of the date harvesting of rice normally begins in the county, rice growers should be notified of this amendment as soon as possible. Accordingly, it is hereby found that compliance with the notice, procedure, and 30-day effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendment herein shall become effective upon filing of this document with the Director, Division of the Federal Register.

The second sentence of § 730.651 (u) is amended to read as follows: "Such date for each county or areas within the county shall be far enough in advance of the date the harvesting of rice normally begins in the county to permit sufficient time to remeasure the farms in the county and issue marketing cards to eligible producers prior to harvest."

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 40]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.340 *Valencia Orange Regulation 40*—(a) *Findings.* (1) Pursuant to Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on June 16, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., June 19, 1955, and ending at 12:01 a. m., P. s. t., June 26, 1955, is hereby fixed as follows:

(i) District 1: 92,400 boxes;
(ii) District 2: 369,600 boxes;
(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

[Lemon Reg. 594]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.701 *Lemon Regulation 594*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 15, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 19, 1955, and ending at 12:01 a. m., P. s. t., June 26, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 550 carloads;
(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

[ACP-1955, Supp. 9]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1955

ESTABLISHMENT OF VEGETATIVE COVER IN FALL OF 1955 FOR WINTER PROTECTION FROM EROSION; ESTABLISHMENT OF VEGETATIVE COVER IN FALL OF 1955 FOR GREEN MANURE AND PROTECTION FROM EROSION

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1955, the 1955 National Agricultural Conservation Porgram, approved July 1, 1954 (19 F. R. 4138), as amended August 3, 1954 (19 F. R. 4953), September 15, 1954 (19 F. R. 6059), October 25, 1954 (19 F. R. 6910), March 1, 1955 (20 F. R. 1336), April 7, 1955 (20 F. R. 2414), April 26, 1955 (20 F. R. 2881), May 16, 1955 (20 F. R. 3494), and June 10, 1955 (20 F. R. 4209), is further amended as follows:

1. A new § 1101.689 is added as follows:

§ 1101.689 *Practice D-5: Establishment of vegetative cover in the fall of 1955 for winter protection from erosion.* A good stand and growth must be obtained in sufficient time to protect the area in the fall and winter of 1955 and must be maintained on the land to a date specified in the county program. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the cover crop.

2. A new § 1101.689a is added as follows:

§ 1101.689a *Practice D-6: Establishment of vegetative cover in the fall of 1955 for green manure and protection from erosion.* Federal cost-sharing will be limited to acreages of biennial or perennial legumes or perennial grasses, or mixtures of such legumes with adapted grasses, seeded in the fall of 1955. A good stand must be obtained and a good growth incorporated into the soil in the fall of 1956 or in the spring of 1957 and must be maintained on the land to a date specified in the county program. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the cover crop.

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1956

There is no more important responsibility within the Department of Agriculture than that for taking aggressive leadership for the conservation and improvement of the Nation's soil and water resources. Cost-sharing under the Agricultural Conservation Program is an important and effective means through which landowners and operators are aided in doing essential conservation work needed in the public interest.

The basic principles which guide the administration of the Agricultural Conservation Program are being continued for 1956. The experience and recommendations of State and county Agricultural Stabilization and Conservation committees, representatives of the Extension Service, Forest Service, and Soil Conservation Service, officials of Soil Conservation Districts, and representatives of other agricultural agencies at State and local levels have been taken into consideration in making needed program adjustments to meet anticipated conditions in 1956.

The extent to which the program helps meet conservation objectives is dependent upon the wholehearted participation of all those interested in conservation, at national and local levels, and we solicit their cooperation in making the program effective. I am calling on all those in the Department who have responsibilities in the field of soil and water conservation to join in making the 1956 program a productive tool for conservation and improvement of the agricultural resources of the Nation's farms and ranches. We hope that the Nation's farmers and ranchers will join in using the program to meet, more than ever before, the community and individual farm conservation problems which would not otherwise be solved. In particular, the 1956 program should be used to the maximum extent to insure the protection and improvement of our valuable farmlands now being diverted from normal crop uses.

CONSERVATION PRACTICES WITH ENDURING BENEFITS; WHERE PROPERLY APPLIED AND MAINTAINED

PRACTICES PRIMARILY FOR ESTABLISHMENT OF PERMANENT PROTECTIVE COVER

1101.749 Practice A–1: Initial establishment of a permanent vegetative cover in orchards and vineyards for control of erosion.
1101.750 Practice A–2: Initial establishment of a permanent vegetative cover for soil protection or as a needed land-use adjustment.
1101.751 Practice A–3: Establishment of additional acreages of vegetative cover in crop rotation to retard erosion and to improve soil structure, permeability, or water-holding capacity.
1101.752 Practice A–4: Initial treatment of farmland to permit the use of legumes and grasses for soil improvement and protection.
1101.753 Practice A–5: Initial establishment of contour stripcropping to protect soil from water or wind erosion.
1101.754 Practice A–6: Initial establishment of field stripcropping to protect soil from wind or water erosion.
1101.755 Practice A–7: Initial establishment of a stand of trees or shrubs on farmland for erosion control, watershed protection, or forestry purposes.

PRACTICES PRIMARILY FOR IMPROVEMENT AND PROTECTION OF ESTABLISHED VEGETATIVE COVER

1101.757 Practice B–1: Initial improvement of an established permanent vegetative cover for soil or watershed protection.
1101.758 Practice B–2: Initial improvement of vegetative cover on rangeland by artificial reseeding for soil protection.
1101.759 Practice B–3: Controlling competitive shrubs to permit growth of adequate, desirable vegetative cover for soil protection on range or pasture land.
1101.760 Practice B–4: Burrowing, chiseling, ripping, scarifying, pitting, or listing noncrop grazing land to prevent soil loss, retard runoff, and improve water penetration.
1101.761 Practice B–5: Constructing wells for livestock water as a means of protecting established vegetative cover.
1101.762 Practice B–6: Developing springs or seeps for livestock water as a means of protecting established vegetative cover.
1101.763 Practice B–7: Constructing or sealing dams, pits, or ponds for livestock water as a means of protecting established vegetative cover.
1101.764 Practice B–8: Installing pipelines for livestock water as a means of protecting established vegetative cover.
1101.765 Practice B–9: Construction of permanent cross fences or drift fences as a means of protecting established vegetative cover.
1101.766 Practice B–10: Initial improvement of a stand of forest trees for erosion control, watershed protection, or forestry purposes.

PRACTICES PRIMARILY FOR THE CONSERVATION AND DISPOSAL OF WATER

1101.768 Practice C–1: Initial establishment of permanent sod waterways to dispose of excess water without causing erosion.
1101.769 Practice C–2: Initial establishment of permanent vegetation as protection against erosion.
1101.770 Practice C–3: Initial establishment of orchards, vineyards, bush fruits, strawberries or perennial vegetables on the contour to prevent erosion.
1101.771 Practice C–4: Constructing terraces to detain or control the flow of water and check soil erosion.
1101.772 Practice C–5: Constructing diversion terraces, ditches, or dikes to intercept runoff and divert excess water to protected outlets.
1101.773 Practice C–6: Constructing erosion control, detention, or sediment retention dams to prevent or heal gullying or to retard or reduce runoff of water.
1101.774 Practice C–7: Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.
1101.775 Practice C–8: Streambank or shore protection, channel clearance, enlargement or realinement, or construction of floodways, levees, or dikes, to prevent erosion or flood damage to farmland.
1101.776 Practice C–9: Constructing permanent open drainage systems to dispose of excess water.
1101.777 Practice C–10: Installing underground drainage systems to dispose of excess water.
1101.778 Practice C–11: Shaping or land grading to permit effective surface drainage.
1101.779 Practice C–12: Reorganizing farm irrigation systems to conserve water and prevent erosion.
1101.780 Practice C–13: Leveling land for more efficient use of irrigation water and to prevent erosion.
1101.781 Practice C–14: Constructing or lining dams, pits, or ponds for irrigation water.
1101.782 Practice C–15: Lining irrigation ditches to prevent erosion and loss of water by seepage.
1101.783 Practice C–16: Constructing spreader ditches or dikes to divert and spread water to prevent erosion, to permit beneficial use of runoff, or to replenish ground water supply.

CONSERVATION PRACTICES WITH BENEFITS OF LIMITED DURATION; GENERALLY REQUIRING PERIODIC REPETITION

PRACTICES PRIMARILY FOR ESTABLISHING TEMPORARY, PROTECTIVE VEGETATIVE COVER

1101.785 Practice D–1: Establishment of vegetative cover for winter protection from erosion.
1101.786 Practice D–2: Establishment of vegetative cover for summer protection from erosion.
1101.787 Practice D–3: Establishment of vegetative cover for green manure and for protection from erosion.
1101.788 Practice D–4: Establishment of a vegetative cover to protect cropland throughout the 1956 crop year.

PRACTICES PRIMARILY FOR THE TEMPORARY PROTECTION OF SOIL FROM WIND AND WATER EROSION

1101.790 Practice E–1: Initiation of stubble mulching into the farming system and expansion of stubble mulching to improve soil permeability and to protect soil from wind and water erosion.
1101.791 Practice E–2: Initial establishment of contour farming operations on nonterraced land to protect soil from wind or water erosion.
1101.792 Practice E–3: Wind erosion control operations in serious wind erosion areas.

CONSERVATION PRACTICES WITH LIMITED AREA APPLICABILITY

PRACTICES TO MEET SPECIAL COUNTY CONSERVATION NEEDS

1101.794 Practice F–1: Special conservation practices.
1101.795 Practice F–2: County conservation practices.
1101.796 Practice F–3: Practices to meet new conservation problems.

AUTHORITY: §§ 1101.700 to 1101.796 issued under sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended, Pub. Law 40, 84th Cong.; 16 U. S. C. 590g–590q.

INTRODUCTION

§ 1101.700 *Introduction.* (a) Through the 1956 Agricultural Conservation Program (referred to in this subpart as the "1956 program") administered by the Department of Agriculture, the Federal Government will share with farmers and ranchers in the continental United States the cost of carrying out approved conservation practices in accordance with the provisions contained in this subpart and such modifications thereof as may hereafter be made.

(b) Information with respect to the several practices for which costs will be shared when carried out on a particular farm or ranch, and the exact specifications and rates of cost-sharing for such practices, may be obtained from the county committee for the county in which the farm or ranch is located or from the State committee.

GENERAL PROGRAM PRINCIPLES

§ 1101.701 *General program principles.* The 1956 National Agricultural Conservation Program has been developed and is to be carried out on the basis of the following general principles:

(a) The national program contains broad authorities to help meet the varied conservation problems of the Nation. State and county committees and participating agencies shall design a program for each State and county. Such programs should include any additional limitations and restrictions necessary for the maximum conservation accomplishment in the area. The programs should be confined to the conservation practices on which Federal cost-sharing is most needed in order to achieve the maximum conservation benefit in the State or county.

(b) The State and county programs should be designed to encourage those conservation practices which provide the most enduring conservation benefits practicably attainable in 1956 on the lands where they are to be applied.

(c) Costs will be shared with a farmer or rancher only on satisfactorily performed conservation practices for which Federal cost-sharing was requested by the farmer or rancher before the conservation work was begun.

(d) Costs should be shared only on practices which it is believed farmers or ranchers would not carry out to the needed extent without program assistance. Generally, practices that have become a part of regular farming operations in a particular county should not be eligible for cost-sharing. Individual farmers or ranchers should be encouraged to utilize cost-sharing for only those practices which have not become a part of regular farming operations on their farms or ranches.

(e) The rates of cost-sharing in a county or State are to be the minimum required to result in substantially increased performance of needed practices within the limits prescribed in the national program.

(f) The purpose of the program is to help achieve additional conservation on land now in agricultural production rather than to bring more land into agricultural production. Such of the available funds that cannot be wisely utilized for this purpose will be returned to the public treasury.

(g) If the Federal Government shares the cost of the initial application of conservation practices which farmers and ranchers otherwise would not perform but which are essential to the national interest, the farmers and ranchers should assume responsibility for the upkeep and maintenance of those practices.

DISTRIBUTION OF FUNDS

§ 1101.702 *State funds.* Funds available for conservation practices will be distributed among States on the basis of conservation needs, but the proportion allocated for use in any State shall not be reduced more than 15 percent from its proportionate 1955 distribution.

§ 1101.703 *County funds.* The State committee will allocate the funds available for conservation practices among the counties within the State, taking into consideration, to the extent practicable, the conservation needs in the counties within the State.

STATE AND COUNTY AGRICULTURAL CONSERVATION PROGRAMS

§ 1101.704 *Agencies to participate in development of State programs.* (a) A State agricultural conservation program (referred to in this subpart as "State program") shall be developed in each State in accordance with the provisions contained in this subpart and such modifications thereof as may hereafter be made. The program shall be developed by the State committee (including the State Director of Extension), the State Conservationist of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the State. The President of the Land-Grant College and the State Director of the Farmers Home Administration shall be invited to designate representatives to counsel with the group in the formulation of the State program. The Chairman of the State committee shall invite representatives of the State Soil Conservation Committee (Board or Commission), the State Agricultural Extension Service, and other State and Federal agricultural agencies to participate in its deliberations on the State program.

(b) The program for the State shall be that recommended by the State committee, the State Conservationist of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the State, and approved by the Administrator, ACPS.

§ 1101.705 *Agencies to participate in development of county programs.* (a) A county agricultural conservation program (referred to in this subpart as "county program") shall be developed in each county in accordance with the provisions of the State program and such modifications thereof as may be made. The county committee with the community committeemen, the designated representative of the Soil Conservation Service in the county with the governing body of the Soil Conservation District, and the Federal Forest Service representative having jurisdiction of farm forestry in the county with the farm forestry representatives of the State, working with the County Agricultural Extension Agent for the county (if he is not included in the foregoing group as ex officio member of the county committee) and the County Supervisor of the Farmers Home Administration, shall develop recommendations for the county program.

(b) The program for the county then shall be formulated by the county committee, the local Soil Conservation Service technician, and the Forest Service representative having jurisdiction of farm forestry in the county, in consultation with the governing body of the Soil Conservation District on the overall conservation problems in the county and, especially, on the work plans of the Soil Conservation District and of the Federal agencies involved to assure the most effective use of the available technical assistance and funds for cost-sharing. The program as formulated shall be recommended to the State committee for approval by the State committee, the State Conservationist of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the State, and upon such approval shall become the 1956 program for the county. The program recommendation shall be signed by the chairman of the county committee, the Soil Conservation Service technician, and the Forest Service representative where present in the county, and shall state that the program was developed in consultation with the governing body of the Soil Conservation District.

§ 1101.706 *Selection of practices.* Practices to be included in the State program or in the county program shall be only those practices for which cost-sharing is essential to permit accomplishment of needed conservation work which would not otherwise be carried out in the desired volume.

§ 1101.707 *Adaptation of practices.* (a) The practices included in the State program must meet all conditions and requirements of the national program. Additional conditions and requirements may be included where necessary for effective use in meeting the conservation problems in the State.

(b) The practices included in the county program must meet all conditions and requirements of the State program. Provisions shall be made in the State program for the adaptation of practices in the county program for effective use in meeting the conservation problems in the county, consistent with recognized performance standards and program policies and requirements.

§ 1101.708 *Practice specifications.* (a) Minimum specifications which practices must meet to be eligible for Federal cost-sharing shall be set forth in the State handbook or in the county program, or be incorporated therein by specific reference to a standard publication or other written document containing such specifications.

(b) For practices involving the establishment or improvement of vegetative cover, the specifications shall include, where applicable, liming, fertilization, and seeding rates, eligible seeds and mixtures, seeding dates, requirements for cultural operations, and other steps essential to the successful establishment or improvement of the vegetative cover.

The needed liming materials may be applied under the practice contained in § 1101.752 or under a practice which includes all of the measures essential to the successful establishment or improvement of the vegetative cover. For mechanical or construction type practices, the specifications shall include, where applicable, the types and sizes of material, installation or construction requirements, and other steps essential to the proper functioning of the structure. For other practices, the specifications shall include those steps essential to the successful performance of the practice.

(c) Practice specifications shall provide minimum performance requirements which will qualify the practice for cost-sharing and, where applicable, may also provide maximum limits of performance which will be eligible for cost-sharing. The minimum performance requirements established for a practice shall represent those levels of performance which are necessary to assure a satisfactory practice. The maximum limits for cost-sharing established for a practice shall represent those levels of performance which are needed in order for the practice to be most effective in meeting the conservation problem and which are not in excess of levels for which cost-sharing can be justified.

§ 1101.709 *Use of liming materials and commercial fertilizers.* (a) For practices which authorize Federal cost-sharing for applications of liming materials and commercial fertilizers, the minimum application, and maximum application where applicable, on which cost-sharing is authorized shall, in each case, be determined on the basis of a current soil test: *Provided, however,* That if the State committee determines that available facilities are not adequate to permit the desired use of these practices under the program, it shall authorize, to the extent necessary, an alternative basis for determination by the county committee of such applications. Such alternative basis shall be such as to insure beneficial use of Federal cost-sharing approved and shall be formulated by the State committee in full consultation with the representatives of the State and Federal agencies participating in the development of the State program.

(b) The application of liming materials contained in commercial fertilizers, phosphate rock, or basic slag will not qualify for Federal cost-sharing. The application of manure will not qualify for Federal cost-sharing; however, manure may be used, where applicable, to meet all or a part of the fertilizer requirement for a practice.

§ 1101.710 *Responsibility for technical phases of practices.* (a) The Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 1101.763 and 1101.771 to 1101.783. This responsibility shall include (1) a finding that the practice is needed and practicable on the farm, (2) necessary site selection, other preliminary work, and layout work of the practice, (3) necessary supervision of the installation, and (4) certification of performance. For the practice contained in § 1101.768, the Soil Conservation Service is responsible (1) for determining that the practice is needed and practicable on the farm, and (2) for necessary site selection, other preliminary work, and layout work of the practice. For the practices contained in §§ 1101.762, 1101.764, and 1101.770, the Soil Conservation Service is responsible for determining that the practice is needed and practicable on the farm. In addition, upon agreement of the State committee and the State Conservationist of the Soil Conservation Service, responsibility for all or part of the unassigned technical phases of these or other practices may be assigned to the Soil Conservation Service for all counties in the State or for specified counties. The State Conservationist of the Soil Conservation Service may utilize assistance from private, State, or Federal agencies in carrying out these assigned responsibilities.

(b) The Forest Service is responsible for the technical phases of the practices contained in §§ 1101.755 and 1101.766. This responsibility shall include (1) providing necessary specialized technical assistance, (2) development of specifications for forestry practices, and (3) working through State and county committees, determining performance in meeting these specifications.

§ 1101.711 *Rates of cost-sharing.* (a) The maximum Federal cost-share for each practice shall be the percentage of the average cost of performing the practice considered necessary to obtain the needed performance of the practice but which will be such that the farmer or rancher will make a substantial contribution to the cost of performing the practice. Rates of cost-sharing shall not be in excess of 50 percent of the average cost of performing the practices, except that:

(1) For the practices contained in §§ 1101.755, 1101.766, 1101.768, 1101.769, 1101.771 to 1101.774, and 1101.783, which have long lasting conservation benefits and from which the returns to the farmer or rancher are remote, the State committee, the State Conservationist of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the State may establish rates of cost-sharing in excess of 50 percent of the average cost of performing the practices.

(2) Upon justification by the State committee, the State Conservationist of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the State, and approval of the Administrator, ACPS, rates of cost-sharing in excess of 50 percent of the average cost of performing the practices may be established for other practices having long lasting conservation benefits and from which the returns to the farmer or rancher are remote.

(3) Upon justification by the State and county committees and designated representatives of the Soil Conservation Service and the Forest Service at both the State and county levels, the Administrator, ACPS, may approve a rate of cost-sharing for one or more additional practices in a county in excess of 50 percent of the average cost of performing the practice but only if the increased rate of cost-sharing is essential to introduce a greatly needed new conservation practice into the county or to bring about a greatly needed increase in the extent to which the practice otherwise would be carried out.

(b) For the purpose of establishing rates of cost-sharing, the average cost of performing a practice may be the average cost for a State, a county, a part of a county, or a farm or ranch, as determined by the State committee.

(c) The rates of cost-sharing for practices included in the county program may be lower than the rates approved for general use in the State.

§ 1101.712 *Items of cost on which rates of cost-sharing may be based.* Except as otherwise provided by the wording of the practices or elsewhere in this subpart, the cost of any direct and significant factor in the performance of a practice may be considered in establishing the rate of cost-sharing for the practice.

§ 1101.713 *State handbooks, bulletins, instructions, and forms.* The Administrator, ACPS, is authorized to prepare and issue State handbooks, bulletins, instructions, and forms required in administering the 1956 program. Copies of State handbooks, bulletins, instructions, and forms containing detailed information with respect to the 1956 program as it applies to specific States, counties, areas, and farms and ranches will be available in the office of the State committee and the office of the county committee. Persons wishing to participate in the program should obtain from the State committee or county committee all information needed in order to comply with all provisions of the program.

Approval of Conservation Practices on Individual Farms or Ranches

§ 1101.714 *Opportunity for requesting cost-sharing.* Each farm or ranch operator shall be given an opportunity to request that the Federal Government share in the cost of those practices on which he considers he needs such assistance in order to permit their performance in adequate volume on his farm or ranch. The county committee, taking into consideration the farmer's or rancher's request and any conservation plan developed by the farmer or rancher with the assistance of any State or Federal agency, shall direct the available funds for cost-sharing to those farms and ranches and to those practices where cost-sharing is considered most essential to the accomplishment of the basic conservation objective of the Department—the use of each acre of agricultural land within its capabilities and the treatment of each acre in accordance with its needs for protection and improvement.

§ 1101.715 *Prior request for cost-sharing.* Costs will be shared only for those practices, or components of practices, for which cost-sharing is requested by the farm or ranch operator before performance thereof is started, except that for the practice contained in § 1101.792, which is an emergency practice, the Administrator, ACPS, may authorize the acceptance of requests for cost-sharing filed within a reasonable period after performance thereof is started, such period to be stated in the practice wording. For practices for which (a) approval was given under the 1955 Agricultural Conservation Program, (b) performance was started but not completed during the 1955 program year, and (c) the county committee believes the extension of the approval to the 1956 program is justified under the 1956 program regulations and provisions, the filing of the request for cost-sharing under the 1955 program may be regarded as meeting the requirement of the 1956 program that a request for cost-sharing be filed before performance of the practice is started.

§ 1101.716 *Method and extent of approval.* The county committee, in accordance with a method approved by the State committee, will determine the extent to which Federal funds will be made available to share the cost of each approved practice on each farm or ranch, taking into consideration the county allocation, the conservation problems in the county and of the individual farm or ranch, and the conservation work for which requested Federal cost-sharing is considered by the county committee as most needed in 1956. The method approved shall provide for the issuance of notices of approval showing for each approved practice the number of units of the practice for which the Federal Government will share in the cost and the amount of the Federal cost-share for the performance of that number of units of the practice. To the extent practicable, notices of approved practices shall be issued before performance of the practices is started.

§ 1101.717 *Initial establishment, improvement, or installation of practices.* (a) Federal cost-sharing may not be authorized under the 1956 program for the performance of practices other than those contained in §§ 1101.751, 1101.785 to 1101.788, 1101.790, and 1101.792, and similar practices developed under the practice authorizations contained in §§ 1101.795 and 1101.796, on land on which cost-sharing for the performance of the same practice, or a practice to accomplish the same conservation purpose, was allowed under the 1954 or a subsequent program, except as provided in §§ 1101.719 and 1101.725.

(b) It is contemplated that this policy will be continued for subsequent programs.

§ 1101.718 *Repair, upkeep, and maintenance of practices.* Federal cost-sharing is not authorized for repairs or for upkeep or maintenance of any practice.

§ 1101.719 *Replacement, enlargement, or restoration of practices.* Federal cost-sharing may be approved for replacement, enlargement, or restoration of practices for which cost-sharing has been allowed but which are not now adequately meeting the conservation problem, if all of the following conditions exist:

(a) Replacement, enlargement, or restoration of the practice is needed to meet the conservation problem.

(b) The failure of the original practice was not due to the lack of proper maintenance by the current operator.

(c) The practice has not served for the length of time for which it normally could be expected to effectively meet the conservation problem. This does not apply to practices for which cost-sharing was allowed prior to the 1954 program, or to practices for which costs were shared under the 1954 or a subsequent program before the current operator assumed control of the farm or ranch.

(d) The county committee believes that the replacement, enlargement, or restoration of the practice merits consideration under the program to an equal extent with similar practices for which cost-sharing for initial establishment is requested.

§ 1101.720 *Pooling agreements.* Farmers or ranchers in any local area may agree in writing, with the approval of the county committee, to perform designated amounts of practices which will conserve or improve the agricultural resources of the community. For purposes of eligibility for cost-sharing, practices carried out under such an approved written agreement will be regarded as having been carried out on the farms or ranches of the persons who performed the practices.

Practice Completion Requirements

§ 1101.722 *Completion of practices.* Federal cost-sharing for the practices contained in this subpart is conditioned upon the performance of the practices in accordance with all applicable specifications and program provisions. Except as provided in §§ 1101.723 to 1101.725, practices must be completed during the program year in order to be eligible for cost-sharing.

§ 1101.723 *Practices substantially completed during program year.* Approved practices may be deemed, for purposes of payment of cost-shares, to have been carried out during the 1956 program year, if the county committee determines that they are substantially completed by the end of the program year. However, no cost-shares for such practices shall be paid until they have been completed in accordance with all applicable specifications and program provisions.

§ 1101.724 *Practices requiring more than one program year for completion.* (a) Cost-sharing may be approved under the 1956 program for a component of a practice completed during the program year in accordance with all applicable specifications and program provisions, provided:

(1) The farmer or rancher agrees in writing to complete all remaining components of the practice in accordance with all applicable specifications and program provisions within the time prescribed by the county committee, if cost-sharing is offered to him therefor under a subsequent program; and

(2) The county committee determines that under the circumstances prevailing on the farm in 1956, completion of that component is a reasonable attainment in 1956 toward the ultimate completion of all components of the practice.

(b) Any advance cost-share so paid shall be refunded if the remaining components of the practice are not completed in accordance with all specifications and program provisions within the time prescribed by the county committee, provided the farmer or rancher is offered cost-sharing under a subsequent program for completing such components. The extension of the period for completion of the remaining components of the practice will not constitute a commitment to approve cost-sharing therefor under a subsequent program. Approval of cost-sharing for other practices under subsequent programs may be denied until the remaining components are completed.

§ 1101.725 *Practices involving the establishment or improvement of vegetative cover.* Costs for practices involving the establishment or improvement of vegetative cover may be shared even though a good stand is not established, if the county committee determines, in accordance with standards approved by the State committee that the practice was carried out in a manner which would normally result in the establishment of a good stand, and that failure to establish a good stand was due to weather or other conditions beyond the control of the farm or ranch operator. The county committee may require as a condition of cost-sharing in such cases that the area be reseeded or that other needed protective measures be carried out.

§ 1101.726 *Failure to meet minimum requirements.* Notwithstanding other provisions of the 1956 program, costs may be shared for practices treating with the establishment or improvement of vegetative cover for the performance actually rendered even though the minimum requirements with regard to the rate of seeding or the application of liming materials or commercial fertilizers are not met, if the farmer or rancher establishes to the satisfaction of the county committee and the State committee or its designee (a) that he made every reasonable effort to meet the minimum requirements, and (b) that the practice as performed adequately meets the conservation problem.

Federal Cost-Shares

§ 1101.727 *Conservation materials and services*—(a) *Availability.* (1) Part or all of the Federal cost-share for an approved practice may be in the form of conservation materials or services furnished through the program for use in carrying out the practice. Materials or services may not be furnished to persons who are indebted to the Federal Government, as indicated by the register of indebtedness maintained in the office of the county committee, except in those cases where the agency to which the debt is owed waives its rights to setoff in order to permit the furnishing of materials and services.

(2) Title to any material furnished through the program shall vest in the Federal Government until the material is applied or planted, or all charges for the material are satisfied.

(b) *Cost to farmer or rancher.* The farmer or rancher will pay that part of the cost of the material or service, as established under instructions issued by the Administrator, ACPS, which is in excess of the Federal cost-share attributable to the use of the material or service or, upon request by the farmer or rancher and approval by the county committee, the farmer or rancher will pay that part of the cost of the material or service which is in excess of the farmer's or rancher's Federal cost-share for all components of the practice which will likely be completed during the program year. The Federal cost-share increase on the amount of the Federal cost-share so determined may be advanced as a credit against that part of the cost of the material or service required to be paid by the farmer or rancher.

(c) *Discharge of responsibility for materials and services.* (1) The person to whom a material or service is furnished under the 1956 program will be relieved of responsibility for the material or service upon determination by the county committee that the material or service was used for the purpose for which it was furnished and that any other components of the practice, on which the amount of the Federal cost-share advance toward the cost of the material or service was determined, have been carried out in accordance with all applicable specifications and program provisions. If the person uses any material or service for any purpose other than that for which it was furnished, he shall be indebted to the Federal Government for that part of the cost of the material or service borne by the Federal Government and shall pay such amount to the Treasurer of the United States direct or by withholdings from Federal cost-shares otherwise due him under the program.

(2) Any person to whom materials are furnished shall be responsible to the Federal Government for any damage to the materials, unless he shows that the damage was caused by circumstances beyond his control. If materials are abandoned or not used during the program year, they may, in accordance with instructions issued by the Administrator, ACPS, be transferred to another person or otherwise disposed of at the expense of the person who abandoned or failed to use the material, or be retained by the person for use in a subsequent program year.

§ 1101.728 *Practices carried out with State or Federal aid.* The Federal share of the cost for any practice shall not be reduced because it is carried out with materials or services furnished through the program or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total Federal cost-share computed on the basis of the total number of units of the practice performed shall be reduced by the value of the aid, as determined by the county committee, in computing the amount of the Federal cost-share to be paid for performance of the practice. Materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 1101.729 *Division of Federal cost-shares.*—(a) *Federal cost-shares.* The Federal cost-share attributable to the use of conservation materials or services shall be credited to the person to whom the materials or services are furnished. Other Federal cost-shares shall be credited to the person who carried out the practices by which such other Federal cost-shares are earned. If more than one person contributed to the carrying out of such practices, the Federal cost-share shall be divided among such persons in the proportion that the county committee determines they contributed to the carrying out of the practices. In making this determination, the county committee shall take into consideration the value of the labor, equipment, or material contributed by each person toward the carrying out of each practice on a particular acreage, and shall assume that each contributed equally unless it is established to the satisfaction of the county committee that their respective contributions thereto were not in equal proportion. The furnishing of land or the right to use water will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance.* In case of death, incompetency, or disappearance of any person, any Federal share of the cost due him shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP–122, as amended (Part 1108 of this chapter).

§ 1101.730 *Increase in small Federal cost-shares.* The Federal cost-share computed for any person with respect to any farm or ranch shall be increased as follows: *Provided, however,* That in the event legislation is enacted which repeals or amends the authority for making such increases, the Secretary may in such manner and at such time as is consistent with such legislation discontinue such increases:

(a) Any Federal cost-share amounting to $0.71 or less shall be increased to $1.

(b) Any Federal cost-share amounting to more than $0.71, but less than $1, shall be increased by 40 percent.

(c) Any Federal cost-share amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of cost-share computed:	*Increase in cost-share*
$1 to $1.99	$0.40
$2 to $2.99	.80
$3 to $3.99	1.20
$4 to $4.99	1.60

$186 to $199.99	(1)
$200 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 1101.731 *Maximum Federal cost-share limitation.* (a) The total of all Federal cost-shares under the 1956 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) for approved practices which are not carried out under pooling agreements shall not exceed the sum of $1,500, and for all approved practices, including those carried out under pooling agreements, shall not exceed the sum of $10,000.

(b) All or any part of any Federal cost-share which otherwise would be due any person under the 1956 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

§ 1101.732 *Persons eligible to file application for payment of Federal cost-shares.* Any person who, as landlord, tenant, or sharecropper on a farm or ranch, bore a part of the cost of an approved conservation practice is eligible to file an application for payment of the Federal cost-share due him.

§ 1101.733 *Time and manner of filing application and required information.* (a) It shall be the responsibility of persons participating in the program to submit to the county office forms and information needed to establish the extent of the performance of approved conservation practices and compliance with applicable program provisions. Time limits with regard to the submission of such forms and information shall be established where necessary for efficient administration of the program. Such time limits shall afford a full and fair opportunity to those eligible to file the forms or information within the period prescribed. At least 2 weeks' notice to the public shall be given of any general time limit prescribed. Such notice shall be given by mailing notice to the office of each county committee and making copies available to the press. Other means of notification, including radio announcements and individual notices to persons affected, shall be used to the extent practicable. Notice of time limits which are applicable to individual persons, such as time limits for reporting performance of approved practices, shall be issued in writing to the persons affected. Exceptions to time limits may be made in cases where failure to submit required forms and information within the applicable time limits is due to reasons beyond the control of the farmer or rancher.

(b) Payment of Federal cost-shares will be made only upon application submitted on the prescribed form to the county office by December 31, 1957, or such earlier date as is prescribed by the Administrator, ACPS. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the county office within the applicable time limit.

§ 1101.734 *Appeals.* (a) Any person may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee or State committee in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his Federal cost-shares with respect to the farm or ranch. The county committee or State committee shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the person is dissatisfied with the decision of the county committee, he may, within 15 days after the decision is forwarded to or made available to him, appeal in writing to the State committee. The State committee shall notify him of its decision in writing within 30 days after the submission of the appeal. If he is dissatisfied with the decision of the State committee, he may, within 15 days after its decision is forwarded to or made available to him, request the Administrator, ACPS, to review the decision of the State committee. The decision of the Administrator, ACPS, shall be final. Written notice of any decision rendered under this section by the county or State committee shall also be issued to each other landlord, tenant, or sharecropper on the farm or ranch who may be adversely affected by the decision.

(b) Appeals considered under this section shall be decided in accordance with the provisions of this subpart and of the applicable State and county programs on the basis of the facts of the individual case: *Provided,* That the Secretary, upon the recommendation of the Administrator, ACPS, and the State and county committees, may waive the requirements of any such provision, where not prohibited by statute, if, in his judgment, such waiver under all the circumstances is justified to permit a proper disposition of an appeal where the farmer, in reasonable reliance on any instruction or commitment of any member, employee, or representative of a State or county committee, in good faith performed an eligible conservation practice and such performance reasonably accomplished the purpose of the practice.

General Provisions Relating to Federal Cost-Sharing

§ 1101.735 *Compliance with regulatory measures.* Persons who carry out conservation practices under the 1956 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The person with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because he infringes on the rights of others or fails to comply with applicable laws or regulations.

§ 1101.736 *Maintenance of practices.* The sharing of costs, by the Federal Government, for the performance of approved conservation practices on any farm or ranch under the 1956 program will be subject to the condition that the person with whom the costs are shared will maintain such practices in accordance with good farming practices as long as the land on which they are carried out is under his control.

§ 1101.737 *Practices defeating purposes of programs.* If the State committee finds that any person has adopted or participated in any practice which tends to defeat the purposes of the 1956 or any previous program, including, but not limited to, failure to maintain, in accordance with good farming practices, practices carried out under a previous program, it may withhold, or require to be refunded, all or any part of the Federal cost-share which otherwise would be due him under the 1956 program.

§ 1101.738 *Depriving others of Federal cost-share.* If the State committee finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of the Federal cost-share due that person under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the Federal cost-share which otherwise would be due him under the 1956 program.

§ 1101.739 *Filing of false claims.* If the State committee finds that any person has knowingly filed claim for payment of the Federal cost-share under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible for any Federal cost-sharing under the 1956 program and shall refund all amounts that may have been paid to him under the 1956 program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1101.740 *Misuse of purchase orders.* If the State committee finds that any person has knowingly used a purchase order issued to him for conservation materials or services for a purpose other than that for which it was issued, and that such misuse of the purchase order tends to defeat the purpose for which it was issued, such person shall not be eligible for any Federal cost-sharing under the 1956 program and shall refund all amounts that may have been paid to him under the 1956 program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1101.741 *Federal cost-shares not subject to claims.* Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 1101.742, and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (Part 1109 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1101.742 *Assignments.* Any person who may be entitled to any Federal cost-share under the 1956 program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1956, including the carrying out of soil and water conserving practices. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70.

Definitions

§ 1101.745 *Definitions.* For the purposes of the 1956 program:

(a) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(b) "Administrator, ACPS," means the Administrator of the Agricultural Conservation Program Service.

(c) "State" means any one of the continental United States.

(d) "State committee" means the persons in the State designated by the Secretary as the Agricultural Stabilization and Conservation State committee.

(e) "County" means parish or county.

(f) "County committee" means the persons elected within a county as the

county committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(g) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise, or other legal entity (and, wherever applicable, a State, a political subdivision of a State, or any agency thereof) that, as landlord, tenant, or sharecropper, participates in the operation of a farm or ranch.

(h) "Farm" or "ranch" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Administrator, ACPS, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm or ranch, constitutes a unit with respect to the rotation of crops.

Notwithstanding any limitation in this paragraph concerning the type or use of land, a farm may include or may consist entirely of woodland which is being operated for the production and sale of forest products. A farm or ranch shall be regarded as located in the county in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm or ranch is located.

(i) "Cropland" means farmland which in 1955 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes, or will constitute if tillage is continued, a wind erosion hazard to the community.

(j) "Program year" means the period, designated in the State handbook, during which conservation practices, or components thereof, must be carried out to be eligible for cost-sharing. The program year may begin on or after August 1, 1955, and end not later than December 31, 1956.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 1101.746 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q), and the Department of Agriculture and Farm Credit Administration Appropriation Act, 1956.

§ 1101.747 *Availability of funds.* (a) The provisions of the 1956 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1956 program will not be available for paying Federal cost-shares for which applications are filed in the county office after December 31, 1957.

§ 1101.748 *Applicability.* (a) The provisions of the 1956 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior; (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it; and (4) farms outside the continental United States.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by a State or political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the Administrator, ACPS; (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it; and (6) Indian lands, except that where grazing operations are carried out on Indian lands administered by the Department of the Interior, such lands are within the scope of the program only if covered by a written agreement approved by the Department of the Interior giving the operator an interest in the grazing and forage growing on the land and a right to occupy the land in order to carry out the grazing operations.

CONSERVATION PRACTICES WITH ENDURING BENEFITS; WHERE PROPERLY APPLIED AND MAINTAINED

PRACTICES PRIMARILY FOR ESTABLISHMENT OF PERMANENT PROTECTIVE COVER

§ 1101.749 *Practice A–1: Initial establishment of a permanent vegetative cover in orchards and vineyards for control of erosion.* Volunteer stands and acreages cut for hay are not eligible for cost-sharing.

§ 1101.750 *Practice A–2: Initial establishment of a permanent vegetative cover for soil protection or as a needed land-use adjustment.* This practice is applicable only to land not now in permanent vegetative cover but which should be established in permanent vegatative cover for protection against wind or water erosion, and to cropland which, as a part of a needed land-use adjustment, is being shifted to permanent protective vegetative cover other than as a part of a regular crop rotation. This practice is not applicable on land occupied by a merchantable stand of timber or pulpwood, or on land which, if cleared, would be suitable for cultivation. Federal cost-sharing may be approved for constructing fences where fences are necessary to protect the seeded area and only for the extent necessary to fence that area. Federal cost-sharing for fencing shall be limited to permanent fences, excluding boundary and road fences.

§ 1101.751 *Practice A–3: Establishment of additional acreages of vegetative cover in crop rotation to retard erosion and to improve soil structure, permeability, or water-holding capacity.* This practice is applicable only to cropland which needs such cover to retard erosion or to improve soil structure, permeability, or water-holding capacity. Federal cost-sharing will be limited to that acreage which the county committee determines represents a desirable increase over what would be the normal plantings of eligible crops on the farm in 1956 under the normal crop rotation for the farm. In making this determination, consideration should be given to the need for this practice on cropland which the farmer or rancher intends to divert from the production of crops for which allotments are established for the farm for 1956.

§ 1101.752 *Practice A–4: Initial treatment to farmland to permit the use of legumes and grasses for soil improvement and protection.* This practice is applicable only to farmland devoted in 1956 to legumes (other than vegetable or truck crops, soybeans, mungbeans, and peanuts) or perennial grasses, and to farmland which the county committee determines will be devoted to such eligible uses in 1957. Federal cost-sharing will be limited to the application of liming materials.

§ 1101.753 *Practice A–5: Initial establishment of contour stripcropping to protect soil from water or wind erosion.* All cultural operations must be performed as nearly as practicable on the contour. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective contour stripcropping system.

§ 1101.754 *Practice A–6: Initial establishment of field stripcropping to protect soil from wind or water erosion.* The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops.

§ 1101.755 *Practice A–7: Initial establishment of a stand of trees or shrubs on farmland for erosion control, watershed protection, or forestry purposes.* No Federal cost-sharing will be allowed for planting orchard trees, or for plantings for ornamental purposes. If shrubs are used, those that benefit wildlife should be given preference wherever practicable. Plantings must be protected from fire and grazing. Federal cost-sharing may be authorized for clearing land occupied largely by scrubby brush of no economic value to permit planting of desirable tree species. Technical assistance must be utilized to determine the suitability of the land for clearing and the measures necessary to prevent erosion. Federal cost-sharing for fencing shall be limited to permanent fences needed to protect the planted area from grazing, excluding boundary and road fences.

PRACTICES PRIMARILY FOR IMPROVEMENT AND PROTECTION OF ESTABLISHED VEGETATIVE COVER

§ 1101.757 *Practice B–1: Initial improvement of an established permanent vegetative cover for soil or watershed protection.* This practice is applicable only to land which is suitable for, is now in, and is intended to remain permanently in use as pasture, hay, or both, and on which the benefits of an improved vegetative cover can be extended materially by the improvement measures. Federal cost-sharing for the application of commercial fertilizer will be limited to cases where seedings are required, or where seed is present in the soil to the extent that the application of fertilizer will bring about the desired improvement in the vegetative cover without further seeding. Topdressing with fertilizer for the maintenance of the vegetative cover or for increasing forage production is not eligible for cost-sharing.

§ 1101.758 *Practice B–2: Initial improvement of vegetative cover on rangeland by artificial reseeding for soil protection.* No Federal cost-sharing will be allowed if it is determined that the area seeded is grazed before the stand is well established.

§ 1101.759 *Practice B–3: Controlling competitive shrubs to permit growth of adequate, desirable vegetative cover for soil protection on range or pasture land.* On areas where it is determined that the control of competitive shrubs will reduce the vegetative cover to such an extent as to induce erosion, the practice will not be approved unless followed by seeding or other approved erosion control measures.

§ 1101.760 *Practice B–4: Furrowing, chiseling, ripping, scarifying, pitting, or listing noncrop grazing land to prevent soil loss, retard runoff, and improve water penetration.* The operation must be as nearly as practicable on the contour.

§ 1101.761 *Practice B–5: Constructing wells for livestock water as a means of protecting established vegetative cover.* The wells must be at locations which will bring about the desired protection of the vegetative cover through proper distribution of livestock, rotation grazing, or better grassland management. Adequate storage facilities must be provided. Pumping equipment must be installed, except for artesian wells. No Federal cost-sharing will be allowed for wells constructed primarily for the use of headquarters, or for costs other than for constructing or deepening wells.

§ 1101.762 *Practice B–6: Developing springs or seeps for livestock water as a means of protecting established vegetative cover.* The springs or seeps must be at locations which will bring about the desired protection of the vegetative cover through proper distribution of livestock, rotation grazing, or better grassland management.

§ 1101.763 *Practice B–7: Constructing or sealing dams, pits, or ponds for livestock water as a means of protecting established vegetative cover.* The dams, pits, or ponds must be at locations which will bring about the desired protection of the vegetative cover through proper distribution of livestock, rotation grazing, or better grassland management.

§ 1101.764 *Practice B–8: Installing pipelines for livestock water as a means of protecting established vegetative cover.* The pipelines must deliver water to locations which will bring about the desired protection of the vegetative cover through proper distribution of livestock, rotation grazing, or better grassland management.

§ 1101.765 *Practice B–9: Construction of permanent cross fences or drift fences as a means of protecting established vegetative cover.* Boundary fences and fences between pasture and other land will not qualify for cost-sharing. This practice may be approved only where fencing will contribute to better distribution of live stock and seasonal use of the forage.

§ 1101.766 *Practice B–10: Initial improvement of a stand of forest trees for erosion control, watershed protection, or forestry purposes.* Federal cost-sharing may be allowed only for (a) thinning, (b) pruning crop trees, (c) release of desirable tree seedlings by removing or killing competing and undesirable vegetation, (d) site preparation for natural reseeding, (e) fencing, and (f) erosion control measures on logging roads and trails. The area must be protected from fire. Where seedlings are present or needed, the area must be protected from grazing. Federal cost-sharing for site preparation will be limited to areas which have a sufficient number of desirable seed trees for natural reseeding, which will not restock unless brush, dense litter, and other material on the forest soil is broken up or removed so that soil is exposed, and on which the seed trees will be left until the area is restocked. Technical assistance shall be utilized, if available; otherwise the practice must be carried out in accordance with approved technical forestry standards. Federal cost-sharing for fencing shall be limited to permanent fences needed to protect the area from grazing, excluding boundary and road fences.

PRACTICES PRIMARILY FOR THE CONSERVATION AND DISPOSAL OF WATER

§ 1101.768 *Practice C–1: Initial establishment of permanent sod waterways to dispose of excess water without causing erosion.*

§ 1101.769 *Practice C–2: Initial establishment of permanent vegetation as protection against erosion.* Federal cost-sharing will be limited to the establishment of permanent vegetation on gullies, dams, dikes, levees, ditch banks, farm roadsides, filter strips, and field borders. Consideration should be given to choice of plants favorable to wildlife.

§ 1101.770 *Practice C–3: Initial establishment of orchards, vineyards, bush fruits, strawberries, or perennial vegetables on the contour to prevent erosion.* All cultural operations must be performed as nearly as practicable on the contour.

§ 1101.771 *Practice C–4: Constructing terraces to detain or control the flow of water and check soil erosion.* Necessary protective outlets or waterways must be provided. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective terrace system. Costs of construction may include necessary leveling and filling to permit installation of an effective system.

§ 1101.772 *Practice C–5: Constructing diversion terraces, ditches, or dikes to intercept runoff and divert excess water to protected outlets.* Necessary protective outlets or waterways must be provided. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective terrace system. Costs of construction may include necessary leveling and filling to permit installation of an effective system.

§ 1101.773 *Practice C–6: Constructing erosion control, detention, or sediment retention dams to prevent or heal gullying or to retard or reduce runoff of water.*

§ 1101.774 *Practice C–7: Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.*

§ 1101.775 *Practice C–8: Streambank or shore protection, channel clearance, enlargement or realinement, or construction of floodways, levees, or dikes, to prevent erosion or flood damage to farmland.* This practice shall not be approved in cases where there is any likelihood that it will create an erosion or flood hazard to other adjacent land, or where its primary purpose is to bring new land into agricultural production.

§ 1101.776 *Practice C–9: Constructing permanent open drainage systems to*

dispose of excess water. Federal cost-sharing may be authorized for clearing the necessary minimum width right-of-way and, where necessary for the effective utilization of the drainage system, for the spreading of spoil banks. No Federal cost-sharing will be allowed for ditches, the primary purpose of which is to bring additional land into agricultural production, or for cleaning a ditch, or for structures installed for crossings, or for other structures primarily for the convenience of the farm operator. In the installation of drainage systems, due consideration shall be given to the maintenance of wildlife.

§ 1101.777 *Practice C–10: Installing underground drainage systems to dispose of excess water.* No Federal cost-sharing will be allowed for systems, the primary purpose of which is to bring additional land into agricultural production. In the installation of drainage systems, due consideration shall be given to the maintenance of wildlife.

§ 1101.778 *Practice C–11: Shaping or land grading to permit effective surface drainage.* No Federal cost-sharing will be allowed for any shaping or grading which is performed through farming operations in connection with land preparation for planting or cultivation of crops.

§ 1101.779 *Practice C–12: Reorganizing farm irrigation systems to conserve water and prevent erosion.* The practice must be carried out in accordance with a reorganization plan approved by the responsible technician. No Federal cost-sharing will be allowed for cleaning a ditch, or for structures installed for crossings, or for other structures primarily for the convenience of the farm operator, or for portable pipe.

§ 1101.780 *Practice C–13: Leveling land for more efficient use of irrigation water and to prevent erosion.* No Federal cost-sharing will be allowed for floating or restoration of grade; however, the leveling operation may be completed over a period of more than one program year on a component basis where the size of cuts and fills is such that a heavy leveling operation will be needed following settlement of the original fills. No Federal cost-sharing will be allowed for leveling land if the primary purpose of the leveling is to bring new land into agricultural production. The leveling must be carried out in accordance with a plan approved by the responsible technician.

§ 1101.781 *Practice C–14: Constructing or lining dams, pits, or ponds for irrigation water.* The purpose of this practice is to conserve agricultural water or to provide water necessary for the conservation of soil resources. No Federal cost-sharing will be allowed for constructing or lining dams, pits, or ponds, the primary purpose of which is to bring additional land into agricultural production.

§ 1101.782 *Practice C–15: Lining irrigation ditches to prevent erosion and loss of water by seepage.* This practice is limited to ditches that are properly located and constructed as a part of an existing irrigation system.

§ 1101.783 *Practice C–16: Constructing spreader ditches or dikes to divert and spread water to prevent erosion, to permit beneficial use of runoff, or to replenish ground water supply.*

CONSERVATION PRACTICES WITH BENEFITS OF LIMITED DURATION; GENERALLY REQUIRING PERIODIC REPETITION

PRACTICES PRIMARILY FOR ESTABLISHING TEMPORARY, PROTECTIVE VEGETATIVE COVER

§ 1101.785 *Practice D–1: Establishment of vegetative cover for winter protection from erosion.* A good stand and good growth must be obtained in sufficient time to protect the area in the fall and winter of 1955 or 1956 and must be maintained on the land to a date specified in the county program. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the cover crop.

§ 1101.786 *Practice D–2: Establishment of vegetative cover for summer protection from erosion.* A good stand and good growth must be obtained and left on the land or turned under. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the cover crop.

§ 1101.787 *Practice D–3: Establishment of vegetative cover for green manure and for protection from erosion.* Federal cost-sharing will be limited to acreages of biennial or perennial legumes or perennial grasses, or mixtures of such legumes with adapted grasses, seeded during the 1956 program year. A good stand and good growth must be obtained. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the green manure or cover crop.

§ 1101.788 *Practice D–4: Establishment of a vegetative cover to protect cropland throughout the 1956 crop year.* This practice is applicable only to cropland which is being shifted for the entire 1956 crop year from crop production to green manure or cover crops. Eligible seedings may consist of single seedings or successive seedings of grasses, legumes, small grains, or other crops which will provide adequate soil protection for the required period. Where annuals alone are used, at least two successive seedings must be made. Pasturing consistent with good management may be permitted, but no crop may be harvested for hay or seed in 1956, and no annual crop seeded in the fall of 1956 may be harvested for hay or seed in 1957 if such seeding is one of the two required seedings of such annual crops. One of the two required seedings of annuals may be a volunteer seeding which provides adequate soil protection, but no Federal cost-sharing may be allowed for the volunteer seeding.

PRACTICES PRIMARILY FOR THE TEMPORARY PROTECTION OF SOIL FROM WIND AND WATER EROSION

§ 1101.790 *Practice E–1: Initiation of stubble mulching into the farming system and expansion of stubble mulching to improve soil permeability and to protect soil from wind and water erosion.* Initiation of stubble mulching into the farming system means employing the practice for a sufficient period of time that it has become an established pattern of cultural operations on the farm. Federal cost-sharing for the expansion of stubble mulching will be limited to that needed for the protection of acreage diverted from normal crop use in 1956. A stubble mulch must be maintained on the surface soil by performing tillage operations which will leave sufficient crop or weed residue on the surface to provide protection against wind and water erosion and incorporate the balance of the residue into the surface of the soil. No cost-sharing will be allowed if the acreage has been burned over or grazed, or if the straw has been removed.

§ 1101.791 *Practice E–2: Initial establishment of contour farming operations on nonterraced land to protect soil from wind or water erosion.* All cultural operations must be performed as nearly as practicable on the contour. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops. This practice is not applicable on any acreage for which Federal cost-sharing is approved under § 1101.753. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective contour farming system.

§ 1101.792 *Practice E–3: Wind erosion control operations in serious wind erosion areas.* Applicable only in areas where the Administrator, ACPS, upon the recommendation of the State committee and the designated representatives of the Soil Conservation Service and the Forest Service at the State level, determines there is a serious wind erosion problem for 1956. Eligible operations shall be confined to those having the most enduring benefits practicably attainable under existing conditions.

CONSERVATION PRACTICES WITH LIMITED AREA APPLICABILITY

PRACTICES TO MEET SPECIAL COUNTY CONSERVATION NEEDS

§ 1101.794 *Practice F–1: Special conservation practices.* Consistent with the principles set forth in § 1101.701, the county committee and designated representatives of the Soil Conservation Service and the Forest Service at the county level may recommend, and the State committee and designated representatives of the Soil Conservation Service and the Forest Service at the State level may approve, for use in a county, practices included in this subpart for which there is need locally on a substantial number of farms but which are not selected for use in the State. Such approval shall be subject to review by the Administrator, ACPS, as to compliance with the provisions contained in this subpart.

§ 1101.795 *Practice F–2: County conservation practices.* Consistent with the principles set forth in § 1101.701, the Administrator, ACPS, may approve for use in a county, practices which are not included in this subpart which are needed to meet particular conservation problems in the county. Such approval may be given only upon the recommendation of the State and county committees and designated representatives of the Soil Conservation Service and the Forest Service at both the county and State levels, and upon their finding (a) that the conservation problem exists on a substantial number of farms in the county, (b) that the practices contained in this subpart will not provide adequate treatment of the problem, (c) that the proposed practice will adequately meet the problem, (d) that the proposed practice would not be performed to the desired extent without Federal cost-sharing, (e) that the proposed practice will provide the most enduring solution to the problem practicably attainable under existing circumstances, (f) that the proposed practice is one on which the offering of financial assistance is fully justified as being in the public interest, and (g) that the proposed practice meets the standards and requirements of comparable practices contained in this subpart. Costs will not be shared under this practice for elements of performance for which cost-sharing is specifically precluded by the wording of a similar practice or elsewhere in this subpart.

§ 1101.796 *Practice F–3: Practices to meet new conservation problems.* Consistent with the principles set forth in § 1101.701, the Administrator, ACPS, may approve for use in a county, practices for the treatment of critical conservation problems, primarily those which have arisen subsequent to the initiation of the program in the county. Such approval may be given only upon the recommendation of the State and county committees and designated representatives of the Soil Conservation Service and the Forest Service at both the county and State levels, and upon their finding (a) that the conservation problem exists on a substantial number of farms in the county, (b) that the practices contained in this subpart will not provide adequate treatment of the problem, (c) that the proposed practice will adequately meet the problem, (d) that the proposed practice would not be performed to the desired extent without Federal cost-sharing, (e) that the proposed practice is justified as within the scope of national conservation objectives, (f) that adequate facilities, including technical services, will be available to permit the practice to be carried out effectively, and (g) that treatment of the problem cannot be safely delayed until a subsequent program.

Done at Washington, D. C., this 14th day of June 1955.

Subchapter F—Security Servicing and Liquidations

[FHA Instruction 465.12]

PART 373—FARM HOUSING LOANS

SUBPART B—SALE OF FARM BY BORROWER

PAYMENT OF DELINQUENCY

Section 373.25 (a), Title 6, Code of Federal Regulations (19 F. R. 6850) is revised to require the repayment of any delinquency of the transferors account by the transferee within a period of two years and to read as follows:

§ 373.25 *General terms and conditions of transfers*—(a) *Transferee's repayment schedule.* The Farm Housing debt, including principal and accrued interest, assumed by the transferee will be retired within the remaining period of time provided in the existing Farm Housing obligation of the transferor. The first installment will be payable on the first December 31 following the date of Form FHA–97, "Agreement for Assumption of Indebtedness." The amount of the annual installment on Form FHA–97 will be the amount of the annual installment provided in the existing obligation of the transferor, unless either or both of the first two installments are increased to pay a delinquency. Any delinquency of the transferor's account will be collected by the County Supervisor prior to or at the time of the transfer, unless it is not possible to transfer the farm to a purchaser who will pay the delinquency by the date of the transfer. In that event the transferee may be permitted to remove the delinquency within not more than one year after the first December 31 following the date of Form FHA–97. Normally, the delinquency in such a case will be added to the first annual installment shown on Form FHA–97. When it is not possible for the transferee to pay the full amount of the delinquency with his first installment, the balance will be included in the second installment.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Supp. 17]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

POWER SUPPLY AND DISTRIBUTION SYSTEMS

In order to provide the air carrier industry with specific standards for compliance with the provisions of § 40.175 (c), the Administrator has determined that aircraft meeting the power supply and distribution system airworthiness requirements of §§ 4b.606 (a), (b), and (c); 4b.612 (e); 4b.622 (a) and (b); 4b.623; 4b.625; and 4b.650 (b) of this subchapter comply with the requirements of § 40.175 (c). Accordingly, regardless of whether an airplane has been certificated under 4a, 4b, or in the case of the DC–3, Aeronautics Bulletin 7A, it must meet the applicable requirements of Part 4b specified above. However, since some airplanes certificated under Part 4a or Aeronautics Bulletin 7A use common elements in the electric power distribution system which do not meet the requirements of Part 4b, this interpretation will permit the use of these common elements if their record of reliability is such that failure is improbable.

Section 40.175–1 is revised to read as follows:

§ 40.175–1 *Power supply and distribution systems (CAA interpretations which apply to § 40.175 (c)).* (a) Aircraft having a power supply and distribution system which meets the requirements of §§ 4b.606 (a), (b), and (c); 4b.612 (e); 4b.622 (a) and (b); 4b.623; 4b.625; 4b.650 (b) of this subchapter are deemed to have met the requirements of § 40.175 (c).

(b) The use of common elements in the electrical power distribution system which do not meet the requirements of paragraph (a) of this section will be approved under the provisions of § 40.175 (c) if their record of reliability is such that failure is improbable.[1]

[1] As a result of surveys conducted by the CAA during March and July of 1954, it was found that by employing the standards in § 40.175–1 being adopted herewith, all aircraft in service which were subject to the provisions of this part, with the exception of a limited number of DC–3 aircraft, were acceptable from a compliance viewpoint. The DC–3 aircraft mentioned were not considered to meet the provisions of this section because a common circuit breaker is incorporated in the electric power distribution system to both ADF inverters and did not provide a means, such as individual fuses or circuit breakers, to assure continued operation in the event the common circuit breaker opened as a result of fault in either inverter or ADF system.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interprets or applies secs. 601, 605, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 555)

This supplement shall become effective July 1, 1955.

Acting Administrator of Civil Aeronautics.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Part 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

STREPTOMYCIN SYRUP, STREPTOMYCIN AND KAOLIN IN GEL, DIHYDROSTREPTOMYCIN SYRUP, DIHYDROSTREPTOMYCIN AND KAOLIN IN GEL

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for certification of streptomycin- or dihydrostreptomycin-containing drugs (21 CFR, 1953 Supp., Part 146b; 19 F. R. 1141) are amended as indicated below:

Section 146b.108 *Streptomycin syrup, streptomycin and kaolin in gel* • • • is amended as indicated below:

1. Paragraph (a) *Standards of identity* • • • is amended by changing the word "pectin", in the second sentence, to read "pectin, bismuth magma,".

2. In paragraph (c) *Labeling*, subparagraph (1) (v) is amended by changing the word "kaolin" to read "kaolin, bismuth magma,".

3. Paragraph (c) is further amended by changing subparagraph (3) to read as follows:

(3) On the label and labeling, if it contains bismuth glycolylarsanilate or bismuth magma, after the name "Streptomycin and kaolin in gel" or "Dihydrostreptomycin and kaolin in gel," wherever it appears, the words "with bismuth glycolylarsanilate" or "with bismuth magma," in juxtaposition with such name.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: June 13, 1955.

Commissioner of Food and Drugs.

[Public Land Order 1167]

UTAH

PARTIALLY REVOKING EXECUTIVE ORDER OF APRIL 17, 1926, CREATING PUBLIC WATER RESERVE NO. 107

By virtue of the authority vested in the President by Section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141); and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive order of April 17, 1926, creating Public Water Reserve No. 107, as construed by Department of the Interior Interpretation No. 128 of April 17, 1930, is hereby revoked so far as it affects the following-described public land:

SALT LAKE MERIDIAN

T. 21 S., R. 1 E.,
Sec. 12, E½NE¼.

The area described contains 80 acres.

The lands are grazing lands surrounded by the Wasatch National Forest on the east and patented lands on the remaining three sides.

No applications for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Veterans' preference-right applications under the said act of September 27, 1944, may be received on or before 10:00 a. m. on the 35th day after the date of this order, and those covering the same lands shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, including the mineral-leasing laws, received on or before 10:00 a. m. on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries concerning the lands may be addressed to the Manager, Land Office, Bureau of Land Management, Salt Lake City, Utah.

FRED G. AANDAHL,
Acting Secretary of the Interior.

SUBPART A—SCOPE OF REGULATIONS

§ 179.1 *Persons subject to taxes.* This part contains the procedural and substantive requirements relative to:

(a) The special taxes imposed by Chapter 53 of the Internal Revenue Code of 1954, on manufacturers and importers of, and dealers (including pawnbrokers) in, certain firearms, including machine guns and silencers or mufflers;

(b) The stamp tax imposed by Chapter 53 of the Internal Revenue Code of 1954, on the transfer of such firearms; and

(c) The stamp tax imposed by Chapter 53 of the Internal Revenue Code of 1954, on the making of such firearms (other than by qualified manufacturers).

§ 179.2 *Other laws applicable.* Other provisions of the internal revenue laws are made applicable by section 5846 of the Internal Revenue Code of 1954 to the taxes referred to in § 179.1.

SUBPART B—DEFINITIONS

§ 179.10 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 179.11 *Any other weapon.* "Any other weapon" shall mean any weapon or device capable of being concealed on the person from which a shot can be discharged through the energy of an explosive, but such term shall not include pistols or revolvers or weapons designed, made or intended to be fired from the shoulder and not capable of being fired with fixed ammunition.

§ 179.12 *Assistant Regional Commissioner.* "Assistant Regional Commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under, the direction and supervision of the Regional Commissioner of Internal Revenue.

§ 179.13 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 179.14 *Corporation.* "Corporation" shall include associations, joint-stock companies, and insurance companies.

§ 179.15 *Dealer.* "Dealer" shall mean any person not a manufacturer or importer, engaged within the United States in the business of selling firearms. The term "dealer" shall include wholesalers, pawnbrokers, and dealers in used firearms.

§ 179.16 *Director.* "Director" shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 179.17 *District Director.* "District Director" shall mean the District Director of Internal Revenue.

§ 179.18 *Exportation.* "Exportation" shall mean the severance of goods from the mass of things belonging to this country with the intention of uniting them to the mass of things belonging to some foreign country.

§ 179.19 *Exporter.* "Exporter" shall mean any person who exports firearms from the United States.

§ 179.20 *Firearm.* "Firearm" shall mean a shotgun or rifle having a barrel of less than eighteen inches in length, or any other weapon, except a pistol or revolver, from which a shot is discharged by an explosive if such weapon is capable of being concealed on the person, or a machine gun, and includes a muffler or silencer for any firearm whether or not such firearm is included within the foregoing definition, but does not include any rifle which is within the foregoing provisions solely by reason of the length of its barrel if the caliber of such rifle is .22 or smaller and if its barrel is sixteen inches or more in length.

§ 179.21 *Fixed ammunition.* "Fixed ammunition" shall mean that self-contained unit consisting of the case, primer, propellant charge, and projectile or projectiles.

§ 179.22 *Importation.* "Importation" shall mean the bringing of a firearm within the limits of the United States or any territory under its control or jurisdiction, from a place outside thereof (whether such place be a foreign country or territory subject to the jurisdiction of the United States), with intent to unlade.

§ 179.23 *Importer.* "Importer" shall mean any person who imports or brings firearms into the United States for sale.

§ 179.24 *Includes and including.* The terms "includes" and "including" when used in a definition shall not be deemed to exclude other things otherwise within the meaning of the term defined.

§ 179.25 *Insular possessions.* "Insular possessions" shall mean the Panama Canal Zone, the Virgin Islands, Guam, Commonwealth of Puerto Rico, American Samoa, Wake, the Midway Islands, and Palmyra.

§ 179.26 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 179.27 *Interstate commerce.* "Interstate commerce" shall mean transportation from any State or Territory or District, or any insular possession of the United States, to any other State or to the District of Columbia.

§ 179.28 *Machine gun.* "Machine gun" shall mean any weapon which shoots, or is designed to shoot, automatically or semiautomatically, more than one shot, without manual reloading, by a single function of the trigger.

§ 179.29 *Making of a firearm.* The "making of a firearm" shall mean the production or creation of a firearm by any means, whether by manufacture, putting together of parts, alteration, any combination thereof, or otherwise, and by any process of manipulation or transformation of any other weapon.

Examples: (1) The sawing off of a barrel or barrels of a shotgun to a length of less than 18 inches, or (2) the altering of a semiautomatic pistol by the change or addition of parts so as to produce a fully automatic or machine gun type of firearm.

§ 179.30 *Manufacturer.* "Manufacturer" shall mean any person who is engaged within the United States in the manufacture of firearms, or who otherwise produces therein any firearm for sale or disposition.

§ 179.31 *Muffler or silencer.* "Muffler" or "silencer" shall mean any device for silencing or diminishing the report of any portable weapon, such as a rifle, carbine, pistol, revolver, machine gun, submachine gun, shotgun, fowling piece, or other device from which a shot, bullet, or projectile may be discharged by an explosive, and is not limited to mufflers or silencers for "firearms" as defined.

§ 179.32 *Partner.* "Partner" shall include a member of a partnership, syndicate, group, pool, joint venture, or unincorporated organization.

§ 179.33 *Partnership.* "Partnership" shall include a syndicate, group, pool, joint venture, or other unincorporated organization, through or by means of which any business, financial operation, or venture is carried on, and which is not a trust or estate or a corporation.

§ 179.34 *Person.* "Person" shall be construed to mean and include a partnership, company, association, or corporation, as well as a natural person.

§ 179.35 *Pistol.* "Pistol" shall mean a small projectile weapon having a short one-hand stock or butt at an angle to the line of the bore and a short barrel or barrels, designed, made and intended to be aimed and fired from one hand. The term shall not include gadget devices, guns altered or converted to resemble pistols, or small portable guns erroneously referred to as pistols, such as: Nazi belt buckle pistol, glove pistol, or one-hand stock guns firing fixed shotgun or fixed rifle ammunition.

§ 179.36 *Regional Commissioner.* "Regional Commissioner" shall mean the regional commissioner of internal revenue in each of the internal revenue regions.

§ 179.37 *Revolver.* "Revolver" shall mean a small projectile weapon, of the pistol type, having a breechloading chambered cylinder so arranged that the cocking of the hammer or movement of the trigger rotates it and brings the next cartridge in line with the barrel for firing.

§ 179.38 *Rifle.* "Rifle" shall mean a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed and made to use the energy of the explosive in a fixed metallic cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger.

§ 179.39 *Secretary.* "Secretary" shall mean the Secretary of the Treasury.

§ 179.40 *Shotgun.* "Shotgun" shall mean a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed and made to use the energy of the explosive in a fixed shotgun shell to fire through a smooth bore either a number of ball shot or a single projectile for each single pull of the trigger.

§ 179.41 *Taxpayer.* "Taxpayer" shall mean any person subject to a tax.

§ 179.42 *To transfer or transferred.* "To transfer" or "transferred" shall include to sell, assign, pledge, lease, loan, give away, or otherwise dispose of.

§ 179.43 *United States.* "United States" shall mean the States, the Territories of Alaska and Hawaii, and the District of Columbia.

§ 179.44 *U. S. C.* "U. S. C." shall mean the United States Code.

SUBPART C—SPECIAL (OCCUPATIONAL) TAXES

PAYMENT OF TAX

§ 179.50 *Geographical scope of tax.* Every person who engages in the business of importing, manufacturing, or dealing in firearms within the States of the United States, the Territories of Alaska and Hawaii, and the District of Columbia, is required to pay a special tax on such business.

§ 179.51 *Rates of tax.* (a) The special taxes are as follows:

	Per year
Class 1: Importers or manufacturers of firearms, except manufacturers in class 2	$500
Class 2: Manufacturers of firearms whose production is limited to guns with combination shotgun and rifle barrels, 12 inches or more but less than 18 inches in length, from which only a single discharge can be made from either barrel without manual reloading, or guns designed to be held in one hand when fired and having a barrel 12 inches or more but less than 18 inches in length, from which only a single discharge can be made without manual reloading, or guns of both types	25
Class 3: Pawnbrokers	300
Class 4: Dealers, other than pawnbrokers, except those in class 5	200
Class 5: Dealers whose dealing in firearms is limited to guns with combination shotgun and rifle barrels, 12 inches or more but less than 18 inches in length, from which only a single discharge can be made from either barrel without manual reloading, or guns designed to be held in one hand when fired, and having a barrel 12 inches or more but less than 18 inches in length, from which only a single discharge can be made without manual reloading, or guns of both types	1

(b) The tax year begins July 1 and ends June 30. Persons commencing business between August 1 and June 30 (both dates inclusive) of any tax year must pay a proportionate part of the annual tax. Persons in business for only a portion of a month are liable to tax for the entire month. For example, a person commencing business October 21 must pay tax for nine months, or three-fourths of the yearly rate.

§ 179.52 *Registry, return, and payment of tax.* Every person first engaging in any business mentioned herein must, prior to commencing business, separately for each place of business, register and file return on Form 11A (Firearms) with, and pay the tax to, the District Director for the collection district in which such place is located. Thereafter, such person must register, file return, and pay the tax on or before the 1st day of July of each year. The District Director will furnish the proper form, which must be filled out and verified under penalty of perjury. Each return must show an individual's full name. A person doing business under a style or trade name must give his own name, followed by his style or trade name. In the case of a copartnership, association, firm, or company, other than a corporation, its style or trade name must be given, also the name of each member and his place of residence. In the case of a corporation, the name and title of each officer and his place of residence must be shown. The exact type of business, whether manufacturer, importer, pawnbroker, or dealer other than pawnbroker, and the period for which special tax is due, must be stated.

§ 179.53 *Tax payment evidenced by special tax stamp.* Upon receipt of a return on Form 11A (Firearms), accompanied by remittance of the full amount due, the District Director will issue a special tax stamp as evidence of payment of the special tax.

§ 179.54 *Special tax stamp to be posted.* Every current special tax stamp issued to a taxpayer must, under penalty of the law, be kept posted conspicuously on the premises where the business is operated.

§ 179.55 *Certificates in lieu of stamps lost or destroyed.* When a special tax stamp has been lost or destroyed, such fact should be reported to the District Director at once for the purpose of obtaining from him a certificate of payment in lieu of the lost or destroyed special tax stamp. Such certificate must be posted in place of the stamp; otherwise liability will be incurred for failure to post the stamp.

§ 179.56 *Several places of business.* Generally a taxpayer must pay as many special taxes as he has places of business. However, a person paying special tax at his principal place of business may store goods, wares or merchandise at other places than the place of business without incurring special tax at such place of storage. A manufacturer upon a single payment of special tax may sell products of his own manufacture at the place of manufacture and at his principal office or place of business, provided no products, except samples, are kept at said office or place of business. Removal of a business to a new location creates a new liability unless the change of location is registered with the District Director, as provided in § 179.64.

§ 179.57 *Dual occupations incur dual tax liability.* In any case where more than one taxable business is carried on by the same person at the same location at the same time, special tax in respect to each must be paid.

§ 179.58 *Partnership liability.* Any number of persons doing business in copartnership at any one location shall be required to pay but one special tax.

§ 179.59 *Single sale.* A single sale, unattended by circumstances showing the one making the sale to be engaged in business, does not create special (occupational) tax liability.

CHANGE OF OWNERSHIP

§ 179.60 *Changes through death of owner.* Whenever any person who has paid special tax dies, the surviving spouse or child, or executors or administrators, or other legal representatives, may carry on such business for the remainder of the term for which tax has been paid without any additional payment, subject to the conditions hereinafter stated. If the surviving spouse or child, or executor or administrator, or other legal representative of the deceased taxpayer continues the business, such person must, within 30 days after the date on which the successor begins to carry on the business, file with the District Director a new Form 11 A (Firearms). The return thus executed must show the name of the original taxpayer, together with the basis of the succession. (As to liability in case of failure to register, see § 179.66.)

§ 179.61 *Changes through bankruptcy of owner.* A receiver or referee in bankruptcy may continue the business under the stamp issued to the taxpayer at the place and for the period for which the tax was paid. An assignee for the benefit of creditors may continue business under his assignor's special tax stamp without incurring additional special tax liability. In such cases, the change must be registered with the District Director in a manner similar to that required by § 179.60.

§ 179.62 *Change in firm.* When one or more members of a firm or partnership withdraw, the business may be continued by the remaining partner or partners under the same special tax stamp for the remainder of the period for which the stamp was issued to the old firm. The change shall, however, be registered in the same manner as required in § 179.60. Where new partners are taken into a firm, the new firm so constituted may not carry on business under the special tax stamp of the old firm. The new firm must make return and pay its own special tax reckoned from the 1st day of the month in which it began business, even though the name of such firm be the same as that of the old. Where the members of a partnership which has paid special tax form a corporation to continue the business, a new special tax stamp must be taken out in the name of the corporation.

§ 179.63 *Change in corporation.* Additional special tax is not required by reason of a mere change of name or increase in the capital stock of a corporation if the laws of the State of incorporation provide for such change or increase without the formation of a new corporation. A stockholder in a corporation who after its dissolution continues the business incurs new special tax liability.

CHANGE OF BUSINESS LOCATION

§ 179.64 *Notice by taxpayer.* Whenever a taxpayer removes his business to a location other than specified in his last special tax return (see § 179.52), he shall, within 30 days after the date of removal, register the change of location with the District Director of the collection district within which the old place of business is located, by filing another return, Form 11 A (Firearms), and designated "removal registry", setting forth the time of removal. The taxpayer's special tax stamp must accompany the return for notation by the District Director of the change of location. As to liability in case of failure to register a change of location within 30 days, see § 179.66.

PENALTIES AND INTEREST

§ 179.65 *Failure to pay special tax.* Persons carrying on a business within the scope of section 5801 of the Internal Revenue Code of 1954 without payment of special tax within the time prescribed (see § 179.52) are liable, in addition to the amount of the tax, interest, and penalties, to fine and imprisonment as provided in section 5861 of the Internal Revenue Code of 1954.

§ 179.66 *Failure to register change or removal.* Any person succeeding to and carrying on a business for which special tax has been paid, and any taxpayer removing his business with respect to which special tax has been paid to a place other than that for which tax was paid, without registering such change or removal within 30 days thereafter, will incur liability to an additional payment of the tax, addition to tax and interest, as provided in sections 5801, 6651, and 6601, respectively, Internal Revenue Code of 1954, for failure to make return (see § 179.67) or pay tax, as well as to fine and imprisonment for carrying on business without payment of special tax (see § 179.65).

§ 179.67 *Delinquency.* In case of failure to file a return within the prescribed time, a certain percentage of the amount of the tax is added to the tax unless the return is later filed and failure to file the return within the prescribed time is shown to the satisfaction of the District Director to be due to reasonable cause and not to willful neglect. The amount to be added to the tax is 5 percent if the failure is for not more than one month, with an additional 5 percent for each additional month or fraction thereof during which failure continues, not to exceed 25 percent in the aggregate (sec. 6651, I. R. C. 1954). However, no delinquency penalty is assessed where the 50 percent addition to tax is assessed for fraud (see § 179.68).

§ 179.68 *Fraudulent return.* If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of the underpayment, but no delinquency penalty shall be assessed with respect to the same underpayment (sec. 6653, I. R. C. 1954).

APPLICATION OF STATE LAWS

§ 179.69 *State regulations.* Special tax stamps are merely receipts for the tax. Payment of tax under Federal law confers no privilege to act contrary to State law. One to whom a special tax stamp has been issued may still be punishable under a State law prohibiting or controlling the manufacture or transfer of firearms. On the other hand, compliance with State law confers no immunity under Federal law. Persons who engage in the business of importing, manufacturing, or dealing in firearms, in violation of the law of a State, are nevertheless required to pay special tax as imposed under the internal revenue laws of the United States.

RECORD OF SPECIAL TAXPAYERS FOR PUBLIC INSPECTION

§ 179.70 *Record 10.* Each District Director shall prepare and keep for public inspection, on Record 10, an alphabetical list of the names of all persons who have paid special taxes within his district. Record 10 will show the time, place, and business for which such special taxes have been paid. Upon application of any prosecuting officer of any State, county, or municipality, the Director will furnish a certified copy of Record 10, for which a fee of $1 for each one hundred words or fraction thereof in such certified copy or copies may be charged.

SUBPART D—TAX ON MAKING FIREARMS

§ 179.75 *Scope of tax.* Except as otherwise provided (see §§ 179.82, 179.83, and 179.84) the making in the United States of any firearm (whether by manufacture, putting together, alteration, any combination thereof, or otherwise) is subject to tax to be represented by an adhesive stamp bearing the words "National Firearms Act." In every case the tax shall be paid by the person making the firearm and such tax shall be paid in advance of the making of the firearm (see §§ 179.77, 179.170, and 179.171.)

§ 179.76 *Rate of tax.* The tax on the making of firearms is at the rate of $200 for each firearm, except that the rate of tax is $1 upon the making of any gun with combination shotgun and rifle barrels, 12 inches or more but less than 18 inches in length, from which only a single discharge can be made from either barrel without manual reloading, or any gun designed to be held in one hand when fired and having a barrel 12 inches or more but less than 18 inches in length, from which only a single discharge can be made without manual reloading.

DECLARATION OF INTENT TO MAKE A FIREARM

§ 179.77 *Written declaration.* Except as provided in §§ 179.82, 179.83 and 179.84 every person intending to make a firearm must declare his intention in writing on Form 1A (Firearms) to make such firearm. The declaration shall show (a) the name and address of the maker, and, if the maker is other than a natural person, the name and address of the principal officer or authorized representative thereof; (b) the serial number, model, length of barrel, trade name, and other marks identifying the firearm; and (c) such additional information as may be required on Form 1A (Firearms). A "National Firearms Act" stamp of the proper denomination (see § 179.76) must be affixed to the original declaration, in the space provided therefor, and properly canceled (see § 179.81). Form 1A (Firearms) and appropriate tax stamp may be obtained from any District Director of Internal Revenue.

§ 179.78 *Identification of declarant.* If the declarant is an individual, he shall attach to each copy of the declaration an individual photograph of himself, taken within 90 days prior to the date of such declaration, and shall affix his fingerprints to such declaration. The fingerprints must be clear for accurate classification and should be taken by someone properly equipped to take them. The declaration must be supported by a certificate of the local chief of police, sheriff of the county, United States attorney, United States marshal, or such other person whose certificate may in a particular case be acceptable to the Director, Alcohol and Tobacco Tax Division, certifying that he is satisfied that the fingerprints and photograph appearing on the declaration are those of the declarant and that the firearm is intended by such person for lawful purposes.

§ 179.79 *Procedure for approval of declaration.* The declaration of intent to make a firearm, Form 1A (Firearms), must be forwarded directly, in duplicate, by the maker of the firearm to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C. The Director, Alcohol and Tobacco Tax Division, will consider the application for approval or disapproval. If the application is approved, the Director, Alcohol and Tobacco Tax Division, will return the original thereof to the maker of the firearm and retain the duplicate. Upon receipt of the approved declaration, the maker is authorized to make the firearm described therein. The maker of the firearm shall not, under any circumstances, make the firearm until the declaration, satisfactorily executed, with the "National Firearms Act" stamp attached, has been forwarded to the Director, Alcohol and Tobacco Tax Division, and has been approved and returned by him. If the application is disapproved, the original Form 1A (Firearms) with the "National Firearms Act" stamp attached thereto will be returned to the maker with the reasons for disapproval stated on the form.

§ 179.80 *Subsequent transfer of firearms.* Where a firearm which has been made in compliance with section 5821 of Internal Revenue Code of 1954, is to be transferred subsequently, the transfer provisions of the firearm laws and regulations must be complied with. The Form 4 (Firearms) covering such proposed transfer must, when filed with the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., be accompanied by the previously approved Form 1A (Firearms). Such Form 4 (Firearms) and approved Form 1A (Firearms) will be returned by the Director, Alcohol and Tobacco Tax Division, to the transferor for delivery to the transferee at the time the firearm is transferred.

§ 179.81 *Cancellation of stamp.* The person affixing to a Form 1A (Firearms) a "National Firearms Act" stamp shall cancel it by writing or stamping thereon, in ink, his initials, and the day, month and year, in such manner as to render it unfit for reuse. The cancellation shall not so deface the stamp as to prevent its denomination and genuineness from being readily determined.

EXCEPTIONS TO TAX ON MAKING FIREARMS

§ 179.82 *Registered manufacturers.* The tax on the making of a firearm and the requirements as to use of a form

declaring the intention to make a firearm are not applicable to manufacturers who have paid special tax and registered as required by sections 5801 and 5802 of the Internal Revenue Code of 1954. However, such manufacturers must keep the records required by § 179.150 and make the returns required by § 179.151.

§ 179.83 *Altering a firearm which has previously been taxed.* No tax will be imposed on the making of a firearm if such making involves the alteration or conversion of a firearm with respect to which a tax, at the same rate, has been paid, prior to such making, under either section 5811 or section 5821 of the Internal Revenue Code of 1954. However, the person so altering or converting such firearm shall notify the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., in writing immediately thereafter, giving a complete description of the firearm so altered or converted and indicating the changes made.

§ 179.84 *Making a firearm for use of Government agencies, peace officers and Federal officers.* The tax on the making of a firearm and the requirements as to use of a form declaring the intention to make a firearm are not applicable to any person making a firearm for the use of (a) the United States Government, any State, Territory, or possession of the United States, any political subdivision thereof, or the District of Columbia, or (b) any peace officer or any Federal officer designated in § 179.104. However, the person making such firearm shall notify the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., in writing, immediately thereafter giving a complete description of the firearm so made, identifying the agency for which the firearm was made and stating under the penalties of perjury that he has been duly commissioned to perform such act. Should it afterwards be determined that the maker was not entitled to the tax exemption, tax and penal liability will be incurred.

SUBPART E—TRANSFER TAX

§ 179.95 *Scope of tax.* Except as otherwise provided (see §§ 179.103 and 179.104), each transfer of a firearm in the United States is subject to tax to be represented by an adhesive stamp bearing the words "National Firearms Act" to be affixed to the Form 4 (Firearms) (see §§ 179.98, 179.170, and 179.171).

§ 179.96 *Rate of tax.* The transfer tax to be levied, collected, and paid with respect to all articles within the term "firearm" transferred in the United States is at the rate of $200 for each firearm, except that the rate of tax is $1 upon the transfer of any gun with combination shotgun and rifle barrels, 12 inches or more but less than 18 inches in length, from which only a single discharge can be made from either barrel without manual reloading, or any gun designed to be held in one hand when fired and having a barrel 12 inches or more but less than 18 inches in length, from which only a single discharge can be made without manual reloading.

§ 179.97 *Transfer tax in addition to import duty.* The transfer tax imposed by section 5811 of the Internal Revenue Code of 1954 is in addition to any import duty (see § 179.132.)

APPLICATION AND ORDER FOR TRANSFER OF FIREARM

§ 179.98 *Written application and order required for transfer of firearm.* Except as otherwise provided, every person seeking to obtain a firearm must make an application in duplicate to the transferor on Form 4 (Firearms). The application shall show (a) the name and address of the applicant, and, if the applicant is other than an individual, the name and address of the principal officer or authorized representative thereof; and (b) such additional information as may be required on Form 4 (Firearms). The transferor must furnish the information called for on the form relating to the serial number, model, caliber, length of barrel, trade name, and other marks identifying the firearm. In addition, a "National Firearms Act" stamp of the proper denomination (see § 179.96) must be affixed to the original only of Form 4 (Firearms), in the space provided therefor, and properly canceled (see § 179.102).

§ 179.99 *Identification of applicant.* If the applicant is an individual, he shall attach to each copy of the application an individual photograph of himself, taken within 90 days prior to the date of such application, and shall affix his fingerprints to such application. The fingerprints must be clear for accurate classification and should be taken by someone properly equipped to take them. The application must be supported by a certificate of the local chief of police, sheriff of the county, United States attorney, United States marshal, or such other person whose certificate may in a particular case be acceptable to the Director, Alcohol and Tobacco Tax Division, certifying that he is satisfied that the fingerprints and photograph appearing on the application are those of the applicant and that the firearm is intended by the applicant for lawful purposes.

§ 179.100 *Requirements for approval of application and order for transfer.* The Form 4 (Firearms), must be forwarded, directly, in duplicate, by the transferor to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C. The Director, Alcohol and Tobacco Tax Division, will consider the application for approval or disapproval. If the application is approved, the Director, Alcohol and Tobacco Tax Division, will return the original thereof to the transferor, who may then deliver the firearm to the applicant, together with the original Form 4 (Firearms) with the "National Firearms Act" stamp attached thereto. If the application is disapproved, the original Form 4 (Firearms) with the "National Firearms Act" stamp attached thereto will be returned to the transferor with the reasons for disapproval stated on the form.

§ 179.101 *Subsequent transfer of firearm.* Where a firearm transferred on or after July 26, 1934, is to be subsequently transferred, the new Form 4 (Firearms) covering such proposed transfer must, when filed with the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., be accompanied by the previously approved Form 4 (Firearms) for each prior transfer and by any declaration of intent to make a firearm, Form 1A (Firearms), previously filed with respect to the firearm transferred. Such forms will be returned by the Director, Alcohol and Tobacco Tax Division, with the latest Form 4 (Firearms) to the transferor for delivery to the applicant.

§ 179.102 *Cancellation of stamp.* The same method of cancellation as prescribed in § 179.81 shall be used.

CONCERNING EXEMPTIONS FROM TRANSFER TAX

§ 179.103 *Special-tax payers.* The transfer tax and the requirements as to use of Form 4 (Firearms) (see § 179.98) are not applicable where importers, manufacturers, and dealers who have registered and paid special tax transfer to other manufacturers or dealers who have registered and paid special tax. However, such importers, manufacturers, and dealers must keep the records required by § 179.150, and make returns required by § 179.151. Before a tax-free transfer is made, the transferor must satisfy himself that the transferee is a registered special-tax payer. If not fully satisfied, he should communicate with the District Director of the internal revenue collection district in which the transferee is located. Where tax-free transfers to unauthorized persons are made, tax and penal liability will be incurred.

§ 179.104 *Peace officers and Federal officers.* Pursuant to the authority vested in section 5812 of the Internal Revenue Code of 1954, the following are hereby designated as officers entitled to receive firearms without the use of Form 4 (Firearms): Sheriffs, chiefs of police, commissioners of police, superintendents or other chief officers of State police units, including State highway patrols, directors of public safety, and bona fide subordinate officers under the command of the aforementioned excepted persons upon appropriate recommendation of the officials designated. Forms 4 (Firearms) are not required for procurement of firearms by Federal law enforcement agencies.

§ 179.105 *Notice of exemption.* Where a transfer is claimed to be exempt from tax under section 5812 of the Internal Revenue Code of 1954, a notice of exemption must be immediately executed by the transferor in triplicate on Form 5 (Firearms), and the original forwarded to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., the duplicate retained by the transferor, and the triplicate furnished to the transferee. The notice must show the name and address of the transferor and transferee, a description of the firearm, the date of the transfer, the basis of the exemption claimed and any other evidence which the Director, Alcohol and Tobacco Tax Division, may require.

§ 179.106 *Responsibility of transferor for exempt status of transferee.* Transfers under section 5812 of the Internal Revenue Code of 1954 may be made prior to forwarding Form 5 (Firearms) to the Director, Alcohol and Tobacco Tax Division. However, before a tax-free transfer is made, the transferor should satisfy himself of the exempt status of the transferee and the bona fides of the transaction. If not fully satisfied, he should communicate with the Director, Alcohol and Tobacco Tax Division, and report all the circumstances and await said Director's advice before making the transfer. If transfers to unauthorized persons, or transfers otherwise unwarranted, are made, tax and penal liability will be incurred.

SUBPART F—REGISTRATION AND IDENTIFICATION OF FIREARMS

§ 179.120 *Application for registration of firearm.* Every person in the United States possessing a firearm (a) not already registered, or (b) acquired by transfer, importation or making without conforming with the provisions of Chapter 53 of the Internal Revenue Code of 1954, if such provisions were applicable at the time of such transfer, importation or making, must execute an application for the registration of such firearm on Form 1 (Firearms), in duplicate, with the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C. If registration is accepted, the duplicate form, after proper endorsement, will be returned to the registrant by the Director, Alcohol and Tobacco Tax Division. The filing of Form 1A (Firearms) in respect to the making of a firearm, Form 2 (Firearms) in respect of newly manufactured firearms and Form 6 (Firearms) in respect of imported firearms shall be accepted, in lieu of Form 1 (Firearms), as registration of the firearms described in such forms. Where the transfer of a registered firearm is reported on Forms 2, 3, 4, and 5 (Firearms) it will not be necessary for the transferee to apply for registration of the firearms on Form 1 (Firearms).

§ 179.121 *Identification of firearms.* Each manufacturer and importer of a firearm shall identify it by stamping (impressing), or otherwise conspicuously placing or causing to be stamped (impressed) or placed thereon, in a manner not susceptible of being readily obliterated or altered, the name and location of the manufacturer or importer, and the serial number, caliber, and model of the firearm. None of the data indicated may be omitted except with the approval of the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C.

SUBPART G—IMPORTATION AND EXPORTATION [1]

IMPORTATION

§ 179.130 *Procedure.* The burden of proof is affirmatively on any person importing or bringing a firearm into the United States, Puerto Rico, or the Virgin Islands, to show to the satisfaction of the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., prior to importation (see § 179.22), that the firearm is to be lawfully used and is unique or of a type unobtainable within the United States or such territory or possession. One desiring to import or bring a firearm into the United States, Puerto Rico, or the Virgin Islands shall file application, in duplicate, on Form 6 (Firearms) with the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C. The application shall show the intended port or place of importation and describe the firearm intended for importation accurately and in detail, including, as far as practicable, the data indicated by § 179.121. The reasons for the proposed importation and the purposes for which the firearm is intended must be clearly shown. If uniqueness is claimed, it must be specifically indicated in what particulars the firearm is unique. If the application is based on alleged unobtainability, the differences between the desired firearm and other firearms of the same general character obtainable without importation must be clearly shown. The applicant will be notified of the approval or disapproval of the application. If it is approved, the certificate will be returned to the applicant to be filed with the collector of customs at the port of importation. Collectors of customs will not permit release of the firearm from customs custody, except for exportation, unless covered by an approved application.

§ 179.131 *Importation into territory or possession.* The importation of firearms into a territory or possession of the United States other than United States (as defined in § 179.43), Puerto Rico, or the Virgin Islands will be under the control of the governing authorities of such territory or possession. (See § 179.139).

§ 179.132 *Tax on transfer of imported firearm.* Any person importing or bringing a firearm into the United States is subject to tax upon the subsequent transfer of such firearm, which tax is additional to any duty upon the importation of the firearm: *Provided, however,* An importer who has registered and paid special tax and has otherwise complied with the requirements of Chapter 53 of the Internal Revenue Code of 1954, and who transfers a firearm to a registered special-tax payer will not be required to pay transfer tax on such transfer.

[1] Persons engaged in the business of importing or exporting firearms caliber .22 or larger are subject to the requirement of a license issued by the Secretary of State. Application for such license should be made to the Office of Munitions Control, Department of State, Washington 25, D. C., prior to importing or exporting firearms.

EXPORTATION

§ 179.133 *Application and permit for exportation of firearms.* Any person desiring to export a firearm without payment to the transfer tax must file an application on Form 9 (Firearms), in quadruplicate, with the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., for a permit providing for deferment of tax assertion. Part 1 of the application shall be executed by the exporter and shall be supported by a certified copy of a written order or contract of sale or other evidence showing that the firearm is to be shipped to a foreign destination. Where it is desired that a transfer to the exporter shall be tax free, the transferor shall likewise file an application supported by evidence that the transfer will start the firearm in course of exportation (see § 179.18), except, however, that where such transferor and exporter are registered special-tax payers the transferor will not be required to file an application on Form 9 (Firearms).

§ 179.134 *Action by Director, Alcohol and Tobacco Tax Division.* If the application is acceptable the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., will execute the permit, Part 2 of Form 9 (Firearms), to export the firearm described on the form and return three copies thereof to the applicant. Issuance of the permit by the Director, Alcohol and Tobacco Tax Division, will suspend assertion of tax liability for a period of six months. If the application is disapproved the Director, Alcohol and Tobacco Tax Division, will indicate thereon the reason for such action and return the forms to the applicant.

§ 179.135 *Procedure by exporter.* Shipment may not be made until the permit, Form 9 (Firearms), is received from the Director, Alcohol and Tobacco Tax Division. If exportation is to be made by means other than by parcel post two copies of the form must be addressed to the collector of customs at the port of exportation and must precede or accompany the shipment in order to permit appropriate inspection prior to lading. If exportation is to be made by parcel post one copy of the form must be presented to the postmaster at the office receiving the parcel who will execute Part 4 of such form and return the form to the exporter for transmittal to the Director, Alcohol and Tobacco Tax Division. In the event exportation is not effected all copies of the form must be immediately returned to the Director for cancellation.

§ 179.136 *Action by customs.* Upon receipt of a permit, Form 9 (Firearms), in duplicate, authorizing the exportation of firearms the collector of customs may order such inspection as deemed necessary prior to lading of the merchandise. If satisfied that the shipment is proper and the information contained in the permit to export is in agreement with the information shown in the shipper's export declaration, the collector of customs will, after the merchandise has been duly exported, execute the certificate of exportation (Part 3 of Form 9

(Firearms)). One copy of the form will be retained with the shipper's export declaration and the remaining copy thereof will be transmitted to the Director, Alcohol and Tobacco Tax Division.

§ 179.137 *Proof of exportation.* Within a six months' period from date of issuance of the permit to export firearms the exporter shall furnish to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., (a) a certificate of landing signed by a Customs officer of the foreign country to which the article is exported, or (b) a sworn statement of the foreign consignee covering the receipt of the article, or (c) the return receipt, or a photostat thereof, signed by the addressee or his agent where the shipment was made by insured or registered parcel post. Issuance of a permit to export and furnishing of the required evidence will relieve from liability the actual exporter and one selling to the exporter for exportation. Where satisfactory evidence of exportation is not furnished within the stated period the tax will be assessed: *Provided,* That if the amount of tax liability involved is $10 or less the Director may accept a customs certificate of exportation or certificate of mailing by parcel post as proper proof of exportation.

§ 179.138 *Refunds.* Where, after payment of tax by the manufacturer, a firearm is exported, and satisfactory proof of exportation (see § 179.137) is furnished, a claim for refund may be submitted on Form 843 (see § 179.181). If the manufacturer waives all claim for the amount to be refunded, the refund shall be made to the exporter. A claim for refund by an exporter of tax paid by a manufacturer should be accompanied by waiver of the manufacturer and proof of tax payment by the latter.

§ 179.139 *Insular possessions.* Transfers of firearms to persons in the insular possessions (other than Hawaii) of the United States are exempt from transfer tax, provided title in cases involving change of title (and custody or control, in cases not involving change of title), does not pass to the transferee or his agent in the United States. However, such exempt transactions must be covered by approved permits and supporting documents corresponding to those required in the case of firearms exported to foreign countries (see §§ 179.133 and 179.134), except that the Director, Alcohol and Tobacco Tax Division, may vary the requirements herein set forth in accordance with the requirements of the governing authority of the insular possession. Shipments to the insular possessions will not be authorized without compliance with the requirements of the governing authorities thereof. In the case of a nontaxable transfer to a person in such insular possession, the exemption extends only to such transfer and not to prior transfers.

SUBPART H—RECORDS AND RETURNS

§ 179.150 *Records.* Every manufacturer, importer, and dealer (including pawnbroker) shall make and keep at his place of business a record showing (a) the manufacture, receipt, transfer, or other disposition of all firearms taxable under the Code, (b) the date of such manufacture, receipt, transfer, or disposition, (c) the number, model, and trade name or other mark identifying each firearm, and (d) the name and address of the person to whom any firearm is transferred. This record must be preserved for a period of at least four years from the date of disposition of the firearm, and be at all times readily accessible for inspection.

§ 179.151 *Returns.* Immediately upon the manufacture, receipt, transfer, or other disposition of any firearm every manufacturer, importer, dealer (including pawnbroker), shall execute an accurate return on either Form 2 (Firearms) or Form 3 (Firearms), in duplicate, setting forth the information called for in § 179.150. All transactions occurring during a single day may be included in one return filed at the close of that business day. The original will be forwarded to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., and the duplicate will be retained by the person making the return for a period of at least four years and be at all times readily accessible for inspection. Upon application, return forms will be supplied by district directors.

SUBPART I—STOLEN OR LOST FIREARMS OR DOCUMENTS

§ 179.155 *Stolen or lost firearms.* Whenever any firearm is stolen or lost, the person losing possession thereof will, immediately upon discovery of such theft or loss, make a report to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., showing the following: (a) Name and address of the person in whose name the firearm is registered, (b) kind of firearm, (c) serial number, (d) model, (e) caliber, (f) manufacturer of firearm, (g) date and place of theft or loss, and (h) complete statement of facts and circumstances surrounding such theft or loss.

§ 179.156 *Stolen or lost documents.* When any Forms 1, 1A, 2, 3, 4, 5, or 6 (Firearms) evidencing possession of a firearm is stolen, lost, or destroyed, the person losing possession will immediately upon discovery of the theft, loss, or destruction report the matter to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C. The report will show in detail the circumstances of the theft, loss, or destruction and will include all known facts which may serve to identify the document. Upon receipt of the report, the Director, Alcohol and Tobacco Tax Division, will make such investigation as appears appropriate and may issue a duplicate document upon such conditions as the circumstances warrant.

SUBPART J—EXAMINATION OF BOOKS AND RECORDS

§ 179.160 *Failure to make returns: substitute returns.* If any person required by this part to make returns shall fail or refuse to make any such return within the time prescribed by this part or designated by the Director, Alcohol and Tobacco Tax Division, then the return shall be made by an internal revenue officer upon inspection of the books, but the making of such return by an internal revenue officer shall not relieve the person from any default or penalty incurred by reason of failure to make such return.

(53 Stat. 437; sec. 6020 I. R. C. 1954)

§ 179.161 *Inspection of records.* Any officer designated by the Director, Alcohol and Tobacco Tax Division, shall have authority to examine the books, papers, and records kept pursuant to the regulations in this part, and may require the production of any books, records, papers, or statements of account necessary to determine any liability to the tax or the observance of the provisions of this part.

(53 Stat. 438, 439; secs. 7602 and 7605, I. R. C. 1954)

§ 179.162 *Penalties (records and returns).* Any person failing to keep records or make returns is liable to fine and imprisonment as provided in section 5861 of the Internal Revenue Code of 1954. Any person assisting in the preparation of fraudulent returns is liable to fine and imprisonment as provided in section 7206 of the Internal Revenue Code of 1954.

SUBPART K—DISTRIBUTION AND SALE OF STAMPS

§ 179.170 *Orders for stamps.* Each order for stamps to be used under this part shall be made in writing to the District Director or his duly authorized agent in the internal revenue collection district in which the stamps are to be used, showing the date of the order, the number of "National Firearms Act" stamps applied for, and the name and address of the purchaser, and shall be signed in ink by the purchaser.

§ 179.171 *Stamps authorized.* Adhesive stamps of the $1 and $200 denomination, bearing the words "National Firearms Act," have been prepared and distributed to District Directors, and only such stamps shall be used for the payment of the transfer tax and for the tax on the making of a firearm.

§ 179.172 *Reuse of stamps prohibited.* A stamp once affixed to one instrument cannot lawfully be removed and affixed to another. Any person wilfully reusing such a stamp shall be subject to the penalty prescribed by section 7208 of the Internal Revenue Code of 1954.

SUBPART L—REDEMPTION OF OR ALLOWANCE FOR STAMPS OR REFUNDS

§ 179.180 *Procedure for redemption of or allowance for stamps.* Where a "National Firearms Act" stamp is destroyed, mutilated or rendered useless after purchase, and before liability has been incurred, such stamp may be redeemed by giving another stamp in lieu thereof or by refunding the amount or value thereof. In the event a Form 1A (Firearms) or a Form 4 (Firearms) is executed and the appropriate stamp affixed thereto, and thereafter the intent to make a firearm or the proposed transfer is abandoned and the firearm is not made or transferred, the taxpayer may redeem such stamp (section 6805 of the Internal Revenue Code of 1954). Claim for redemption of the stamp should be filed on Form 843 with the appropriate District Director of Internal Revenue. Such claim must be accompanied by the Form 1A (Firearms) or the Form 4 (Firearms) to which the stamp is affixed, or by a satisfactory explanation of the reason why the stamp cannot be returned, and must be filed within three years after the purchase of the stamp (sec. 6805, I. R. C., 1954).

§ 179.181 *Refunds.* As indicated in this part, the transfer tax or tax on the making of a firearm is ordinarily paid by the purchase and affixing of stamps, while special tax stamps are issued in payment of special taxes. However, in exceptional cases, such taxes may be paid pursuant to assessment. Claims for refund of amounts so paid must be presented to the District Director on Farm 843 within three years next after payment of the taxes (sec. 6511, I. R. C., 1954).

SUBPART M—PENALTIES AND FORFEITURES

§ 179.190 *Penalties.* Any person who violates or fails to comply with the requirements of Chapter 53, Internal Revenue Code of 1954, shall, upon conviction, be subject to the penalties imposed under section 5861, Internal Revenue Code of 1954.

§ 179.191 *Forfeitures.* Any firearms involved in any violation of the provisions of Chapter 53, Internal Revenue Code of 1954, or of the regulations in this part shall be subject to seizure and forfeiture under the internal revenue laws: *Provided, however,* That the disposition of forfeited firearms shall be in conformance with the requirements of section 5862 of the Internal Revenue Code of 1954. In addition, any vessel, vehicle or aircraft used to transport, carry, convey, or conceal or possess any firearm with respect to which there has been committed any violation of any provision of Chapter 53, Internal Revenue Code of 1954, or the regulations in this part issued pursuant thereto, shall be subject to seizure and forfeiture under the Customs laws, as provided by the act of August 9, 1939 (U. S. C. Title 49, secs. 781–788).

SUBPART N—OTHER LAWS APPLICABLE

§ 179.195 *Applicability of other provisions of internal revenue laws.* All of the provisions of the internal revenue laws not inconsistent with the provisions of Chapter 53 of the Internal Revenue Code of 1954 shall be applicable with respect to the taxes imposed by sections 5801, 5811 and 5821 of said Code (see section 5846, I. R. C., 1954).

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1003]

[Docket No. AO-269]

HANDLING OF DOMESTIC DATES PRODUCED OR PACKED IN LOS ANGELES AND RIVERSIDE COUNTIES OF CALIFORNIA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Part 900, 19 F. R. 57), a public hearing was held at Coachella, California, on March 23 and 24, 1955, on a proposed marketing agreement and order regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California. Such hearing was held pursuant to a notice thereof which was published in the FEDERAL REGISTER (20 F. R. 1363) on March 5, 1955.

On the basis of evidence adduced at the hearing and the record thereof, the Deputy Administrator, Marketing Services, Agricultural Marketing Service, United States Department of Agriculture, on May 17, 1955, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (20 F. R. 3531) on May 20, 1955. No written exceptions had been filed during the time period prescribed in such notice.

Findings and conclusions. The material issues, findings and conclusions, of the aforesaid recommended decision (F. R. Doc. 55-4141; 20 F. R. 3531) are hereby approved and adopted as the material issues, findings and conclusions of this decision as if set forth in full herein, except for the corrections which are set forth below.

The corrections are as follows: In the findings and conclusions on the issue numbered (1) (in the sixth line of the first full paragraph on page 3531) insert the word "intrastate" between the words "of" and "interstate"; in the findings and conclusions on the issue numbered (3) (d) (in the fifteenth line in the first incomplete paragraph in the first column on page 3537) change the word "requirements" to "requirement"; in the findings and conclusions on the material issue numbered (3) (h) (fifth line of the first complete paragraph in the first column on page 3540) change the word "quality" to "quantity".

Marketing agreement and order. Annexed hereto, and made a part hereof, are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Domestic Dates Produced or Packed in Los Angeles and Riverside Counties of California" and "Order Regulating the Handling of Domestic Dates Produced or Packed in Los Angeles and Riverside Counties of California", which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. The marketing agreement and order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered. That all of this decision, except the annexed marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement are identical with those contained in the attached order, which will be published with this decision.

Done at Washington, D. C., this 14th day of June, 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

§ 1003.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Coachella, California, on March 23 and 24, 1955 upon a proposed marketing agreement and a proposed marketing order regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California. Upon the basis of the evidence adduced at such hearing, and the record thereof, it is found that:

(1) This marketing order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) This marketing order regulates the handling of dates produced or packed in Los Angeles and Riverside Counties located within the State of California in the same manner as, and is applicable only to the persons in the respective classes of industrial and commercial activities specified in, the proposed marketing agreement and order upon which a hearing has been held;

(3) This marketing order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act and the issuance of several orders applicable to subdivisions of the production area would not carry out the declared policy of the act effectively;

(4) There are no differences in the production and marketing of dates in the production area covered by the marketing order which would require different terms applicable to different parts of such area; and

(5) The handling of all dates produced or packed in Los Angeles and Riverside Counties located within the State of California is either in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

It is therefore ordered, That, on and after the effective date hereof, the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California shall be in conformity to, and in compliance with, the terms and conditions of this order; and the terms and conditions of said order are as follows:

DEFINITIONS

§ 1003.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 1003.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 1003.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 1003.4 *Area of production.* "Area of production" means the counties of Riverside and Los Angeles located within the State of California.

§ 1003.5 *Dates.* "Dates" means the Deglet Noor, Zahidi, and Khadrawy varieties of domestic dates produced or packed in the area of production.

§ 1003.6 *Crop year.* "Crop year" means the 12 months from August 1 to the following July 31, both inclusive.

§ 1003.7 *Producer.* "Producer" is synonymous with grower and means any person engaged in a proprietary capacity in the production of dates for sale.

§ 1003.8 *Handler.* "Handler" means any person handling dates which have not been inspected and certified for handling in the hands of a previous holder: *Provided*, That for the purposes of §§ 1003.22 and 1003.24 such person shall qualify as a handler only if he has acquired the dates directly from producers.

§ 1003.9 *Handle.* "Handle" means to sell, consign, transport or ship (except as a common or contract carrier of dates owned by another person) or in any other way to put dates into the current of commerce, except that sales or deliveries by producers to a handler within the area of production shall not be considered as handling.

§ 1003.10 *Handler carry-over.* "Handler carry-over" means, as of any date, all marketable dates then held by a handler or for his account (whether or not sold), plus the estimated quantity of marketable dates in ungraded or unprocessed lots then held by said handler.

§ 1003.11 *Trade demand.* "Trade demand" means the quantity of marketable dates which the trade will acquire from all handlers during the crop year for distribution in the continental United States, Canada, and such other countries as the committee finds will acquire dates at prices reasonably comparable with prices received in the continental United States.

§ 1003.12 *Marketable dates.* "Marketable dates" means, for any crop year, whole or pitted dates which are certified as equal to or higher than the minimum grade permitted to be handled by the regulations imposed by this part.

§ 1003.13 *Free dates.* "Free dates" means those dates which are free to be handled pursuant to any free percentage established by the Secretary in accordance with § 1003.44.

§ 1003.14 *Restricted dates.* "Restricted dates" means those dates which must be withheld by handlers pursuant to any restricted percentage established by the Secretary in accordance with § 1003.44.

§ 1003.15 *Committee.* "Committee" means the Date Administrative Committee established pursuant to § 1003.21.

§ 1003.16 *Cooperative handler.* "Cooperative handler" means any handler which is a cooperative marketing association of growers organized under the laws of the State of California.

§ 1003.17 *Part and subpart.* "Part" means the order regulating the handling of domestic dates produced or packed in Los Angeles and Riverside counties of California, and all rules, regulations, and supplementary orders issued thereunder. The aforesaid order shall be a "subpart" of such part.

DATE ADMINISTRATIVE COMMITTEE

§ 1003.21 *Establishment of Date Administrative Committee.* A Date Administrative Committee consisting of seven members, with an alternate member for each such member, is hereby established to administer the terms and conditions of this part.

§ 1003.22 *Membership representation.* Members and alternates shall be selected by the Secretary from each of the following groups and on the following basis:

(a) One to represent handlers each of whom produced not less than 40 percent of the volume he handled.

(b) One to represent cooperative handlers.

(c) Two to represent handlers not included in paragraph (a) or (b) of this section.

(d) One to represent producers who are members of a cooperative marketing association.

(e) Two to represent producers who are not members of a cooperative marketing association.

The foregoing representation is based on each handler member representing approximately 25 percent of the tonnage handled and each producer member representing approximately one-third of the total number of commercial producers. Whenever the Secretary finds that changes in tonnage handled or producer membership in cooperatives is such as to warrant a realignment of the four handler members or the three producer members, he shall notify the committee and thereafter nominations and selections of members and alternates shall be on such new basis as the Secretary may determine.

§ 1003.23 *Term of office.* In the groups specified in § 1003.22, one member and his alternate in the groups in paragraphs (c) and (e) and the member and alternate in the group in paragraph (b) shall serve until April 15 of even-numbered years and the others shall serve until April 15 of odd-numbered years but all shall serve, unless disqualified, until their respective successors have been selected and have qualified.

§ 1003.24 *Nominations*—(a) *Initial members.* Nominations for each of the initial members, together with nominations for the initial alternate members, may be submitted to the Secretary by individual, or groups of, producers, producer-handlers, or handlers. Such nominations, if made, shall be received by the Secretary no later than the effective date of this subpart. In the event such nominations are not received as prescribed, the Secretary may select such initial members and alternate members without regard to nominations.

(b) *Successor members.* Each of the groups specified in § 1003.22 may nominate members and alternates for such members at nomination meetings to be held on or before March 15 of each year. At such meetings each person shall be entitled to cast one vote for each position to be filled except that the votes cast in the groups in § 1003.22 (a), (b) and (c) shall be weighted by the tonnage of dates acquired from producers and certified for handling through February 28 of the current crop year. The individual receiving the highest number of votes shall be the nominee. Immediately after the completion of such meetings the committee shall report to the Secretary the nominees for each position together with a certificate of all necessary tonnage data and other information deemed by the committee to be pertinent or which is requested by the Secretary. In the event nominations for any position on the committee are not received within a reasonable time, the Secretary may select members or their alternates without regard to nominations but such selections shall be on the basis prescribed in § 1003.22.

§ 1003.25 *Qualification.* Each person selected as a member or alternate member of the committee shall, prior to serving on the committee, qualify by filing with the Secretary a written acceptance after receiving notice of his selection. Any member or alternate who, at the time of his selection, was a member of or employed by a member of the group which nominated him shall, upon ceasing to be such member or employee, become disqualified to serve further and his position on the committee shall be deemed vacant.

§ 1003.26 *Vacancies.* In the event of any vacancy occasioned by the failure of any person selected as a member or alternate member of the committee to qualify or by the removal, resignation, disqualification, or death of any member or alternate member, a successor for such person's unexpired term shall be nominated within thirty calendar days after such vacancy occurs and selected in the manner, and subject to the conditions, provided in this subpart.

§ 1003.27 *Alternates.* An alternate for a member of the committee shall act in the place and stead of such member during his absence or in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has qualified.

§ 1003.28 *Expenses.* The members of the committee shall serve without compensation but shall be allowed their necessary expenses.

§ 1003.29 *Powers.* The committee shall have the following powers:

(a) To administer the terms and provisions of this subpart.

(b) To make rules and regulations to effectuate the terms and provisions of this subpart.

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart, and

(d) To recommend to the Secretary amendments to this subpart.

§ 1003.30 *Duties.* The committee shall have, among other things, the following duties:

(a) To act as intermediary between the Secretary and any producer or handler.

(b) To keep minutes, books, and records which will clearly reflect all of its transactions and such minutes, books, and other records shall be subject to examination by the Secretary at any time.

(c) To investigate the growing, handling, and marketing conditions with respect to dates, to assemble data in connection therewith.

(d) To furnish to the Secretary such available information as may be deemed pertinent to the administration of this subpart or as he may request and to give to the Secretary the same notice of meetings of the committee as is given to the members of the committee.

(e) To appoint such employees as it may deem necessary and to determine the salaries, define the duties and where desirable fix the bonds of such employees.

(f) To cause the books of the committee to be audited by a certified public accountant at least once each crop year and at such other times as the committee may deem necessary or the Secretary may request. The report of each such audit shall show among other things the receipt and expenditure of funds pursuant hereto. Two copies of such audit shall be submitted to the Secretary, and

(g) To investigate compliance and to use means available to the committee to prevent violations of this part.

§ 1003.31 *Procedure.* The members of the committee shall select a chairman from their membership and shall select such other officers and adopt such rules for conduct of its business as it may deem advisable. All decisions of the committee shall be by at least five affirmative votes. The presence of five members shall be required to constitute a quorum. The committee may vote by mail, telephone when confirmed in writing, or telegram, upon due notice and full and identical explanation to all members, but one dissenting vote shall prevent the adoption of any proposition presented to voting by this method. At all assembled meetings of the committee all votes shall be cast in person.

RESEARCH AND DEVELOPMENT

§ 1003.33 *Research and development.* The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of dates. The expense of such projects shall be paid from funds collected pursuant to § 1003.72.

MARKETING POLICY

§ 1003.34 *Development.* As early as practicable, but no later than August 1, the committee shall prepare and submit to the Secretary a report setting forth its marketing policy, including the data on which it is based, for the regulation of dates in the ensuing crop year. In developing the marketing policy the committee shall give consideration to the following factors by varieties:

(a) Its estimate of the total production separated as to marketable and other grades, which will be produced in such crop year;

(b) Its estimate of handler carry-over as of July 31 and of any non-marketable dates held by handlers or users;

(c) Its estimate of the trade demand, taking into consideration imports, economic conditions and the anticipated market price, within the limitations of the act;

(d) Its recommendation with respect to the free and restricted percentages to be fixed; and

(e) Its recommendations as to grade regulations.

§ 1003.35 *Modifications.* In the event the committee subsequently determines that the marketing policy should be modified due to changing supply or demand conditions, it shall formulate and submit to the Secretary its modified marketing policy along with the data which it considered in connection with such modification.

§ 1003.36 *Notice.* The committee shall give notice through newspapers having general circulation in the area of production or by other means of communication to producers and handlers of the contents of each marketing policy

report submitted to the Secretary and of each report modifying such marketing policy. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by producers and handlers.

GRADE REGULATION

§ 1003.39 *The establishment of minimum standards.* In order to effectuate the declared policy of the act all whole and pitted dates handled under this subpart shall meet the requirements of U. S. Grade C, of the effective United States Standards for Grades of Dates: *Provided,* That the Secretary may, upon recommendation of the committee, prescribe other minimum standards of quality. To aid the Secretary in prescribing such other minimum standards, the committee shall furnish to the Secretary the data upon which it acted in recommending such standards. The provisions hereof relating to minimum standards of quality and to inspection requirements, within the meaning of section 2 (3) of the act, and any other provisions relating to the administration and enforcement thereof shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2 (1) of the act. Notice of the minimum standard regulation shall be sent by the committee to all handlers of record, and thereafter no handler shall handle dates except in accordance with such minimum standards.

§ 1003.40 *Additional grade regulation.* Whenever the committee deems it advisable to establish grade regulations for any variety in addition to those provided by the minimum standards, to govern shipments of dates, it shall recommend to the Secretary controls based on the effective United States Standards for Grades of Dates or any modification thereof. If the Secretary finds upon the basis of such recommendation or other information available to him, that such additional grade regulation would tend to effectuate the declared policy of the act he shall establish such regulations, and notice thereof, showing the effective date, shall be sent by the committee to all handlers of record. Thereafter no handler shall handle dates except in accordance with such grade regulations.

§ 1003.41 *Inspection*—(a) *Packed dates.* Prior to shipment each handler shall, at his own expense, cause an inspection to be made of all dates packed for handling in order to ascertain if such dates meet the grade regulations provided for in this part.

(b) *Dates for further processing.* Prior to shipment each handler shall, at his own expense, cause an inspection and certification to be made that dates handled by him for further processing are equal to the minimum grade standard except for character associated with moisture: *Provided,* That this inspection and certification requirement shall not apply to interhandler transfers of field run dates within the area of production.

(c) *Identification and agency.* All dates shipped shall be identified by seals, stamps, or other means prescribed by the committee and affixed to the containers by the handlers under the supervision of the committee or the designated inspectors. Inspection shall be performed by inspectors of the United States Department of Agriculture's Processed Products Standardization and Inspection Branch or such other inspection agency as may be recommended by the committee and approved by the Secretary. Handlers shall cause a copy of each inspection certificate to be furnished to the committee.

VOLUME REGULATION

§ 1003.44 *Free and restricted percentages.* (a) Whenever the committee finds that the available supply of marketable dates for any crop year exceeds or is likely to exceed the total trade demand therefor, and that limiting the volume to be sold in whole or pitted form of any or all varieties through establishing free and restricted percentages applicable to such supply would tend to effectuate the declared policy of the act, it shall recommend such percentages to the Secretary. If the Secretary finds, upon the basis of the committee's recommendation and supporting data or other information available to him, that the establishment of such percentages would tend to effectuate the declared policy of the act, he shall establish such percentages. The sum of the free and restricted percentages for any crop year shall equal 100 percent.

(b) The dates shipped by any handler in accordance with the provisions hereof shall be determined to be that handler's quota fixed by the Secretary within the meaning of section 8a (5) of the act. The terms of said section prescribe that any person wilfully exceeding such a quota and any other person knowingly participating or aiding in such action shall forfeit to the United States a sum equal to three times the then current market value of such excess.

§ 1003.45 *Withholding restricted dates.* (a) Whenever a regulation has been established for a crop year by the Secretary in accordance with § 1003.44, each handler, before or upon shipping dates, shall have withheld from shipment a quantity of marketable dates, or their equivalent in graded dates, having a weight equal to the restricted percentage referable to such shipment. The weight to be set aside shall be determined by dividing the restricted percentage by the free percentage and applying the resultant withholding percentage, rounded to the nearest one-tenth of one percent, to the weight of dates shipped. The withholding percentage shall be established by the Secretary. The restricted weight of pitted dates shall be determined by dividing the shipping weight by 0.90 and applying the withholding percentage.

(b) Compliance by any handler with the withholding of restricted dates may be deferred to any date not later than January 31 of any crop year, upon request to the committee and when accompanied by a written undertaking that on or prior to such date, he will have fully satisfied his withholding obligation. Such undertaking shall be secured by a bond or bonds to be filed with, and acceptable to, the committee and with a surety or sureties acceptable to the committee, running in favor of the committee and the Secretary in an amount conditioned upon full compliance with such undertaking. The amount shall be determined by multiplying the poundage of the deferred restricted obligation by a bonding rate per pound which would provide funds estimated to be sufficient for the committee to purchase on the open market a volume of dates equivalent to the deferred obligation. Such bonding rate shall be established annually, and modified as necessary, by the committee. Any sums collected through default by a handler on his bond shall be used by the committee to purchase dates to meet the violated restricted obligation, reimburse the committee for expenses relative to the default, and any excess money remaining shall be refunded to the defaulting handler. The dates so purchased by the committee shall be turned over to the defaulting handler for disposition as restricted dates. In the event the committee is unable to purchase a poundage of dates equal to the defaulted volume, the sums collected shall, after reimbursement of committee expenses in connection with the default, be distributed among all handlers other than the defaulting handler in proportion to the volume of certified dates handled during the crop year in which the default occurred.

(c) Dates may be certified for handling or for further processing at any time during a crop year and at the time of certification shall be inspected and identified by appropriate seals, stamps, or tags to be furnished by the committee and to be affixed to the containers by the handler under the direction and supervision of the committee or its designated inspectors at which time the assessment requirements provided in § 1003.72 and the restricted obligation with respect to such dates shall be met. Dates so certified may thereafter be carried over into the new crop year and need not pay the assessment nor meet the requirements of any free or restricted percentages established for such year.

(d) Dates withheld to meet the restricted obligation shall be stored at the expense of the handler, in storage of his own choosing and disposed of in accordance with § 1003.55. All such dates shall be inspected and identified by appropriate seals, stamps, or tags to be furnished by the committee and to be affixed to the containers by the handler under the direction and supervision of the committee or its designated inspectors. All withholding and movement of restricted dates shall be subject to the supervision and accounting control of the committee and reports shall be filed as required by this part.

§ 1003.46 *Revisions of percentages.* The Secretary may, on recommendation of the committee submitted prior to January 31 of the crop year, or on the basis of other information available to him, increase the free percentage to conform with such new relation as may be found to exist between trade demand and available supply. Upon any revision in the free and restricted percentages the control obligation of each handler with respect to dates handled or certified for handling by him for the entire crop year shall be recomputed in accordance with such revised control percentages. The handler shall be permitted to select, insofar as practicable, under the supervision and direction of the committee, the particular dates to be removed from any dates withheld.

§ 1003.47 *Assistance to handlers.* The committee, on written request, may assist handlers in obtaining storage for restricted dates, in accounting for their control obligations or in acquiring dates to meet any deficiency in a handler's control obligation.

QUALIFICATIONS TO REGULATION

§ 1003.50 *Application after end of crop year.* Unless otherwise specified the regulations and the bonding rates established for any crop year shall continue in effect with respect to all dates for which control obligations have not been previously met, until regulations and bonding rates are established for the new crop year. Thereupon the withholding obligations for all dates handled or certified for handling during such crop year shall be adjusted to the newly established percentages and a similar adjustment shall be made in any bond or bonds already given for that crop year.

§ 1003.51 *Interhandler transfers.* Transfers of dates may be made from one handler to another upon notice to and permission of the committee. If such transfer is wholly within the area of production, the assessment and withholding obligations shall be placed on the handler agreeing to assume them: *Provided,* That in the absence of the committee receiving notice of a specific agreement on such obligations, the buying handler shall be held accountable. If such transfer is from within the area of production to any point outside thereof, the assessment and withholding obligations shall be met by the handler within the area of production.

§ 1003.52 *Exemption.* The committee may exempt from regulation, upon written request of any producer or handler, the dates he sells to consumers through roadside stands, local date shops, mail order or specialty outlets, if it determines that the particular request is not likely to materially interfere with the objectives of this part. All dates handled pursuant to exemptions under this section shall be reported to the committee in such manner and in such form as the committee may prescribe. The committee shall issue, with the approval of the Secretary, appropriate rules and regulations establishing the bases on which exemptions may be granted.

DISPOSITION OF OTHER THAN FREE DATES

§ 1003.55 *Outlets for restricted or standard.* Restricted dates and any standard grade but non-marketable dates may be disposed of through exportation to such countries as the committee may approve or by diversion in such form as rings, chunks, pieces, butter, macerated, paste, or other products which the committee determines to be appropriate and which will result in the dates moving into consumption in a form other than that of whole or pitted dates.

§ 1003.56 *Outlets for substandard and culls.* Substandard grade dates shall be disposed of in feed, non-table syrup, alcohol, brandy, macerated dates or such other outlets as the committee finds are non-competitive with the outlets for free dates. Disposition of cull dates shall be limited to products not destined for human consumption as food.

§ 1003.57 *Terminal date.* Dates covered by §§ 1003.55 and 1003.56 shall be converted from their whole or pitted form or sold under firm contracts to manufacturers of approved products by September 30 of the subsequent crop year.

§ 1003.58 *Safeguards.* The committee may prescribe, with the approval of the Secretary, such rules, regulations and safeguards as are necessary to prevent dates covered by §§ 1003.55 and 1003.56 from interfering with the objectives of this part.

REPORTS AND RECORDS

§ 1003.61 *Reports of handler carryover.* Each handler shall file with the committee a written report of his carryover of dates as of January 1 and May 15 of any crop year and at such other times as the committee may prescribe. Such reports shall be filed within 15 days of the aforesaid dates.

§ 1003.62 *Reports of dates shipped.* Each handler who ships dates during a crop year shall submit to the committee, in such form and at such intervals as the committee may prescribe, reports showing the net weight of dates shipped by him and such other information pertinent thereto as the committee may specify.

§ 1003.63 *Reports on restricted dates withheld.* Each handler from time to time, on demand of the committee, shall file with it a report of the restricted dates withheld by him in satisfaction of his withholding obligation. Such reports shall show such information as the committee may require and may be in such form as the committee may prescribe.

§ 1003.64 *Reports on disposition of restricted.* Each handler disposing of any quantity of restricted dates held by him shall give the committee the following reports:

(a) Prior to the date of planned disposition, a notice of intention to dispose.

(b) Upon completion of disposition, a notice, including pertinent data, of the completion of disposition.

§ 1003.65 *Other reports.* Upon request of the committee each handler shall furnish to it in such manner and at such times as it prescribes, such other information as will enable the committee to perform its duties and exercise its powers hereunder.

§ 1003.66 *Certification of reports.* All reports submitted to the committee as required in this part shall be certified to the United States Department of Agriculture and to the committee as to the completeness and correctness of the information therein.

§ 1003.67 *Confidential information.* All data or other information constituting a trade secret or disclosing a trade position or business condition shall be received by, and kept in the custody of, one or more designated employees of the committee and information which would reveal the circumstances of a single handler shall be disclosed to no person other than the Secretary.

§ 1003.68 *Verification of reports.* For the purpose of checking and verifying reports made by handlers to it, the committee, through its designated employees, shall have access to handler premises wherein dates are held and, at any time during reasonable business hours, shall be permitted to examine any dates held and any and all records with respect to dates held or disposed of by such handlers. Handlers shall furnish labor necessary to facilitate such examinations at no expense to the committee. All handlers shall maintain complete records on the handling, withholding and disposition of dates. Such records shall be retained by handlers for not less than two years subsequent to the termination of each crop year.

EXPENSES AND ASSESSMENTS

§ 1003.71 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each crop year for the maintenance and functioning of the committee and for such other purposes determined to be appropriate. The recommendation of the committee as to total expenses and allocation thereof for each crop year, together with all data supporting such recommendation, shall be submitted to the Secretary within a reasonable time after the marketing policy for each crop year is recommended. Expenses incurred prior to August 1, 1955 shall be paid from funds collected during the crop year beginning August 1, 1955.

§ 1003.72 *Assessments.* The Secretary shall fix rates of assessments for each crop year to be paid by each handler with respect to dates handled or certified for handling. At any time during or after a crop year the Secretary may increase such assessment rates to secure sufficient funds to cover the expenses authorized in § 1003.71. Any such increase shall apply to all dates handled during the crop year. The rate of assessment for the initial crop year is hereby established at fifteen (15) cents per hundredweight. The committee may accept the payments of assessments in advance and may borrow money in any amount not to exceed ten percent of the estimated expenses set forth in its budget for the then crop year. The assessment weight of pitted dates shall be determined by dividing the shipping weight by 0.90.

§ 1003.73 *Requirement for payment.* Each handler shall pay his pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred during each crop year. Each handler's share of such expenses shall be based on the ratio of the total quantity of dates handled or certified for handling by him to the total quantity of such dates handled or certified for handling by all handlers during each crop year.

§ 1003.74 *Refunds.* Excess funds held by the committee at the conclusion of a crop year may be used to defray expenses for no more than the ensuing four months and thereafter, within a reasonable time, the committee shall credit or, upon demand, refund the aforesaid excess to each handler on the basis of the ratio of the total amount paid by him to the total amount paid by all handlers.

MISCELLANEOUS PROVISIONS

§ 1003.77 *Personal liability.* No member or alternate member of the committee, or any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any other person for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, agent, or employee, except for acts of dishonesty, willful misconduct or gross negligence.

§ 1003.78 *Separability.* If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability of this part to any other person, circumstance, or thing shall not be affected thereby.

§ 1003.79 *Derogation.* Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 1003.80 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon its termination except with respect to acts done under and during its existence.

§ 1003.81 *Agents.* The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 1003.82 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions of this part, as well as any amendments hereto, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated or suspended in one of the ways hereinafter specified in this section.

(b) *Suspension or termination*—(1) *Failure to effectuate policy of act.* The Secretary shall terminate or suspend the operation of any or all of the provisions of this part, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(2) *When favored by growers.* The Secretary shall terminate the provisions of this part at the end of any crop year whenever he finds that such termination is favored by a majority of the growers of dates who, during that crop year, have been engaged in the production for market of dates in the area of production: *Provided,* That such majority have, during such period, produced for market more than 50 percent of the volume of such dates produced for market within said area; but such termination shall be effective only if announced on or before June 1 of the then current crop year.

(3) *If enabling legislation is terminated.* The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) *Proceedings after termination*—(1) *Designation of trustees.* Upon the termination of the provisions hereof, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee, of all funds and property then in the possession or under the control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) *Duties of trustees.* Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such persons full title and right to all funds, property, and claims vested in the committee or the joint trustees pursuant hereto.

(3) *Obligations of persons other than committee members and trustees.* Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said committee and upon the said joint trustees.

§ 1003.83 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination hereof or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not—

(a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued hereunder, or

(b) Release or extinguish any violation of this part or of any regulation issued hereunder, or

(c) Affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

§ 1003.84 *Amendments.* Amendments hereto may be proposed, from time to time, by any person or by the committee.

HANDLING OF DOMESTIC DATES PRODUCED OR PACKED IN LOS ANGELES AND RIVERSIDE COUNTIES OF CALIFORNIA

ORDER DIRECTING THAT A REFERENDUM BE CONDUCTED; DESIGNATING AGENTS TO CONDUCT SUCH REFERENDUM; AND DETERMINING THE REPRESENTATIVE PERIOD

Pursuant to the applicable provision of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the producers who, during the period August 1, 1954 through May 31, 1955 (which is hereby determined to be a representative period for the purpose of such referendum), were engaged in the production, for market, of Deglet Noor, Zahidi, or Khadrawi varities of dates produced or packed in Los Angeles and Riverside Counties of California, to determine whether such producers approve or favor the issuance of an order regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California, which order is annexed to the decision of the Secretary of Agriculture filed simultaneously herewith.[1]

W. C. Noland, E. H. Bixby, J. C. Genske, and C. R. Sanders, of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated agents of the Secretary of Agriculture to conduct said referendum severally or jointly.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176; 19 F. R. 35).

Copies of the aforesaid annexed order, of the aforesaid referendum procedure, and of this order may be examined in the office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C.

Ballots and other necessary forms and instructions for use in the referendum and copies of the marketing order may be obtained from Warren C. Noland, Western Marketing Field Office, 1031 So. Broadway, Room 1005, Los Angeles 15, California.

HANDLING OF MILK IN NEW JERSEY

NOTICE OF PUBLIC MEETING

Various proposals have been received for new or revised Federal or joint Federal-State regulation of the handling of milk in the New York-New Jersey area, including those for a separate new milk marketing order for a marketing area comprising all or a portion of the State of New Jersey, and those to expand the presently regulated New York metropolitan milk marketing area to include Northern New Jersey and other adjacent urban territory.

Pursuant to § 900.3 of the rules of practice and procedure governing procedure to formulate marketing agreements and orders (7 CFR 900.3) notice is hereby given of a public meeting to be held at the Stacey-Trent Hotel in Trenton, New Jersey, beginning at 10:00 a. m., e. d. t., July 18, 1955, at which data, views or arguments may be presented concerning, and limited to, the question of what geographical area or areas within the State of New Jersey should be included for hearing in any notice or notices of hearing on such proposals which may be issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Such data, views and arguments shall be presented by means of statements not under oath. Cross examination, as such, shall not be permitted; but in the discretion of the presiding officer clarifying questions may be asked. Statistical tables, maps, charts, or other written exhibits shall be supplied in quadruplicate by the person offering the exhibit.

It is contemplated that appropriate proceedings will be subsequently conducted concerning other aspects of the various proposals submitted, including the questions of (1) whether there is additional territory, other than in New Jersey but within the same general vicinity, in which the handling of milk should be subject to Federal regulation, (2) how the additional area or areas should be regulated, that is, whether separately by means of one or more new marketing orders or in combination with presently regulated territory, or both, and (3) terms and provisions of new orders or amendments to existing orders, or both, relating to pricing, pooling, location differentials and related provisions.

Issued at Washington, D. C., this 15th day of June 1955.

NEW MEXICO SMALL TRACT CLASSIFICATION NO. 40, CORRECTED

JUNE 6, 1955.

Paragraphs 5 and 6 of New Mexico Small Tract Classification No. 40, dated May 13, 1955, F. R. Document 55-4048, 20 F. R. 3516, are hereby corrected to read as follows:

5. Leases will be issued for a term of three years and will contain an option to purchase in accordance with 43 CFR 257.13. The lands will be leased in tracts of approximately 2½ acres (330' x 330'). Advance rental for homesites shall be $60.00 for the 3-year period. An application to lease must be accompanied by the advance rental specified above plus a $10.00 filing fee.

6. Lessees who comply with the terms and conditions of their leases will be eligible to purchase their tracts at the appraised value of $400.00 per tract at any time during the life of the lease, provided that during such period they either (a) construct the hereinafter described improvements on the lands or (b) file two copies of a binding agreement among themselves in accordance with § 257.13 (d), Title 43, Code of Federal Regulations, to observe, in the development of the leased lands, standards of building, sanitation, and health requirements consistent with the terms of their leases. Lessees who participate in such agreement may exercise, at the discretion of the Bureau of Land Management, their option to purchase without prior compliance with the improvement requirements of their leases.

The minimum improvements which must (a) be constructed, or which (b) the lessees must enter into agreement among themselves to construct must meet the following standards:

1. They must conform to health, sanitation and construction requirements of local State laws and local governmental ordinances.

2. Improvements on homesites shall consist of a two bedroom house with a minimum of 800 square feet of floor space.

Leases issued hereunder will not be renewable in the absence of compliance with one of the above conditions (a) or (b) unless failure to comply is justified by circumstances and non-renewal would work an extreme hardship on the lessee. Applications to purchase a tract or to renew a lease thereon must be accompanied by a filing fee of $10.00.

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JUNE 7, 1955.

An application, serial number New Mexico 018969, for the withdrawal from all forms of appropriation under the public land laws, including the mining laws, but not the mineral-leasing laws, of the lands described below was filed on April 29, 1955, by the United States Department of Agriculture. The purposes of the proposed withdrawal: Campground and Recreation Areas (Supplemental).

For a period of thirty days from the date of publication of this notice, persons having cause to object to the pro-

posed withdrawal may present their objections in writing to the State Supervisor, Bureau of Land Management, Department of the Interior, at P. O. Box 1251, Santa Fe, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

DISASTER ASSISTANCE; DELINEATION AND CERTIFICATION OF CERTAIN COUNTIES IN THE DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress (42 U. S. C. 1855 et seq.), the President determined on July 21, 1954, that a major disaster occasioned by drought existed in the State of Texas.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148; 19 F. R. 5364), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, certain counties in the State of Texas were on August 10, 1954 (19 F. R. 5155), as amended (19 F. R. 5388; 19 F. R. 5957; 19 F. R. 6127; 19 F. R. 6417; 19 F. R. 6557; 19 F. R. 7547; 19 F. R. 8635; 20 F. R. 140; 20 F. R. 813; 20 F. R. 1384; 20 F. R. 3142 and 20 F. R. 3450) determined to be the areas affected by the major disaster by drought.

Pursuant to the aforesaid delegations, the delineation and certification of counties in the State of Texas as above described are herewith amended by adding the counties as set forth below on June 8, 1955, to the major disaster areas in the State of Texas.

REDERIAKTIEBOLAGET RAGNE AND REDERIAKTIEBOLAGET FERLEF ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to § 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 8036, between Rederiaktiebolaget Ragne and Rederiaktiebolaget Ferlef, provides for the establishment and maintenance of a joint cargo service (with limited passenger accommodations) under the trade name "Swedish Chicago Line" in the trade between Newfoundland ports, United States and Canadian ports on the Great Lakes, St. Lawrence River and adjacent waters (but not including transportation within the purview of the Coastwise laws of the United States) and Swedish, Norwegian, Danish, Finnish, Russian and other Baltic ports, and ports in England, Scotland, Wales and Ireland. This agreement will supersede and cancel Agreement No. 7665.

(2) Agreement No. 8250, between Ellerman & Papayanni Lines, Ltd., Compagnie de Navigation Cyprien Fabre, and Compagnie de Navigation Fraissinet, provides for the creation of a conference to be known as the American Great Lakes Mediterranean Eastbound Freight Conference, for the establishment and maintenance of rates, charges and practices for or in connection with the transportation of cargo in the eastbound trade from United States ports on the Great Lakes to Mediterranean, North African, and Iberian Peninsular ports, by direct call or transhipment.

(3) Agreement No. 8260, between Ellerman & Papayanni Lines, Ltd., Compagnie de Navigation Cyprien Fabre, and Compagnie de Navigation Fraissinet, provides for the creation of a conference to be known as The Mediterranean American Great Lakes Westbound Freight Conference, for the establishment and maintenance of rates, charges and practices for or in connection with the transportation of cargo in the westbound trade from Mediterranean, North African and Iberian Peninsular ports to United States ports on the Great Lakes, by direct call or transhipment.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 14, 1955.

Maritime Administration

ESSENTIALITY AND UNITED STATES FLAG SERVICE REQUIREMENTS OF TRADE ROUTE No. 25

CONCLUSIONS AND DETERMINATIONS

Notice is hereby given that on June 4, 1955, the Maritime Administrator, acting pursuant to section 211 of the Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of the following United States foreign trade route, and in accordance with his action of October 29, 1954, ordered that his conclusions and determinations with respect to said route be published in the FEDERAL REGISTER:

Trade Route No. 25—U. S. Pacific/West Coast Mexico, Central and South America. Between United States Pacific ports (Washington-California inclusive) and Pacific ports of Mexico, Central America, Panama, the Canal Zone and South America (Colombia, Ecuador, Peru and Chile).

1. The above-described Trade Route No. 25 is reaffirmed as an essential United States foreign trade route with no change in the United States or foreign areas heretofore served.

2. It is determined that requirements for adequate United States flag operation are approximately three sailings a month with freight vessels.

3. It is further determined that (a) the C-2 type freighters now operated on Trade Route No. 25 are suitable for operation thereon and six such ships are required to make approximately fortnightly sailings; and

(b) in addition, C-1 type freighters are suitable for operation between United States Pacific ports and ports on the West Coast of Mexico, Central America and South America not south of Buenaventura, Colombia, and three such ships are required to make approximately monthly sailings.

Any person, firm or corporation having any interest in the foregoing who desires to offer comments and views thereon, should submit same in writing to the Secretary, Maritime Administration, Department of Commerce, Washington 25, D. C., within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

Dated: June 15, 1955.

By order of the Maritime Administrator.

DEEP SOUTH BROADCASTING CO. (WSLA)

ORDER CONTINUING HEARING

In re application of Deep South Broadcasting Company (WSLA), Selma, Alabama, Docket No. 11371, File No. BMPCT-2100; for modification of construction permit.

The Hearing Examiner having under consideration: (1) The continuance of the hearing; and (2) an agreement among counsel relating to the appearance of certain witnesses now under subpoena;

It appearing that the hearing is currently scheduled to commence on June 16, 1955, that a number of petitions for intervention and for enlarging the issues are pending before the full Commission and the action taken upon such petitions will substantially affect the course and length of the hearing; so that, in the Hearing Examiner's opinion, any attempt to go forward with the scheduled hearing prior to such action on the petitions would be inadvisable; and

It further appearing that an informal conference was held on June 9, 1955, at which counsel appeared on behalf of the applicant, the Broadcast Bureau, and the several parties who are seeking to intervene, and in the course of this conference an agreeement was reached among the attorney concerned to the effect that the following witnesses, now under subpoena, will appear voluntarily:

Lieutenant Colonel John D. Harris, Jr., Room BF-941-C, The Pentagon.
Commander Myrton T. Ebright, Room 5-E-581, The Pentagon.
Lieutenant Colonel James B. Gregorie, Jr., Room 2-E-661, The Pentagon.
Roger G. Flynn, Air Transport Association of America, 1107 16th Street NW., Washington, D. C.

It further appearing that counsel for the applicant has consented, in the light of the foregoing agreement, to the quashing to the subpoenas which he previously requested; and

It further appearing that the date of June 28, 1955, would be the most feasible on which to commence the proceeding and would best accommodate the needs and schedules of all parties and the Hearing Examiner;

It is ordered, This 13th day of June 1955, that the date for commencing the hearing is continued from June 16 to June 28, 1955, at 10:00 a. m. in Washington, D. C.; and

It is further ordered, That the subpoenas heretofore issued to the persons named above are quashed pursuant to

the above-recited agreement among counsel.

SECURITIES AND EXCHANGE COMMISSION

[File No. 50-45]

UNION ELECTRIC COMPANY OF MISSOURI

ORDER GRANTING EXEMPTION REGARDING DISSOLUTION OF NORTH AMERICAN LIGHT & POWER COMPANY

JUNE 14, 1955.

Union Electric Company of Missouri ("Union Electric"), a registered holding company and a public utility company, has filed an application pursuant to Rule U-100 (a) of the general rules and regulations promulgated under the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transaction:

Pursuant to a plan for the dissolution of The North American Company ("North American"), and an Order of the Commission dated October 31, 1952, approving said Plan, Union Electric on February 10, 1955, acquired all of the outstanding capital stock of North American Light & Power Company ("Light & Power"), consisting of 5,327,067 shares of common stock of the par value of $1 per share. Said Order of October 31, 1952, provided inter alia that, within six months from the date of acquisition, Union Electric should dispose of all securities or other interest in Light & Power, or the securities or properties owned by said company, other than cash or its equivalent, as Union Electric might acquire from North American. Light & Power's properties and assets now consist solely of cash in the amount of $64,568 and a claim for refund of Federal income taxes pending in the United States District Court for the District of Delaware.

Union Electric, as the sole stockholder of Light & Power, has also filed a Notice pursuant to Rule U-44 (c) of its intention to file in the office of the Secretary of State of the State of Delaware on or about June 10, 1955, a consent in writing to the dissolution of Light & Power pursuant to section 275 (d) of the General Corporation Law of the State of Delaware. Upon such dissolution, Light & Power will distribute to Union Electric all of its remaining assets (after payment of such fees and taxes as may be required in connection with such dissolution), and Union Electric will surrender to Light & Power for cancellation the certificates for said 5,327,067 shares of common stock of Light & Power.

It appearing to the Commission that the dissolution of Light & Power is, or may be, subject to the provisions of Rules U-42 and U-43; it also appearing that the dissolution of Light & Power will not be detrimental to the public interest or the interests of investors and consumers; and the Commission finding that it is not necessary or appropriate in the public interest or the interests of investors or consumers that the dissolution of Light & Power be subject to the requirements of Rules U-42 and U-43:

It is ordered, Pursuant to the provisions of Rule U-100 (a), that the dissolution of Light & Power be, and the same hereby is, exempted from the provisions of Rules U-42 and U-43.

By the Commission.

MISSION OIL CO. ET AL.

NOTICE OF FILING OF APPLICATION FOR FURTHER EXTENSION OF TIME FOR DISPOSITION BY SINCLAIR OIL CORPORATION OF COMMON STOCK OF SUBSIDIARY

JUNE 14, 1955.

In the matter of the Mission Oil Company Southwestern Development Company and subsidiaries, and Sinclair Oil Corporation; File Nos. 54-196 and 59-97. In the matter of Albert R. Jones, et al., File No. 70-2681.

Notice is hereby given that Sinclair Oil Corporation ("Sinclair"), a registered holding company which is exempt from the provisions of the Public Utility Holding Company Act of 1935 ("act"), except sections 9 (a) (2) and 11 (b), (c), and (e) thereof, has filed with this Commission, pursuant to the act, an application requesting the Commission to extend for a further period of six months from June 21, 1955, the time within which to effect a disposition of its holdings of the common stock of Westpan Hydrocarbon Company ("Westpan"), which disposition was provided for in a plan approved by the Commission, pursuant to section 11 (e) of the act, by order dated December 21, 1951 (Holding Company Act Release No. 10969), as modified and supplemented by the Commission's order of December 24, 1953 (Holding Company Act Release No. 12277).

The plan provided, among other things, for the disposition by Sinclair within one year from December 21, 1951, "or such longer time as the Commission may by further order grant," of the common stock of Westpan, a non-utility subsidiary of Southwestern Development Company, a registered holding company, received by Sinclair under the provisions of the plan.

The Commission, by orders dated December 24, 1952, July 1, 1953, January 22, 1954, June 24, 1954, and December 21, 1954 (Holding Company Act Release Nos. 11640, 12030, 12319, 12562, and 12754) extended until June 21, 1955 the time within which Sinclair might dispose of the common stock of Westpan.

In connection with the extension of time granted by the order of December 21, 1954, Sinclair stated that if it had not received an acceptable offer for the Westpan stock on or prior to March 31, 1955, it was its intention to request, on or about April 1, 1955, all persons who appeared to be interested in purchasing such stock to submit, not later than April 15, 1955, an offer to purchase the stock.

On May 4, 1955, Sinclair filed with the Commission, pursuant to Rule U-44 (c) promulgated under the act, a notice of intention to sell its holdings of the common stock of Westpan to Jalco, Inc., a non-affiliate of both Westpan and Sinclair, for $12 per share in cash, or a total of $4,618,330.32, plus an undetermined contingent additional amount of not to exceed $2.50 per share, all in accordance with the terms of a contract between Sinclair and Jalco, Inc., dated March 31, 1955. Subsequently, Sinclair supplemented the notification by filing additional material in respect thereof. On June 6, 1955, the Commission advised Sinclair, pursuant to Rule U-44 (c), that it would not require the filing of a declaration in respect of the proposed sale of the Westpan common stock.

Under the contract Jalco, Inc.'s, obligation to purchase the Westpan common stock is conditioned upon, among other things, (a) the consummation of the liquidation of Westpan through the sale of its assets, pursuant to a plan, to be approved by the holders of not less than 75 percent of the total number of outstanding shares of Westpan, for an aggregate price which will net to all stockholders a cash distribution of not less than $12 per share, together with an additional contingent distribution of not to exceed $2.50 per share payable under the same contingencies as those provided in the contract for the payment of such possible additional amount to Sinclair, and (b) favorable rulings from the Internal Revenue Service in respect of the tax consequences of the proposed transactions. The liquidation of Westpan is to be consummated within twelve (12) months from the date of the adoption by the stockholders of the plan therefor. The contract also provides for a closing date not later than December 15, 1955, subject to the right of Sinclair to designate a new closing date in the event the plan for the liquidation of Westpan has been adopted but the sale of substantially all of its assets upon the terms and for the aggregate price indicated has not been consummated by November 15, 1955.

In support of its application for a further extension of time, Sinclair states that in the exercise of due diligence (including repeated and extensive publication of the fact that its holdings of Westpan's common stock were for sale and numerous conferences and negotiations with persons who indicated an interest in purchasing the stock, all of which are fully disclosed in the various applications for extension of time within which to dispose of such stock and the various reports filed in compliance with the orders granting such extensions), it has been unable to dispose of the stock, and will be unable to do so prior to June 21, 1955, the time allowed by the order of December 21, 1954. Sinclair further states that it is confident it can fulfill the conditions of the contract with Jalco, Inc. and consummate the sale of its holdings of Westpan's common stock by December 21, 1955.

Notice is further given that any interested person may, not later than June 28, 1955, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held in respect of the application for a further extension of time within which Sinclair may dispose of its holdings of common stock of Westpan, stating the nature of his interest, the reason for such request and the issues of fact or law raised by the application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may grant the application, as filed or as amended, pursuant tc Rule U-23 of the rules and regulations promulgated under the act, or the Commission may take such other action as it deems appropriate.

By the Commission.

ENGINEERS PUBLIC SERVICE CO. ET AL.

SUPPLEMENTAL ORDER APPROVING PAYMENT OF ADDITIONAL FEES

JUNE 14, 1955.

In the matter of Engineers Public Service Company, File No. 54-132; El Paso Electric Company, File No. 70-1149; Gulf States Utilities Company, File No. 70-1150; Virginia Electric and Power Company, File No. 70-1419.

The Commission by its Findings, Opinion and Order dated March 26, 1952 (Holding Company Act Release No. 11096), having directed, among other things, the payment by Engineers Public Service Company, then a registered holding company, to Guggenheimer & Untermyer of $5,000 and to Louis Boehm and Raymond L. Wise of $2,500 as counsel fees and reimbursement of such of the expenses of said applicants as were applicable to the services for which compensation was awarded and as agreed to be so by the applicants and the company; and

The United States District Court for the District of Delaware on February 16, 1954, having ordered and decreed, among other things, that the Commission amend its Findings, Opinion and Order of March 26, 1952, to direct Engineers Public Service Company to pay to said Guggenheimer & Untermyer and to said Louis Boehm and Raymond L. Wise the following amounts as counsel fees and reimbursements of expenses:

Name	Fees [1]	Disbursements [1]
Guggenheimer & Untermyer	$50,000	$7,031.89
Louis Boehm and Raymond L. Wise	35,892	1,220.67

[1] Less any amounts theretofore paid pursuant to the Commission's Order dated Mar. 26, 1952.

The United States Court of Appeals for the Third Circuit on April 5, 1955, having affirmed the said Order of the United States District Court for the District of Delaware insofar as it relates to the amounts to be paid to said Guggenheimer & Untermyer and to said Louis Boehm and Raymond L. Wise, and it appearing that no party to the appellate proceeding proposes to petition the United States Supreme Court to grant certiorari to the United States Court of Appeals for the Third Circuit to review the decision of that Court:

It is ordered, That the Commission's Findings, Opinion and Order dated March 26, 1952, be, and the same hereby are, amended so as to direct the payment by Engineers Public Service Company to Guggenheimer & Untermyer of $50,000 and to Louis Boehm and Raymond L. Wise of $35,892 as legal fees and reimbursement of expenses in the respective amounts of $7,031.89 and $1,220.67, less any amounts heretofore paid pursuant to the Commission's Order dated March 26, 1952.

It is further ordered, That the counsel fees and reimbursement of expenses hereinabove authorized are in complete and final allowance of all such compensation and reimbursement of such expenses, without prejudice, however, to whatever rights the applicants would otherwise have to make application hereafter for supplemental allowances of compensation and reimbursement of expenses covering services rendered and expenses incurred by said applicants subsequent to the filing in 1949 of their original applications; and the entry of this order shall not be deemed a waiver of any such rights of applicants.

NORTHERN PENNSYLVANIA POWER CO. AND GENERAL PUBLIC UTILITIES CORP.

ORDER AUTHORIZING CASH CAPITAL CONTRIBUTIONS FROM PARENT REGISTERED HOLDING COMPANY TO SUBSIDIARY PUBLIC UTILITY COMPANY AND ISSUANCE AND SALE BY SUBSIDIARY COMPANY OF UNSECURED PROMISSORY NOTE OR NOTES TO COMMERCIAL BANKS

JUNE 14, 1955.

General Public Utilities Corporation ("GPU"), a registered holding company, and its subsidiary, Northern Pennsylvania Power Company ("North Penn"), a public utility company, have made a joint filing with this Commission pursuant to sections 6 (a), 7, and 12 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-45 promulgated thereunder, in respect of the following transactions:

GPU proposes to make cash capital contributions in an aggregate amount not to exceed $850,000 to North Penn, these capital contributions to be made from time to time, but not later than December 31, 1955, as North Penn requires funds for construction purposes or to reimburse its treasury for expenditures made therefrom for construction purposes or to repay bank loans utilized for such purposes. Each contribution upon receipt by North Penn will be credited by North Penn to stated capital applicable to its common stock.

North Penn proposes to issue and sell to one or more commercial banks its unsecured promissory note or notes in the aggregate principal amount outstanding at any one time of not to exceed $2,000,000.

This note or these notes may be issued from time to time but no note will be issued after December 31, 1955. Each note will mature by its terms not more than nine months after the date of issuance and will bear interest at the prime rate for commercial borrowings prevailing at the time each note is issued. The proceeds from this financing are to be used by North Penn to repay its unsecured short-term promissory note outstanding in the amount of $2,000,000 maturing September 29, 1955, and/or to pay for construction costs and/or to reimburse North Penn's treasury in part for expenditures therefrom for construction purposes and/or to repay other notes issued pursuant to this declaration.

There is pending before this Commission a proceeding concerned with a proposed merger of North Penn into Pennsylvania Electric Company, an associate company of North Penn (File No. 70-3050). GPU stipulated and agreed in the instant filing that favorable disposition by this Commission of the proposed

capital contributions by it to North Penn and the proposed note financing by North Penn will carry no implication favorable or unfavorable with respect to the disposition of the merger proceedings. The filing represents that North Penn has been deferring the issuance of long-term debt to provide for its construction program pending disposition of the merger proceedings.

The fees and expenses to be paid by GPU, including legal fees, in this matter will not exceed $750 and North Penn's expenses, including legal fees, will not exceed $300.

No State commission or Federal commission other than the Securities and Exchange Commission has jurisdiction in respect of the proposed transactions.

GPU and North Penn have requested that the Commission's order herein become effective forthwith upon issuance.

Due notice having been given of the filing of said joint declaration and a hearing not having been requested of or ordered by the Commission; the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied, and deeming it appropriate, in the public interest and in the interest of investors and consumers, that said declaration, as amended, be permitted to become effective forthwith:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint declaration, as amended, be and hereby is, permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

Secretary.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10615

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN CERTAIN CARRIERS REPRESENTED BY THE EASTERN, WESTERN, AND SOUTHEASTERN CARRIERS' CONFERENCE COMMITTEES AND CERTAIN OF THEIR EMPLOYEES

WHEREAS a dispute exists between certain carriers represented by the Eastern, Western, and Southeastern Carriers' Conference Committees which are designated in List A attached hereto and made a part hereof, and certain of their employees represented by the Brotherhood of Locomotive Firemen and Enginemen, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of employees or any carrier.

The board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by any of the carriers involved or their employees in the conditions out of which the said dispute arose.

RULES AND REGULATIONS

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21–117]

PART 71—WAXED PAPER INDUSTRY

ORDER RESCINDING RULES

Whereas, on January 25, 1932, the Commission promulgated trade practice rules for the Waxed Paper Industry, which were codified in the Code of Federal Regulations (16 CFR Part 71); and

Whereas, it appears that said rules for this industry do not in some respects accurately reflect existing requirements of law, and members of this industry generally are not interested in having such rules revised; and

Whereas, under the circumstances proceedings for revision of the rules for this industry do not appear to be warranted;

It is ordered, That the said rules be and the same are hereby rescinded.

Issued: June 16, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

MISCELLANEOUS AMENDMENTS

1. Section 373.49 *Machinery and parts*, paragraph (c) *Tools incorporating diamonds* is amended in the following particulars:

Subdivision (iii) of subparagraph (3) *Application requirements* is amended to read as follows:

(iii) License applications to export diamond grinding wheels, sticks, hones, and laps, Schedule B No. 540905, must state the quantity and the approximate carat weight of the diamond content of each commodity; and

2. Section 373.65 *Ultimate consignee and purchaser statements*, paragraph (a) *Scope* is amended in the following particulars:

A footnote symbol is added following the last word of subdivision (ii) of subparagraph (3) *Multiple transaction statement from ultimate consignee* and following the last word of subdivision (i) of subparagraph (4) *Alternative for multiple transaction statement* and a footnote relating thereto is added to read as follows:

Multiple transaction consignee and purchaser statements or certifications as provided in § 373.65 (a) (4), on file with the Bureau of Foreign Commerce and in accordance with the export control regulations on June 9, 1955, are automatically extended from the date appearing in Item 4 of Form IT– or FC–843 or Item 3 of the certification, until December 30, 1955. A supplemental statement must be submitted, however, disclosing any change of facts or intention, as provided in Item 13 of Form IT– or FC–843 or Items 4 and 5 of the certification. This

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Size measuring machines and instruments, n. e. c., and specially fabricated parts, n. e. c.:				
766993	Instruments or devices capable of controlling dimensions during processing of a rolled metal product, and specially fabricated parts, n. e. c.[1]	----------	TOOL	250	RO
	Chemical and pharmaceutical processing and manufacturing machines, n. e. c., and specially fabricated parts, n. e. c. (report spinning pumps in 750850; report furnaces under appropriate Schedule B number according to type of furnace, e. g., electric melting and refining furnaces for the production of chemicals, 707415):				
775055	Vessels, towers, and columns having any of the following characteristics: (a) Any reactor vessel using a catalyst; (b) towers or columns utilizing fractionating trays and bubble caps; (c) vessels or towers containing alloy steel of one percent or more chrome and one-half percent or more molybdenum and/or nickel; and (d) vessels or towers designed to operate at pressures of 360 p. s. i. or over.[1]	----------	GIEQ 1	250	RO
	Nonelectric industrial furnaces, kilns, lehrs and ovens, and parts (report electric furnaces, kilns and ovens in 707415-707492):				
775100	Smelting and refining furnaces designed to operate at pressures lower than 0.1 mm of mercury and at temperatures higher than 1,100° C.[1] [3]	No.	MINE 5	None	RO
775100	Smelting and refining furnaces designed to operate under a controlled atmosphere of inert gas at temperatures higher than 1,100° C.[1] [3]	No.	MINE 5	None	RO
	Processing vessels, nonmixing n. e. c., and specially fabricated accessories and parts, n. e. c. (specify by name):				
775330	Vessels, towers, and columns having any of the following characteristics, and specially fabricated parts therefor: (a) Any reactor vessel using a catalyst; (b) towers or columns utilizing fractionating trays and bubble caps; (c) vessels or towers containing alloy steel of one percent or more chrome and one-half percent or more molybdenum and/or nickel; and (d) vessels or towers designed to operate at pressures of 360 p. s. i. or over.[1]	----------	GIEQ 1	250	RO

See footnotes at end of table.

[1] This amendment was published in Current Export Bulletin No. 751, dated June 9, 1955.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Separators and collectors, industrial process type, n. e. c., and specially fabricated accessories and parts, n. e. c. (specify by name) (report ore and coal separating machines in 730750; and electrostatic precipitators, precipitron type, in 770790):				
775360	Drum filters, and specially fabricated parts, n. e. c.[1]	----------	GIEQ 1	250	RO
775360	Dewaxing chillers, and specially fabricated parts, n. e. c.[1]	----------	GIEQ 1	250	RO
775360	Oil and gas separators, and specially fabricated parts, n. e. c.[1]	----------	GIEQ 1	250	RO
775360	Cyclone separators, and specially fabricated parts, n. e. c.[1]	----------	GIEQ 1	250	RO

[1] This commodity is subject to the IC/DV procedure (see § 373.2 of this subpart), effective July 25, 1955.
[3] This commodity is excepted from the provisions of General License GIT (see § 371.9 (c) of this subpart), effective July 9, 1955.

This part of the amendment shall become effective as of 12:01 a. m., June 16, 1955.

2. The following commodities are deleted:

Dept. of Commerce Schedule B No.	Commodity
707492	Electric industrial heating units and devices, n. e. c., and specially fabricated parts, n. e. c. (specify by name): Dielectric dryers.
916025	Map reproduction equipment; stereoscopic plotting; and photo interpretation equipment.
916025	Parts, n. e. c., specially fabricated for map reproduction equipment, stereoscopic plotting equipment, and photo interpretation equipment.

This part of the amendment shall become effective as of 12:01 a. m., June 9, 1955.

3. The revised entries set forth below are substituted for entries presently on the Positive List. Where the Positive List contains more than one entry under a Schedule B number, the entry to be superseded is identified by a numerical reference in parenthesis following the commodity description in the revised entry:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required

[1] The GLV dollar-value limit is increased.
[2] The GLV dollar-value limit is decreased, effective June 16, 1955.
[3] The processing code is changed or related commodity group number is changed (see § 372.5 (f)).
[4] The letter "A" is added in the column headed "Commodity Lists," indicating that the commodity is subject to the IC/DV procedure (see § 373.2), effective July 25, 1955.
[5] The letter "B" is added in the column headed "Commodity Lists," indicating that the commodity is subject to DL restrictions (see § 374.2), and is excepted from the Time Limit licensing procedure (see Part 377), effective July 9, 1955.
[6] The letter "D" is deleted in the column headed "Commodity Lists," indicating that the commodity is no longer subject to DL restrictions (see § 374.2), and is no longer excepted from the Time Limit licensing procedure (see Part 377).
[7] The letter "C" is deleted in the column headed "Commodity Lists," indicating that the commodity may now be exported under General License GIT (see § 371.9 (c)).
[8] The letter "E" is deleted in the column headed "Commodity Lists," indicating that the commodity may no longer be exported under the Periodic Requirements licensing procedure (see Part 376), effective July 9, 1955.
[9] The letter "I" is deleted in the column headed "Commodity Lists," indicating that the commodity may no longer be exported under the Foreign Distribution licensing procedure (see Part 378), effective July 9, 1955.
[10] The letter "G" is deleted in the column headed "Commodity Lists," indicating that the commodity may be exported to Group O destinations under General License GLV within the $500 dollar-value limit (see § 371.10 (c)).
[11] The destination control is changed from R to RO, effective June 16, 1955.
[12] The commodity description is revised without substantive change.
[13] The unit of quantity is changed.
[14] The commodity coverage is decreased.
[15] The necessity for specifying the grit size of contained diamonds is eliminated.
[16] The term "for use exclusively" eliminates the necessity of listing excepted general purpose parts.
[17] Specifically fabricated parts, n. e. c., are added, effective June 16, 1955.
[18] The entries are revised to describe the commodity from the physical standpoint rather than from the end-use standpoint.

This part of the amendment shall become effective as of June 9, 1955, unless otherwise indicated in the footnotes.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth in Parts 1 and 3 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., June 16, 1955, may be exported under the previous general license provisions up to and including July 9, 1955. Any such shipment not laden aboard the exporting carrier on or before July 9, 1955, requires a validated license for export.

REVISION OF PART

Correction

In F. R. Document 55-3866, appearing in the issue for Saturday, May 14, 1955, at page 3302, insert the following as the reference to footnote 1 appearing in line 4 following the word "location" in § 505.3 (b):

[1] Section 503 (a) (3) of the Civil Aeronautics Act of 1938, as amended, specifies the document evidencing the encumbrance need only describe generally by types the items and designate the location or locations thereof. Even if the items by serial number are listed in the original documents, they are not indexed in that manner on the records of the Administrative and Records Branch. Therefore, only a document evidencing the release of all of the collateral by location or locations may be recorded.

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 130—OPERATION AND MAINTENANCE CHARGES

CROW INDIAN IRRIGATION PROJECT, MONTANA

JUNE 10, 1955.

On May 12, 1955, there was published in the daily issue of the FEDERAL REGISTER, pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (Pub. Law. 404, 79th Cong., 60 Stat. 238), and authority contained in the acts of Congress approved August 1, 1914; May 18, 1916; and March 7, 1928 (38 Stat. 583, 25 U. S. C. 385; 39 Stat. 142; and 45 Stat. 210 U. S. C. 387), and by virtue of authority delegated by the Secretary of the Interior (Order No. 2508; 14 F. R. 258), and by virtue of authority delegated by the Commissioner of Indian Affairs to the Area Director (Bureau Order No. 551, Amendment No. 1; 16 F. R. 5454-7), notice of intention to modify §§ 130.13a, 130.13b, and 130.13c of Title 25, Code of Federal Regulations, dealing with irrigable lands of the Crow Indian Irrigation Project, Montana, that are subject to the jurisdiction of the several irrigation districts, as follows:

Charges applicable to all irrigable lands of the Crow Indian Irrigation Project that are included in the irrigation district organizations and are subject to the jurisdiction of the three irrigation districts.

Interested persons were thereby given opportunity to participate in preparing the modification by submitting data or written arguments within 30 days from the publication of the notice. No objections were submitted. Accordingly, §§ 130.13a, 130.13b, and 130.13c are modified as follows:

§ 130.13a *Big Horn Irrigation District, Crow Indian Reservation, Montana; charges.* Pursuant to a contract executed by the Big Horn Irrigation District, Crow Indian Irrigation Project, Montana, and approved by the Secretary of the Interior on June 28, 1948, notice is hereby given that an assessment of $2.50 per acre is hereby fixed for the season of 1956 and subsequent years until further notice, for the operation and maintenance of the irrigation systems which serve that portion of the project within the confines and under the jurisdiction of the Big Horn Irrigation District. This assessment is applicable to an area of approximately 7,582 acres; does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

§ 130.13b *Lower Little Horn and Lodge Grass Irrigation District, Crow Indian Reservation, Montana; charges.* (a) Pursuant to a contract executed by the Lower Little Horn and Lodge Grass Irrigation District, Crow Indian Irrigation Project, Montana, and approved by the Secretary of the Interior on June 28, 1948, notice is hereby given that an assessment of $2.50 per acre is hereby fixed for the season of 1956 and subsequent years until further notice, for the operation and maintenance of the irrigation systems which serve that portion of the project within the confines and under the jurisdiction of the Lower Little Horn and Lodge Grass Irrigation District. This assessment is applicable to an area of approximately 2,463 acres; does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

(b) Pursuant to a second contract executed by the above district and approved by the Assistant Secretary of the Interior on June 28, 1951, notice is hereby given that an assessment of ten cents ($0.10) per acre is hereby fixed for the season of 1956 and subsequent years until further notice, for the operation and maintenance of the Willow Creek storage works which serve storage water either directly or by substitution to that portion of the project within the confines and under the jurisdiction of the Lower Little Horn and Lodge Grass Irrigation District.

§ 130.13c *Upper Little Horn Irrigation District, Crow Indian Reservation, Montana; charges.* (a) Pursuant to a contract executed by the Upper Little Horn Irrigation District, Crow Indian Irrigation Project, Montana, and approved by the Secretary of the Interior on June 28, 1948, notice is hereby given that an assessment of $2.50 per acre is hereby fixed for the season of 1956 and subsequent years until further notice for the operation and maintenance of the irrigation systems which serve storage water either directly or by substitution to that portion of the project within the confines and under the jurisdiction of the Upper Little Horn Irrigation District. This assessment includes an area of approximately 1,461 acres; does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

(b) Pursuant to a second contract executed by the above district and approved by the Assistant Secretary of the Interior on June 28, 1951, notice is hereby given that an assessment of ten cents ($0.10) per acre is hereby fixed for the season of 1956 and subsequent years until further notice, for the operation and maintenance of the Willow Creek storage works which serve storage water either directly or by substitution to that portion of the project within the confines and under the jurisdiction of the Upper Little Horn Irrigation District.

(Sec. 1, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

The foregoing proposed amendments are to become effective for the irrigation season of 1956 and continue in effect thereafter until further notice.

J. M. COOPER,
Area Director.

Chapter XIV—The Renegotiation Board

Subchapter B—The Renegotiation Board Regulations Under the 1951 Act

PART 1451—SCOPE OF RENEGOTIATION BOARD REGULATIONS UNDER THE RENEGOTIATION ACT OF 1951, AND DEFINITIONS APPLICABLE THERETO

PART 1464—CONSOLIDATED RENEGOTIATION OF AFFILIATED GROUPS AND RELATED GROUPS

PART 1499—STATUTES, ORDERS AND DELEGATIONS

MISCELLANEOUS AMENDMENTS

1. Part 1451 is amended by adding a new § 1451.33 to read as follows:

§ 1451.33 *Internal Revenue Code.* The term "Internal Revenue Code", when used with reference to a specific section of the Internal Revenue Code of 1939, means such section or the corresponding section of the Internal Revenue Code of 1954, whichever is applicable. See Internal Revenue Code of 1954, section 7852 (b). Sections 1110, 1111, 1113, 1114, 1115 (a), 1116, 1117 (a), 1118, 1120, and 1121 of the Internal Revenue Code of 1939, relating to Tax Court procedure (see section 108 of the act), are superseded by sections 7451, 7453, 7455, 7456, 7457 (a), 7458, 7459 (a), 7460, 7461, and 7462 of the Internal Revenue Code of 1954 for all fiscal years. In all other respects, the provisions of the Internal Revenue Code of 1954 corresponding with the provisions of the Internal Revenue Code of 1939 cited in the act or in this part apply only to fiscal years beginning on or after January 1, 1954, and ending after August 16, 1954.

2. In § 1464.1, paragraph (b) *Definition of "affiliated group"* is amended in the following respects.

a. In subparagraph (1), the words "of 1939" are inserted after the words "Internal Revenue Code".

b. A new subparagraph (2) is added to read as follows:

(2) Section 1504 (a) of the Internal Revenue Code of 1954 (corresponding with section 141 (d) of the Internal Revenue Code of 1939 and incorporated in the act by the provisions of section 7852 (b) of the Internal Revenue Code of 1954) provides as follows:

(a) Definition of "affiliated group". As used in this chapter, the term "affiliated group" means one or more chains of includible corporations connected through stock ownership with a common parent corporation which is an includible corporation if—

(1) Stock possessing at least 80 percent of the voting power of all classes of stock and at least 80 percent of each class of the nonvoting stock of each of the includible corporations (except the common parent corporation) is owned directly by one or more of the other includible corporations; and

(2) The common parent corporation owns directly stock possessing at least 80 percent of the voting power of all classes of stock and at least 80 percent of each class of the nonvoting stock of at least one of the other includible corporations.

As used in this subsection, the term "stock" does not include nonvoting stock which is limited and preferred as to dividends.

c. Subparagraph (2) is renumbered subparagraph (3).

3. The heading of § 1499.10 is changed to read as follows: § 1499.10 *Section 101 (6), Internal Revenue Code of 1939 (corresponds with section 501 (c) (3), Internal Revenue Code of 1954).*

4. The heading of § 1499.11 is changed to read as follows: § 1499.11 *Section 422, Internal Revenue Code of 1939 (corresponds with section 512, Internal Revenue Code of 1954) unrelated business net income.*

5. The heading of § 1499.30 is changed to read as follows: § 1499.30 *Section 3806, Internal Revenue Code of 1939 (corresponds with section 1481, Internal Revenue Code of 1954).*

PART 1453—MANDATORY EXEMPTIONS FROM RENEGOTIATION

EXEMPTION OF COMMON CARRIERS BY WATER

In § 1453.3, paragraph (d) *Common carriers by water* is amended by deleting subparagraph (2) and inserting in lieu thereof the following:

(2) With respect to fiscal years ending on or after December 31, 1953, a contract with a common carrier for transportation by water is exempt if it meets the conditions set forth in subparagraph (1) of this paragraph or if the Board finds that the regulatory aspects of rates for the sale or furnishing of such transportation, or the type and nature of the contract for such furnishing or sale, are such as to indicate, in the opinion of the Board, that excessive profits are improbable. Pursuant to the foregoing authority, the Board has exempted from the provisions of the act, to the extent of amounts received or accrued before January 1, 1955, in any fiscal year ending on or after December 31, 1953:

(i) All prime contracts for transportation by common carrier by water at, or at rates below, rates or charges filed with, fixed, approved or regulated by the Federal Maritime Board.

(ii) All prime contracts with the Military Sea Transportation Service for transportation of cargo at rates or charges based upon the manifest measurement or weight of the cargo.

The Board will exempt any individual prime contract with a common carrier for transportation by water when the Board finds, upon application of the contractor, that the regulatory aspects of rates for the sale or furnishing of such transportation, or the type and nature of the contract for such furnishing or sale, are such as to indicate, in the opinion of the Board, that excessive profits are improbable. Any application for such a finding shall be filed with the Board not later than the date when the contractor files the financial statement prescribed in section 105 (e) (1) of the act (see § 1470.3 (a) of this subchapter) for the fiscal year in which the contractor received or accrued the amounts with respect to which the exemption is claimed. In any financial statement so filed, receipts or accruals under any contract with respect to which the Board is requested to make such a finding shall be included initially in computing the aggregate renegotiable receipts or accruals of the contractor for the fiscal year to which such statement relates.

AUTHORITY: §§ 51.1260 to 51.1280 issued under sec. 205, 60 Stat. 1090, 7 U. S. C. 1624.

GENERAL

§ 51.1260 *General.* These standards apply to varieties such as Bartlett, Hardy and other similar varieties.

GRADES

§ 51.1261 *U. S. No. 1.* "U. S. No. 1" consists of pears of one variety which are mature, but not overripe, carefully hand-picked, clean, fairly well formed, free from decay, internal breakdown, scald, freezing injury, worm holes, black end, and from damage caused by hard end, bruises, broken skins, russeting, limbrubs, hail, scars, drought spot, sunburn, sprayburn, stings or other insect injury, disease, or mechanical or other means. (See §§ 51.1265 and 51.1268.)

§ 51.1262 *U. S. Combination.* A Combination of U. S. No. 1 and U. S. No. 2 may be packed. When such a combination is packed, at least 50 percent of the pears in any container shall meet the requirements of U. S. No. 1. (See §§ 51.1265 and 51.1268.)

§ 51.1263 *U. S. No. 2.* "U. S. No. 2" consists of pears of one variety which are mature, but not overripe, carefully hand-picked, clean, not seriously misshapen, free from decay, internal breakdown, scald, freezing injury, worm holes, black end, and from damage caused by hard end, or broken skins. The pears shall also be free from serious damage caused by bruises, russeting, limbrubs, hail, scars, drought spot, sunburn, sprayburn, stings or other insect injury, diseases, or mechanical or other means. (See §§ 51.1265 and 51.1268.)

UNCLASSIFIED

§ 51.1264 *Unclassified.* "Unclassified" consists of pears which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no grade has been applied to the lot.

TOLERANCES

§ 51.1265 *Tolerances.* (a) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent of the pears in any lot may fail to meet the requirements of grade: *Provided,* That not more than 5 percent shall be seriously damaged by insects, and not more than 1 percent shall be allowed for decay or internal breakdown.

(b) When applying the foregoing tolerances to the combination grade no part of any tolerance shall be used to reduce the percentage of U. S. No. 1 pears required in the combination, but individual containers may have not more than 10 percent less than the percentage of U. S. No. 1 required: *Provided,* That the entire lot averages within the percentage specified.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[1] Notice of withdrawal published at 20 F. R. 2467.

APPLICATION OF TOLERANCES

§ 51.1266 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations, provided the averages for the entire lot are within the tolerances specified for the grade:

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one pear which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

(2) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects or off-size: *Provided,* That not more than four times the tolerance specified may be permitted in any package for pears which are seriously damaged by insects or affected by decay or internal breakdown except that at least one defective pear may be permitted in any package.

BASIS FOR CALCULATING PERCENTAGES

§ 51.1267 *Basis for calculating percentages.* (a) When the numerical count is marked on the container or when pears are packed in a container to weigh 5 pounds or less, percentages shall be calculated on the basis of count.

(b) When the minimum diameter or minimum and maximum diameters are marked on a container packed to weigh more than 5 pounds or when the pears are jumbled in a container packed to weigh more than 5 pounds, percentages shall be calculated on the basis of weight or an equivalent basis.

CONDITION AFTER STORAGE OR TRANSIT

§ 51.1268 *Condition after storage or transit.* Decay, scald, or other deterioration which may have developed on pears after they have been in storage or transit shall be considered as affecting condition and not grade.

STANDARD PACK

§ 51.1269 *Sizing.* (a) The numerical count, or the minimum size of the pears packed in closed containers shall be indicated on the package. The number of pears in the box shall not vary more than 3 from the number indicated on the box.

(b) When the numerical count is marked on western standard pear boxes the pears shall not vary more than three-eighths inch in their transverse diameter for counts 120 or less; one-fourth inch for counts 135 to 180, inclusive; and three-sixteenths inch for counts 193 or more.

(c) When the numerical count is marked on western standard half boxes or special half boxes packed three tiers deep, the pears shall not vary more than three-eighths inch for counts 75 or less; one-fourth inch for counts 80 to 110, inclusive; and three-sixteenths inch for counts 115 or more.

(d) When the numerical count is marked on western standard half boxes or special half boxes packed two tiers deep, the pears shall not vary more than three-eighths inch for counts 50 or less; one-fourth inch for counts 55 to 70, inclusive; and three-sixteenths inch for counts 80 or more.

(e) When the numerical count is not shown, the minimum size shall be plainly stamped, stenciled or otherwise marked on the container in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as 2½ inches minimum, 2¼ inches minimum, or 2⅝ inches minimum, in accordance with the facts. It is suggested that both minimum and maximum sizes be marked on the container, as 2¼ to 2¾ inches, 2½ to 3¾ inches, as such marking is especially desirable for pears marketed in the export trade.

(f) "Size" means the greatest transverse diameter of the pear taken at right angles to a line running from the stem to the blossom end.

§ 51.1270 *Packing.* (a) Each package shall be packed so that the pears in the shown face shall be reasonably representative in size and quality of the contents of the package.

(b) Pears packed in any container shall be tightly packed. All packages shall be well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(c) Pears packed in boxes shall be arranged in containers according to the approved and recognized methods with the pears packed lengthwise. A bridge shall not be allowed in any standard pack. When wrapped, each pear shall be fairly well enclosed by its individual wrapper.

(d) Pears packed in round stave bushel baskets, tubs or in barrels shall be ring faced.

§ 51.1271 *Tolerances for standard pack.* (a) In order to allow for variations incident to proper sizing, not more than 5 percent of the pears in any lot may fail to meet the size requirements: *Provided,* That when the maximum and minimum sizes are both stated, an additional 10 percent tolerance shall be allowed for pears which are larger than the maximum size stated.

(b) In order to allow for variations incident to proper packing, not more than 10 percent of the containers in any lot may fail to meet these requirements, but no part of this tolerance shall be allowed for bridge packs, or for packs with different sizes and arrangements such as layers of 195 size and arrangement, and layers of 180 size and arrangement packed in the same box.

DEFINITIONS

§ 51.1272 *Mature.* (a) "Mature" means that the pear has reached the stage of maturity which will insure the proper completion of the ripening process.

(b) Before a mature pear becomes overripe it will show varying degrees of firmness, depending upon the stage of the ripening process. Therefore, a statement of firmness should be given in order to indicate the stage of the ripening process. A description of the ground color should also be given.

(1) The following terms should be used for describing the ground color: "Green", "Light Green", "Yellowish Green", and "Yellow".

(2) The following terms should be used for describing the firmness of pears:

(i) "Hard" means that the flesh of the pear is solid and does not yield appreciably even to considerable pressure.

(ii) "Firm" means that the flesh of the pear is fairly solid but yields somewhat to moderate pressure.

(iii) "Firm ripe" means that the flesh of the pear yields readily to moderate pressure.

(iv) "Ripe" means that the pear is at the stage where it is in its most desirable condition for eating.

§ 51.1273 *Overripe.* "Overripe" means dead ripe, very mealy or soft, past commercial utility.

§ 51.1274 *Carefully hand-picked.* "Carefully hand-picked" means that the pears do not show evidence of rough handling or of having been on the ground.

§ 51.1275 *Clean.* "Clean" means free from excessive dirt, dust, spray residue or other foreign material.

§ 51.1276 *Black end.* "Black end" is evidenced by an abnormally deep green color around the calyx, or black spots usually occurring on the one-third of the surface nearest to the calyx, or by an abnormally shallow calyx cavity.

§ 51.1277 *Fairly well formed.* "Fairly well formed" means that the pear may be slightly abnormal in shape but not to an extent which detracts materially from the appearance of the fruit.

§ 51.1278 *Damage.* "Damage" means any injury or defect which materially affects the appearance, or the edible or shipping quality.

(a) Hard end shall be considered as damage if the pear shows a distinctly constricted protrusion at the blossom end, or an abnormally yellow color at the blossom end, or an abnormally smooth rounded base with little or no depression at the calyx, or if the flesh near the calyx is abnormally dry and tough or woody.

(b) Slight handling bruises and package bruises such as are incident to good commercial handling in the preparation of a tight pack shall not be considered damage.

(c) Any pear with one skin break larger than three-sixteenths inch in diameter or depth, or with more than one skin break one-eighth inch or larger in diameter or depth shall be considered damaged, and scored against the grade tolerance.[3]

(1) Small inconspicuous skin breaks, less than one-eighth inch in diameter or depth, shall not be considered damage. In addition, not more than 15 percent of the pears in any container may have not more than one skin break from one-eighth inch to three-sixteenths inch, inclusive, in diameter or depth.[3]

(d) Russeting which exceeds the following shall be considered as damage:

(1) On all varieties excessively rough russeting (russeting which shows "frogging" or slight cracking) when the aggregate area exceeds one-half inch in diameter.[3]

(2) On Bartlett and other smooth-skinned varieties, slightly rough russeting, or thick russeting such as is characteristic of frost injury, when the aggregate area exceeds three-fourths inch in diameter.[3]

(3) On Bartlett and other smooth-skinned varieties, smooth solid or smooth netlike russeting when the aggregate area exceeds 15 percent of the surface.

(4) On Hardy, Sand and other similar varieties, rough or thick russeting such as is characteristic of frost injury, when the aggregate area exceeds three-fourths inch in diameter. On any of these varieties any amount of characteristic russeting is permitted whether due to natural causes such as weather or stimulated by artificial means; leaf whips or light limbrubs which resemble and blend into russeted areas shall be considered as russet.[3]

(e) Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(1) Any limbrubs which are cracked, softened, or more than slightly depressed.

(2) Black discoloration caused by limbrubs, which exceeds an aggregate area of three-eighths inch in diameter.[3]

(3) Dark brown discoloration or excessive roughness caused by limbrubs which exceeds an aggregate area of one-half inch in diameter.[3]

(4) Slightly rough, light colored discoloration caused by limbrubs which exceeds an aggregate area of three-fourths inch in diameter.[3]

(5) Smooth, light colored discoloration caused by limbrubs which exceeds an aggregate area of 1 inch in diameter.[3]

(6) Hail marks or other similar depressions or scars which are not shallow or superficial, or where the injury affects an aggregate area of more than three-eighths inch in diameter.[3]

(7) Drought spot when more than one in number, or when the external injury exceeds an aggregate area of three-eighths inch in diameter, or when the appearance of the flesh is materially affected by corky tissue or brownish discoloration.[3]

(8) Sunburn or sprayburn where the skin is blistered, cracked, or shows any light tan or brownish color, or the shape of the pear is appreciably flattened, or the flesh is appreciably softened or changed in color, except that sprayburn of a russet character shall be considered under the definition of russeting.

(9) Insects:

(i) More than two healed codling moth stings, or any insect sting which is over three thirty-seconds of an inch in diameter, or other insect stings affecting the appearance to an equal extent.[3]

(ii) Blister mite or canker worm injury which is not shallow or superficial, or where the injury affects an aggregate area of more than three-eighths inch in diameter.[3]

(10) Disease:

(i) Scab spots which are black and which cover an aggregate area of more than one-fourth inch in diameter except that scab spots of a russet character shall be considered under the definition of russeting.

(ii) Sooty blotch which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than three-eighths inch in diameter.[3]

§ 51.1279 *Seriously misshapen.* "Seriously misshapen" means that the pear is excessively flattened or elongated for the variety, or is constricted or deformed so it will not cut three fairly uniform good quarters, or is so badly misshapen that the appearance is seriously affected.

§ 51.1280 *Serious damage.* "Serious damage" means any injury or defect which seriously affects the appearance, or the edible or shipping quality.

(a) Russeting which in the aggregate exceeds the following shall be considered as serious damage:

(1) On all varieties, excessively rough russeting (russeting which shows "frogging" or slight cracking) when the aggregate area exceeds three-fourths inch in diameter.[3]

(2) On all varieties, thick russeting such as is characteristic of frost injury, 15 percent of the surface.

(b) Any one of the following defects or combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(1) Limbrubs which are more than slightly cracked, or excessively rough limbrubs or dark brown or black discoloration caused by limbrubs which exceeds an aggregate area of three-fourths inch in diameter. Other limbrubs which affect an aggregate area of more than one-tenth of the surface.[3]

(2) Hail marks or other similar depressions or scars which affect an aggregate area of more than three-fourths inch in diameter, or which materially deform or disfigure the fruit.[3]

(3) Drought spot when more than two in number, or where the external injury affects an aggregate area of more than three-fourths inch in diameter, or when the appearance of the flesh is seriously affected by corky tissue or brownish discoloration.[3]

(4) Sunburn or sprayburn where the skin is blistered, cracked or shows any brownish color, or where the shape of the pear is materially flattened, or the flesh is softened or materially changed in color, except that sprayburn of a russet character shall be considered under the definition of russeting.

(5) Insects:

(i) Worm holes. More than three healed codling moth stings, of which not more than two may be over three thirty-seconds of an inch in diameter, or other insect stings affecting the appearance to an equal extent.[3]

(ii) Blister mite or canker worm injury which affects an aggregate area of more than three-fourths inch in diameter or which materially deforms or disfigures the fruit.[3]

(6) Disease:

(i) Scab spots which are black and which cover an aggregate area of more than one-half inch in diameter, except that scab spots of a russet character shall be considered under the definition of russeting.[3]

(ii) Sooty blotch which is thinly scattered over more than 15 percent of the surface, or dark, heavily concentrated spots which affect an area of more than three-fourths inch in diameter.[3]

[3] The area refers to that of a circle of the specified diameter.

WINTER PEARS[1]

U. S. STANDARDS

Notice is hereby given that the United States Department of Agriculture is considering the revision of United States Standards for Winter Pears (7 CFR Part 51; 18 F. R. 7120) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

AUTHORITY: §§ 51.1300 to 51.1323 issued under sec. 205, 60 Stat. 1090, 7 U. S. C. 1624.

GENERAL

§ 51.1300 *General.* These standards apply to varieties such as Anjou, Bosc, Winter Nelis, Comice, Flemish Beauty and other similar varieties.

GRADES

§ 51.1301 *U. S. Extra No. 1.* "U. S. Extra No. 1" consists of pears of one variety which are mature, but not overripe, carefully hand-picked, clean, well formed, free from decay, internal breakdown, scald, freezing injury, worm holes, black end, hard end, drought spot, and free from injury caused by russeting, limbrubs, hail, scars, cork spot, sunburn, sprayburn, stings or other insect injury, or mechanical or other means, except that they shall be free from damage caused by bruises, broken skins, or disease. (See §§ 51.1306 and 51.1309.)

§ 51.1302 *U. S. No. 1.* "U. S. No. 1" consists of pears of one variety which are mature, but not overripe, carefully hand-picked, clean, fairly well formed, free from decay, internal breakdown, scald, freezing injury, worm holes, black end, and from damage caused by hard end, bruises, broken skins, russeting, limbrubs, hail, scars, cork spot, drought spot, sunburn, sprayburn, stings or other insect injury, disease, or mechanical or other means. (See §§ 51.1306 and 51.1309.)

§ 51.1303 *U. S. Combination.* A Combination of U. S. No. 1 and U. S. No. 2 may be packed. When such a combination is packed, at least 50 percent of the pears in any container shall meet the requirements of U. S. No. 1. (See §§ 51.1306 and 51.1309.)

§ 51.1304 *U. S. No. 2.* "U. S. No. 2" consists of pears of one variety which are mature, but not overripe, carefully hand-picked, clean, not seriously misshapen, free from decay, internal breakdown, scald, freezing injury, worm holes, black end, and from damage caused by hard end, or broken skins. The pears shall also be free from serious damage caused by bruises, russeting, limbrubs, hail, scars, cork spot, drought spot, stings or other insect injury, disease, or mechanical or other means. (See §§ 51.1306 and 51.1309.)

UNCLASSIFIED

§ 51.1305 *Unclassified.* "Unclassified" consists of pears which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no grade has been applied to the lot.

TOLERANCES

§ 51.1306 *Tolerances.* (a) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent of the pears in any lot may fail to meet the requirements of grade: *Provided,* That not more than 5 percent shall be seriously damaged by insects, and not more than 1 percent shall be allowed for decay or internal breakdown.

(b) When applying the foregoing tolerances to the combination grade no part of any tolerance shall be used to reduce the percentage of U. S. No. 1 pears required in the combination, but individual containers may have not more than 10 percent less than the percentage of U. S. No. 1 required: *Provided,* That the entire lot averages within the percentage specified.

APPLICATION OF TOLERANCES

§ 51.1307 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations, provided the averages for the entire lot are within the tolerances specified for the grade:

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one pear which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

(2) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects or off-size: *Provided,* That not more than four times the tolerance specified may be permitted in any package for pears which are seriously damaged by insects or affected by decay or internal breakdown except that at least one defective pear may be permitted in any package.

BASIS FOR CALCULATING PERCENTAGES

§ 51.1308 *Basis for calculating percentages.* (a) When the numerical count is marked on the container or when pears are packed in a container to weigh 5 pounds or less, percentages shall be calculated on the basis of count.

(b) When the minimum diameter or minimum and maximum diameters are marked on a container packed to weigh more than 5 pounds or when the pears are jumbled in a container packed to weigh more than 5 pounds, percentages shall be calculated on the basis of weight or an equivalent basis.

CONDITION AFTER STORAGE OR TRANSIT

§ 51.1309 *Condition after storage or transit.* Decay, scald or other deterioration which may have developed on pears after they have been in storage or transit shall be considered as affecting condition and not the grade.

STANDARD PACK

§ 51.1310 *Sizing:* (a) The numerical count, or the minimum size of the pears packed in closed containers shall be indicated on the package. The number of pears in the box shall not vary more than 3 from the number indicated on the box.

(b) When the numerical count is marked on western standard pear boxes the pears shall not vary more than three-eighths inch in their transverse diameter for counts 120 or less; one-fourth inch for counts 135 to 180, inclusive; and three-sixteenths inch for counts 193 or more.

(c) When the numerical count is marked on western standard half boxes or special half boxes packed three tiers deep, the pears shall not vary more than three-eighths inch for counts 75 or less; one-fourth inch for counts 80 to 110, inclusive; and three-sixteenths inch for counts 115 or more.

(d) When the numerical count is marked on western standard half boxes or special half boxes packed two tiers deep, the pears shall not vary more than three-eighths inch for counts 50 or less; one-fourth inch for counts 55 to 70, inclusive; and three-sixteenths inch for counts 80 or more.

(e) When the numerical count is not shown, the minimum size shall be plainly stamped, stenciled or otherwise marked on the container in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as 2½ inches minimum, 2¼ inches minimum, or 2⅝ inches minimum, in accordance with the facts. It is suggested that both minimum and maximum sizes be marked on the container, as 2¼ to 2¾ inches, 2½ to 2¾ inches, as such marking is especially desirable for pears marketed in the export trade.

(f) "Size" means the greatest transverse diameter of the pear taken at right angles to a line running from the stem to the blossom end.

§ 51.1311 *Packing.* (a) Each package shall be packed so that the pears in the shown face shall be reasonably representative in size and quality of the contents of the package.

(b) Pears packed in any container shall be tightly packed. All packages shall be well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(c) Pears packed in boxes shall be arranged in containers according to the approved and recognized methods with the pears packed lengthwise. A bridge shall not be allowed in any standard pack. When wrapped, each pear shall be fairly well enclosed by its individual wrapper.

(d) Pears packed in round stave bushel baskets, tubs, or in barrels shall be ring faced.

§ 51.1312 *Tolerances for standard pack.* (a) In order to allow for variations incident to proper sizing, not more than 5 percent of the pears in any lot may fail to meet the size requirements: *Provided,* That when the maximum and minimum sizes are both stated, an additional 10 percent tolerance shall be allowed for pears which are larger than the maximum size stated.

(b) In order to allow for variations incident to proper packing, not more than 10 percent of the containers in any lot may fail to meet these requirements, but no part of this tolerance shall be allowed for bridge packs, or for packs with different sizes and arrangements such as layers of 195 size and arrangement, and layers of 180 size and arrangement packed in the same box.

DEFINITIONS

§ 51.1313 *Mature.* (a) "Mature" means that the pear has reached the stage of maturity which will insure the proper completion of the ripening process.

(b) Before a mature pear becomes overripe it will show varying degrees of firmness depending upon the stage of the ripening process. Therefore, a statement of firmness should be given in order to indicate the stage of the ripening process. A description of the ground color should also be given.

(1) The following terms should be used for describing the ground color: "Green", "Light Green", "Yellowish Green", and "Yellow".

(2) The following terms should be used for describing the firmness of pears:

(i) "Hard" means that the flesh of the pear is solid and does not yield appreciably even to considerable pressure.

(ii) "Firm" means that the flesh of the pear is fairly solid but yields somewhat to moderate pressure.

(iii) "Firm ripe" means that the flesh of the pear yields readily to moderate pressure.

(iv) "Ripe" means that the pear is at the stage where it is in its most desirable condition for eating.

§ 51.1314 *Overripe.* "Overripe" means dead ripe, very mealy or soft, past commercial utility.

§ 51.1315 *Carefully hand-picked.* "Carefully hand-picked" means that the pears do not show evidence of rough handling or of having been on the ground.

§ 51.1316 *Clean.* "Clean" means free from excessive dirt, dust, spray residue or other foreign material.

§ 51.1317 *Well formed.* "Well formed" means having the shape characteristic of the variety. Slight irregularities of shape from type which do not appreciably detract from the general appearance of the fruit shall be considered well formed.

§ 51.1318 *Black end.* "Black end" is evidenced by an abnormally deep green color around the calyx, or black spots usually occurring on the one-third of the surface nearest to the calyx, or by an abnormally shallow calyx cavity.

§ 51.1319 *Injury.* "Injury" means any blemish or defect, that more than slightly affects the appearance, or the edible or shipping quality. The following shall be considered as injury:

(a) Russeting which exceeds the following shall be considered as injury:

(1) On all varieties any excessively rough russeting (russeting which shows "frogging" or slight cracking).

(2) On Comice, and on Anjou and other smooth-skinned varieties, slightly rough russeting, or thick russeting, such as is characteristic of frost injury, when the aggregate area exceeds one-half inch in diameter.[3]

(3) On Anjou and other smooth-skinned varieties, smooth solid russeting when the aggregate area exceeds one-half inch in diameter and smooth netlike russeting when the aggregate area exceeds 15 percent of the surface, and on Comice, smooth solid or smooth netlike russeting when the aggregate area exceeds one-third of the surface, except that, in addition, on these and similar varieties, any amount of characteristic smooth russeting shall be permitted on that portion of the calyx end not visible for more than one-half inch along the contour of the pear, when it is placed calyx end down on a flat surface.[3]

(4) On any of the following and other similar varieties, rough or thick russeting such as is characteristic of frost injury when the aggregate area exceeds one-half inch in diameter.[3] On any of these varieties any amount of characteristic russeting is permitted whether due to natural causes such as weather or stimulated by artificial means; leaf whips or light limbrubs which resemble and blend into russeted areas shall be considered as russet:

Bosc.	Pound.
Clairgeau.	Seckel.
Easter Beurre.	Sheldon.
Flemish Beauty.	Winter Nelis, and other similar varieties.
Kieffer.	
P. Barry.	

(b) Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(1) Limbrubs which are cracked, softened, more than very slightly depressed, not light in color, or exceeding an aggregate area of three-fourths inch in diameter.[3]

(2) Hail marks or other similar depressions or scars which are not very shallow or superficial, or which affect an aggregate area of more than one-fourth inch in diameter.[3]

(3) Cork spot when a pear shows depressions or the flesh of the pear is more than slightly affected.

(4) Sunburn or sprayburn if the normal color of the fruit has been materially changed, or if the skin is blistered or cracked, or the flesh softened or discolored.

(5) More than two healed slight stings or depressions, or any stings which materially affect the general appearance of the fruit.

(6) Blister mite or canker worm injury which is not very shallow and superficial or where the injury affects an aggregate area of more than one-fourth inch.[3]

[3] The area refers to that of a circle of the specified diameter.

§ 51.1320 *Fairly well formed.* "Fairly well formed" means that the pear may be slightly abnormal in shape but not to an extent which detracts materially from the appearance of the fruit. Winter Nelis pears with characteristic slight sutures or with slight flattening on one side and/or other slight irregularities which do not materially detract from the general appearance of the pear shall be considered fairly well formed.

§ 51.1321 *Damage.* "Damage" means any injury or defect which materially affects the appearance, or the edible or shipping quality.

(a) Hard end shall be considered as damage if the pear shows an abnormally yellow color at the blossom end, or an abnormally smooth rounded base with little or no depression at the calyx, or if the flesh near the calyx is abnormally dry and tough or woody.

(b) Slight handling bruises and package bruises such as are incident to good commercial handling in the preparation of a tight pack shall not be considered damage.

(c) Any pear with one skin break larger than three-sixteenths inch in diameter or depth, or with more than one skin break one-eighth inch or larger in diameter or depth, shall be considered damaged, and scored against the grade tolerance.[3]

(1) Small inconspicuous skin breaks, less than one-eighth inch in diameter or depth, shall not be considered damage. In addition, not more than 15 percent of the pears in any container may have not more than one skin break for one-eighth inch to three-sixteenths inch, inclusive, in diameter or depth.[3]

(d) Russeting which exceeds the following shall be considered as damage:

(1) On all varieties excessively rough russeting (russeting which shows "frogging" or slight cracking) when the aggregate area exceeds one-half inch in diameter.[3]

(2) On Anjou and other smooth-skinned varieties, slightly rough russeting, or thick russeting such as is characteristic of frost injury, when the aggregate area exceeds three-fourths inch in diameter.[3]

(3) On Anjou, smooth solid or smooth netlike russeting when the aggregate area exceeds one-third of the surface, and on other smooth-skinned varieties, 15 percent of the surface, except that, in addition, on Anjou and other smooth-skinned varieties, any amount of characteristic smooth russeting shall be permitted on that portion of the calyx end not visible for more than one-half inch along the contour of the pear, when it is placed calyx end down on a flat surface.

(4) On any of the following and other similar varieties, rough or thick russeting such as is characteristic of frost injury, when the aggregate area exceeds three-fourths inch in diameter.[3] On any of these varieties any amount of characteristic russeting is permitted whether due to natural causes such as weather or stimulated by artificial means; leaf whips or light limbrubs which resemble and blend into russeted areas shall be considered as russet:

Bosc.
Clairgeau.
Comice.
Easter Beurre.
Flemish Beauty.
Kieffer.
P. Barry.
Pound.
Seckel.
Sheldon.
Winter Nelis, and other similar varieties.

(e) Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(1) Any limbrubs which are cracked, softened, or more than slightly depressed.

(2) Black discoloration caused by limbrubs which exceeds an eggregate area of three-eighths inch in diameter.[2]

(3) Dark brown discoloration or excessive roughness caused by limbrubs which exceeds an aggregate area of one-half inch in diameter.[2]

(4) Slightly rough, light colored discoloration caused by limbrubs which exceeds an aggregate area of three-fourths inch in diameter.[2]

(5) Smooth, light colored discoloration caused by limbrubs which exceeds an aggregate area of 1 inch in diameter.[2]

(6) Hail marks or other similar depressions or scars which are not shallow or superficial, or where the injury affects an aggregate area of more than three-eights inch in diameter.[2]

(7) Cork spots when more than one in number is visible externally or when the flesh is materially affected.

(8) Drought spot when more than one in number, or when the external injury exceeds an aggregate area of three-eighths inch in diameter, or when the appearance of the flesh is materially affected by corky tissue or brownish discoloration.[2]

(9) Sunburn or sprayburn where the skin is blistered, cracked, or shows any light tan or brownish color, or the shape of the pear is appreciably flattened, or the flesh is appreciably softened or changed in color, except that sprayburn of a russet character shall be considered under the definition of russeting.

(10) Insects:

(i) More than two healed codling moth stings, or any insect sting which is over three thirty-seconds of an inch in diameter, or other insect stings affecting the appearance to an equal extent.[2]

(ii) Blister mite or canker worm injury which is not shallow or superficial, or where the injury affects an aggregate area of more than three-eighths inch in diameter.[2]

(11) Disease:

(i) Scab spots which are black and which cover an aggregate area of more than one-fourth inch in diameter, except that scab spots of a russet character shall be considered under the definition of russeting.[2]

(ii) Sooty blotch which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than three-eighths inch in diameter.[2]

§ 51.1322 *Seriously misshapen.* "Seriously misshapen" means that the pear is excessively flattened or elongated for the variety, or is constricted or deformed so it will not cut three fairly uniform good quarters, or is so badly misshapen that the appearance is seriously affected.

§ 51.1323 *Serious damage.* "Serious damage" means any injury or defect which seriously affects the appearance, or the edible or shipping quality.

(a) Russeting which in the aggregate exceeds the following shall be considered as serious damage:

(1) On all varieties, excessively rough russeting (russeting which shows "frogging" or slight cracking) when the aggregate area exceeds three-fourths inch in diameter.[2]

(2) On all varieties, thick russeting such as is characteristic of frost injury, 15 percent of the surface.

(3) On Anjou, smooth solid or smooth netlike russeting when the aggregate area exceeds two-thirds of the surface, except that, in addition, any amount of characteristic smooth russeting shall be permitted on that portion of the calyx end not visible for more than one-half inch along the contour of the pear, when it is placed calyx end down on a flat surface. On Flemish Beauty smooth russeting shall be permitted on the entire surface.

(b) Any one of the following defects or combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(1) Limbrubs which are more than slightly cracked, or excessively rough limbrubs or dark brown or black discoloration caused by limbrubs which exceeds an aggregate area of three-fourths inch in diameter.[2]

(2) Other limbrubs which affect an aggregate area of more than one-tenth of the surface.

(3) Hail marks or other similar depressions or scars which affect an aggregate area of more than three-fourths inch in diameter, or which materially deform or disfigure the fruit.[2]

(4) Cork spot when more than two in number are visible externally or when the flesh is seriously affected.

(5) Drought spot when more than two in number, or where the external injury affects an aggregate area of more than three-fourths inch in diameter, or when the appearance of the flesh is seriously affected by corky tissue or brownish discoloration.[2]

(6) Sunburn or sprayburn where the skin is blistered, cracked or shows any brownish color, or where the shape of the pear is materially flattened, or the flesh is softened or materially changed in color, except that sprayburn of a russet character shall be considered under the definition of russeting.

(7) Insects:

(i) Worm holes. More than three healed codling moth stings, of which not more than two may be over three thirty-seconds of an inch in diameter, or other insect stings affecting the appearance to an equal extent.[2]

(ii) Blister mite or canker worm injury which affects an aggregate area of more than three-fourths inch in diameter or which materially deforms or disfigures the fruit.[2]

(8) Disease:

(i) Scab spots which are black, and which cover an aggregate area of more than one-half inch in diameter, except that scab spots of a russet character shall be considered under the definition of russeting.[2]

(ii) Sooty blotch which is thinly scattered over more than 15 percent of the surface, or dark heavily concentrated spots which affect an area of more than three-fourths inch in diameter.[2]

BEURRE HARDY PEARS GROWN IN CALIFORNIA

CONSIDERATION OF TERMINATION OF THE PROVISIONS OF MARKETING AGREEMENT NO. 87 AND ORDER NO. 38 REGULATING HANDLING

Notice is hereby given, in accordance with the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and section 4 of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001 et seq.), that consideration is being given to the proposed termination of Marketing Agreement No. 87 and Order No. 38 (7 CFR Part 938). The said marketing agreement and order, which became effective on June 20, 1939, have been inoperative since the 1941–42 season.

All persons who desire to submit written data, views, or arguments for consideration in connection with such proposed termination of the said marketing agreement and order should do so by filing the same in quadruplicate with the Director of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than 30 days after publication in the FEDERAL REGISTER.

Dated: June 16, 1955.

HANDLING OF AVOCADOS GROWN IN SOUTH FLORIDA

APPROVAL OF EXPENSES AND FIXING OF RATE OF ASSESSMENT

Consideration is being given to the following proposals by the Avocado Administrative Committee established under the Marketing Agreement and Order No. 69 (7 CFR Part 969; 19 F. R. 3439) regulating the handling of avocados grown in South Florida, effective June 11, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed $16,070.00 will be necessarily incurred by said committee during the fiscal year (April 1, 1955, through March 31, 1956) for its maintenance and functioning under the aforesaid marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expense which each handler who first handles avocados shall pay during the fiscal year in accordance with the aforesaid order, the rate of assessment of $0.04 per bushel, or equivalent quantity of avocados handled by such handler during such fiscal year.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

Dated: June 16, 1955.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 126]

CLASSIFICATION OF OPERATING CARRIERS BY RAILROAD (EXCEPT ELECTRIC RAILWAYS)

NOTICE OF PROPOSED RULE MAKING

JUNE 15, 1955.

The Commission, Division 1, having under consideration the classification of Operating Carriers by Railroad (except electric railways), effective by its Order of November 22, 1920, as amended March 22, 1937, has approved modification of such classification as follows:

(a) The minimum of class I line-haul and switching and terminal railroad companies be increased from $1,000,000 to $3,000,000.

(b) Classification of railroads be confined to two groups, namely, class I and class II, the latter to comprise those companies whose operating revenues are less than $3,000,000.

(c) Beginning with the calendar year 1956, the classification of operating railroads be based on the average annual operating revenue for the 3-year period ended with the calendar year 1955; and, subsequently, if at the close of any calendar year the average of the annual revenues for the latest 3-year period is greater or less than the amount applicable to the class in which the carrier has been reporting, its class for the second succeeding year shall be changed accordingly.

In applying the classification to any switching or terminal company which is operated as a joint facility of owning or tenant railways, the sum of the annual railway operating revenues, the joint facility rent income, and the returns to joint facility credit accounts in operating expenses, should be used in determining its class.

Any interested person may, on or before 30 days after the date of this notice, file with the Commission written views or arguments in quintuplicate to be considered in this connection, and may request oral argument thereon. Unless otherwise decided after consideration of representations received, an order will be entered making the modifications effective January 1, 1956.

[SEAL] HAROLD D. McCOY,
Secretary.

WISCONSIN

RESTORATION ORDER UNDER THE FEDERAL POWER ACT

JUNE 14, 1955.

Pursuant to a determination of April 28, 1955, of the Federal Power Commission, Docket Number DA–4–Wisconsin, and in accordance with Order No. 541, sections 1.5 (d) and 2.0 (a) of the Director of the Bureau of Land Management, approved April 21, 1954, it is ordered as follows:

Subject to valid existing rights, the following-described lands, so far as they are withdrawn or reserved for power purposes in Power Project No. 108, are hereby opened to disposition under the public-land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and subject to the proviso that such disposition shall be subject to the prior right of the Northern States Power Company, licensee for Project No. 108, its successors or assigns, to use the portions of the SW¼NW¼ lying within the flowage area of the Chippewa Reservoir of Project No. 108, for project purposes pursuant to the license therefor:

FOURTH PRINCIPAL MERIDIAN

T. 40 N., R. 7 W.,
Sec. 11, SW¼NW¼.

The area described aggregates 40 acres.

About two acres of the lands are covered by the waters of Lake Chippewa. The surface is rolling, consisting chiefly of sand hills and is unsuitable for farming. It supports a growth of aspen timber.

Effective on the date of publication of this order in the FEDERAL REGISTER, the public lands affected by this order shall be subject to application by the State of Wisconsin for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways pursuant to section 24 of the Federal Power Act, as amended (16 U. S. C. 1946 ed., Supp. V 818).

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 91st day after the date of publication. At that time, the said lands shall become subject to application, petition and selection, subject to valid existing rights, the provisions of existing withdrawals, and the 90-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file application for these lands may be obtained on request from the Supervisor, Eastern States Office, Bureau of Land Management, Washington 25, D. C.

C. R. DREXILIUS,
Supervisor.

ORGANIZATION AND FUNCTIONS

GENERAL ORGANIZATION

SECTION 101 *General statement.* The Public Health Service is one of the operating units of the Department of Health, Education, and Welfare (Reorg. Plan No. 1, 1953). It is administered under the Public Health Service Act (58 Stat. 682, 42 U. S. C. 201 et seq.), as amended, and, in addition to the functions assigned by that Act, it has responsibility for the administration of the Water Pollution Control Act (62 Stat. 1155, Public Law 845, 80th Cong.). The Public Health Service Act provides for a corps of commissioned officers, Regular and Reserve, who have the ranks and rates of pay similar to officers of the Armed Services. The Surgeon General is appointed from the Regular Corps for a four-year term by the President, by and with the advice and consent of the Senate, to administer the Service, under the supervision and direction of the Secretary of Health, Education, and Welfare. There is no limitation to his reappointment.

SEC. 102 *Organization.* As provided in the basic statute, the activities of the Service are organized in four bureaus: (a) The Office of the Surgeon General; (b) the Bureau of Medical Services; (c) the Bureau of State Services; and (d) the National Institutes of Health. The National Institutes of Health is administered as a part of the field service. The Surgeon General assigns functions, and establishes, abolishes, transfers, and consolidates divisions within the bureaus, with the approval of the Secretary of Health, Education, and Welfare. The Surgeon General assigns a commissioned officer from the Regular Corps to be the Deputy Surgeon General. The Deputy Surgeon General administers the Office of the Surgeon General, acts as Surgeon General during the absence or disability of the Surgeon General or in the event of a vacancy in that office, and performs such other duties as the Surgeon Gen-

eral may prescribe. The Surgeon General assigns several commissioned officers to serve as Assistant Surgeons General, in addition to their regular duties. One of the Assistant Surgeons General serves as Surgeon General in case of absence, disability, or vacancy in the offices of both the Surgeon General and the Deputy Surgeon General.

SEC. 103 *Major functions.* The Public Health Service is concerned with raising the health standards of individuals and communities. It assists the health authorities of States, local governments, and other agencies in advancing their health programs, supplies medical and hospital care to categories or groups of persons designated by Congress, and promotes better health through medical and public health research. The Service also provides training to overcome the scarcity of health workers in specialized fields, and participates on behalf of the United States in international health activities. The major functions of the Service are to:

(a) Determine needs for health personnel, facilities and methods, and the resources for meeting these needs;

(b) Operate institutions, hospitals, and stations to provide medical, surgical, and dental treatment for categories or groups of persons specified by Congress;

(c) Cooperate with States and assist them in solving health problems in the fields of narcotic drugs, communicable diseases, quarantine, and other health areas;

(d) Prepare comprehensive water pollution control programs to improve the sanitary conditions of surface and underground waters, and assist the States in such activities;

(e) Collect, prepare, and distribute data on mortality, morbidity, and other vital statistics;

(f) Conduct scientific research, investigations, experiments and demonstrations related to the cause, prevention, diagnosis, treatment, and control of the physical and mental diseases or impairments of man;

(g) Make grants-in-aid (1) to public or private institutions, or to individuals, for research in the physical and mental diseases; (2) to States and their political subdivisions for venereal disease control, tuberculosis control, mental health services, cancer control, heart disease control, and general health services; (3) to States and their political subdivisions, universities, hospitals, and other public or private nonprofit institutions for constructing public and non-profit hospitals, diagnostic and treatment centers, rehabilitation facilities, and nursing homes; and (4) to States for summarizing the need for and developing programs for the construction of chronic disease hospitals, diagnostic and treatment centers, rehabilitation facilities, and nursing homes;

(h) Promote the training of professional personnel in the sciences of public health and medicine. To this end, the Service (1) grants fellowships for research scientists from the United States; (2) provides stipends for individuals in State and local health work, and for physicians intending to become specialists in the diagnosis and treatment of cancer, heart diseases, mental health, neurological and sensory diseases, and arthritis and metabolic diseases; (3) trains personnel in work related to water pollution control; and (4) awards grants to approved institutions, including stipends, for the training of psychiatrists and others concerned with the care of mental patients, and for specialists in neurological and sensory diseases;

(i) Provide technical assistance through consultative services or loans of personnel to the States and to Federal agencies, and through issuance to the public of information related to public health;

(j) Participate in world health activities, in accordance with United States policies of international cooperation, by (1) operating health projects in foreign countries; (2) administering training programs for foreign health personnel; (3) representing the United States on the World Health Organization; and (4) collaborating in the development of health programs with the governments of other countries, with international organizations, with other government agencies, and with private national organizations and institutions concerned with health;

(k) Issue licenses to establishments, to manufacture for sale in interstate traffic certain products applicable to the prevention and treatment of diseases;

(l) Prescribe and enforce quarantine and sanitary regulations to prevent the introduction from abroad, and the spread in the United States or its possessions, of communicable diseases;

(m) Provide physical and mental examinations which may be required by immigration laws and for aliens seeking entry into the United States;

(n) Advise with respect to the disposal of Federal surplus property usable for the protection of public health and for health research;

(o) Conduct national health conferences whenever the interests of public health would be promoted by such meetings; and

(p) Develop special civil defense health measures for use in a civil defense emergency.

SEC. 104 *Location of offices.* The headquarters of the Public Health Service is located in Washington, D. C. The mailing address is Washington 25, D. C. The National Institutes of Health is located at Bethesda, Maryland. Its mailing address is Bethesda 14, Maryland. The Public Health Service maintains field stations in the continental United States and in its insular and territorial possessions. (See List of Field Installations, sections 161 through 165.)

SEC. 105 *Final opinions.* All final opinions, orders, and rules not limited in their application to matters of internal management, except those which the Surgeon General may for good cause hold confidential, are available for public inspection at headquarters or field installations. For those relating to biological products make application to the National Institutes of Health, Bethesda 14, Maryland; for all others, to the Public Health Service, Washington 25, D. C.

SEC. 106 *Disclosure of official records and information.* Official records of the Service are made available for public inspection in accordance with regulations of the Surgeon General (42 CFR 1.101 to 1.108). These regulations also specify the extent to which information in the possession of the Service shall be confidential and not disclosed except under the particular circumstances stated.

DELEGATIONS OF AUTHORITY

SEC. 107 *Delegations by the President.* The Secretary of Health, Education, and Welfare is authorized to exercise the powers of the President to: (a) Take final action in regard to certain personnel matters concerning commissioned officers; (b) to specify ports under section 366 (a) of the Public Health Service Act; and (c) to approve the selection of suitable sites for and the establishment of additional institutions, hospitals, stations, grounds, and anchorages, subject to approval by the Director, Bureau of the Budget, except as he may otherwise provide. (See E. O. 9993, Aug. 31, 1948, 13 F. R. 5093 and E. O. 10506, Dec. 10, 1953, 18 F. R. 8219.)

SEC. 108 *Delegations by the Secretary of Health, Education, and Welfare.* By direction of the Secretary of Health, Education, and Welfare, the Public Health Service, (a) supervises the Freedman's Hospital in the District of Columbia. This is a general hospital for the treatment of acute medical and surgical conditions and includes specialized clinics for out-patients. The hospital further provides internship and clinical experience for medical students and graduates of Howard University; (b) is authorized to perform all functions of the Secretary under the Water Pollution Control Act, as amended, together with any other function of the Administrator of General Services or of the General Services Administration as is incidental or necessary for the carrying out of the provisions of such act, except the functions included in section 8 (b) of such act; (c) performs the vital statistics functions (including statistics on births, deaths, marriages, divorces, and annulments); and (d) is authorized to negotiate, without advertising, under section 302 (c) (6), (7), and (9), of the Federal Property and Administrative Services Act of 1949, as amended, purchases and contracts for supplies and services required in connection with the conduct of physical examinations under the provisions of the Refugee Relief Act of 1953.

The Federal Civil Defense Administrator, with the approval of the President, has delegated to the Secretary certain emergency and pre-emergency civil defense responsibilities as contained in FCDA Delegation No. 1 (19 F. R. 4546). By Interim Department Order 8, dated August 9, 1954, the Secretary assigned certain of these responsibilities to the Public Health Service as follows: (a) Plan a national program, develop technical guidance for States, and direct Federal civil-defense activities concerned with research with respect to, and detection, identification, and control of: (1) Communicable diseases in humans, (2) biological warfare against humans, (3) chemical warfare against humans, and (4) other public health hazards; (b) plan, develop, and direct Federal activities concerned with a national program designed to provide Public Health Service reserve professional personnel from support areas to those damaged by enemy attack; (c) plan a national program, develop technical guidance for States and direct Federal activities concerned with the emergency restoration of community facilities essential to health or functional components thereof for which the Public Health Service normally has regular operating programs. Plan, develop, and distribute, through appropriate channels, technical guidance concerning the provision of shelter and other protective measures, designed to minimize injury to personnel and reduce damage to vital functional components of • • • hospitals and of water, sewer, and other public-health facilities.

SEC. 109 *Delegations by the Surgeon General.* (a) The Chief and Associate Chiefs of the Bureau of Medical Services, and the Chief and Assistant Chief of the Division of Hospitals; the Chief of the Bureau of State Services; and the Director of the National Institutes of Health and the Director of the Clinical Center, are authorized to determine, in the light of the need to assure the integrity and safety of the records or the efficient administration of the Service, the places at which clinical or nonclinical records may be made available for examination or copying, where their production is required other than before a court or an agency or other body having power to compel appearances before it (42 CFR 1.104).

(b) The Chief, Bureau of Medical Services; and the Chief and the Assistant Chief, Division of Foreign Quarantine, are authorized to issue permits for importation of psittacine birds for medical research purposes or for zoological parks in accordance with § 71.152 (b) (1) of the Public Health Service Regulations.

(c) The Chief, Bureau of Medical Services, and the Chief, Division of Foreign Quarantine, are authorized to convene boards of medical officers for reexamination of aliens, and to authorize medical officers in charge to convene such boards in accordance with § 34.14 of the Public Health Service Regulations.

(d) The Chief and the Assistant Chief of the Division of Foreign Quarantine, and the Chief of the Entomological Branch in that Division, are authorized to make findings as to the effectiveness of insecticides, under § 71.90 (f) of the Public Health Service Regulations.

(e) The Chief, Bureau of Medical Services, the Chief, Division of Hospitals, and the Medical Officers in Charge of Public Health Service hospitals, outpatient clinics, and outpatient offices are authorized to determine the extent to which funds, other than those authorized by the Public Health Service Act, are not available from other public or private funds for burial expenses for any patient dying in a hospital or station and to provide for payment to that extent, pursuant to section 321 of the Public Health Service Act, as amended. (42 U. S. C. A. 248).

(f) The Chief, Bureau of Medical Services, and the Medical Officers in Charge of the Public Health Service Hospitals at Lexington, Kentucky, and at Fort Worth, Texas, are authorized to examine and admit narcotic addict applicants to Public Health Service hospitals pursuant to section 344 (b) of the Public Health Service Act, as amended.

(g) The Chief, Division of Hospitals, is authorized to fix the rate to be charged voluntary patients for subsistence, care, and treatment for narcotic addiction, at Public Health Service hospitals, pursuant to section 344 of the Public Health Service Act, as amended (42 U. S. C. 260).

(h) The Chief, Bureau of Medical Services, and the Chief, Division of Hospitals, are authorized to exercise the powers of the Surgeon General to establish at Public Health Service hospitals, industries, plants, factories, or shops for the production or manufacture of articles, commodities and supplies for the United States Government, and to employ inmates of such hospitals, pursuant to section 342 of the Public Health Service Act, as amended (42 U. S. C. 358).

(i) The Chief, Bureau of Medical Services, and the Chief, Division of Foreign Quarantine, are authorized to establish the hours during which quarantine service shall be performed at each quarantine station, pursuant to section 364 (b) of the Public Health Service Act, as amended (42 U. S. C. 267).

(j) The Chief, Bureau of Medical Services, and the Chief, and Assistant Chief, of the Division of Foreign Quarantine are authorized to issue permits for the importation and distribution of etiological agents and vectors, in accordance with 42 CFR 71.156.

(k) The Chief, Bureau of Medical Services, and the Chief, Division of Hospitals, are authorized to employ narcotic addict patients in patients' commissaries in USPHS hospitals designated for their care; to establish a wage scale for payment for such employment (Section 342 of the Public Health Service Act, as amended).

(l) The Director and Associate Directors of the National Institutes of Health, as well as the Chief, Division of Research Grants, and the Directors of the individual Institutes for the respective fields for which they have responsibility, are authorized to exercise the powers of the Surgeon General to make grants-in-aid, pursuant to section 301 (d) of the Public Health Service Act, as amended, to universities, hospitals, laboratories, and other public or private institutions, and to individuals for research projects relating to the causes, diagnosis, treatment, control, and prevention of physical and mental diseases and impairments of man, as are recommended by the National Advisory Health Council; or with respect to cancer, recommended by the National Advisory Cancer Council; or with respect to mental health, recommended by the National Advisory Mental Health Council; or with respect to heart diseases, recommended by the National Advisory Heart Council; or with respect to dental diseases and conditions, recommended by the National Advisory Dental Research Council; or with respect to arthritis and metabolic diseases, recommended by the National Advisory Arthritis and Metabolic Diseases Council; or with respect to neurological and sensory diseases, recommended by the National Advisory Neurological Diseases and Blindness Council.

(m) The Director and the Associate Directors of the National Institutes of Health, and the Chief, Division of Research Grants are authorized to exercise the powers of the Surgeon General to award research fellowships, to authorize travel and to provide stipends and allowances pursuant to sections 207 (f) and (g) and 301 (c) of the Public Health Service Act, as amended, and applicable regulations (42 CFR Part 61).

(n) The Director and the Associate Directors of the National Institutes of Health, and the Directors of the National Cancer Institute, the National Heart Institute, the National Institute of Arthritis and Metabolic Diseases, and the National Institute of Neurological Diseases and Blindness for their respective fields, are authorized to exercise the powers of the Surgeon General pursuant to section 433 (a) (42 U. S. C. 289c) and related sections of the Public Health Service Act, as amended, to make traineeship awards to individuals having proper technical qualifications for training in these Institutes and elsewhere in matters relating to the diagnosis, prevention and treatment of the disease or diseases to which the activities of the specific Institute are directed; to provide such stipends and allowances (including travel and subsistence) for trainees as they may deem necessary.

(o) The Director and the Associate Directors of the National Institutes of Health, and the Directors of the National Cancer Institute, the National Heart Institute, the National Institute of Mental Health, and the National Institute of Neurological Diseases and Blindness for their respective fields, are authorized to exercise the powers of the Surgeon General pursuant to section 433 (a) (42 U. S. C. 289c) and related sections of the Public Health Service Act, as amended, to make grants-in-aid to public and other nonprofit institutions to provide training, including stipends for qualified individuals, in matters relating to the diagnosis, prevention and treatment of the disease or diseases to which the activities of the specific Institute are directed.

(p) The Chief and Deputy chief, Bureau of State Services, are authorized to exercise the powers of the Surgeon General (1) to approve, disapprove, or take other necessary action concerning State plans, including budgets, and applications for funds relating to grants-in-aid presented under sections 314 and 612 of the Public Health Service Act, as amended (42 U. S. C. 246 and 291b).

(q) The Medical Officer in Charge, Arctic Health Research Center, is authorized to exercise the powers of the Surgeon General to approve plans, including budgets, and applications for funds relating to grants-in-aid presented by the Territory of Alaska under sections 314 and 612 of the Public Health

Service Act, as amended (42 U. S. C. 246 and 291b).

(r) The Regional Medical Directors of the Public Health Service in the Department of Health, Education, and Welfare Regions are authorized to review, and except where significant variations from established policies are involved, to approve applications for funds for hospital construction and amendments of approved applications submitted pursuant to section 625 of the Public Health Service Act, as amended (42 U. S. C. 291h). The authority includes making the findings required by section 625 (a) determining the necessary cost of construction pursuant to section 631 (i), waiving technical compliance with the requirements of the regulations as permitted under Service Regulations and approving the findings of the State agency pursuant to Part 53 of the Public Health Service Regulations.

(s) The Regional Medical Directors of the Public Health Service in the Regional Offices of the Department of Health, Education, and Welfare are authorized to exercise the powers of the Surgeon General:

(1) To approve State plans, including budgets, and applications for funds relating to grants-in-aid presented under sections 314 and 612 of the Public Health Service Act, as amended (42 U. S. C. 246 and 291b).

(2) To approve modification of State plans presented under section 623 of the Public Health Service Act, as amended, (42 U. S. C. 291f) except the annual modification of the State plan required under § 53.72 (d) of the Public Health Service Regulations; and

(3) To sign vouchers certifying to the Secretary of the Treasury payments under section 625 (b) of the Public Health Service Act, as amended (42 U. S. C. 291h (b)).

ADVISORY BODIES AND CONFERENCES

SEC. 110 *General statement.* Certain advisory councils and boards have been established to assist the Surgeon General and the Secretary in carrying out specific functions of the Service. The Councils and Boards are composed of outstanding experts in medicine, public health, and related professions, and of leaders in public affairs. In addition, the Surgeon General from time to time appoints advisory committees of experts to make recommendations on particular subjects.

(a) National Advisory Health Council: This Council advises, consults with, and makes recommendations to the Surgeon General upon matters relating to health activities and functions of the Service. It reviews and makes recommendations on research in the general health area, in microbiology, and related sciences exclusive of research carried on in particular fields such as cancer, heart, mental, dental research, arthritis and metabolic diseases, and neurological and sensory diseases. It certifies approval of grants-in-aid for research projects to universities, hospitals, laboratories, and other public or private institutions, and to individuals. It recommends regulations to provide for the apprehension, examination, and detention of persons known to be spreading communicable diseases from State to State.

(b) National Advisory Cancer Council: This council reviews and certifies approval to the Surgeon General of, (1) research projects relating to the cause, prevention, or methods of diagnosis and treatment of cancer; (2) applications for grants-in-aid for cancer research and control projects from universities, hospitals, laboratories, and other public or private institutions, and from individuals; and (3) applications for grants-in-aid for construction of facilities for cancer research and training. It advises the Surgeon General on the provision for training and instruction in technical matters relating to the diagnosis and treatment of cancer, and other matters relating to cancer. It collects and, with the approval of the Surgeon General, makes available to interested organizations and individuals information concerning studies being carried on at home or abroad. It recommends the acceptance of conditional gifts for cancer research and research facilities.

(c) National Advisory Dental Research Council: This council reviews and certifies approval to the Surgeon General of, (1) research projects relating to the cause, prevention, or methods of diagnosis and treatment of dental diseases and conditions and (2) applications for grants-in-aid for dental research projects from public or private institutions, and for training, instruction, and traineeships from public and other non-profit institutions. It collects information as to studies being carried on at home or abroad and, with the approval of the Surgeon General, makes available such information to interested individuals and organizations; recommends the acceptance of conditional gifts for dental research and research facilities; and advises the Surgeon General with respect to other matters pertaining to dental diseases and conditions.

(d) National Advisory Heart Council: This council reviews and certifies approval to the Surgeon General of, (1) research projects relating to the cause, prevention, methods of diagnosis, or treatment of heart diseases and (2) applications for grants-in-aid for research projects to public or private institutions, and for training, instruction, and traineeships to public and other non-profit institutions. It collects information as to studies being carried on at home and abroad, and with the approval of the Surgeon General makes available such information to interested individuals and organizations; and advises the Surgeon General in respect to other matters pertaining to heart diseases.

(e) National Advisory Mental Health Council: This council advises and makes recommendations to the Surgeon General on matters relating to the activities and functions of the Service in the field of mental health. It reviews and recommends mental health research projects or programs to the Surgeon General, collects information on research and makes it available to interested organizations and individuals; recommends and certifies approval of grants-in-aid for research, training, and instruction, and determines the number of specialists to be trained for mental health work by the Public Health Service.

(f) National Advisory Neurological Diseases and Blindness Council: This Council advises, consults with, and makes recommendations to the Surgeon General on matters relating to the activities and functions of the Service in the field of neurological and sensory diseases. It reviews and recommends neurological and sensory diseases research projects or programs to the Surgeon General, collects information on research and makes it available to interested organizations and individuals; recommends and certifies approval of grants-in-aid for research, training, and instruction, and determines the number of specialists to be trained for neurological and sensory diseases by the Public Health Service.

(g) National Advisory Arthritis and Metabolic Diseases Council: This Council advises, consults with, and makes recommendations to the Surgeon General on matters relating to the activities and functions of the Service in the field of arthritis and metabolic diseases. It reviews and recommends arthritis and metabolic diseases research projects or programs to the Surgeon General, collects information on research and makes it available to interested organizations and individuals; recommends and certifies approval of grants-in-aid for research, training, and instruction, and determines the number of specialists to be trained for arthritis and metabolic diseases by the Public Health.

(h) Federal Hospital Council: This council approves the regulations for the administration of the Hospital Survey and Construction Act; considers appeals from States upon disapproval of State plans by the Surgeon General; appoints special advisory committees; and advises the Surgeon General in the administration of the hospital survey and construction program.

(i) Water Pollution Control Advisory Board: This board reviews policies and programs of the Public Health Service in respect to water pollution control and makes recommendations thereon in reports to the Surgeon General.

SEC. 111 *Conferences.* Conferences of State and Territorial Health Officers and State and Territorial Hospital Survey and Construction Authorities are called annually by the Surgeon General. The Surgeon General may call other such conferences when the interests of the public health warrant. Upon the requests of five or more State agencies the Surgeon General must call a conference of the authorities requesting the conference. When matters relating to mental health are discussed, State mental health authorities are invited to attend the Conference of State and Territorial Health Officers. The conferences are designed to provide an opportunity for the Surgeon General to promote the interests of public health through this means, or to promote the purposes of the Federal Hospital Council, and to provide opportunity for mutual consultation between State authorities and Public Health Service officials and for the Surgeon General to present contemplated grant-in-aid regulations and

amendments regarding general or mental health. Insofar as practicable the Surgeon General obtains the agreement of the State health authorities, or State mental health authorities as the case may be, prior to the issuance of any such regulations or amendments. The Chief of the Children's Bureau joins the Surgeon General in the planning of and participation in such of these conferences as are of concern to the Bureau. Upon request by three or more members of the Federal Hospital Council, it is the duty of the Surgeon General to call a meeting of the Council.

OFFICE OF THE SURGEON GENERAL

SEC. 121 *Functions.* The major function of the Office of the Surgeon General is the administration of the internal affairs of the Public Health Service, as contrasted with administration of services to the public by other bureaus. A second important function is to advise and assist the Surgeon General and his staff in the coordination of Public Health Service programs and in the formulation of policies and in the planning of future programs for the advancement of national health. The office is headed by the Deputy Surgeon General, assisted by an Executive Officer.

SEC. 122 *Divisions.* Within the framework of policies and instructions of the Department, Surgeon General, and other authorized agencies of the Government, the Divisions in the Office of the Surgeon General shall perform the following functions:

(a) *Administrative Services, Division of.* This division is responsible for providing a variety of services to facilitate PHS program activities at headquarters and in the field. The Division develops, directs, and carries out programs for procurement, property management, printing and distribution services, forms and records management, administrative issuances, space and utilities, and general office services for headquarters. It operates the centralized Medical Supply Depot at Perry Point, Maryland.

(b) *Finance, Division of.* This division administers all budgetary and fiscal affairs of the Public Health Service. It plans and directs the preparation of all estimates of appropriations required for the Service, including the justifications for such appropriations, and allocates appropriations to operating units of the Service. It manages the appropriation and fund accounting of the Service including the promulgation of procedural issuances, the collection of and accounting for revenue and receipts, the preparation of financial reports, and the conduct of internal audits.

(c) *Personnel, Division of.* This division plans, directs, and coordinates the commissioned and civil service personnel management programs of the Service. Advises the Surgeon General on all phases of personnel management, representing him inside and outside the Service on personnel management matters. Provides leadership, guidance, and assistance to bureaus, divisions, and field stations on personnel management programs, policies, and practices. Studies, develops, and recommends to the Surgeon General new and improved personnel programs for the Service.

(d) *Public Health Methods, Division of.* This division provides staff, advisory and consultative service to, and for, the Surgeon General within such areas of the Service program as he may prescribe. It also develops, tests and applies methods, procedures, and techniques for identifying the nature and extent of health problems and the effectiveness of health programs; recommends action for the resolution of health problems and for the initiation and improvement of health programs; administers experimental and exploratory programs to determine extent to which they meet defined needs; and publishes Public Health Reports and related papers.

BUREAU OF MEDICAL SERVICES

SEC. 131 *Functions.* The major functions of the Bureau of Medical Services are to administer hospital and outpatient care to Federal beneficiaries, to assist the states in developing facilities and methods for such care, to carry on the foreign quarantine and immigration program, and to furnish technical advice and personnel to other Federal agencies in the health care of their employees and beneficiaries. In general, it deals with clinical activities as contrasted with research programs of the National Institutes of Health, and with public health programs of the Bureau of State Services. This bureau assigns officers of the Service to other Federal agencies for the purpose of developing, supervising, and in some cases, rendering medical care. It cooperates with the Chief Medical Officer of the Coast Guard, a Public Health Service Officer, in administering medical and dental service to the U. S. Coast Guard at shore stations and aboard vessels. Medical and psychiatric units at Federal penal institutions are staffed by professional personnel of the Service under direct administration of a Public Health Service officer assigned to the Bureau of Prisons for this purpose. The hospitals, medical service, and public health programs of the Bureau of Indian Affairs, Department of the Interior, are supervised by Public Health Service officers. Other Federal agencies to which one or more Public Health Service officers are assigned for the development and administration of medical programs include: Bureau of Employees' Compensation of the Department of Labor; Bureau of Old-Age and Survivors Insurance, and the Office of Vocational Rehabilitation of the Department of Health, Education, and Welfare; the Foreign Service of the Department of State; and the Coast and Geodetic Survey, and the Maritime Administration, of the Department of Commerce.

SEC. 133 *Divisions*—(a) *Administrative Management, Division of.* This division plans, develops, and directs the administrative management program of the Bureau, and coordinates the departmental and field program operations by integrating management with professional functions. It reviews and evaluates effectiveness, efficiency, and economy of program and administrative operations.

(b) *Dental Resources, Division of.* This division coordinates and develops dental resources in the Public Health Service and in certain related activities of other government agencies. It provides information and advice on broad questions of national policy pertaining to oral health and related activities for technical and general public use; develops and promotes maximum utilization of all dental resources to encourage improvement of oral health services for the nation's population; provides technical aid to other divisions of the Service; and advises operating bureaus and divisions on professional qualifications and training of dental personnel, the standards of oral health services rendered to beneficiaries of the Service, and the standards for dental equipment and materials purchased by the Service. It advises the Chief Dental Officer, Public Health Service, and the Chief, Bureau of Medical Services, on plans for improvement of oral health in the general population; conducts studies and provides statistical analyses of data on oral health needs and resources, including their socio-economic aspects; and promotes training of dental manpower which includes the dentist, dental hygienist, clinical dental assistant and dental technologist. It evaluates the efficiency and quality of standards and procedures in oral health activities of the Bureau of Medical Services; promotes studies and demonstrations within and outside the Service; and extends applicable knowledge and proved techniques in oral health activities to other agencies, organizations and interested groups.

(c) *Foreign Quarantine, Division of.* (1) This division is responsible for promulgation and enforcement of the foreign quarantine regulations (under Part G, title III, Public Law 410) which apply to sea, land, and air traffic. The division is also responsible for enforcing regulations issued by the Surgeon General which apply to conducting medical examinations of aliens.

(2) To prevent the introduction of communicable diseases, officers of the Service inspect conveyances and certain imports and examine persons arriving at sea and air ports and border stations in the United States.

(3) The division conducts the physical and mental examination of aliens at certain U. S. consulates abroad in connection with applications for visas; and at quarantine and immigration stations in this country in connection with admission to the United States. This activity includes examination of persons immigrating under the Refugee Relief Act. The results of such examinations, when performed overseas, are reported to consular officers requesting such examinations; and when performed in the United States, to the appropriate officials of the Immigration and Naturalization Service of the Justice Department.

(4) The division operates a number of major quarantine stations in the continental United States. Additional ports and border points are served by these major stations, through regular facilities of the Service or through part-time

quarantine officers. Quarantine stations are also located in Alaska, Hawaiian Islands, Puerto Rico, and the Virgin Islands. (See List of Field Installations, section 163 (a).) Consulates in areas with large numbers of visa applicants are staffed with full-time Public Health Service medical officers. At other U. S. consulates throughout the world, Public Health Service regulations and instructions serve as a basis for medical examination of visa applicants by local physicians designated by the State Department.

(d) *Hospital Facilities, Division of.* This division is responsible for the administration of the Hospital Survey and Construction Act (60 Stat. 1040, 42 U. S. C. 291). This act authorizes the appropriation of Federal funds to be allotted to the States as grants-in-aid for conducting Statewide surveys of the needs for hospitals and related facilities and to provide for the construction of such facilities by States, political subdivisions and other public or private nonprofit agencies. The division provides consultative technical aid to the States in the various phases of their hospital survey and construction programs.

(e) *Hospitals, Division of.* This division operates sixteen hospitals and supervises the administration of Freedmen's Hospital, Washington, D. C. Twelve of the hospitals are operated as general hospitals; one is a tuberculosis hospital; one is for the treatment of leprosy; and two are for the treatment of mentally ill beneficiaries of the Public Health Service and other Federal agencies, narcotic drug addicts who have been convicted of Federal offenses, and narcotic drug addicts who voluntarily apply for treatment. The Public Health Service hospital at Carville, Louisiana, receives persons afflicted with leprosy from any part of the United States and provides medical and institutional care for them. The division also furnishes medical and dental care to beneficiaries of the Service in clinics and outpatient offices located at coastal and inland ports not served by a Public Health Service hospital. In all, there are 134 Service hospitals, outpatient clinics, and outpatient offices in the continental United States and its territories and possessions to which beneficiaries of the Service may apply for immediate attention. In addition, the Public Health Service hospital at Baltimore operates an outpatient department in the business section of the city and administers an outpatient section in Pittsburgh, Pennsylvania. The Detroit Service hospital administers outpatient sections located at Buffalo, New York, and Cleveland, Ohio. The division also has general responsibility for carrying out the functions of the Service in connection with health programs for Government employees as authorized by the act of August 8, 1946 (60 Stat. 903, 5 U. S. C. 150). (See List of Field Installations, section 163 (b).)

(f) *Nursing Resources, Division of.* This division provides information on broad questions of national policy pertaining to nursing education and nursing service both for professional groups and for the general public. It assists States in measuring the amount of nursing service available and in estimating their needs and devising ways of meeting them. It promotes the coordination of nursing facilities for education and service. It conducts studies in which guides are developed for the evaluation of nursing education and nursing service. These studies are also aimed toward encouraging the development, as well as the maintenance, of effective methods to be used in education of nurses or provision of nursing services.

BUREAU OF STATE SERVICES

SEC. 141 *Functions.* The major functions of this Bureau are to assist the States and their political subdivisions in establishing and maintaining effective programs for the prevention and control of disease and water pollution and for the maintenance of health; to supervise the PHS regional organization; to collect, analyze and publish national vital statistics; and to carry out PHS's activities in the international health field.

SEC. 142 *Chief of Bureau, Office of.* This office, under the direction of the Chief, the Deputy Chief and three principal assistants provides general direction and supervision of Bureau activities; establishes general policies for guidance of division chiefs in program planning and development, and provides interdivision coordination and liaison with other bureaus and agencies and non-Federal organizations with respect to Bureau programs; evaluates programs and plans of the divisions, analyzes the progress of operations in relation to such programs and plans, and provides guidance in strengthening programs and in filling program gap areas; supervises the regional medical directors; evaluates proposed organization plans to assure consistency with program objectives; provides management and administrative services necessary to meet the needs of the divisions and to carry out the responsibilities and duties of the Bureau Chief; and supervises and coordinates information and public relations activities within the Bureau and coordinates such activities with those of the Department and the Service.

NATIONAL INSTITUTES OF HEALTH

SEC. 151 *Functions.* (a) The National Institutes of Health is the research bureau of the Public Health Service. It is composed of several institutes each of which conducts broad programs of research in its respective field. Many projects are initiated as cooperative studies with other Federal agencies and with private institutions and organizations. The exceptional facilities of the institutes are made available to research scientists of such organizations. The studies of the component institutes are coordinated in a comprehensive program of research so that a particular problem may be approached through various related sciences. Many studies are conducted in the field or in facilities of cooperating institutions.

(b) The National Institutes of Health administers a program of grants-in-aid for research in the medical sciences. Through this program the Service provides financial assistance to public and private institutions and to individuals whose applications for such aid are recommended by the National Advisory Health Council, or as may be appropriate, by the National Advisory Cancer Council, the National Advisory Mental Health Council, the National Advisory Heart Council, or the National Advisory Dental Research Council. Fellowships for research scientists are provided by the institutes. The Director of the Institutes, in addition to administering the work of the institutes, advises the Surgeon General on research matters and coordinates research programs initiated by other bureaus of the Service with those of the institutes.

SEC. 152 *Director, Office of.* This office, with the Director of the National Institutes of Health as its chief, assisted by two associate directors and an executive officer, supervises and directs the work of the National Institutes of Health. Through this office the director advises the Surgeon General on all matters pertaining to scientific research, directs research within the National Institutes of Health, fosters outside research activities, and maintains relationships with the public. The office cooperates with other scientific organizations for the purpose of coordinating medical research. It provides research planning and research facilities planning. It also provides internal administrative management and scientific services for the bureau, including publication and dissemination of scientific findings to research workers, health authorities, and others. Professional and scientific examinations are administered for personnel of the institutes by the U. S. Board of Civil Service Examiners in the Office of the Director. This board is composed of scientists of the National Institutes of Health who perform this activity in addition to their other professional duties.

SEC. 153 *Institutes and divisions*—(a) *National Cancer Institute.* This Institute conducts, fosters, and coordinates research into the cause, prevention, diagnosis, and treatment of cancer; provides training and instruction on methods of diagnosis and treatment; makes grants-in-aid to public and private laboratories, institutions, and individuals, including grants for research, teaching, and special control projects, as well as grants to States on a formula basis for control activities. It also maintains traineeships and fellowships in the Institute. It lends radium for treatment and research; cooperates with, and furnishes consultative services and advice to States and other public and private organizations; and collects and disseminates information on cancer diagnosis, treatment, and preventive measures.

(b) *National Heart Institute.* This Institute conducts, assists, and fosters research, investigation, experiments, and demonstrations relating to the cause, prevention, and methods of diagnosis and treatment of diseases of the heart and circulation. It provides training, instruction, traineeships, and research fellowships by making grants to public and other non-profit institutions. It also maintains traineeships and research fellowships at the Institute. It provides grants-in-aid to public and private institutions and to individuals for research projects. It serves as the focal point for the dissemination of information in respect to heart diseases.

(c) *National Institute of Arthritis and Metabolic Diseases.* This Institute conducts, fosters, and coordinates research into the cause, prevention, diagnosis and treatment of metabolic diseases; provides training and instruction on methods of diagnosis and treatment; makes research grants to public and private laboratories, institutions, and individuals; and collects and disseminates information on diagnosis, treatment, and preventive measures on arthritis and metabolic diseases. It also maintains traineeships and fellowships in the Institute. The director of the Institute maintains the principal Service relationships with professional societies, other groups, and the general public interested in this Institute's program.

(d) *National Institute of Dental Research.* This institute conducts, assists, and fosters research, investigations, experiments, and studies relating to the cause, prevention, and method of diagnosis and treatment of dental diseases and conditions. Included in these studies is the relationship of fluorine to dental health. It provides traineeships and research fellowships in the institute. It administers grants to public and nonprofit institutions and to individuals. It provides grants for research to public and private institutions. It promotes the coordination of dental research conducted by the institute, other agencies, organizations, and individuals.

(e) *National Institute of Mental Health.* This institute administers the national mental health program authorized by the National Mental Health Act (60 Stat. 421, Public Law 487, 79th Cong.). It supports research into the prevalence, causes, diagnosis, and prevention of mental illnesses by grants-in-aid to public and private institutions and individual scientists; conducts in-service studies in this field; and makes available information relating to such research. It provides training through grants-in-aid to public and other non-profit institutions, and conducts in-service training in mental health. It assists States in developing and maintaining adequate mental health programs and facilities through grants-in-aid, demonstrations, and consultative services. It cooperates with State mental health authorities and other organizations in studying mental health resources and needs, and in improving facilities for the care of the mentally ill. It cooperates with Federal and other official and private agencies, including the furnishing of psychiatric services to the Juvenile Court of the District of Columbia. It collects and publishes statistics on patients in mental institutions and psychiatric clinics.

(f) *National Institute of Neurological Diseases and Blindness.* This Institute administers functions of research with the Public Health Service in the field of neurological diseases (including epilepsy, cerebral palsy, and multiple sclerosis) and blindness. It provides grants-in-aid for research, training, instruction to public and other non-profit institutions, and to individuals. It also provides traineeships, and research fellowships in the Institute. This Institute's program is carried on in close collaboration with those phases of the program of the National Institute of Mental Health in which both Institutes have common interests. The director of this Institute maintains the principal Service relationships with professional societies, other groups and the general public interested in this Institute's program.

(g) *National Microbiological Institute.* This Institute conducts research on the growth requirements, metabolism, and conditions of survival of micro-organisms as related to public health. The Institute pursues programs seeking to apply this knowledge to the problems of prevention and control of infectious diseases and makes epidemiological and other field studies of infectious diseases when necessary. It makes grants-in-aid for research to public and other nonprofit institutions, and to individuals. It also maintains traineeships and fellowships in the Institute. The Institute also administers the provisions of the Public Health Service Act concerning the licensure of production for interstate sale of certain viruses, serums, toxins, and analogous products, and conducts related research.

(h) *Clinical Center.* This Division provides for integrated operation of the patient facilities which serve the clinical investigations programs of the various Institutes. It provides patients, selected by the Directors of the Institutes, with all necessary services other than the physician care provided by the Institutes. This includes nursing, dietetic, diagnostic laboratory and other services in

accordance with regulations and standards established by the Director of the National Institutes of Health. The Clinical Center also provides for residency training and related programs.

(i) *Research Grants, Division of.* This Division receives all applications for Public Health Service research grants and determines their referral to appropriate Institutes for review by their respective national advisory councils and fellowship boards. Applications not referrable to the Institutes are retained by the Division for review by the National Advisory Health Council and by the National Institutes of Health Research Fellowship Board. Through use of study sections and boards, the Division provides technical advice by expert Government and non-Government consultants on all applications. The Division has responsibility for the business management and technical coordination of the total research grants and fellowships program.

PUBLIC HEALTH SERVICE ORGANIZATION IN THE FIELD

SEC. 161 *Regional Organization.* (a) In order to maintain direct contact with State and local authorities, with field offices of other Federal agencies, and with other official and non-official organizations concerned with its activities, the Public Health Service maintains a staff headed by a Regional Medical Director in eight of the nine Regional Offices of the Department. (See List of Field Installations, section 161 (b), for addresses and jurisdiction of these offices.) Under the general administrative supervision of the Regional Director, each Regional Medical Director represents the Surgeon General in interpreting and carrying out the broad policies of the Service. The Regional Medical Director has immediate direction and supervision of the Public Health Service staff assigned to the regional offices. In this capacity he serves under the immediate direction of the Bureau of State Services and is responsible for seeing that the regional staff provides consultative services to State authorities and assists them in developing and maintaining plans, programs, and budgets for Federal-State-local cooperative programs, such as dental health, sanitation, venereal disease control, tuberculosis control, public health nursing and hospital survey and construction. S. C. 223. All such claims may be filed with the Public Health Service Board of Claims, U. S. Public Health Service, Washington 25, D. C.

SEC. 203 *Civil service positions.* (a) Information regarding civil service positions in the Public Health Service may be obtained by writing to the Division of Personnel, U. S. Public Health Service, Washington 25, D. C. For procedures and forms prescribed by the U. S. Civil Service Commission, see 5 CFR Ch. I.

(b) The Public Health Service offers internship training in medicine and dentistry at some of its stations; information regarding such training may be obtained by writing to the Committee on Internships and Residencies, U. S. Public Health Service, Washington 25, D. C.

REGULAR AND RESERVE COMMISSIONED CORPS

SEC. 204 *General statement.* (a) Commissions in the Regular and Reserve Corps of the Public Health Service are available to citizens trained in the fields of medicine, dentistry, sanitary engineering, pharmacy, scientific specialties related to public health, nursing, dietetics, and physical and occupational therapy. Regulations relating to the commissioned corps are contained in 42 CFR Parts 21, 22.

(b) Appointments are made in the Regular Corps by the President subject to confirmation by the Senate. Officers retain commissions in the Regular Corps for life, contingent upon their passing prescribed promotion and physical examinations and compliance with rules and regulations of the Service. Appointments are made in the Reserve Corps by the Secretary under authority delegated to the Secretary by the President (E. O. 10506, Dec. 10, 1953, 18 F. R. 8219). Reserve commissions are for a period of not more than five years, after which an officer may be reappointed. Reserve commissions may be terminated at any time by the Secretary, upon recommendation of the Surgeon General, under the foregoing delegation of authority.

SEC. 205 *Application for commission.* Applications may be made on Form PHS–50 "Application for Commission in the United States Public Health Service." Application forms and instructions may be obtained by writing to the Division of Personnel, U. S. Public Health Service, Washington 25, D. C. Eligibility requirements and the contents of the application are described in the regulations.

SEC. 206 *Regular Corps; examinations and appointment.* (a) Competitive written examinations for appointment in the Regular Corps are usually held annually in the principal cities in the early spring or summer. Announcements of the time and place of examinations are published at least thirty days prior to the date of the examination, in the leading medical and other professional journals. Applicants with satisfactory qualifications are instructed to present their completed applications and supporting documents to a board of commissioned officers, appointed by the Surgeon General, which conducts oral and written professional examinations and physical examinations as prescribed in regulations.

(b) The procedure for establishment of merit rolls on the basis of examination ratings and relative standings of candidates, and for nominations from merit rolls, are described in the regulations.

SEC. 207 *Reserve Corps; examination and appointment.* Eligibility requirements are described in Title 42 of the Code of Federal Regulations. The examination consists of a review of the candidate's qualifications by the examining board in Washington, D. C., a physical examination which is arranged at a Public Health Service station, and may include an oral interview, a written examination or both. Appointments of candidates are recommended by the Surgeon General and transmitted to the Secretary for final action.

SEC. 208 *Other provisions governing commissioned officers.* Procedures regarding allotments, leave, promotion, separation, retirement, uniforms, decorations, discipline, and burial payments in time of war, quarters, and foreign service allowances of commissioned officers, are described in the regulations.

PUBLIC INQUIRIES

SEC. 209 *General statement.* The Public Inquiries Branch in the Office of the Surgeon General, U. S. Public Health Service, Washington 25, D. C., conducts a central inquiry service for the professional and lay public. It answers questions and distributes publications and films on a variety of subjects ranging from simple health information to scientific research findings in the fields of medicine and public health.

COLLECTION OF VITAL STATISTICS

SEC. 210 *General statement.* Reports of morbidity and mortality are collected by the Public Health Service from State, Territorial or local governments in accordance with 42 U. S. C. 245 and provisions of International Sanitary Conventions to which the United States is a signatory power. Transcripts of birth, death, and stillbirth certificates are purchased by arrangements with the States, Territories, and independent registration cities in accordance with Sec. 312a, PHS Act, as amended by Sec. 2, Public Law 740, 83d Cong., 68 Stat. 1025.

SEC. 211 *Use of reports and transcripts.* Transcripts and reports collected by the Public Health Service under these provisions are tabulated and analyzed by the National Office of Vital Statistics for statistical purposes only.

SEC. 212 *Reports.* Weekly telegraphic morbidity reports and annual morbidity summaries (Forms PHS–1715–1, 1715–2, 1716, 1717) are submitted by State and Territorial Health Departments. In addition, reports of outbreaks and other unusual occurrences of diseases are received. Weekly and monthly telegraphic or mail reports of births and deaths are received from State, city, and Territorial health departments. Report forms, as well as instructions, may be obtained upon request from the National Office of Vital Statistics, U. S. Public Health Service, Washington 25, D. C.

SEC. 213 *Official publications.* Annual reports (Vital Statistics in the United States, Parts I and II), and occasional special publications on vital statistics may be purchased from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Subscriptions to "Public Health Reports", a monthly scientific journal of public health practice, may be obtained from the same source. Weekly and monthly statistical reports and the papers entitled "Vital Statistics-Special Reports" are made available to professionally interested persons and agencies without charge.

INTERSTATE CARRIER SANITATION

SEC. 221 *General statement.* Interstate Carriers must comply with requirements of the Interstate Quarantine Regulations contained in 42 CFR Part 72 regarding the sanitary condition of interstate conveyances such as railroad passenger cars and dining cars, buses, ships, and airlines, which have sanitary facilities, provide water or food, and which operate in interstate traffic. Failure to comply with the requirements of the regulations can result in a fine of not more than $1,000 or imprisonment for not more than one year, or both (section 368 (a) of the Public Health Service Act as amended, 42 U. S. C. 271). Operating conditions on these conveyances are observed and in the case of ships and dining cars, inspections are made regularly. Water and food sources are inspected and certified for use by interstate carriers. The facilities for handling food and water at railroad and airline servicing areas are also under inspection as well as facilities for the disposal of wastes. Plans for the construction and reconstruction of such facilities are reviewed.

SEC. 222 *Construction of conveyance.* (a) Plans for the construction or reconstruction of railroad passenger cars, buses, and aircraft are required to be submitted to the Division of Sanitary Engineering Services for review. Inspections are made by Public Health Service Regional Office representatives. Plans may be submitted by the operators or the car builders. The obligation to submit plans is the responsibility of the operator not the car builder or the aircraft builder, but the submittal is frequently made by the builder. The Sanitation Manual for Land and Air Conveyances Operating in Interstate Traffic (Public Health Reprint 2444, 1943) provides general information. The Handbook on Sanitation of Railroad Passenger Car Construction, PHS Publication No. 95, and the Handbook on Sanitation of Airlines, PHS Publication No. 308, provide general information on sanitary aspects of design.

(b) Plans for the construction or reconstruction of U. S. vessels in interstate traffic, as well as in foreign trade, are reviewed on a voluntary basis. Inspections result in issuance of a "Certificate of Sanitary Construction," if construction or reconstruction has been in accordance with the recommendations contained in the Handbook on Sanitation of Vessel Construction, PHS Publication No. 393. Inspections are made by Regional Office representatives. In the case of U. S. vessels in foreign trade, ratproof construction, as well as general sanitation including water, food, plumbing, and waste disposal, is important.

SEC. 223 *Operating conditions.* The Interstate Quarantine Regulations, 42 CFR Part 72, spell out various requirements to be met by the railroad, bus, airline, and vessel industries in their interstate operations. Inspections are generally made of each passenger or freight ship and each dining car about twice a year. Inspections of other interstate carriers are not made on a regularly scheduled basis Reports of inspection are given to the operator with the request that corrections be made where indicated Certificates of sanitation are issued to conveyances having a high sanitation rating These certificates must be posted by the carriers. The Handbook on Sanitation of Vessels in Operation, PHS Publication No. 68, the Handbook on Sanitation of Airlines, PHS Publication No. 308, and the Handbook on Sanitation of Dining Cars in Operation, PHS Publication No. 83, are used as guides for making sanitary inspections.

SEC. 224 *Water and food sources.* (a) The regulations require that the sources of water and milk be approved by the Surgeon General. The Service prepares and distributes to the carriers lists of the various watering points used by them, each classified either as "approved," "provisionally approved," or as "use prohibited." Carriers may use watering points in the first two categories and not in the "use prohibited" category. Special measures are taken to provide carriers with immediate notification of changes in "use prohibited" watering points. The classification of a watering point depends on two factors. One is the water supply, which may be a public supply or a private one, and the second factor is the sanitary status of the facilities at the watering point for handling or loading water. The Public Health Service makes inspections of water supplies or watering points or utilizes reports of State or local health agencies. Sufficient copies of the respective lists are sent to those railroads, bus lines, airlines and vessel companies which provide water on their conveyances for passenger or crew consumption. The standards for classification of the water supplies are the Drinking Water Standards contained in 42 CFR 72.201 to 72.204. The Handbook on Sanitation of Railroad Services Areas, PHS Publication No. 66, and the Handbook on Sanitation of Vessel Watering Points, PHS Publication No. 274, are used as guides for classifying watering points.

(b) Milk plants supplying fresh milk or frozen desserts to interstate carriers are inspected and classified in a manner similar to watering points. The Milk Ordinance and Code—1953 Recommendations of the Public Health Service, PHS Publication No. 229, is used as a guide in classifying milk plants. Its Frozen Desserts Ordinance and Code, recommended by the Public Health Service, is used as a guide in classifying ice cream sources.

(c) Railroad and airline commissaries are inspected by public Health Service or State personnel. The Ordinance and Code Regulating Eating and Drinking Establishments—1943 Recommendations of the Public Health Service, PHS Publication No. 37, is used as a guide in inspecting and classifying these food preparation places. These commissaries are evaluated in a manner similar to that for watering points and milk sources and the carriers are notified of the results of inspections as well as the classification. Sources of bottled water are inspected by Public Health Service or State personnel and classified as "approved," "provisionally approved" or "use prohibited."

(d) As a service to the shellfish industry and to State authorities, the Public Health Service publishes, semimonthly a list of shellfish shippers holding certificates issued by those State regulatory authorities which conduct a shellfish sanitation program approved by the Service on the basis of a "Manual of Recommended Practices for the Sanitary Control of the Shellfish Industry"—1946 Recommendations of the Public Health Service, PHS Publication No. 33.

(e) The regulations require the submittal of construction plans or plans for major reconstruction of sanitation facilities at servicing areas. These facilities include watering point installations of hydrants and platforms as well as facilities for disposing of material from soil cans, garbage cans, and the construction or reconstruction of commissaries where food is stored or prepared.

INTERSTATE SHIPMENT OF SHAVING AND LATHER BRUSHES

SEC. 225 *General statement.* Shaving or lather brushes may not be shipped or carried in interstate commerce unless manufactured in compliance with the regulations contained in 42 CFR Part 72.

SEC. 226 *Permits; application and issuance.* (a) Application forms for permits certifying approval of manufacturing procedures may be obtained from the Division of Sanitary Engineering Services, U. S. Public Health Service, Washington 25, D. C. This form calls for the name and location of the manufacturing establishment, a list of products manufactured or processed, and the signature and title of the executive officer of the establishment. The application form is submitted in duplicate to the Division of Sanitary Engineering Services. The facilities and processes of the applicant's establishment are then inspected for compliance with provisions of the regulations by a representative of the Regional Office within whose jurisdiction the establishment is located. Copies of the identifying marks to be used on brushes are also obtained. The Regional Office transmits to the Division of Sanitary Engineering Services an inspection report, together with recommendations. If upon the basis of the report the head of the Division of Sanitary Engineering Services determines that the establishment is complying with the regulations, a permit is forwarded to the applicant. If the application is not approved, the applicant is notified of this fact, reasons given, and suggestions are offered for improvements that would result in favorable action.

(b) After a permit is issued, all Regional Offices and all State health authorities are so notified in order that the establishment's products may be recognized on the market. State and local health departments make periodic checks of brushes for sale on the retail market and when brushes are found not carrying a registered mark as required by the regulations, a report of that fact is sent to the Surgeon General for enforcement action. Establishments holding permits are subject to periodic inspection; the permit is subject to revocation if it is determined that the regulations are not complied with.

BIOLOGICAL PRODUCTS; LICENSES

SEC. 230 *General statement.* (a) Licenses are issued to establishments engaged in the manufacture and preparation of certain biological products, under the authority of section 351 of the Public Health Service Act, as amended (42 U. S. C. 262). Standards designed to insure the continued safety, purity, and potency of such products are prescribed in regulations made jointly by the Surgeon General of the Public Health Service, the Surgeon General of the Army, and the Surgeon General of the Navy, and approved by the Secretary of Health, Education, and Welfare. They appear in 42 CFR Part 73.

(b) The Laboratory of Biologics Control, National Institutes of Health,

Bethesda 14, Md., prepares and issues monographs, known as "Minimum Requirements," on individual biological products. The monographs discuss each product, methods for its production, tests for safety, purity and potency, etc. They are advisory in character, intended for the information and assistance of manufacturers and scientists. Forms are sometimes attached to the monographs which are designed for use in recording the results of tests of a licensed product. These forms may be used in preparing the protocols which are to be transmitted to the National Institutes of Health with samples of licensed products, as provided for in 42 CFR 73.71, 73.91. The Laboratory of Biologics Control also prepares and issues from time to time material, known as "Dating Decisions", containing information concerning the periods within which particular products may be expected to yield their specific results. This material represents the latest scientific knowledge available and is also advisory in character. Copies of the "Minimum Requirements" and "Dating Decisions" may be obtained from the Laboratory of Biologics Control, National Institutes of Health, Bethesda 14, Maryland.

SEC. 231 *Products and establishments subject to license.* Products subject to license include any virus, therapeutic serum, toxin, antitoxin, or analogous product, or arsphenamine or its derivatives (or any other trivalent organic arsenic compound), applicable to the prevention, treatment, or cure of diseases or injuries of man. Foreign as well as domestic establishments are subject to license requirements with respect to products brought into the District of Columbia or any State or possession, for sale, barter, or exchange.

SEC. 232 *Applications for licenses.* Forms for application for licenses, and assistance in completing application forms, may be obtained from the Laboratory of Biologics Control, National Institutes of Health, Bethesda 14, Maryland. Detailed information is required on the technical facilities of the establishment and on the methods of preparation and testing of the product.

SEC. 233 *Processing of applications.* Completed applications, reviewed by the Laboratory of Biologics Control are forwarded with a report to the Surgeon General. The report is based in part on inspection of the establishment and laboratory tests of the product. The Surgeon General transmits the application, the report, and his recommendations for action, to the Secretary of Health, Education, and Welfare. In certain cases the Surgeon General appoints a Special Board of Officers to review applications. The findings of the Board are submitted to the Secretary with the Surgeon General's recommendations.

SEC. 234 *Issuance of licenses.* Licenses for approved establishments and products are issued by the Secretary. Licensed establishments are subject to reinspection and licensed products are subject to retesting.

SEC. 235 *Suspension, cancellation, or revocation.* Upon recommendation of the Surgeon General, the Secretary may suspend, cancel, or revoke licenses in accordance with regulations, contained in 42 CFR Part 73. Such recommendations are ordinarily based upon inspection reports and laboratory tests.

SEC. 236 *Hearings.* The Surgeon General grants opportunity for hearings (a) prior to denial, revocation, or suspension of license; or (b) after a license has been denied or because of danger to health, summarily suspended without prior opportunity for a hearing. Such hearings are provided before an officer or board of officers designated by the Surgeon General for that purpose. The findings and recommendations of the officers or board are forwarded by the Surgeon General with his recommendations to the Secretary.

SEC. 237 *Complaints.* Any person who has reason to question the safety, purity, or potency of any licensed biological products on the open market should communicate with the Laboratory of Biologics Control, National Institutes of Health, Bethesda 14, Maryland.

SEC. 238 *Relation to Food and Drug Administration; licensed products and products for investigational use only.* The Public Health Service is generally responsible to the Secretary of Health Education, and Welfare for the administration of the provisions of both the Public Health Service Act, as amended, and of the Federal Food, Drug, and Cosmetic Act which are applicable to biological products. This responsibility extends to products licensed under the Public Health Service Act, which are deemed not subject to section 505 of the Federal Food, Drug, and Cosmetic Act, and to products intended solely for investigational use which are subject to the provisions of subsection (i) of section 505 of the Federal Food, Drug, and Cosmetic Act and the regulations thereunder. By administrative arrangement, reports are made to the Service by the Food and Drug Administration whenever, in the course of the field operations of the Food and Drug Administration, conditions or products are encountered which there is reason to suspect may be substandard. In any emergency involving protection to the public against products which may be dangerous to life or health, proceedings may be invoked under the provisions of either act as may be agreed between the Public Health Service and the Food and Drug Administration, or as the Secretary may direct.

GRANTS FOR RESEARCH

SEC. 240 *General statement.* Grants for medical research are made to universities, hospitals, laboratories, other public and private institutions and individual scientists, in accordance with section 301, and related provisions of the Public Health Service Act, as amended, 42 U. S. C. 241.

SEC. 241 *Applications for research grants.* Application forms and instructions for preparing the forms may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda 14, Maryland. The principal items in the application require from the applicant detailed information on the proposed research project as well as the qualifications of those who would conduct it.

SEC. 242 *Processing of applications.* Applications received are submitted to expert committees covering designated areas of medical research. These sections, consisting of non-government consultants, review applications and prepare recommendations for consideration by the appropriate National Advisory Councils.

SEC. 243 *Action following Council consideration.* When a National Advisory Council recommends approval of a grant, its recommendation is certified for final action to an official to whom authority is delegated by the Surgeon General. The applicant is notified of final action.

RESEARCH FELLOWSHIPS

SEC. 244 *General statement.* Research fellowships are awarded to individuals who have demonstrated outstanding or potential ability for scientific research in the various fields of science related to public health, in accordance with section 301, and related provisions of the Public Health Service Act, as amended, 42 U. S. C. 241. For regulations regarding fellowships see 42 CFR Part 61.

SEC. 245 *Applications for fellowships.* Application forms may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda 14, Maryland. The principal items in the application form require from the applicant detailed information on his education, training, and experience.

SEC. 246 *Evaluation of applications.* Applications are evaluated by Research Fellowship Boards appointed by the Surgeon General. The Boards consist of persons representing various fields of science.

SEC. 247 *Action following Board evaluation.* Based on recommendations of the Boards, awards may be made by an official to whom authority is delegated by the Surgeon General. Advice of final action is communicated to all applicants.

TRAINING GRANTS AND TRAINEESHIPS

SEC. 248 *General statement.* (a) Section 433 of the PHS Act as amended (42 U. S. C. 289c), and related provisions provide (1) for the award to individuals of traineeships in such fields as heart disease, cancer, neurological and sensory diseases and arthritis and metabolic diseases; and (2) for grants to public and other nonprofit institutions for improvement of teaching and for training, including payment of stipends to qualified trainees, in such fields as mental health, cancer, heart disease, neurological and sensory diseases and arthritis and metabolic diseases.

(b) The respective Institutes of the NIH have general administrative responsibility for these programs. For regulations governing traineeships, see 42 CFR Part 63.

SEC. 249 *Applications for training grants*—(a) *Application forms.* Application forms and instructions for preparing the forms may be obtained from the appropriate institute at the National Institutes of Health, Bethesda 14, Maryland.

(b) *Evaluation of applications.* Applications received from institutions are submitted by the institutes to their respective National Advisory Council.

(c) *Action following Council evaluation.* Based on recommendations of the Councils, awards may be made by an official to whom authority is delegated by the Surgeon General. The applicant is notified of final action.

SEC. 250 *Traineeships*—(a) *Application forms.* Individuals seeking traineeships may obtain application forms and instructions for preparing the forms from the appropriate institute of the National Institutes of Health, Bethesda 14, Maryland.

(b) *Evaluation of applications.* Applications are evaluated by expert committees appointed by the respective institutes.

(c) *Action following Committee evaluation.* Based on recommendations of these Committees, awards may be made by an official to whom authority is delegated by the Surgeon General. The applicant is notified of final action.

RADIUM LOANS

SEC. 252 *General statement.* Loans of radium are made to agencies and institutions for treatment of cancer patients and for cancer research, in accordance with sections 402 and 403 of the Public Health Service Act, as amended.

SEC. 253 *Applications for loans.* Application forms and a statement of the conditions under which loans are granted may be obtained from the National Cancer Institute, National Institutes of Health, Bethesda 14, Maryland. The application requires a description of the size and equipment of the hospital or clinic, the qualifications of the staff, and a statement of the number of cancer patients using the facilities. In order to coordinate the loan program with the cancer control programs of State health departments, applicants are required to secure approval of the applications from their respective State health departments.

SEC. 254 *Processing of applications.* The completed application is reviewed by the Director of the National Cancer Institute, or persons designated by him. The main points considered are the qualifications of staff, the need for the radium as determined by the amount the hospital already has and the number of cancer patients using its facilities, the adequacy of the hospital's radiological equipment and the availability of other radium in the community. In order to effect an equitable distribution of radium, loans already made to institutions in the State and community are considered.

SEC. 255 *Loan contract.* The applicant is notified of the decision made on his application. If the loan is approved, a loan contract is sent to the applicant for signature. The essential elements in the contract provide that the borrowers agree to:

(a) Replace any lost radium.

(b) Make no charge to patients for the use of the radium.

(c) Permit the radium to be used for treatment purposes only by experts whose qualifications are the equivalent of the standards established for radiologists by the American Board of Radiology.

(d) Maintain adequate standards for the protection of their personnel from overexposure to the radium.

(e) Furnish such reports on the use of the radium as the Service may require.

Upon completion of the contract, the radium is shipped to the borrower. Loan contracts are made for a period of one year and may be renewed.

MEDICAL CARE

SEC. 258 *Addresses of U. S. Public Health Service hospitals and medical care stations.* For addresses of U. S. Public Health Service hospitals, medical care stations, and other field stations of the Service, see section 163 (b).

SEC. 259 *Seamen and others*—(a) *General statement.* Persons listed below are entitled to medical, surgical and dental treatment and hospitalization, without charge, at Service hospitals and established medical care stations of the Public Health Service. In emergencies, such treatment may be furnished at private and other than Service facilities at Public Health Service expense when authorized. These services are furnished in accordance with regulations contained in 42 CFR Part 32.

(1) *Group 1.* Seamen employed on vessels of the United States registered, enrolled, and licensed under the maritime laws thereof, other than canal boats engaged in the coasting trade;

(2) *Group 2.* Seamen, not enlisted or commissioned in the military or naval establishments, who are employed on State-school ships or on vessels of the United States Government of more than five tons' burden;

(3) *Group 3.* Seamen on vessels of the Mississippi River Commission;

(4) *Group 4.* Officers and crews of vessels of the Fish and Wildlife Service;

(5) *Group 5.* Enrollees in the United States Maritime Service on active duty and members of the Merchant Marine Cadet Corps;

(6) *Group 6.* Cadets at State maritime academies or State training ships; and

(7) *Group 7.* Employees and noncommissioned officers in the field service of the Public Health Service when injured or taken sick in line of duty.

(b) *Form of application*—(1) *Groups 1–4.* All seamen in these groups must present a Form PHS–125 "Masters Certificate of Service," in person or by proxy if unable to appear themselves. The seaman or master of the vessel may obtain this form from the nearest Public Health Service hospital or medical care station upon request. If Form PHS–125 is not available, other evidence of recent employment as a seaman beneficiary is acceptable.

(2) *Groups 5–6.* A written request from a responsible official of the organization concerned must be furnished.

(3) *Group 7.* Evidence of status as Public Health Service field employee or noncommissioned officer must be furnished.

(c) *Place of application.* Persons in all groups make application to the admitting office of the Service hospital or medical care station.

(d) *Emergency treatment*—(1) *Groups 1–4.* In emergencies where application cannot be made in person to an established medical care facility of the Public Health Service, the application may be sent to a medical officer in charge of a Service hospital or a medical care station together with documents evidencing eligibility as a seaman beneficiary. Application must be made at the time treatment is required, or shortly thereafter while the beneficiary is undergoing treatment.

(2) *Groups 5–6.* Same as for groups 1–4 and, in addition, application is made to the responsible officer of the Public Health Service assigned to a Maritime Service, Merchant Marine Cadet Corps school or State Maritime Academy.

(3) *Group 7.* Same as for Groups 1–4, and, in addition, when on duty in any foreign place, the officer in charge or the patient himself, if necessary, may make arrangements for care and treatment without prior authorization.

(e) *Eligibility for treatment*—(1) Upon examination of the application and oral interrogation, where required, the admitting office or medical officer in charge or authorized Government representative, as the case may be, determines eligibility in accordance with regulations contained in 42 CFR Part 32. If found eligible, medical benefits are accorded the patient; if not, the applicant is rejected. Where, due to the emergency of the case, treatment at other than Public Health Service facilities is indicated, the Service or other authorized official receiving the application examines the evidence of eligibility, determines whether a true emergency exists and authorizes treatment for the applicant if eligibility is established. If time does not permit, treatment is authorized conditionally pending establishment of eligibility.

(2) Where the admitting or authorizing official of the Service is in doubt as to eligibility, he submits a report of the case to the headquarters of the Public Health Service for decision by the Chief of the Division of Hospitals, or someone designated by him. Temporary care and treatment is furnished pending determination of eligibility.

SEC. 260 *Coast Guard personnel and others*—(a) *General statement.* Persons listed below are entitled to medical, surgical, and dental treatment and hospitalization, without charge, at Service hospitals and established medical care stations of the Public Health Service. In emergencies, such treatment may be

UNIVERSITY OF MARYLAND

furnished at private and other than Public Health Service facilities at Service expense when authorized. These services are furnished in accordance with the regulations contained in 42 CFR Part 31.

(1) *Group 1; Coast Guard.* (i) Commissioned officers, chief warrant officers, warrant officers, cadets, and enlisted personnel of the Regular Coast Guard, including those on shore duty and those on detached duty, whether on active duty or retired; (ii) Regular members of the Coast Guard Reserve when on active duty or when retired for disability; (iii) Temporary members of the Coast Guard Reserve when on active duty or in case of physical injury incurred or sickness or disease contracted while performing active Coast Guard duty; (iv) Members of the Women's Reserve of the Coast Guard when on active duty or when retired for disability; (v) Members of the Coast Guard Auxiliary in case of physical injury incurred or sickness or disease contracted while performing active Coast Guard duty.

(2) *Group 2; Coast and Geodetic Survey.* Commissioned officers, ship's officers, and members of the crews of vessels of the Coast and Geodetic Survey, including those on shore duty and those on detached duty, whether on active duty or retired.

(3) *Group 3; Public Health Service.* (i) Commissioned officers of the Regular Corps of the Service, whether on active duty or retired; (ii) Commissioned officers of the Reserve Corps of the Service when on active duty or when retired for disability.

(4) *Group 4.* Lightkeepers, assistant lightkeepers, and officers and crews of vessels of the former Lighthouse Service, including any such persons who, subsequent to June 30, 1939, have involuntarily been assigned to other civilian duty in the Coast Guard; who were entitled to medical care at hospitals and other stations of the Public Health Service prior to July 1, 1944; and who are now or hereafter on active duty or who have been or may hereafter be retired under the provisions of section 6 of the act of June 20, 1918, as amended (33 U. S. C. 763).

(b) *Form of application.* The applicant must present evidence of status or connection with the groups specified above.

(c) *Place of application.* Persons make application to the admitting office of a Public Health Service hospital or medical care station.

(d) *Emergency treatment.* In emergencies where application cannot be made in person to established facilities of the Service, an officer or other supervisory official of the organization concerned arranges for treatment or hospitalization at private and other than Service facilities at Public Health Service expense. As soon as possible, a report of the case is made to the Medical Officer in Charge of the nearest Service hospital or outpatient clinic. Transfer of the patient to an established Service facility or other Federal medical facility is effected as soon as the condition of the patient permits.

(e) *Eligibility for treatment.* (1) Upon examination of the certificate of identification or other written evidence of status, the receiving Service officer determines eligibility in accordance with regulations contained in 42 CFR Part 31. Treatment is then furnished at Public Health Service facilities, or at private facilities where the former are not available.

(2) When the admitting or authorizing official of the Service is in doubt as to eligibility, he submits a report of the case to the headquarters of the Public Health Service for decision by the Chief of the Division of Hospitals, or someone designated by him. Temporary care and treatment is furnished pending determination of eligibility.

SEC. 261 *Dependents and seamen on foreign flag vessels*—(a) *General statement.* The types of medical care available to two additional groups of beneficiaries of the Public Health Service are described below.

(1) *Group 1.* The following persons may receive medical advice and outpatient treatment at Public Health Service hospitals and medical care stations, and hospitalization at Service hospitals only. Hospitalization in hospitals of the Service will be at a per diem cost to the officer enlisted person or member of the crew concerned at the uniform rate set by the President for such dependents. Dependent members of the families of personnel in the:

(i) Coast Guard, commissioned officers, chief warrant officers, warrant officers, cadets, and enlisted personnel of the Regular Coast Guard, including those on shore duty and those on detached duty, whether on active duty or retired; and regular members of the United States Coast Guard Reserve and members of the Women's Reserve of the Coast Guard, when on active duty or when retired for disability.

(ii) Coast and Geodetic Survey: Commissioned officers, ships' officers, and members of the crews of vessels of the United States Coast and Geodetic Survey, including those on shore duty and those on detached duty, whether on active duty or retired.

(iii) Public Health Service: Commissioned officers of the Regular Corps of the Service, whether on active duty or retired, and commissioned officers of the Reserve Corps of the Service when on active duty or when retired for disability.

(2) *Group 2.* Seamen on foreign flag vessels may be hospitalized at Service hospitals and furnished out-patient treatment at Service hospitals or outpatient clinics of the Service at rates prescribed by the Surgeon General and approved by the Secretary.

(b) *Form of application*—(1) *Group 1.* Evidence of dependency status is acceptable in any appropriate form.

(2) *Group 2.* The foreign seamen must present an authorization for treatment signed by the master, owner or agent of the vessel; or by a responsible official of the consular office of the country concerned, such authorization to give evidence of agreement to reimburse.

(c) *Place of application.* Application is made to the admitting office of the hospital, or medical care station of the Public Health Service.

(d) *Eligibility for treatment.* The Public Health Service medical officer receiving the application will determine eligibility of the applicants for treatment and furnish the required services in accordance with applicable regulations.

(e) *Payment of bills*—(1) *Group 1.* The billing office of the Service hospital presents the patient with a bill, Form PHS–118, showing the number of days spent in the hospital and requesting that payment be made to the account of the Treasurer of the United States by check, money order, etc. Payment is made through the hospital.

(2) *Group 2.* Form PHS–118 is prepared and forwarded to the Collector of Customs for collection from the master, owner or agent of the foreign vessel or other responsible person or agency. Any voucherable expenditures authorized are paid by the responsible parties.

SEC. 262 *Persons afflicted with leprosy*—(a) *General statement.* Any person afflicted with leprosy residing in any State, Territory, or the District of Columbia may be received and treated at the U. S. Public Health Service Hospital (National Leprosarium), Carville, Louisiana. This service is furnished in accordance with regulations contained in 42 CFR Part 32.

(b) *Form of application.* The application for admission may be made by letter requesting permission to enter the hospital, personal presentation at the hospital, written or oral request through a State health officer, or any other appropriate communication to the Medical Officer in Charge, U. S. Public Health Service Hospital, Carville, Louisiana.

(c) *Place of application.* Application shall be made to the Medical Officer in Charge, U. S. Public Health Service Hospital, Carville, Louisiana.

(d) *Transfer of patients.* When diagnosis of leprosy has been confirmed, the Medical Officer in Charge of the U. S. Public Health Service Hospital, Carville, Louisiana may make arrangements for transfer of the patient to Carville at Service expense. Before transfer is undertaken, the patient must execute and sign a statement indicating his willingness to be so transferred.

(e) *Initial examination of arriving patients.* Upon arrival, the patient is examined by a board of three medical officers convened by the medical officer in charge for the purpose of final confirmation of the diagnosis. Treatment is prescribed for those whose conditions are confirmed; if diagnosis is not confirmed, the patients are discharged and returned to their homes.

(f) *Discharge.* The medical officer in charge of the hospital convenes a board of three medical officers and the patient is examined. A recommendation of the board that the patient be discharged is transmitted to the medical officer in charge for final consideration.

(g) *Notification to health authorities.* Upon discharge of a patient, the medical officer in charge of the hospital notifies the State health officer of the State where the patient expects to reside.

SEC. 263 *Narcotic drug addicts*—(a) *General statement.* Persons addicted to the use of habit-forming narcotic drugs who have been convicted of offenses against the United States, or who voluntarily submit themselves for treatment, are admitted and treated in hospitals of the Service especially equipped for the accommodation of such patients, in accordance with regulations contained in 42 CFR Part 33.

(b) *Prisoners and probationers.* (1) Prisoner addicts are admitted to such hospitals upon certification to the medical officer in charge by the Bureau of Prisons, Department of Justice. A certificate of addiction signed by the prosecuting officer, on the form "Preadmission Report of Drug Addiction in a Convicted Person," accompanies the prisoner. Custody and discharge are governed by rules and regulations of the Bureau of Prisons. For procedures regarding the granting, forfeiture, and restoration of industrial good time and good conduct allowances, see 42 CFR 33.2, 33.3.

(2) Addicts placed on probation are admitted upon presentation to the medical officer in charge of a copy of the court order establishing the probation and a certificate of addiction signed by the prosecuting or probation officer.

(3) Upon discharge of a prisoner or probationer from a Public Health Service Hospital, determination of the cash, clothing and transportation allowances are made by the medical officer in charge in accordance with 42 CFR 33.5, 33.6.

(c) *Ex-prisoner patients, admission.* One month prior to the expiration of sentence, each prisoner is examined by the medical officer in charge, or an officer designated by him, and is advised regarding further treatment. The prisoner may then apply for continued treatment on the form "Application of Prisoner for Treatment beyond Expiration of Sentence," obtained from the medical officer in charge. The completed application is then forwarded to the Medical Officer in Charge of the Public Health Service hospital for approval. If the application is approved, the prisoner remains in the hospital as an ex-prisoner in accordance with 42 CFR 33.4.

(d) *Voluntary patients; charge for subsistence, care and treatment.* (1) A person seeking admission as a voluntary patient to the Lexington, Kentucky, or Fort Worth, Texas, Public Health Service Hospitals for drug addiction must complete Form PHS–52 "Application for Voluntary Admission to a U. S. Public Health Service Hospital," and send it directly to the medical officer in charge of the hospital concerned. Complete instructions are printed on the reverse side of the form. A blank application form may be obtained from either of the Public Health Service Hospitals at Lexington, Kentucky, or Fort Worth, Texas, from other Service hospitals, or outpatient clinics, or by writing Division of Hospitals, U. S. Public Health Service, Washington 25, D. C.

(2) *Charge for care.* Voluntary patients are charged for their subsistence, care, and treatment. If patients are financially unable to pay, no charge is made.

(e) *Ex-prisoner and voluntary patients, discharge.* Ex-prisoner and voluntary patients are discharged by the medical officer in charge (1) upon cure, or (2) upon expiration of the maximum period estimated to effect a cure, or (3), when the presence of such patient becomes, in the opinion of the medical officer in charge, detrimental to the hospital. Indigent voluntary patients discharged as cured may be furnished transportation and meals while traveling, at Service expense, to any place within the continental United States, which, in the opinion of the medical officer in charge will afford the best opportunity for permanent rehabilitation.

SEC. 264 *Disposition of money and effects of deceased patients*—(a) *General statement.* The money and effects of deceased Public Health Service patients are surrendered to the legal representative of the estate of the deceased upon the basis of a claim (Form PHS–1226) filed with the Medical Officer in Charge of the hospital concerned. Persons other than the legal representative may file their claims for the valuables and effects of deceased patients on Form PHS–1226 with the Medical Officer in Charge. The forms are available at all Service hospitals. In any event, the money and effects of deceased Veterans Administration beneficiaries wil be forwarded to that Agency for disposition in accordance with its own regulations.

(1) *Delivery; money and valuables $1,000 or less.* After the expiration of 10 days from the time of sending notices to potential claimants, the medical officer in charge will deliver money and valuables, valued at $1,000 or less, to one of the persons in the priority order required by regulations contained in 42 CFR 35.44.

(2) *Delivery; money and valuables over $1,000.* If the value of the money and valuables is over $1,000, they may be delivered only to the legal representative if any.

(3) *Disposition; other.* If disposition is not possible in accordance with subparagraphs (1) and (2) of this paragraph, the patient's money (U. S. Currency and coin) is deposited in the Treasury of the United States to the credit of a trust-fund account when 120 days after the sending of notices have elapsed.

Likewise, unclaimed valuables, after six months from the death of the patient, are sold at public auction at the hospital or by sealed bids to the highest bidder and the proceeds deposited into the same trust-fund account as was the money.

Money so deposited in the Treasury of the United States is subject to claims by legal claimants against the estate of the deceased. Such persons will submit their claims to the Surgeon General, U. S. Public Health Service, Washington 25, D. C., on Standard Form 1055 which may be obtained from any of the hospitals of the Public Health Service. The claim will then be forwarded to the General Accounting Office for settlement.

FOREIGN QUARANTINE

SEC. 285 *General information*—(a) *Addresses of quarantine stations.* For addresses of Public Health Service Quarantine Stations and other field stations, see section 163 (a).

(b) *Penalty procedures.* For penalty procedures, see sections 311 and 312.

FOREIGN QUARANTINE: VESSELS

SEC. 287 *General statement.* Vessels departing from foreign ports for ports under the control of the United States are required to comply with quarantine regulations contained in 42 CFR Part 71, (a) at ports of departure, (b) while en route, and (c) at time of first arrival on each voyage at a port in the United States, in accordance with sections 361 to 368, inclusive, of the Public Health Service Act, as amended (42 U. S. C. 264–271). Definitions of terms used in the following sections on foreign quarantine are contained in 42 CFR 71.1.

SEC. 288 *Measures en route.* The occurrence or suspected occurrence on board of any of the communicable diseases listed or described in 42 CFR 71.31 while the vessel is en route, must be reported by radio to the medical officer in charge at the port of entry.

SEC. 289 *Measures at ports of arrival.* (a) Upon arrival at a port under control of the United States, unless exempted by 42 CFR 71.46, 71.47, vessels must anchor at a point designated by port authorities, or proceed to a point designated by the medical officer in charge, and await boarding and inspection by a quarantine officer of the U. S. Public Health Service. The vessel signifies its readiness for inspection by hoisting a yellow (Q) flag. The usual hours of boarding are 6 a. m. to 6 p. m., or 7 a. m., to 7 p. m. daily. Ships in distress or those carrying perishable cargoes may be boarded any hour.

(b) Usually, a quarantine officer and one or more sanitary inspectors board the vessel. Quarantine and sanitary operations and inspections are conducted in accordance with 42 CFR 71.64, 71.66–71.73, 71.81–71.91, 71.101–71.103, and 71.105–71.107.

(c) If inspection requirements are met satisfactorily, the master of the vessel is given a free pratique, signed by the quarantine officer. A pratique is a certificate issued by a quarantine officer releasing or provisionally releasing a vessel from quarantine. This certificate, which permits the vessel to enter the port, is presented to the Collector of Customs as evidence of compliance with quarantine regulations.

(d) If inspection requirements are not met satisfactorily, the vessel may be detained in quarantine, or a provisional pratique may be issued by the quarantine officer permitting the ship to enter the port, but specifying additional measures which must be met before or after discharge of cargo or landing of passengers. For example, it may require fumigation before the cargo is unloaded or after the cargo is partially or completely unloaded. After the conditions specified in the provisional pratique are met, a free pratique may be issued.

UNIVERSITY OF MICHIGAN LIBRARIES

furnished at private and other than Public Health Service facilities at Service expense when authorized. These services are furnished in accordance with the regulations contained in 42 CFR Part 31.

(1) *Group 1; Coast Guard.* (i) Commissioned officers, chief warrant officers, warrant officers, cadets, and enlisted personnel of the Regular Coast Guard, including those on shore duty and those on detached duty, whether on active duty or retired; (ii) Regular members of the Coast Guard Reserve when on active duty or when retired for disability; (iii) Temporary members of the Coast Guard Reserve when on active duty or in case of physical injury incurred or sickness or disease contracted while performing active Coast Guard duty; (iv) Members of the Women's Reserve of the Coast Guard when on active duty or when retired for disability; (v) Members of the Coast Guard Auxiliary in case of physical injury incurred or sickness or disease contracted while performing active Coast Guard duty.

(2) *Group 2; Coast and Geodetic Survey.* Commissioned officers, ship's officers, and members of the crews of vessels of the Coast and Geodetic Survey, including those on shore duty and those on detached duty, whether on active duty or retired.

(3) *Group 3; Public Health Service.* (i) Commissioned officers of the Regular Corps of the Service, whether on active duty or retired; (ii) Commissioned officers of the Reserve Corps of the Service when on active duty or when retired for disability.

(4) *Group 4.* Lightkeepers, assistant lightkeepers, and officers and crews of vessels of the former Lighthouse Service, including any such persons who, subsequent to June 30, 1939, have involuntarily been assigned to other civilian duty in the Coast Guard; who were entitled to medical care at hospitals and other stations of the Public Health Service prior to July 1, 1944; and who are now or hereafter on active duty or who have been or may hereafter be retired under the provisions of section 6 of the act of June 20, 1918, as amended (33 U. S. C. 763).

(b) *Form of application.* The applicant must present evidence of status or connection with the groups specified above.

(c) *Place of application.* Persons make application to the admitting office of a Public Health Service hospital or medical care station.

(d) *Emergency treatment.* In emergencies where application cannot be made in person to established facilities of the Service, an officer or other supervisory official of the organization concerned arranges for treatment or hospitalization at private and other than Service facilities at Public Health Service expense. As soon as possible, a report of the case is made to the Medical Officer in Charge of the nearest Service hospital or outpatient clinic. Transfer of the patient to an established Service facility or other Federal medical facility is effected as soon as the condition of the patient permits.

(e) *Eligibility for treatment.* (1) Upon examination of the certificate of identification or other written evidence of status, the receiving Service officer determines eligibility in accordance with regulations contained in 42 CFR Part 31. Treatment is then furnished at Public Health Service facilities, or at private facilities where the former are not available.

(2) When the admitting or authorizing official of the Service is in doubt as to eligibility, he submits a report of the case to the headquarters of the Public Health Service for decision by the Chief of the Division of Hospitals, or someone designated by him. Temporary care and treatment is furnished pending determination of eligibility.

SEC. 261 *Dependents and seamen on foreign flag vessels*—(a) *General statement.* The types of medical care available to two additional groups of beneficiaries of the Public Health Service are described below.

(1) *Group 1.* The following persons may receive medical advice and outpatient treatment at Public Health Service hospitals and medical care stations, and hospitalization at Service hospitals only. Hospitalization in hospitals of the Service will be at a per diem cost to the officer enlisted person or member of the crew concerned at the uniform rate set by the President for such dependents. Dependent members of the families of personnel in the:

(i) Coast Guard, commissioned officers, chief warrant officers, warrant officers, cadets, and enlisted personnel of the Regular Coast Guard, including those on shore duty and those on detached duty, whether on active duty or retired; and regular members of the United States Coast Guard Reserve and members of the Women's Reserve of the Coast Guard, when on active duty or when retired for disability.

(ii) Coast and Geodetic Survey: Commissioned officers, ships' officers, and members of the crews of vessels of the United States Coast and Geodetic Survey, including those on shore duty and those on detached duty, whether on active duty or retired.

(iii) Public Health Service: Commissioned officers of the Regular Corps of the Service, whether on active duty or retired, and commissioned officers of the Reserve Corps of the Service when on active duty or when retired for disability.

(2) *Group 2.* Seamen on foreign flag vessels may be hospitalized at Service hospitals and furnished out-patient treatment at Service hospitals or outpatient clinics of the Service at rates prescribed by the Surgeon General and approved by the Secretary.

(b) *Form of application*—(1) *Group 1.* Evidence of dependency status is acceptable in any appropriate form.

(2) *Group 2.* The foreign seamen must present an authorization for treatment signed by the master, owner or agent of the vessel; or by a responsible official of the consular office of the country concerned, such authorization to give evidence of agreement to reimburse.

(c) *Place of application.* Application is made to the admitting office of the hospital, or medical care station of the Public Health Service.

(d) *Eligibility for treatment.* The Public Health Service medical officer receiving the application will determine eligibility of the applicants for treatment and furnish the required services in accordance with applicable regulations.

(e) *Payment of bills*—(1) *Group 1.* The billing office of the Service hospital presents the patient with a bill, Form PHS–118, showing the number of days spent in the hospital and requesting that payment be made to the account of the Treasurer of the United States by check, money order, etc. Payment is made through the hospital.

(2) *Group 2.* Form PHS–118 is prepared and forwarded to the Collector of Customs for collection from the master, owner or agent of the foreign vessel or other responsible person or agency. Any voucherable expenditures authorized are paid by the responsible parties.

SEC. 262 *Persons afflicted with leprosy*—(a) *General statement.* Any person afflicted with leprosy residing in any State, Territory, or the District of Columbia may be received and treated at the U. S. Public Health Service Hospital (National Leprosarium), Carville, Louisiana. This service is furnished in accordance with regulations contained in 42 CFR Part 32.

(b) *Form of application.* The application for admission may be made by letter requesting permission to enter the hospital, personal presentation at the hospital, written or oral request through a State health officer, or any other appropriate communication to the Medical Officer in Charge, U. S. Public Health Service Hospital, Carville, Louisiana.

(c) *Place of application.* Application shall be made to the Medical Officer in Charge, U. S. Public Health Service Hospital, Carville, Louisiana.

(d) *Transfer of patients.* When diagnosis of leprosy has been confirmed, the Medical Officer in Charge of the U. S. Public Health Service Hospital, Carville, Louisiana may make arrangements for transfer of the patient to Carville at Service expense. Before transfer is undertaken, the patient must execute and sign a statement indicating his willingness to be so transferred.

(e) *Initial examination of arriving patients.* Upon arrival, the patient is examined by a board of three medical officers convened by the medical officer in charge for the purpose of final confirmation of the diagnosis. Treatment is prescribed for those whose conditions are confirmed; if diagnosis is not confirmed, the patients are discharged and returned to their homes.

(f) *Discharge.* The medical officer in charge of the hospital convenes a board of three medical officers and the patient is examined. A recommendation of the board that the patient be discharged is transmitted to the medical officer in charge for final consideration.

(g) *Notification to health authorities.* Upon discharge of a patient, the medical officer in charge of the hospital notifies the State health officer of the State where the patient expects to reside.

SEC. 263 *Narcotic drug addicts*—(a) *General statement.* Persons addicted to the use of habit-forming narcotic drugs who have been convicted of offenses against the United States, or who voluntarily submit themselves for treatment, are admitted and treated in hospitals of the Service especially equipped for the accommodation of such patients, in accordance with regulations contained in 42 CFR Part 33.

(b) *Prisoners and probationers.* (1) Prisoner addicts are admitted to such hospitals upon certification to the medical officer in charge by the Bureau of Prisons, Department of Justice. A certificate of addiction signed by the prosecuting officer, on the form "Preadmission Report of Drug Addiction in a Convicted Person," accompanies the prisoner. Custody and discharge are governed by rules and regulations of the Bureau of Prisons. For procedures regarding the granting, forfeiture, and restoration of industrial good time and good conduct allowances, see 42 CFR 33.2, 33.3.

(2) Addicts placed on probation are admitted upon presentation to the medical officer in charge of a copy of the court order establishing the probation and a certificate of addiction signed by the prosecuting or probation officer.

(3) Upon discharge of a prisoner or probationer from a Public Health Service Hospital, determination of the cash, clothing and transportation allowances are made by the medical officer in charge in accordance with 42 CFR 33.5, 33.6.

(c) *Ex-prisoner patients, admission.* One month prior to the expiration of sentence, each prisoner is examined by the medical officer in charge, or an officer designated by him, and is advised regarding further treatment. The prisoner may then apply for continued treatment on the form "Application of Prisoner for Treatment beyond Expiration of Sentence," obtained from the medical officer in charge. The completed application is then forwarded to the Medical Officer in Charge of the Public Health Service hospital for approval. If the application is approved, the prisoner remains in the hospital as an ex-prisoner in accordance with 42 CFR 33.4.

(d) *Voluntary patients; charge for subsistence, care and treatment.* (1) A person seeking admission as a voluntary patient to the Lexington, Kentucky, or Fort Worth, Texas, Public Health Service Hospitals for drug addiction must complete Form PHS–52 "Application for Voluntary Admission to a U. S. Public Health Service Hospital," and send it directly to the medical officer in charge of the hospital concerned. Complete instructions are printed on the reverse side of the form. A blank application form may be obtained from either of the Public Health Service Hospitals at Lexington, Kentucky, or Fort Worth, Texas, from other Service hospitals, or outpatient clinics, or by writing Division of Hospitals, U. S. Public Health Service, Washington 25, D. C.

(2) *Charge for care.* Voluntary patients are charged for their subsistence, care, and treatment. If patients are financially unable to pay, no charge is made.

(e) *Ex-prisoner and voluntary patients, discharge.* Ex-prisoner and voluntary patients are discharged by the medical officer in charge (1) upon cure, or (2) upon expiration of the maximum period estimated to effect a cure, or (3) when the presence of such patient becomes, in the opinion of the medical officer in charge, detrimental to the hospital. Indigent voluntary patients discharged as cured may be furnished transportation and meals while traveling, at Service expense, to any place within the continental United States, which, in the opinion of the medical officer in charge will afford the best opportunity for permanent rehabilitation.

SEC. 264 *Disposition of money and effects of deceased patients*—(a) *General statement.* The money and effects of deceased Public Health Service patients are surrendered to the legal representative of the estate of the deceased upon the basis of a claim (Form PHS–1226) filed with the Medical Officer in Charge of the hospital concerned. Persons other than the legal representative may file their claims for the valuables and effects of deceased patients on Form PHS–1226 with the Medical Officer in Charge. The forms are available at all Service hospitals. In any event, the money and effects of deceased Veterans Administration beneficiaries wil be forwarded to that Agency for disposition in accordance with its own regulations.

(1) *Delivery; money and valuables $1,000 or less.* After the expiration of 10 days from the time of sending notices to potential claimants, the medical officer in charge will deliver money and valuables, valued at $1,000 or less, to one of the persons in the priority order required by regulations contained in 42 CFR 35.44.

(2) *Delivery; money and valuables over $1,000.* If the value of the money and valuables is over $1,000, they may be delivered only to the legal representative if any.

(3) *Disposition; other.* If disposition is not possible in accordance with subparagraphs (1) and (2) of this paragraph, the patient's money (U. S. Currency and coin) is deposited in the Treasury of the United States to the credit of a trust-fund account when 120 days after the sending of notices have elapsed.

Likewise, unclaimed valuables, after six months from the death of the patient, are sold at public auction at the hospital or by sealed bids to the highest bidder and the proceeds deposited into the same trust-fund account as was the money.

Money so deposited in the Treasury of the United States is subject to claims by legal claimants against the estate of the deceased. Such persons will submit their claims to the Surgeon General, U. S. Public Health Service, Washington 25, D. C., on Standard Form 1055 which may be obtained from any of the hospitals of the Public Health Service. The claim will then be forwarded to the General Accounting Office for settlement.

FOREIGN QUARANTINE

SEC. 285 *General information*—(a) *Addresses of quarantine stations.* For addresses of Public Health Service Quarantine Stations and other field stations, see section 163 (a).

(b) *Penalty procedures.* For penalty procedures, see sections 311 and 312.

FOREIGN QUARANTINE: VESSELS

SEC. 287 *General statement.* Vessels departing from foreign ports for ports under the control of the United States are required to comply with quarantine regulations contained in 42 CFR Part 71, (a) at ports of departure, (b) while en route, and (c) at time of first arrival on each voyage at a port in the United States, in accordance with sections 361 to 368, inclusive, of the Public Health Service Act, as amended (42 U. S. C. 264–271). Definitions of terms used in the following sections on foreign quarantine are contained in 42 CFR 71.1.

SEC. 288 *Measures en route.* The occurrence or suspected occurrence on board of any of the communicable diseases listed or described in 42 CFR 71.31 while the vessel is en route, must be reported by radio to the medical officer in charge at the port of entry.

SEC. 289 *Measures at ports of arrival.* (a) Upon arrival at a port under control of the United States, unless exempted by 42 CFR 71.46, 71.47, vessels must anchor at a point designated by port authorities, or proceed to a point designated by the medical officer in charge, and await boarding and inspection by a quarantine officer of the U. S. Public Health Service. The vessel signifies its readiness for inspection by hoisting a yellow (Q) flag. The usual hours of boarding are 6 a. m. to 6 p. m., or 7 a. m., to 7 p. m. daily. Ships in distress or those carrying perishable cargoes may be boarded any hour.

(b) Usually, a quarantine officer and one or more sanitary inspectors board the vessel. Quarantine and sanitary operations and inspections are conducted in accordance with 42 CFR 71.64, 71.66–71.73, 71.81–71.91, 71.101–71.103, and 71.105–71.107.

(c) If inspection requirements are met satisfactorily, the master of the vessel is given a free pratique, signed by the quarantine officer. A pratique is a certificate issued by a quarantine officer releasing or provisionally releasing a vessel from quarantine. This certificate, which permits the vessel to enter the port, is presented to the Collector of Customs as evidence of compliance with quarantine regulations.

(d) If inspection requirements are not met satisfactorily, the vessel may be detained in quarantine, or a provisional pratique may be issued by the quarantine officer permitting the ship to enter the port, but specifying additional measures which must be met before or after discharge of cargo or landing of passengers. For example, it may require fumigation before the cargo is unloaded or after the cargo is partially or completely unloaded. After the conditions specified in the provisional pratique are met, a free pratique may be issued.

UNIVERSITY OF MICHIGAN LIBRARIES

(e) The Medical Officer in Charge of a Quarantine Station may grant pratique by radio as provided in 42 CFR 71.124.

(f) Vessels arriving from a foreign port are subject to deratting every 6 months. When a vessel is deratted or inspected and found free of rodents, a deratting certificate or deratting exemption certificate is issued by the medical officer in charge. The certificate is valid for six months.

SEC. 290 *Remanding of vessels.* (a) As applied to vessels, the term "remand" means the procedure by which a vessel coming from a foreign port may be kept under quarantine surveillance as it proceeds from one United States port to another. The quarantine officer of the port from which a vessel is remanded transmits in writing, to the Collector of Customs and the quarantine officer at the port to which the vessel is remanded, a notice that the vessel is to remain under observation or is to be subjected to further quarantine measures.

(b) *Vessels remanded to other United States ports.* (1) Vessels which have residue cargo for other United States ports sufficient in amount to prevent complete and final rat infestation inspection and on which the observed evidence of active rat life is insufficient to warrant deratting are remanded to the next United States port at which less cargo will be on board, for further inspection and for such treatment as may be indicated.

(2) Vessels which have arrived from plague ports and which contain an appreciable amount of residue cargo for other United States ports after deratting are remanded to the next United States port where cargo is to be discharged, for further search for rats and for such additional treatment as may be indicated. When a deratting certificate cannot be completed on account of inability to ascertain the results of deratting, the incomplete certificate is forwarded with the notice of remand to the station receiving the remand. The certificate is completed by the quarantine station making the final inspection and is delivered to the master or to the agents for the vessel. When deratting is required on a vessel from plague-free ports, the vessel is remanded as necessary to permit deratting when the vessel is empty or when the discharge of cargo is sufficient to allow adequate deratting.

(3) When a vessel has been granted provisional pratique and remanded to another quarantine station for fumigation, the master or agents are given explicit instructions in writing relative to the required fumigation.

(4) In remanding a vessel, full information as to the reason therefor is given to the station receiving the remand.

(5) Notice of remand is timed to reach its destination at least 48 hours ahead of the arrival of the vessel concerned, a telegram being sent when necessary.

(c) *Vessels remanded from other United States ports.* (1) If from plague ports, the vessel is treated as if direct from infected ports except that the vessel may be permitted to dock and to discharge cargo under supervision of the quarantine station. Quarantine treatment is predicated upon the finding of the inspection undertaken during the discharge of cargo. If the vessel has residue cargo for other United States ports and satisfactory inspection and treatment cannot be completed, it is remanded to the next port where cargo will be discharged.

(2) If from nonplague ports, the vessel is treated as if direct from a clean foreign port.

(d) Upon completion of quarantine treatment at a port to which a vessel has been remanded, a report of the action taken and of the results obtained is sent to the quarantine station which remanded the vessel.

FOREIGN QUARANTINE: AIRCRAFT

SEC. 293 *General statement.* Aircraft departing from a foreign port for a port under the control of the United States are required to comply with 42 CFR Part 71, at (a) ports of departure, (b) while en route, and (c) on first arrival on each flight at a port in the United States.

SEC. 294 *Measures before arrival.* Requirements regarding place of landing and advance notice of arrival are contained in 42 CFR 71.502, 71.503. The occurrence or suspected occurrence on board of any of the communicable diseases listed or described in 42 CFR 71.31, while the aircraft is en route, must be reported by radio to the medical officer in charge at or nearest the intended place of first landing.

SEC. 295 *Measures at airports of arrival.* (a) Upon arrival at an airport under the control of the United States, unless exempted by regulations, all aircraft are inspected by a quarantine officer of the Public Health Service. The aircraft commander is responsible for detention of the aircraft, its crew, and passengers pending their release by the quarantine officer. Cargo and other contents of the aircraft must be held at the airport or other place of first landing until released by the quarantine officer. As required by 42 CFR 71.65, the aircraft commander or authorized agent of the owner or operator of the aircraft must deliver to the quarantine officer immediately upon first landing (1) an aircraft general declaration (Customs form 7507, available from Collector of Customs) including information on: illness occurring on board; other condition that may lead to spread of disease; disinsecting or sanitary treatment of aircraft; and any animals, cultures of bacteria, fungi, or viruses, or other infectious agents on board; and (2) an air passenger manifest (form I–466, available from Superintendent of Documents, Government Printing Office, Washington 25, D. C.). The aircraft general declaration and air passenger manifest forms may be printed or dittoed by private parties, provided such forms conform to the officially printed forms currently in use, with respect to size, wording, arrangement, and paper.

(b) Usually a sanitary inspector boards the aircraft. The quarantine officer usually inspects the passengers in quarters outside the aircraft. Quarantine and sanitary operations (including insecticide spraying) and inspections are conducted in accordance with 42 CFR 71.66–71.73; 71.81–71.91; 71.101, 71.102, 71.104, 71.106; and 71.107.

(c) If inspection requirements are met satisfactorily, free pratique is issued and the passengers are released from quarantine jurisdiction and pass on to the jurisdiction of the Immigration and Naturalization Service and the Customs Service.

(d) If inspection requirements are not met satisfactorily—or in the case of infected aircraft—control measures, including surveillance, detention, and vaccination of persons, disinfection or disinfestation of the aircraft, issuance of provisional pratique, and remand of the aircraft to subsequent United States airports, may be undertaken as provided in 42 CFR Part 71.

(e) An aircraft arriving from a foreign airport may be required to proceed to another airport with all passengers, crew and cargo, for required quarantine and sanitary measures, upon determination by the quarantine officer that the aircraft cannot be adequately handled at the airport of arrival.

FOREIGN QUARANTINE: PERSONS

SEC. 298 *General statement.* Unless aboard an aircraft or vessel exempt under 42 CFR 71.46 or 71.47 all persons arriving at an airport or port under the control of the United States from a foreign country are subject to quarantine regulations contained in 42 CFR Part 71, in accordance with sections 361 to 368, inclusive, of the Public Health Service Act, as amended (42 U. S. C. 264–271).

SEC. 299 *Measures at port or airport of arrival.* (a) Upon arrival except as provided in 42 CFR 71.67, all persons, their personal effects and their records are subject to measures determined by the quarantine officer as necessary to prevent the introduction of communicable diseases into the United States. These measures, including isolation and surveillance, are set forth in 42 CFR 71.66–71.72 and 71.81–71.91.

(b) Aliens are subject to physical and mental examinations required by the Immigration and Naturalization Service. The examinations are made by medical officers of the Public Health Service.

SEC. 300 *Border quarantine.* Persons entering the United States at international border stations are subject to all pertinent requirements governing persons entering on aircraft or vessels, that is, detention, surveillance, vaccination, and other restrictions as set forth in 42 CFR 71.136 to 71.141.

SEC. 301 *Immunization certificates.* Evidence of immunity is acceptable when presented on a form approved by the World Health Organization and certified by an officer of the health authority of the country in which the immunization was administered or a political subdivision of that country, or by a physician designated by such health authority. Form PHS–731 (IHR), "International Certificates of Vaccination," is used for this purpose. This form is distributed with United States passport, application forms and is obtainable from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at $0.05 a copy or $2.50 per hundred. A limited number of copies may be obtained, without charge, from (1) the U. S. Public Health Service, Division of Foreign Quarantine, Washington 25, D. C., (2) the Regional Medical Directors, (3) the Public Health Service Hospitals, and (4) the Quarantine Stations of the Public Health Service. Upon application to the U. S. Public Health Service, private parties can obtain permission to print the form.

FOREIGN QUARANTINE: IMPORTATION OF CERTAIN THINGS

SEC. 303 *General statement.* (a) Quarantine regulations governing the importation of lather brushes, paittacine birds, cats, dogs, and monkeys, etiological agents and vectors, and dead bodies, are contained in 42 CFR 71.151 to 71.157, in accordance with sections 361 to 368, inclusive, of the Public Health Service Act, as amended, (42 U. S. C. 264–271).

(b) Information regarding procedures required to import any of these articles or animals may be secured from the U. S. Public Health Service, Division of Foreign Quarantine, Washington 25, D. C.

SEC. 304 *Leather brushes.* For procedures, see 42 CFR 71.151.

SEC. 305 *Psittacine birds.* For procedures, see 42 CFR 71.152, 71.153. Under these sections, prescribed Form PHS–1882 has been adopted for the request by the importer to the Surgeon General for a permit to import the birds.

SEC. 306 *Cats, dogs, and monkeys.* For procedures, see 42 CFR 71.154, 71.155.

SEC. 307 *Etiological agents and vectors.* Applications in writing for permits to import etiological agents and vectors, described in 42 CFR 71.156, should be addressed to the Surgeon General, U. S. Public Health Service, Washington 25, D. C. If the application is approved, the Surgeon General issues a "Permit to Import Quarantinable Material," and a copy is sent to the Quarantine Officer at the port of entry. The Collector of Customs will not release a shipment until he has received a permit from the Surgeon General. In special cases, the Surgeon General may issue a permit by telegram.

SEC. 308 *Dead bodies.* For procedures, see 42 CFR 71.157.

FOREIGN QUARANTINE: SPECIAL PROVISIONS RELATING TO PORTS AND AIRPORTS

SEC. 309 *General statement.* See 42 CFR Part 71, Subpart L, for provisions including requirements on: Water supply, waste disposal systems, and measures and facilities for insect and rodent control at ports or airports; food and water sources for vessels and aircraft; and waste disposal by aircraft.

FOREIGN QUARANTINE: PENALTY PROCEDURES

SEC. 311 *General statement.* Penalties for violations of quarantine regulations, 42 CFR Part 71, are prescribed in sections 367 and 368 of the Public Health Service Act, as amended (42 U. S. C. 270, 271).

SEC. 312 *Action following violations.*—(a) *Violations by persons.* When an apparent violation of quarantine laws or regulations has been committed by a person, he is formally notified in writing by the Collector of Customs, who sets forth the specific section of the Public Health Service Act or foreign quarantine regulations violated, advising that the matter is being reported to the Surgeon General of the U. S. Public Health Service for appropriate action. The case is referred to the medical officer in charge for transmission to the Surgeon General. The Surgeon General may or may not refer the case to the U. S. Department of Justice for prosecution, depending on the circumstances.

(b) *Violations by vessels or aircraft.* When an apparent violation by a vessel or aircraft has occurred, incurring a forfeiture under section 368 (b) of the Public Health Service Act, as amended, the owner is served with a formal written notice by the Collector of Customs, setting forth the specific section of the Public Health Service Act or foreign quarantine regulations violated and requiring that a Customs bond on Customs form 7567 or 7569 be given before the aircraft or vessel is permitted to depart. The owner or agent of the vessel or aircraft is informed that an application for mitigation or remission of the forfeiture incurred may be filed with the Surgeon General. The entire case, including petition for relief, is referred to the medical officer in charge for transmission, with recommendations, to the Surgeon General.

INTERSTATE QUARANTINE

SEC. 320 *General statement.* The interstate travel of persons who are capable of spreading a communicable disease or who are believed to be spreading a disease is governed by 42 CFR Part 72. The interstate transportation of articles which may be the source of a communicable infection are governed by these regulations. See 42 CFR Part 72, for interstate quarantine procedures.

GRANTS FOR HOSPITAL AND MEDICAL FACILITY SURVEY AND PLANNING

SEC. 327 *General statements.* (a) Federal funds are authorized to be made available (1) to assist States to inventory their existing hospitals and medical facilities (2) to survey the need for construction of hospitals and medical facilities and (3) to develop programs for construction of such public and other nonprofit hospitals and medical facilities as will, in conjunction with existing facilities, afford the necessary physical facilities for furnishing adequate hospital, clinical, and similar services to the people of the several States. "Hospital" includes public health centers as well as hospitals, and facilities related to either; "medical facilities" includes diagnostic or diagnostic and treatment centers, rehabilitation facilities, and nursing homes.

(b) These grants are made to legally designated State agencies in the 48 States, District of Columbia, Alaska, Hawaii, Puerto Rico, and the Virgin Islands in accordance with 42 CFR Part 53.

SEC. 328 *Making of allotments.* For Hospital Survey and Planning, the Surgeon General determines the allotment to each State in accordance with methods outlined in section 613 (a) of the Public Health Service Act as amended (42 U. S. C. 291c (a)). For medical facilities, the Surgeon General determines the allotment for each State in accordance with methods outlined in section 648 of the Act. State Agencies are notified of allotments by the Regional Medical Director.

SEC. 329 *Application and other required forms.* Forms and instructions for submitting applications may be secured from the Regional Offices of the Department of Health, Education, and Welfare. The forms should be submitted by the State Agency designated as the sole agency for carrying out the purposes of sections 601 (a) and 641 (a) of the Public Health Service Act, as amended (42 U. S. C. 291), to the Regional Offices for review and approval. The State agency is notified of final action by the Regional Medical Director. Amendments to these forms are handled in the same manner as the original forms.

SEC. 330 *Assistance in development of State programs.* The help of special consultants assigned to the Regional Office may be secured in developing State programs. In connection with their work, these consultants maintain close working relationships between the Public Health Service headquarters and State hospital survey and planning agencies.

SEC. 331 *Payments from allotments.* Upon approval of an application for a grant, a State agency may submit a request for payment. Payments are made according to specifications in 42 CFR Part 53.

SEC. 332 *Audits.* Fiscal audits are made of the expenditures by the State of grant and matching funds to insure that funds were spent in accordance with applicable laws, regulations, and approved plans. These audits are made by personnel attached to the Regional Offices. The Regional Medical Director notifies the State agency of the results of the audit.

HOSPITAL AND MEDICAL FACILITY PLANS AND CONSTRUCTION

SEC. 335 *General statement.* Following completion of a State inventory and survey of existing health facilities, each State develops and submits a State Plan for the construction of needed hospital and public health center facilities, diagnostic or diagnostic and treatment centers, rehabilitation facilities and nursing homes.

SEC. 336 *Format and content of State Plans.* The general form and content of State Plans are set forth in Title 2 of the Health Grants Manual which is available in the Regional and

UNIVERSITY OF MICHIGAN LIBRARIES

Washington offices of the Department and at State Agencies. State Plans set forth a program for the construction of general, mental, chronic disease, and tuberculosis hospital beds and facilities, public health centers, diagnostic or diagnostic and treatment centers, rehabilitation facilities, and nursing homes for all population groups within the State. The State Plans also establish a system for determining the priority of construction projects. In addition, State Plans set forth the basic State laws for administration of the program by the State, a description of the State Agency organization and functions, the membership of the State Advisory Council, the merit system rules governing personnel administration, standards of construction, standards of maintenance and operation where required by the Federal Act, methods of administration, fair hearing procedures for project applicants, and fiscal methods and procedures. Forms required to be filled out as a part of a State Plan are supplied on request by any of the Regional Offices.

SEC. 337 *Approval of State Plans.* State Plans are submitted in duplicate through the Regional Offices and are approved by the Surgeon General. Regional Office Consultants are available to assist in State Plan preparation. After approval by the Surgeon General, State Agencies are notified of such approval by Regional Medical Directors.

SEC. 338 *Revision and amendments to State Plans.* The regulations require annual revision of plans by State Agencies. The plan may be amended, however, as often as necessary to reflect changes in the requirements of the State for the types of health facilities covered by the act.

SEC. 339 *Delegation of final authority.* Final authority to approve amendments to State Plans, other than major modifications and annual revisions required by the regulations, has been delegated by the Surgeon General to the Regional Medical Directors.

SEC. 340 *Availability of Official Records.* State Agencies are required by the regulations to maintain on file for public information a copy of their approved State Plan. Members of the public may secure information concerning the approved State Plan from their State Agency.

SEC. 341 *Allotment and availability of hospital and medical facility construction funds.* Following the approval of the State Plan, funds are allotted to the State in accordance with the formula contained in the Public Health Service Act, as amended. Funds specifically allotted for diagnostic or diagnostic and treatment centers, chronic disease hospitals or nursing homes may under prescribed procedures be used interchangeably. Allotments are made each fiscal year thereafter. Allotments are certified to the Secretary of the Treasury and each State is notified of its allotment.

ADMINISTRATION AND DEVELOPMENT OF HOSPITAL AND MEDICAL FACILITY CONSTRUCTION PROGRAM

SEC. 343 *Project Construction Schedule*—(a) *General.* Following approval of the State Plan a project construction schedule is submitted, which outlines the construction projects to be undertaken during the fiscal year involved. The schedule is submitted to Regional Offices on Form PHS–224 in duplicate, and sets forth the name, location, category of facility, estimated cost, estimated Federal share and other data for each contemplated construction project. In submitting the project construction schedule, the State Agency must certify that the projects included thereon are of the highest priority, or that higher priority projects cannot meet the financial assurances or are not interested in construction during the fiscal year involved. The schedule may be amended by the State Agency as often as necessary.

(b) *Delegation of final authority.* Project Construction Schedules are reviewed in the Regional Offices for compliance with the Public Health Service Act, as amended, 42 CFR Part 53, instructions of the Public Health Service, and the approved State Plan. Final authority to take action on project construction schedules and amendments thereto other than for medical facilities authorized by PL 482, 83d Cong. 2d sess. has been delegated by the Surgeon General to the Regional Medical Directors.

APPLICATION FOR HOSPITAL AND MEDICAL FACILITY CONSTRUCTION FUNDS

SEC. 345 *Project construction applications.* Following approval of the State Plan, and in accordance with the Project Construction Schedule, States, political subdivisions, and nonprofit organizations may submit applications to their appropriate State Agency requesting Federal funds in the construction, expansion, remodeling, or alteration of a hospital, public health center, diagnostic or diagnostic and treatment center, rehabilitation facility, or nursing home. Applicants for a diagnostic or diagnostic and treatment center must be a State, or political subdivision, or an organization which owns and operates a nonprofit "hospital" as defined in the Act. The application must comply with Federal statutory and regulatory requirements, as well as any State requirements which may have been established, and must be consistent with the approved Plan and Construction Schedule. If the State Agency recommends approval, it certifies and transmits the application to the Regional Office. The application contains such data and certification by the applicant and State Agency as are essential to approval by the Surgeon General and in the case of rehabilitation facilities, by the Secretary and the Surgeon General. The State Agency may require submission of additional data by the applicant to support certifications by the State Agency regarding the accuracy and adequacy of the summary information included in the application. The application form consists of Parts 1, 2, 3, and 4 of Form PHS–62, "Project Construction Application," plans, and specifications. Final drawings and specifications accompany Part 4 of the application. Lists of equipment must be submitted by the applicant as soon as possible after the award of the construction contract and prior to requesting payments of Federal funds for equipment. Forms for use in preparation of specifications are available upon request to any Regional Office.

SEC. 346 *Wage rate determinations.* Under the Public Health Service Act, as amended, minimum wage rates as established by the Department of Labor must be paid in the construction of projects receiving Federal funds. To assist the Secretary of Labor in establishing such wage rates, the applicant is required to submit through the State Agency and Regional Office, Form PHS–531, listing current building construction wage data in the applicant's area.

SEC. 347 *Delegation of final authority.* Project Construction Applications, including drawings, specifications and equipment lists, are reviewed by the Regional Offices for compliance with Federal statutory and regulatory requirements and the approved State Plan and Project Construction Schedule. Except for medical facilities authorized under Pub. Law 482, 83d Cong., 2d Sess., final authority to approve such applications has been delegated by the Surgeon General to the Regional Medical Directors. In the event the application is not approved, it is forwarded to the Washington Office for further action. Applications for medical facilities projects are approved by the Surgeon General subject, in the case of rehabilitation facilities, to approval by the Director of Vocational Rehabilitation. The Regional Office notifies the State Agency in writing of the action taken.

SEC. 348 *Opportunities for hearings.* When an application is disapproved by a State Agency or an applicant is denied an opportunity to apply for Federal aid, such applicant is entitled to a hearing before the State Agency in accordance with procedures set forth in the approved State Plan. In instances where approval cannot be given to an application by the Regional Office the State Agency, under the terms of the Act, is afforded an opportunity for a hearing before the Surgeon General. The Act further provides for recourse to the Federal courts on the part of the State if the State is dissatisfied with the action of the Surgeon General in disapproving the application.

SEC. 349 *Encumbrance of allotments.* Upon approval of a Project Construction Application, the estimated amount of the Federal share is certified to the Secretary of the Treasury.

SEC. 350 *Bids, contract awards, and modifications.* Competitive bidding procedures must be followed by the applicant and the award of the contract must be made to the responsible bidder submitting the lowest acceptable bid. Actual construction work must be performed by the lump sum (fixed price) contract method. Contracts awarded to other than the responsible bidder submitting the lowest bid must be justified to the State Agency and the Regional Office. Copies of the executed agreements between the applicant and successful bidder are submitted in duplicate through the State Agency to the Regional Office. All contract modifications must be approved by the State Agency and Regional Office. The nature and extent of such modifications determine whether or not they may be authorized immediately by the applicant, or whether approval of the State Agency and Regional Office is required.

SEC. 351 *Inspections and payment procedures*—(a) *State inspections.* Payments to applicants are made on the basis of inspections conducted by State Agencies and certifications made by the State Agencies to the Public Health Service.

(b) *Payments.* Payments are certified on Form PHS–459 "Public Voucher for Installment Payments," which is prepared by State Agencies in quadruplicate. At the time of inspection, the representative of the State Agency and the applicant prepare and sign the Form PHS–530 "Project Progress Report," which constitutes the basis for the preparation of the voucher and accompanies it in duplicate. In certain instances where a State itself may not legally make payment to applicants, payments are made directly to the applicant.

(c) *Federal inspection and withholding of payments.* Inspections are made by Public Health Service Regional Office representatives to determine compliance with the approved application, including plans and specifications, and to ascertain whether or not certain defaults as specified in the Public Health Service Act, as amended, have occurred which require the withholding of payments and certifications. If, in the opinion of the Regional Office, there has been a default justifying the withholding of payment, a recommendation to that effect is submitted to the Surgeon General. Prior to final decision by the Surgeon General, an opportunity for a hearing is afforded the State Agency.

SEC. 352 *Audits.* Audits of the fiscal aspects of projects are made periodically by personnel attached to Regional Offices, after arrangements with project applicants and the State Agencies. Audit exceptions which may be taken are reviewed by the Regional Medical Director and referred to the Department's Division of Grant-in-Aid Audits and to the Bureau of State Services' Division of General Health Services, respectively. The Chief of the Bureau of State Services determines whether the exception shall be sustained or withdrawn. Exceptions appealed by a State Agency are handled in a similar manner. The Regional Medical Director is notified of final action and he notifies the State Agency.

SEC. 353 *Assistance in administration.* Consultants assigned to Regional Offices assist the States in planning, developing and executing their construction programs. Close working relationships are maintained with the State Agencies for this purpose.

SEC. 354 *Places at which public may secure information.* Interested and prospective applicants for Federal funds under the Public Health Service Act, as amended, may secure information and necessary application forms from their appropriate State Agency. The Regional representatives of the Service will refer such prospective applicants to the appropriate State Agency.

GRANTS TO STATES FOR HEALTH SERVICES

SEC. 355 *General statement.* The Public Health Service makes grants for (1) veneral disease control, (2) tuberculosis control, (3) general health purposes, (4) community mental health services, (5) heart disease control, (6) cancer control, and (7) research and studies relating to the control and prevention of water pollution caused by industrial wastes. These grants are made to designated State agencies (and, in the case of water pollution grants, interstate agencies) in 48 States, District of Columbia, Alaska, Hawaii, Puerto Rico, and the Virgin Islands in accordance with 42 CFR Parts 51, 52, 55.

SEC. 356 *Allotments.* The Surgeon General, in accordance with regulations, makes allotments to each State from the sums appropriated by Congress. States are notified of these allotments through the Regional Offices as soon as possible after appropriations become available.

SEC. 357 *Approval of plans.* State agencies submit to Regional Offices prior to the beginning of each fiscal year, State plans or (for water pollution control) applications for grants which indicate the purposes for which grant and matching funds will be spent. Authority to approve such State plans for these grants has been delegated to Regional Medical Directors.

SEC. 358 *Payments from allotments.* With exception of water pollution funds, quarterly payments are made upon request to those States which have approved plans and which have submitted all of the required reports.

SEC. 359 *Forms and instructions.* Necessary forms and instructions used in the grant-in-aid program are available from the Regional Offices.

SEC. 360 *Consultant services.* Consultants in a variety of public health specialties, administrative management and merit system operations are available to States upon request made to the Regional Offices.

SEC. 361 *Fiscal audits.* Fiscal audits are made of the expenditures by the State of grant and matching funds to insure that funds were spent in accordance with applicable laws, regulations, and approved plans. These audits are made by personnel attached to the Regional Offices. The Regional Medical Director notifies the State agency of the results of the audit.

WATER POLLUTION CONTROL

SEC. 365 *General Statement.* The Division of Sanitary Engineering Services in the Bureau of State Services is responsible for carrying out the provisions of 42 CFR Part 55 having to do with control of pollution of the Nation's waters.

SEC. 366 *Development of comprehensive programs.* The Division of Sanitary Engineering Services is preparing comprehensive programs for eliminating or reducing the pollution of interstate waters and their tributaries, and for improving the sanitary conditions of surface and underground waters for various water uses, including public water supplies, propagation of fish and aquatic life, recreational purposes, and agricultural, industrial and other legitimate uses. These programs are being developed by river basins and sub-basins, numbering approximately 226. The programs consist of the listing of pollution sources, acceptable water uses, and recommendation of the remedial measures necessary to realize the uses. These programs are flexible and subject to adjustment because of changes in industrial activity and in industrial processes and because of shifting population.

SEC. 367 *Investigations, research and technical assistance.* This division aids and supports technical research to devise and perfect methods of treatment of industrial wastes for which known methods of treatment are inadequate. These studies, and other technical assistance, surveys, investigations, research, or experiments relating to water pollution and its prevention and abatement conducted by the Public Health Service and cooperating agencies, are made available to States, interstate agencies, municipalities, industries and individuals. Upon request of any State water pollution agency or interstate agency, the Division of Sanitary Engineering Services conducts investigations and research, and makes surveys concerning specific problems of water pollution confronting a State, interstate agency, community, municipality, or industrial plant. The division may, if necessary in discharging its legal obligations, initiate investigative studies of water pollution.

SEC. 368 *Financial aid.* The Public Health Service is authorized to make loans to State, municipal, or interstate agencies for the construction of necessary treatment works to prevent the discharge of untreated or inadequately treated sewage or other waste into interstate waters or into tributaries of such waters, and for the preparation of engineering reports, plans, and specifications for such treatment works. The Public Health Service is also authorized to make grants for action preliminary to the construction of such treatment works. These loans and grants are subject to provisions and limitations specified in 42 CFR Part 55, and when funds are available, will be administered by the Division of Sanitary Engineering Services in cooperation with the Division of General Health Services, Bureau of State Services. Grants are authorized to be made to State and interstate agencies for studies relating to the treatment of industrial waste.

UNIVERSITY OF MICHIGAN LIBRARIES

SEC. 369 *Abatement of a public nuisance.* The pollution of interstate waters, which endangers the health or welfare of persons in a State other than that in which the pollution originates, is declared to be a public nuisance and is subject to abatement, section 2 (d) of the Water Pollution Control Act (sec. 2, 62 Stat. 1155; 33 U. S. C. 466a). The Division of Sanitary Engineering Services is responsible to the Surgeon General for carrying out the provisions of the Water Pollution Control Act in respect to public nuisances of this kind.

[File No. 70-3385]

STANDARD POWER AND LIGHT CORP.

ORDER AUTHORIZING PROPOSED CASH DISTRIBUTION OUT OF CAPITAL SURPLUS

JUNE 14, 1955.

Standard Power and Light Corporation ("Standard Power"), a registered holding company, has filed a declaration with this Commission pursuant to section 12 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-46 promulgated thereunder in respect of a proposal by Standard Power to make a cash distribution of $0.35 per share, in part out of earned surplus to the full extent thereof which at April 30, 1955 amounted to $215,362 and the balance out of capital surplus, which as of the same date was $111,267,689, to each holder of record on June 24, 1955 of its outstanding 1,320,000 shares of common stock and 110,000 shares of common stock, Series B.

Standard Power represents that its only outstanding obligations senior to the common stock are two bank loans, one in the amount of $1,500,000 which matures on July 29, 1955, and the other in the amount of $200,000 which matures on October 26, 1955. It is stated in the declaration that these loans will not be adversely affected by the proposed cash distribution since Standard Power has sufficient marketable securities to enable it to raise any balance of cash required to pay the loans when they become due.

The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the the proposed cash distribution. The fees and expenses to be incurred in connection with said distribution are estimated not to exceed $1,000 including counsel fees not in excess of $500.

Notice of the filing of the declaration having been duly given in the manner prescribed by Rule U-23 promulgated under the act, and no hearing having been requested of, or ordered by, the Commission; and

The Commission having examined said declaration and the record in respect thereof and finding with respect thereto that the applicable provisions of the act and the rules and regulations thereunder have been satisfied, and observing no basis for adverse findings in connection therewith; and the Commission deeming it appropriate in the public interest and in the interest of investors that said declaration be permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and the additional terms and conditions set forth below:

It is ordered, Pursuant to the applicable provisions of the act and the rules and regulations thereunder, that said declaration be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed by Rule U-24, and subject to the following additional terms and conditions:

That Standard Power shall accompany the cash distribution checks with a statement to the effect:

(1) That Standard Power filed a declaration with the Commission pursuant to section 12 of the act and the Commission permitted the declaration to become effective without determining whether and to what extent the payment is being made out of capital or unearned surplus; and

(2) That the Commission's action in permitting the declaration to become effective is not to be construed as a determination by the Commission that all or any portion of such payment is or is not taxable to the recipients pursuant to the provisions of the Internal Revenue Code.

By the Commission.

Secretary.

ments with CCC, or by the New Orleans office. Disbursement of loans by approved lending agencies will be made not later than April 30, 1956, except where specifically approved by the New Orleans office in each instance. The producer shall not present the loan documents for disbursement unless the cotton is in existence and in good condition. If the cotton is not in existence and in good condition at the time of disbursement, the producer shall promptly refund the proceeds.

§ 427.603 *Approved lending agency.* An approved lending agency shall be any bank, corporation, partnership, association, individual, or other legal entity which has entered into a Lending Agency Agreement-Cotton (CCC Cotton Form D, Rev. June 15, 1954) with CCC. Banks and other agencies desiring to enter into Lending Agency Agreements should make application to the New Orleans Office, which will enter into such agreements on behalf of CCC.

§ 427.604 *Producer.* A producer shall be any individual, partnership, corporation, association, trust, estate, or other legal entity, or a State or political subdivision thereof, or an agency of such State or political subdivision, producing eligible upland or extra long staple cotton in the capacity of landowner, landlord, tenant or sharecropper.

§ 427.605 *Eligible producer.* A producer will be entitled to a loan on eligible upland or extra long staple cotton produced by or for him in 1955 on a farm (as defined for purposes of cotton marketing quotas) for which a 1955 acreage allotment for such kind of cotton has been determined under Title III of the Agricultural Adjustment Act of 1938, as amended and supplemented, if all of the following requirements are met:

(a) The 1955 planted acreage (as determined for purposes of cotton marketing quotas) of such kind of cotton on the farm does not exceed the 1955 cotton acreage allotment for the farm for such kind of cotton. For the purpose of determining eligibility for a loan, the upland or extra long staple cotton acreage on the farm will not be deemed to be in excess of the acreage allotment for such cotton unless such acreage allotment for such kind of cotton is knowingly exceeded. If the producer operating the farm is notified that such acreage allotment has been exceeded and the planted acreage is not adjusted to such acreage allotment within the period allowed under the notice, such acreage allotment shall be deemed to have been knowingly exceeded by the producers having an interest in the cotton.

(b) Where eligible cotton is produced by a landlord and his share tenant or sharecropper, a loan may be obtained only as follows:

(1) If the cotton is divided among the producers entitled to share in such cotton, each landlord, tenant, or sharecropper may obtain a loan on his separate share.

(2) If the cotton is not divided, (i) the landlord and one or more of the share tenants or sharecroppers may obtain a joint loan on their shares of such cotton, or (ii) the landlord may obtain a loan on cotton in which both he and one or more share tenants or sharecroppers have an interest if he has the legal right to do so, and in such cases the share tenants or sharecroppers must be paid their pro rata share of the loan proceeds and their pro rata share of any additional proceeds received from the cotton. In no case shall a share tenant or sharecropper obtain a loan individually on cotton in which a landlord has an interest.

§ 427.606 *Eligible cotton.* Eligible cotton shall be upland cotton produced in the United States in 1955 or extra long staple cotton planted in 1955 and produced in areas designated under § 427.602, which meets the following requirements:

(a) Such cotton must be of a grade and staple length specified in § 427.632.

(b) Such cotton must not be false packed, waterpacked, mixed-packed, reginned, or repacked; upland cotton must not have been reduced in grade because gin-cut, or because of extraneous matter such as grass, sand, oil, dust, whole seeds, parts of seeds, motes, stems, bark, etc.; extra long staple cotton must have been ginned on a roller gin, shall be of normal character, and must not have been reduced in grade or staple on account of irregularities or defects.

(c) Such cotton must not be compressed to high density.

(d) Such cotton must have been produced by the person tendering it for a loan and such person must have the legal right to pledge or mortgage it as a security for a loan.

(e) If the person tendering such cotton is a landlord or landowner, the cotton must not have been acquired by such landlord or landowner directly or indirectly from a share tenant or sharecropper and must not have been received in payment of fixed or standing rent; and if it was produced by him in the capacity of landlord, share tenant or sharecropper, it must be his separate share of the crop, unless he is a landlord and is tendering cotton in which both he and one or more share tenants or sharecroppers have an interest.

(f) The person or association tendering such cotton must not have previously sold and repurchased such cotton.

(g) Each bale of such cotton must weigh not less than 300 nor more than 700 pounds, gross weight, and must be adequately packaged in new material manufactured for cotton bale covering, except used jute and sugar bagging will be acceptable if such bagging is clean and in sound condition. Heads of bales must be completely covered. New bagging used in the cotton Experimental Bale Cover Program will be acceptable, provided the bales covered with such bagging are tagged to identify them with such program.

§ 427.607 *Forms.* The following documents must be delivered by producers in connection with every loan except loans made pursuant to §§ 427.624 and 427.630.

(a) *Warehouse-stored loans.* (1) Cotton Producer's Note and Loan Agreement (CCC Cotton Form A, referred to in this subpart as "Form A").

(2) Warehouse receipts complying with the provisions of § 427.619.

(3) Producer's Letter of Transmittal (CCC Cotton Form B, referred to in this subpart as "Form B") if the loan is obtained direct from the New Orleans office.

(b) *Farm-stored loans.* (1) Cotton Producer's Note (CCC Cotton Form E, referred to in this subpart as "Form E").

(2) Cotton Chattel Mortgage (CCC Cotton Form F, referred to in this subpart as "Form F") and Cotton Mortgage Supplement (CCC Cotton Form FF, referred to in this subpart as "Form FF") covering the cotton tendered as security for a loan.

(3) Form B if the loan is obtained direct from the New Orleans office.

(c) *Cotton represented by order bills of lading.* (1) Form A executed within the area and during the period such loans are available.

(2) Order bill of lading in a form acceptable to CCC and representing the cotton tendered as security for the loan.

(3) If the Receiving Agency is not a warehouseman, Weight and Condition Certificates complying with the provisions of § 427.622 and a Receiving Agent's Certificate.

(4) Form B if the loan is obtained direct from the New Orleans office.

(d) Loan documents executed by an administrator, executor or trustee will be acceptable only where valid in law and must be accompanied by documentary evidence of the authority of the person executing the form or by a repurchase agreement of the lending agency. Copies of this agreement may be obtained from the New Orleans office. State documentary revenue stamps shall be affixed to loan documents where required by law. A producer who desires to appoint an attorney-in-fact to act in his place and stead in obtaining loans shall use Power of Attorney (CCC Cotton Form 18) which must be filed with the New Orleans office.

§ 427.608 *Approved storage.* Loans will be made only on cotton in approved storage.

(a) *Warehouses.* Cotton will be accepted as security for loans only if stored by warehouses approved by CCC. Warehousemen desiring approval of their facilities should communicate with the New Orleans office. The names of approved warehouses may be obtained from the New Orleans office or State or county offices.

(b) *Farm storage.* Cotton in farm storage will be accepted as security for loans only if stored in a structure approved by the county committee for the county in which the cotton is stored. Such structures may be on or off the farm and must afford safe storage and protection against weather damage, poultry and livestock, and reasonable protection against fire and theft. If the producer does not own the premises where the cotton is stored and his lease on such premises expires prior to September 30, 1956, the owner of such premises must execute the Consent for Storage on the Cotton Mortgage Supplement. Any other tenant who has a right or interest in the premises must also execute the Consent for Storage.

(ii) Sea Island and Sealand cotton produced in Atkinson, Berrien, Cook, and Lanier Counties, Georgia; and Alachua, Columbia, Hamilton, Jefferson, Lake, Madison, Marion, Orange, Putnam, Seminole, Sumter, Suwannee, Union, and Volusia Counties, Florida; and Sea Island cotton produced from seed planted in 1955 in Puerto Rico at the rates shown in § 427.632.

(c) *Time.* Loans shall be available from the date rates are announced through April 30, 1956. Notes and chattel mortgages covering farm-stored cotton must be signed by the producer and delivered to the county office on or before April 30, 1956. Note and Loan Agreements covering warehouse-stored cotton must be signed by the producer and delivered to the lending agency on or before such date or postmarked not later than April 30, 1956, if tendered for direct loans to the New Orleans office by mail.

(d) *Source.* Loans will be available from approved lending agencies or from the New Orleans office. Disbursements on loans will be made to producers by approved lending agencies under agree-

§ 427.609 *Weight and rate.* (a) Loans will be made on the gross weight of upland cotton and on the net weight of extra long staple cotton. Notes covering cotton pledged on reweights will not be accepted if it is evident that such reweights reflect an increase in weight due to the absorption of additional moisture. An allowance of 7 pounds per bale will be made for bales of upland cotton covered with cotton bagging. Such bagging must have been manufactured specifically for covering cotton bales.

(b) The base loan rate for upland cotton applicable at each approved warehouse will be shown in the Schedule of Base Loan Rates for Warehouse-Stored Upland Cotton.[1] The base loan rate under the farm-stored program for upland cotton for each county will be shown in the Schedule of Base Loan Rates by Counties for Farm-Stored Upland Cotton.[1] These schedules will be available at county offices. The premium or discount applicable to each eligible grade and staple length of upland cotton is shown in § 427.632. Loan rates for extra long staple cotton are also shown in § 427.632. After a loan is made, CCC will not be obligated to make adjustments in the amount of the loan as a result of any subsequent redetermination of the weight or quality of the cotton.

§ 427.610 *Preparation of documents.* All applicable blanks on the loan forms must be filled in with ink, indelible pencil, or typewriter in the manner indicated therein, and documents containing additions, alterations, or erasures may be rejected by CCC. (Forms A having a date prior to March 4, 1954, shall not be used.) Both copies should be clearly legible. The spaces provided on Forms A and E for the producer to request and direct payment of the proceeds must be completed in every instance. All disbursements made from the proceeds of a note, including clerk's fee when deducted, must be shown and the total must agree with the amount of the note. In the case of warehouse-stored cotton, care should be exercised by the lending agency to determine that the warehouse receipts are genuine. No deduction may be made from the loan proceeds by the lending agency as a charge for handling the loan documents, except the authorized clerk's fee in case an employee of the lending agency has executed the Clerk's Certificate on Form A. Before the clerk prepares loan documents for a producer, he must determine that the producer is eligible for a loan. The county committee, in preparation of the producer's marketing card, will indicate on the reverse side of the card the producer's eligibility. If the box following the word "Eligible" contains an "X" the clerk will use this as evidence that the producer is eligible for a loan and shall assist the producer in the preparation of his loan documents. If the box following the words "Ineligible unless Loan Agreement Approved by County Committee" contains an "X" the clerk shall inform the producer that in order for him to obtain a loan he must have his loan documents prepared in the county office. If the box following the word "Ineligible" contains an "X", the producer cannot obtain a loan on such kind of cotton produced on that farm under any condition and should be so informed by the clerk. In the event that the marketing card indicates that the producer is eligible but shows evidence of any alteration or erasure, the clerk should not prepare loan documents and should inform the producer that the documents will have to be prepared in the county office. Lending agencies which are also eligible producers must obtain direct loans on cotton produced by them from the New Orleans office or obtain loans from another approved lending agency.

(a) *Warehouse-stored cotton.* A producer desiring to obtain a loan on warehouse-stored cotton may obtain the necessary forms from county offices, approved lending agencies, approved warehouses, and approved clerks (persons approved by the county committees to assist producers in preparing and executing the loan forms). The Clerk's Certificate on each Form A tendered for a loan must be executed by an approved clerk, who will assist the producer in the preparation and execution of the Form A. The original of Form A must be signed by the producer and the copy marked producer's copy is to be retained by the producer. All of the cotton pledged as security for any loan must be of the same grade and staple length and must be stored in the same warehouse.

(b) *Farm-stored cotton.* A producer desiring to obtain a loan on farm-stored cotton should communicate with the county office in the county in which the cotton is to be stored. It will be the responsibility of the county committee to arrange for the inspection of the storage structure and to approve it if it determines that it is of such construction as to afford adequate storage for the cotton. The county office will furnish and prepare the necessary documents for a farm-stored loan.

§ 427.611 *Service charges and deposits.* No service charges will be collected in connection with warehouse loans. A service charge of $1.00 per bale with a minimum of $3.00 per loan will be collected by the county office from the producer to cover services rendered in connection with farm-stored loans. State committees are authorized to require prepayment of $3.00 of the service charge. No refund of service charges will be made. A deposit of $1.00 per bale will also be collected from the producer to guarantee delivery of farm-stored cotton if the loan is not repaid by the producer. Such deposit will be returned if the loan is repaid or the cotton is delivered in accordance with delivery instruction issued by the county office. If the producer does not deliver the cotton upon demand by CCC, the county office will arrange delivery and retain the deposit. If delivery costs exceed the deposit, the producer will be liable for the difference.

§ 427.612 *Fees.* The clerk or county office employee assisting the producer in the preparation of the loan documents may collect a fee from the producer not to exceed the fees shown in the following schedules:

Number of bales on note:	*Maximum fee allowed*
1	25 cents.
2–6	25 cents plus 15 cents for each bale over 1.
7–18	$1 plus 10 cents for each bale over 6.
19 and over	$2.20 plus 5 cents for each bale over 18.

§ 427.613 *Liens.* Eligible cotton must be free and clear of all liens except the warehouseman's lien for charges permitted under § 427.621 on warehouse-stored cotton. The signatures of the holders of all existing liens on cotton tendered as security for a loan, such as landlords, laborers, or mortgagees (but not the warehouseman, if the cotton is stored in a warehouse) must be obtained on the Lienholder's Waiver on each Form A and Form FF. If the producer tendering the cotton for loan is not the owner of the land on which the cotton was produced, all landowners and landlords must sign the Lienholder's Waiver whether or not they claim liens, unless they sign the note jointly with the producer. A fraudulent representation, as to prior liens or otherwise, will render the producer personally liable under the terms of the Loan Agreement and subject him to criminal prosecution under the provisions of the Commodity Credit Corporation Charter Act. The Lienholder's Waiver must be signed personally by all lienholders, by their agents (in which case duly executed Powers of Attorney (CCC Cotton Form 18) must be filed with the New Orleans office), or, if a corporation, by the designated officer thereof customarily authorized to execute such instruments (in which case no authority need be attached).

§ 427.614 *Set-offs.* If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due or are payable or prepayable under the provisions of the note evidencing such loan, out of the proceeds of the price support loan, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of service charges, clerks' fees, and amounts due prior lienholders. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided above. Indebtedness owing to CCC or to a lending agency as provided above shall be given first consideration after claims of prior lienholders. In any such case, the producer must go to the county office in the county in which he is listed on the debt register and have his loan documents completed by a clerk in the county office. A clerk in the county office will assist the producer in the preparation of such loan documents and will show in the space provided in the notes the agency to which the checks should be issued and the amount to be collected from the note. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 427.615 *Classification of cotton.* (a) All cottcn tendered for loan must be classed by a Board of Cotton Examiners of the United States Department of Agriculture (hereinafter referred to as the "Board") and tendered on the basis of such classification. A Cotton Classification Memorandum Form 1 of the United States Department of Agriculture will be accepted, provided the sample is a representative sample drawn in accordance with instructions to organized cotton improvement groups for sampling cotton under the 1955 Smith-Doxey Program. If the producer's cotton has not been sampled for a Form 1 classification, the warehouseman (for warehouse-stored cotton), receiving agency (for cotton covered by bills of lading), or county office (for farm-stored cotton), shall sample such cotton and forward the samples to the Board serving the district in which the cotton is located. A Cotton Classification Memorandum Form A3 must be inserted in each such sample. A Tag List and Record Sheet (CCC Cotton Form L, referred to in this subpart as "Form L"), must be prepared by the warehouseman, receiving agency or county office, listing each sample included in a shipment to the Board. A copy of such Form L shall be included with the samples and two copies must be mailed separately to the Board. The Board will enter the classification of each bale on the Form L and return a copy of such form to the warehouse, receiving agency or county office. The Cotton Classification Memorandum Form A3 will be returned to the producer by the Board. If a sample has been drawn and submitted for a Form 1 or Form A3 classification, another sample may not be drawn and forwarded to a Board except for a review classification or a reclassification in lieu of review. If a Form 1 or Form A3 review classification or reclassification in lieu of review is obtained, the loan value of the cotton represented thereby will be based on such review classification or reclassification.

(b) A charge of 25 cents per bale shall be collected from the producer by the warehouseman, receiving agency, or county office for all cotton for which samples are submitted to a Board for a Form A3 classification. The Boards will submit billings for classing charges to the warehousemen, receiving agencies, and county offices at the end of each month. Checks or money orders covering these charges shall be made payable to "Commodity Credit Corporation" and shall be sent to the New Orleans office.

§ 427.616 *Interest rate.* Loans and charges on the cotton covered by the loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement to the date of repayment, except that in the case of default in satisfaction of loans on farm-stored cotton, loans will bear interest at the rate of 6 percent per annum from the date of default to the date of repayment.

§ 427.617 *Maturity.* (a) Loans mature July 31, 1956, or upon such earlier date as CCC may make demand for payment. If a producer does not repay his loan by maturity, CCC has the right to sell, purchase, or pool the cotton securing the loan in accordance with the provisions of the loan agreement. If the cotton is pooled, the producer will no longer have a right to redeem the cotton but will share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat any pooled cotton as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of cotton, even though part or all of such pooled cotton is disposed of under such policies at less than the current domestic price for such cotton.

(b) Any sum due the producer as a result of the sale or purchase of the cotton or collections of insurance proceeds therefrom, or his ratable share from a pool, shall be payable only to the producer or his personal representative without right of assignment to or substitution of any other person.

(c) If the producer does not repay his loan on farm-stored cotton on or before maturity, he is required to deliver the cotton in accordance with the provisions of Form FF, and if the cotton is not delivered by the producer, the holder of the note may enter on the premises where the cotton is stored and remove the cotton. Upon such delivery or removal, the holder may dispose of the cotton in accordance with the provisions of this section.

§ 427.618 *Safeguarding farm-stored cotton.* The producer obtaining a loan on farm-stored cotton is obligated to maintain the farm-storage structure in good repair and to keep the cotton in good condition. The producer will be responsible for any loss or damage occurring through the fault or negligence of the producer or as a result of any cause other than fire, flood, lightning, explosion, windstorm, cyclone, or tornado, except that he will not be responsible for loss in weight of not to exceed an average of 10 pounds per bale which is due to natural shrinkage. The maximum amount of cotton stored in any structure shall be limited to 200 bales, unless the State committee determines that a larger maximum is required to make the program more effective in the State. The conversion or unlawful disposition by the producer of any bale of the cotton will render him personally liable for the payment of the mortgage indebtedness.

§ 427.619 *Warehouse receipts and insurance.* Only negotiable warehouse receipts issued by an approved warehouse, properly assigned by an endorsement in blank so as to vest title in the holder or issued to bearer will be acceptable. The warehouse receipts must show that the cotton is covered by fire insurance and must be dated on or prior to the date of the producer's notes. Each receipt must set out in its written or printed terms a description by tag number and weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Warehouse receipts issued prior to August 1, 1955, which by their terms will expire prior to August 1, 1956, must bear an endorsement of the warehouseman extending the terms of the warehouse receipts for a period of one year from August 1, 1955. Block warehouse receipts will not be accepted except on cotton to be reconcentrated pursuant to § 427.623.

§ 427.620 *Insurance on farm-stored cotton.* CCC will not require the producer to insure cotton under farm-stored loan; however, if the producer does insure the cotton, and if an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest after first satisfying the producer's equity in the cotton involved in the loss.

§ 427.621 *Warehouse charges.* The Agreement of Warehouseman on each Form A must be executed by the warehouseman storing the cotton covered by the Form A not more than 15 days preceding the date of the Producer's Note on the Form A and must not be executed subsequent to the date of the note. In the case of loans made to a cotton cooperative marketing association as provided in § 427.630, the Warehouseman's Certificate and Agreement on the Certificate of Association and Agreement of Warehouseman (CCC Cotton Form G–1, referred to in this subpart as "Form G–1") must be executed by the warehouseman storing the cotton covered by such form. By executing the Agreement of Warehouseman on the Form A (notwithstanding the wording of such agreement on Forms A dated 3–4–54, the warehouseman may draw a sample for a reclassification in lieu of review) or the Warehouseman's Certificate and Agreement on the Form G–1, the warehouseman agrees that such cotton will be stored and handled in accordance with the Warehouseman's Certificate and Agreement on the reverse side of the Form A or on the Form G–1 and makes the representations contained therein, and the warehouseman further agrees to store such cotton under conditions and at rates determined as follows:

The cotton shall be insured against loss or damage by fire under a policy or policies providing coverage equivalent to that afforded under the standard fire policy of the State in which the cotton is stored for the full market value (if the cotton is compressed, its market value shall be the market value of flat cotton plus compression charges, or if the cotton is uncompressed and the warehouseman desires to collect his delivery charge for flat cotton in lieu of compression if it is destroyed by fire,

[1] Schedule to be issued about August 15, 1955.

such charge must be covered by insurance) at the time and place of loss and shall be kept so insured so long as the warehouse receipts therefor are outstanding, unless the cotton comes under a storage agreement between the warehouseman and CCC allowing the warehousman to cancel his insurance on the cotton. From the dates of the warehouse receipts representing the cotton or from the date through which the producer has paid storage charges, whichever is later, through July 31, 1956, all charges on the cotton for storage and insurance (as required in § 427.619) shall be at the rate of 43 cents per bale per month or fraction thereof for flat or compressed cotton stored in warehouses operating compress facilities or compressed cotton stored in warehouses not operating compress facilities, and at the rate of 48 cents per bale per month or fraction thereof for flat cotton stored in warehouses not operating compress facilities, or the warehouseman's established tariff on cotton other than CCC loan cotton, whichever is less. Such charges, accrued through July 31 of any year in which these rates are in effect, shall be paid by CCC, as soon as possible after such date, on all of the cotton represented by warehouse receipts held by CCC at the time of payment: *Provided*, That on any cotton for which CCC makes payment of accrued charges through July 31 of any year, payment for the fractional part of a month prior to such date shall be at the proportionate part of the monthly rate. The warehouseman may make a charge for outhandling, including picking out by tag numbers and loading according to custom into cars or trucks, of not to exceed 15 cents per bale if such charges are included in the warehouseman's tariff: *And provided further*, That no such outhandling charge may be made where collection for the service has been included in any other charge or otherwise collected. Charges for compression of cotton by the warehouseman, including compression charges on cotton compressed to standard density by the warehouseman at his gin, will be at the rates provided in the warehouseman's established tariff in effect at the time the service is ordered performed. Compression charges on cotton compressed to standard density for the warehouseman at a gin under contract with the warehouseman will be paid at the rate which the warehouseman pays the ginner. In no event shall compression charges on gin-compressed cotton exceed the rate paid to the ginner by his customers on all other cotton. Charges on gin-compressed cotton will be paid by CCC only when the cotton is reconcentrated at the time received from the gin to a warehouse designated by CCC and the charges have not been paid to the ginner or the warehouseman by the producer. All other charges on cotton, including flat delivery charges on cotton moved from a warehouse operating compress facilities without payment of compression charges, will be at the rates provided in the warehouseman's established tariff in effect at the time the service is ordered performed: *Provided*, That no charge may be made with respect to the cotton that is not applicable to cotton other than CCC loan cotton stored by the warehouseman, except that the warehouseman may make a charge of not to exceed 20 cents per bale for transmitting samples to the designated classing office, postage, verifying and guaranteeing the correctness of the information for which the warehouse is responsible in the Schedule of Pledged Cotton on the Form A or Form G–1, and executing the Agreement of Warehouseman on the Form A or the Warehouseman's Certificate and Agreement on the Form G–1, if such charges are included in the warehouseman's tariff: *And provided further*, That in no event shall such charge, a service charge or charges for receiving, tagging, weighing, sampling on arrival, or storage of samples, be collected from CCC or a purchaser of the cotton. No charge for compression or for delivery or outhandling, except for an outhandling charge of not to exceed 15 cents and charges for the compression to standard density at gins as provided in this section, will be paid with respect to cotton received by the warehouseman which has been compressed to standard density either by a gin (gin compress bale) or by another warehouseman. No charge of any kind whatsoever will be paid with respect to any of the cotton compressed to high density without the written authority of CCC. The warehouseman shall execute and submit to CCC with each voucher for amounts payable by CCC under this agreement the following certificate: "I hereby certify that I have removed from the cotton covered by this voucher only that amount of cotton necessary to secure representative samples, to properly trim the sample holes, or to otherwise maintain the cotton in the interest of good housekeeping and fire prevention incidental to the handling, storage, or compressing said cotton except for reconditioning of damaged cotton. I further certify that I have not reconditioned, picked or cleaned by blowing or brushing any of the cotton included in this voucher except as noted on report attached hereto." The warehouseman shall store the cotton so that the tags will be visible and readily accessible so as to permit an accurate check of stocks at any time. In the event that the cotton is purchased or pooled by CCC or the loan on such cotton is extended or carried in past-due status by CCC after July 31, 1956, the rates quoted herein will remain in effect until terminated by CCC or the warehouseman at the end of any month by giving the other at least 30 days' notice, or until the cotton comes under another storage agreement between the warehouseman and CCC, whichever is earlier. If the cotton is redeemed from the loan or the cotton is sold by CCC, the charges provided in this section shall be applicable for services rendered up to and including the date of such redemption or sale, and the warehouseman shall not charge the holders of the warehouse receipts representing such cotton for such services an amount in excess of that computed in accordance with this agreement.

§ 427.622 *Loans on order bills of lading.* (a) Loans on cotton represented by order bills of lading will be available only in areas specified by the New Orleans office where there is a shortage of storage space and where the necessary arrangements for handling the cotton may be made.

(b) Cotton represented by order bills of lading will be eligible for a loan only when it is shipped by an approved receiving agency as agent for the producer. Warehousemen, ginners, and other responsible parties in areas where such loans are available may be approved to act as receiving agencies by the New Orleans office. Receiving agencies will enter into Receiving Agency Agreements with CCC. When receiving agencies are approved, notifications will be given by letter or published lists.

(c) A producer who is unable to find storage space in his local area and who wishes to obtain such a loan should deliver his cotton to a receiving agency with the request that it ship the cotton as agent for the producer to a warehouse where storage space is available. The receiving agency will complete the Schedule of Pledged Cotton on a Form A and, if it is a warehouseman, will execute the Agreement of Warehouseman thereon. If the receiving agency is not a warehouseman, it will have the cotton weighed by a public or licensed weigher and will secure a Weight and Condition Certificate in the form prescribed by CCC and execute the Receiving Agent's Certificate. The receiving agency will ship the cotton, secure order bills of lading in a form acceptable to CCC, and deliver to the producer the bills of lading, together with the Form A and Weight and Condition Certificates (if any). If the receiving agency is a warehouseman, it will be permitted to collect fees in accordance with § 427.621 and a fee of not to exceed 10 cents per bale to cover the costs of preparation of shipping documents. If the receiving agency is not a warehouseman, it will, for the purpose of payment of gin compression only be considered as a warehouseman and will be permitted to collect from CCC charges for gin compression as provided in § 427.621 and will be permitted to collect from producers a fee not in excess of the fee set forth in the Receiving Agency Agreement executed by the receiving agency, and shall post, in a conspicuous place, a notice showing the fee to be charged producers. Loans will be made at the full loan rate at the point where the receiving agency receives the cotton. CCC will pay warehouse storage charges on cotton tendered by the producer for a loan under this section, if the receiving agency is a warehouseman.

§ 427.623 *Loans on cotton to be reconcentrated.* Loans on cotton to be reconcentrated will be available only on cotton stored at warehouses approved by the New Orleans office in areas where there is congestion and lack of storage space. The warehousemen will enter into Reconcentration Agreements (CCC Cotton Form 29, referred to in this subpart as "Reconcentration Agreements") with CCC. Warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement must be in a form acceptable to CCC and must provide for delivery of the cotton to the order of CCC. Block warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement will be accepted. A producer who desires to obtain a loan in this manner should request the warehouseman to issue a warehouse receipt to him in the form specified above and must furnish written authorization to the warehouseman for the reconcentration of his cotton after which the warehouseman will ship the cotton. The Forms A and warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement must show the reconcentration order number under which the cotton will be shipped. The producer will obtain a loan on these documents in the usual manner, and after receipt of the loan documents, CCC will surrender the warehouse receipts to the warehouseman.

§ 427.624 *Advance loans.* (a) If a producer desires to obtain a loan under this part on cotton stored or to be stored in a warehouse, prior to the receipt of the classification of such cotton by a Board of Cotton Examiners or prior to the issuance of a warehouse receipt representing the cotton, and if the producer desires to obtain interim financing from a lending agency until such time as a CCC loan may be obtained, the lending agency may make the producer a private loan (called "the advance loan" in this subpart) on such cotton on forms and in amounts agreed upon between the lending agency and the producer and may obtain from the producer a duly executed Producer's Power of Attorney (CCC Cotton Form J, referred to in this subpart as "Form J") in triplicate authorizing and directing the lending agency to prepare or cause to be prepared and execute on behalf of and in the name of the producer Forms A covering all such cotton which is eligible for a loan under this part. The duplicate copy shall be delivered to the producer. On or before the date the advance loan is made, samples must have been drawn from the cotton and submitted to a Board of Cotton Examiners for classification or, if the cotton has not arrived at the warehouse, the warehouseman must have been instructed to sample the cotton and forward the samples for classification upon receipt of the cotton at the warehouse. On or before September 1, 1955, or within 15 days after the dates of the classification certificates, or within 15 days after the dates of the warehouse receipts, whichever is later, the lending agency shall (as provided in the Producer's Power of Attorney), unless the cotton is redeemed by the producer, prepare or cause to be prepared and execute on behalf of the producer Forms A covering all such cotton which is eligible for a loan and make a CCC loan or loans to the producer under this part. The lending agency shall promptly remit to the producer any difference between the amount due on the advance loan and the proceeds of the CCC loan, less any applicable charges under this part paid by the lending agency on behalf of the producer. The producer's copies of Forms A and the canceled note evidencing the advance loan shall be forwarded to the producer. The original of the Producer's Power of Attorney shall be transmitted with the notes when they are tendered to CCC.

(b) It shall be the joint responsibility of the lending agency named in the Form J to obtain the official classification from the producer or the warehouseman and of the producer to deliver the official classification to such lending agency, within 15 days from the date of the classification certificate so that the Form A loans can be made within the specified time.

(c) It shall be the responsibility of the lending agency named in the Form J to obtain the execution of the Agreement of Warehouseman and the Clerk's Certificate on the Form A. Only bona fide employees of lending agencies making the advance loans who are approved as clerks by the county committee or approved clerks in the county office, will be permitted to execute the Clerk's Certificate on Forms A covering cotton on which advance loans have been made.

§ 427.625 *Loans on upland cotton prior to August 1, 1955.* Loans on upland cotton will be made available to producers in the area where such cotton is harvested prior to August 1, 1955. Base loan rates for warehouse locations in the early harvesting area will be announced by the New Orleans office prior to harvest. The premium or discount applicable to each eligible grade and staple length is shown in § 427.632. Other provisions for loans prior to August 1, 1955, will be the same as provided for loans after that date, except that in the event that the base loan rate based on the August 1, 1955, parity price for upland cotton is in excess of the base loan rate announced prior to such date, the difference will be paid to the producer upon his application to the New Orleans office.

§ 427.626 *Tender of notes by lending agencies.* Notes (Forms A and Forms E) evidencing loans made by a lending agency which has entered into a Lending Agency Agreement-Cotton (CCC Cotton Form D, Rev. June 15, 1954) prior to the making of the loans will be eligible for purchase or pooling by CCC. Under this agreement, lending agencies which are parties thereto are required to tender to CCC, on Lending Agency's Letter of Transmittal (CCC Cotton Form C, referred to in this subpart as "Form C"), all notes on Form A and Form E, with warehouse receipts, bills of lading (and weight and condition certificates, if required), or cotton chattel mortgages attached, representing loans made by the lending agency within 15 days after the date of disbursement of the loans. All notes transmitted on a Form C must cover cotton stored in warehouses in the same custodial district. Separate Forms C shall be used for upland and extra long staple cotton. Notes secured by warehouse receipts, by bills of lading, or by chattel mortgages, and notes executed by attorneys-in-fact, must be transmitted on separate Forms C. Each Form C shall state whether the lending agency desires CCC to purchase the notes or to place them in a pool. Upon receipt of the loan papers by the New Orleans office, they will be examined and, if found correct, will be approved and transmitted to the custodial office serving the district in which the cotton is stored, and will be purchased or placed in a pool as directed by the lending agency. Lending agencies which have previously been approved by CCC as eligible to draw drafts on CCC may, subject to such instructions and requirements as CCC may hereafter from time to time prescribe, obtain immediate payment for notes they desire to sell to CCC, by drawing sight drafts with enclosed letters of transmittal on CCC through a Federal Reserve Bank or Branch Bank approved by CCC. Notes covered by such drafts must be immediately submitted to the New Orleans office. In the event that the notes are pooled, a Certificate of Interest representing the interest in the pool acquired as the result of the deposit therein of the notes shown on the Form C will be issued to any approved lending agency designated on the Form C.

§ 427.627 *Loss or damage to pledged cotton.* In any case where there is loss or damage to cotton which occurs while such cotton is pledged to CCC or a lending agency, CCC shall have the right to determine and file claims against any liable third parties for the resulting loss. Upon determination of the quantity of the lost or damaged cotton, CCC will give credit for the loan value (including charges and interest) of such cotton. If the proceeds of the claim exceed the loan value of such cotton, the excess proceeds shall be remitted to the producer or, if the loan has been repaid, to the party repaying the loan.

§ 427.628 *Transfer of producer's interest.* If the producer desires to sell his equity in the cotton covered by a note, he must complete the Producer's Equity Transfer Agreement in the Producer's Equity Transfer on the reverse side of the Producer's Loan Statment–A, which will be mailed to the producer by the New Orleans office at the time the notes are processed by that office. The producer must sign the Producer's Equity Transfer Agreement in the presence of a witness approved for such purpose by a county committee or a notary public and the Certificate of Witness in the Producer's Equity Transfer must be dated and signed by the witness or notary public. A producer who desires to appoint an attorney-in-fact to act in his place and stead in selling his equity in the cotton shall use Power of Attorney (CCC Cotton Form 19) and file it with the applicable custodial office. The equity purchaser must complete the Certificate of Purchaser in the Producer's Equity Transfer and send it within 15 days to CCC, in care of the custodial office serving the district in which the cotton was stored at the time

the loan was obtained. Upon receipt of the Producer's Equity Transfer, the custodial office will forward the note and warehouse receipts to a bank designated by the person requesting their release with directions to the bank to release the note and warehouse receipts to the holder of the equity transfer upon payment of the amount due on the loan. In all such cases, the bank will be instructed to return the note and warehouse receipts to the custodial office if payment is not effected within 5 business days. All charges assessed by the bank to which the note and warehouse receipts are sent must be paid by the person requesting the release of the cotton. No partial release of the cotton securing one note will be permitted, except that CCC may allow partial releases in cases where loss or damage to part of the cotton occurs. In the event the Producer's Loan Statement–A is destroyed or lost, the producer may obtain a duplicate of such form from the custodial office serving the district in which the cotton is stored.

§ 427.629 *Repayments*—(a) *Warehouse-stored cotton.* No partial release of the cotton represented by warehouse receipts and securing a note will be permitted, except that CCC may allow partial releases in cases where loss or damage to part of the cotton occurs. If a producer desires to obtain the return of his note and the release of the cotton securing the note, he must execute the Producer's Redemption Request on the Producer's Loan Statement—A which will be mailed to the producer by the New Orleans office at the time the notes are processed by that office. The producer must send or deliver the Producer's Loan Statement—A to CCC, in care of the custodial office serving the district in which the cotton was stored when the loan was obtained, as shown in § 427.631. Upon receipt of the Producer's Redemption Request, the custodial office will forward the note and warehouse receipts to a bank designated by the producer with directions to the bank to release such note and warehouse receipts only to the producer or his authorized agent upon payment of the amount due on the loan. The bank will be instructed to return the note and warehouse receipts to the custodial office if payment is not affected within 15 days. All charges assessed by the bank must be paid by the producer. A producer who desires to appoint an Attorney-in-Fact to act in his place and stead in repaying loans shall use Power of Attorney (CCC Cotton Form 19) and file it with the applicable custodial office.

(b) *Farm-stored cotton.* If the producer desires to repay his loan and obtain the release of the cotton securing the note, he may obtain complete instruction from the county office of the county in which the cotton is stored. Partial releases will be allowed.

§ 427.630 *Cotton cooperative marketing association loans.* A special form of loan agreement will be made available to cotton cooperative marketing associations whereby members of such associations may act collectively in obtaining loans. The loan rates under this agreement will be the same as the loan rates to individual producers, and eligibility requirements with respect to the cotton and the producers tendering the cotton to the association and other loan provisions will be substantially the same as for loans to individual producers. Members desiring to obtain loans from their associations should contact their associations.

§ 427.631 *Custodial offices.* The custodial offices referred to in this subpart and the district served by each are shown below:

(a) *Warehouse-stored cotton.*

This revision combines into a single list the warehouses, mills, and other premises that were designated as khapra beetle regulated areas in administrative instructions originally issued effective March 1, 1955, as amended effective March 29, 1955, April 15, 1955, April 30, 1955, and June 4, 1955 (20 F. R. 1237, 1878, 2477, 2901, 3894).

By omitting, under the subhead California, the Williams Cooperative Warehouse Association, Sixth and F Streets, Williams, the revision revokes the designation of this establishment as a regulated area and deletes it from the list. It also adds to the list, thereby designating them as regulated areas, the following establishments in California: Charles C. Causey (small farm used for storage and farm feeding), 653 South Imperial Avenue, northwest corner intersection County Roads East M and 46th, Brawley; Onyx Store property (Oscar Rudnick owner), Onyx; Oscar Rudnick Ranch, one-half mile north of Onyx Store, Onyx; and K. K. Sharp (small farm and storage), route 1, Box 44, southeast corner intersection County Roads East R and 26th, on Pampas Canal, Holtville. A typographical correction has also been made in the name of the California establishment listed in this revision as J. R. Kennedy Ranch, located in Long Valley, approximately 6 miles north of Highway 20, P. O. Clearlake Oaks.

This revision shall be effective June 22, 1955, and on that date shall supersede administrative instructions effective March 1, 1955, and amendments thereof effective March 29, 1955, April 15, 1955, April 30, 1955, and June 4, 1955 (7 CFR 301.76–2a, 20 F. R. 1237, 1878, 2477, 2901, 3894):

These instructions supplement khapra beetle quarantine regulations already effective. They also relieve restrictions insofar as they revoke the designation of a regulated area. They must be made effective promptly in order to carry out the purposes of the regulations and to permit unrestricted movement of regulated products from the premises being removed from designation as a regulated area. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing administrative instructions are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 6]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.504 *Plum Order 6*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agriculture Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 23, 1955. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 15, 1955; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 15, 1955, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 29, 1955, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 23, 1955, and ending at 12:01 a. m., P. s. t., November 1, 1955, no shipper shall ship from any shipping point during any day any package or container of Tragedy plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 5 x 6 standard pack.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 6 x 6 standard pack if said quantity does not exceed thirty-three and one-third (33⅓) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 5 x 6 standard pack, as aforesaid.

(3) If any shipper, during any day of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, the quantity of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next two succeeding calendar days in addition to the quantities of such plums of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such two succeeding calendar days if there had been no undershipment.

(4) Section 936.143, as amended (18 F. R. 712, 2839; 19 F. R. 425), sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(5) As used in this section "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size" as when used in § 936.142; and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.508 *Plum Order 10*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 23, 1955. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 15, 1955; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 15, 1955, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 30, 1955, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 23, 1955, and ending at 12:01 a. m., P. s. t., November 1, 1955, no shipper shall ship from any shipping point during any day any package or container of Gaviota plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) Such plums are of a size not smaller than a size that will pack a 4 x 5 standard pack.

(2) Section 936.143, as amended (18 F. R. 712, 2839; 19 F. R. 425), sets forth the requirements with respect to the in-

spection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size" as when used in § 936.142; and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

PART 992—IRISH POTATOES GROWN IN WASHINGTON

LIMITATION OF SHIPMENTS

§ 992.310 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 113 and Order No. 92 (7 CFR Part 992), regulating the handling of Irish potatoes grown in the State of Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the State of Washington Potato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the limitations of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period from June 27, 1955, to May 31, 1956, both dates inclusive, no handler shall ship potatoes of any variety unless such potatoes are "fairly clean" and (i) if they are of the red skin varieties such potatoes meet the requirements of the U. S. No. 2 or better grade, 1⅞ inches minimum diameter, and (ii) if they are of the White Rose or Netted Gem varieties such potatoes meet the requirements of the U. S. No. 2 or better grade, 2 inches minimum diameter or 4 ounces minimum weight, as such terms, grades, and sizes are defined in the United States Standards for Potatoes (§§ 51.1540–1559 of this title), including the tolerances set forth therein.

(2) During the period from June 27, 1955, to September 30, 1955, both dates inclusive, and subject to the requirements set forth in subparagraph (1) of this paragraph no handler shall ship (i) any lot of potatoes of the red skin varieties if more than 20 percent of the potatoes in such lot have more than one-half of the skin missing or "feathered", as such terms are used in the said United States Standards, (ii) any lot of potatoes of the White Rose variety if more than 35 percent of the potatoes in such lot have more than one-half of the skin missing or "feathered", as such terms are used in the said United States Standards, or (iii) any lot of potatoes of the Netted Gem variety if such potatoes are more than "moderately skinned" as such term is defined in the said United States Standards, which means that not more than 10 percent of such potatoes have more than one-half of the skin missing or "feathered".

(3) Pursuant to § 992.49, each handler may make one shipment of not in excess of five hundredweight per week without regard to the limitations set forth in subparagraphs (1) and (2) of this paragraph, and §§ 992.41 and 992.53.

(4) The limitations set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to shipments of potatoes for any of the following purposes: (i) Export; (ii) distribution by the Federal Government, distribution by relief agencies, or consumption by charitable institutions; (iii) manufacture or conversion into starch, flour, alcohol, dehydrated products, canned products, frozen products or potato chips; (iv) livestock feed; or (v) certified seed potatoes.

(5) Each handler making shipments of potatoes pursuant to subparagraph (4) of this paragraph shall (i) pursuant to § 992.120 first apply to the committee for and obtain a Certificate or Certificates of Privilege permitting the proposed shipments (except as to shipments for distribution by the Federal Government); (ii) pay assessments on such shipments pursuant to § 992.41 (except shipments for livestock feed); and (iii) have such shipments (except shipments of certified seed potatoes and shipments for livestock feed) inspected pursuant to § 992.53.

(6) Terms used in Marketing Agreement No. 113 and Order No. 92 shall, when used in this section, have the same meaning as when used in said agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C. this 17th day of June 1955, to become effective June 27, 1955.

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP-1955-Hawaii, Supp. 2]

PART 1105—AGRICULTURAL CONSERVATION; HAWAII

SUBPART—1955

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, the Department of Agriculture Appropriation Act, 1955, and Public Law 42, 84th Congress, the 1955 Agricultural Conservation Program for Hawaii, approved September 22, 1954 (19 F. R. 6206), as amended November 19, 1954 (19 F. R. 7599), is further amended as follows:

1. Section 1105.407 (b) is amended by revising the fourth sentence to read as follows: "For the practices contained in §§ 1105.438, 1105.445, and 1105.454, the Soil Conservation Service is responsible for determining that the practice is needed and practicable on the farm."

2. Section 1105.425 is deleted in its entirety.

3. A new § 1105.454 is added as follows:

§ 1105.454 *Practice 22: Clearing volcano-damaged farmlands for the purpose of restoring them to immediate agricultural use.* This practice is applicable only to active farmlands with productive ability impaired by (a) heavy deposits of volcanic cinder; (b) fire-damaged crops left standing in the fields.

Maximum Federal cost-share. (a) 50 percent of the cost of removing volcanic cinder deposits which are seriously impeding resumption of cultural operations, but not in excess of $100 per acre cleared.

(b) 50 percent of the cost of clearing useless crop residue impeding resumption of cultural operations, but not in excess of (1) $150 per acre cleared if work must be done by hand, or (2) $75 per acre cleared if done by machine.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7-17, 49 Stat. 1148, as amended, 68 Stat. 304, P. L. 42, 84th Cong.; 16 U. S. C. 590g-590q)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6228]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

REDDI-SPRED CORP.

Subpart—*Advertising falsely or misleadingly:* § 13.135 *Nature:* Product or service. In connection with the offering for sale, sale, or distribution of oleomargarine or margarine, directly or indirectly, disseminating, etc., any advertisement by means of the United States mails, or in commerce, or by any means to induce, etc., the purchase in commerce, of said product, which advertisement contains any statement, word, grade designation, design, device, symbol, sound or any combination thereof which represents or suggests that said product is a dairy product; prohibited, subject to the proviso, however, that nothing contained in the order shall prevent the use in advertisements of a truthful, accurate and full statement of all of the ingredients contained in said product, or of a truthful statement that said product contains butter or any other dairy product provided the percentage thereof contained is clearly and conspicuously set forth.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended, secs. 12, 15, 52 Stat. 114, as amended; 15 U. S. C. 45, 52, 55) [Cease and desist order, Reddi-Spred Corporation, Philadelphia, Pa., Docket 6228, May 5, 1955]

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondent with violating the Federal Trade Commission Act by the use of unfair and deceptive acts and practices in commerce in the sale of oleomargarine, respondent's answer denying that its advertisements were in violation of law, hearings at which full opportunity to be heard, to examine and cross-examine witnesses and to introduce evidence bearing on the issues, recorded and filed in the office of the Commission, was afforded respondent and counsel supporting the complaint, and the submission of proposed findings of fact.

Thereafter, following the filing by the hearing examiner of his initial decision dismissing the case for failure of proof, and the appeal to the Commission by counsel supporting the complaint from said initial decision, the Commission, having considered the entire record in the matter, including briefs filed in support of and in opposition to the appeal, and including a brief of National Milk Producers Federation as amicus curiae and respondent's brief in reply thereto, filed its opinion, and rendered its decision, in which, having determined that the hearing examiner erroneously dismissed the complaint, it reversed and set aside his initial decision, and, in lieu thereof, made its findings of fact [1] and its conclusion [1] that respondent's advertising clearly suggested that its oleomargarine was a dairy product, notwithstanding certain disclosures, and that accordingly respondent's acts and practices, as found, were all to the prejudice and injury of the public and constituted unfair and deceptive acts and practices in commerce within the intent and meaning of the Federal Trade Commission Act; and issued its order to cease and desist and order requiring report of compliance.

Said order in said "Decision of the Commission", Docket 6228, May 5, 1955, is as follows:

It is ordered, That the respondent Reddi-Spred Corporation, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of oleomargarine or margarine, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which contains any statement, word, grade designation, design, device, symbol, sound or any combination thereof which represents or suggests that said product is a dairy product;

Provided, however, That nothing contained in this order shall prevent the use in advertisements of a truthful, accurate and full statement of all of the ingredients contained in said product, or of a truthful statement that said product contains butter or any other dairy product provided the percentage thereof contained is clearly and conspicuously set forth.

2. Disseminating or causing to be disseminated by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act of said product any advertisement which contains any of the representations prohibited in paragraph one of this order.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: May 5, 1955.

By the Commission.

Secretary.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

E. F. DREW & CO., INC.

Subpart—*Advertising falsely or misleadingly:* § 13.135 *Nature:* Product or service. In connection with the offering for sale, sale, or distribution of oleomargarine or margarine, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., the purchase in commerce, of said product, which advertisements contain the terms "churned to delicate, sweet creamy goodness", "country-fresh", or "* * * the same day-to-day freshness which characterizes our other dairy products", or any other statement, word, grade designation, design device, symbol, sound, or any combination thereof which represents or suggests that said product is a dairy product; prohibited, subject to the proviso, however, that nothing contained in the order shall prevent the use in advertisements of a truthful, accurate, and full statement of all the ingredients contained in said product, or of a truthful statement that said product contains butter or any other dairy product provided the percentage thereof contained is clearly and conspicuously set forth.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended, secs. 12, 15, 52 Stat. 114, as amended; 15 U. S. C. 45, 52, 55) [Cease and desist order, E. F. Drew & Company, Inc., New York, N. Y., Docket 6126, May 5, 1955.]

This proceeding was heard by Everett F. Haycraft, hearing examiner, upon the complaint of the Commission which charged respondent with having violated the Federal Trade Commission Act by the use of unfair and deceptive acts and practices in commerce in the dissemination of false and misleading advertisements concerning its "Farm Queen Oleomargarine", and also in the use of the words "Farm Queen" as a trade name for its said product, respondent's answer in which it denied all the material allega-

tions, and testimony in support of and in opposition to such allegations of the complaint.

Thereafter the proceeding regularly came on for final consideration upon the complaint, answer thereto, the testimony taken, the proposed findings submitted by respective counsel, and oral argument, and said hearing examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusions drawn therefrom,[1] and order to cease and desist.

Thereafter, counsel supporting the complaint and respondent, having both filed an appeal from said initial decision, and the Commission having rendered its opinion and decision in which respondent's appeal was denied and the appeal of counsel supporting the complaint was granted in part and denied in part, the matter was disposed of by the Commission's "Final Order", dated May 5, 1955, as follows:

Counsel supporting the complaint and respondent E. F. Drew & Co., Inc. (erroneously named in the complaint as E. F. Drew & Company, Inc.), both having filed an appeal from the initial decision of the hearing examiner in this proceeding; and the matter having been heard by the Commission on briefs and oral argument; and the Commission having rendered its decision denying respondent's appeal and granting in part and denying in part the appeal of counsel supporting the complaint, and affirming the initial decision as modified:

It is ordered, That the initial decision be, and it hereby is, modified by:

1. Inserting the term "country-fresh" directly after the term "churned to delicate, sweet creamy goodness" in paragraph number 4 of the findings of fact, so as to include it as one of the terms found to constitute a representation or suggestion that respondent's oleomargarine is a dairy product.

2. Changing the word "two" to "three" in the third paragraph of the Conclusion so that the second sentence therein now reads: "From an examination of the advertisements themselves as well as the results of the surveys made among housewives in one city to obtain their opinions with respect to the advertisements, and representations contained therein, there appear to be only three statements which have the capacity and tendency to lead a purchaser to believe that respondent's product is a dairy product."

3. Changing the order to cease and desist so that it now reads as follows:

It is ordered, That the respondent, E. F. Drew & Co., Inc., a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of oleomargarine or margarine do forthwith cease and desist from, directly or indirectly.

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which contains:

The terms "churned to delicate, sweet creamy goodness," "country-fresh," or "* * * the same day-to-day freshness which characterizes our other dairy products," or any other statement, word, grade designation, design, device, symbol, sound, or any combination thereof which represents or suggests that said product is a dairy product;

Provided, however, That nothing contained in this order shall prevent the use in advertisements of a truthful, accurate and full statement of all of the ingredients contained in said product, or of a truthful statement that said product contains butter or any other dairy product provided the percentage thereof contained is clearly and conspicuously set forth.

2. Disseminating or causing to be disseminated by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said product any advertisement which contains any of the representations prohibited in Paragraph One of this order.

It is further ordered, That respondent E. F. Drew & Co., Inc., shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist as hereinabove set forth.

Issued: May 5, 1955.

By the Commission.

PROPOSED RULE MAKING

FEDERAL POWER COMMISSION

[18 CFR Parts 154, 157]

[Docket No. R-145]

RATE SCHEDULES AND TARIFFS; APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

NOTICE OF PROPOSED RULEMAKING

JUNE 1, 1955.

1. Notice is hereby given of proposed rulemaking in the above-entitled matter.

2. It is proposed to amend Part 154, entitled, "Rate Schedules and Tariffs" and Part 157, entitled, "Applications for Certificates of Public Convenience and Necessity" of Subchapter E, Regulations under the Natural Gas Act, Chapter I of Title 18, Code of Federal Regulations, to prescribe therein (in lieu of existing sections or the indicated portions thereof) new or amended §§ 154.16, 154.21, 154.22, 154.51, 154.63 (b) (3), 154.96-1, 154.96-2, 154.96-3, 154.98, 154.99, 157.13 (d), 157.14 (a), Exhibits E, H, I and N, 157.20 (c) to read as set forth below, and to eliminate § 157.14 (a) (5), Exhibit E.

3. The changes proposed in paragraph 2 arose out of a series of conferences between members of the staff and representatives of the Federal Power Bar Association, the Independent Natural Gas Association, and the Task Force on Paper Work Management of the (Hoover) Commission on Organization in the Executive Branch of the Government. As a result of those conferences the Commission is proposing changes in its rules to simplify and clarify the provisions relating to rate filings and certificate applications. The changes proposed also relate to the notice requirements associated with the filing of rate schedules.

4. The accompanying amendments to the Commission's regulations are proposed to be issued under authority granted the Federal Power Commission by the Natural Gas Act, as amended, particularly sections 4, 7 and 16 thereof (52 Stat. 822, 830, as amended 56 Stat. 83; 15 U. S. C. 717c, 717f, and 717o).

[1] Filed as part of the original document.

5. Any interested person may submit to the Federal Power Commission, Washington 25, D. C., on or before June 27, 1955, data, views, and comments in writing concerning the amendments proposed herein. The Commission will consider these written submittals before acting upon the proposed amendments. An original and 9 copies should be filed of any such submittals.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

1. Amend § 154.16 by adding the following at the end thereof:

§ 154.16 *Posting.* * * * and (c) publication of notice in accordance with § 154.22.

2. Amend § 154.21 to read:

§ 154.21 *Effective tariff.* The effective tariff of a natural-gas company shall be the tariff filed and posted pursuant to the requirements of this part, and permitted by the Commission to become effective: *Provided,* That no change in any effective tariff, executed service agreement or part thereof shall become effective until 30 days after notice of such proposed change has been published in the FEDERAL REGISTER, unless a different period of time is permitted by the Commission in accordance with § 154.51.

3. Amend § 154.22 by inserting between the first sentence and the proviso the following:

§ 154.22 *Notice requirements.* * * *. Within ten business days, i. e., excluding Saturdays, Sundays and holidays) after such filing date notice thereof will be published in the FEDERAL REGISTER and copies of such notice mailed to customers of the purchaser affected by the proposed change, interested State commissions, and persons deemed by the Commission, in its discretion, to have a sufficient interest to be entitled to such notice. * * *

4. In § 154.51 delete the first sentence and substitute the following:

§ 154.51 *Waiver of notice requirements.* Upon application and for good cause shown, the Commission may by order provide that a tariff, contract, or part thereof shall be effective on less than the periods of notice required by §§ 154.21 and 154.22. Such application may be incorporated in the transmittal letter and should show (a) the reasons, if any, for inability to comply with the notice requirements; (b) the effect, if any, on seller, buyer, or any other party affected by the waiver of notice requirements; and (c) a statement setting forth the extent to which the public interest would be served by waiver of the notice requirements. * * *

5. Amend § 154.63 (b) (3) (i) (c) to read:

(3) *Rate increase applications*—(i) *Rate increases.* * * *

(c) If the natural-gas company has relied on data other than those in Statements A through N in support of its rate increase, such other data, appropriately identified and designated as such and separately stated, shall be submitted with the data required by Statements A to N but limited to the test period referred to below. Ten sets of the statements and of the additional information, if any, shall be submitted, each set securely bound in a cover.

6. Add new § 154.96-1 to 154.96-3 to follow § 154.96 to read:

§ 154.96-1 *Posting.* The term "posting" means (a) mailing to each customer affected a copy of an independent producer's rate schedule, as defined in § 154.93, and (b) publication of notice in accordance with § 154.96-2.

§ 154.96-2 *Effective rate schedules.* The effective rate schedules of an independent producer shall be the schedule or schedules filed and posted pursuant to §§ 154.92, 154.93 and 154.96-1 and permitted by the Commission to become effective: *Provided,* That no change in any effective rate schedule shall become effective until 30 days after notice of such proposed change has been published in the FEDERAL REGISTER, unless a different period of time is permitted by the Commission in accordance with § 154.98.

§ 154.96-3 *Notice requirements.* Within ten business days (i. e., excluding Saturdays, Sundays, and holidays) after such filing date notice thereof will be published in the FEDERAL REGISTER and copies of such notice mailed to customers of the purchaser affected by the proposed change, interested State commissions, and persons deemed by the Commission, in its discretion, to have a sufficient interest to be entitled to notice.

7. In § 154.98 delete the first sentence and substitute the following:

§ 154.98 *Waiver of notice requirements.* Upon application and for good cause shown, the Commission may by order provide that a rate schedule or a change in rate schedule shall be effective on less than the periods of notice required by §§ 154.92 and 154.94. Such application may be incorporated in the transmittal letter and should show (a) the reasons, if any, for inability to comply with the notice requirements; (b) the effect, if any, on seller, buyer, or any other party affected by the waiver of notice requirements; and (c) a statement setting forth the extent to which the public interest would be served by waiver of the notice requirements. * * *

8. In § 154.99 amend title and paragraph (b) to read as follows:

§ 154.99 *Number of copies; material to be submitted with changes in rate schedules.* * * *

(b) Such letter of transmittal shall contain a complete list of all material being filed, properly designated so that each item is easily identifiable, and, with the filing of any change in rate schedule, a concise statement (to be used as a basis for the notice required by § 154.96-3) as to (1) name of buyer and name of the first interstate pipeline company receiving all or any portion of the gas concerned, if different from buyer, together with the names of all parties intermediate between the buyer and such first interstate pipeline company; (2) current price in cents per Mcf; (3) proposed price per Mcf; (4) estimated annual volumes involved; (5) estimated amount of annual increase; (6) basic reason for increase (periodic, favored nation, tax, etc.); (7) proposed effective date, and (8) the names of all parties notified of the proposed change and the dates thereof. Persons known to be affected must have a notice, including a copy of the statement specified herein. No filing will be accepted without a proper certificate specifying the parties notified and served with such statement.

9. Amend § 157.13 (d) to read:

(d) *Measurement base and B. t. u. content.* All gas volumes, including gas purchased from producers, shall be stated upon a uniform basis of measurement, and, in addition, if the uniform basis of measurement used in any application is other than 14.73 psia, then any volume or volumes delivered to or received from any interstate natural-gas pipeline company shall also be stated upon a basis of 14.73 psia; similarly, total volumes on all summary sheets, as well as grand totals of volumes in any exhibit, shall also be stated upon a basis of 14.73 psia if the uniform basis of measurement used is other than 14.73 psia.

10. In § 157.14, paragraph (a) (5) *Exhibit E—Corporate authorization* is revoked.

11. Amend § 157.14 (a) (10) *Exhibit H—Total gas supply data* as follows:

a. Amend subdivision (v) to read:

(v) Three conformed copies of each gas purchase contract upon which applicant proposes to rely. Contracts already on file with the Commission may be incorporated by reference without supplying additional copies, provided such contracts are identified with particularity by stating the exact pages to be incorporated by reference and the file or docket number designation to which reference is made; provided further, that the Commission or the presiding officer may direct that additional copies of such contracts be furnished to the Commission or to other parties to the proceeding.

b. Add a new subdivision (vi) to read:

(vi) Estimate of the B. t. u. content of the gas available to applicant for proposed service.

c. Redesignate present subdivision (vi) as (vii) and amend to read:

(vii) A legible and clearly lettered map or maps showing: The location of each gas field; the proven limits of each reservoir; acreage committed to applicant; volumes of gas which are or may be withdrawn from each reservoir under existing contracts and identity of pipeline companies or others receiving gas; and all principal pipelines and other principal facilities to be utilized to deliver gas to applicant's pipeline system, indicating ownership if other than by applicant. Information respecting different reservoirs in a gas field shall be shown on separate maps except when a single map will clearly show all required information without confusion. When the gas supply required for the proposed project would not shorten the total system gas supply by more than one year

the data required in said subdivisions (i) through (vii) of this subparagraph need not be submitted for the system as a whole. In lieu thereof, a statement shall be submitted in support of such omission, together with the necessary information required by subdivisions (i) through (vii) of this subparagraph applicable only to any new reserves being acquired for the proposed project.

d. Redesignate present subdivision (vii) to (viii).

12. Amend § 157.14 (a) (11) *Exhibit I—Market data* as follows:

a. Amend subdivision (iii) to read:

(iii) Total past and expected curtailments of service by the applicant and each wholesale customer proposing to receive new or additional supplies of gas from the project, all to be listed by the classifications of service in subdivision (i) of this subparagraph.

b. Amend subdivision (vii) to read:

(vii) A copy of each market survey made within the past three years for such markets as are to receive new or increased service from the project applied for.

c. Add new subdivision (x) to read:

(x) When the proposed project is for service which would not decrease the life index of the total system gas supply by more than one year, the data required in subdivisions (i) to (ix) of this subparagraph, inclusive, need be submitted only as to the particular market to receive new or additional service.

13. Amend § 157.14 (a) (16) *Exhibit N—Revenues—Expenses—Income* as follows:

a. Amend introductory paragraph to read:

When the estimated revenues and expenses related to a proposed facility will significantly affect the operating revenues or operating expenses of an applicant, there shall be submitted pro forma statements for each of the first three full years of operation of the proposed facilities, showing:

b. Add new subdivision (iii) to read:

(iii) When the data required in subdivisions (i) and (ii) of this subparagraph is not submitted, applicant shall provide in lieu thereof a statement in sufficient detail to show clearly the effect on the operating revenues and operating expenses of the estimated revenues and expenses related to the proposed facility.

14. Amend paragraph (c) of § 157.20 *General conditions applicable to certificates* to read:

(c) Applicant shall file with the Commission, in writing and under oath, an original and four conformed copies of the following: (1) Within ten days after the bona fide beginning of construction, notice of the date of such beginning; (2) each three months after the date of the issuance of the order granting the certificate, a progress report showing the exact status of authorized construction; (3) within ten days after authorized facilities have been constructed and placed in service or any authorized operation, sale, or service has commenced, notice of the date of such placement and commencement; and (4) within six months after authorized facilities have been constructed and placed in service and authorized operations have commenced, a statement showing, on the basis of all costs incurred to that date and estimated to be incurred for final completion of the project, the cost of constructing authorized facilities, such total cost to be classified according to the estimates submitted in the certificate proceeding and compared therewith and any significant differences explained.

DEPARTMENT OF COMMERCE

Maritime Administration

ESSENTIALITY AND U. S. FLAG SERVICE REQUIREMENTS OF ROUND-THE-WORLD WESTBOUND SERVICE

CONCLUSIONS AND DETERMINATIONS

Notice is hereby given that on June 3, 1955, the Maritime Administrator, acting pursuant to section 211 of the Merchant

Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of United States Round-the-World Westbound Service, and, in accordance with his action of October 29, 1954, ordered that the following conclusions and determinations reached by the Maritime Administrator with respect to said service be published in the FEDERAL REGISTER:

1. Round-the-World Westbound Service, as redescribed below, is reaffirmed as an essential service in the foreign trade of the United States:

From United States North Atlantic ports via the Panama Canal to California and thence to ports in the Far East (Japan, Formosa, the Philippines and the Continent of Asia from Union of Soviet Socialist Republics to Siam, inclusive), Indonesia-Malaya (including Singapore), Southwest Asia (Suez to Burma, inclusive, and in Africa on the Red Sea and Gulf of Aden), and the Mediterranean returning to United States North Atlantic ports. Combination ships will call at Havana, Cuba, and may call at Hawaiian Islands.

NOTE: The carrying of intercoastal and non-contiguous passengers and cargo on the above service is subject to compliance with all applicable statutory provisions and requirements.

2. United States flag sailing requirements are approximately four sailings monthly, including one sailing monthly with combination ships.

3. Approximately twelve freighters are required to perform three sailings monthly and four combination ships are required to perform one sailing monthly.

4. The C–3 type freighters and combination ships presently operated in Round-the-World service are suitable ships, but new freighters built to serve this trade should have a speed of approximately 18 knots, carrying capacity of about 12,500 tons deadweight, 600–700 thousand bale cubic, and should be equipped with adequate refrigerator and deep tank spaces; and new combination ships should be of not less than 20-knot speed with accommodations for approximately 100 passengers, cargo capacity of at least 500,000 bale cubic and be equipped with adequate refrigerator and deep tank spaces. For interim operations C–2's and, to some extent, Victory type freighters are suitable to round out sailing requirements of U. S. flag lines as a whole.

Any person, firm or corporation having any interest in the foregoing who desires to offer comments and views thereon should submit same in writing to the Secretary, Maritime Administration, Department of Commerce, Washington 25, D. C., within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

Dated: June 17, 1955.

By order of the Maritime Administrator.

ESSENTIALITY AND U. S. FLAG SERVICE REQUIREMENTS OF ROUND-THE-WORLD EASTBOUND SERVICE

TENTATIVE CONCLUSIONS AND DETERMINATIONS

Notice is hereby given that on June 3, 1955, the Maritime Administrator, acting pursuant to Section 211 of the Merchant Marine Act, 1936, as amended, tentatively found and determined the essentiality and United States flag service requirements of United States Round-the-World Eastbound Service, and, in accordance with his action of October 29, 1954, ordered that the following tentative conclusions and determinations reached by the Maritime Administrator with respect to said service be published in the FEDERAL REGISTER:

1. Round-the-World Eastbound Service, as described below, is tentatively determined to be an essential service in the foreign trade of the United States:

From United States North Atlantic ports to ports in the Mediterranean (including Atlantic approaches), Southwest Asia (Suez to Burma inclusive, and in Africa on the Red Sea and Gulf of Aden), Indonesia-Malaya (including Singapore), and the Far East (Japan, Formosa, the Philippines and the Continent of Asia from Union of Soviet Socialist Republics to Siam, inclusive), returning to California ports and via the Panama Canal to United States North Atlantic ports. Combination ships will call at Havana, Cuba, and freight ships may call at Puerto Rico.

NOTE: The carrying of intercoastal and non-contiguous passengers and cargo on the above service is subject to compliance with all applicable statutory provisions and requirements.

2. United States flag sailing requirements are approximately three to four sailings monthly, including one sailing monthly with combination ships.

3. From eight to twelve freighters are required to perform two to three sailings monthly and four combination ships are required to perform one sailing monthly.

4. The C–3 type freighters presently operated in Round-the-World service are suitable ships, but new freighters built to serve this trade should have a speed of approximately 18 knots, carrying capacity of about 12,500 tons deadweight, 600–700 thousand bale cubic, and should be equipped with adequate refrigerator and deep tank spaces; and new combination ships should be of not less than 20 knot speed with accommodations for approximately 100 passengers, cargo capacity of at least 500,000 bale cubic and be equipped with adequate refrigerator and deep tank spaces. For interim operations C–2's and, to some extent, Victory type freighters are suitable to round out sailing requirements of U. S. flag lines as a whole.

Any person, firm or corporation having any interest in the foregoing who desires to offer comments and views thereon should submit same in writing to the Secretary, Maritime Administration, Department of Commerce, Washington 25, D. C., within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

ESSENTIALITY AND U. S. FLAG SERVICE REQUIREMENTS OF TRADE ROUTES NOS. 5, 7 AND 9

CONCLUSIONS AND DETERMINATIONS

Notice is hereby given that on June 15, 1955, the Maritime Administrator, acting pursuant to section 211 of the Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of the following United States foreign trade routes, and, in accordance with his action of October 29, 1954, ordered that the following conclusions and determinations reached by the Maritime Administrator with respect to said routes be published in the FEDERAL REGISTER.

Trade Routes Nos. 5, 7 and 9—U. S. North Atlantic/United Kingdom — Germany — France—Spain—1. *Trade Route No. 5.* Between U. S. North Atlantic ports (Maine/Virginia—North Carolina border, inclusive) and ports in the United Kingdom and Ireland is reaffirmed as an essential route with no change in the United States and foreign areas served.

2. *Trade Route No. 7.* Between U. S. North Atlantic ports (Maine/Virginia—North Carolina border, inclusive) and German North Sea ports is reaffirmed as an essential route with no change in the United States and foreign areas served.

3. *Trade Route No. 9.* Between U. S. North Atlantic ports (Maine/Virginia—North Carolina border, inclusive) and ports in Atlantic France and Northern Spain (French-Belgian border south to northern border of Portugal) is reaffirmed as an essential route with no change in the United States and foreign areas served.

4. Requirements for United States flag freighter operation on Trade Routes Nos. 5, 7 and 9 are found to be between 22 and 29 sailings per month of which between 15 and 18 should serve the routes exclusively supplemented by between 7 and 10 sailings per month serving the routes in conjunction with other U. S. and foreign port ranges.

5. The C–2 type vessel is found to be suitable for freighter operation on Trade Routes Nos. 5, 7, and 9. Between 24 and 29 such ships serving the routes exclusively and between 11 and 16 freighters serving the routes in conjunction with other routes are required to provide adequate U. S. flag freight service under present conditions.

Any person, firm or corporation having any interest in the foregoing who desires to offer comments and views thereon, should submit same in writing to the Secretary, Maritime Administration, Department of Commerce, Washington 25, D. C., within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

b. *Additional farm units.* If, through the operation of its land acquisition program, the United States should, following the date of this announcement and prior to the date on which the first farm unit is offered for selection to an applicant under the provisions hereof, own additional farm units in Irrigation Block 19 and in other irrigation blocks in the South Columbia Basin Irrigation District which are scheduled to receive water before the close of the 1956 irrigation season; such farm units may be offered for sale under the provisions of this announcement.

The official plat of this irrigation block is on file in the office of the County Auditor of Franklin County in Pasco,

Washington, and copies are on file in the offices of the Bureau of Reclamation at Ephrata, Washington, and Boise, Idaho.

SEC. 2. *Limit of acreage which may be purchased.* The lands covered by this announcement have been divided into farm units. Each of the farm units represents the acreage which, in the opinion of the Regional Director, Region 1, Bureau of Reclamation, will support an average size family at a suitable level of living. The law provides that with certain minor exceptions not more than one farm unit in the entire project may be held by any one owner or family. A family is defined as comprising husband or wife, or both, together with their children under 18 years of age, or all of such children if both parents are dead.

PREFERENCE OF APPLICANTS

SEC. 3. *Nature of preference.* Except for a prior preference given applicants for exchange under the provisions of the act of August 13, 1953 (67 Stat. 566), preference right to purchase the farm units described above will be given to veterans (and in some cases to their husbands or wives or guardians of minor children) who submit applications during a 45-day period beginning at 2 p. m., June 17, 1955, and ending at 2 p. m., August 1, 1955, and who, at the time of making application, are in one of the following five classes:

a. Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States for a period of at least ninety (90) days at any time between September 16, 1940, and January 31, 1955, inclusive, and have been honorably discharged.

b. Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States during the period prescribed in subsection a. of this section regardless of length of service, and who have been discharged on account of wounds received or disability incurred during such period in the line of duty, or subsequent to a regular discharge, have been furnished hospitalization or awarded compensation by the Government on account of such wounds or disability.

c. The spouse of any person in either of the first two classes listed in this section, if the spouse has the consent of such person to exercise his or her preference right. (See subsection 7. c. of this announcement regarding the provision that a married woman must be head of a family.)

d. The surviving spouse of any person in either of the first two classes listed in this section, or in the case of the death or marriage of such spouse, the minor child or children of such person by guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

e. The surviving spouse of any person whose death has resulted from wounds received or disability incurred in the line of duty while serving in the Army, Navy, Marine Corps, Air Force, or Coast Guard during the period described in subsection a. of this section, or in the case of death or marriage of such spouse, the minor child or children of such person by a guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

SEC. 4. *Definition of honorable discharge.* An honorable discharge means:

a. Separation from the service by means of an honorable discharge or by the acceptance of resignation or a discharge under honorable conditions.

b. Release from active duty under honorable conditions to an inactive status, whether or not in a reserve component or retirement.

Any person who obtains an honorable discharge as herein defined shall be entitled to veterans preference even though such person thereafter resumes active military duty.

QUALIFICATIONS REQUIRED OF PURCHASERS

SEC. 5. *Examining board.* An examining board of three members has been appointed by the Regional Director, Region 1, Bureau of Reclamation, to determine the qualifications and fitness of applicants to undertake the purchase, development, and operation of a farm on the Columbia Basin Project. The board will make careful investigations to verify the statements and representations made by applicants. Any false statements may constitute grounds for rejection of an application and cancellation of the applicant's right to purchase a farm unit.

SEC. 6. *Minimum qualifications.* Certain minimum qualifications have been established which are considered necessary for the successful development of farm units. Applicants must meet these qualifications in order to be eligible for the purchase of farm units. Failure to meet them in any single respect will be sufficient cause for rejection of an application. No added credit will be given for qualifications in excess of the required minimum. The minimum qualifications are as follows:

a. *Character and industry.* An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation.

b. *Farm experience.* Except as otherwise provided in this subsection, an applicant must have had a minimum of two years (24 months) of full-time farm experience, which shall consist of participation in actual farming operations, after attaining the age of 15 years. Time spent in agricultural courses in an accredited agricultural college or time spent in work closely associated with farming, such as teaching vocational agriculture, agricultural extension work, or field work in the production or marketing of farm products, which, in the opinion of the board will be of value to an applicant in operating a farm, may be substituted for full-time farm experience. Such substitution shall be on the basis of one year (academic year of at least nine months) of agricultural college courses or one year (twelve months) of work closely associated with farming for six months of full-time farm experience. Not more than one year of full-time farm experience of this type will be allowed. A farm youth who actually resided and worked on a farm after attaining the age of 15 and while attending school may credit such experience as full-time experience.

Applicants who have acquired their experience on an irrigated farm will not be given preference over those whose experience was acquired on a nonirrigated farm, but all applicants must have had farm experience of such nature as in the judgment of the examining board will qualify the applicant to undertake the development and operation of an irrigated farm by modern methods.

c. *Health.* An applicant must be in such physical condition as will enable him to engage in normal farm labor.

d. *Capital.* An applicant must possess assets worth at least $4,500 in excess of liabilities. Assets must consist of cash, property readily convertible into cash or property such as livestock, farm machinery and equipment, which, in the opinion of the board, will be useful in the development and operation of a new, irrigated farm. In considering the practical value of property which will be useful in the development of a farm, the board will not value household goods at more than $500 or a passenger car at more than $500. Assets not useful in the development of a farm will be considered if the applicant furnishes, at the board's request, evidence of the value of the property and proof of its conversion into useful form before execution of a purchase contract.

SEC. 7. *Other qualifications required.* Each applicant (except guardian) must meet the following requirements:

a. Be a citizen of the United States or have declared an intention to become a citizen of the United States.

b. Not own outright, or control under a contract to purchase, more than ten acres of crop land or a total of 160 acres of land at the time of execution of a purchase contract for a farm unit.

c. If a married woman, or a person under 21 years of age who is not eligible for veterans preference, be the head of a family. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of a family may be the head of a family.

WHERE AND HOW TO SUBMIT AN APPLICATION

SEC. 8. *Filing application blanks.* Any person desiring to purchase a farm unit offered for sale by this announcement must fill out the attached application blank and file it with the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, in person or by mail. Additional application blanks may be obtained from the office of the Bureau of Reclamation at Ephrata, Washington; Post Office Box 937 Boise, Idaho; or Washington, D. C. No advantage will accrue to an applicant who presents an application in person. Each application submitted, including the evidence of qualification to be submitted following the public drawing, will become a part of the records of the Bureau of Reclamation and cannot be returned to the applicant.

SELECTION OF QUALIFIED APPLICANTS

SEC. 9. *Priority of applications.* All applicants except those received from qualified exchange applicants prior to 2 p. m., August 1, 1955, which shall be given prior preference, will be classified for priority purposes as follows:

a. *First Priority Group.* All complete applications filed prior to 2 p. m., August 1, 1955, by applicants who claim veterans preference. All such applications will be treated as simultaneously filed.

b. *Second Priority Group.* All complete applications filed prior to 2 p. m., August 1, 1955, by applicants who do not claim veterans preference. All such applications will be treated as simultaneously filed.

c. *Third Group.* All complete applications filed after 2 p. m., August 1, 1955. Such applications will be considered in the order in which they are filed if any farm units are available for sale to applicants within this group.

SEC. 10. *Public drawing.* After the priority classification, the board will conduct a public drawing of the names of the applicants in the First Priority Group as defined in subsection 9. a. of this announcement. Applicants need not be present at the drawing to participate therein. The names of a sufficient number of applicants (not less than four times the number of farm units to be offered for sale) shall be drawn and numbered consecutively in the order drawn for the purpose of establishing the order in which the applications drawn will be examined by the board to determine whether the applicants meet the minimum qualifications prescribed in this announcement, and to establish the priority of qualified applicants for the selection of farm units. After such drawing, the board shall notify each applicant of his respective standing as a result of the drawing.

SEC. 11. *Submission of evidence of qualification.* After the drawing, a sufficient number of applicants, in the order of their priority as established by the drawing, will be supplied with forms on which to submit evidence of qualification, showing that they meet the qualifications set forth in sections 6 and 7 of this announcement and, in case veterans preference is claimed, establishing proof of such preference, as set forth in section 3 of this announcement. Full and accurate answers must be made to all questions. The completed form must be mailed or delivered to the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, within 20 days of the date the form is mailed to the last address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the time period specified will subject his application to rejection.

SEC. 12. *Examination and interview.* After the information outlined in section 11 of this announcement has been received or the time for submitting such statements has expired, the board shall examine in the order drawn a sufficient number of applications together with the evidence of qualification submitted to determine the applicants who will be permitted to purchase farm units. This examination will determine the sufficiency, authenticity, and reliability of the information and evidence submitted by the applicants.

If the applicant fails to supply any of the information required or the board finds that the applicant's qualifications do not meet the requirements prescribed in this announcement, the applicant shall be disqualified and shall be notified by the board, by registered mail, of such disqualification and the reasons therefor and of the right to appeal to the Regional Director, Region 1, Bureau of Reclamation. All appeals must be received in the office of the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, within 15 days of the applicant's receipt of such notice or, in any event, within 30 days from the date when the notice is mailed to the last address furnished by the applicant. The Land Settlement Branch will promptly forward the appeal to the Regional Director.

If the examination indicates that an applicant is qualified, the applicant may be required to appear for a personal interview with the board for the purpose of: (a) Affording the board any additional information it may desire relative to his qualifications; (b) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a farm unit; and (c) affording the applicant an opportunity to examine the farm units.

If an applicant fails to appear before the board for a personal interview on the date requested, he will thereby forfeit his priority position as determined by the drawing.

If the board finds that an applicant's qualifications fulfill the requirements prescribed in this announcement, such applicant shall be notified, in person or by registered mail, that he is a qualified applicant and shall be given an opportunity to select one of the farm units available then for purchase. Such notice will require the applicant to make a field examination of the farm units available to him and in which he is interested, to select a farm unit, and to notify the board of such selection within the time specified in the notice.

SELECTION OF FARM UNITS

SEC. 13. *Order of selection.* The applicants who have been notified of their qualification for the purchase of a farm unit will successively exercise the right to select a farm unit in accordance with the priority established by the drawing. If a farm unit becomes available through failure of a qualified applicant to exercise his right of selection or failure to complete his purchase, it will be offered to the next qualified applicant who has not made a selection at the time the unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the board is upheld by the Regional Director, the farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any of the farm units listed in this announcement remain unselected after all qualified applicants whose names were selected in the drawing have had an opportunity to select a farm unit, and if additional applicants remain in the First Priority Group, the board will follow the same procedure outlined in section 10 of this announcement in the selection of additional applicants from this group.

If any of the farm units remain unselected after all qualified applicants in the First Priority Group have had an opportunity to select a farm unit, the board will follow the same procedure to select applicants from the Second Priority Group, and they will be permitted to exercise their right to select a farm unit in the manner prescribed for the qualified applicants from the First Priority Group.

Any farm units remaining unselected after all qualified applicants in the Second Priority Group have had an opportunity to select a farm unit will be offered to applicants in the Third Group in the order in which their applications were filed, subject to the determination of the board, made in accordance with the procedure prescribed herein, that such applicants meet the minimum qualifications prescribed in this announcement.

If any farm units offered by or under this announcement remain unsold for a period of two years following the date of this announcement, the Project Manager, Columbia Basin Project, Bureau of Reclamation, may sell, lease, or otherwise dispose of such units to qualified applicants without regard to the provisions of section 10 of this announcement.

SEC. 14. *Failure to select.* If any applicant refuses to select a farm unit or fails to do so within the time specified by the board, such applicant shall forfeit his position in his priority group and his name shall be placed last in that group.

PURCHASE OF SELECTED UNIT

SEC. 15. *Execution of purchase contract.* When a farm unit is selected by an applicant as provided in section 13 of this announcement, the Project Manager will promptly give the applicant a written notice confirming the availability to him of the unit selected and will furnish the necessary purchase contract, together with instructions concerning its execution and return. In that notice the Project Manager will also inform the applicant of the amount of the irrigation charges assessed by the South Columbia Basin Irrigation District or, if such charges have not been assessed, of an estimate of the

amount of the charges for the first year of the development period, to be deposited with the Secretary, South Columbia Basin Irrigation District.

If the purchase is made subsequent to April 1 of any year during the development period, a deposit will be required to cover payment of water charges for the balance of that year as well as for the year following the purchase.

SEC. 16. *Terms of sale.* Contracts for the sale of farm units pursuant to this announcement will contain, among others, the following principal provisions:

a. *Down payment.* An initial or down payment of not less than 20 percent of the purchase price of the lands being purchased from the United States will be required. Larger proportions, or the entire amount of the price, may be paid initially at the purchaser's option.

b. *Schedule for payment of balance; interest rate.* If only a portion of the purchase price is paid initially, the remainder will be payable within a period of 20 years following the date of the contract. No payments on the principal, except the down payment, will be required during the first three years and the Project Manager may postpone such payments for as long as the first five years of the contract. Interest on the unpaid balance at the rate of three per cent per annum, however, will be payable annually. When payments on the principal are resumed, they will be payable each year. The schedule of principal payments, which will be established by the Project Manager, will provide for relatively small payments during the first years and larger payments during the later years of the contract period. Payment of any or all installments, or any portion thereof, may be made before their due dates at the purchaser's option.

c. *Development requirements.* In order that the irrigable area of the entire farm unit shall be developed with reasonable dispatch, each purchaser will be required, as a minimum, to clear, level, irrigate, and plant to crops by the end of each of the calendar years indicated below, and to maintain in crops thereafter, the following percentages of irrigable land as tentatively or finally classified:

Size of farm unit in irrigable acres	Percentage of land classified tentatively or finally as irrigable to be developed by end of each year. (Period will begin with year of purchase if contract is executed and water is available on or before May 1 of that year; otherwise period will begin with the next calendar year.)			
	2d year	3d year	4th year	5th year
10 to 40	75			
41 to 60	50	75		
61 to 80	50	65	75	
81 to 100	40	60	65	75
101 to 160	35	50	65	75

d. *Residence requirements.* A major objective of the settlement program for the Columbia Basin Project is to assist and encourage the permanent settlement of farm families. In keeping with this objective, each purchaser will be required to do the following with respect to residence: (1) Within one year from the date of his contract, or within one year from the date that water is available to the irrigation block in which the farm unit is located, whichever is later, to initiate residence by actually moving onto the unit, such residence to be maintained by living thereon for not less than 12 months within an 18-month period following the initial date of residence, and (2) before receiving title to the unit under the purchase contract, to establish a permanent and habitable dwelling on the unit. The time for compliance with the initiation of residence may be extended by the Project Manager for periods of as long as six months, upon his determination that an extension is necessary to avoid undue hardship to the purchaser and that it will not be detrimental to the orderly development of the irrigation block. The latest permissible date for initiating residence, however, will not be extended for more than one year in addition to the one-year period specified above. In extraordinary situations, the requirements under (1) and (2) above may be waived entirely upon the determination by the Regional Director, after recommendation by the Project Manager, that such waiver will be in the interest of orderly development of the block. Any such waiver, however, shall be conditioned on the requirement that the purchaser reside close enough to his unit to permit him to develop it through his own efforts.

e. *Speculation and landholding limitations.* Purchase contracts and deeds covering farm units offered by this announcement will include provisions governing (1) maximum permissible sizes of holdings of irrigable lands; (2) continued conformance of land to the area and boundaries of the farm unit plat for the block; (3) prices at which land can be resold during a period of five years following the date on which water is made available to the irrigation block; (4) disposal of land should it become excess at any time; and (5) limitations as to total area that may be operated on the project whether as lessee or as owner or both.

f. *Copies of contract form.* The terms listed above, and all other standard contract provisions, are contained in the purchase contract form, copies of which may be obtained by writing to the Bureau of Reclamation, Ephrata, Washington.

IRRIGATION CHARGES

SEC. 17. *Water rental charges.* During the irrigation season of 1956, while some construction activities will be continuing and the system is being tested, it is expected that the water will be furnished on a temporary rental basis to those desiring it. The terms of payment, which will be at a fixed rate per acre-foot of water used, will be announced by the Regional Director before the beginning of the irrigation season.

SEC. 18. *Development period charges.* Pursuant to the provisions of the repayment contract of October 9, 1945, between the United States and the South Columbia Basin Irrigation District in the Columbia Basin Project, the Secretary of the Interior will announce a development period of ten years during which time payment of construction charge installments will not be required. This period probably will commence with the calendar year 1957. During the development period, water rental charges will average an estimated $5.50 per year for each irrigable acre as tentatively or finally classified. This figure is preliminary and subject to change because all the data needed to fix the charges are not available nor can they be obtained now. In any event, there will be a minimum charge per farm unit each year whether or not water is used. A notice establishing the details of the plan to be followed and announcing charges and governing provisions for the first year of the development period will be issued prior to January 1 of that year by the Regional Director, who has the responsibility for fixing charges.

The present plans of the Regional Director are (a) to vary the minimum charge according to the anticipated relative repayment ability of the various land classes; (b) to provide for a small minimum charge for the first year and to increase it each year thereafter so that the charge for the tenth year will be approximately equal to the combined construction and operation and maintenance charge for the following year; and (c) to charge for water in excess of the amount furnished for the minimum charge on an acre-foot basis. The minimum charge will entitle each user to a quantity of water to be specified by the Regional Director, varying with the water requirement classification of the land and the size of the farm unit.

In addition to the water rental charges, the Irrigation District will levy an additional charge to cover administrative costs and probable delinquencies in collections.

SEC. 19. *Construction period repayment charges*—a. *Operation and maintenance charges.* After the development period has ended, water users will pay a charge for operation and maintenance of the project irrigation system which will be uniform for the irrigation blocks throughout the project. These charges may or may not be graduated among land classes. Assessment procedure will be left for the Irrigation District Board of Directors to determine, but, in any case, there will be an annual minimum charge per acre. In order to encourage careful use of water, this annual minimum charge will entitle the water user to one-half acre-foot of water per acre less than the amount of water normally required. The normal requirements for the various classes of land will be determined and announced as provided in the repayment contract with the South Columbia Basin Irrigation District. Water in excess of the quantity covered by the minimum charge will be paid for on an acre-foot basis in accordance with an ascending, graduated scale.

b. *Construction charges.* The contract between the United States and the South Columbia Basin Irrigation District requires the payment of construction charges for the project irrigation system during the forty years following the development period. The average construction charge per irrigable acre for the entire project will be $2.12 per year. Thus, the total construction charge payment will average $85 per irrigable acre, but that amount was predicated on an estimated total direct irrigation cost of not to exceed $280,782,180 as indicated by Article 6 of the repayment contract, an amount that it now appears is likely to be exceeded. The contract further provides that construction charges shall be graduated according to the relative repayment ability of the land; consequently, the charge per irrigable acre will be larger for the better lands than for the poorer lands. This allocation of construction charges by classes of land will be made as soon as practicable.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

FEDERAL POWER COMMISSION

[Docket No. E-6630]

SIERRA PACIFIC POWER CO.

NOTICE OF APPLICATION

JUNE 16, 1955.

Take notice that on June 13, 1955, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Sierra Pacific Power Company, a corporation organized under the laws of the State of Maine, and doing business in the States of California and Nevada, with its principal business office at Reno, Nevada, seeking an order authorizing the issuance of unsecured promissory notes, payable to such bank or banks from which Applicant may borrow funds, up to but not exceeding $2,200,000 face amount at any one time outstanding, for periods not exceeding twelve months from the date of original issue or renewal thereof, as the case may be, such notes issued either originally or upon renewal from time to time to have maturity dates not later than December 31, 1956. Said notes will bear interest at a rate per annum not in excess of one quarter of one percent over the prime rate in effect at the time of the borrowing or the renewal or extension of the loans as the case may be. The proceeds will be used to reimburse Applicant for construction expenditures heretofore made and, together with other cash from operations, to carry out the construction program now in progress and contemplated in 1956; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 7th day of July 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket Nos. G-6674, G-6675, G-8672]

NATURAL GAS STORAGE COMPANY OF ILLINOIS ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JUNE 15, 1955.

In the matters of Natural Gas Storage Company of Illinois, Docket No. G-6674; Texas Illinois Natural Gas Pipeline Company, Docket No. G-6675; Natural Gas Pipeline Company of America, Docket No. G-8672.

Take notice that Natural Gas Storage Company of Illinois (Storage Company), applicant in Docket No. G-6674, an Illinois corporation, having its principal place of business at 20 North Wacker Drive, Chicago 6, Illinois, filed on December 30, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Storage Company to construct and operate certain facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Storage Company proposes to construct and operate the following facilities to increase the maximum peak day withdrawals from its storage field in Kankakee and Iroquois Counties in Illinois from 150,000 Mcf to 430,000 Mcf:

(a) Approximately 31 miles of 36-inch pipeline extending from Storage Company's existing compressor station and connecting with the main transmission pipeline of Texas Illinois Natural Gas Pipeline Company at a point at which such pipeline crosses the Illinois River;

(b) Additional dehydration facilities to accomplish the dehydration of the increased flow of gas from the storage reservoir; and compressor station changes required by the increase of input and ejection from storage, but not increasing the total horsepower now installed;

(c) One meter station to measure gas delivered through the pipeline mentioned in (a) above into the main transmission line of Texas Illinois Natural Gas Pipeline Company; such meter station to be located at the point of connection with the main transmission pipeline of Texas Illinois Natural Gas Pipeline Company;

(d) Special valves, fittings and appurtenant facilities as may be necessary or convenient for the proper operation of the aforementioned installations.

Storage Company proposes to increase the quantity of gas in the storage area to a total of at least 25,000 Mcf and to provide a maximum peak day withdrawal of 430,000 Mcf by means of authorized existing facilities and the facilities and operations herein proposed.

Storage Company also proposes to install the following facilities for the reinjection of gas now being vented in the storage area:

(a) Approximately 3.75 miles of pipeline, varying in size from 4 to 24 inches in diameter and other necessary and appurtenant facilities, including drilling of wells as may be required;

(b) Changes in two existing compressor units at Storage Company's authorized Herscher compressor station No. 201 to permit 3-stage compression of gas gathered through the proposed gathering system.

The total estimated cost of the proposed facilities is $7,458,000 to be financed by the issuance and sale of common stock in equal amounts to the present owners of its capital stock, namely Natural Gas Pipeline Company of America and Texas Illinois Natural Gas Pipeline Company.

Take notice further that Texas Illinois Natural Gas Pipeline Company (Texas Illinois), applicant in Docket No. G-6675, a Delaware corporation having its principal place of business at 20 North Wacker Drive, Chicago, Illinois, filed on December 30, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Texas Illinois to construct and operate certain facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Texas Illinois proposes to construct and operate a side tap connection between the 36-inch pipe line of Storage Company proposed in Docket No. G-6674 and the main transmission line of Texas Illinois.

Take notice further that Natural Gas Pipeline Company of America (Natural Gas Pipeline), applicant in Docket No. G-8672, a Delaware corporation having its principal place of business at 20 North Wacker Drive, Chicago 6, Illinois, filed on March 28, 1955, an application for a certificate of public convenience and necessity, as supplemented on April 25, 1955, pursuant to section 7 of the Natural Gas Act, authorizing Natural Gas Pipeline to construct and operate five loop lateral pipelines as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Construction and operation of the five lateral loop lines would permit delivery of the increased volumes of gas to five of its existing customers in Iowa and Illinois. The increased volumes would result from the increased storage operations proposed by Storage Company in Docket No. G-6674. The total estimated cost of the facilities proposed to be constructed by Natural Gas Pipeline is $1,572,200 to be financed from funds on hand.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 6,

1955, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 5, 1955.

[Docket No. G-8752]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 16, 1955.

Take notice that The Ohio Fuel Gas Company (Applicant), an Ohio corporation with its principal office at Columbus, Ohio, filed an application on April 11, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of additional facilities on its system in western Ohio, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application, which is on file with the Commission and open for public inspection.

Applicant proposes construction and operation of:

(1) Approximately 18.9 miles of 16-inch natural gas transmission line in Hardin and Allen Counties, Ohio, partially looping its existing Line D-322 and connecting it with a proposed metering station at Lima, Ohio, to deliver additional gas to West Ohio Gas Company;

(2) A new metering station on the premises of a new petro-chemical plant of Standard Oil Company of Ohio at Lima, Ohio; and,

(3) Approximately 20 feet of 3½-inch transmission line to connect from its Lines D-322 and D-357 in Marion County, Ohio, to initiate retail service in the community of LaRue in Marion County.

Applicant states that the purpose of the proposed facilities is to improve its service to West Ohio Gas Company and enable it to meet the estimated increased gas requirements in the area between Marion and Lima, Ohio. Applicant also proposes to sell up to 12,000 Mcf per day of interruptible gas to Standard Oil's new plant at Lima for the manufacture of ammonia used in making fertilizer and other chemicals.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 12, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 5, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket Nos. G-8932—G-8934, G-8940, G-8997]

PACIFIC NORTHWEST PIPELINE CORP. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JUNE 15, 1955.

In the matters of Pacific Northwest Pipeline Corporation, Docket Nos. G-8932, G-8933, G-8934; El Paso Natural Gas Company, Docket No. G-8940; Nevada Natural Gas Pipe Line Co., Docket No. G-8997.

Take notice that on May 23, 1955, Pacific Northwest Pipeline Corporation (Pacific), a Delaware corporation with principal office at Houston, Texas, filed application for an order under section 3 of the Natural Gas Act authorizing Pacific to import a maximum of 300,000 Mcf per day of natural gas produced from fields in northwestern Alberta and northeastern British Columbia, Canada, into the Pacific Northwest areas of the United States, and to export natural gas for use in the Vancouver and Trail areas of British Columbia. Pacific filed an application simultaneously for a Permit under Executive Order No. 10485 for the construction, operation, maintenance and connection of facilities on the International Boundary (1) at a point near Sumas in Whatcom County, Washington, for the proposed importation and for the proposed exportation to the Vancouver area, and (2) at a point near Boundary in Stevens County, Washington for the proposed exportation to the Trail area. Pacific also filed application simultaneously for a certificate of public convenience and necessity under section 7 of the act authorizing Pacific to extend its system in northern Idaho and Washington, to increase the dimensions of its pipelines north of the Columbia River crossing at Umatilla, Oregon, and increase its system compressor station capacity by 11,340 horsepower, together with miscellaneous facilities, for the transportation and sale of approximately 300,000 Mcf of additional natural gas per day, consisting principally of the sale and delivery at Pacific's main line Compressor Station No. 11 at Mountain Home, Idaho, of a maximum of 250,000 Mcf per day to El Paso Natural Gas Company for resale principally in northern California, together with the proposed exportation to Canada and the sale to new markets in Idaho and Washington in the additional amount of approximately 50,000 Mcf per day, which total of 300,000 Mcf equals the maximum amount of gas that Pacific proposes to import from Canada; all as more fully set forth in Pacific's applications.

The estimated cost of the proposed facilities is $175,493,166 to be financed by Pacific through the issuance of first mortgage pipeline bonds, cumulative preferred and common stocks, and interim notes.

El Paso Natural Gas Company (El Paso), a Delaware Corporation with principal office at El Paso, Texas, filed application on May 23, 1955, which was amended on May 31, for a certificate of public convenience and necessity under section 7 of the act authorizing El Paso to make field exchanges of natural gas with Pacific at wellhead connections in the San Juan Basin in the maximum amount of 100,840 Mcf per day on a temporary basis, and authorizing El Paso to construct and operate facilities for the transportation and sale of natural gas under one of three proposed plans, designated alternate Plans A, B, and C, as hereinafter described and as more fully described in the application.

Under alternate Plan A, El Paso proposes to construct and operate facilities for the transportation of 500,000 Mcf of natural gas per day from the San Juan Basin in northeast New Mexico and southwest Colorado, and 50,000 Mcf from the Permian Basin in west Texas and southeast New Mexico, for the sale and delivery of 70,000 Mcf of additional gas per day to various customers along El Paso's pipeline system in Texas, New Mexico and Arizona, and for the sale and delivery of an additional 225,000 Mcf per day to Pacific Gas and Electric Company (PG&E), an additional 225,999 Mcf per day jointly to Southern California Gas Company, and Southern Counties Gas Company of California (Southern California Companies), and an additional 30,000 Mcf per day to Nevada National Gas Pipe Line Co. (Nevada Natural). El Paso proposes to deliver this additional gas to PG&E and to the Southern California Companies at a point on the Arizona-California boundary near Topock, Arizona. The delivery to Nevada Natural is proposed to be made near Topock, Arizona.

Under alternate Plan B, El Paso proposes to construct and operate facilities for the transportation of 250,000 Mcf of natural gas per day from the San Juan Basin, 50,000 Mcf from the Permian Basin, and the purchase of a maximum of 250,000 Mcf from Pacific at its main line Compressor Station No. 11 at Mountain Home, Idaho. 200,000 Mcf per day of the additional gas from the San Juan and Permian Basins would be sold and delivered to PG&E and to the Southern California Companies on the Arizona-California Boundary near Topock. The sale and delivery of additional gas to Nevada Natural and to the various customers along El Paso's pipeline system in Texas, New Mexico and Arizona would be the same as under alternate Plan A. The 250,000 Mcf of gas per day which El Paso proposes to receive from Pacific at Mountain Home, Idaho, under alternate Plan B, would be sold and delivered by El Paso to PG&E and the Southern California Companies at a point on the Nevada-California boundary near Reno, Nevada.

Under alternate Plan C, El Paso proposes to construct and operate facilities for the transportation and sale of natural gas as set forth in alternate Plan B, except that instead of receiving the 250,000 Mcf of gas per day at Mountain Home and delivering it at the aforesaid point near Reno, El Paso proposes to receive 250,000 Mcf per day from Pacific at a point on Pacific's pipeline near Pendleton, Oregon, and deliver it to PG&E and the Southern California Companies at a point on the California-Oregon boundary near Klamath Falls, Oregon.

The estimated cost of the proposed facilities is $184,750,000 under alternate Plan A; $200,742,000 under alternate Plan B, including $36,454,000 for the proposed Mountain Home-Reno pipeline; $195,528,000 under alternate Plan C, including $31,240,000 for the proposed Pendleton-Klamath Falls Pipeline; and is proposed to be financed by El Paso through the issuance of first mortgage pipeline bonds, cumulative preferred stock, and from funds on hand.

Nevada Natural Gas Pipe Line Co. (Nevada Natural), a Nevada corporation with principal office at Las Vegas, Nevada, filed application on June 3, 1955, for a certificate of public convenience and necessity, under section 7 of the act, authorizing Nevada Natural to construct and operate facilities, consisting principally of approximately 114 miles of loop line and approximately 26 miles of sales laterals and extensions, for the transportation of a maximum of 30,000 Mcf of additional natural gas per day from a connection with the aforesaid facilities of El Paso near Topock, Arizona, for sale to Nevada Southern Gas Company and to California-Pacific Utilities Company for resale in the Las Vegas and Henderson, Nevada, areas, respectively, and for direct sales to additional industrial customers of Nevada Natural in those areas; all as more fully described in the application.

The estimated cost of the proposed facilities is $518,301, to be financed by Nevada Natural through the issuance of first mortgage bonds, and cumulative preferred and common stocks.

Take further notice that these related matters should be heard on a consolidated record, and, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing will be held on July 18, 1955, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 5, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9034]

TRUNKLINE GAS CO.

ORDER INSTITUTING INVESTIGATION AND FIXING DATE OF HEARING

By our order issued July 29, 1954, in Docket No. G-2506, we suspended until January 1, 1955, 29 tariff sheets of Panhandle Eastern Pipe Line Company (Panhandle) proposing revision of Panhandle's FPC Gas Tariff. Original Volume No. 1, and an increase in rates and charges of $12,127,684 annually, over and above the rates and charges permitted to become effective as of May 1, 1954, by Opinion No. 269, issued April 15, 1954. The increased rates and charges are based on the 12-month period ending March 1, 1954, and adjusted for "known changes" expected to occur by November 1, 1954.

Included in Panhandle's cost of service submitted in support of the increased rates is the stated cost of substantial volumes of natural gas purchased from Trunkline Gas Company (Trunkline), an affiliate, computed on a cost of service formula type of rate which was prescribed by us In the Matter of Trunkline Gas Supply Co., et al., Docket No. G-882, et al., 9 FPC 721. The working capital component of the cost formula rate base is an allowance represented by the balance of necessary materials and supplies for operating purposes and one-eighth of cash operating expenses, exclusive of gas purchased, for the preceding twelve-month period. Such allowance does not reflect credit for income tax accruals in accordance with our prior rulings which have been approved by the courts. (Alabama-Tennessee Natural Gas Company v. F. P. C., 203 F. 2d 494; Northern Natural Gas Co., v. F. P. C. 206 F. 2d 690, certiorari denied, 346 U. S. 922). Accordingly, in order to determine whether Panhandle's rates, charges, services or classifications are unjust, unreasonable, unduly discriminatory or preferential it is necessary to investigate Trunkline's rates, charges, services and classifications, and any rule, regulation, practice or contact affecting such rates, charges, services or classifications insofar as they relate to working capital.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that an investigation be instituted by the Commission, on its own motion, concerning the rates, charges, services or classifications demanded, observed, charged or collected by Trunkline in connection with the transportation or sale of natural gas subject to the jurisdiction of the Commission, and any rule, regulation, practice or contract affecting such rates, charges, services or classifications insofar as they or any of them relate to working capital as provided in the formula set forth in subparagraph 3.4 (b) of Rate Schedule P-1 of Trunkline's FPC Gas Tariff, Original Volume No. 1.

The Commission orders:

(A) An investigation be and it hereby is instituted on the Commission's own motion for purpose of enabling the Commission:

(i) To determine whether any rate, charge, service or classification demanded, observed, charged, or collected by Trunkline Gas Company for or in connection with the transportation or sale of natural gas subject to the jurisdiction of the Commission or any rule, regulation, practice or contract affecting such rate, charge, services or classification, is unjust, unreasonable, unduly discriminatory or preferential insofar as they or any of them relate to working capital as set forth in subparagraph 3.4 (b) of Rate Schedule P-1 of Trunkline's Gas Tariff, Original Volume No. 1.

(ii) If, after hearing, it shall find that any such rates, charges, services, classifications, rules, regulations, practices or contracts are unjust, unreasonable, unduly discriminatory or preferential, to determine and fix by appropriate order or orders just, reasonable, non-discriminatory or non-preferential, rates, charges, services, classifications, rules, regulations or contracts to be hereafter observed and in force.

(B) Pursuant to the authority contained in, and subject to the jurisdiction conferred upon the Federal Power Commission by sections 5 and 16 of the Natural Gas Act and the Commission's rules of practice and procedure, a public hearing be held on June 28, 1955 commencing at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C., concerning the lawfulness of the rates, charges, classifications and the rules, regulations, practices and services contained in Trunkline's tariff insofar as they or any of them relate to working capital as provided for in the formula set forth in subparagraph 3.4 (b) of Rate Schedule P-1 of Trunkline's FPC Gas Tariff, Original Volume No. 1.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: June 8, 1955.

Issued: June 15, 1955.

By the Commission.

ARIZONA PUBLIC SERVICE CO.

NOTICE OF APPLICATION FOR AUTHORIZATION TO EXPORT ELECTRIC ENERGY

JUNE 15, 1955.

Notice is hereby given that the Arizona Public Service Company has filed an application pursuant to section 202 (e) of the Federal Power Act (16 U. S. C. 824a (e)) for authority to increase the amount of electric energy previously authorized to be exported across the international boundary between the United States and Mexico, adjacent to Agua Prieta, Sonora, Mexico, to Compania de Servicios Publicos de Agua Prieta, S. A., from 3,000,000 kwh annually at a rate not to exceed 600 kw to 4,000,000 kwh annually, at a rate not to exceed 900 kw.

The requested authorization would supersede the authorization granted in the order of the Commission, issued January 28, 1953.

Any person desiring to be heard or to make any protest with reference to such application should, on or before July 1, 1955, file with the Federal Power Commission, Washington, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure.

[Notice 65]

MOTOR CARRIER APPLICATIONS

JUNE 17, 1955.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (a) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

SECURITIES AND EXCHANGE COMMISSION

AMERICAN INVESTMENT & DEVELOPMENT CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 16th day of June 1955.

In the matter of American Investment & Development Company, 150 Broadway, New York 38, New York.

I. The Commission's public official files disclose that American Investment & Development Company, a Delaware corporation, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1954, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A–5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A–5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A–5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 21st day of July 1955, at the main office of the Securities and Exchange Commission, located at 425 2d Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 7, 1955. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 21, 1955.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

In the matter of Richard W. Brouse, doing business as R. W. Brouse & Co., Stolle Road, Elma, New York.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 16th day of June 1955.

I. The Commission's public official files disclose that Richard W. Brouse, doing business as R. W. Brouse & Co., a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc., a national securities association registered pursuant to section 15A of said act.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1954, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A–5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange

Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant;

(e) Whether, pursuant to section 15A (l) (2) of the Securities Exchange Act of 1934, it is necessary or appropriate in the public interest or for the protection of investors or to carry out the purposes of said section; to suspend the registrant for a period not exceeding twelve (12) months or to expel registrant from membership in the National Association of Securities Dealers, Inc.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 21st day of July 1955, at the main office of the Securities and Exchange Commission, located at 425 2d Street, NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 7, 1955. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 21, 1955.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

JOHN BRIEN BROWN

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 16th day of June 1955.

In the matter of John Brien Brown, Port Murray, R. D., New Jersey.

I. The Commission's public official files disclose that John Brien Brown, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1954, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 21st day of July 1955, at the main office of the Securities and Exchange Commission, located at 425 2d Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 7, 1955. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 21, 1955.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

JUNE 16, 1955.

The West Penn Electric Company ("West Penn"), a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the provisions of section 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-43 promulgated thereunder with respect to the following described transaction:

West Penn and The Greyhound Corporation ("Greyhound"), which are not affiliates of one another, are affiliates of Penn Bus Company ("Penn Bus"), a non-utility company, by reason of their respective holdings of 10,000 shares (50 percent) each of the outstanding common stock of Penn Bus. Pursuant to a contract dated October 1, 1953, West Penn will sell, on or before November 30, 1955, its holdings of Penn Bus stock to Greyhound for a cash consideration equivalent to one-half of the amount, on the last day of the month preceding the date of the sale, of the total assets less the total liabilities (other than capital stock and unappropriated surplus) of Penn Bus, which consideration as of March 31, 1955, amounted to $146,263. The consideration for the 10,000 shares of Penn Bus stock was determined at arm's-length between West Penn and Greyhound.

The contract for the sale by West Penn of its holdings of Penn Bus stock was executed simultaneously with, and is related to, a contract entered into jointly by The Blue Ridge Transportation Company ("Blue Ridge"), and White Star Lines, Inc. ("White Star"), both of which are direct or indirect subsidiaries of

Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 21st day of July 1955, at the main office of the Securities and Exchange Commission, located at 425 2d Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 7, 1955. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 21, 1955.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

LAWYERS MORTGAGE AND TITLE CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 16th day of June 1955.

In the matter of Lawyers Mortgage and Title Company, 115 Broadway, New York 6, New York.

I. The Commission's public official files disclose that Lawyers Mortgage and Title Company, a New York corporation, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1954 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 21st day of July 1955 at the main office of the Securities and Exchange Commission, located at 425 2d Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 7, 1955. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer, of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 21, 1955.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

WEST PENN ELECTRIC CO.

ORDER REGARDING SALE BY REGISTERED HOLDING COMPANY OF CAPITAL STOCK OF NON-UTILITY SUBSIDIARY COMPANY

JUNE 16, 1955.

The West Penn Electric Company ("West Penn"), a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the provisions of section 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-43 promulgated thereunder with respect to the following described transaction:

West Penn and The Greyhound Corporation ("Greyhound"), which are not affiliates of one another, are affiliates of Penn Bus Company ("Penn Bus"), a non-utility company, by reason of their respective holdings of 10,000 shares (50 percent) each of the outstanding common stock of Penn Bus. Pursuant to a contract dated October 1, 1953, West Penn will sell, on or before November 30, 1955, its holdings of Penn Bus stock to Greyhound for a cash consideration equivalent to one-half of the amount, on the last day of the month preceding the date of the sale, of the total assets less the total liabilities (other than capital stock and unappropriated surplus) of Penn Bus, which consideration as of March 31, 1955, amounted to $146,263. The consideration for the 10,000 shares of Penn Bus stock was determined at arm's-length between West Penn and Greyhound.

The contract for the sale by West Penn of its holdings of Penn Bus stock was executed simultaneously with, and is related to, a contract entered into jointly by The Blue Ridge Transportation Company ("Blue Ridge"), and White Star Lines, Inc. ("White Star"), both of which are direct or indirect subsidiaries of

West Penn, for the sale of all of their assets and businesses to Greyhound. The contracts between West Penn and its subsidiaries, on the one hand, and Greyhound, on the other hand, are subject to rescission unless all of the transactions are approved by the regulatory authorities having jurisdiction with respect thereto.

No State commission and no Federal regulatory agency, other than this Commission, has jurisdiction over the sale by West Penn of the Penn Bus stock; the acquisition of the Penn Bus stock by Greyhound has been approved by order of the Interstate Commerce Commission and no other State commission or Federal regulatory agency has jurisdiction over the acquisition; and the sale by Blue Ridge and White Star of their assets to Greyhound, having been approved by the Interstate Commerce Commission, is exempt from the provisions of the act pursuant to Rule U-8 promulgated thereunder.

The fees and expenses to be paid in connection with the sale by West Penn of its holdings of the Penn Bus stock are estimated as follows:

Payee:	
Legal fees:	
Sullivan & Cromwell	$500
McNees, Wallace & Nurick (Pennsylvania counsel)	350
Miscellaneous	150
Total	1,000

West Penn has requested that the Commission take action on this matter as soon as practicable and that there be no waiting period between the issuance of the Commission's order and the date of its effectiveness.

Due notice of the filing of said declaration having been given in the manner prescribed by Rule U-23 promulgated under the act, and no hearing thereon having been requested of, or ordered by, the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied, that the fees and expenses to be paid in connection with said transaction, if they do not exceed the amounts estimated, are not unreasonable, that said declaration, as amended, should be permitted to become effective, and that the Commission's order should become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said amended declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

Secretary.

WEALDEN CO.

NOTICE OF FILING REQUESTING ORDER EXEMPTING TRANSACTION BETWEEN AFFILIATED PERSONS

JUNE 16, 1955.

Notice is hereby given that The Wealden Company ("Applicant"), a registered closed-end, non-diversified investment company, has filed an application pursuant to the provisions of section 17 (b) of the Investment Company Act of 1940 (the "act") for exemption from the provisions of section 17 (a) (2) thereof in respect of the transactions described below.

Applicant's assets consist solely of cash, United States Government securities and 243,450.9 shares of Common Stock of The Glenn L. Martin Company ("Martin"). Applicant's liabilities consist solely of current liabilities (none of which is represented by notes or other securities). Applicant's securities outstanding consist solely of Common Stock, par value $5 per share, of which 120,000 shares are authorized and 116,484 shares are outstanding.

Applicant proposes to offer to redeem its stock by distributing to each stockholder who wishes to accept the offer 2.07 shares of Common Stock of Martin (owned by the applicant) in redemption of each share of applicant's stock, the stock of applicant owned by stockholders accepting the offer to be surrendered to the applicant and cancelled. Since fractional shares of Martin Common Stock are not issuable, an appropriate adjustment in cash (in lieu of a fractional share of Martin Common Stock) will be made by the applicant to its tendering stockholders, such adjustment to be based upon the closing price of Martin Common Stock on the New York Stock Exchange on a date prior, but as close as practicable, to the date when the offer is first made.

Such offer will be subject to acceptance or rejection by each stockholder of applicant at the option of the stockholder, and each stockholder may tender all or any part of his Wealden stock. It is contemplated that such offer would remain open for acceptance or rejection by each stockholder for approximately thirty days after the mailing thereof. The consummation of the proposed transaction will result, to the extent the offer is accepted, in a liquidation of the applicant, giving those stockholders of applicant who desire to accept the offer an opportunity to acquire directly Common Stock of Martin and to surrender their interest in applicant.

A. C. Allyn and Company, Incorporated and Bear, Stearns & Co. are each affiliated persons of applicant, since each is the beneficial owner of more than 5 percent of the outstanding Common Stock of the applicant. Applicant is informed that each of said persons intends to accept such offer when made and to tender all of their Wealden stock. Mr. Henry G. Lambert (a director and President of applicant) is an affiliated person (an employee) of A. C. Allyn and Company, Incorporated, and Mr. Harris T. Shea (Secretary and Treasurer of applicant) is an affiliated person (a partner) of Bear, Stearns & Co.

Section 17 (a) (2) of the act prohibits, among other things, an affiliated person of a registered investment company or an affiliated person of such a person, from purchasing any security from such registered company, subject to certain exceptions not here material, unless the Commission, upon application pursuant to section 17 (b) of the act, grants an exemption from the provisions of section 17 (a). Under the terms of section 17 (b) an exemption shall be granted by the Commission if evidence establishes: That the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned; that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act; and that the proposed transaction is consistent with the general purposes of the act. Applicant has requested that the Commission issue an order exempting the transaction from the provisions of section 17 (a) (2) to the extent applicable, pursuant to an order under section 17 (b) of the act.

Notice is further given that any interested person may not later than June 30, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

Secretary.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 962—FRESH PEACHES GROWN IN GEORGIA

ORDER SUSPENDING CERTAIN PROVISIONS OF MARKETING AGREEMENT, AS AMENDED, AND ORDER, AS AMENDED

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and of the marketing agreement, as amended, and Order No. 62, as amended (7 CFR Part 962; 19 F. R. 2127; 20 F. R. 1635), regulating the handling of fresh peaches grown in the State of Georgia, hereinafter referred to as the "order," and upon the basis of the recommendation of the Industry Committee, established under the order, and upon other available information, it is hereby found and determined:

a. That during the period of this suspension order the provisions of §§ 962.41, 962.54, 962.55, 962.56, and 962.75 of the order will not tend to effectuate the declared policy of the act with respect to shipments of fresh peaches grown in the State of Georgia; and

b. That it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this suspension order until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that the time intervening between the date when information upon which this order is based became available and the time when this order must become effective is insufficient; and this suspension order relieves restrictions on the handling of fresh peaches grown in the State of Georgia.

It is, therefore, ordered, That during the period beginning at 12:01 a. m., e. s. t., June 24, 1955, and ending at 12:01 a. m., e. s. t., March 1, 1956, the following provisions of the order and regulations thereunder be, and hereby are, suspended:

a. With regard to assessments: § 962.41 *Assessments;*

b. With regard to maturity regulations: § 962.54 *Establishment,* § 962.55 *Modification,* § 962.56 *Suspension,* and § 962.400 *Maturity regulations;* and

c. With regard to reports: § 962.75 *Reports,* § 962.130 *Peaches shipped to adjacent markets,* and § 962.131 *Peaches not subject to regulation.*

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 17th day of June 1955. However, this suspension shall not: Affect or waive any right, duty, obligation, or liability which shall have arisen, or which may thereafter arise, in connection with any provision of said order, or regulation issued thereunder; release or extinguish any violation of said order, or regulation issued thereunder; or affect or impair any rights or remedies of the United States, the Secretary of Agriculture, or of any other person, with respect to any such violation.

AUTHORIZATION OF CERTAIN TRANSACTIONS WITH RESPECT TO COUPONS APPERTAINING TO VESTED NEGOTIABLE BEARER BONDS

There are vested in or transferred to the Attorney General the underlying debts or other obligations evidenced by various negotiable coupons appertaining to negotiable bearer bonds in instances where the coupons have not been reduced to possession by the Attorney General but as to which he has the right to demand and receive payment from the obligor or issuer without presentation of the coupon. Coupons appurtenant to negotiable bearer bonds made payable at the coupon paying department of a large bank are handled in tremendous volume through "clearings" and for practical purposes are treated like currency. Under the normal practice prevailing with respect to payment of bearer coupons, it is impracticable for issuers or their paying agents to check such coupons, in advance of payment, against lists of those coupons where the underlying debts or other

obligations have been so vested or transferred. Double payments may therefore result if the coupons are presented for payment by a person having possession thereof, other than the Attorney General. Section 505.2 is intended to relieve persons delivering and receiving coupons for collection from the necessity of so checking in advance of payment and to provide a means for issuers or paying agents to seek reimbursement for payments erroneously made on such coupons presented by persons other than the Attorney General. Inasmuch as § 505.2 relates to public property, it is hereby found that notice, hearing and suspension of applicability are not required. Accordingly, Part 505 is hereby amended by adding a new § 505.2, reading as follows:

§ 505.2 *Authorization of certain transactions with respect to coupons appertaining to vested negotiable bearer bonds.* (a) The following transactions with respect to any vested coupon as defined in paragraph (b) of this section are authorized subject to subparagraph (5) (i) and (ii) of this paragraph if effected within the United States:

(1) Delivery by any person in the United States of any vested coupon for collection to any person who in the ordinary course of his business forwards for payment coupons appertaining to securities;

(2) Receipt from any person in the United States for collection and forwarding for collection of any vested coupon by any person who in the ordinary course of his business forwards for payment coupons appertaining to securities;

(3) Presentation of any vested coupon to the issuer or its paying agent for payment thereof;

(4) Payment of any vested coupon by the issuer or its paying agent upon condition that within 30 days after presentation for payment, the issuer or its paying agent shall cancel the coupon and give written notice to the person who presented the coupon for payment advising him that the coupon is a vested coupon, specifying the number of the vesting order by which said coupon (or the negotiable bearer bond to which it appertains) was vested pursuant to the Trading With the Enemy Act, as amended (50 U. S. C. App. 1–40), and shall forward a copy of the aforesaid notice to the Office of Alien Property, Washington 25, D. C.; and

(5) Transfer of cash or credit for a vested coupon to any party to any transaction authorized by this section; *Provided*, That:

(i) No transaction referred to in subparagraph (1), (2), (3), (4) or (5) of this paragraph is authorized except upon the condition that the party delivering, forwarding, or presenting any such vested coupon, upon receipt of the notice specified in subparagraph (4) of this paragraph, reimburse the person giving such notice in the amount paid or credited to him by that person.

(ii) No transaction authorized by this section shall operate to transfer title to or to discharge the obligation evidenced by any vested coupon.

(b) *Definition.* As used in this section, the term "vested coupon" means any negotiable coupon evidencing a debt or other obligation vested in or transferred to the Attorney General or appertaining to a negotiable bearer bond evidencing a debt or other obligation vested in or transferred to the Attorney General pursuant to the Trading With the Enemy Act, as amended.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 55]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (20 F. R. 2881, 2973, 3499, 3931), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

Subparagraphs (8) and (10) of paragraph (a), relating to California, are amended to read:

(8) SE. ¼ of SW. ¼ Sec. 32, T. 1 N., R. 5 W., SBBM; E. ½ of NE. ¼ Sec. 25, T. 3 N., R. 6 W., SBBM; and W. ½ of NE. ¼ Sec. 25, T. 3 N., R. 6 W., SBBM, in San Bernardino County.

• • • • •

(10) Secs. 20 and 29, T. 2 S., R. 6 E., MDBM, in San Joaquin County.

• • • • •

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in San Bernardino and San Joaquin Counties in California from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1954 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 120, 111, 123, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

Done at Washington, D. C., this 17th day of June 1955.

Acting Administrator, Agricultural Research Service.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 146]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. From initial contact with GCA to final authorized landing minimums, the instructions of the GCA controller are mandatory except when (A) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach.

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

In the Matter of Ronald Levine, Also Known as Ronald Loring, Stanley Levine, Also Known as Stanley Loring, Each Individually and as Copartners Trading and Doing Business as Stanley Girl Coat Co., and Princess Nell Girl Coat

This proceeding was heard by Loren H. Laughlin, hearing examiner, upon the complaint of the Commission which charged respondents with having violated the Federal Trade Commission Act and the Wool Products Labeling Act of 1939 and the rules and regulations promulgated under the latter, and upon a

written stipulation, which was entered into by respondents with counsel supporting the complaint, waived the filing of an answer and agreed that a consent order against the respondents be entered in the matter in terms identical with those contained in the Notice issued and served on respondents as a part of the complaint, and was approved in writing by the Director and Assistant Director of the Commission's Bureau of Litigation.

By the terms of said stipulation, it was provided, among other things, that respondents admitted all the jurisdictional allegations of the complaint and agreed that the record might be taken as if the Commission had made findings of jurisdictional facts in accordance therewith; that the parties expressly waived a hearing before the hearing examiner or the Commission and all further and other procedure to which the respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission; that the order to cease and desist issued in accordance with said stipulation should have the same force and effect as if made after a full hearing, the parties having waived specifically therein any and all right, power, or privilege to challenge or contest the validity of said order; that the complaint in the matter might be used in construing the terms of the order provided for; and that the signing of the stipulation was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint.

Thereafter, said Stipulation for Consent Order, as thus approved, having been submitted to said hearing examiner for his consideration in accordance with Rule V of the Commissioner's rules of practice, said examiner made his initial decision in which he set forth the aforesaid matters; upon due consideration of the complaint and the Stipulation for Consent Order, which he accepted and ordered filed as part of the record in the matter—it having been stipulated that they should be the entire record on which such order might be entered—found that the Commission had jurisdiction of the subject matter of the proceeding and of each and both of the parties respondent, both individually and as copartners under the trade names stated; that the complaint stated a legal cause for complaint under the aforesaid acts and rules and regulations, against said respondents, both as an entity and in each of the particular violations alleged therein; that the proceeding was in the interest of the public; that the order to be issued, as proposed in said stipulation, was appropriate for the disposition of the proceeding, the same to become final when it became the order of the Commission; and that said order should therefore be entered; and in which, accordingly, he entered the same.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated May 6, 1955, became, on May 7, 1955, pursuant to Rule XXII of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That the respondents Ronald Levine, also known as Ronald Loring, and Stanley Levine, also known as Stanley Loring, individually and trading and doing business under the several firm names of Stanley Girl Coat Company and Princess Nell Girl Coat, or under any other name or names, and their respective representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of girls' coats or other "wool products," as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool," or "reused wool," as those terms are defined in said act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product, of any nonfibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product, or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

3. Failing to separately set forth on the required stamp, tag, label, or other means of identification, the character and amount of the constituent fibers of the interlinings of any such wool product.

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939: *And provided further*, That nothing contained in this order shall be construed as limiting any applicable provisions of said act of the rules and regulations promulgated thereunder.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 6, 1955.

By the Commission.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Docket 3666; Order 19]

PARTS 71–78—EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 2d day of June 1955.

It appearing, that pursuant to the Transportation of Explosives Act of March 4, 1921 (41 Stat. 1444), sections 831–835 of Title 18 of the United States Code approved June 25, 1948, and Part II of the Interstate Commerce Act, as amended, the Commission has heretofore formulated and published certain regulations for the transportation of explosives and other dangerous articles.

It further appearing, that in Notice No. 19 and appendix entered on April 1, 1955, in this proceeding certain amendments to the said rules were proposed with an opportunity being given to interested parties for the submission of objections, if any, to such proposed amendments.

And it further appearing, that objections having been filed to some of the said proposed amendments such amendments have been withdrawn from the notice of April 1, 1955, and are the subject of an informal conference as set forth in Notice No. 19 dated May 16, 1955, whereas consideration being given herein only to the remaining amendments contained in said notice of April 1, 1955, to which no objections have been filed;

It is ordered, That the aforesaid regulations for the transportation of explosives and other dangerous articles to which no objections have been filed in this proceeding be, and they are hereby, amended as follows:

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

Amend § 72.5, commodity list (15 F. R. 8264, 8266, 8267, 8271, 8272, Dec. 2, 1950) (19 F. R. 6267, Sept. 29, 1954) (49 CFR 1950 Rev., 1954 Supp., 72.5) as follows:

PART 73—SHIPPERS

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

1. Add paragraph (f) to § 73.22 (15 F. R. 8277, Dec. 2, 1950) (49 CFR 73.22, 1950 Rev.) to read as follows:

§ 73.22 *Specification containers prescribed.* * * *

(f) Where the regulations require spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter) metal drums, spec. 37D, 37E, 37F, 37G, and 37H metal drums manufactured prior to effective date of change may be continued in use for commodities and gross weights for which they were previously authorized until further order of the Commission.

2. Amend § 73.31 (g), Notes 1 and 2 (20 F. R. 949, Feb. 15, 1955) (49 CFR 1950 Rev., 1954 Supp., 73.31) to read as follows:

§ 73.31 *Qualification, maintenance, and use of tank cars.* * * *

(g) * * *

NOTE 1: Periodic retests of metal tanks, safety valves, and heater systems of tank cars, except as provided in Note 2, except those in chlorine service, and except tanks made to specification 106A500, 106A500X, 106A800, 106A800X, or 107A (§§ 78.275, 78.276, or § 78.277 of this chapter) now required to be made as prescribed in paragraph (g) of this section, may be waived because of the present emergency and until September 30, 1955, or until further order of the Commission.

NOTE 2: Periodic retest of metal tanks, safety valves, and heater systems of specification 103A, 103A-W, 103C, 103C-W, and 103C-AL (§§ 78.266, 78.281, 78.268, or § 78.283 of this chapter) tank cars, now required to be made as prescribed in paragraph (g) of this section, may be made at 5-year intervals up to 10 years of service, thereafter at 3-year intervals up to 22 years of service, and annually after 22 years of service until September 30, 1955, or until further order of the Commission.

* * * * * *

3. In § 73.34 amend the introductory text of paragraph (k) (19 F. R. 1276, Mar. 6, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.34) to read as follows:

§ 73.34 *Qualification, maintenance, and use of cylinders.* * * *

(k) The tests prescribed by paragraph (j) of this section must be in accordance with the following table and exceptions thereto.

* * * * * *

SUBPART B—EXPLOSIVES; DEFINITIONS AND PREPARATION

1. Add paragraph (r) to § 73.51 (15 F. R. 8285, Dec. 2, 1950) (49 CFR 73.51, 1950 Rev.) to read as follows:

§ 73.51 *Forbidden explosives.* * * *

(r) Loaded firearms.

2. Amend § 73.53 (g) (2) (19 F. R. 6267, Sept. 29, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.53) to read as follows:

§ 73.53 *Definition of class A explosives.* * * *

(g) * * *

(2) Detonating fuzes, class A, are used in the military service to detonate the high explosive bursting charges of projectiles, mines, bombs, torpedoes, and grenades. In addition to a powerful detonator, they may contain several ounces of a high explosive, such as tetryl or dry nitrocellulose, all assembled in a heavy steel envelope. They may also contain a small amount of radioactive component. Those that are so made and packed that they will not cause functioning of other fuzes, explosives, or explosive devices in the same or adjacent containers are classed as class C explosives.

* * * * * *

3. Amend § 73.59 (a) (15 F. R. 8287, Dec. 2, 1950) (49 CFR 73.59, 1950 Rev.) to read as follows:

§ 73.59 *Chemical ammunition, explosive.* (a) When chemical elements of chemical ammunition are shipped assembled with their ignition elements, bursting charges, detonating fuzes, or explosive components, they must be shipped in conformity with the regulations prescribed for explosive articles, class A, see § 73.56, or explosive articles, class B, see § 73.88. For shipment of these articles not containing ignition elements, bursting charges, detonating fuzes, or other explosive components, see §§ 73.330, 73.350, and 73.383.

* * * * * *

4. Amend entire § 73.69 (17 F. R. 9836, Nov. 1, 1952) (19 F. R. 6267, Sept. 29, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.69) to read as follows:

§ 73.69 *Detonating fuzes, class A, with or without radioactive components, detonating fuze parts containing an explosive, boosters, bursters, or supple-*

mentary charges. (a) Detonating fuzes, class A with or without radioactive components, detonating fuze parts containing an explosive, boosters, bursters, or supplementary charges, when shipped not assembled in projectiles, bombs, etc., must be packed and well secured in strong, tight wooden or metal boxes.

NOTE 1: Radiation on the surface of any detonating fuze, class A, having a radioactive component shall not exceed 100 milliroentgens per hour and the radiation at the surface of the outside shipping container shall not exceed 200 milliroentgens per hour.

(b) The gross weight of one outside package containing detonating fuzes, class A, must not exceed 190 pounds. Boosters, bursters and supplementary charges, without detonators, when shipped separately, must not exceed a gross weight of 300 pounds.

(c) Each outside package must be plainly marked "Detonating Fuzes Class A—Handle Carefully—Do Not Store or Load With Any High Explosives", or "Detonating Fuzes Class A, Radioactive—Handle Carefully—Do Not Store or Load With Any High Explosives", or "Boosters (Explosive)—Handle Carefully", or "Bursters (Explosive)—Handle Carefully", or "Supplementary Charges (Explosive)—Handle Carefully", as the case may be.

(d) Detonating fuzes, class A, boosters, bursters, or supplementary charges must not be offered for transportation by rail express, except as provided in § 73.86 and § 75.675 of this chapter.

5. Amend § 73.91 (a) (3) and (g) (1) (18 F. R. 5271, Sept. 1, 1953) (19 F. R. 8525, Dec. 14, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.91) to read as follows:

§ 73.91 *Special fireworks.* (a) • • •

(3) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes. Gross weight not to exceed 65 pounds except as provided in subparagraph (5) of this paragraph. Not permitted for illuminating projectiles, toy torpedoes, aeroplane flares, and fireworks shells.

• • • • •

(g) • • •

(1) Spec. 15A, 15B, 16A, or 19A (§§ 78.168, 78.169, 78.185, or § 78.190 of this chapter) wooden boxes, or spec. 12B (§ 78.205 of this chapter) fiberboard boxes which must be constructed to comply with § 78.205–30 of this chapter. Not more than 20 one-quarter gross cartons totalling not more than 5 gross of toy torpedoes are authorized per fiberboard box. Gross weight of fiberboard box must not exceed 35 pounds. Gross weight of wooden box must not exceed 65 pounds.

• • • • •

6. Add paragraph (a) (3) to § 73.109 (15 F. R. 8297, Dec. 2, 1950) (49 CFR 73.109, 1950 Rev.) to read as follows:

§ 73.109 *Toy caps.* (a) • • •

(3) Toy caps, in addition to containers specified in subparagraphs (1) and (2) of this paragraph, may be transported in the package in which they are imported, provided the package consists of a wooden box, metal-lined, in good condition, and weighing not over 100 pounds gross. Inside packages must be as defined in § 73.100 (p).

• • • • •

7. Add § 73.113 (15 F. R. 8297, Dec. 2, 1950) (49 CFR 73.113, 1950 Rev.) to read as follows:

§ 73.113 *Detonating fuzes, class C.* (a) Detonating fuzes, class C, are used in the military service to detonate high explosive bursting charges of projectiles, mines, bombs, torpedoes and grenades. They contain a detonator and a quantity of a high explosive. Detonating fuzes, class C, must be made and packed so that they will not cause functioning of other fuzes, explosives or explosive devices if one of the fuzes detonates in a shipping container or in adjacent containers.

(b) Detonating fuzes, class C, must be packed and well secured in strong tight outside wooden or metal boxes. The gross weight of the outside wooden or metal box containing detonating fuzes, class C, must not exceed 190 pounds.

(c) Each outside package must be plainly marked "Detonating Fuzes, Class C—Handle Carefully".

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

1. In § 73.119 amend paragraph (k) (3) and add paragraph (k) (4) to § 73.119 (15 F. R. 8300, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

§ 73.119 *Flammable liquids not specifically provided for.* • • •

(k) • • •

(3) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip) not over 5 gallons with welded side seams.

(4) Spec. 42F (§ 78.110 of this chapter). Aluminum barrels or drums.

• • • • •

2. Amend § 73.127 (a) (2) (15 F. R. 8301, Dec. 2, 1950) (49 CFR 73.127, 1950 Rev.) to read as follows:

§ 73.127 *Nitrocellulose or collodion cotton, fibrous, or nitrostarch, wet; colloided nitrocellulose, granular or flake, and lacquer base or lacquer chips, wet.* (a) • • •

(2) Spec. 6A, 6B, or 6C; or 37A or 37B (single-trip containers not over 5 gallons capacity) (§§ 78.97, 78.98, 78.99, 78.131, or § 78.132 of this chapter). Metal barrels or drums.

• • • • •

3. In § 73.128 amend paragraph (a) (2); cancel paragraph (a) (3) (15 F. R. 8301, 8302, Dec. 2, 1950) (49 CFR 73.128, 1950 Rev.) to read as follows:

§ 73.128 *Paints and related materials.* (a) • • •

(2) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip) not over 5 gallons capacity with welded side seams, irrespective of flash point or viscosity. Because of the present emergency and until further order of the Commission, spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter) metal drums of 8½ gallons capacity, with welded side seams and made of 24 gauge metal, are authorized provided flash point of material shipped is above 20° F.

(3) [Canceled.]

• • • • •

4. Amend § 73.129 (a) (2) (15 F. R. 8302, Dec. 2, 1950) (49 CFR 73.129, 1950 Rev.) to read as follows:

§ 73.129 *Polishes, metal, stove, furniture and wood, liquid.* (a) • • •

(2) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip) not over 5 gallons capacity with welded side seams, irrespective of flash point or viscosity.

• • • • •

5. Amend § 73.135 (a) (2) (15 F. R. 8302, Dec. 2, 1950) (49 CFR 73.135, 1950 Rev.) to read as follows:

§ 73.135 *Dimethyl dichlorosilane, ethyl dichlorosilane, ethyl trichlorosilane, methyl trichlorosilane, trimethyl chlorosilane, and vinyl trichlorosilane.* (a) • • •

(2) Spec. 17H or 37A (§ 78.118 or § 78.131 of this chapter). Metal drums (single-trip) with glass inside containers not over 1 gallon capacity each securely closed and cushioned with incombustible absorbent material.

• • • • •

6. Amend § 73.136 (a) (2) (15 F. R. 8302, Dec. 2, 1950) (49 CFR 73.136, 1950 Rev.) to read as follows:

§ 73.136 *Trichlorosilane.* (a) • • •

(2) Spec. 17H or 37A (§ 78.118 or § 78.131 of this chapter). Metal drums (single-trip) with glass inside containers not over 1 quart capacity each securely closed and cushioned with incombustible absorbent material.

• • • • •

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

1. Amend § 73.154 (a) (2) (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.154, 1950 Rev.) to read as follows:

§ 73.154 *Flammable solids and oxidizing materials not specifically provided for.* (a) • • •

(2) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

2. Amend § 73.156 (a) (4) (15 F. R. 8304, Dec. 2, 1950) (49 CFR 73.156, 1950 Rev.) to read as follows:

§ 73.156 *Barium peroxide and calcium peroxide.* (a) • • •

(4) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

3. Amend § 73.160 (a) (3) (15 F. R. 8304, Dec. 2, 1950) (49 CFR 73.160, 1950 Rev.) to read as follows:

§ 73.160 *Calcium chlorite and sodium chlorite.* (a) • • •

(3) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

4. Amend § 73.163 (a) (2) and (7) (15 F. R. 8305, Dec. 2, 1950) (19 F. R. 1277, Mar. 6, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.163) to read as follows:

§ 73.163 *Chlorate of soda, chlorate of potash, and other chlorates.* (a) • • •

(2) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

NOTE 1: Spec. 37A and 37B. Metal drums for export service, marked for an authorized gross weight of 160 pounds, must be at least 24 gauge metal throughout.

• • • • •

(7) Chlorate of soda is authorized for shipment in steel tank cars, or in tight sift-proof covered hopper cars. Cars must be thoroughly cleaned before loading.

5. Amend § 73.164 (a) (2) (15 F. R. 8305, Dec. 2, 1950) (49 CFR 73.164, 1950 Rev.) to read as follows:

§ 73.164 *Chromic acid.* (a) • • •

(2) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

6. Amend § 73.166 (a) (2) (15 F. R. 8305, Dec. 2, 1950) (49 CFR 73.166, 1950 Rev.) to read as follows:

§ 73.166 *Cobalt resinate, precipitated, calcium resinate, and calcium resinate fused.* (a) • • •

(2) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

7. Amend § 73.175 (a) (3) (15 F. R. 8306, Dec. 2, 1950) (49 CFR 73.175, 1950 Rev.) to read as follows:

§ 73.175 *Lacquer base, or lacquer chips, dry.* (a) • • •

(3) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

8. Amend § 73.178 (a) (5) (15 F. R. 8307, Dec. 2, 1950) (49 CFR 73.178, 1950 Rev.) to read as follows:

§ 73.178 *Motion-picture film, old and worn out (not scrap).* (a) • • •

(5) Spec. 6A, 6B, 6C, or 6J; also 37A or 37B (single-trip containers) (§§ 78.97, 78.98, 78.99, 78.100, 78.131, or § 78.132 of this chapter). Metal barrels or drums.

• • • • •

9. In § 73.182 amend the introductory text of paragraph (b) and (b) (4) (19 F. R. 8526, Dec. 14, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.182) to read as follows:

§ 73.182 *Nitrates.*

• • • • •

(b) Aluminum nitrate, ammonium nitrate, ammonium nitrate (organic coating), ammonium nitrate-carbonate mixture, ammonium nitrate-phosphate, ammonium nitrate fertilizer, containing 90 percent or more ammonium nitrate with no organic coating, ammonium nitrate mixed fertilizer,[1] barium nitrate, calcium nitrate, guanidine nitrate, nitrate of soda and potash, potassium nitrate, sodium nitrate, and strontium nitrate, when offered for transportation by rail freight, rail express, highway, or carriers by water, in addition to containers prescribed in paragraph (a) of this section, may be packed as follows:

• • • • •

(4) In bags not exceeding 200 pounds net weight, moisture-proof, made tight against sifting, and of strength not less than bags made of 8-ounce burlap. Ammonium nitrate-carbonate mixtures, calcium nitrate, sodium nitrate, nitrate of soda and potash, or strontium nitrate when so packed are exempt from labeling requirements and § 77.823 of this chapter. Rail shipments must be in clean closed cars which shall be free of loose boards, cracks, holes, or exposed decayed spots; interior of cars must be swept clean and be free of any projections capable of injuring bags; doors of cars must have tight closures; journals and boxes must be in good condition; and ammonium nitrate, ammonium nitrate (organic coating), ammonium nitrate fertilizer, containing 90 percent or more ammonium nitrate with no organic coating, or guanidine nitrate must not be shipped in all-metal cars (see also § 74.541 (a) (1) of this chapter). Highway shipments must be in closed or open type motor vehicles which must be swept clean and be free of any projections capable of injuring bags; and when shipped in open type motor vehicles the lading shall be suitably covered (see also § 77.823 (a) (4) and (5) of this chapter). Water shipments are also subject to Regulations for Explosives or Other Dangerous Articles on Board Vessels prescribed by the Commandant, United States Coast Guard (46 CFR Part 146).

10. Amend § 73.184 (a) (4) (15 F. R. 8308, Dec. 2, 1950) (49 CFR 73.184, 1950 Rev.) to read as follows:

§ 73.184 *Nitrocellulose or collodion cotton, wet, or nitrocellulose, colloided, granular, or flake, wet, or nitrostarch, wet, or nitroguanidine, wet.* (a) • • •

(4) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip) not over 5 gallons capacity. Welded side seams required.

• • • • •

11. Amend § 73.187 (a) (3) (15 F. R. 8308, Dec. 2, 1950) (49 CFR 73.187, 1950 Rev.) to read as follows:

§ 73.187 *Peroxide of sodium.* (a) • • •

(3) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

12. Amend § 73.188 (a) (3) (15 F. R. 8308, Dec. 2, 1950) (49 CFR 73.188, 1950 Rev.) to read as follows:

§ 73.188 *Phosphoric anhydride.* (a) • • •

(3) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

13. Amend § 73.189 (a) (2) (15 F. R. 8308, Dec. 2, 1950) (49 CFR 73.189, 1950 Rev.) to read as follows:

§ 73.189 *Phosphorus, amorphous, red.* (a) • • •

(2) Spec. 6A or 6B; also 37A or 37B (single-trip containers) (§§ 78.97, 78.98, 78.131, or § 78.132 of this chapter), for gross weight not over 160 pounds. Metal barrels or drums.

14. Amend § 73.191 (a) (2) (15 F. R. 8309, Dec. 2, 1950) (49 CFR 73.191, 1950 Rev.) to read as follows:

§ 73.191 *Phosphorus pentachloride.* (a) • • •

(2) Spec. 6A, 6B, or 6C; also 37A or 37B (single-trip containers) (§§ 78.97, 78.98, 78.99, 78.131, or § 78.132 of this chapter). "Black iron" metal barrels or drums.

• • • • •

15. Amend § 73.194 (a) (2) (15 F. R. 8309, Dec. 2, 1950) (49 CFR 73.194, 1950 Rev.) to read as follows:

§ 73.194 *Potassium permanganate.* (a) • • •

(2) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal barrels or drums (single-trip).

16. Amend § 73.195 (a) (2) (20 F. R. 950, Feb. 15, 1955) (49 CFR 73.195, 1950 Rev.) to read as follows:

§ 73.195 *Pyroxylin plastic scrap, photographic film scrap, X-ray film scrap, motion-picture film scrap, or pieces of exposed or unexposed film.* (a) • • •

(2) Spec. 6A, 6B, 6C, or 6J; also 17H, 37A, or 37B (single-trip containers) (§§ 78.97, 78.98, 78.99, 78.100, 78.118, 78.131, or § 78.132 of this chapter). Metal barrels or drums.

• • • • •

17. Amend § 73.198 (a) (3) (15 F. R. 8309, Dec. 2, 1950) (49 CFR 73.198, 1950 Rev.) to read as follows:

§ 73.198 *Sodium hydride.* (a) • • •

(3) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip) with welded side seams and hermetically sealed closure or closure made fast by positive pressure of the lid against a rubber gasket with edge of the lid crimped over the lip of the drum and a protective metal ring fastened around the crimped edge, packed in strong outside wooden boxes.

18. Amend § 73.204 (a) (4) (15 F. R. 8310, Dec. 2, 1950) (49 CFR 73.204, 1950 Rev.) to read as follows:

§ 73.204 *Sodium hydrosulfite.* (a) • • •

(4) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip). These containers are not authorized for transportation by carriers by water.

• • • • •

19. Amend § 73.206 (a) (3) and (4), (b) (1), and (c) (2) (15 F. R. 8310, Dec. 2, 1950) (19 F. R. 6268, Sept. 29, 1954) (17 F. R. 1561, Feb. 20, 1952) (49 CFR 1950 Rev., 1954 Supp., 73.206) to read as follows:

[1] Applies only to materials classed as dangerous under definition in § 73.150.

§ 73.206 *Sodium or potassium, metallic, sodium amide, sodium potassium alloys, lithium metal, lithium silicon, lithium hydride, and lithium aluminum hydride.* (a) • • •

(3) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip). Authorized only for sodium which must be fused solid in the container.

(4) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip) not exceeding 6 gallons capacity each, with welded side seams and hermetically sealed closure or closure made fast by positive pressure of the lid against a rubber gasket with edge of the lid crimped over the lip of the drum and a protective metal ring fastened around the crimped edge, cushioned on all sides with incombustible packing material, packed in strong outside wooden boxes (see § 73.25). Not more than four inside metal drums shall be packed in one outside wooden box.

• • • • •

(b) • • •

(1) Spec. 15A or 15B (§ 78.168 or § 78.169 of this chapter). Wooden boxes with inside metal drums, spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter) single-trip, having welded side seams, net weight not over 30 pounds, or with inside glass containers, each enclosed in a tin container.

• • • • •

(c) • • •

(2) Spec. 17C, 17H, 37A, or 37B (§§ 78.115, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip) authorized for cylindrical blocks at least 2 inches in diameter and not less than 6 inches in length, or rectangular blocks not less than 6 inches in length and not less than 2 inches in any other dimension. Net weight not over 300 pounds for spec. 17C (§ 78.115 of this chapter) drums; not over 30 pounds for spec. 17H, 37A, or 37B (§§ 78.118, 78.131, or § 78.132 of this chapter) drums.

• • • • •

20. Amend § 73.207 (b) (3). (15 F. R. 8311, Dec. 2, 1950) (49 CFR 73.207, 1950 Rev.) to read as follows:

§ 73.207 *Sulfide of sodium or sulfide of potassium, fused or concentrated, when ground.* • • •

(b) • • •

(3) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

21. Amend § 73.208 (b) (2) (16 F. R. 9375, Sept. 15, 1951) (49 CFR 1950 Rev., 1954 Supp., 73.208) to read as follows:

§ 73.208 *Titanium metal powder, wet or dry.* • • •

(b) • • •

(2) Spec. 17H or 37A (§ 78.118 or § 78.131 of this chapter). Metal barrels or drums (single-trip) with inside metal drum of not less than 20-gauge metal and with closure secured by positive means. The inside container shall be completely surrounded by not less than 1 inch of incombustible cushioning material.

22. Amend § 73.215 (a) (4) (18 F. R. 6778, Oct. 27, 1953) (49 CFR 1950 Rev., 1954 Supp., 73.215) to read as follows:

§ 73.215 *Zirconium or hafnium metal powder or sponge, dry.* (a) • • •

(4) Spec. 17H, 37A, or 37B (§ 78.118, § 78.131, or § 78.132 of this chapter). Metal drums (single-trip) not exceeding 30 gallons capacity. Authorized only for zirconium or hafnium metal sponge (not powder).

• • • • •

23. Amend § 73.217 (a) (2) (15 F. R. 8311, Dec. 2, 1950 (49 CFR 73.217, 1950 Rev.) to read as follows:

§ 73.217 *Calcium hypochlorite compounds, dry, and lithium hypochlorite compounds, dry.* (a) • • •

(2) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

24. Add paragraph (a) (3) to § 73.224 (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.224, 1950 Rev.) to read as follows:

§ 73.224 *Cumene hydroperoxide, dicumyl peroxide, and tertiary butylisopropyl benzene hydroperoxide.* (a) • • •

(3) Spec. 103A or 103A–W (§ 78.266 or § 78.281 of this chapter). Tank cars. Authorized for 75 percent or less cumene hydroperoxide in nonvolatile solution.

25. Amend § 73.225 (a) (3) (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.225, 1950 Rev.) to read as follows:

§ 73.225 *Phosphorus sesquisulfide.* (a) • • •

(3) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip). Gross weight not over 425 pounds.

26. Amend § 73.228 (a) (2) (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.228, 1950 Rev.) to read as follows:

§ 73.228 *Zinc ammonium nitrite.* (a) • • •

(2) Spec. 17E, 17H, 37A, or 37B (§§ 78.116, 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip). Gross weight not over 300 pounds.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

1. Amend § 73.242 (b) (15 F. R. 8313, Dec. 2, 1950) (49 CFR 73.242, 1950 Rev.) to read as follows:

§ 73.242 *Bottles containing acid or other corrosive liquids.* • • •

(b) When bottles containing acid or other corrosive liquids are cushioned by incombustible absorbent material and securely packed in tightly closed metal containers, except hydrofluoric acid which must be packed in a container other than a metal container, they may be packed with other articles. This exception does not apply to nitric acid exceeding 40 percent concentration, perchloric acid, hydrogen peroxide exceeding 52 percent strength by weight, nitrohydrochloric acid, or nitrohydrochloric acid diluted, which must not be packed in the same outside container with any other article under any circumstances.

2. Amend § 73.245 (a) (12) (18 F. R. 3135, June 2, 1953) (49 CFR 1950 Rev., 1954 Supp., 73.245) to read as follows:

§ 73.245 *Acids or other corrosive liquids not specifically provided for.* (a) • • •

(12) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with inside containers of polyethylene, or other nonfragile plastic material resistant to the lading, and having threaded closures or other equally efficient type closure, not over 1 gallon capacity each, suitably cushioned to prevent movement within the box. Gross weight of complete package must not exceed 65 pounds.

• • • • •

3. Cancel paragraph (a) (14) to § 73.247 (19 F. R. 3260, June 3, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.247)

§ 73.247 *Acetyl chloride, antimony pentachloride, benzoyl chloride, benzyl chloride, pyro sulfuryl chloride, silicon chloride, sulfur chloride (mono and di), sulfuryl chloride, thionyl chloride, tin tetrachloride (anhydrous), and titanium tetrachloride.* (a) • • •

(14) [Canceled.]

4. Add paragraph (b) to § 73.250 (15 F. R. 8314, Dec. 2, 1950) (49 CFR 73.250, 1950 Rev.) to read as follows:

§ 73.250 *Automobiles and other self-propelled vehicles, engines or other mechanical apparatus.* • • •

(b) Engines or mechanical apparatus of such size or weight as to require securement to skids to facilitate handling may have electric storage batteries, wet, necessary for the operation thereof, either securely fastened in the holder provided on the equipment and protected, including battery terminals, in such manner as to prevent damage thereto or short circuits, or completely boxed in containers of sound lumber and with filling holes upright, securely fastened to the skids upon which the engine or mechanical apparatus is mounted to prevent accidental tipping or looseness in transportation. Electric storage batteries, wet, as described herein are exempt from specification packaging.

5. Amend § 73.257 (a) (6) (19 F. R. 6268, Sept. 29, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.257) to read as follows:

§ 73.257 *Electrolyte (acid) or corrosive battery fluid.* (a) • • •

(6) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with inside containers of polyethylene or other electrolyte acid resistant plastic having threaded closures or an inside sealed bag placed in a closed fiber carton inside of a sealed bag or in closed fiber tubes, minimum thickness of polyethylene or other plastic material shall be not less than 0.003 inch for any film sheet; not more than 12 such inside containers shall be packed in one outside box and the marking prescribed in § 73.401 (c) shall not be required. Inside containers of any type shall not exceed 2 quarts capacity each. Inside containers shall be packed to prevent movement within the box. Dry storage batteries or battery charger devices may be packed in the same outside box when adequately separated from inside containers of electrolyte acid, but not more than 4 inside containers of electrolyte acid may be so packed under this provision; gross weight of completed package shall not exceed 65 pounds.

• • • • •

6. In § 73.260 amend the introductory text of paragraph (a) (15 F. R. 8315, Dec. 2, 1950) (49 CFR 73.260, 1950 Rev.) to read as follows:

§ 73.260 *Electric storage batteries, wet.* (a) Electric storage batteries, containing electrolyte acid or alkaline corrosive battery fluid, must be completely protected so that short circuits will be prevented; they must not be packed with other articles except as provided in §§ 73.250 and 73.258, portable searchlights properly cushioned, battery parts, or hydrometers, securely packed in a separate container.

• • • • •

7. Amend § 73.263 (a) (14) (18 F. R. 6779, Oct. 27, 1953) (49 CFR 1950 Rev., 1954 Supp., 73.263) to read as follows:

§ 73.263 *Hydrochloric (muriatic) acid, hydrochloric (muriatic) acid mixtures, hydrochloric (muriatic) acid solution, inhibited, and sodium chlorite solution.* (a) • • •

(14) Spec. 17H, 37A, or 37B (§§ 78.118, 78.131, or § 78.132 of this chapter). Metal drums (single-trip) not over 5 gallons capacity each. Authorized only for hydrochloric (muriatic) acid solution, inhibited, containing not to exceed 15 percent hydrochloric (muriatic) acid. Drums must be lined throughout with a pliable plastic material impervious to the solution. Spec. 37A and 37B (§ 78.131 or § 78.132 of this chapter) metal drums must be at least 24 gauge steel.

• • • • •

8. Amend § 73.264 (a) (8) (17 F. R. 1562, Feb. 20, 1952) (49 CFR 1950 Rev., 1954 Supp., 73,264) to read as follows:

§ 73.264 *Hydrofluoric acid.* (a) • • •

(8) Spec. 103A, 103A–W, 104A, 104A–W, 105A300, 105A400, 105A500, 105A600, 105A300–W, 105A400–W, 105A500–W, 105A600–W, or ARA–IV–A1 (§§ 78.266, 78.281, 78.270, 78.285, 78.271, 78.272, 78.273, 78.274, 78.286, 78.287, 78.288, 78.289). Unlined metal tank cars which have been subjected to adequate passivity or neutralization process. (See Note 1 to subparagraph (7) of this paragraph.) Authorized only for acid of 60 to 80 percent strength. If tanks are washed out with water they must be resubjected to passivity before reshipment.

• • • • •

9. Amend § 73.268 (a) (15 F. R. 8319, Dec. 2, 1950) (49 CFR 73.268, 1950 Rev.) to read as follows:

§ 73.268 *Nitric acid.* (a) Nitric acid exceeding 40 percent concentration in any quantity must not be packed with any other article.

• • • • •

10. Amend § 73.280 (a) (2) (15 F. R. 8322, Dec. 2, 1950) (49 CFR 73.280, 1950 Rev.) to read as follows:

§ 73.280 *Allyl trichlorosilane, amyl trichlorosilane, butyl trichlorosilane, cyclohexenyl trichlorosilane, cyclohexyl trichlorosilane, diethyl dichlorosilane, diphenyl dichlorosilane, dodecyl trichlorosilane, ethyl phenyl dichlorosilane, hexadecyl trichlorosilane, hexyl trichlorosilane, nonyl trichlorosilane, octadecyl trichlorosilane, octyl trichlorosilane, phenyl trichlorosilane, and propyl trichlorosilane.* (a) • • •

(2) Spec. 17H or 37A (§ 78.118 or § 78.131 of this chapter). Metal drums (single-trip), with glass inside containers not over 1 gallon capacity each securely closed and cushioned with incombustible absorbent material.

• • • • •

11. Cancel paragraph (a) (10) to § 73.289 (19 F. R. 8527, Dec. 14, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.289).

§ 73.289 *Formic acid and formic acid solutions.* (a) • • •

(10) [Canceled.]

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

1. In § 73.301 redesignate paragraph (b) (1) as Note 1, and add Note 2 to paragraph (b); amend paragraph (c) (15 F. R. 8324, Dec. 2, 1950) (49 CFR 73.301, 1950 Rev.) to read as follows:

§ 73.301 *General requirements.*

• • •

(b) • • •

NOTE 1: The lower limits of combustibility of the more commonly used liquefied petroleum gases are: Propane, 2.15 percent: Butane, 1.55 percent. These figures represent volumetric percentages of gas-air mixtures in each case.

NOTE 2: The use of 1.0 pound of ethyl mercaptan, 1.0 pound of thiophene, or 1.4 pounds of amyl mercaptan per 10,000 gallons of liquefied petroleum gas shall be considered sufficient to meet the requirements of § 73.301 (b). (This note does not exclude the use of any other odorant in sufficient quantity to meet the requirements of § 73.301 (b).)

(c) *Foreign cylinders.* Except as authorized by § 73.9, a charged container of foreign manufacture must not be offered for transportation in domestic traffic unless it has been made in accordance with the applicable ICC specification and unless the tests required by such specification were made in this country and proper report rendered.

• • • • •

2. In § 73.314 (a), table, amend the entry "Methyl mercaptan" (19 F. R. 8528, Dec. 14, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.314) to read as follows:

§ 73.314 *Compressed gases in tank cars.* (a) • • •

Kind of gas	Maximum permitted filling density, Note 1	Required type of tank car, Note 2
Methyl mercaptan.	*Percent* 80	ICC–106A500, 106A500X, Note 13.
	82	ICC–105A300, 105A300W.

• • • • •

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

1. Amend § 73.346 (a) (3) and (4) (15 F. R. 8334, Dec. 2, 1950) (49 CFR 73.346, 1950 Rev.) to read as follows:

§ 73.346 *Poisonous liquids not specifically provided for.* (a) • • •

(3) Spec. 37B (§ 78.132 of this chapter). Metal drums (single-trip containers), welded side seams, openings not over 2.3 inches in diameter, capacity not over 10 gallons.

(4) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip containers), with welded side seams, not over 5 gallons; authorized for pastes only.

• • • • •

2. Amend § 73.352 (a) (2) (15 F. R. 8335, Dec. 2, 1950) (49 CFR 73.352, 1950 Rev.) to read as follows:

§ 73.352 *Liquid sodium or potassium cyanide.* (a) • • •

(2) Spec. 17E or 37B (§ 78.116 or § 78.132 of this chapter). Metal drums (single-trip), with welded side seams, with openings not exceeding 2.3 inches in diameter.

• • • • •

3. Amend § 73.354 (a) (5) (15 F. R. 8336, Dec. 2, 1950) (49 CFR 73. 354, 1950 Rev.) to read as follows:

§ 73.354 *Motor fuel antiknock compound or tetraethyl lead.* (a) • • •

(5) MC 300, MC 301, MC 302, MC 303, or MC 330 (§§ 78.321, 78.322, 78.323, 78.324, or § 78.336 of this chapter). Tank motor vehicles.

• • • • •

4. Amend § 73.358 (a) (6) (17 F. R. 4295, May 10, 1952) (49 CFR 1950 Rev., 1954 Supp., 73.358) to read as follows:

§ 73.358 *Hexaethyl tetraphosphate, methyl parathion, parathion, tetraethyl dithio pyrophosphate, and tetraethyl pyrophosphate, liquid.* (a) • • •

(6) Spec. 37A (§ 78.131 of this chapter). Metal drums (single-trip), with inside glass containers not over 1 gallon capacity each.

• • • • •

5. Amend § 73.359 (a) (7) and (b) (6) (17 F. R. 4295, May 10, 1952) (49 CFR 1950 Rev., 1954 Supp, 73.359) to read as follows:

§ 73.359 *Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, parathion mixtures, tetraethyl dithio pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, liquid.* (a) • • •

(7) Spec. 37A (§ 78.131 of this chapter). Metal drums (single-trip), with inside glass containers not over 1 gallon capacity each.

• • • • •

(b) • • •

(6) Spec. 37A (§ 78.131 of this chapter). Metal drums (single-trip), with inside glass containers not over 1 gallon capacity each.

• • • • •

6. Add paragraph (a) (4) to § 73.360 (17 F. R. 7283, Aug. 9, 1952) (49 CFR 1950 Rev., 1954 Supp., 73.360) to read as follows:

§ 73.360 *Perchloro-methyl-mercaptan.* (a) • • •

(4) Spec. 5K or 5M (§ 78.88 or § 78.90 of this chapter). Nickel or monel barrels or drums.

7. In § 73.365 amend paragraph (a) (2); cancel Note 1 to paragraph (a) (2), and cancel paragraph (a) (3) (15 F. R. 8336, Dec. 2, 1950) (49 CFR 73.365, 1950 Rev.) to read as follows:

§ 73.365 *Poisonous solids not specifically provided for.* (a) • • •

(2) Spec. 17H, 37A, or 37B (§§ 78.116, 78.131, or § 78.132 of this chapter). Metal drums (single-trip). Gross weight not over 375 pounds, except for materials fused solid in the drum a gross weight of 880 pounds is authorized in drums constructed of at least 18 gauge steel regardless of gross weight marking embossed in the container.

NOTE 1: [Canceled.]

(3) [Canceled.]

• • • • •

8. Cancel paragraph (a) (3) to § 73.366 (15 F. R. 8336, Dec. 2, 1950) (49 CFR 73.366, 1950 Rev.) to read as follows:

§ 73.366 *Arsenic (arsenic trioxide) or arsenic acid (solid).* (a) • • •

(3) [Canceled.]

• • • • •

9. In § 73.369 amend paragraph (a) (9) and (11); cancel paragraph (a) (10) (15 F. R. 8337, Dec. 2, 1950) (49 CFR 73.369, 1950 Rev.) to read as follows:

§ 73.369 *Carbolic acid (phenol), not liquid.* (a) • • •

(9) Spec. 17E or 17H (§ 78.116 or § 78.118 of this chapter). Metal drums (single-trip).

(10) [Canceled.]

(11) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

10. In § 73.370 amend paragraphs (a) (5) and (c) (1); cancel paragraph (a) (7) (15 F. R. 8337, Dec. 2, 1950) (18 F. R. 804, Feb. 7, 1953) (49 CFR 1950 Rev., 1954 Supp., 73.370) to read as follows:

§ 73.370 *Cyanides, or cyanide mixtures, except cyanide of calcium and mixtures thereof.* (a) • • •

(5) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter). Metal drums (single-trip containers) with welded side seams; all seams and closures to be watertight and must be hermetically sealed when used for calcium cyanide.

• • • • •

(7) [Canceled.]

• • • • •

(c) • • •

(1) As prescribed in subparagraphs (2), (3), (4), (5), (6), (8), (9), (10), or (11) of this paragraph.

• • • • •

11. Amend § 73.377 (a) (4) (16 F. R. 11780, Nov. 21, 1951) (49 CFR 1950 Rev., 1954 Supp., 73.377) to read as follows:

§ 73.377 *Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, parathion mixtures, tetraethyl dithio pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, dry.* (a) • • •

(4) Spec. 17C, 17H, or 37A (§ 78.115, § 78.118, or § 78.131 of this chapter). Metal drums (single-trip). Spec. 37A metal drums authorized for not over 100 pounds net weight.

• • • • •

12. Amend § 73.378 (a) (2) (16 F. R. 11780, Nov. 21, 1951) (49 CFR 1950 Rev., 1954 Supp., 73.378) to read as follows:

§ 73.378 *Beryllium metal powder.* (a) • • •

(2) Spec. 17H, 37A, or 37B (§ 78.118, § 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

• • • • •

13. Amend § 73.385 (a) (2) (15 F. R. 8338, Dec. 2, 1950) (49 CFR 73.385, 1950 Rev.) to read as follows:

§ 73.385 *Tear gas grenades, tear gas candles, or similar devices.* (a) • • •

(2) Spec. 37A (§ 78.131 of this chapter). Metal drum (single-trip). Functioning elements must be packed in separate compartment. Not more than 24 grenades and 24 functioning devices shall be packed in one outside container and the gross weight of the container must not exceed 75 pounds.

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART A—LOADING, UNLOADING, PLACARDING AND HANDLING CARS; LOADING PACKAGES INTO CARS

1. In § 74.526 amend paragraph (n) (1); add paragraph (n) (3); amend entire paragraph (o) (20 F. R. 953, Feb. 15, 1955) (49 CFR 74.526, 1950 Rev.) to read as follows:

§ 74.526 *Loading packages of explosives in cars, selection, preparation, inspection, and certification.* • • •

(n) • • •

(1) Portable metal containers must be of such design and so braced that there will be no evidence of failure of the container or the bracing when subjected to impact of at least 8 miles per hour. Efficiency shall be determined by actual test, using dummy loads equal in weight and general character to material to be shipped.

• • • • •

(3) Lading shall be so loaded, blocked, and braced within the container that it will not change position under impact of at least 8 miles per hour.

(o) Explosives, class A, may be loaded and transported in tight, closed truck bodies or trailers on flat cars provided all of the following requirements are fulfilled:

(1) Truck body or trailer must meet the requirements of Part 77 of this chapter, applicable to shipments of explosives by motor vehicle.

(2) Truck body or trailer shall be so loaded and braced on the car that it will not change position or show evidence of failure or impending failure of the bracing or blocking under impact of at least 8 miles per hour. Efficiency shall be determined by actual test, using dummy loads equal in weight and general character to material to be shipped.

(3) Lading shall be so loaded, blocked, and braced within the truck body or trailer that it will not change position under impact of at least 8 miles per hour.

(4) Cars or truck bodies or trailers on cars must be placarded with the "Explosives" placards as prescribed in § 74.550 and properly executed car certificates as required by § 74.525.

2. Cancel paragraph (c) in § 74.527 (18 F. R. 3137, June 2, 1953) (49 CFR 1950 Rev., 1954 Supp., 74.527):

§ 74.527 *Forbidden mixed loading and storage.* • • •

(c) [Canceled.]

3. Amend § 74.528 (a) (15 F. R. 8347, Dec. 2, 1950) (49 CFR 74.528, 1950 Rev.) to read as follows:

§ 74.528 *Protect explosives from injury.* (a) In a car containing explosives, the explosives and all other freight must be so loaded, and if necessary so braced and stayed, as to prevent injury to packages of explosives during transit. When practicable, explosives should be loaded so as to avoid transfer at stations.

4. Amend § 74.532 (h) (3) (15 F. R. 8348, Dec. 2, 1950) (49 CFR 74.532, 1950 Rev.) to read as follows:

§ 74.532 *Loading other dangerous articles.* • • •

(h) • • •

(3) Electric storage batteries (wet) for shipment must be completely protected so that short circuits will be prevented and must not be loaded or stored with explosives.

• • • • •

SUBPART B—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

In § 74.538 amend item "g" and item "7" vertical and horizontal columns in paragraph (a) chart (19 F. R. 6269, Sept. 29, 1954) (15 F. R. 8350, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 74.538) to read as follows:

§ 74.538 *Loading and storage chart of explosives and other dangerous articles.* (a) • • •

"g" Detonating fuzes, class A, with or without radioactive components.

• • • • •

"7" Time, combination or detonating fuzes, class C.

• • • • •

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART C—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

In § 77.848 amend item "g" and item "7" vertical and horizontal columns in paragraph (a) chart (19 F. R. 6270, Sept. 29, 1954) (15 F. R. 8368, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 77.848) to read as follows:

§ 77.848 *Loading and storage chart of explosives and other dangerous articles.* (a) • • •

"g" Detonating fuzes, class A, with or without radioactive components.

• • • • •

"7" Time, combination or detonating fuzes, class C.

• • • • •

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART D—SPECIFICATIONS FOR METAL BARRELS, DRUMS, KEGS, CASES, TRUNKS AND BOXES

1. Amend § 78.115–7 (a) (15 F. R. 8448, Dec. 2, 1950) (49 CFR 78.115–7, 1950 Rev.) to read as follows:

§ 78.115 *Specification 17C; steel drums.*

§ 78.115–7 *Convex heads.* (a) Convex (crowned) heads, not extending beyond level of chime, required for drums of 25 gallons capacity or over; minimum convexity of 3/8 inch required.

2. Cancel entire § 78.125 (15 F. R. 8451, Dec. 2, 1950) (18 F. R. 806, Feb. 7, 1953) (17 F. R. 7287, Aug. 9, 1952) (49 CFR 1950 Rev., 1954 Supp., 78.125)

3. Cancel entire § 78.126 (15 F. R. 8451, 8452, Dec. 2, 1950) (17 F. R. 4297, May 10, 1952) (49 CFR 1950 Rev., 1954 Supp., 78.126)

4. Cancel entire § 78.127 (15 F. R. 8452, Dec. 2, 1950) (18 F. R. 806, Feb. 7, 1953) (49 CFR 1950 Rev., 1954 Supp., 78.127)

5. Cancel entire § 78.128 (15 F. R. 8452, 8453, Dec. 2, 1950) (17 F. R. 4298, May 10, 1952) (49 CFR 1950 Rev., 1954 Supp., 78.128)

6. Cancel entire § 78.129 (15 F. R. 8453, 8454, Dec. 2, 1950) (17 F. R. 4298, May 10, 1952) (49 CFR 1950 Rev., 1954 Supp., 78.129)

7. Add § 78.131 (15 F. R. 8454, Dec. 2, 1950) (49 CFR 78.131, 1950 Rev.) to read as follows:

§ 78.131 *Specification 37A; steel drums.* Single-trip container. Removable head required.

§ 78.131–1 *Compliance.* (a) Required in all details.

§ 78.131–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.131–9 (a) (2). Minimum actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent. Maximum actual capacity shall not be greater than rated (marked) capacity plus 3 percent or rated (marked) capacity plus 2 percent plus 1 quart whichever is the greater.

§ 78.131–3 *Composition.* (a) Sheets for body and heads to be hot-rolled or cold-rolled, low carbon, open-hearth or electric steel of standard commercial quality.

§ 78.131–4 *Weight of sheets.* (a) Average draft weight for any gauge not less than as follows:

Gauge, U. S. standard (No.)	Standard weight per square foot	Authorized tolerances
	Pounds	*Percent*
12	4.375	5
13	3.750	5
14	3.125	5
15	2.8125	5
16	2.500	5
18	2.000	3½
19	1.750	3½
20	1.500	3½
22	1.250	3½
24	1.000	2½
26	.750	2½

§ 78.131–5 *Seams.* (a) Side seams must be welded.

§ 78.131–6 *Capacities, weights, type, and gauges.* (a) Capacities, weights, type, and gauges must be as follows:

Marked capacity not over (gallons)	Authorized gross weight not over (pounds)	Type of container	Minimum thickness in the black (gauge, U. S. standard) [1]		Minimum ring gauge bolted type [2]
			Body sheet [3]	Head sheet	
5	60	Straight side	26	26	Lug or plain ring seal.
5	80	do	24	24	
10	160	do	24	24	
55	150	do	26	26	18, plain.
55	275	do	24	24	18, plain.
55	350	do	24	24	16, 2" overlap.
55	450	do	22	22	16, 2" overlap.

[1] All gauges specified are minimum. Heavier (but not lighter) gauges may be specified if shipper so desires.
[2] Equally efficient closing devices may be authorized by the Bureau of Explosives upon demonstration of their ability to withstand tests prescribed in § 78.131–11.
[3] Containers of 16 gallons capacity and over must have 2 swedged or corrugated rolling hoops of sufficient height to clear the closing device when the drum is rolled.

§ 78.131–7 *Closures.* (a) Closures of the type specified in the above table adequate to prevent leakage; gaskets required, discs required when necessary, all closures to be of the full-removable head type. Curl at top of shell for all drums 30 gallons capacity and larger must have a minimum diameter of 7/16 inch, and so made as to form a circular section with the under portion substantially in contact with the vertical shell. The removable head must have a minimum depth of 3/4 inch and the cover bib must be large enough to extend to the horizontal center line of the top curl when the drum is sealed with the gasket in place. Drums of less than 30 gallons capacity may be made with an outside curl diameter of 3/8 inch minimum and a head depth of 3/4 inch minimum; except that for drums less than 16 gallons capacity the outside curl diameter may be 9/32 inch and the cover depth may be 3/8 inch minimum.

(b) The closing ring must be so constructed that the bottom leg will extend well inside the vertical center line of the shell curl but must not touch the shell (recommended clearance is 1/16 inch minimum, 3/32 inch maximum) when sealed for usage. The top leg of the locking ring must have sufficient length to extend well inside the vertical center line of the curl on the shell. Closing rings must have a 2 inch overlap at joint when gross weight of drum exceeds 275 pounds. Overlap is not required for drums of 275 pounds or less gross weight. The clearance between ends of rings without overlap should be a minimum of 1/8 inch and a maximum of 1/2 inch.

§ 78.131–8 *Defective containers.* (a) Defective containers to be repaired by method used in constructing container. Soldering not authorized.

§ 78.131–9 *Marking.* (a) Marking on each container by embossing on bottom head with raised marks as follows:

(1) ICC–37A***. Stars to be replaced by the authorized gross weight, or less, at which the container was type tested (for example, ICC–37A150). This mark shall be understood to certify that the container complies with all specification requirements.

(2) Gauge of metal in thinnest part, rated capacity in gallons, and year of manufacture (for example, 24–55–54). When gauge of metal in body differs from that in either head, both must be indicated with slanting line between and with gauge of body indicated first (for example, 22/24–55–54 for a container having 22 gauge body, 22 gauge bottom head and 24 gauge top head).

(3) Name or symbol (letters) of maker; this must be recorded with the Bureau of Explosives.

(4) The letters STC; located just above or below the ICC mark to indicate "single trip container".

§ 78.131–10 *Size of markings.* (a) Size of markings, not less than 1/2 inch high for all containers.

§ 78.131–11 *Type test.* (a) Samples, taken at random and closed as for use, shall withstand prescribed test without leakage. Tests to be made of each type and size by each company starting production and to be repeated every four months. Samples last tested to be retained until further tests are made. The type test is as follows:

(b) Test by dropping on top chime, filled with dry finely powdered material to the gross weight at which container is marked, from height of 4 feet onto solid concrete so as to strike diagonally on the chime and so positioned when equipped with bolted ring type closure that crush pattern will terminate at closure joint. Closing devices and other parts projecting beyond chime or rolling hoops must also be capable of withstanding this test. A disc constructed of crepe paper or other suitable material may be used in addition to regular gasket over top of container before applying head for test purposes.

8. Add § 78.132 (15 F. R. 8454, Dec. 2, 1950) (49 CFR 78.132, 1950 Rev.) to read as follows:

§ 78.132 *Specification 37B; steel drums.* Single-trip container. Removable head not authorized.

§ 78.132–1 *Compliance.* (a) Required in all details.

§ 78.132–2 *Rated capacity.* (a) Rated capacity as marked, see § 78.132–9 (a) (2). Minimum actual capacity of containers shall be not less than rated (marked) capacity plus 2 percent. Maximum actual capacity shall not be greater than rated (marked) capacity plus 3 percent or rated (marked) capacity plus 2

percent plus 1 quart whichever is the greater.

§ 78.132–3 *Composition.* (a) Sheets for body and heads to be hot-rolled or cold-rolled, low carbon, open hearth, or electric steel of standard commercial quality.

§ 78.132–4 *Weight of sheets.* (a) Average draft weight for any gauge not less than as follows:

Gauge, U. S. standard (No.)	Standard weight per square foot	Authorized tolerances
	Pounds	*Percent*
12	4.375	5
13	3.750	5
14	3.125	5
15	2.8125	5
16	2.500	5
18	2.000	3½
19	1.750	3½
20	1.500	3½
22	1.250	3½
24	1.000	2½
26	.750	2½
28	.625	2½

§ 78.132–5 *Seams.* (a) Side seams may be welded, Gordon lock, or other equally efficient construction.

§ 78.132–6 *Capacities, weights, type and gauges.* (a) Capacities, weights, type and gauges must be as follows:

Marked capacity not over (gallons)	Authorized gross weight not over (pounds)	Type of container	Minimum thickness in the black (gauge, U. S. standard)	
			Body sheet [1]	Head sheet
5	60	Straight side	28	28
55	275	do	26	26
55	450	do	24	24
55	650	do	22	[2] 22

[1] Containers of 10 gallons capacity and over must have small or series corrugations rolled into the shell or 2 swedged or corrugated rolling hoops.
[2] Twenty-four (24) gauge top head and cover authorized.

§ 78.132–7 *Closures.* (a) Closures shall be of any type that will withstand prescribed drop tests without leakage, see § 78.132–11. Openings shall not exceed 9 inches in diameter in containers of 16-gallon capacity and larger nor 6½ inches in diameter in containers less than 16-gallon capacity. Larger openings may be authorized upon demonstration and proof of satisfactory closure test to the Bureau of Explosives. Gaskets required when necessary.

§ 78.132–8 *Defective containers.* (a) To be repaired by method used in constructing container except that Gordon lock, or other similarly constructed seam must be welded. Soldering not authorized.

§ 78.132–9 *Marking.* (a) Marking on each container by embossing with raised characters on head as follows:

(1) ICC–37B * * *. Stars to be replaced by the authorized gross weight, or less at which container was type tested (for example, ICC–37B450, etc.). This marking shall be understood to certify that the container complies with all specification requirements.

(2) Gauge of metal in thinnest part (except closure cover), rated capacity in gallons, and year of manufacture (for example, 24–55–54). When gauge of metal in body differs from that in either head, both must be indicated with slanting line between and with gauge of body indicated first (for example, 22/24–55–54 for a container having 22-gauge body, 22-gauge bottom head and 24-gauge top head).

(3) Name or symbol (letters) of makers: This must be recorded with the Bureau of Explosives.

(4) The letters STC; located just above or below the ICC mark to indicate "single trip container".

§ 78.132–10 *Size of markings.* (a) Size of markings (minimum), not less than ½ inch high for all containers.

§ 78.132–11 *Type test.* (a) Samples, taken at random and closed as for use, shall withstand prescribed test without leakage. Test to be made of each type and size by each company starting production and to be repeated every four months. Sample last tested to be retained until further tests are made. The type test is as follows:

(b) Test by dropping on top chime, filled with dry finely powdered material to the gross weight at which container is marked, from a height of 4 feet onto solid concrete so as to strike diagonally on the chime and so positioned as to strike, in the case of offset openings, at the point on the chime nearest the opening. Closing devices and other parts projecting beyond chimes must also be capable of withstanding this test.

SUBPART I—SPECIFICATIONS FOR TANK CARS

In § 78.275 paragraph ICC–15 (b) cancel only the complete table titled "Record of Tensile Tests of Material in Tanks" (15 F. R. 8500, Dec. 2, 1950) (49 CFR 78.275, 1950 Rev.)

SUBPART J—SPECIFICATIONS FOR CONTAINERS FOR MOTOR VEHICLE TRANSPORTATION

Amend the heading of § 78.323; amend § 78.323–11 (a) (20 F. R. 958, Feb. 15, 1955) (49 CFR 1950 Rev., 1953 Supp., 78.323) to read as follows:

§ 78.323 *Specification MC 302; cargo tanks constructed of welded aluminum alloy (ASTM B178–54T).* To be mounted on and to form part of tank motor vehicles for transportation of flammable liquids, and poisonous liquids, class B.

§ 78.323–11 *Material.* (a) All sheets for such cargo tanks shall be of aluminum alloy, known as ASTM B178–54T and have the following minimum requirements:

Yield strength..... 26,000 lb. per sq. in.
Ultimate strength.... 34,000 lb. per sq. in.
Elongation, 2-inch sample..... 12 percent.

NOTE: Yield strength is the stress which produces a permanent set of 0.2 percent of the initial gauge length (ASTM E8–36).

It is further ordered, That the foregoing amendments to the aforesaid regulations shall have full force and effect on August 30, 1955, and that such regulations as herein amended shall thereafter be observed until further order of the Commission.

It is further ordered, That compliance with the aforesaid regulations as herein amended is hereby authorized on and after the date of service of this order.

And it is further ordered, That copies of this order be served upon all parties of record herein, and that notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of Federal Register.

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. 835)

By the Commission, Division 3.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 201]

JOINT RULES AND REGULATIONS OF SECRETARY OF AGRICULTURE AND SECRETARY OF THE TREASURY UNDER FEDERAL SEED ACT

NOTICE OF PUBLIC HEARING ON PROPOSED AMENDMENTS

Pursuant to the provisions of section 402 of the Federal Seed Act approved August 9, 1939 (53 Stat. 1275), notice is hereby given of intention to promulgate amendments to the joint rules and regulations of the Secretary of the Treasury and the Secretary of Agriculture. Public hearing with reference thereto will be held in the Auditorium in the South Building of the United States Department of Agriculture, Independence Avenue between Twelfth and Fourteenth Streets, SW., Washington, D. C., on the 8th day of July 1955, at 9:30 o'clock.

All interested persons are invited to attend the hearing and to offer comments or suggestions with reference to said proposals. Such comments or suggestions bearing on the proposals may be presented orally or in writing. Any relevant comments which cannot be made or presented in person at the hearing may be transmitted by mail addressed to the Seed Branch, Grain Division, Agricultural Marketing Service, Washington 25, D. C., and will be considered if received on or before the 15th day of July 1955.

Mr. W. A. Davidson, Seed Branch, Grain Division, Agricultural Marketing Service, is hereby designated as the presiding officer who shall conduct the aforesaid hearing in the place and stead of the Secretary of Agriculture, with power to do all things necessary and appropriate to the proper conduct of such hearing.

The proposed amendments are as follows:

1. In § 201.208, insert the following in proper alphabetical order:

Castorbean.
Safflower.
Sesame.

2. In § 201.212, add the following paragraph (c):

(c) When sampling seed in small containers which it is not practical to sample as required in paragraph (a) or (b) of the section, entire unopened containers may be taken in sufficient number to supply a minimum size sample as required in § 201.213. The sample may consist of the contents of one container, or two or more containers when combined.

3. In § 201.222, insert in proper alphabetical order:

a. In paragraph (a):

Lettuce.
Rape, winter.

In paragraph (b):

Castorbean.
Safflower.
Sesame.

4. In § 201.230, amend paragraph (a) to read as follows:

§ 201.230 *Exportation or destruction.* (a) Seed or screenings refused admission into the commerce of the United States shall be exported under customs supervision by the owner or consignee within 12 months of the date of notice of such refusal or at the expiration of such 12-month period the rejected seed or screenings shall be destroyed under the supervision of an employee or authorized agent of the United States Department of Agriculture in such manner as may be determined by the United States Department of Agriculture.

Dated: June 16, 1955.

[SEAL] H. CHAPMAN ROSE, *Acting Secretary of the Treasury.*
EARL L. BUTZ, *Assistant Secretary of Agriculture.*

STANDARD INSTRUMENT APPROACH PROCEDURES

VOR/DME PROCEDURES DETERMINATION

Notice is hereby given that the Administrator contemplates the adoption of the following amendment to provide criteria when establishing a VOR/DME procedure. All interested persons who desire to submit comments and suggestions for consideration in connection with these proposed rules should send them to Director, Office of Aviation Safety, Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

1. In § 609.5, paragraph (h) is added to read as follows:

§ 609.5 *Low and medium frequency range, ADF and VOR procedures.* * * *

(h) *VOR/DME procedures determination*—(1) *General*—(i) *VOR/DME establishment.* VOR/DME procedures are established to facilitate an instrument approach along an orbit and/or radial established by a VOR/DME facility. The criteria outlined in this paragraph will be adhered to when using VOR/DME for an instrument approach.

(ii) *VOR/DME use.* Distance measuring equipment (DME) provides the distance from the DME facility to the aircraft. VOR provides course guidance. VOR and DME may be used independently or jointly.

(iii) *VOR/DME equipment.* Procedures utilizing DME are predicated upon air-borne interrogators accurate within 3 per cent of the distance or ±½ mile, whichever is greater. Use of less accurate equipment will not provide the required margin of safety in the use of these procedures.

(iv) *Numbering of procedures.* (*a*) The No. 1 procedure will be a VOR/DME approach procedure established from the facility direct to the airport, or to a runway if a straight-in approach is possible.

(*b*) The No. 2 procedure will be an approach from a DME fix along the radial which passes over the airport or runway, and the flight is conducted toward the facility (back course approach).

(*c*) Other orbiting procedures (DME used for course guidance) may be established in addition to the No. 1 and No. 2 procedures if operationally feasible and if such orbiting procedures will provide straight-in approaches to desired runways.

(2) *Initial approach to DME orbit.* When an initial approach to a facility intersects a DME orbit within the limiting angles and distances shown in figure "A", an approach may be executed upon this orbit. When an initial approach lies outside these limits, a procedure will be established so that the aircraft will overhead the facility before proceeding to an orbit.

(i) *Determination.* The initial approach radial provides an intersection with a DME arc and determines the straight-in distance to the runway along the final approach orbit. The maximum length of the final approach orbit in degrees, in relation to such runway distance, is as follows:

(*a*) Not more than 135 degrees for distances of 5 nautical miles or less,

(*b*) Not more than 120 degrees between 5 and 10 nautical miles,

(*c*) Not more than 105 degrees between 10 and 15 nautical miles, and

(*d*) Not more than 90 degrees over 15 nautical miles.

(*e*) Approaches to facilities along routes outside these angles and limiting distances will be made to the VOR facility in accordance with other approved criteria. For example, transition "B" and "D", in figure "A" are established for both orbiting and standard procedure transition. "A" would be established to the facility and "B" could be used for a back course and/or an approach to the facility.

(ii) *Altitudes on initial approach*—(*a*) More than twelve nautical miles. A clearance of at least 1,000 feet above all obstructions will be provided until within twelve nautical miles of the VOR/DME facility for a distance of five statute miles (4.34 N.) on each side of course.

(*b*) Twelve nautical miles and less. A clearance of at least 500 feet above all obstructions will be provided from a point twelve nautical miles and less from the VOR/DME facility to the intersection of the DME orbit, for a distance of five statute miles (4.34 N.) each side of course.

(3) *DME final approach orbit*—(i) *Determination.* A final orbiting approach is conducted upon an arc terminated by the reference line (the radial passing over the approach end of the desired runway) on one end, and the DME final approach radial at the other end.

(ii) *Limiting factors in DME orbit.* (*a*) Orbiting procedures will not normally be established with less than an arc of four nautical miles radius. This is necessary in order to minimize the rate of turn and amount of bank required on final approach.

(*b*) Distance to runway from point of intersection: Normally the fix at the start of the DME approach orbit will be at least four nautical miles from the approach end of the runway used.

(*c*) Longitudinal buffer distance: When a DME fix is used to afford a reduction in altitude and/or to provide information as having passed an obstruction, the DME fix will be established at least 1½ miles beyond the obstruction or 10 percent of the distance to the facility, whichever is greater.

(iii) *Use of fixes.* Since radials intersecting the DME orbit form continuous VOR/DME fixes, reductions in altitude as distance to the approach end of the runway decrease will be established in accordance with subdivision (iv) of this subparagraph.

(iv) *Altitudes.* For that portion of the final approach of the DME orbit lying between the DME fix and the approach end of the desired runway, a minimum lateral obstruction clearance of two nautical miles on each side of the final approach orbit will be provided, as follows:

(*a*) Seven nautical miles and less, a clearance of 300 feet,

(*b*) Over seven nautical miles to ten nautical miles, a clearance of 400 feet,

(*c*) Over ten to twelve nautical miles a clearance of 500 feet, and

(*d*) More than twelve nautical miles, a clearance of 1,000 feet.

(4) *Missed approach procedures.* One or more missed approach procedures will be formulated for each direction of approach, and will correspond with the L/MF, ADF, or VOR criteria or procedures insofar as possible.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JUNE 16, 1955.

An application, serial number Anchorage 029474, for the withdrawal from all forms of appropriation under the public land laws, including the mining and mineral leasing laws of the lands described below was filed on March 25, 1955, by Bureau of Land Management.

The purposes of the proposed withdrawal: Public recreational purposes.

For a period of 60 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Area Administrator, Area 4, Bureau of Land Management, Department of the Interior, at Box 480, Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

LAKE LOUISE RECREATION AREA NO. 1

Beginning at U. S. E. D. Station "Louise" located at Latitude 62°18'01" North and Longitude 146°36'00" West; thence S. 63° E. 3,090 feet; thence S. 29° E. 3,900 feet; thence E. 2,160 feet to the true point of beginning; thence S. approximately 1,426 feet to the mean high water mark of an unnamed lake; thence meandering on said high water mark southeasterly approximately 4,858 feet; thence E. 5,914 feet; thence N. approximately 1,320 feet to the mean high water mark of Lake Louise; thence meandering on said high water mark westerly and then northeasterly approximately 5,914 feet to a point which is the SW corner of a withdrawal by the Department of the Army (Anchorage 025198); thence N. 2,117 feet to the mean high water mark of Lake Louise; thence meandering on said high water mark northwesterly approximately 6,811 feet to a point which is on the east boundary of a tract leased by the Territorial Department of Aviation (Anchorage 027584); thence S. 750 feet to the point of beginning, containing approximately 520 acres.

LAKE LOUISE RECREATION AREA NO. 2

Two parcels of land lying between Lake Louise and Lake Susitna, one on either side of a stream connecting Lake Louise and Lake Susitna more particularly described as follows:

PARCEL A

Beginning at approximate Latitude 62°21' 31" North, and Longitude 146°37'30" West at which point is the outlet of Lake Louise; thence southwesterly by meander along the mean high water line of Lake Louise 680 feet to a point which is the NE corner of a Trade and Manufacturing Site location (Anchorage 027167); thence W. 400 feet to the mean high water line of Lake Susitna; thence northeasterly by meander of said high water line approximately 686 feet to the western end of a stream extending from Lake Louise to Lake Susitna; thence easterly by meander of the south limit of said stream approximately 2,218 feet to the point of beginning, containing approximately 11 acres.

PARCEL B

Beginning at approximate Latitude 62°21' 31" North and Longitude 146°37'30" West at which point is the outlet of Lake Louise; thence northerly and westerly by meander of the north limit of a stream extending from Lake Louise to Lake Susitna approximately 2,218 feet to the mean high water line of Lake Susitna; thence northerly and easterly by meander of said high water line approximately 3,810 feet to the east limit of a cove of Lake Susitna and the mouth of a stream; thence easterly by meander of the south limit of said stream approximately 370 feet to the mean high water line of an unnamed lake; thence easterly by meander of said high water line 1,056 feet; thence S. 45° E. approximately 1,426 feet to the mean high water line of Lake Louise; thence southwesterly and then northerly by meander of said high water line approximately 2,957 feet to the point of beginning; containing approximately 125 acres.

IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended, the following-described land has been reconveyed to the United States:

BOISE MERIDIAN, IDAHO

T. 8 S., R. 15 E.,
Sec. 21, NW¼NW¼.

The area described totals 40 acres.

The land described is located in Idaho Grazing District No. 5, and is an isolated tract. There is not sufficient arable land within the subdivision to permit economic development by use of ground water, and most of the land lies above the elevation of existing canals. The land is not suitable for development under either the desert-land or the homestead laws, and has been classified for disposal under the public-sale law.

No application for this land will be allowed under the homestead, desert-land, small tract or any other nonmineral public-land law, unless the land has already been classified as valuable or suitable for such type of classification, or shall be so classified upon consideration of an application.

Any application that is filed will be considered on its merits. The land will not be subject to occupancy or disposition until it has been classified.

This order shall not otherwise become effective to change the status of the described land until 10:00 a. m. on the 35th day after the date of this order. At that time, the said land shall become subject to application, petition, location and selection under the applicable public-land laws, subject to valid existing rights, the provisions of existing with-

drawals, the requirements of applicable laws and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended. All applications filed pursuant to the Veterans' Preference Act of 1944, on or before 10:00 a. m. of the 35th day after the date of this order shall be treated as though simultaneously filed at that time. All other applications under the public-land laws filed on or before 10:00 a. m. of the 126th day after the date of this order shall be treated as though simultaneously filed at that time.

Inquiries concerning these lands shall be addressed to Manager, Land Office, Box 2237, Boise, Idaho.

J. R. PENNY,
State Supervisor.

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JUNE 15, 1955.

The United States Department of Agriculture has filed an application, Serial No. Idaho 05384, for the withdrawal of the lands described below, from all forms of appropriation under the General Mining Laws, subject to existing valid claims.

The applicant desires the land for administrative sites and recreation areas within the Challis National Forest.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JUNE 16, 1955.

The Department of the Interior, Fish and Wildlife Service, has filed an application, Serial No. Idaho 05977, for the withdrawal of the lands described below, from all forms of appropriation, including the mining laws, but not the mineral leasing laws.

The applicant desires the land for Mirror Lake Public Fishing Area, within Kaniksu National Forest.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the applications will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 56 N., R. 1 W.,
Sec. 31, Lots 2 and 3.

Total area: 45.85 acres.

NEVADA

NOTICE OF FILING OF PLATS OF SURVEY

JUNE 17, 1955.

Notice is given that the plats of survey accepted April 14, 1955 will be officially filed in the Bureau of Land Management Land Office, Reno, Nevada, effective at 10:00 a. m., on the 35th day after the date of this notice.

The lands affected by this notice are described as follows:

MOUNT DIABLO MERIDIAN, NEVADA

T. 4 S., R. 35 E.;
T. 3 S., R. 36 E.;
Sec. 18, 19, 20, 29, 30, 31, 32, 33;
T. 4 S., R. 36 E.

The areas, exclusive of segregations, aggregate 20,238.77 acres.

Available data indicates the lands are generally level to undulating and arid in nature.

No application for the above-described lands may be allowed under the homestead, small tract, desert-land, or any other non-mineral public land laws, unless the land has already been classified as valuable or suitable for such type of application or shall be classified upon consideration of an application.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Reno, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Reno, Nevada.

JAMES E. KEOGH, Jr.,
Manager,
Land Office.

SMALL TRACT CLASSIFICATION ORDER NO. 2

JUNE 14, 1955.

1. Pursuant to authority delegated to the State Supervisors by section 2.5 of Redelegation Order No. 541, issued April 21, 1954 by the Director, Bureau of Land Management, the following described lands are hereby classified for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609); 43 U. S. C. 682a as amended by the act of June 8, 1954 (68 Stat. 239), for home sites; and under section 7 of the Taylor Grazing Act of June 28, 1934, as amended (43 U. S. C. sec. 315f) for administrative sites.

SALT LAKE MERIDIAN

T. 14 S., R. 10 E.,
Sec. 9: SE¼SE¼.

The lands described comprise 40 acres.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The lands are located adjacent to the city limit in northeast Price, Utah, and 6th East Street adjoins the land. The topography is level to rolling and the lands have an elevation of approximately 5,500 feet. The annual precipitation average is 10.09 inches per annum.

4. The lands will be leased and sold in lots of not less than 100 foot frontage with a limitation of one lot to each successful applicant. Access to public highways from the lots will be afforded by a reservation of rights-of-way along the boundary of each lot for road or public utility facilities which will not exceed 33 feet in width and as will be shown on the layout plats of the area.

5. A supplemental plat of survey will be prepared. This survey when completed will subdivide the area into lots. No applications will be allowed until this supplemental plat of survey is filed with the Manager, Land Office, room 312, Post Office Building, Salt Lake City, Utah.

(a) *91-day period for preference-right filings.* For a period of 91 days, commencing at 10:00 a. m. on the 35th day after the supplemental plat of survey is filed, the lands affected by this order shall be subject to application by qualified veterans of World War II and the Korean Conflict. All applications filed under this paragraph, either on or before 10:00 a. m. on the 35th day after the date of filing of the supplemental plat of survey, shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the 35th day shall be considered in the order of filing.

(b) Commencing at 10:00 a. m. on the 126th day after the date of the filing of the supplemental plat of survey any lands remaining shall become subject to application under the Small Tract Act by the public generally. All such applications filed, either on or before 10:00 a. m. on the 126th day, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostat, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitute evidence of any facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference right through settlement or otherwise and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. Applicants must file, in duplicate, with the Manager, Land Office, 312 Federal Building, Salt Lake City, Utah, application Form 4–776 filled out in compliance with the instructions on the form and accompanied by any showings or documents required by those instructions. Copies of the application form can be secured from the above-named official.

Applications must be accompanied by a filing fee of $10 plus the annual rental of $20 to $70, payable in advance for the entire lease period of three years. Failure to transmit these payments with the application will render the application invalid.

Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

7. Leases will provide option to purchase at the appraised values ranging from $200 to $700. Before purchases may be made, the leases must have been in effect for a minimum period of one year, and the tract must have actually been used and improved for the purpose for which the lease is issued. Lessees will be required to comply with city and county zoning and building ordinances, including proportionate cost of street development and other facilities as required by Carbon County Board of Commissioners. Houses must be constructed of materials and according to general plans commonly used for houses in area located to the south within the city limits of Price, and contain not less than 1,200 square feet of floor space, exclusive of porches and attached garages.

In the event the right to purchase has been exercised prior to the expiration of the three-year leasable period, the unearned rentals paid will be applied to the purchase price. The United States reserves the right to reject any application to purchase and to cancel any lease if the property under application has been used or developed in such a manner as to detract from the value of the remaining tracts for the purchase for which they are classified.

8. Inquiries relative to these lands should be addressed to the Manager, Land Office, Bureau of Land Management, Post Office Box No. 777, Salt Lake City 10, Utah.

WM. N. ANDERSEN,
State Supervisor.

SMALL TRACT CLASSIFICATION ORDER NO. 3

JUNE 14, 1955.

1. Pursuant to authority delegated to the State Supervisors by section 2.5 of Redelegation Order No. 541, issued April 21, 1954 by the Director, Bureau of Land Management, the following described lands are hereby classified for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609); 43 U. S. C. 682a as amended by the act of June 8, 1954 (68 Stat. 239), for home sites.

SALT LAKE MERIDIAN

T. 14 S., R. 10 E.,
Sec. 19: NE¼NE¼.

The lands described comprise 40 acres.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The lands are located one mile southwest of Price, Utah, near the old Price municipal airport. The topography is gently rolling, and the soil is shallow and rocky. Elevation is 5600 feet with an average rainfall of 10.09 inches.

4. The individual tracts are five acres in size, divided by aliquot parts of the legal subdivision, subject to an easement for right-of-way and public utilities for a distance of 33 feet on all sides of each tract. The appraised value of the tracts is $100 each.

5. Leases will be issued for a term of three years and will contain an option to purchase in accordance with 43 CFR 257.13. Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the price stated provided that during the period of their leases they either (a) construct the improvements specified in paragraph 6 or (b) file a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.

6. To maintain their rights under their leases, lessees will be required either (a) to construct substantial improvements on their lands or (b) file a copy of an agreement with their neighbors binding them to construct substantial improvements on their lands. Such improvements must conform with health, sanitation, and construction requirements of local ordinances and must, in addition, meet the following standards. The home must be suitable for year-round use, on a permanent foundation and with a minimum of 700 square feet of floor space. The homes must be built in a workmanlike manner out of attractive materials properly finished. Adequate disposal and sanitary facilities must be installed.

7. Applicants must file, in duplicate, with the Manager, Land Office, 312 Federal Building, Salt Lake City, Utah, application Form 4–776 filled out in compliance with the instructions on the form and accompanied by any showings or documents required by those instructions. Copies of the application form can be secured from the above-named official.

The applications must be accompanied by a filing fee of $10.00 plus three years advance rental of $45.00. Failure to transmit these payments with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States. As provided in 43 CFR 257.13, in the event the right to purchase has been exercised prior to the expiration of the three year leasable period the unearned rentals paid will be applied to the purchase price.

8. The lands are now subject to application under the Small Tract Act. All valid applications filed prior to June 14, 1955, will be granted the preference right provided by 43 CFR 257.5 (a). All valid applications from persons entitled to veterans' preference filed after June 14, 1955, and prior to 10:00 a. m. October 19, 1955, will be considered as simultaneously filed at that time. All valid applications from persons entitled to veterans' preference filed after that time will be considered in the order of filing. All valid applications filed after 10:00 a. m. October 19, 1955, by other persons will be considered in the order of filing.

9. Inquiries concerning these lands shall be addressed to Manager, Land Office, Post Office Box No. 777, Salt Lake City 10, Utah.

WM. N. ANDERSEN,
State Supervisor.

ORDER PROVIDING FOR OPENING OF PUBLIC LAND

JUNE 16, 1955.

In exchanges of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. 315g), the lands described hereafter have been reconveyed to the United States. The area reconveyed and the serial number identifying the exchange are as indicated.

SALT LAKE MERIDIAN

Salt Lake 063223 T. 15 N., R. 9 W., Sec. 36: All.

640 acres.

Salt Lake 063783 T. 15 N., R. 9 W., Sec. 32: All.

640 acres.

Denver 055205 T. 4 S., R. 25 E., Sec. 21: All.

640 acres.

The minerals in the above described lands were wholly or partly reserved by the grantor or by prior grantors, and any person acquiring any of these lands must accept title subject to such reservations. Information as to any mineral rights reconveyed to the United States is of record in the Land Office, 312 Federal Building, Salt Lake City, Utah.

This order is subject to any withdrawals, reservations, rights-of-way or easements which may now affect the land, and to any withdrawals, reservations, rights-of-way or easements which may hereafter be effected.

The lands described are primarily valuable for grazing and it is unlikely that any of the tracts will be classified as suitable for entry under the homestead, desert land, or small tract laws.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, 312 Post Office Building, Salt Lake City, Utah.

ALABAMA AND COUSHATTA TRIBES OF INDIANS OF TEXAS, AND INDIVIDUAL MEMBERS THEREOF

PROCLAMATION REGARDING TERMINATION OF FEDERAL SUPERVISION OVER PROPERTY

Pursuant to the authority vested in me by the Act of August 23, 1954 (68 Stat. 768), I, Douglas McKay, Secretary of the Interior, do hereby proclaim that:

1. I am this day executing a quitclaim deed, effective July 1, 1955, which conveys to the State of Texas the lands held in trust by the United States for the tribe of Indians organized and known as the Alabama and Coushatta Tribes of Texas, located in Polk County, Texas. Such lands shall be held by the State of Texas in trust for the benefit of the Indians of the Alabama and Coushatta Tribes of Texas, subject to such conditions regarding management and use as the State of Texas may prescribe, and the disposition of such lands shall be subject to approval of a majority of the adult members of the Alabama and Coushatta Tribes of Texas.

2. On and after July 1, 1955, the tribe and its members shall not be entitled to any of the services performed by the United States for Indians because of their status as Indians, except that such Indians shall be eligible for admission, on the same terms that apply to other Indians, to hospitals and schools maintained by the United States.

3. Effective on July 1, 1955, all powers of the Secretary of the Interior or any other officer of the United States to take, review, or approve any action under the constitution and by-laws of the Alabama and Coushatta Tribes of Texas approved on August 19, 1938, pursuant to the Act of June 18, 1934 (48 Stat. 984), are terminated. Any powers conferred upon the tribe by its constitution and by-laws that are inconsistent with the provisions of the Act of August 23, 1954, supra, are terminated. Such termination shall not affect the power of the tribe to take any action under its constitution and by-laws that is consistent with that Act without the participation of the Secretary or other officer of the United Sates in such action.

4. Effective on July 1, 1955, the indebtedness of the Alabama and Coushatta Tribes of Texas to the United States incurred under the provisions of the Act of May 29, 1928 (45 Stat. 883, 900) is cancelled.

5. Effective on July 1, 1955, the corporate charter of the Alabama and Coushatta Tribes of Texas issued pursuant to the Act of June 18, 1934 (48 Stat. 984), and ratified on October 17, 1939, is revoked.

6. After July 1, 1955, the Act of June 18, 1934 (48 Stat. 984), as amended by the Act of June 15, 1935 (49 Stat. 387), shall not apply to the tribe and its members.

7. On and after July 1, 1955, all statutes of the United States which affect Indians because of their status as Indians shall no longer be applicable to the Alabama and Coushatta Tribes of Texas or the members thereof, except as provided in provision 2 of this proclamation, and the laws of the several states shall apply to the tribe and its members in the same manner as they apply to other citizens or persons within their jurisdiction.

8. Nothing in this proclamation, issued pursuant to Public Law 627, 83d Congress, shall affect the status of the members of the tribe as citizens of the United States.

In witness whereof, I have hereunder subscribed my name and caused the seal of the Department of the Interior to be affixed this 25th day of May 1955.

[SEAL] DOUGLAS MCKAY,
Secretary of the Interior.

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

ORDER GRANTING PETITION OF INTERIM BOARD OF DIRECTORS FOR APPROVAL OF MAXIMUM AMOUNTS OF INTERIM FEES AND EXPENSES

JUNE 17, 1955.

The Interim Board of Directors of International Hydro-Electric System ("IHES"), a registered holding company now in process of reorganization pursuant to sections 11 (d) and 11 (f) of the Public Utility Holding Company Act of 1935 ("act"), having filed with this Commission a petition and an amendment thereto for the issuance of an order pursuant to Rule U-63 promulgated under the act, approving the transfer by the Trustee of IHES, heretofore appointed by the United States District Court for the District of Massachusetts, of the sum of $50,000 to a special account to defray the reasonable and necessary expenses of the Interim Board of Directors in performing the duties entrusted to it, as therein particularly specified; and

Due notice of the filing of said petition having been issued, no hearing having been requested, or ordered by the Commission; objections to the granting of said petition, in so far as it requests approval of the payment of interim compensation to Messrs. Purcell & Nelson, counsel to the Interim Board, having been filed by Central-Illinois Securities Corporation and C. A. Johnson, shareholders of IHES; and the Commission having this day filed its Memorandum Opinion herein concluding that the objections are without merit and should be overruled and that the request of the Interim Board for an order approving the transfer by the Trustee of IHES from its treasury to a special account of the sum of $50,000 to be expended as aforesaid is reasonable as the maximum amount for which application may be made to the said Court as interim fees, charges and expenses of the Interim Board and its counsel, all as more fully set forth in said petition:

It is ordered, That the objections filed by Central-Illinois Securities Corporation and C. A. Johnson as aforesaid be, and the same hereby are, overruled.

It is further ordered, That the aforesaid petition, as amended, be, and the same hereby is, granted, effective forthwith, subject to the condition that nothing herein contained shall be deemed to limit the authority of the Commission or the United States District Court for the District of Massachusetts with regard to the final determination of all fee and expense allowances (including those covered by the aforesaid petition) to any and all persons in connection with the reorganization of IHES pursuant to the provisions of the act.

By the Commission.

COLUMBIA GAS SYSTEM ET AL.

ORDER AUTHORIZING SALE OF INSTALLMENT NOTES AND COMMON STOCK BY TWO SUBSIDIARIES, AND ACQUISITION THEREOF BY PARENT

JUNE 17, 1955.

In the matter of The Columbia Gas System, The Ohio Fuel Gas Company, Atlantic Seaboard Corporation, et al.; File No. 70–3369.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and certain of its wholly-owned subsidiaries, including The Ohio Fuel Gas Company ("Ohio Fuel") and Atlantic Seaboard Corporation ("Seaboard"), have filed a joint application-declaration and amendments thereto pursuant to sections 6 (b), 9, 10, 12 (b), and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-43 and U-45 thereunder, including therein, inter alia, the following proposed transactions:

Ohio Fuel will issue and sell and Columbia will purchase at the principal amount thereof, from time to time as required but prior to March 31, 1956, not to exceed $11,300,000 principal amount of Installment Promissory Notes, maturing in equal annual installments on February 15th of the years 1957 through 1981. The new notes will carry an initial interest rate of 3 percent per annum subject to adjustment as of the date of Columbia's next issue of debentures under the Indenture dated June 1, 1950 between Columbia and Guaranty Trust Company of New York, as Trustee, to an interest rate equal to the coupon rate which will be borne by said issue of debentures.

Seaboard will issue and sell and Columbia will purchase, at par, from time to time as required but prior to March 31, 1956, not to exceed 56,000 shares of Seaboard's common stock, $25 par value. Thereafter, Seaboard will issue and sell and Columbia will purchase, at the principal amount thereof, from time to time as required but prior to March 31, 1956, not to exceed $5,500,000 principal amount of Seaboard's installment notes. As in the case of Ohio Fuel, the Seaboard notes will mature in equal annual installments on February 15th of the years 1957 through 1981 and will carry an initial interest rate of 3 percent per annum subject to adjustment to conform with the coupon rate which will be borne by Columbia's next debenture issue.

The issue and sale by Ohio Fuel of its installment notes have been authorized by The Public Utilities Commission of Ohio. It is stated that no State regulatory commission has jurisdiction over the transactions proposed by Seaboard.

Certain transactions proposed in said joint application-declaration involving open-account advances by Columbia to four of its subsidiaries, Central Kentucky Natural Gas Company, Ohio Fuel, The Manufacturers Light and Heat Company and Home Gas Company, were authorized by the Commission's order dated May 12, 1955. Other transactions proposed in said joint application-declaration involving certain additional open-account advances and the issuance and sale of securities by various Columbia subsidiaries require approvals of State commissions, which have not yet been secured.

Due notice having been given of the filing of said joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding, with respect to the transactions specifically described herein, that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the joint application-declaration, as amended, be granted and permitted to become effective, forthwith, to the extent of such proposed transactions.

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint application-declaration, as amended, with respect to the transactions specifically described above be, and hereby is, granted and permitted to become effective forthwith, subject to the conditions of Rule U-24.

It is further ordered, That jurisdiction be, and hereby is, continued with respect to the remaining transactions proposed in said joint application-declaration, as amended.

By the Commission.

Secretary.

ASTOR FINANCIAL CORP. AND NORTH RIVER SECURITIES CO., INC.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING CERTAIN TRANSACTIONS BETWEEN AFFILIATES INCIDENT TO A MERGER

JUNE 17, 1955.

Notice is hereby given that Astor Financial Corporation ("Astor"), and North River Securities Co., Inc. ("North River"), registered closed-end non-diversified investment companies, have filed a joint application pursuant to section 17 (b) of the Investment Company Act of 1940 ("act") for an order exempting from the provisions of section 17 (b) of the act certain transactions described below from the provisions of section 17 (a) of the act.

The application represents that the respective boards of directors of the applicants have approved an Agreement and Plan of Reorganization ("Agreement and Plan") which provides, among other things, for (1) the transfer by Astor of its property and assets to North River in exchange for shares of common stock of North River and assumption by the latter of all the liabilities and obligations of Astor and (b) the dissolution of Astor and the pro rata distribution of the shares of North River received by it among its shareholders. The number of shares of common stock to be issued by North River to Astor will be determined by dividing the aggregate value of the net assets of Astor by the net asset value per share of North River. The assets of each of the applicants will be valued not more than 48 hours prior to closing date of the transaction.

In determining the respective net asset values of each of the applicants, it is stated that the real estate owned by the two corporations will be valued in accordance with recent appraisals made by Charles F. Noyes Company, Inc., of New York City, adjusted to the valuation date; marketable securities will be valued at the market value thereof as of the valuation date and the value of all other assets and liabilities will be determined in good faith by the respective boards of directors.

North River has presently outstanding 489,598 shares of common stock $1 par value the net asset value of which amounted to $1,958,350 as of March 31, 1955, based on the valuation procedure described above, equivalent to approximately $4 per share. Its two principal assets consist of 287,200 shares of common stock of Baldwin Securities Corporation, a registered closed-end, non-diversified, investment company, with a market value of $1,148,800 as of March 31, 1955, and an office building located at 176 Broadway and 5/7 Maiden Lane, in New York City in which North River has an indicated equity of $625,644 based on the Noyes appraisal. As of March 31, 1955, North River had an earned surplus deficit of $86,975.

Astor has an aggregate of 74,636 shares of $10.00 par value common stock outstanding, classified into 62,740 shares of Common Class A and 11,896 shares of Common Class B. The two classes of common stock are equal in all respects except that the Class B stock is entitled to elect a majority of the directors and to the exclusive right to vote on all other matters. Total net asset value of Astor, which is comprised principally of marketable securities, amounted to $1,206,809 as of March 31, 1955, equivalent to $16.17 per share.

Generally speaking, section 17 (a) of the act prohibits an affiliated person of a registered investment company or any affiliated person of such a person, from selling to, or purchasing from such registered investment company or any company controlled by such registered investment company, any securities or property subject to certain exceptions, unless the Commission upon application pursuant to section 17 (b) grants an exemption from the provisions of section 17 (a), after finding that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act and is consistent with the general purposes of the act.

The application recites that Ira Guilden is the beneficial owner of 19.46 percent and 45.3 percent, respectively, of the Class A and Class B common stock of Astor. He is also a director and beneficial owner of 19.52 percent of the common stock of North River. Astor and North River are, therefore, each affiliated persons of Guilden, and he is an affiliated person of Astor and North River by definition under the act. Each of the companies is an affiliate of an affiliated person of a registered investment company and therefore certain of the proposed transactions are subject to the prohibitions of section 17 (a) referred to above.

Effectiveness of the Agreement and Plan is conditioned upon, among other things, approval of the proposed transactions by at least two-thirds of the outstanding shares of each class of stock of Astor, and the granting by this Commission of such exemption order or orders under the act as may be necessary to permit the carrying out of the proposed transactions. The Agreement and Plan also provides that in the event holders of more than 10 percent of the outstanding stock of Astor object to the sale of assets and demand payment for their shares, either party at its option may terminate the Agreement.

Applicants declare that the terms of the proposed transactions are reasonable and fair and do not involve overreaching on the part of any person concerned; and that the proposed transactions are consistent with the policies of Astor and North River and with the purposes of the act.

It is represented that promptly after the consummation of the proposed transfer of its assets Astor will file an application pursuant to section 8 (f) of the act for an order by the Commission declaring that Astor has ceased to be an investment company under the act.

Notice is further given that any interested person may, not later than July 6, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

It is ordered, That North River Security Co., Inc., mail to each of its stockholders (insofar as the identity of such security holders is known or available to it) a copy of this notice to his last known address at least 10 days prior to July 6, 1955.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10616

SUSPENSION OF CERTAIN PROVISIONS OF THE OFFICER PERSONNEL ACT OF 1947, AS AMENDED, WHICH RELATE TO OFFICERS OF THE MARINE CORPS OF THE GRADE OF BRIGADIER GENERAL

By virtue of the authority vested in me by section 426 (c) of the Officer Personnel Act of 1947, as amended by section 1 (h) of the act of June 30, 1951, 65 Stat. 109, it is ordered as follows:

1. The operation of those provisions of Title III of the Officer Personnel Act of 1947, as amended, which relate to the service-in-grade requirements of officers of the Marine Corps of the grade of brigadier general for eligibility for consideration by a selection board for temporary promotion to the grade of major general is hereby suspended until June 30 of the fiscal year following that in which the national emergency proclaimed by Proclamation No. 2914 of December 16, 1950, shall end.

2. This order shall become effective on July 1, 1955.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

Subchapter B—Trade Practice Conference Rules

[File No. 470]

PART 19—GUMMED PAPER AND SEALING TAPE INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission:

It is now ordered, That the Group I trade practice rules as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of June 24, 1955.

Statement by the Commission. Trade practice rules for the Gummed Paper and Sealing Tape Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

The industry for which these rules are established is engaged in the manufacture, sale, offering for sale, or distribution in commerce of water-activated gummed paper sealing tapes, gummed stay papers, gummed cloth tapes, gummed reinforced tapes (plain or printed), gummed flat papers, gummed hollands, gummed veneer tapes, and such other gummed paper specialties, gummed reinforced paper specialties, and gummed cloth specialties as are natural affiliates.

The rules are directed to the prevention and elimination of various practices deemed to be violative of laws administered by the Commission. They are to be applied to such end and to the exclusion of any acts or practices which suppress competition or otherwise restrain trade.

Proceedings under which the rules have been established were instituted upon application from members of the industry. A general industry conference was held under Commission auspices at White Sulphur Springs, West Virginia, on October 21, 1954, at which proposals for rules were submitted for consideration of the Commission. Thereafter, proposed rules were published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, or amendments as they desired to offer, and to be heard in the premises. Pursuant to such notice, a public hearing was held in Washington on April 15, 1955, and all matters there presented, or otherwise received in the proceeding, were duly considered by the Commission.

Thereafter, and upon full consideration of the entire matter, final action was taken by the Commission whereby it approved the rules as hereinafter set forth. No Group II rules have been included for the reason that the Group II rules recommended by the industry are of a type presently the subject of general study by the Commission. If, after completion of such study, it is determined that provisions of this type may be included as Group II rules for industries, an opportunity will then be afforded to the members of this industry to have such rules included.

The rules as approved become operative thirty (30) days after date of promulgation.

The rules. These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the ex-

clusion of any act or practice which fixes or controls prices through combination or agreement, or which unreasonably restrains trade or suppresses competition, or otherwise unlawfully injures, destroys, or prevents competition, that the rules are to be applied.

General statement. The unfair trade practices embraced in the rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

19.14 Enticing away employees of competitors.
19.15 Misrepresenting products as conforming to standard.
19.16 Push money.
19.17 Aiding or abetting use of unfair trade practices.

AUTHORITY: §§ 19.0 to 19.17 issued under sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45.

§ 19.0 *Definition.* As used in §§ 19.0 to 19.17, the term "industry products" or "products of the industry" includes the following: Water-activated gummed paper sealing tapes, gummed stay papers, gummed cloth tapes, gummed reinforced tapes, both plain and/or printed, gummed flat papers, gummed hollands, gummed veneer tapes, and such other gummed paper specialties, gummed reinforced paper specialties, and gummed cloth specialties as are natural affiliates.

GROUP I

§ 19.1 *Misrepresentation of products.* It is an unfair trade practice to use, or cause or promote the use of, any trade promotional literature, advertising matter, mark, brand, label, designation, or other representation, however disseminated or published, which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers with respect to the grade, quality, quantity, price, value, origin, weight, strength, width, composition or packing, count, finish, manufacture, or distribution of any product of the industry, or in any other material respect. [Rule 1]

§ 19.2 *Misrepresentation as to character of business.* It is an unfair trade practice for any industry member, in the course of or in connection with the distribution of industry products, to represent, directly or indirectly, that he is a manufacturer of industry products, or that he owns or controls a factory making such products, when such is not the fact, or in any other manner to misrepresent the character, extent, or type of his business. [Rule 2]

§ 19.3 *Prohibited sales below cost.* (a) The practice of selling products of the industry at a price less than the cost thereof to the seller, with the purpose or intent, and where the effect is, or where there is a reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or tend to create a monopoly, is an unfair trade practice.

(b) This section is not to be construed as prohibiting all sales below cost, but only such selling below the seller's cost as is resorted to and pursued with the wrongful intent or purpose referred to and where the effect is, or where there is reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or to create a monopoly. Among the situations in which the requisite purpose or intent would ordinarily be lacking are cases in which such sales were: (1) Of seasonal goods near the conclusion of the season; (2) of perishable goods in respect to which deterioration is imminent; (3) of obsolescent goods; (4) made under judicial process; or (5) made in bona fide discontinuance of business in the goods concerned.

(c) As used in paragraphs (a) and (b) of this section, the term "cost" means the respective seller's cost and not an average cost in the industry whether such average cost be determined by an industry cost survey or some other method. It consists of the total outlay or expenditure by the seller in the acquisition, production, and distribution of the products involved, and comprises all elements of cost such as labor, material, depreciation, taxes (except taxes on net income and such other taxes as are not properly applicable to cost), and general overhead expenses, incurred by the seller in the acquisition, manufacture, processing, preparation for marketing, sale, and delivery of the products. Not to be included are dividends or interest on borrowed or invested capital, or nonoperating losses, such as fire losses and losses from the sale or exchange of capital assets. Operating cost should not be reduced by items of nonoperating income, such as income from investments, and gain on the sale of capital assets.

(d) Nothing in this section shall be construed as relieving an industry member from compliance with any of the requirements of the Robinson-Patman Act. [Rule 3]

§ 19.4 *False invoicing.* Withholding from or inserting in invoices or sales slips any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices or sales slips, with the effect of thereby misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice. [Rule 4]

§ 19.5 *False and misleading price quotations, etc.* It is an unfair trade practice for any industry member, in the course of or in connection with the offering for sale, sale, or distribution of industry products, to publish or circulate to or among purchasers or prospective purchasers false price quotations, price lists, or terms or conditions of sale; or to publish, or circulate among purchasers or prospective purchasers, any price quotations, price lists, or terms or conditions of sale which have the capacity and tendency or effect of thereby misleading or deceiving members of the industry or purchasers or prospective purchasers in any material respect. [Rule 5]

§ 19.6 *Prohibited discrimination*[1]—(a) *Prohibited discriminatory prices, rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce, and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however:*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use;

(2) That nothing contained in this paragraph shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

[1] As used in this section, the world "commerce" means "trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States."

NOTE: Cost justification under the above proviso depends upon net savings in cost based on all facts relevant to the transactions under the terms of subparagraph (2) of this paragraph. For example, if a seller regularly grants a discount based upon the purchase of a specified quantity by a single order for a single delivery, and this discount is justified by cost differences, it does not follow that the same discount can be cost justified if granted to a purchaser of the same quantity by multiple orders or for multiple deliveries.

(3) That nothing contained in this section shall prevent persons engaged in selling goods, wares, or merchandise in commerce from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing contained in this paragraph shall prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the goods concerned, such as but not limited to obsolescence of seasonal goods, imminent deterioration of perishable goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned;

(5) That nothing contained in this section shall prevent the meeting in good faith of an equally low price of a competitor, or the services or facilities furnished by a competitor (see paragraphs (d) and (e) of this section).

NOTE: In complaint proceedings, justification of price differentials under subparagraphs (2), (4) and (5) of this paragraph is a matter of affirmative defense to be established by the person or concern charged with price discrimination.

(b) *Price differential practices.* The following are examples of price differential practices to be considered as subject to the prohibitions of paragraph (a) of this section when involving goods of like grade and quality which are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and which are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use, and when:

(1) The commerce requirements specified in paragraph (a) of this section are present; and

(2) The price differential has a reasonable probability of substantially lessening competition or tending to create a monopoly in any line of commerce, or of injuring, destroying, or preventing competition with the industry member or with the customer receiving the benefit of the price differential, or with customers of either of them; and

(3) The price differential is not justified by cost savings (see paragraph (a) (2) of this section); and

(4) The price differential is not made in response to changing conditions affecting the market for or the marketability of the goods concerned (see paragraph (a) (4) of this section); and

(5) The lower price was not made to meet in good faith an equally low price of a competitor (see paragraph (a) (5) of this section).

Example No. I. At the end of a given period an industry member grants a discount to a customer equivalent to a fixed percentage of the total of the customer's purchases during such period and fails to grant such discount to other customers under like conditions.

Example No. II. An industry member sells goods to one or more of his customers at a higher price than he charges other customers for like merchandise. It is immaterial whether or not such discrimination is accomplished by misrepresentation as to the grade and quality of the products sold.

Example No. III. An industry member makes a sale of industry products to a purchaser under an arrangement whereby the products are shipped by the industry member's supplier directly to such purchaser and charges a lower price than that charged other purchasers under similar circumstances, or a price which, when compared with the price charged purchasers on sales made out of the stock of the industry member, constitutes a discount greater than can be justified by the difference in costs resulting from the differing quantities or method of sale or delivery.

Example No. IV. An industry member sells to some customers industry products at prices of drop shipments when in fact such transactions are out-of-stock sales which are made to other customers at higher prices, even though the quantities involved are large enough to be delivered on a direct shipment basis. (As here used an "out-of-stock" sale is one from the industry member's stock on hand and a "drop shipment" sale is one in which the industry member arranges to have the goods shipped by the industry member's supplier directly to the industry member's customer.)

Example No. V. Terms of 2 percent 10 days are granted by an industry member to some customers on goods purchased by them from the industry member. Another customer or customers are, nevertheless, allowed to take a 5 percent instead of a 2 percent discount when making payment to the industry member within the time prescribed.

(c) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(d) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce to pay or contract for the payment of advertising or promotional allowances of any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(e) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all competing purchasers on proportionally equal terms.

(f) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

NOTE: The foregoing paragraph (f) of this section is a restatement of section 2 (f) of the Clayton Act as amended. In a complaint proceeding under this section, in order to make out a prima facie violation, the Commission must show that the favored buyer induced or received the lower price knowing, or knowing facts from which he should have known, that such price was violative of section 2 (a) of said act and not justified under paragraph (a) (2), (4) or (5) of this section. When, in any such proceeding, the issue is limited to the question of whether the price differential involved made only due allowance for differences in cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which the goods were sold and delivered, the Commission may establish a prima facie case in a number of ways, including:

(1) By showing that the buyer paying the lower price knew that the methods by, and quantities in, which the goods were sold and delivered to him by the seller, were the same as in the case of the competing buyer or buyers paying the higher price or prices; or

(2) By showing, when there is a difference in the methods or quantities in which the goods were sold and delivered by the seller to the buyer than in the case of the competing buyer or buyers paying the higher price or prices, that the buyer paying the lower price or prices knew the nature and extent of such differences and knew or should have known that they could not have resulted in sufficient cost savings of the kind and character specified as to justify the price differential.

[Rule 6]

§ 19.7 *Substitution of products.* The practice of shipping or delivering products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without advising the purchasers as to said substitution and obtaining their consent thereto at or before the time of shipment or delivery, is an unfair trade practice.

NOTE: Nothing in this section shall be construed as preventing the application of such tolerances as are agreed upon between buyer and seller or are otherwise deemed reasonable and proper and where no misrepresentation or deception of the purchasing public is practiced or promoted in rela-

tion to the product or its deviation from samples or specifications.

[Rule 7]

§ 19.8 *Deceptive use of trade or corporate name, trademarks, etc.* The use of any trade name, corporate name, trademark, or other trade designation which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public as to the name, nature, or origin of any product of the industry, or of any material used therein, or which is false or misleading in any other respect, is an unfair trade practice. [Rule 8]

§ 19.9 *Inducing breach of contract.* (a) Knowingly inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers or their suppliers, or interfering with or obstructing the performance of any such contractual duties or service, under any circumstance having the capacity and tendency or effect of substantially injuring or lessening present or potential competition, is an unfair trade practice.

(b) Nothing in this section is intended to imply that it is improper for any industry member to solicit the business of a customer of a competing industry member; nor is the section to be construed as in any wise authorizing any agreement, understanding, or planned common course of action by two or more industry members not to solicit business from the customers of either of them, or from customers of any other industry member. [Rule 9]

§ 19.10 *Defamation of competitors or false disparagement of their products.* It is an unfair trade practice—

(a) To defame competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations; or

(b) To falsely disparage a competitor's products, business methods, selling prices, values, credit terms, policies, or services. [Rule 10]

§ 19.11 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 11]

§ 19.12 *Procurement of competitors' confidential information.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 12]

§ 19.13 *Prohibited forms of trade restraints (unlawful price fixing, etc.)*[1] It is an unfair trade practice for any member of the industry, either directly or indirectly, to engage in any planned common course of action, or to enter into or take part in any understanding, agreement, combination, or conspiracy, with one or more members of the industry, or with any other person or persons, to fix or maintain the price of any goods or otherwise unlawfully to restrain trade; or to use any form of threat, intimidation, or coercion to induce any member of the industry or other person or persons to engage in any such planned common course of action, or to become a party to any such understanding, agreement, combination, or conspiracy. [Rule 13]

§ 19.14 *Enticing away employees of competitors.* Knowingly enticing away employees or sales representatives of competitors under any circumstance having the capacity and tendency or effect of substantially injuring or lessening present or potential competition is an unfair trade practice: *Provided,* That nothing in this section shall be construed as prohibiting employees from seeking more favorable employment, or as prohibiting employers from hiring or offering employment to employees of competitors in good faith and not for the purpose of injuring, destroying, or preventing competition. [Rule 14]

§ 19.15 *Misrepresenting products as conforming to standard.* Representing, through advertising, personal solicitation, or otherwise, that any product of the industry conforms to a standard recognized in or applicable to the industry when such is not the fact, is an unfair trade practice. [Rule 15]

§ 19.16 *Push money.* It is an unfair trade practice for any industry member to pay or contract to pay anything of value to a salesperson employed by a customer of the industry member, as compensation for, or as an inducement to obtain, special or greater effort or service on the part of the salesperson in promoting the resale of products supplied by the industry member to the customer:

(a) When the agreement or understanding under which the payment or payments are made or are to be made is without the knowledge and consent of the salesperson's employer; or

(b) When the terms and conditions of the agreement or understanding are such that any benefit to the salesperson or customer is dependent on lottery or chance; or

(c) When any provision of the agreement or understanding requires or contemplates practices or a course of conduct unduly and intentionally hampering sales of products of competitors of an industry member; or

(d) When, because of the terms and conditions of the understanding or agreement, including its duration, or the attendant circumstances, the effect may be to substantially lessen competition or tend to create a monopoly; or

(e) When similar payments are not accorded to salespersons of competing customers on proportionally equal terms in compliance with sections 2 (d) and (e) of the Clayton Act.

NOTE: Payments made by an industry member to a salesperson of a customer under any agreement or understanding that all or any part of such payments is to be transferred by the salesperson to the customer, or is to result in a corresponding decrease in the salesperson's salary, are not to be considered within the purview of this section, but are to be considered as subject to the requirements and provisions of section 2 (a) of the Clayton Act.

[Rule 16]

§ 19.17 *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in the rules in this part. [Rule 17]

[1] The inhibitions of this section are subject to Public Law 542, approved July 14, 1952—66 Stat. 632 (the McGuire Act) which provides that with respect to a commodity which bears, or the label or container of which bears, the trade-mark, brand, or name of the producer or distributor of such commodity and which is in free and open competition with commodities of the same general class produced or distributed by others, a seller of such a commodity may enter into a contract or agreement with a buyer thereof which establishes a minimum or stipulated price at which such commodity may be resold by such buyer when such contract or agreement is lawful as applied to intrastate transactions under the laws of the State, Territory, or territorial jurisdiction in which the resale is to be made or to which the commodity is to be transported for such resale, and when such contract or agreement is not between manufacturers, or between wholesalers, or between brokers, or between factors, or between retailers, or between persons, firms, or corporations in competition with each other.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 701—METAL, PLASTICS, MACHINERY, INSTRUMENT, TRANSPORTATION EQUIPMENT, AND ALLIED INDUSTRIES IN PUERTO RICO

PART 705—DECORATIONS AND PARTY FAVORS INDUSTRY IN PUERTO RICO

PART 713—PLASTIC PRODUCTS INDUSTRY IN PUERTO RICO

MINIMUM WAGE ORDER

Pursuant to the provisions of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice was published in the FEDERAL REGISTER on May 21, 1955 (20 F. R. 3571), of the Administrator's proposed decision to approve the recommendations of Special Industry Committee No. 16–C for the plastic products industry in Puerto Rico, together with the wage order which he proposed to issue to carry such decision into effect.

As indicated in the notice, the Administrator's findings and conclusions in this matter were set forth in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendations of Special Industry Committee No. 16–C for Puerto Rico for Minimum Wage Rates in the Plastic Products Industry in Puerto Rico."

Interested parties were given an opportunity to file exceptions to the proposed decision within fifteen days of the date of publication. Exceptions have been received on behalf of the Marmac Company, Inc., and the Pan American Plastics Corporation. The Marmac Company's exceptions are directed to the establishment of the sprayer and vaporizer division and the Pan American Plastics Corporation's exceptions are directed to the establishment of the wall tile, dinnerware, and phonograph records division of the industry.

The Marmac Company excepts to the division of the industry on the grounds that they are presently manufacturing dispensers and custom molded products, both of which fall within the definition of the general division, that both products are a normal complement to sprayer and vaporizer manufacturing, and that segregation is not feasible.

As was stated in the "Findings and Opinion of the Administrator," the division of the industry into various branches, based upon end products, is a sound and recognized method of industrial classification. I have fully considered this exception of the Marmac Company and find that the fact that the Marmac Company is making products that fall into the general division as well as products that fall into the sprayer and vaporizer division is not a sufficient basis for modification of the industry divisions as proposed.

All other exceptions to the establishment of such branches of the industry were fully considered in the findings and opinion of the Administrator and further comment appears unnecessary at this time.

Accordingly pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended 29 U. S. C. 201 et seq.), Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), General Order No. 45–A (15 F. R. 3290), and, the position of the Administrator being presently vacant, General Order No. 85 (20 F. R. 2066), the said decision is affirmed and made final; the recommendations of Special Industry Committee No. 16–C for minimum wage rates in the plastic products industry in Puerto Rico are hereby approved and the wage orders contained in 29 CFR Parts 701 and 705 are hereby amended, to the extent that they apply to the plastic products industry in Puerto Rico, as hereinafter defined.

Part 713—Plastic Products Industry in Puerto Rico is set forth below:

Sec.
713.1 Approval of recommendations of industry committee.
713.2 Wage rates.
713.3 Notice of order.
713.4 Definitions of the plastic products industry in Puerto Rico and divisions thereof.

AUTHORITY: §§ 713.1 to 713.4 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208.

§ 713.1 *Approval of recommendations of industry committee.* The Committee's recommendations are hereby approved.

§ 713.2 *Wage rates.* (a) Wages at a rate of not less than 75 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the sprayer and vaporizer division of the plastic products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 60 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the wall tile, dinnerware, and phonograph records division of the plastic products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(c) Wages at a rate of not less than 53 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the general division of the plastic products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 713.3 *Notice of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the plastic products industry in Puerto Rico shall post in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notices as the Division may prescribe.

§ 713.4 *Definition of the plastic products industry in Puerto Rico, and divisions thereof.* (a) (1) The plastic products industry in Puerto Rico to which this part shall apply is hereby defined as follows: The manufacture of molded or other fabricated plastic products: *Provided, however,* That the definition shall not include (i) the manufacture of primary materials such as sheets, rods, tubes, granules, powders, or liquids; (ii) the sawing, cutting, grinding, polishing, and other processing of synthetic jewels for industrial use; (iii) the manufacture of buttons, buckles, and jewelry (including rosaries), and jewelry findings (including beads); (iv) the manufacture from pliable plastics in sheet form of ornaments and decorations for Christmas and other holidays, party favors and souvenirs, and similar items primarily ornamental or decorative in character; (v) or any activity included in the leather, leather goods, and related products industry; the paper, paper products, printing, publishing and related industries; the shoe manufacturing and allied industries; the textile and textile products industry; the needlework and fabricated textile products industry; the men's and boys' clothing and related products industry; or the corsets, brassieres, and allied garments industry, as defined in the wage orders for these industries in Puerto Rico. This definition supersedes the definition for the decorations and party favors industry with respect to the manufacture of plastic articles other than those made from pliable sheet or film.

(2) The definition contained in subparagraph (1) of this paragraph supersedes the definitions contained in any and all wage orders issued heretofore for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

(b) The separable divisions of the industry defined in paragraph (a) (1) of the section, to which this part shall apply are hereby defined as follows:

(1) *Sprayer and vaporizer division.* This division consists of the manufacture of plastic sprayers, vaporizers, and atomizers.

(2) *Wall tile, dinnerware, and phonograph records division.* This division consists of the manufacture of plastic wall tiles, dinnerware, and phonograph records.

(3) *General division.* This division consists of all products and activities included in the plastic products industry, except products and activities included in the sprayer and vaporizer division, and the wall tile, dinnerware, and phonograph records division as defined herein.

The wage order above shall become effective July 25, 1955.

Signed at Washington, D. C., this 21st day of June 1955.

STUART ROTHMAN,
Solicitor of Labor.

PART 205—DUMPING GROUNDS REGULATIONS

GULF OF MEXICO OFF TEXAS COAST

Pursuant to the provisions of section 4 of the River and Harbor Act of March 3, 1905 (33 U. S. C. 1147; 33 U. S. C. 419), § 205.35 prescribing dumping grounds

in the Gulf of Mexico off the Texas Coast is hereby amended decreasing the length of the dumping ground southeast of Galveston to clear the fairway leading to Galveston Harbor entrance, as follows:

§ 205.35 *Gulf of Mexico off Texas coast*—(a) *The dumping grounds.* * * *

(2) *Southeast of Galveston.* (i) The waters of the Gulf of Mexico within a rectangular area described as follows: Beginning at latitude 28°58'45", longitude 94°35'00"; thence to latitude 29°02'30", longitude 94°39'30"; thence to latitude 29°10'20", longitude 94°30'44"; thence to latitude 29°06'23", longitude 94°26'16"; and thence to the point of beginning.

(ii) This dumping ground shall be used only for the dumping of treated industrial wastes composed mainly of concentrated sewage sludge.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DEC. 31, 1953

REGULATED INVESTMENT COMPANIES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 851, 852, 853, 855, and 7805 of the Internal Revenue Code of 1954 (68A Stat. 268, 271, 272, 274, and 917; 26 U. S. C. 851, 852, 853, 855, and 7805).

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

The following regulations, relating to regulated investment companies, are hereby promulgated under subchapter M of chapter 1 of the Internal Revenue Code of 1954 for taxable years beginning after December 31, 1953, and ending after August 16, 1954:

§ 1.851 *Statutory provisions; definition of regulated investment company.*

SEC. 851. *Definition of regulated investment company*—(a) *General rule.* For purposes of this subtitle, the term "regulated investment company" means any domestic corporation (other than a personal holding company as defined in section 542)—

(1) Which, at all times during the taxable year, is registered under the Investment Company Act of 1940, as amended (54 Stat. 789; 15 U. S. C. 80 a–1 to 80 b–2), either as a management company or as a unit investment trust, or

(2) Which is a common trust fund or similar fund excluded by section 3 (c) (3) of such act (15 U. S. C. 80 a–3 (c)) from the definition of "investment company" and is not included in the definition of "common trust fund" by section 584 (a).

(b) *Limitations.* A corporation shall not be considered a regulated investment company for any taxable year unless—

(1) It files with its return for the taxable year an election to be a regulated investment company or has made such election for a previous taxable year which began after December 31, 1941;

(2) At least 90 percent of its gross income is derived from dividends, interest, and gains from the sale or other disposition of stock or securities;

(3) Less than 30 percent of its gross income is derived from the sale or other disposition of stock or securities held for less than 3 months; and

(4) At the close of each quarter of the taxable year—

(A) At least 50 percent of the value of its total assets is represented by—

(i) Cash and cash items (including receivables), Government securities and securities of other regulated investment companies, and

(ii) Other securities for purposes of this calculation limited, except and to the extent provided in subsection (e), in respect of any one issuer to an amount not greater in value than 5 percent of the value of the total assets of the taxpayer and to not more than 10 percent of the outstanding voting securities of such issuer, and

(B) Not more than 25 percent of the value of its total assets is invested in the securities (other than Government securities or the securities of other regulated investment companies) of any one issuer, or of two or more issuers which the taxpayer controls and which are determined, under regulations prescribed by the Secretary or his delegate, to be engaged in the same or similar trades or businesses or related trades or businesses.

(c) *Rules applicable to subsection* (b) (4). For purposes of subsection (b) (4) and this subsection—

(1) In ascertaining the value of the taxpayer's investment in the securities of an issuer, for the purposes of subparagraph (B), there shall be included its proper proportion of the investment of any other corporation, a member of a controlled group, in the securities of such issuer, as determined under regulations prescribed by the Secretary or his delegate.

(2) The term "controls" means the ownership in a corporation of 20 percent or more of the total combined voting power of all classes of stock entitled to vote.

(3) The term "controlled group" means one or more chains of corporations connected through stock ownership with the taxpayer if—

(A) 20 percent or more of the total combined voting power of all classes of stock entitled to vote of each of the corporations (except the taxpayer) is owned directly by one or more of the other corporations, and

(B) The taxpayer owns directly 20 percent or more of the total combined voting power of all classes of stock entitled to vote, of at least one of the other corporations.

(4) The term "value" means, with respect to securities (other than those of majority-owned subsidiaries) for which market quotations are readily available, the market value of such securities; and with respect to other securities and assets, fair value as determined in good faith by the board of directors, except that in the case of securities of majority-owned subsidiaries which are investment companies such fair value shall not exceed market value or asset value, whichever is higher.

(5) All other terms shall have the same meaning as when used in the Investment Company Act of 1940, as amended.

(d) *Determination of status.* A corporation which meets the requirements of subsections (b) (4) and (c) at the close of any quarter shall not lose its status as a regulated investment company because of a discrepancy during a subsequent quarter between the value of its various investments and such requirements unless such discrepancy exists immediately after the acquisition of any security or other property and is wholly or partly the result of such acquisition. A corporation which does not meet such requirements at the close of any quarter by reason of a discrepancy existing immediately after the acquisition of any security or other property which is wholly or partly the result of such acquisition during such quarter shall not lose its status for such quarter as a regulated investment company if such discrepancy is eliminated within 30 days after the close of such quarter and in such cases it shall be considered to have met such requirements at the close of such quarter for purposes of applying the preceding sentence.

(e) *Investment companies furnishing capital to development corporations*—(1) *General rule.* If the Securities and Exchange Commission determines, in accordance with regulations issued by it, and certifies to the Secretary or his delegate not less than 60 days prior to the close of the taxable year of a registered management company, that such investment company is principally engaged in the furnishing of capital to other corporations which are principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available, such investment company may, in the computation of 50 percent of the value of its assets under subparagraph (A) of subsection (b) (4) for any quarter of such taxable year, include the value of any securities of an issuer, whether or not the investment company owns more than 10 percent of the outstanding voting securities of such issuer, the basis of which, when added to the basis of the investment company for securities of such issuer previously acquired, did not exceed 5 percent of the value of the total assets of the investment company at the time of the subsequent acquisition of securities. The preceding sentence shall not apply to the securities of an issuer if the investment company has continuously held any security of such issuer (or of any predecessor company of such issuer as determined under

regulations prescribed by the Secretary or his delegate) for 10 or more years preceding such quarter of such taxable year.

(2) *Limitation.* The provisions of this subsection shall not apply at the close of any quarter of a taxable year to an investment company if at the close of such quarter more than 25 percent of the value of its total assets is represented by securities of issuers with respect to each of which the investment company holds more than 10 percent of the outstanding voting securities of such issues and in respect of each of which or any predecessor thereof the investment company has continuously held any security for 10 or more years preceding such quarter unless the value of its total assets so represented is reduced to 25 percent or less within 30 days after the close of such quarter.

(3) *Determination of status.* For purposes of this subsection, unless the Securities and Exchange Commission determines otherwise, a corporation shall be considered to be principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available, for at least 10 years after the date of the first acquisition of any security in such corporation or any predecessor thereof by such investment company if at the date of such acquisition the corporation or its predecessor was principally so engaged, and an investment company shall be considered at any date to be furnishing capital to any company whose securities it holds if within 10 years prior to such date it has acquired any of such securities, or any securities surrendered in exchange therefor, from such other company or predecessor thereof. For purposes of the certification under this subsection, the Securities and Exchange Commission shall have authority to issue such rules, regulations and orders, and to conduct such investigations and hearings, either public or private, as it may deem appropriate.

(4) *Definitions.* The terms used in this subsection shall have the same meaning as in subsections (b) (4) and (c) of this section.

§ 1.851–1 *Definition of a regulated investment company*—(a) *In general.* The term "regulated investment company" is defined to mean any domestic corporation (other than a personal holding company as defined in section 542) which meets the requirement and limitations set forth in paragraphs (b) and (c), respectively, of this section.

(b) *Requirement.* To qualify as a regulated investment company, a corporation must be:

(1) Registered at all times during the taxable year, under the Investment Company Act of 1940, as amended (54 Stat. 789; 15 U. S. C. 80 a–1 to 80 b–2), either as a management company or a unit investment trust, or

(2) A common trust fund or similar fund excluded by section 3 (c) (3) of the Investment Company Act of 1940 (15 U. S. C. 80 a–3 (c)) from the definition of "investment company" and not included in the definition of "common trust fund" by section 584 (a).

(c) *Limitations*—(1) *Election to be a regulated investment company.* Under the provisions of section 851 (b) (1), an investment company, even though it satisfies the other requirements of subchapter M for the taxable year, will not be considered a regulated investment company for such year, within the meaning of subchapter M, unless it elects to be a regulated investment company for such taxable year, or has made such an election for a previous taxable year which began after December 31, 1941. The election shall be made by the taxpayer by computing income as a regulated investment company in its return for the first taxable year to which it desires the election to be applicable. No other method of making such election is permitted. An election once made is irrevocable for the current taxable year and all succeeding taxable years.

(2) *Source of income.* Section 851 (b) (2) and (3) provides that at least 90 percent of the corporation's gross income for the taxable year must be derived from dividends, interest, and gains from the sale or other disposition of stocks or securities, and less than 30 percent of its gross income must have been derived from the sale or other disposition of stock or securities held for less than three months. As to the definition of the term "corporation", see section 7701 (a) (3). In determining the percentage of the corporation's gross income which has been derived from such sources, a loss from the sale or other disposition of stock or securities does not enter into the computation. A determination of the period for which stock or securities have been held shall be governed by the provisions of section 1223 insofar as applicable.

(3) *Diversification of investments.* (i) Section 851 (b) (4) with respect to diversification of investments, requires, in clause (A), that at the close of each quarter of the taxable year at least 50 percent of the value of the total assets of the corporation be represented by cash and cash items (including receivables), Government securities, securities of other regulated investment companies, and other securities. For the purpose of this calculation, investments in securities (other than Government securities or securities of other regulated investment companies) shall be limited, except and to the extent provided in section 851 (e) in the case of certain venture capital registered management investment companies qualifying thereunder, in respect of any one issuer to an amount not greater than 5 percent of the value of the total assets of the taxpayer corporation and to not more than 10 percent of the outstanding voting securities of such issuer. Assuming that at least 50 percent of the value of the total assets of the corporation satisfies these requirements, and that the limiting provisions of clause (B) of section 851 (b) (4) are not violated, the corporation will satisfy the requirements of section 851 (b) (4), notwithstanding that the remaining assets do not satisfy the diversification requirements of clause (A). For example, a corporation may own all the stock of another corporation, provided it otherwise meets the requirements of clauses (A) and (B).

(ii) Clause (B) of section 851 (b) (4) prohibits the investment at the close of each quarter of the taxable year of more than 25 percent of the value of the total assets of the corporation (including the 50 percent or more mentioned in clause (A)) in the securities (other than Government securities or the securities of other regulated investment companies) of any one issuer, or of two or more issuers which the taxpayer company controls and which are engaged in the same or similar trades or businesses or related trades or businesses, including such issuers that are merely a part of a unit contributing to the completion and sale of a product or the rendering of a particular service. Two or more issuers are not considered as being in the same or similar trades or businesses merely because they are engaged in the broad field of manufacturing or of any other general classification of industry, but issuers shall be construed to be engaged in the same or similar trades or businesses if they are engaged in a distinct branch of business, trade, or manufacture in which they render the same kind of service or produce or deal in the same kind of product, and such service or products fulfill the same economic need. If two or more issuers produce more than one product or render more than one type of service, then the chief product or service of each shall be the basis for determining whether they are in the same trade or business.

(d) *Rules applicable to section 851* (b) (4). In determining the value of the taxpayer's investment in the securities of any one issuer, there shall be included its proper proportion of the investment of any other corporation, a member of a controlled group, in the securities of such issuer. See example (3) in paragraph (f) of this section. For the purposes of this section and § 1.851–2, the terms "controls", "controlled group", and "value" are defined in section 851 (c). All other terms used in such sections have the same meaning as when used in the Investment Company Act of 1940 (15 U. S. C., c: 2D) or that act as amended.

(e) *Determination of status.* With respect to the effect which certain discrepancies between the value of its various investments and the requirements of section 851 (b) (4), or the effect that the elimination of such discrepancies will have on the status of a company as a regulated investment company for the purposes of subchapter M, see section 851 (d). A company claiming to be a regulated investment company shall keep sufficient records as to investments so as to be able to show that it has complied with the provisions of section 851 during the taxable year. Such records shall be kept at all times available for inspection by any authorized officer or employee of the Internal Revenue Service and shall be retained so long as the contents thereof may become material in the administration of any internal revenue law.

(f) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). Investment Company W at the close of its first quarter of the taxable year has its assets invested as follows:

	Percent
Cash	5
Government securities	10
Securities of regulated investment companies	20
Securities of Corporation A	10
Securities of Corporation B	15
Securities of Corporation C	20
Securities of various corporations (not exceeding 5 percent of its assets in any one company)	20
Total	100

Investment Company W owns 15 percent of the voting stock of Corporation C and less than 10 percent of the voting stock of the other corporations, except that it owns all of the voting stock of Corporations A and B. None of the corporations is a member of a controlled group. Investment Company W meets the requirements at the end of its first quarter under section 851 (b) (4). It complies with clause (A) since it has 55 percent of its assets invested as provided in clause (A). It complies with clause (B) since it does not have more than 25 percent of its assets invested in the securities of any one issuer, or of two or more issuers which it controls.

Example (2). Investment Company V at the close of a particular quarter of the taxable year has its assets invested as follows:

	Percent
Cash	10
Government securities	35
Securities of Corporation A	7
Securities of Corporation B	12
Securities of Corporation C	15
Securities of Corporation D	21
Total	100

Investment Company V fails to meet the requirements of clause (A) of section 851 (b) (4) since its assets invested in Corporations A, B, C, and D exceed in each case 5 percent of the value of the total assets of the company at the close of the particular quarter.

Example (3). Investment Company X at the close of the particular quarter of the taxable year has its assets invested as follows:

	Percent
Cash and Government securities	20
Securities of Corporation A	5
Securities of Corporation B	10
Securities of Corporation C	25
Securities of various corporations (not exceeding 5 percent of its assets in any one company)	40
Total	100

Investment Company X owns less than 10 percent of the voting power of all of the corporations, except it owns more than 20 percent of the voting power of Corporations B and C. Corporation B manufactures radios and Corporation C acts as its distributor and also distributes radios for other companies. Investment Company X fails to meet the requirements of clause (B) of section 851 (b) (4) since it has 35 percent of its assets invested in the securities of two issuers which it controls and which are engaged in related trades or businesses.

Example (4). Investment Company Y at the close of a particular quarter of the taxable year has its assets invested as follows:

	Percent
Cash and Government securities	15
Securities of Corporation K (a regulated investment company)	30
Securities of Corporation A	10
Securities of Corporation B	20
Securities of various corporations (not exceeding 5 percent of its assets in any one company)	25
Total	100

Corporation K has 20 percent of its assets invested in Corporation L and Corporation L has 40 percent of its assets invested in Corporation B. Corporation A also has 30 percent of its assets invested in Corporation B, and owns more than 20 percent of the voting power in Corporation B. Investment Company Y owns more than 20 percent of the voting power of Corporations A and K. Corporation K owns more than 20 percent of the voting power of Corporation L, and Corporation L owns more than 20 percent of the voting power of Corporation B. Investment Company Y is disqualified under clause (B) since more than 25 percent of its assets is considered invested in Corporation B as shown by the following calculation:

Percentage of assets invested directly in Corporation B	20.0
Percentage invested through the controlled group, Y-K-L-B (40 percent of 20 percent of 30 percent)	2.4
Percentage invested in the controlled group, Y-A-B (30 percent of 10 percent)	3.0
Total percentage of assets of Investment Company Y invested in Corporation B	25.4

Example (5). Investment Company Z, which keeps its books and makes its returns on the basis of the calendar year, at the close of the first quarter of 1955, meets the requirements of section 851 (b) (4) and has 20 percent of its assets invested in Corporation A. Later during the taxable year it makes distributions to its shareholders and because of such distributions it finds at the close of the taxable year that it has more than 25 percent of its remaining assets invested in Corporation A. Investment Company Z does not lose its status as a regulated investment company for the taxable year 1955 because of such distributions.

§ 1.851–2 *Investment companies furnishing capital to development corporations*—(a) *Qualifying requirements.* (1) In the case of a regulated investment company which furnishes capital to development corporations, section 851 (e) provides an exception to the rule relating to the diversification of investments, made applicable to regulated investment companies by section 851 (b) (4) (A). This exception (as provided in paragraph (b) of this section) is available only to registered management investment Companies which the Securities and Exchange Commission determines, in accordance with regulations issued by it, and certifies to the Secretary, not less than sixty days before the close of the taxable year of such investment company, to be principally engaged in the furnishing of capital to other corporations which are principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available.

(2) For the purpose of the aforementioned determination and certification, unless the Securities and Exchange Commission determines otherwise, a corporation shall be considered to be principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available, for at least 10 years after the date of the first acquisition of any security in such corporation or any predecessor thereof by such investment company if at the date of such acquisition the corporation or its predecessor was principally so engaged, and an investment company shall be considered at any date to be furnishing capital to any company whose securities it holds if within 10 years before such date it has acquired any of such securities, or any securities surrendered in exchange therefor, from such other company or its predecessor.

(b) *Exception to general rule.* (1) The registered management investment company, which for the taxable year meets the requirements of paragraph (a) of this section, may (subject to the limitations of paragraph (c) of this section) in the computation of 50 percent of the value of its assets under section 851 (b) (4) (A) for any quarter of such taxable year, include the value of any securities of an issuer (whether or not the investment company owns more than 10 percent of the outstanding voting securities of such issuer) if at the time of the latest acquisition of any securities of such issuer the basis of all such securities in the hands of the investment company does not exceed 5 percent of the value of the total assets of the investment company at that time. The exceptions set forth above are not applicable to the securities of an issuer if the investment company has continuously held any security of such issuer or of any predecessor company (as defined in paragraph (d) of this section) for 10 or more years preceding such quarter of the taxable year. The rule of section 851 (e) with respect to the relationship of the basis of the securities of an issuer to the value of the total assets of the investment company is, in substance, a qualification of the 5 percent limitation in section 851 (b) (4) (A) (ii). All other provisions and requirements of section 851 and the regulations thereunder are applicable in determining whether such registered management investment company qualifies as a regulated investment company within the meaning of such section.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example (1). (i) The XYZ Corporation, a regulated investment company, qualifies under section 851 (e) as an investment company furnishing capital to development corporations. On June 30, 1954, the XYZ Corporation purchases 1,000 shares of the stock of the A Corporation at a cost of $30,000. The A Corporation qualifies under the provisions of section 851 (e) (3) as a development corporation. On June 30, 1954, the value of the total assets of the XYZ Corporation is $1,000,000. Its investment in the stock of the A Corporation ($30,000) comprises 3 percent of the value of its total assets, and it therefore meets the requirements prescribed by section 851 (b) (4) (A) (ii) as modified by section 851 (e) (1).

(ii) On June 30, 1955, the value of the total assets of the XYZ Corporation is $1,500,000 and the 1,000 shares of stock of the A Corporation which the XYZ Corporation owns have appreciated in value so that they now are worth $60,000. On that date, the XYZ Investment Company increases its investment in the stock of the A Corporation by purchasing an additional 500 shares of that stock at a total cost of $30,000. The securities of the A Corporation owned by the XYZ Corporation have a value of $90,000 (6 percent of the value of the total assets of the XYZ Corporation) which exceeds the limit provided by section 851 (b) (4) (A) (ii). However, the investment of the XYZ Corporation in the A Corporation on June 30, 1955, qualifies under section 851 (b) (4) (A) as modified by section 851 (e) (1), since the basis of those securities to the investment company does not exceed 5 percent of the value of its total assets as of June 30, 1955, illustrated as follows:

Basis to the XYZ Corporation of the A Corporation's stock acquired on June 30, 1954	$30,000
Basis of the 500 shares of the A Corporation's stock acquired by the XYZ Corporation on June 30, 1955	30,000
Basis of all stock of A Corporation	60,000

$$\frac{\text{Basis of stock of A Corporation}}{\text{Value of XYZ Corporation's total assets at the end of a quarter of the current taxable year}} = \frac{\$60,000}{\$1,500,000} = 4 \text{ percent}$$

Example (2). The same facts exist as in example (1), except that on June 30, 1955, the XYZ Corporation increases its investment in the stock of the A Corporation by purchasing an additional 1,000 shares of that stock (instead of 500 shares) at a total cost of $60,000. No part of the investment of the XYZ Corporation in the A Corporation qualifies under the 5 percent limitation provided by section 851 (b) (4) (A) as modified by section 851 (e) (1), illustrated as follows:

Basis to the XYZ Corporation of the 1,000 shares of the A Corporation's stock acquired on June 30, 1954	$30,000
Basis of the 1,000 shares of the A Corporation's stock acquired on June 30, 1955	60,000
Total	90,000

$$\frac{\text{Basis of stock of A Corporation}}{\text{Value of XYZ Corporation's total assets at the end of a quarter of the current taxable year}} = \frac{\$90,000}{\$1,500,000} = 6 \text{ percent}$$

(c) *Limitation.* Section 851 (e) does not apply in the quarterly computation of 50 percent of the value of the assets of an investment company under clause (A) of section 851 (b) (4) for any taxable year if at the close of any quarter of such taxable year more than 25 percent of the value of its total assets (including the 50 percent or more mentioned in such clause (A)) is represented by securities (other than Government securities or the securities of other regulated investment companies) of issuers as to each of which (1) such investment company holds more than 10 percent of the outstanding voting securities of such issuer, and (2) such investment company has continuously held any security of such issuer (or any security of a predecessor of such issuer) for 10 or more years preceding such quarter, unless the value of its total assets so represented is reduced to 25 percent or less within 30 days after the close of such quarter.

(d) *Definition of predecessor company.* As used in section 851 (e) and this section, the term "predecessor company" means any corporation the basis of whose securities in the hands of the investment company was, under the provisions of section 358, the same in whole or in part as the basis of any of the securities of the issuer and any corporation with respect to whose securities any of the securities of the issuer were received directly or indirectly by the investment company in a transaction or series of transactions involving nonrecognition of gain or loss in whole or in part. The other terms used in this section have the same meaning as when used in section 851 (b) (4). See § 1.851–1 (c) (3).

§ 1.852 *Statutory provisions; taxation of regulated investment companies and their shareholders.*

SEC. 852. *Taxation of regulated investment companies and their shareholders*—(a) *Requirements applicable to regulated investment companies.* The provisions of this subchapter shall not be applicable to a regulated investment company for a taxable year unless—

(1) The deduction for dividends paid during the taxable year (as defined in section 561, but without regard to capital gains dividends) equals or exceeds 90 percent of its investment company taxable income for the taxable year (determined without regard to subsection (b) (2) (D)), and

(2) The investment company complies for such year with regulations prescribed by the Secretary or his delegate for the purpose of ascertaining the actual ownership of its outstanding stock.

(b) *Method of taxation of companies and shareholders*—(1) *Imposition of normal tax and surtax on regulated investment companies.* There is hereby imposed for each taxable year upon the investment company taxable income of every regulated investment company a normal tax and surtax computed as provided in section 11, as though the investment company taxable income were the taxable income referred to in section 11. For purposes of computing the normal tax under section 11, the taxable income and the dividends paid deduction of such investment company for the taxable year (computed without regard to capital gains dividends) shall be reduced by the deduction provided by section 242 (relating to partially tax-exempt interest).

(2) *Investment company taxable income.* The investment company taxable income shall be the taxable income of the regulated investment company adjusted as follows:

(A) There shall be excluded the excess, if any, of the net long-term capital gain over the net short-term capital loss.

(B) The net operating loss deduction provided in section 172 shall not be allowed.

(C) The deductions for corporations provided in part VIII (except section 248) in subchapter B (section 241 and following, relating to the deduction for dividends received, etc.) shall not be allowed.

(D) The deduction for dividends paid (as defined in section 561) shall be allowed, but shall be computed without regard to capital gains dividends.

(E) The taxable income shall be computed without regard to section 443 (b) (relating to computation of tax on change of annual accounting period).

(3) *Capital gains*—(A) *Imposition of tax.* There is hereby imposed for each taxable year in the case of every regulated investment company a tax of 25 percent of the excess, if any, of the net long-term capital gain over the sum of—

(i) The net short-term capital loss, and

(ii) The deduction for dividends paid (as defined in section 561) determined with reference to capital gains dividends only.

(B) *Treatment of capital gain dividends by shareholders.* A capital gain dividend shall be treated by the shareholders as a gain from the sale or exchange of a capital asset held for more than 6 months.

(C) *Definition of capital gain dividend.* A capital gain dividend means any dividend, or part thereof, which is designated by the company as a capital gain dividend in a written notice mailed to its shareholders not later than 30 days after the close of its taxable year. If the aggregate amount so designated with respect to a taxable year of the company (including capital gains dividends paid after the close of the taxable year described in section 855) is greater than the excess of the net long-term capital gain over the net short-term capital loss of the taxable year, the portion of each distribution which shall be a capital gain dividend shall be only that proportion of the amount so designated which such excess of the net long-term capital gain over the net short-term capital loss bears to the aggregate amount so designated.

(c) *Earnings and profits.* The earnings and profits of a regulated investment company for any taxable year (but not its accumulated earnings and profits) shall not be reduced by any amount which is not allowable as a deduction in computing its taxable income for such taxable year.

§ 1.852–1 *Taxation of regulated investment companies*—(a) *Requirements applicable thereto.* Section 852 (a) denies the application of the provisions of subchapter M to a regulated investment company for the taxable year unless:

(1) The company's deduction for dividends paid, during the taxable year, as defined in section 561 (computed without regard to the capital gains dividends) is equal to at least 90 percent of its investment company taxable income for such taxable year (determined without regard to the provisions of section 852 (b) (2) (D)); and

(2) The company complies for such year with the provisions of § 1.852–4 (relating to records required to be kept for the purpose of ascertaining the actual ownership of its outstanding stock).

(b) *Method of taxation of companies*—(1) *Imposition of normal tax and surtax.* Section 852 (b) (1) imposes a normal tax and surtax, computed as provided in section 11, on the investment company taxable income, as defined in paragraph (c) of this section, for each taxable year of a regulated investment company. The tax is imposed as if the investment company taxable income were the taxable income referred to in section 11. In computing the normal tax under section 11, the regulated investment company's taxable income and the dividends paid deduction (computed without regard to the capital gains dividends) shall both be reduced by the deduction for partially tax-exempt interest provided by section 242. By application of the provisions of section 11 (b) a normal tax is imposed on the investment company taxable income:

(i) At the rate of 30 percent for taxable years beginning before April 1, 1956, and

(ii) At the rate of 25 percent for taxable years beginning after March 31, 1956.

By application of the provisions of section 11 (c) a surtax is imposed at the

rate of 22 percent of that portion of the investment company taxable income (computed without regard to the deduction for partially tax-exempt interest provided in section 242) which exceeds $25,000.

(2) *Taxation of capital gains.* Section 852 (b) (3) imposes a tax of 25 percent for each taxable year on the excess, if any, of the net long-term capital gain of a regulated investment company over the sum of its net short-term capital loss and its deduction for dividends paid (as defined in section 561) determined with reference to capital gains dividends only. For the definition of capital gains dividends paid by a regulated investment company, see § 1.852–2 (b).

(3) *Failure to qualify.* If a regulated investment company does not, in a particular year, have a deduction for dividends paid, as defined in section 561 (excluding the capital gains dividend) equal to at least 90 percent of its investment company taxable income for such taxable year (determined without regard to the deduction for dividends paid provided by section 852 (b) (2) (D)), it will, even though it may otherwise be classified as a regulated investment company, be taxed in that year as an ordinary corporation.

(4) *Effect on earnings and profits.* Due to the provisions in section 852 (c) with respect to the concept of earnings and profits of a regulated investment company, even though such a company has no accumulated earnings and profits, if it makes distributions during the taxable year of an amount equal to its investment company taxable income for that year, regardless of the amount of losses which are not deductible against such income, it will not be liable for any income tax for the taxable year provided it otherwise satisfies the requirements of subchapter M.

(c) *Investment company taxable income.* Section 852 (b) (2) requires certain adjustments to be made to convert taxable income of the investment company to invest company taxable income, as follows:

(1) The excess, if any, of the net long-term capital gain over the net short-term capital loss shall be excluded;

(2) The net operating loss deduction provided in section 172 shall not be allowed;

(3) The special deductions provided in part VIII of subchapter B (except the deduction under section 248) shall not be allowed. Those not allowed are the deduction for partially tax-exempt interest provided by section 242, the deductions for dividends received provided by sections 243, 244, and 245, and the deduction for certain dividends paid provided by section 247. However, the deduction provided by section 248 (relating to organizational expenditures), otherwise allowable in computing taxable income, shall likewise be allowed in computing the investment company taxable income. See section 852 (b) (1) and paragraph (b) (1) of this section for treatment of the deduction for partially tax-exempt interest (provided by section 242) for purposes of computing the normal tax under section 11;

(4) The deduction for dividends paid (as defined in section 561) shall be allowed, but shall be computed without regard to capital gains dividends (as defined in section 852 (b) (3) (C); and

(5) The taxable income shall be computed without regard to section 443 (b). Thus, the taxable income for a period of less than twelve months shall not be placed on an annual basis even though such short taxable year results from a change of accounting period.

§ 1.852–2 *Method of taxation of shareholders of regulated investment companies*—(a) *In general.* Shareholders who receive capital gain dividends from a regulated investment company, distributed during a taxable year of the regulated investment company for which it is taxable under section 852 (b), shall treat such dividends as gains from the sale or exchange of capital assets held for more than six months.

(b) *Definition of capital gain dividend.* A capital gain dividend, as defined in section 852 (b) (3) (C), is any dividend or part thereof which is designated by a regulated investment company as a capital gain dividend in a written notice mailed to its shareholders not later than 30 days after the close of its taxable year. If the aggregate amount so designated with respect to the taxable year is greater than the excess of the net long-term capital gain over the net short-term capital loss of the taxable year, the portion of each distribution which shall be a capital gain dividend shall be only that proportion of the amount so designated which such excess of the net long-term capital gain over the net short-term capital loss bears to the aggregate amount so designated. For example, a regulated investment company making its return on the calendar year basis advised its shareholders by written notice mailed December 30, 1955, that of a distribution of $500,000 made December 15, 1955, $200,000 constituted a capital gain dividend, amounting to $2 per share. It was later discovered that an error had been made in determining the excess of the net long-term capital gain over the net short-term capital loss of the taxable year and that such excess was $100,000 instead of $200,000. In such case each shareholder would have received a capital gain dividend of $1 per share instead of $2 per share. For additional rules applicable to certain distributions made after the close of the taxable year which may be designated as capital gain dividends, see § 1.855–1 (e).

§ 1.852–3 *Earnings and profits of a regulated investment company.* In the determination of the earnings and profits of a regulated investment company, such earnings and profits shall not be reduced by any amount which is not allowable as a deduction in computing its taxable income for the taxable year. See section 852 (c). Thus, if a corporation would have had earnings and profits of $500,000 for the taxable year except for the fact that it had a net capital loss of $100,000, which amount was not deductible in determining its net income, its earnings and profits for that year if it is a regulated investment company would be $500,000. However, in determining its accumulated earnings and profits as of the beginning of the following taxable year, the earnings and profits for the previous year to be considered in such computation would amount to $400,000 assuming that there had been no distribution from such earnings and profits. For the purpose of the earnings-and-profits concept, it is immaterial whether during the taxable year a regulated investment company is taxable under subchapter M.

§ 1.852–4 *Records to be kept for purpose of determining whether a corporation claiming to be a regulated investment company is a personal holding company.* Every regulated investment company shall maintain in the internal revenue district in which it is required to file its income tax return permanent records showing the information relative to the actual owners of its stock contained in the written statements required by this section to be demanded from the shareholders. The actual owner of stock includes the person who is required to include in gross income in his return the dividends received on the stock. Such records shall be kept at all times available for inspection by any authorized officer or employee of the Internal Revenue Service, and shall be retained so long as the contents thereof may become material in the administration of any internal revenue law. For the purpose of determining whether a domestic corporation claiming to be a regulated investment company is a personal holding company as defined in section 542, the permanent records of the company shall show the maximum number of shares of the corporation (including the number and face value of securities convertible into stock of the corporation) to be considered as actually or constructively owned by each of the actual owners of any of its stock at any time during the last half of the corporation's taxable year, as provided in section 544. Statements giving such information shall be demanded not later than 30 days after the close of the corporation's taxable year as follows:

(a) In the case of a corporation having 2,000 or more record owners of its stock on any dividend record date, from each record holder of 5 percent or more of its stock; or

(b) In the case of a corporation having less than 2,000 and more than 200 record owners of its stock, on any dividend record date, from each record holder of 1 percent or more of its stock; or

(c) In the case of a corporation having 200 or less record owners of its stock, on any dividend record date, from each record holder of one-half of 1 percent or more of its stock.

§ 1.852–5 *Additional information required in returns of shareholders.* (a) Any person who fails or refuses to comply with the demand of a regulated investment company for the written statements which § 1.852–4 requires the company to demand from its shareholders shall submit as a part of his income tax return a statement showing, to the best of his knowledge and belief:

(1) The number of shares actually owned by him at any and all times during the period for which the return is filed in any company claiming to be a regulated investment company;

(2) The dates of acquisition of any such stock during such period and the names and addresses of persons from whom it was acquired;

(3) The dates of disposition of any such stock during such period and the names and addresses of the transferees thereof;

(4) The names and addresses of the members of his family (as defined in section 544 (a) (2)); the names and addresses of his partners, if any, in any partnership; and the maximum number of shares, if any, actually owned by each in any corporation claiming to be a regulated investment company, at any time during the last half of the taxable year of such company;

(5) The names and addresses of any corporation, partnership, association, or trust in which he had a beneficial interest to the extent of at least 10 percent at any time during the period for which such return is made, and the number of shares of any corporation claiming to be a regulated investment company actually owned by each;

(6) The maximum number of shares (including the number and face value of securities convertible into stock of the corporation) in any domestic corporation claiming to be a regulated investment company to be considered as constructively owned by such individual at any time during the last half of the corporation's taxable year, as provided in section 544 and the regulations thereunder; and

(7) The amount and date of receipt of each dividend received during such period from every corporation claiming to be a regulated investment company.

(b) When making demand for the written statements required of each shareholder by § 1.852–4, the company shall inform each of the shareholders of his duty to submit as a part of his income tax return the statements which are required by this section if he fails or refuses to comply with such demand. A list of the persons failing or refusing to comply in whole or in part with a company's demand shall be maintained as a part of its record required by § 1.852–4. A company which fails to keep such records to show the actual ownership of its outstanding stock as are required by § 1.852–4 shall not be taxable as a regulated investment company.

(c) Nothing in this section or § 1.852–4 shall be construed to relieve regulated investment companies or their shareholders from the duty of filing information returns required by regulations prescribed under the provisions of subchapter A of chapter 61.

§ 1.853 *Statutory provisions; foreign tax credit allowed to shareholders.*

SEC. 853. *Foreign tax credit allowed to shareholders*—(a) *General rule.* A regulated investment company—

(1) More than 50 percent of the value (as defined in section 851 (c) (4)) of whose total assets at the close of the taxable year consists of stock or securities in foreign corporations, and

(2) Which meets the requirements of section 852 (a) for the taxable year,

may, for such taxable year, elect the application of this section with respect to income, war profits, and excess profits taxes described in section 901 (b) (1), which are paid by the investment company during such taxable year to foreign countries and possessions of the United States.

(b) *Effect of election.* If the election provided in subsection (a) is effective for a taxable year—

(1) The regulated investment company—

(A) Shall not, with respect to such taxable year, be allowed a deduction under section 164 (a) or a credit under section 901 for taxes to which subsection (a) is applicable, and

(B) Shall be allowed as an addition to the dividends paid deduction for such taxable year the amount of such taxes;

(2) Each shareholder of such investment company shall—

(A) Include in gross income and treat as paid by him his proportionate share of such taxes, and

(B) Treat as gross income from sources within the respective foreign countries and possessions of the United States, for purposes of applying subpart A of part III of subchapter N, the sum of his proportionate share of such taxes and the portion of any dividend paid by such investment company which represents income derived from sources within foreign countries or possessions of the United States.

(c) *Notice to shareholders.* The amounts to be treated by the shareholder, for purposes of subsection (b) (2), as his proportionate share of—

(1) Taxes paid to any foreign country or possession of the United States, and

(2) Gross income derived from sources within any foreign country or possession of the United States,

shall not exceed the amounts so designated by the company in a written notice mailed to its shareholders not later than 30 days after the close of its taxable year.

(d) *Manner of making election and notifying shareholders.* The election provided in subsection (a) and the notice to shareholders required by subsection (c) shall be made in such manner as the Secretary or his delegate may prescribe by regulations.

(e) *Cross references.* (1) For treatment by shareholders of taxes paid to foreign countries and possessions of the United States, see section 164 (a) and section 901.

(2) For definition of foreign corporation, see section 7701 (a) (5).

§ 1.853–1 *Foreign tax credit allowed to shareholders*—(a) *In general.* Under section 853, a regulated investment company, meeting the requirements set forth in paragraph (b) of this section, may make an election with respect to the income, war-profits, and excess profits taxes which it pays to foreign countries or possessions of the United States during the taxable year, including taxes which are deemed paid by it under the provisions of any income tax convention to which the United States is a party. If an election is made, the shareholders of the regulated investment company shall apply their proportionate share of such foreign taxes paid, or deemed to have been paid by it pursuant to any income tax convention, as either a credit (under section 901) or as a deduction (under section 164 (a)) as provided by section 853 (b) (2). The election is not applicable with respect to taxes deemed to have been paid under section 902 (relating to the credit allowed to corporate stockholders of a foreign corporation for taxes paid by such foreign corporation).

(b) *Requirements.* To qualify for the election provided in section 853 (a), a regulated investment company (1) must have more than 50 percent of the value of its total assets, at the close of the taxable year for which the election is made, invested in stocks and securities of foreign corporations, and (2) must also for that year, comply with the dividend distribution requirement prescribed in section 852 (a). The term "value", for purposes of the first requirement, is defined in section 851 (c) (4). For the definition of foreign corporation, see section 7701 (a).

§ 1.853–2 *Effect of election*—(a) *The regulated investment company.* A regulated investment company making a valid election with respect to a taxable year, under the provisions of section 853 (a) is, for such year, denied both the deduction for foreign taxes provided by section 164 (a) and the credit for foreign taxes provided by section 901 with respect to all income, war-profits, and excess profits taxes which it has paid to any foreign country or possession of the United States. The investment company, however, is permitted to add the amount of such foreign taxes paid to its dividends-paid deduction for that taxable year.

(b) *Shareholder.* A shareholder of an investment company, which has made the election under section 853, is, in effect, placed in the same position as a person directly owning stock in foreign corporations, in that he must include in his gross income (in addition to taxable dividends actually received) his proportionate share of such foreign taxes paid and must treat such amount as foreign taxes paid by him for the purposes of the deduction under section 164 (a) and the credit under section 901. For such purposes he must treat as gross income from a foreign country or possession of the United States (1) his proportionate share of the taxes paid by the regulated investment company to such foreign country or possession and (2) the portion of any dividend paid by the investment company which represents income derived from such sources.

(c) *Dividends paid after the close of the taxable year.* For additional rules applicable to certain distributions made after the close of the taxable year which may be designated as income received from sources within and taxes paid to foreign countries or possessions of the United States, see § 1.855–1.

(d) *Example.* This section may be illustrated as follows:

(1) The X Corporation, a regulated investment company, has total assets, at the close of the taxable year, of $10 million invested as follows:

Domestic corporations		$4,000,000
Foreign corporations in—		
Country A	$3,500,000	
Country B	2,500,000	
		6,000,000
Total assets		10,000,000

(2) The dividend income of X Corporation is received from the following sources:

Domestic corporations		$300,000
Foreign corporations—		
Country A	$250,000	
Country B	250,000	
		500,000
Total dividend income		800,000
Taxes withheld by Country A on dividends of $250,000 at a rate of 10 percent	$25,000	
Taxes withheld by Country B on dividends of $250,000 at a rate of 20 percent	50,000	
Total foreign taxes withheld		75,000
Dividend income after foreign taxes withheld		725,000
Operation and management expenses		80,000
Income available for distribution		645,000

(3) X Corporation has 250,000 shares of common stock outstanding and distributes the entire $645,000 as a dividend of $2.58 per share of stock.

(4) The X Corporation meets the 50 percent requirement of section 851 (b) (4) and the distribution requirements of section 852 (a) (1). It notifies each shareholder by mail, within the time prescribed by section 853 (c), that by reason of the election they are to treat as foreign taxes paid $0.30 per share of stock ($75,000 of foreign taxes paid, divided by the 250,000 shares of stock outstanding), of which $0.20 represents taxes paid to Country B and $0.10 taxes paid to Country A. The shareholders must report as income $2.88 per share ($2.58 of dividends actually received plus the $0.30 representing foreign taxes paid). Of the $2.88, $1.80 (which represents such part of the total dividend paid as the foreign dividend income bears to the total dividend income, i. e., 500,000/800,000 x 645,000) is to be considered as received from foreign sources. Ninety cents is to be considered as received from Country A, and ninety cents from Country B.

§ 1.853–3 *Notice to shareholders.* For the purposes of section 853, the amount that a shareholder may treat as his proportionate share of foreign taxes paid and the amount to be included as gross income derived from any foreign country or possession of the United States shall not exceed the amounts so designated by the company in a written notice to the shareholder mailed not later than 30 days after the close of the company's taxable year. If the company receives income from any foreign country or possession of the United States, the notice must designate the shareholder's portion of foreign taxes paid to each such country or possession and the portion of the dividend which represents income derived from sources within each such country or possession. The shareholder may not claim an amount greater than that designated by the company as his share of foreign taxes paid to any foreign country and possession. If, however, the amount designated by the company in the notice exceeds the shareholder's proper share of foreign taxes on gross income with respect to any foreign country or possession, the shareholder is limited to the amount correctly ascertained.

§ 1.853–4 *Manner of making election*—(a) *General rule.* A regulated investment company, to make a valid election under section 853, must—

(1) File with Form 1099 and Form 1096 a statement as part of its return which sets forth the following information:

(i) The total amount of income received from sources within foreign countries and possessions of the United States;

(ii) The total amount of income, war-profits, or excess-profits taxes paid (or deemed to have been paid under the provisions of any treaty to which the United States is a party) to such foreign countries or possessions;

(iii) The date, form, and contents of the notice to its shareholders;

(iv) The proportionate share of such taxes paid during the taxable year and foreign income received during such year attributable to one share of stock of the regulated investment company; and

(2) File as part of its return for the taxable year a Form 1118 modified so that it becomes a statement in support of the election made by a regulated investment company for taxes paid to a foreign country or a possession of the United States.

(b) *Irrevocability of the election.* The election is applicable only with respect to taxable years subject to the Internal Revenue Code of 1954, shall be made with respect to all such foreign taxes, and must be made not later than the time prescribed for filing the return (including extensions thereof). Such election, if made, shall be irrevocable with respect to the dividend, or portion thereof, to which it applies.

§ 1.854 *Statutory provisions; limitations applicable to dividends received from regulated investment company.*

SEC. 854. *Limitations applicable to dividends received from regulated investment company*—(a) *Capital gain dividend.* For purposes of section 34 (a) (relating to credit for dividends received by individuals), section 116 (relating to an exclusion for dividends received by individuals), and section 243 (relating to deductions for dividends received by corporations), a capital gain dividend (as defined in section 852 (b) (3)) received from a regulated investment company shall not be considered as a dividend.

(b) *Other dividends*—(1) *General rule.* In the case of a dividend received from a regulated investment company (other than a dividend to which subsection (a) applies)—

(A) If such investment company meets the requirements of section 852 (a) for the taxable year during which it paid such dividend; and

(B) The aggregate dividends received by such company during such taxable year are less than 75 percent of its gross income,

then, in computing the credit under section 34 (a), the exclusion under section 116, and the deduction under section 243, there shall be taken into account only that portion of the dividend which bears the same ratio to the amount of such dividend as the aggregate dividends received by such company during such taxable year bear to its gross income for such taxable year.

(2) *Notice to shareholders.* The amount of any distribution by a regulated investment company which may be taken into account as a dividend for purposes of the credit under section 34, the exclusion under section 116, and the deduction under section 243 shall not exceed the amount so designated by the company in a written notice to its shareholders mailed not later than 30 days after the close of its taxable year.

(3) *Definitions.* For purposes of this subsection—

(A) The term "gross income" does not include gain from the sale or other disposition of stock or securities.

(B) The term "aggregate dividends received" includes only dividends received from domestic corporations other than dividends described in section 116 (b) (relating to dividends excluded from gross income). In determining the amount of any dividend for purposes of this subparagraph, the rules provided in section 116 (c) (relating to certain distributions) shall apply.

§ 1.854–1 *Limitations applicable to dividends received from regulated investment company.* Section 854 provides special limitations applicable to the credit under section 34 and the exclusion under section 116 for dividends received by individuals, and the deduction under section 243 for dividends received by corporations.

(a) *Capital gain dividend.* Under the provisions of section 854 (a) the credit provided by section 34 for dividends received by individuals, the exclusion provided by section 116 for dividends received by individuals, and deduction provided by section 243 for dividends received by corporations, are not applicable with respect to a capital gain dividend (as defined in section 852 (b) (3)) received from a regulated investment company.

(b) *Rule for dividends other than capital gain dividends.* (1) Section 854 (b) (1) limits the amount that may be treated as a dividend by the shareholder of a regulated investment company, for the purposes of the credit, exclusion, and deduction specified in paragraph (a) of this section, where the investment company receives substantial amounts of income from sources other than dividends from domestic corporations, which dividends qualify for the exclusion under section 116 (such as interest, etc.).

(2) Where the "aggregate dividends received" (as defined in section 854 (b) (3)) during the taxable year by a regulated investment company (which meets the requirements of section 852 (a) for the taxable year during which it pays such dividend) are less than 75 percent of its gross income, only that portion of the dividend paid by the regulated investment company which bears the same ratio to the amount of such dividend paid as the aggregate dividends received by the regulated investment company, during such taxable year, bears to its gross income (computed without regard to gains from the sale or other disposition of stocks or securities) may be treated as a dividend for purposes of such credit, exclusion, and deduction.

(3) Subparagraph (2) of this paragraph is illustrated by the following example:

Example. The XYZ regulated investment company meets the requirements of section 852 (a) for the taxable year and has received income from the following sources:

Capital gains (from the sale of stock or securities)	$100,000
Dividends (from domestic sources other than dividends described in section 116 (b))	70,000
Dividend (from foreign corporations)	5,000
Interest	25,000
Total	200,000
Expenses	20,000
Taxable income	180,000

The regulated investment company decides to distribute the entire $180,000. It distributes a capital gain dividend of $100,000 and a dividend of ordinary income of $80,000. The aggregate dividends received by the regulated investment company from domestic corporations ($70,000) is less than 75 percent of its gross income ($100,000) computed without regard to capital gains from sales of securities. Therefore, an apportionment is required. The amount of the total distribution available for the credit, exclusion, or deduction would be determined in the following manner:

$$\frac{\$70,000}{\$100,000} \times \$80,000 = \$56,000$$

Therefore, out of every $1 dividend of ordinary income paid by the regulated investment company only 70 cents would be available for the credit, exclusion, or deduction referred to in section 854 (b). The capital gains dividend is excluded from the computation.

(c) *Taxable years of a regulated investment company ending after July 31, 1954, and subject to the Internal Revenue Code of 1939.* For the application of this section to taxable years of a regulated investment company ending after July 31, 1954, and subject to the Internal Revenue Code of 1939, see §§ 1.34–5 and 1.116–2.

§ 1.854–2 *Notice to shareholders.* Section 854 (b) (2) provides that the amount that a shareholder may treat as a dividend for purposes of the credit for dividends received by individuals provided by section 34 (a), the exclusion for dividends received by individuals provided by section 116, and the deduction for dividends received by corporations provided by section 243, shall not exceed the amount so designated by the company in a written notice to its shareholders mailed not later than 30 days after the close of the company's taxable year. The shareholder may not treat as a dividend an amount greater than that designated by the company as his dividend for the purpose of such credit, exclusion, or deduction. If, however, the amount so designated by the company in the notice exceeds the amount which may be treated by the shareholder as a dividend for such purposes, the shareholder is limited to the amount as correctly ascertained under section 854 (b) (2).

§ 1.854–3 *Definitions.* (a) For the purpose of computing the limitation prescribed by section 854 (b) (1) (B), the term "gross income" does not include gain from the sale or other disposition of stock or securities. However, capital gains arising from the sale or other disposition of capital assets, other than stock or securities, shall not be excluded from gross income for this purpose.

(b) The term "aggregate dividends received" includes only dividends received from domestic corporations other than dividends described in section 116 (b) (relating to dividends excluded from gross income). Accordingly, dividends received from foreign corporations will not be included in the computation of "aggregate dividends received". In determining the amount of any dividend for purposes of this section, the rules provided in section 116 (c) (relating to certain distributions) shall apply.

§ 1.855 *Statutory provisions; dividends paid by regulated investment company after close of taxable year.*

SEC. 855. *Dividends paid by regulated investment company after close of taxable year*—(a) *General rule.* For purposes of this chapter, if a regulated investment company—

(1) Declares a dividend prior to the time prescribed by law for the filing of its return for a taxable year (including the period of any extension of time granted for filing such return), and

(2) Distributes the amount of such dividend to shareholders in the 12-month period following the close of such taxable year and not later than the date of the first regular dividend payment made after such declaration,

the amount so declared and distributed shall, to the extent the company elects in such return in accordance with regulations prescribed by the Secretary or his delegate, be considered as having been paid during such taxable year, except as provided in subsections (b), (c) and (d).

(b) *Receipt by shareholder.* Amounts to which subsection (a) is applicable shall be treated as received by the shareholder in the taxable year in which the distribution is made.

(c) *Notice to shareholders.* In the case of amounts to which subsection (a) is applicable, any notice to shareholders required under this subchapter with respect to such amounts shall be made not later than 30 days after the close of the taxable year in which the distribution is made.

(d) *Foreign tax election.* If an investment company to which section 853 is applicable for the taxable year makes a distribution as provided in subsection (a) of this section, the share holders shall consider the amounts described in section 853 (b) (2) allocable to such distribution as paid or received, as the case may be, in the taxable year in which the distribution is made.

§ 1.855–1 *Dividends paid by regulated investment company after close of taxable year*—(a) *General rule.* In—

(1) Determining under section 852 (a) whether the deduction for dividends paid during the taxable year (without regard to capital gain dividends) by a regulated investment company equals or exceeds 90 percent of its investment company taxable income,

(2) Computing its investment company taxable income, and

(3) Determining the amount of capital gain dividends paid during the taxable year,

any dividend (or portion thereof) declared by the investment company before the time prescribed by law for the filing of its return for the taxable year (including the period of any extension of time granted for filing such return) shall, to the extent the company so elects in such return, be treated as having been paid during such taxable year. This rule is applicable only if distribution of the entire amount of such dividend is actually made to the shareholders in the 12-month period following the close of such taxable year and not later than the date of the first regular dividend payment made (with respect to income of the next taxable year) after such declaration.

(b) (1) *Method of making election.* The election must be made in the return filed by the company for the taxable year. The election shall be made by the taxpayer (the regulated investment company) by treating the dividend (or portion thereof) to which such election applies as a dividend paid during the taxable year in computing its investment company taxable income, or if the dividend (or portion thereof) to which such election applies is to be designated by the company as a capital gain dividend, in computing the amount of capital gain dividends paid during such taxable year. The election provided in section 855 (a) may be made only to the extent that the earnings and profits of the taxable year (computed with the application of section 852 (c)) exceed the total amount of distributions out of such earnings and profits actually made during the taxable year (not including distributions with respect to which a prior election has been made under section 855 (a)). The dividend or portion thereof, with respect to which the regulated investment company has made a valid election under section 855 (a), shall be considered as paid out of the earnings and profits of the taxable year for which such election is made, and not out of the earnings and profits of the taxable year in which the distribution is actually made.

(2) *Irrevocability of the election.* After the expiration of the time for filing the return for the taxable year for which an election is made under section 855 (a), such election shall be irrevocable with respect to the dividend or portion thereof to which it applies.

(c) *Receipt by shareholders.* Under section 855 (b), the dividend or portion thereof, with respect to which a valid election has been made, will be includible in the gross income of the shareholders of the regulated investment company for the taxable year in which the dividend is received by them.

(d) *Examples.* The application of paragraphs (a), (b) and (c) of this section may be illustrated by the following examples:

Example (1). The X Company, a regulated investment company, had taxable income (and earnings or profits) for the calendar year 1954 of $100,000. During that year the company distributed to shareholders taxable dividends aggregating $88,000. On March 10, 1955, the company declares a dividend of $37,000 payable to shareholders on March 20, 1955. Such dividend consists of the first regular quarterly dividend for 1955 of $25,000 plus an additional $12,000 representing that part of the taxable income for 1954 which was not distributed in 1954. On March 15, 1955, the X Company files its Federal income tax return and elects therein to treat $12,000 of the total dividend of $37,000 to be paid to shareholders on March 20, 1955, as having been paid during the taxable year 1954. Assuming that the X Company actually distributes the entire amount of the dividend of $37,000 on March 20, 1955, an amount equal to $12,000 thereof will be treated for the purposes of section 852 (a) as having been paid during the taxable year 1954. Such amount ($12,000) will be considered a distribution out of the earnings and profits of the company for the taxable year 1954, and will be treated as a taxable dividend to the shareholders for the taxable year in which such distribution is received by them.

Example (2). The Y Company, a regulated investment company, had taxable income (and earnings or profits) for the calendar year 1954 of $100,000, and for 1955 taxable income (and earnings or profits) of $125,000. On January 1, 1954, the company had a deficit in its earnings and profits accumulated since February 28, 1913, of $115,000. During the year 1954 the company distributed to shareholders taxable dividends aggregating $85,000. On March 5, 1955, the company declares a dividend of $65,000 payable to shareholders on March 31, 1955. On March 15, 1955, the Y Company files its Federal income tax return in which it includes $40,000 of the total dividend of $65,000 to be paid to shareholders on March 31, 1955, as a dividend paid by it during the taxable year 1954. On March 31, 1955, the Y Company distributes the entire amount of the dividend of $65,000 declared on March 5, 1955. The election under section 855 (a) is valid only to the extent of $15,000, the amount of the undistributed earnings and profits for 1954. The remainder ($50,000) of the dividend paid on March 31, 1955, may not be the subject of an election, but such amount will be regarded as a distribution by the Y Company for the taxable year 1955. Assuming that the only other distribution by the Y Company during 1955 is a distribution of $75,000 paid as a dividend on October 31, 1955, the total amount of the distribution of $65,000 paid to shareholders on March 31, 1955, is to be treated as taxable dividends to the shareholders. Of this amount, $15,000 is to be treated by the company as distributed out of the earnings or profits of the company for the taxable year 1954, and the remaining $50,000 as the distribution out of the earnings or profits for the year 1955. The distribution of $75,000 on October 31, 1955, is, of course, a taxable dividend out of the earnings and profits for the year 1955.

(e) *Notice to shareholders.* Section 855 (c) provides that in the case of dividends, with respect to which a regulated investment company has made an election under section 855 (a), any notice to shareholders required under subchapter M, with respect to such amounts, shall be made not later than 30 days after the close of the taxable year in which the distribution is made. Thus, the notice requirements in § 1.852–2 (b) with respect to capital gain dividends, § 1.853–3 with respect to allowance to shareholder of foreign tax credit, and § 1.854–2 with respect to allowance of credit for dividends received, may be satisfied if the notice is mailed to the shareholders not later than 30 days after the close of the taxable year in which the distribution is made. If the notice under section 855 (c) relates to an election with respect to any capital gain dividends, such capital gain dividends shall be aggregated by the investment company with the designated capital gain dividends actually paid during such taxable year (not including such dividends with respect to which a prior election has been made under section 855) for the purpose of determining whether the aggregate of the designated capital gain dividends with respect to such taxable year of the company is greater than the excess of the net long-term capital gain over the net short-term capital loss of the company.

(f) *Foreign tax election.* Section 855 (d) provides that in the case of an election made under section 853 (relating to foreign taxes), the shareholder of the investment company shall consider the foreign income received, and the foreign tax paid, as received and paid, respectively, in the shareholder's taxable year in which distribution is made.

NOTICES

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service and Commodity Credit Corporation

Agreement With American Sheep Producers Council, Inc.

Notice of Referendum Among Producers and Procedure for Conduct of Such Referendum

Unless otherwise prescribed by the Secretary of Agriculture, the following procedure will be applicable to the producer's referendum held for the purpose of determining whether an agreement entered into by the Secretary of Agriculture with the American Sheep Producers Council, Inc., as of March 17, 1955, for an advertising and sales promotion program is approved by producers pursuant to section 708 of the National Wool Act of 1954 (68 Stat. 912, 7 U. S. C. 1787).

1. *Definitions.* For the purpose of this notice, the following terms shall have the following meaning.

(a) *ASC County Committee.* The group of persons elected within a county as the County Committee pursuant to the regulations governing the election and functioning of the County Agricultural Stabilization and Conservation Committees.

(b) *ASC State Committee.* The group of persons designated within any State to act as the State Agricultural Stabilization and Conservation Committee.

(c) *Cooperative association.* An incorporated group of producers which (1) is operated for the mutual benefit of its members as producers; (2) markets the members' sheep or wool; (3) does not deal in sheep and wool for non-members to an amount greater in value than the amount representing the value of sheep and wool handled by the association for members, and (4) permits every member to have only one vote irrespective of the amount of stock or membership capital he may own in the association.

(d) *Deputy Administrator.* The Deputy or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(e) *Eligible voter.* A producer who had an interest, as owner or part owner, in one or more sheep at least six months old, continuously for any one period of 30 consecutive days between the beginning of the current calendar year and the day on which his ballot was cast. Such a voter is also referred to hereinafter as an "individual voter." A cooperative association may cast one vote for the eligible producers who are members of, stockholders in, or have a contract with the association to market their sheep or wool during the current marketing year (April 1 to March 31).

(f) *Individual voter.* See paragraph (e).

(g) *Producer.* An individual, partnership, corporation, association, business trust, or any organized unincorporated group of persons, or a state or any subdivision thereof, having an interest as owner or part owner of sheep.

(h) *Secretary of Agriculture.* The Secretary or Acting Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

2. *Agreement considered in this referendum.* The agreement considered in this referendum was entered into by the Secretary of Agriculture with the American Sheep Producers Council, Inc., a non-profit membership corporation organized under the laws of the State of Illinois, as of March 17, 1955, for the purpose of developing and conducting an advertising and sales promotion program for wool, sheep, and products thereof, subject to the determination by the Secretary that the agreement has the approval of the producers as provided in section 708 of the National Wool Act of 1954 (68 Stat. 912, 7 U. S. C. 1787). The agreement reads as follows:

Agreement

Made as of the 17th day of March 1955, between the United States Secretary of Agriculture, Department of Agriculture, Washington 25, D. C. (hereinafter referred to as Secretary), and the American Sheep Producers Council, Inc. (hereinafter referred to as Council), a non-profit, membership corporation organized under the laws of the State of Illinois.

Witnesseth:

Whereas, the Secretary, pursuant to the National Wool Act of 1954 (Title VII of the Agricultural Act of 1954, 68 Stat. 897), hereinafter referred to as the "Act," has announced a price support program for wool marketed during the marketing year April 1, 1955, to March 31, 1956, by means of payments to be made by the Commodity Credit Corporation to the producers of such wool as soon as practicable after the close of such marketing year:

Whereas, it is anticipated that similar programs will be instituted for subsequent marketing years under the Act;

Whereas, Section 708 of the Act authorizes the Secretary to enter into agreements with marketing cooperatives, trade associations or other organizations engaged or whose members are engaged in the handling of wool, sheep and the products thereof for the purpose of developing and conducting on a National, State, or a regional basis advertising and sales promotion program for wool, sheep, and the products thereof;

Whereas, it is desirable that there be instituted an advertising and sales promotion program or programs beneficial on a National basis, for wool, sheep, and products thereof to be financed by pro rata deductions from such price support payment to wool producers; and

Whereas, the Council is qualified to conduct such a program, being so organized, having the necessary powers under its charter and by-laws, having for its members marketing cooperatives and other associations who are engaged in or whose members are engaged in handling wool, sheep and products thereof, and who are represented at meetings of the Council's membership by wool and sheep producers selected on a basis affording nationwide representation, and having a Board of Directors who also are producers of wool and sheep selected to afford nationwide representation;

Now, therefore, the parties hereto agree as follows:

1. This agreement shall become effective only upon determination by the Secretary that this agreement has approval of the producers as provided in Section 708 of the Act. The Secretary will notify the Council in writing as to whether the producers have approved this agreement and as of what day the agreement shall become effective, such effective date to be not later than the 20th day after the date of the notification.

2. The Council shall, from time to time, develop and submit to the Secretary for approval advertising and sales promotion programs and supporting budgets for wool and lambs and the products thereof and such amendments thereto as may be needed. Each such submission shall describe, among other things, the plan of operation and the benefits to be derived on a National basis by producers, commodities to be promoted, the proposed media and methods which the Council intends to use in advertising and otherwise promoting (including related educational and developmental activities) the sale of wool and lambs and the products thereof. After such program and budget have been approved by the Secretary, and in accordance therewith, the Council will enter into such agreements with advertising and promotional agencies, radio and television stations and others, will employ such personnel and will take such other action as the Council deems appropriate or necessary to effectuate such program.

3. When price support payments are made to producers pursuant to the Act, the Secretary will make a pro rata deduction from such payments and pay the amount so deducted to the Council in order to provide the funds necessary to defray the expenses of the Council incurred pursuant to this agreement: *Provided, however,* That deductions will only be made from payments, if any, which are made to producers for marketings during the marketing years beginning April 1, 1955, and ending March 31, 1959. The deductions from payments for marketings during the marketing year April 1, 1955–March 31, 1956, shall be at the rate of one cent per pound of shorn wool marketed, and shall be made at a comparable rate as determined by the Secretary on lambs and yearlings (pulled wool) marketed; thereafter the deductions shall be at such rates as the Secretary and Council may agree upon, but in no event shall be in excess of a rate of one cent per pound in the case of shorn wool marketed and a comparable rate in the case of lambs and yearlings marketed, as determined by the Secretary.

4. The charter and by-laws of the Council having been approved by the Secretary, any amendments or additions to the charter or by-laws shall be subject to his approval.

5. The Council shall submit annually for the approval of the Secretary proposed budgets for the administration of the advertising and sales promotion programs and, from time to time, any amendments thereto that it may determine to be necessary.

6. The Council shall furnish the Secretary with a report of its activities semi-annually beginning with the period in which the Council either receives any funds from the Secretary under this agreement or undertakes obligations as part of its advertising and sales promotion program, whichever event is the earlier. Such reports shall be furnished within 15 days following the close of each such period. On or before September 15, 1956, and each September 15th thereafter during the life of this agreement, the Council shall furnish a statement of assets and liabilities to the Secretary as of the preceding June 30th. The Council shall also furnish the Secretary with such other reports and with such information as he may from time to time request. The Council shall keep accurate records of all its transactions, and these records shall be subject to inspection and audit by representatives of the Secretary at all times during regular business hours after the date of this agreement and for three years after the Council has completed performance of all contracts made and obligations incurred.

7. This agreement shall terminate June 30, 1962, unless extended by agreement of the parties hereto. Prior to such date, either party may terminate this agreement by delivering, or mailing by registered mail, a written notice of such termination effective on the date to be specified therein, but not earlier than 30 days after giving of such notice. If the Secretary, on or after April 1, 1956, upon petition or referendum of the wool producers, or otherwise, determines that this Agreement is no longer favored by the requisite number of producers, he shall so declare and no deductions from payments to producers shall thereafter be made to defray expenses of the Council, under this agreement, except deductions from such payments as are being made in connection with marketings of a prior marketing year.

8. Upon termination of this agreement, if all the funds of the Council were derived from the payments pursuant to this agreement, all such funds remaining unobligated in the hands of the Council shall be returned to the Secretary of Agriculture, together with a statement explaining the various items which entered into the amount returned to the Secretary; if the Council received funds for advertising and promotion purposes, and general administrative purposes from other sources than the Secretary acting pursuant to this agreement, the Council shall return to the Secretary the same proportion of the unobligated funds as the funds contributed by the Secretary bore to all funds received by the Council for these advertising and sales promotion programs and general administrative purposes. A statement of the assets and liabilities of the Council shall be furnished to the Secretary within 60 days after such termination becomes effective. The provision with respect to the return of unobligated funds shall also apply in case of dissolution or liquidation of the affairs of the Council.

9. The authority reserved to the Secretary under the provisions of this agreement may be exercised by an official or officials of the Department of Agriculture designated by him for such purpose.

3. *Agencies conducting referendum.* The Deputy Administrator shall be in charge of conducting this referendum. Each ASC State Committee shall be in charge of conducting the referendum in its state and each ASC County Committee shall be in charge of conducting the referendum in its county. The referendum shall be conducted in a fair and impartial manner.

4. *Period of referendum.* The period of this referendum will be from June 27, 1955, to August 19, 1955, both dates inclusive.

5. *Notice of referendum.* The ASC State and County Committees will give public notice of the time and place of balloting in the referendum by mailing ballots, as stated hereinafter under "6", and by other available means (without incurring advertising expense) including but not limited to such media of public information as newspapers, radio, etc.

6. *Voting*—(a) *Mailing of ballots to eligible voters.* Each ASC County Office will mail ballots to all producers, of whom the committee has knowledge, having ranch or farm headquarters located in its county. Similarly, each ASC State Office will mail ballots to all cooperative associations, of whom the committee has knowledge, having headquarters located in its state. Such ballots will be mailed as promptly as possible but not later than August 1, 1955. The mailing of a ballot is not a determination of eligibility to vote and if a producer or cooperative association has not received a ballot, one can be obtained in the ASC State and County Office upon request of a producer or association.

(b) *Place of voting.* The ASC County Office serving the county in which a producer's farm or ranch headquarters is located will be his polling place. For a cooperative association, the polling place will be the ASC State Office serving the state in which the headquarters of the association is located. A ballot may be cast by personal delivery or mailing of the ballot to the polling place on or before August 19, 1955. The date of the postmark will be considered the date of mailing.

(c) *Manner of voting*—(1) *Individual voter.* An eligible producer may cast only one vote irrespective of the number of sheep which he may own in the county wherein he votes or elsewhere. The ballot shall be on CCC Wool Form 52 and shall be delivered or mailed to the appropriate polling place not later than August 19, 1955.

(2) *Cooperative association.* A cooperative association may cast only one vote. This vote shall be cast for all eligible producers who are members of, stockholders in, or under contract with the association to market their sheep or wool during the marketing year April 1, 1955, through March 31, 1956, and this vote shall cover all sheep, six months of age or older, owned by such producers continuously for any one period of 30 consecutive days since January 1, 1955. A ballot cast by a cooperative association must be accompanied by a certified copy of the association's charter and bylaws, a certified copy of the resolution adopted by the Board of Directors of the association authorizing such ballot, and a certified list, in duplicate, of all producers, otherwise eligible to vote, who are members of, stockholders in, or have contracts with the association to market their sheep or wool during the marketing year April 1, 1955, through March 31, 1956. This list shall be broken down by counties and shall enumerate such producers in each county in alphabetical order, showing the name and address of each producer; the number of sheep, six months of age or older, totally and continuously owned by each for any one period of 30 consecutive days since January 1, 1955; and the number and percentage of ownership in sheep, six months of age or older; partially and continuously owned by each for any one period of 30 consecutive days since January 1, 1955. After an ASC State Office receives the ballot and determines that the association is qualified and has been authorized by its Board of Directors to vote in this referendum, the ASC State Office will transmit to the ASC County Offices in its state the lists of producers with farm or ranch headquarters located in the respective counties, received from the association, together with a statement showing whether the association votes in favor or not in favor of the agreement. The ASC State Office will also transmit, to the respective State ASC Offices, the lists of producers with farm or ranch headquarters located in other states, received from the association, together with a statement that such association is qualified to vote for such producers and whether such association votes in favor of or not in favor of the agreement.

7. *Challenge of ballots.* A ballot may be challenged on the basis of the knowledge of any ASC State, County, or Community Committeeman; employee of an ASC State or County Office; or on the basis of a challenge made by any other person. A determination shall be made by the ASC County Committee in connection with each challenged ballot, and that determination shall cover all questions as to the eligibility of an individual voter and the accuracy of the number of sheep represented by a voter before a challenged ballot is either counted or declared invalid. If two or more cooperative associations cast ballots for the same producer, and the ballots take the same position with reference to the agreement which is the subject of the referendum, the producer's vote will be counted only once. If they take different positions his vote will not be counted.

8. *Canvass of ballots.* The ASC County Committees will make a count of the eligible voting producers, determining (a) the number of eligible voting producers favoring the agreement and number of sheep represented by them, (b) the number of eligible producers disapproving of the agreement and the number of sheep represented by them, and (c) the number of voting producers found to be ineligible. All ballots shall be treated as confidential and the contents of the ballots shall not be divulged, except as provided herein or as the Secretary may direct.

9. *Reporting results of referendum.* Each ASC County Office will transmit a written summary of the results of the referendum in its county to its ASC State Office. Each ASC State Office will transmit a written summary of the referendum results received from the ASC County Offices within its state to the Director of the Livestock and Dairy Division, CSS, Washington, D. C., and maintain one copy of the summary in the ASC State Office where it shall be available for public inspection for a period of 5 years following the end of the referendum period. The Director of the Livestock and Dairy Division, Commodity Stabilization Service, shall prepare and submit to the Secretary a report as to the results of the referendum.

10. *Additional instructions and forms.* The Deputy Administrator is hereby authorized to prescribe additional instructions and forms not inconsistent with the provisions hereof to govern the procedure to be followed in the conduct of this referendum.

(Sec. 708, 68 Stat. 912; 7 U. S. C. 1787)

Done at Washington, D. C., this 22d day of June 1955.

Secretary of Agriculture.

FEDERAL POWER COMMISSION

[Docket No. G–8527]

LONE STAR GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 20, 1955.

Take notice that Lone Star Gas Company (Applicant), a Texas corporation with a principal office in Dallas, Texas, filed on February 28, 1955, an application for a certificate of public convenience and necessity and supplementary data thereto on April 4, 1955, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to construct and operate facilities and service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate facilities described in items 1 thru 6 and 10 and operate facilities described in items 7, 8 and 9, as follows:

1. Approximately 2,115 feet of 2-inch Line E–5–1 and a measuring and regulating station extending from a point on Line E–5 to the City of Achille, Bryan County, Oklahoma.

2. Approximately 7 feet of 6-inch Line E–5–2 and a measuring and regulating station at the City of Durant, Bryan County, Oklahoma.

3. Approximately 11,493 feet of 2-inch Line E–5–3 extending from a point on Line E–5 to Lone Star's General Distribution Division's measuring and regulating station for the Excell Body Works near Durant, Bryan County, Oklahoma.

4. Approximately 15,587 feet of 3-inch Line E–5–4 and a measuring and regulating station extending from Line E–5 to the City of Calera, Bryan County, Oklahoma.

5. Approximately 196 feet of 3-inch Line EA–1 and a measuring and regulating station at the City of Colbert, Bryan County, Oklahoma.

6. Approximately 59,383 feet of 4-inch Line E–5, and a measuring and regulating station, extending from the Durant tap (Paragraph 2 above) to the City of Caddo, Bryan County, Oklahoma.

7. Approximately 45.45 miles of 14-inch Line S–2, and a dehydration plant, extending from the Carthage Cycling Plant, Panola County, Texas to the junction with Line S2–B in Smith County, Texas.

8. Approximately 19.93 miles of 12-inch Line S2–B from the junction in (7) above to the junction with Line 0 in Smith County, Texas.

9. Approximately 42.7 miles of 12-inch Line 0 from the junction in (8) above to Crush Junction, Hopkins County, Texas.

10. A permanent connection between Line 0–33–10" and Line 0–12 at Crush Junction, Texas consisting of approximately 37 feet of 10-inch pipeline and 10 feet of 6-inch pipeline and related facilities.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 14, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of §§ 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 1, 1955. Failure of any party to appear at and participate in the hearing shall be construed as a waiver of and concurrence in omission herein of

the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-8850]

MISSOURI UTILITIES CO.

NOTICE OF APPLICATION

JUNE 20, 1955.

Take notice that Missouri Utilities Company (Applicant), a Missouri Corporation, filed an application on May 3, 1955, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Panhandle Eastern Pipe Line Company (Panhandle) to establish a physical connection of its Jefferson City lateral with the facilities proposed to be constructed by Applicant and to sell natural gas to Applicant for local distribution to the public in the City of California, Missouri and its environs.

The point of interconnection with Panhandle's facilities is proposed to be located 4.2 miles northeast of the City of California.

Applicant is an existing customer of Panhandle and states that the volume of gas it seeks for service to the City of California may be presently included in the amount of gas allocated to it for use in the City of Columbia, Missouri. The peak day volume required is estimated to be 260 Mcf per day for the first year of operation and 900 Mcf per day for the fifth year.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of July 1955. The application is on file with the Commission for public inspection.

[Docket Nos. G-8888, G-8939, G-8962, G-8963]

CITY OF LA CENTER, KY., ET AL.

NOTICES OF APPLICATIONS

JUNE 20, 1955.

In the matters of City of La Center, Kentucky, Docket No. G-8888, City of Bardwell, Kentucky, Docket No. G-8939, City of Wickliffe, Kentucky, Docket No. G-8962, Lake County Utility District, Docket No. G-8963.

Take notice that applications have been filed by the City of La Center, Kentucky, at Docket No. G-8888, the City of Bardwell, Kentucky, at Docket No. G-8939, the City of Wickliffe, Kentucky, at Docket No. G-8962, and Lake County Utility District, at Docket No. G-8963 for orders directing Trunkline Gas Company (Trunkline) to establish and maintain physical connection of its transportation facilities with natural gas systems proposed to be constructed by the respective applicants and to sell natural gas to said applicants for local distribution to the public.

The application of the City of La Center, Kentucky (La Center), a municipal corporation, was filed on May 11, 1955. The main line of Trunkline is stated to be located 2.8 miles from La Center's corporate limits and La Center proposes to interconnect its facilities with those of Trunkline at said point through the construction of a 3-inch transmission line. Its annual natural gas requirements are estimated to be 35,246 Mcf for the first year of operation and 43,554 Mcf for the third year. Its first year peak day requirements are estimated to be 317.8 Mcf, while its third year peak day requirements are estimated to be 436.3 Mcf.

The application of the City of Bardwell, Kentucky (Bardwell), a municipal corporation, was filed on May 23, 1955. Bardwell proposes to interconnect its facilities with those of Trunkline through the construction of approximately 3.9 miles of 3-inch transmission line. Its annual natural gas requirements are estimated to be 42,083 Mcf for the first year of operation and 51,176 Mcf for the third year. Its first year peak day requirements are estimated to be 375.8 Mcf, while its third year peak day requirements are estimated to be 459.2 Mcf.

The application of the City of Wickliffe, Kentucky (Wickliffe), a municipal corporation, was filed on May 25, 1955. Wickliffe proposes to interconnect its facilities with those of Trunkline through the construction of approximately 9.3 miles of 3-inch transmission line. Its annual natural gas requirements are estimated to be 42,051 Mcf for the first year of operation and 70,004 Mcf for the third year. Its first year peak day requirements are estimated to be 372.6 Mcf, while its third year peak day requirements are estimated to be 549.2 Mcf.

The application of Lake County Utility District (Lake County), a public entity organized and existing under the laws of Tennessee, was filed on May 25, 1955. It is composed of a number of municipalities in Western Tennessee including Tiptonville, Ridgely, Wynnburg, Hornbeak, and Samburg. Lake County proposes to interconnect these communities and to attach its facilities to those of Trunkline through the construction of approximately 33 miles of 6-inch, 4-inch and 2½-inch transmission line. Its annual natural gas requirements are estimated to be 195,116 Mcf for the first year of operation and 330,826 Mcf for the third year. Its first year peak day requirements are estimated to be 1,318.2 Mcf, while its third year peak day requirements are estimated to be 2,226 Mcf.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before the 6th day of July, 1955. The application is on file with the Commission for public inspection.

Subchapter A—Marketing Orders

[Valencia Orange Reg. 41]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.341 *Valencia Orange Regulation 41*—(a) *Findings.* (1) Pursuant to Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on June 23, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., June 26, 1955, and ending at 12:01 a. m., P. s. t., July 3, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 415,800 boxes;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as

hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 22, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 26, 1955, and ending at 12:01 a. m., P. s. t., July 3, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 600 carloads;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Subchapter B—Prohibitions of Imported Commodities

[Amdt. 1]

PART 1067—AVOCADOS

AVOCADO REGULATION 2

Pursuant to the provisions of Section 8e of the Agricultural Marketing Agreement Act, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), paragraph (a) of § 1067.2 *Avocado Regulation No. 2* (20 F. R. 4149) is hereby amended to read as follows:

§ 1067.2 *Avocado Regulation No. 2.* (a) On and after the effective time of this section, the importation into the United States of any avocados is prohibited unless:

(1) The individual fruit in each lot of such avocados weigh at least 12 ounces: *Provided,* That not to exceed 10 percent, by count, of the individual fruit in each lot may weigh less than 12 ounces but not less than 10 ounces, and not to exceed double such tolerance percentage shall be permitted for an individual container in a lot if the entire lot is within the tolerance;

(2) Notwithstanding the provisions of subparagraph (1) of this paragraph, any person may import any lot of avocados if (i) the exterior seed coat of the individual fruit is of a brown color characteristic of a mature avocado, or (ii) such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature; and

(3) Each such importation is made in conformance with the general regulations (Part 1060 of this subchapter; 19 F. R. 7707, 8012) applicable to the importation of listed commodities and the requirements of this section.

Findings and determinations. (a) It is hereby determined, on the basis of the further information which is now available, that the requirements set forth in this amendment are comparable to the maturity regulation presently in effect for avocados grown in South Florida, which regulation was published in the FEDERAL REGISTER, issue of May 17, 1955 (§ 969.306; 20 F. R. 3427).

(b) It is hereby found that it is impracticable and contrary to the public interest to postpone the effective time of this amendment beyond that hereinafter specified (5 U. S. C. 1001 et seq.) because (1) this amendment of the existing import regulations is necessary to effectuate the purposes of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq; 68 Stat. 906, 1047); (2) compliance with this amendment to the avocado import restrictions will not require any special preparation which cannot be completed by the effective time; and (3) this amendment relieves restrictions on the importation of avocados into the United States.

(Sec. 401, 68 Stat. 907; 7 U. S. C. 608e)

Done at Washington, D. C., this 22d day of June, 1955, to become effective at 12:01 a. m., e. s. t., June 26, 1955.

Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 55-28]

OPERATIONS; TANK, PASSENGER, CARGO AND MISCELLANEOUS VESSELS

CHARTS ON FERRYBOATS AND OTHER RIVER VESSELS

These amendments to 46 CFR 35.20–1, 78.05–5 (a), and 97.05–5 (a), regarding the exemption of ferryboats and other river vessels from the requirement concerning the carrying of navigational charts and to require such charts on motorboats operating on the high seas reinstate former wording of the regulations which was inadvertently omitted editorially when the regulations were rewritten in 1952. The intent of these amendments is to restore to ferryboats and other river vessels their normal exemption from the requirement of carrying charts at all times and to restate the principle that all vessels operating on the high seas be required to carry such charts.

It is hereby found that compliance with the notice of proposed rule making, public rule making procedure thereon, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1003), is not necessary because these amendments constitute a relaxation in the requirements.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and Treasury Department Order No. 167–14, dated November 26, 1954 (19 F. R. 8026), to promulgate regulations in accordance with the statutes cited with the regulations affected, the following amendments to the regulations are prescribed which shall become effective on the date of publication of this document in the FEDERAL REGISTER:

Subchapter D—Tank Vessels

PART 35—OPERATIONS

SUBPART 35.20—NAVIGATION

The headnote for § 35.20–1 is amended to read as follows:

§ 35.20–1 *Notice to mariners; aids to navigation—T/OCLB.* * * *

Subchapter H—Passenger Vessels

PART 78—OPERATIONS

SUBPART 78.05—NOTICE TO MARINERS AND AID TO NAVIGATION

Section 78.05–5 (a) is amended to read as follows:

§ 78.05–5 *Charts.* (a) All vessels, except barges, ferryboats, vessels operating exclusively on rivers, and motorboats other than those certificated for ocean or coastwise routes, shall have charts of the waters upon which they operate available for convenient reference at all times.

Subchapter I—Cargo and Miscellaneous Vessels

PART 97—OPERATIONS

SUBPART 97.05—NOTICE TO MARINERS AND AIDS TO NAVIGATION

Section 97.05–5 (a) is amended to read as follows:

§ 97.05–5 *Charts.* (a) All vessels, except barges, vessels operating exclusively on rivers, and motorboats other than those certificated for ocean and coastwise routes, shall have charts of the waters upon which they operate available for convenient reference at all times.

AUTHORITY: §§ 4.1 to 4.682 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154.

IN GENERAL

§ 4.1 *Broadcast services covered by this part.* The following broadcast services are covered by this part:

(a) Experimental and developmental broadcast:

(1) Experimental television broadcast (Subpart A).

(2) Experimental facsimile broadcast (Subpart B).

(3) Developmental broadcast (Subpart C).

(b) Auxiliary broadcast:

(1) Remote pickup broadcast (Subpart D).

(2) Broadcast STL and FM intercity relay (Subpart E).

(3) Television pickup (Subpart F).

(4) Television STL (Subpart F).

(5) Television inter-city relay (Subpart F).

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.11 *Applications.* (a) If application is for a construction permit or a license for a new remote pickup broadcast, broadcast STL, FM inter-city relay, television pickup, television STL or television inter-city relay station, or to make changes in facilities, or modification of license, or renewal of license of any such existing station, an FCC Form 313 should be filed.

(b) If application is for a construction permit for an experimental television, experimental facsimile or developmental broadcast station, or to make changes in facilities, or modification of license of any such existing station, FCC Form 309 should be filed; for a station license, FCC Form 310 should be filed; for renewal of station license, FCC Form 311 should be filed.

§ 4.12 *Full disclosures.* Each application shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial, and other qualifications, and as to all matters and things required to be disclosed by the application forms.

§ 4.13 *Installation of apparatus.* Applications for construction permits or modification thereof involving the installation of new transmitting apparatus should be filed at least 60 days prior to the contemplated installation.

§ 4.14 *Period of construction.* Each construction permit will specify a maximum of 60 days from the date of granting thereof as the time within which construction of the station shall begin, and a maximum of 6 months thereafter as the time within which construction shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case.

§ 4.15 *Forfeiture of construction permits; extension of time.* (a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) An application (Form FCC No. 701) for extension of time within which to construct a station shall be filed at least thirty days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than thirty days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

§ 4.16 *Equipment tests.* (a) During the process of construction of any class of radio station listed in this part, the permittee, after notifying the Commission and Engineer in Charge of the district in which the station is located, may without further authority of the Commission, conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefor, the rules and regulations, and the applicable engineering standards.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of equipment tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Unless sooner suspended or revoked program test authority will continue valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated by final determination upon the application for station license.

(d) The authorization for tests embodied in this section shall not be construed as approval by the Commission of the application for station license.

§ 4.17 *Service or program tests.* (a) Upon completion of construction of a radio station in accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations and applicable engineering standards, and when an application for station license has been filed showing the station to be in satisfactory operating condition, the permittee of any class of station listed in this part may, without further authority of the Commission, conduct service or program tests: *Provided,* That the Engineer in Charge of the district in which the station is located and the Commission are notified at least two (2) days (not including Sundays and Saturdays and legal holidays when the offices of the Commission are not open) in advance of the beginning of such operation.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of such tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Unless sooner suspended or revoked program test authority will continue valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated by final determination upon the application for station license.

(d) The authorization for tests embodied in this section shall not be construed as approval by the Commission of the application for station license.

§ 4.18 *License period; renewal.* (a) Licenses for the following classes of broadcast stations normally will be issued for a period of one year expiring as follows:

Class of Station and Date of Expiration

Experimental television broadcast station: Apr. 1.

Experimental facsimile broadcast station: Mar. 1.

Developmental broadcast station: May 1.

(b) Licenses for stations in the Auxiliary Broadcast Services will be issued for a period running concurrently with the licenses of the broadcast station with which such auxiliary stations are used. A remote pickup broadcast station licensed for use with more than one broadcast station will be licensed for a period running concurrently with the license of the broadcast station having the longer license period.

§ 4.19 *License, simultaneous modification and renewal.* When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified, and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license) the modified license as well as the renewal license will be issued to conform to the combined action of the Commission.

§ 4.20 *Renewal of license.* (a) Unless otherwise directed by the Commission each application for renewal of license of an Auxiliary Broadcast Station shall be filed at least 90 days prior to the expiration date of the license sought to be renewed; and each application for re-

newal of license of an Experimental and Developmental Broadcast Station shall be filed at least 60 days prior to the expiration date of the license sought to be renewed.

(b) Whenever the Commission regards an application for renewal of a station license for any class of broadcast station listed in § 4.1 as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a certain date, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

(c) A supplemental report shall be submitted with each application for renewal of license of a station licensed experimentally[1] in accordance with the regulations governing each class of station.

§ 4.21 *Temporary extension of station licenses.* Where there is pending before the Commission any application, investigation, or proceeding which, after hearing, might lead to or make necessary the modification of, revocation of, or the refusal to renew an existing auxiliary or experimental broadcast station license, the Commission may, in its discretion, grant a temporary extension of such license: *Provided, however,* That no such temporary extension shall be construed as a finding by the Commission that the operation of any radio station thereunder will serve public interest, convenience, and necessity beyond the express terms of such temporary extension of license: *And provided further,* That such temporary extension of license will in no wise affect or limit the action of the Commission with respect to any pending application or proceeding.

§ 4.22 *Repetitious applications.* (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new auxiliary or experimental broadcast station, or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor as assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until the final disposition of such appeal.

§ 4.23 *Assignment or transfer of control*—(a) *Voluntary.* Application for consent to voluntary assignment of an auxiliary or experimental broadcast station construction permit or license or for consent to voluntary transfer of control of a corporation holding such a construction permit or license shall be filed with the Commission on Form FCC No. 314 (assignment of license) or Form FCC No. 315 (transfer of control) at least 60 days prior to the contemplated effective date of assignment or transfer of control.

(b) *Involuntary.* In the event of the death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(1) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability, and

(2) Within thirty days after the occurrence of such death or legal disability, application on Form FCC No. 314 or 315 shall be filed for consent to involuntary assignment of such station permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

[1] The phrases "station licensed experimentally" and "experimental station" are used interchangeably.

SUBPART A—RULES GOVERNING EXPERIMENTAL TELEVISION BROADCAST STATIONS

DEFINITIONS AND ALLOCATION OF FREQUENCIES

§ 4.101 *Definitions.* (a) The term "experimental television broadcast station" means a station licensed for experimental transmission of transient visual images of moving or fixed objects for simultaneous reception and reproduction by the general public.[2]

§ 4.102 *Purpose.* A license for an experimental television broadcast station will be issued for the purpose of carrying on research and experimentation for the advancement of television broadcasting which may include tests of equipment, training of personnel, and experimental programs as are necessary for the experimentation.

§ 4.103 *Frequency assignment.* (a) The following groups of channels are available for assignment to television broadcast stations licensed experimentally:

GROUP A

Channel No.	*Megacycles*	Channel No.	*Megacycles*
1	44–50	8	180–186
2	54–60	9	186–192
3	60–66	10	192–198
4	66–72	11	198–204
5	76–82	12	204–210
6	82–88	13	210–216
7	174–180		

[2] The transmission of synchronized sound (aural broadcast) is considered an essential phase of television broadcast and one license will authorize both visual and aural broadcast.

GROUP B

Megacycles [1 2]	*Megacycles* [1 2]	*Megacycles* [1 2]
480–500	620–640	760–780
500–520	640–660	780–800
520–540	660–680	800–820
540–560	680–700	820–840
560–580	700–720	840–860
580–600	720–740	860–890
600–620	740–760	

[1] The channel divisions of this band are tentative and subject to change.

[2] Higher frequency channels for experimental television will be announced in the near future. In the meantime persons desiring to employ higher frequency channels should correspond with the Commission prior to the filing of an application.

(b) No experimental television broadcast station will be authorized to use more than one channel in group A except for good cause shown. Both aural and visual carrier waves with side bands for modulation are authorized but no emission shall result outside the authorized channel.

(c) Channels in group B may be assigned to experimental television stations to serve auxiliary purposes such as television relay or pickup stations. No mobile or portable station will be licensed for the purpose of transmitting television programs to the public directly.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.111 *Administrative procedure.* See §§ 4.11 to 4.23, inclusive.

§ 4.112 *Supplementary statements to be filed with application for construction permit.* A supplementary statement shall be filed with and made a part of each application for construction permit for any experimental television broadcast station confirming the applicant's understanding:

(a) That all operation upon the frequency requested is for experimental purposes only.

(b) That the frequency requested may not be the best suited to the particular experimental work to be carried on, and

(c) That the frequency requested need not be allocated for any service that may be developed as a result of the experimental operation,

(d) That any frequency which may be assigned is subject to change without advance notice or hearing,

(e) That any authorization issued pursuant to the application may be cancelled at any time without notice or hearing.

§ 4.113 *Supplementary reports to be filed with application for renewal of license.* (a) A report shall be filed with each application for renewal of experimental television broadcast station license which shall include a statement of each of the following:

(1) Number of hours operated.

(2) Full data on research and experimentation conducted including the type of transmitting and studio equipment used and their mode of operation.

(3) Data on expense of research and operation during the period covered.

(4) Power employed, field intensity measurements and visual and aural observations and the types of instruments and receivers utilized to determine the station service area and the efficiency of the respective types of transmissions.

(5) Estimated degree of public participation in reception and the results of observations as to the effectiveness of types of transmission.

(6) Conclusions, tentative and final.

(7) Program for further developments in television broadcasting.

(8) All developments and major changes in equipment.

(9) Any other pertinent developments.

(b) Special or progress reports shall be submitted from time to time as the Commission shall direct.

RULES RELATING TO LICENSING POLICIES

§ 4.131 *Licensing requirements, necessary showing.* (a) An applicant for a new experimental television broadcast station, change in facilities of any existing station, or modification of license is required to make a satisfactory showing of compliance with the general requirements of the Communications Act of 1934, as amended, as well as the following:

(1) That the applicant has a definite program of research and experimentation in the technical phases of television broadcasting, which indicates reasonable promise of substantial contribution to the developments of the television art.

(2) That upon the authorization of the proposed station the applicant can and will proceed immediately with its program of research and experimentation.

(3) That the transmission of signals by radio is essential to the proposed program of research and experimentation.

(4) That the program of research and experimentation will be conducted by qualified personnel.

(b) A license for an experimental television broadcast station will not authorize exclusive use of any frequency. In case interference would be caused by simultaneous operation of stations licensed experimentally, such licensees shall endeavor to arrange satisfactory time division. If such agreement cannot be reached, the Commission will determine and specify the time division.

(c) A license for an experimental television broadcast station will be issued only on the condition that no objectionable interference will result from the transmissions of the station to the regular program transmissions of television broadcast stations. It shall at all times be the duty of the licensee of an experimental television broadcast station to ascertain that no interference will result from the transmissions of its station. With regard to interference with the transmissions of an experimental television broadcast station or the experimental or test transmissions of a television broadcast station, the licensees shall make arrangements for operations to avoid interference.

§ 4.132 *Power limitations.* Experimental television broadcast stations will be licensed with a power output not in excess of that necessary to render satisfactory service. The license for these stations will specify the maximum authorized power. The operating power shall not be greater than necessary to carry on the service and in no event more than 5 percent above the maximum power specified. Engineering standards have not been established for these stations. The efficiency factor for the last radio stage of transmitters employed will be subject to individual determination but shall be in general agreement with values normally employed for similar equipment operated within the frequency range authorized.

§ 4.133 *Emission authorized.* In case emission of a different type than that specified in the license is necessary or desirable in carrying on any phases of experimentation, application setting out fully the needs shall be made by informal application.

§ 4.134 *Multiple ownership.* No persons (including all persons under common control) shall control directly or indirectly, two or more experimental television broadcast stations (other than television relay broadcast stations) unless a showing is made that the character of the programs of research require a licensing of two or more separate stations.

RULES RELATING TO EQUIPMENT

§ 4.151 *Equipment changes.* The licensee of an experimental television broadcast station may make any changes in the equipment that are deemed desirable or necessary provided:

(a) That the operating frequency is not permitted to deviate more than the allowed tolerance;

(b) That the emissions are not permitted outside the authorized band;

(c) That the power output complies with the license and the regulations governing the same; and

(d) That the transmitter as a whole or output power rating of the transmitter is not changed.

RULES RELATING TO TECHNICAL OPERATION

§ 4.161 *Frequency tolerance.* The licensee of an experimental television broadcast station operating below 450 megacycles shall maintain the operating frequency of its station within plus or minus 0.01 percent of the assigned frequency. The licensee of an experimental television broadcast station operating above 450 megacycles shall maintain the operating frequency of its station within plus or minus 0.05 percent of the assigned frequency. However, where a lesser tolerance is necessary in order to prevent interference, the Commission will specify the tolerance.

§ 4.162 *Frequency monitors and measurements.* The licensee of an experimental television broadcast station shall provide the necessary means for determining that the frequency of the station is within the allowed tolerance. The date and time of each frequency check, the frequency as measured, and a description or identification of the method employed shall be entered in the station log. Sufficient observations shall be made to insure that the assigned carrier frequency is maintained within the prescribed tolerance.

§ 4.163 *Time of operation.* (a) A licensee of an experimental television broadcast station is not required to adhere to a regular schedule of operation but shall actively conduct a program of research and experimentation.

(b) The program of research and experimentation as offered by an applicant in compliance with the requirements for obtaining a license for an experimental television broadcast station shall be adhered to in the main, unless the licensee is authorized to do otherwise by the Commission.

(c) The Commission may from time to time require that a station licensed experimentally conduct such experiments as are deemed desirable and reasonable for the development of the service.

§ 4.164 *Station inspection.* The licensee of each experimental television broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 4.165 *Station and operator licenses; posting of.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible in a conspicuous place in the room in which the transmitter is located. However, if the station is licensed for portable-mobile[3] operation, the station license or a photo copy thereof shall be affixed to the equipment or kept in the possession of the operator on duty at the transmitter. If a photo copy is used the original license shall be available for inspection by an authorized Government representative.

(b) The original license of each station operator shall be posted at the place where he is on duty: *Provided, however,* If the original license of a station operator is posted at another radio transmitting station in accordance with the rules governing that class of station and is there available for inspection by an authorized Commission representative, or if the station operated is licensed for portable-mobile[3] operation, a verification card[4] is acceptable in lieu of the posting of such license.

§ 4.166 *Operator requirements.* One or more radio operators holding radiotelephone first-class or radiotelephone second-class operator licenses shall be on duty at the place where the transmitting apparatus of any experimental television broadcast station is located and in actual charge of its operation. The licensed operator on duty and in charge of a broadcast transmitter may at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such stations. However, such duties shall in no wise interfere with the operation of the broadcast transmitter.

[3] The term portable-mobile as here used is intended to include any type of portable or mobile operation.

[4] Form 758–P.

§ 4.167 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 4.168 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders in each case as may be deemed necessary.

OTHER RULES RELATING TO OPERATION

§ 4.181 *Station records.* (a) The licensee of each experimental television broadcast station shall maintain adequate records of the operation, including:

(1) Hours of operation.
(2) Program transmitted.
(3) Frequency check.
(4) Pertinent remarks concerning transmission.
(5) In case of relay or pickup station, an entry giving points of program origination and receiver location shall be included.
(6) Research and experimentation conducted.

(b) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

(c) Station records shall be retained for a period of two years.

§ 4.182 *Charges.* No charges, either direct or indirect, shall be made by the licensee of an experimental television broadcast station for the production or transmission of either aural or visual programs transmitted by such station except that this section shall not apply to the transmission of commercial programs by an experimental television relay or pickup broadcast station for retransmission by a television broadcast station.

§ 4.183 *Station identification.* Each experimental television broadcast station shall make aural and visual announcements of its call letters and location at the beginning and end of each period of operation, and during operation, at least once every hour.

§ 4.184 *Rebroadcasts.* (a) The term "rebroadcast" means reception by radio of the program [5] of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station.[6]

[5] As used in this section the word "program" includes any complete program or part thereof.

[6] In case a program is transmitted from its point of origin to a broadcast station primarily by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast. The broadcasting of a program relayed by a remote pickup broadcast station is not considered a rebroadcast.

(b) No licensee of any experimental television broadcast station shall rebroadcast the program of any radio station without written authority having first been obtained from the Commission upon application.[7]

(c) An application for authority to rebroadcast the program of any radio station shall be accompanied by written consent or certification of consent of the licensee of the station originating the program.

SUBPART B—RULES GOVERNING EXPERIMENTAL FACSIMILE BROADCAST STATIONS

DEFINITIONS AND ALLOCATION OF FREQUENCIES

§ 4.201 *Definition.* The term "facsimile broadcast station" means a station licensed to transmit images of still objects for record reception by the general public.

§ 4.202 *Frequency assignment.* (a) The band of frequencies between 470 and 480 megacycles is allocated for assignment to fascimile broadcast stations which will be licensed experimentally only.

(b) Other broadcast experimental frequencies may be assigned for the operation of an experimental facsimile broadcast station provided a sufficient need therefor is shown and no interference will be caused to established radio stations.

(c) One frequency only will be assigned to an experimental facsimile station from the band listed in paragraph (a) of this section. More than one frequency may be assigned under the provisions of paragraph (b) of this section if a need therefor is shown.

(d) Each applicant shall specify the maximum modulating frequencies proposed to be employed.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.211 *Administrative procedure.* See §§ 4.11 to 4.23, inclusive.

§ 4.212 *Supplementary statements to be filed with application for construction permit.* A supplementary statement shall be filed with and made a part of each application for construction permit for any experimental facsimile broadcast station confirming the applicant's understanding:

(a) That all operation upon the frequency requested is for experimental purposes only,

(b) That the frequency requested may not be the best suited to the particular experimental work to be carried on,

(c) That the frequency requested need not be allocated for any service that may be developed as a result of the experimental operation,

(d) That any frequency which may be assigned is subject to change without advance notice or hearing,

(e) That any authorization issued pursuant to the application may be cancelled at any time without notice or hearing.

§ 4.213 *Supplemental report with renewal application.* A supplemental report shall be filed with and made a part of each application for renewal of license and shall include statements of the following:

(a) Number of hours operated for transmission of facsimile programs.
(b) Conprehensive report of research and experimentation conducted.
(c) Conclusions and program for further developments of the facsimile broadcast service.
(d) All developments and major changes in equipment.
(e) Any other pertinent developments.

RULES RELATING TO LICENSING POLICIES

§ 4.231 *Licensing requirements, necessary showing.* (a) An applicant for a construction permit for a new experimental facsimile broadcast station, change in facilities of any existing station, or modification of license is required to make a satisfactory showing of compliance with the general requirements of the Communications Act of 1934, as amended, as well as with regard to the following:

(1) That the applicant has a program of research and experimentation which indicates reasonable promise of substantial contribution to the development of the facsimile broadcast service.
(2) That sufficient facsimile recorders will be distributed to accomplish the experimental program proposed.
(3) That the program of research and experimentation will be conducted by qualified personnel.

(b) A license for an experimental facsimile broacast station will not authorize exclusive use of any frequency. In case interference would be caused by simultaneous operation of stations licensed experimentally, such licensees shall endeavor to arrange satisfactory time division. If such agreement cannot be reached, the Commission will determine and specify the time division.

§ 4.232 *Power limitations.* Experimental facsimile broadcast stations will be licensed with a power output not in excess of that necessary to render satisfactory service. The license for these stations will specify the maximum authorized power. The operating power shall not be greater than necessary to carry on the service and in no event more than 5 percent above the maximum power specified. Engineering standards have not been established for these stations. The efficiency factor for the last radio stage of transmitters employed will be subject to individual determination but shall be in general agreement with values normally employed for similar equipment operated within the frequency range authorized.

§ 4.233 *Emission authorized.* In case emission of a different type than that specified in the license is necessary or desirable in carrying on any phases of experimentation, application setting out fully the needs shall be made by informal application.

§ 4.234 *Multiple ownership.* No persons (including all persons under common control) shall control directly or indirectly, two or more experimental facsimile broadcast stations unless a showing is made that the character of the programs of research require a licensing of two or more separate stations.

[7] Informal application may be employed.

RULES RELATING TO EQUIPMENT

§ 4.251 *Equipment changes.* The licensee of an experimental facsimile broadcast station may make any changes in the equipment that are deemed desirable or necessary provided:

(a) That the operating frequency is not permitted to deviate more than the allowed tolerance;
(b) That the emissions are not permitted outside the authorized band;
(c) That the power output complies with the license and the regulations governing the same; and
(d) That the transmitter as a whole or output power rating of the transmitter is not changed.

RULES RELATING TO TECHNICAL OPERATION

§ 4.261 *Frequency tolerance.* The licensee of an experimental facsimile broadcast station shall maintain the operating frequency of its station within plus or minus 0.01 percent of the assigned frequency.[1] However, where a lesser tolerance is necessary in order to prevent interference, the Commission will specify the tolerance.

§ 4.262 *Frequency monitors and measurements.* The licensee of an experimental facsimile broadcast station shall provide the necessary means for determining that the frequency of the station is within the allowed tolerance. The date and time of each frequency check, the frequency as measured, and a description or identification of the method employed shall be entered in the station log. Sufficient observations shall be made to insure that the assigned carrier frequency is maintained within the prescribed tolerance.

§ 4.263 *Time of operation.* (a) A licensee of an experimental facsimile broadcast station is not required to adhere to a regular schedule of operation but shall actively conduct a program of research and experimentation.

(b) The program of research and experimentation as offered by an applicant in compliance with the requirements for obtaining a license for an experimental facsimile broadcast station shall be adhered to in the main, unless the licensee is authorized to do otherwise by the Commission.

(c) The Commission may from time to time require that a station licensed experimentally conduct such experiments as are deemed desirable and reasonable for the development of the service.

§ 4.264 *Station inspection.* The licensee of each experimental facsimile broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

[1] Tolerance may be plus or minus 0.05 percent on equipment installed prior to October 1, 1946, and until October 1, 1947, when all experimental facsimile broadcast stations shall maintain frequency within the prescribed tolerance.

§ 4.265 *Station and operator licenses; posting of.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible in a conspicuous place in the room in which the transmitter is located.

(b) The original license of each station operator shall be posted at the place where he is on duty: *Provided, however,* If the original license of a station operator is posted at another radio transmitting station in accordance with the rules governing that class of station and is there available for inspection by an authorized Commission representative, a verification card [2] is acceptable in lieu of the posting of such license.

§ 4.266 *Operator requirements.* One or more radio operators holding radiotelephone first-class or radiotelephone second-class operator licenses shall be on duty at the place where the transmitting apparatus of any experimental facsimile broadcast station is located and in actual charge of its operation. The licensed operator on duty and in charge of a broadcast transmitter may at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such stations. However, such duties shall in no wise interfere with the operation of the broadcast transmitter.

§ 4.267 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 4.268 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders in each case as may be deemed necessary.

OTHER RULES RELATING TO OPERATION

§ 4.281 *Station records.* (a) The licensee of each experimental facsimile broadcast station shall maintain adequate records of the operation, including:

(1) Hours of operation.
(2) Program transmitted.
(3) Frequency check.
(4) Pertinent remarks concerning transmission.
(5) Research and experimentation conducted.

(b) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

(c) Station records shall be retained for a period of two years.

[2] Form 758-F.

§ 4.282 *Charges.* (a) A licensee of an experimental facsimile broadcast station shall not make any charge, directly or indirectly, for the transmission of programs.

(b) No licensee of any standard or FM broadcast station shall make any additional charge, directly or indirectly, for the transmission of some phase of its programs by an associated experimental facsimile broadcast station.

§ 4.283 *Station identification.* Each experimental facsimile broadcast station shall transmit visual information which will permit it to be identified at the beginning and end of each period of operation, and during operation, at least once every hour.

§ 4.284 *Rebroadcasts.* (a) The term "rebroadcast" means reception by radio of the program [3] of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station.[4]

(b) No licensee of any experimental facsimile broadcast station shall rebroadcast the program of any radio station without written authority having first been obtained from the Commission upon application.[5]

(c) An application for authority to rebroadcast the program of any radio station shall be accompanied by written consent or certification of consent of the licensee of the station originating the program.

SUBPART C—RULES GOVERNING DEVELOPMENTAL BROADCAST STATIONS

DEFINITIONS AND ALLOCATION OF FREQUENCIES

§ 4.301 *Definition.* The term "developmental broadcast station" means a station licensed experimentally to carry on development and research primarily in radiotelephony for the advancement of the broadcast services.

§ 4.302 *Frequency assignment* (a) The following frequencies are allocated for assignment to developmental broadcast stations.[1] [2]

Kilocycles	*Megacycles*	*Megacycles*	*Megacycles*
1614	30.66	35.46	72.18
2398	31.02	37.06	72.22
3492.5	31.14	37.14	156.525
4797.5	31.18	37.54	156.975
6425	31.54	39.14	157.425
9135	33.34	39.46	157.725
12862.5	33.46	39.54	158.175
17310	33.62	40.98	920 to 940
23100	35.06	42.98 [3]	Above 30,000

[3] Subject to interference from radiations emitted by scientific, medical, and industrial stations.

[1] Subject to change in accordance with Docket No. 6651.

[2] Also available for assignment to other stations in the experimental services except for the band 920–940 megacycles.

[3] As used in this section the word "program" includes any complete program or part thereof.

[4] In case a program is transmitted from its point of origin to a broadcast station primarily by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast. The broadcasting of a program relayed by a remote pickup broadcast station is not considered a rebroadcast.

[5] Informal application may be employed.

(b) A license will be issued for more than one of these frequencies upon a satisfactory showing that there is need therefor.

(c) The frequencies suited to the purpose and in which there appears to be the minimum degree or absence of interference to established stations shall be selected.

(d) In cases of important experimentation which cannot be conducted successfully on the frequencies allocated in paragraph (a) of this section, the Commission may authorize developmental broacast stations to operate on any frequency allocated for broadcast stations or any frequencies allocated for other services under the jurisdiction of the Commission upon satisfactory showing that such frequencies can be used without causing interference to established services.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.311 *Administrative procedure.* See §§ 4.11 to 4.23, inclusive.

§ 4.312 *Supplementary statements to be filed with application for construction permit.* A supplementary statement shall be filed with and made a part of each application for construction permit for any developmental broadcast station confirming the applicant's understanding:

(a) That all operation upon the frequency requested is for experimental purposes only,

(b) That the frequency requested may not be the best suited to the particular experimental work to be carried on, and

(c) That the frequency requested need not be allocated for any service that may be developed as a result of the experimental operation,

(d) That any frequency which may be assigned is subject to change without advance notice or hearing,

(e) That any authorization issued pursuant to the application may be cancelled at any time without notice or hearing.

§ 4.313 *Supplemental report with renewal application.* A supplemental report shall be filed with and made a part of each application for renewal of license and shall include statements of the following, among others:

(a) The number of hours operated.

(b) Comprehensive report on research and experiments conducted.

(c) Conclusions and program for further development of the broadcast service.

(d) All developments and major changes in equipment.

(e) Any other pertinent developments.

RULES RELATING TO LICENSING POLICIES

§ 4.331 *Licensing requirements; necessary showing.* (a) An applicant for a construction permit for a new developmental broadcast station, change of facilities or modification of an existing license is required to make a satisfactory showing of compliance with the general requirements of the Communications Act of 1934, as amended, as well as with regard to the following:

(1) That the applicant has a program of research and experimentation which can best be carried on under the license requested.

(2) That the program of research has reasonable promise of substantial contribution to the development of broadcasting.

(3) That the program of research and experimentation will be conducted by qualified personnel.

(b) A license for a developmental broadcast station will not authorize exclusive use of any frequency. In case interference would be caused by simultaneous operation of stations licensed experimentally, such licensees shall endeavor to arrange satisfactory time division. If such agreement cannot be reached, the Commission will determine and specify the time division.

§ 4.332 *Power limitations.* Developmental broadcast stations will be licensed with a power output not in excess of that necessary to render satisfactory service. The license for these stations will specify the maximum authorized power. The operating power shall not be greater than necessary to carry on the service and in no event more than 5 percent above the maximum power specified. Engineering standards have not been established for these stations. The efficiency factor for the last radio stage of transmitters employed will be subject to individual determination but shall be in general agreement with values normally employed for similar equipment operated within the frequency range authorized.

§ 4.333 *Emission authorized.* In case emission of a different type than that specified in the license is necessary or desirable in carrying on any phases of experimentation, application setting out fully the needs shall be made by informal application.

RULES RELATING TO EQUIPMENT

§ 4.351 *Equipment changes.* The licensee of a developmental broadcast station may make any changes in the equipment that are deemed desirable or necessary: *Provided,*

(a) That the operating frequency is not permitted to deviate more than the allowed tolerance;

(b) That the emissions are not permitted outside the authorized band;

(c) That the power output complies with the license and the regulations governing the same; and

(d) That the transmitter as a whole or output power rating of the transmitter is not changed. This limitation shall not apply to developmental broadcast stations licensed to operate in connection with the development and testing of commercial broadcast equipment.

RULES RELATING TO TECHNICAL OPERATION

§ 4.361 *Frequency tolerance.* The licensee of a developmental broadcast station operating below 450 megacycles shall maintain the operating frequency of its station within plus or minus 0.01 percent of the assigned frequency.[3] The licensee of a developmental broadcast station operating above 450 megacycles shall maintain the operating frequency of its station within plus or minus 0.05 percent of the assigned frequency. However, where a lesser tolerance is necessary in order to prevent interference, the Commission will specify the tolerance.

§ 4.362 *Frequency monitors and measurements.* The licensee of a developmental broadcast station shall provide the necessary means for determining that the frequency of the station is within the allowed tolerance. The date and time of each frequency check, the frequency as measured, and a description or identification of the method employed shall be entered in the station log. Sufficient observations shall be made to insure that the assigned carrier frequency is maintained within the prescribed tolerance.

§ 4.363 *Time of operation.* (a) A licensee of a developmental broadcast station is not required to adhere to a regular schedule of operation but shall actively conduct a program of research and experimentation. However, licensees of developmental broadcast stations which are licensed to conduct special intermittent experiments, such as the development and testing of commercial broadcast equipment, are authorized to operate only when there is a need therefor.

(b) The program of research and experimentation as offered by an applicant in compliance with the requirements for obtaining a license for a developmental broadcast station shall be adhered to in the main, unless the licensee is authorized to do otherwise by the Commission.

(c) The Commission may from time to time require that a station licensed experimentally conduct such experiments as are deemed desirable and reasonable for the development of the service.

§ 4.364 *Station inspection.* The licensee of each developmental broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 4.365 *Station and operator licenses; posting of.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible in a conspicuous place in the room in which the transmitter is located. However, if the station is licensed for portable-mobile[4] operation, the station license or a photo copy thereof shall be affixed to the equipment or kept in the possession of the operator on duty at the transmitter. If a photo copy is used the original license shall be available for inspection by an authorized Government representative.

(b) The original license of each station operator shall be posted at the place where he is on duty: *Provided, however,* If the original license of a station operator is posted at another radio transmitting station in accordance with the rules governing that class of station and is there available for inspection by an authorized Commission representative, or if the station operated is licensed for portable-mobile[4] operation, a verification card[5] is acceptable in lieu of the posting of such license.

§ 4.366 *Operator requirements.* One or more radio operators holding radiotelephone first-class or radiotelephone second-class operator licenses shall be on duty at the place where the transmitting apparatus of any developmental broadcast station is located and in actual charge of its operation. The licensed operator on duty and in charge of a broadcast transmitter may at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such stations. However, such duties shall in no wise interfere with the operation of the broadcast transmitter.

§ 4.367 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 4.368 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders in each case as may be deemed necessary.

OTHER RULES RELATING TO OPERATION

§ 4.381 *Station records.* (a) The licensee of each developmental broadcast station shall maintain adequate records of the operation, including:

(1) Hours of operation.

(2) Program transmitted.

(3) Frequency check.

(4) Pertinent remarks concerning transmission.

(5) In case of relay or remote pickup station, an entry giving points of program origination and receiver location shall be included.

(6) Research and experimentation conducted.

(b) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

(c) Station records shall be retained for a period of two years.

§ 4.382 *Program service; charges prohibited; announcements.* (a) A licensee of a developmental broadcast station shall broadcast programs only when they are necessary to the experiments being conducted. No regular program service shall be broadcast unless specifically authorized. If the license authorizes the carrying of programs, the developmental broadcast station may transmit the programs of a standard, or FM broadcast station or networks, provided, that during the broadcast a statement is made identifying the station or network originating the program (by giving the call letters of the station or name of the network) and announcing that the program is being broadcast in connection with the experimental operation of a developmental broadcast station.

(b) No licensee of any standard, or FM broadcast station shall make any additional charge, directly or indirectly, for the transmission of programs by a developmental broadcast station.

(c) The provisions of paragraphs (a) and (b) of this section shall be applicable to rebroadcasts of the programs of a standard, or FM broadcast station or network by a developmental broadcast station.

§ 4.383 *Station identification.* Each developmental broadcast station shall announce its call letters at the beginning and end of each period of operation, and during operation, at least once every hour.

§ 4.384 *Rebroadcasts.* (a) The term "rebroadcast" means reception by radio of the program[6] of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station.[7]

(b) No licensee of any developmental broadcast station shall rebroadcast the program of any radio station without written authority having first been obtained from the Commission upon application.[8]

(c) An application for authority to rebroadcast the program of any radio station shall be accompanied by written consent or certification of consent of the licensee of the station originating the program.

SUBPART D—RULES GOVERNING REMOTE PICKUP BROADCAST STATIONS

DEFINITIONS AND ALLOCATION OF FREQUENCIES

§ 4.401 *Definitions.*—(a) *Remote pickup broadcast mobile station.* A land mobile station, licensed for the transmission of program material from remote points of origination to a broadcasting station for simultaneous or delayed broadcasting and for the transmission of orders pertaining to such programs.

(b) *Remote pickup broadcast base station.* A base station licensed for the transmission of program material from remote points of origination to a broadcasting station for simultaneous or delayed broadcasting and for the transmission of orders pertaining to such programs.

(c) *Remote pickup broadcast station.* The term "remote pickup broadcast station" as used in this subpart includes the definitions in paragraphs (a) and (b) of this section.

§ 4.402 *Frequency assignment.* (a) The following frequencies are allocated for assignment to remote pickup broadcast base and mobile stations:

(1)

Group A (kc)
[1] 1606
1622
1646

(2)

Group D (Mc)	Group E (Mc)	Group F (Mc)	Group G (Mc)	Group H (Mc)
[2] 25.87	[2] 25.91	[2] 25.95	[2] 25.99	[2] 26.03
26.15	26.17	26.19	26.21	26.23
26.25	26.27	26.29	26.31	26.33
26.35	26.37	26.39	26.41	26.43

(3)

Group I (Mc)	Group J (Mc)
[2] 26.07	[2] 26.09
26.11	26.13
26.45	26.47

(4)

Group K[3] (Mc)		
152.87	153.05	153.23
152.93	153.11	153.29
152.99	153.17	153.35

(5)

Group L (Mc)	Group M (Mc)
[4] 166.25	[4] 170.15

(6)

Group N (Mc)			
450.05	450.55	455.05	455.55
450.15	450.65	455.15	455.65
450.25	450.75	455.25	455.75
450.35	450.85	455.35	455.85
450.45	450.95	455.45	455.95

(b) A licensee is not limited with respect to the number of remote pickup broadcast stations which may be licensed for operation in a single area and each such station may be assigned one or more frequencies: *Provided, however,* That such frequency assignments shall be limited to those within a single frequency Group in any subparagraph of paragraph (a) of this section. This limitation does not preclude the assignment of frequencies listed in different subparagraphs to the same licensee. Applicants shall request the assignment of only those frequencies on which operation is contemplated and the transmitter shall be suitably equipped to operate on all assigned frequencies.

(c) Remote pickup broadcast stations will not be granted exclusive frequency

---

[3] Tolerance may be 0.05 on equipment installed prior to October 1, 1946, and until October 1, 1947, when all developmental broadcast stations shall maintain frequency within the prescribed tolerances.

[4] The term portable-mobile as here used is intended to include any type of portable or mobile operation.

[5] Form 758–F.

[6] As used in this section the word "program" includes any complete program or part thereof.

[7] In case a program is transmitted from its point of origin to a broadcast station primarily by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast. The broadcasting of a program relayed by a remote pickup broadcast station is not considered a rebroadcast.

[8] Informal application may be employed.

[1] Subject to the condition that no harmful interference is caused to the reception of standard broadcast stations.

[2] Subject to the condition that no harmful interference is caused to the reception of broadcasting stations.

[3] Subject to the condition that no harmful interference is caused to the Industrial Radio Services.

[4] Operation on the frequencies 166.25 Mc and 170.15 Mc is not authorized (i) within the area bounded on the west by the Mississippi River, on the north by the parallel of latitude 37° 30' N., and on the east and south by that arc of the circle with center at Springfield, Ill., and radius equal to the airline distance between Springfield, Ill., and Montgomery, Alabama, subtended between the foregoing west and north boundaries; (ii) within 150 miles of New York City, and; (iii) outside the continental United States; and is subject to the condition that no harmful interference is caused to government radio stations in the band 162–174 Mc.

assignments, and the same frequency or frequencies may be assigned to other licensees in the same area.

§ 4.403 *Frequency selection to avoid interference.* (a) Where two or more remote pickup broadcast stations are licensed for the same frequency or group of frequencies in the same area and when simultaneous operation is contemplated, the licensees shall endeavor to select frequencies or schedule operation in such manner as to avoid mutual interference. If a mutual agreement to this effect cannot be reached the Commission shall be notified and it will specify the frequency or frequencies on which each station is to be operated.

(b) The following order of priority of transmissions shall be observed on all frequencies except those listed in § 4.402 (a) (3): (1) The transmission of program material for broadcast, (2) the transmission of orders immediately necessary thereto, and (3) other transmissions permitted under § 4.431 (a). On frequencies listed in § 4.402 (a) (3), transmissions permitted under § 4.431 shall have priority over transmissions permitted under § 4.432 (e).

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.411 *Administrative procedure.* See §§ 4.11 to 4.23, inclusive.

RULES RELATING TO LICENSING POLICIES

§ 4.431 *Purpose of remote pickup broadcast stations.* (a) The license of a remote pickup broadcast station authorizes the transmission of program material, orders concerning such program material, and related communications necessary to the accomplishment of such transmissions, to an associated broadcast station,[5] to such other stations as are also broadcasting the same program material, or to the network with which the broadcast station is regularly affiliated. A license issued within the provisions of § 4.432 (e) authorizes the additional communications therein provided. Remote pickup broadcast stations may be operated in conjunction with other broadcast stations not aforementioned: *Provided,* That the transmissions by the remote pickup broadcast station shall be under the control of the remote pickup broadcast station licensee, and that such operation shall not exceed a total of 10 days in any 30-day period.

(b) In the event of damage or impairment of the regular circuits of a broadcast station due to storms or other emergencies, remote pickup broadcast stations may be used to provide temporary emergency circuits for program transmission and cue purposes pending completion of repairs. However, remote pickup broadcast stations may not be used for such circuits on a regular basis.

(c) The license of a remote pickup broadcast station authorizes operation on only one of the assigned frequencies at any one time. A licensee may operate two or more remote pickup broadcast stations simultaneously. Remote pickup broadcast stations may be used to transmit orders and related communications from the program control point to the remote pickup point.

(d) Remote pickup broadcast stations licensed in Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States may be used for any auxiliary broadcast purpose including inter-city relay circuits which may be operated by the licensee for the purpose of maintaining studios at locations other than that of the main studio: *Provided, however,* That such stations shall not be used for transmissions intended to be received by the public directly.

§ 4.432 *Licensing requirements.* (a) A license for a remote pickup broadcast station will be issued only to the licensee of a broadcast station. Remote pickup broadcast stations will be licensed to television broadcast stations upon an interim basis pending development of equipment capable of transmitting the aural and the visual portions of television programs within the bands of frequencies allocated for television pickup stations. A separate license is required for each remote pickup broadcast station. Each application for construction permit for a new remote pickup broadcast station or for a change in the facilities of an existing station shall be specific with regard to the frequency or frequencies requested.

(b) In case a licensee has two or more broadcast stations of different services (standard, FM, television, etc.) located in the same city, it shall, in applying for a new remote pickup broadcast station or for renewal of license of an existing station, designate each of the stations with which the remote pickup broadcast station is to be operated.

(c) In case a licensee has two or more broadcast stations located in different cities, it shall, in applying for a new remote pickup station or for renewal of license of an existing station, designate the broadcast station, or stations under the provisions of paragraph (b) of this section, in conjunction with which the remote pickup station is to be operated.

(d) A remote pickup broadcast station may be licensed for portable or mobile operation in accordance with § 4.401 (a), or for operation at a fixed location in accordance with § 4.401 (b). An application for a new remote pickup broadcast station or for modification of license of an existing station requesting portable or mobile operation shall specify the area in which the proposed station is intended to be employed.

(e) Remote pickup broadcast base stations will be licensed for the purpose of providing communication between the studio and the transmitter of broadcast stations which utilize a broadcast STL station for program transmission, provided that such operation shall not be conducted on frequencies other than those listed in § 4.402 (a) (3). The term "broadcast STL station" as used in this section includes "FM broadcast STL", "standard broadcast STL", and "television STL" stations.

§ 4.433 *Temporary authorizations.* (a) Special temporary authority may be granted for operation, as a remote pickup broadcast station, of equipment already licensed to another class of station or equipment in use by a class of station which under the Communications Act of 1934 does not require a construction permit.

(b) An application for special temporary authority for the operation of a remote pickup broadcast station[6] shall be filed with the Commission at least 10 days previous to the date of operation. Any application received within less than 10 days may be accepted upon due showing of sufficient reasons for the delay in submitting such request. The application shall set forth full particulars of the purpose for which the request is made and shall show the licensee, call letters, and type of equipment of the station proposed to be used and specify the frequency or frequencies, time and and date, location, transmitter power, and type emission proposed and the purpose of the operation requested.

(c) An application for special temporary authority to operate another class of station as a remote pickup broadcast station[6] shall specify a frequency or frequencies allocated in § 4.402: *Provided, however,* In case of events of national interest and importance which cannot be transmitted successfully on these frequencies, other frequencies under the jurisdiction of the Commission may be requested, if it is shown that the operation thereon will not cause interference to established stations: *And provided further,* That no remote pickup operation will be authorized on frequencies employed in the emergency service or otherwise employed for the safety of life and property.

(d) An application for special temporary authority to operate equipment as a remote pickup broadcast station[6] filed by a person other than the licensee of such equipment shall contain a statement to show that temporary control of the transmissions therefrom has been secured for the duration of the special operation proposed. An application for special temporary authority to operate another class of station as a remote pickup broadcast station filed by a person other than the licensee of a standard or FM broadcast station shall contain a statement to show which broadcast station or stations contemplate broadcast of the program proposed to be transmitted.

§ 4.434 *Remote control operation.* Remote-control operation of remote pickup stations will be permitted subject to the following conditions.

(a) A percentage modulation indicator or calibrated program level meter shall be provided at the operating position.

(b) The operator shall have off-and-on control of the power to the last radio stage.

(c) The transmitter shall be so installed and protected that it is not accessible to other than duly authorized persons.

§ 4.435 *Power limitations.* Remote pickup broadcast stations will be licensed with a power output not in excess of that necessary to render satisfactory service. The license for these stations will specify the maximum authorized power. The operating power shall not be greater than necessary to carry on the service and in no event more than 5 percent above the maximum power specified. Engineering standards have not been established for these stations. The efficiency factor for the last radio stage of transmitters employed will be subject to individual determination but shall be in general agreement with values normally employed for similar equipment operated within the frequency range authorized.

[5] The term "associated broadcast station" as used herein means a broadcast station with which the remote pickup station is licensed as an auxiliary facility.

[6] Informal application may be employed.

§ 4.436 *Emission authorized.* (a) The license for a remote pickup broadcast station operating on frequencies below 25 Mc. will normally authorize A3 emission and may in addition authorize A1 and A2 emission where a need therefor is shown. A license for a remote pickup broadcast station operating on frequencies above 25 Mc. will authorize A3 or F3 emission, depending upon the equipment employed. Stations licensed to employ F3 emission shall limit the frequency swing[7] so that the bandwidth of emission will conform to the requirements of the channel widths authorized as follows:

(1) For stations operating on the frequencies 26.11 to 26.47 Mc., 20 kilocycles.

(2) For stations operating on the frequencies 152.87 to 153.35, 166.25 and 170.15 Mc., 60 kilocycles.

(3) For stations operating on the frequencies 450.05 to 451.95 Mc., 100 kilocycles.

(b) Any emissions outside the authorized channel shall be limited to such an extent as not to constitute a source of potential interference to other stations and in no event shall such emissions be in excess of minus 40 decibels as compared to the emissions within the authorized channel.

RULES RELATING TO EQUIPMENT

§ 4.451 *Equipment changes.* The licensee of a remote pickup broadcast station may make any changes in the equipment that are deemed desirable or necessary: *Provided,*

(a) That the operating frequency is not permitted to deviate more than the allowed tolerance;

(b) That the emissions are not permitted outside the authorized band;

(c) That the power output complies with the license and the regulations governing the same; and

(d) That the transmitter as a whole or output power rating of the transmitter is not changed.

RULES RELATING TO TECHNICAL OPERATION

§ 4.461 *Frequency tolerance.* The licensee of a remote pickup broadcast station shall maintain the operating frequency of its station in accordance with the following:[8]

Frequency range	Tolerance (percent)	
	Base station	Mobile station
1606 to 2830 kc.:		
200 watts or less	0.01	0.02
Over 200 watts [1]	.005	.02
26.11 to 26.47 Mc.:		
5 watts or less	.005	.02
Over 5 watts	.005	.005
152.87 to 153.35, 166.25, and 170.15 Mc.:		
5 watts or less	.005	.01
Over 5 watts	.005	.005
450.05 to 451.95 Mc.: All powers	.01	.01

[1] The listing of tolerance for power over 200 watts is in accordance with treaty values and shall not be construed as a finding that such power will be authorized.

§ 4.462 *Frequency monitors and measurements.* (a) The licensee of a remote pickup broadcast station shall provide the necessary means for determining that the frequency of the station is within the allowed tolerance. The date and time of each frequency check, the frequency as measured, and a description or identification of the method employed shall be entered in the station log. Sufficient observations shall be made to insure that the assigned carrier frequency is maintained within the prescribed tolerance.

(b) Each frequency for which the remote pickup broadcast station is licensed shall be measured at least once during each calendar year.[9]

§ 4.463 *Station inspection.* The licensee of each remote pickup broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 4.464 *Station and operator licenses; posting of.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible in a conspicuous place in the room in which the transmitter is located: *Provided:*

(1) If the transmitter operator is located at a distance from the transmitter pursuant to § 4.434 the station license shall be posted in the above-described manner at the operating position.

(2) If the station is licensed for portable-mobile[10] operation, the station license or a photo copy thereof shall be affixed to the equipment or kept in the possession of the operator on duty at the transmitter. If a photo copy is used the original license shall be available for inspection by an authorized Government representative.

(b) The original license of each station operator shall be posted at the place where he is on duty: *Provided, however,* If the original license of a station operator is posted at another radio transmitting station in accordance with the rules governing that class of station and is there available for inspection by an authorized Commission representative, or if the station operated is licensed for portable-mobile[10] operation, a verification card[11] is acceptable in lieu of the posting of such license: *Provided further, however,* That if the operator on duty holds a restricted radiotelephone operator permit of the card form (as distinguished from the diploma form) he shall not post that permit but shall keep it in his personal possession.

§ 4.465 *Operator requirements.* One or more radio operators holding any class of commercial radio operator license or permit shall be on duty at the place where the transmitting apparatus of any remote pickup broadcast station is located, except as provided in § 4.434, and in actual charge of its operation. Further provisions and restrictions concerning the operator's authority are contained in Part 13 of this chapter. The licensed operator on duty and in charge of a broadcast transmitter may at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such stations. However, such duties shall in no wise interfere with the operation of the broadcast transmitter.

§ 4.466 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 4.467 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders, in each case as may be deemed necessary.

OTHER RULES RELATING TO OPERATION

§ 4.481 *Station records.* (a) The licensee of each remote pickup broadcast station shall maintain adequate records of the operation, including:

(1) Hours of operation.

(2) Program transmitted.

(3) Frequency check.

(4) Pertinent remarks concerning transmission.

(5) An entry giving points of program origination and receiver location.

(b) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

(c) Station records shall be retained for a period of two years.

§ 4.482 *Station identification.* Each remote pickup broadcast station shall announce its call letters at the beginning

[7] The term "frequency swing" means the instantaneous departure of the frequency of the emitted wave from the center frequency resulting from modulation.

[8] Remote pickup broadcast stations now operating in the frequency range 30–40 Mc. and on frequencies above 154 Mc. will, during the period such operation continues pending frequency re-assignment of these stations pursuant to the proceedings in Docket No. 6651, retain the frequency tolerance requirements of their present licenses.

[9] Remote pickup broadcast stations licensed for frequencies that are subject to change in accordance with the proceedings in Docket No. 6651 are required to measure only those frequencies on which they are equipped to operate.

[10] The term portable-mobile as here used is intended to include any type of portable or mobile operation.

[11] Form 758–F.

and end of each period of operation, and during operation, at least once every hour it shall either announce its call letters or make an announcement [12] which will permit it to be identified.

SUBPART E—BROADCAST STL AND FM INTERCITY RELAY STATIONS

DEFINITION AND ALLOCATION OF FREQUENCIES

§ 4.501 *Definitions.* (a) FM Broadcast STL Station: A fixed station utilizing telephony to transmit from a studio of an FM broadcasting station to the transmitter of that broadcasting station, programs to be broadcast by that station.

(b) Standard broadcast STL station: A fixed station utilizing telephony to transmit from a studio of a standard broadcasting station to the transmitter of that broadcasting station, programs to be broadcast by that station.

(c) FM intercity relay station: A fixed station used for the transmission of FM broadcasting programs from one FM broadcasting station to other FM broadcasting stations to provide simultaneous network FM broadcasting and operated only by FM broadcast licensees.

(d) The term "FM broadcasting station" as used in this part of the rules includes non-commercial educational FM broadcasting stations.

(e) The abbreviation "STL" is derived from "studio-transmitter link."

§ 4.502 *Frequency assignment.* (a) An FM broadcast STL station may be licensed on one of the following frequencies:

940.5 Mc	943.5 Mc	946.5 Mc	949.5 Mc
941.0 Mc	944.0 Mc	947.0 Mc	950.0 Mc
941.5 Mc	944.5 Mc	947.5 Mc	950.5 Mc
942.0 Mc	945.0 Mc	948.0 Mc	951.0 Mc
942.5 Mc	945.5 Mc	948.5 Mc	951.5 Mc
943.0 Mc	946.0 Mc	949.0 Mc	

(b) A standard broadcast STL station may be licensed on one of the following frequencies: [1]

925.5 Mc	929.5 Mc	933.0 Mc	936.5 Mc
926.0 Mc	930.0 Mc	933.5 Mc	937.0 Mc
926.5 Mc	930.5 Mc	934.0 Mc	937.5 Mc
927.0 Mc	931.0 Mc	934.5 Mc	938.0 Mc
927.5 Mc	931.5 Mc	935.0 Mc	938.5 Mc
928.0 Mc	932.0 Mc	935.5 Mc	939.0 Mc
928.5 Mc	932.5 Mc	936.0 Mc	939.5 Mc
929.0 Mc			

Stations operating in the band 925–940 Mc must accept any interference that may be experienced from the operation of industrial, scientific and medical equipment.

(c) The frequencies listed in paragraph (b) of this section may be assigned to FM broadcast STL stations in any area where insufficient space in that area is available in the band 940–952 Mc.

(d) FM intercity relay stations may be licensed on any of the frequencies listed in paragraphs (a) and (b) of this section, subject to the condition that no harmful interference is caused to stations operating in accordance with the Table of Frequency Allocations contained in § 2.104 (a) of this chapter.

[1] Shared with other services. See § 2.104 (a) of this chapter.

[12] Such an announcement during program operation of the call letters of the broadcast station with which the remote pickup broadcast station is regularly affiliated.

§ 4.503 *Frequency selection.* (a) Each application for a new station or change in an existing station shall be specific with regard to frequency. In general, the lowest suitable frequency will be assigned which, on an engineering basis, will not cause harmful interference to other stations operating in accordance with existing frequency allocations.

(b) Where it appears that interference may result from the operation of a new station or a change in the facilities of an existing station, the Commission may require a showing that harmful interference will not be caused to existing stations or that if interference will be caused the need for the proposed service outweighs the loss of service due to the interference.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.511 *Administrative procedure.* See §§ 4.11 to 4.33, inclusive.

RULES RELATING TO LICENSING POLICIES

§ 4.531 *Licensing requirements.* (a) An FM broadcast STL station will be licensed only to the licensee of an FM broadcasting station as an auxiliary to a particular FM broadcasting station of that licensee.

(b) A standard broadcast STL station will be licensed only to the licensee of a standard broadcast station as an auxiliary to a particular standard broadcast station of that licensee.

(c) An FM intercity relay station will be licensed only to the licensee of an FM broadcast station and only upon a satisfactory showing that suitable common carrier facilities are not available. An application for construction permit for a new FM intercity relay station or for renewal of license of an existing station shall be accompanied by a verified statement containing the following:

(1) A full statement as to why the applicant requires the requested facilities including reasons why common carrier facilities cannot be utilized; and,

(2) A showing that the applicant has, at the earliest time reasonably practicable, requested the appropriate common carrier or common carriers serving the general area involved to furnish the intercity FM transmission service required by the applicant, including in such showing a copy of the request or requests and of the reply or replies received from such common carriers.

(d) More than one broadcast STL station or FM intercity relay stations will be licensed for use with single broadcast station only upon a showing that, (1) more than one transmitter is required for the effective operation of a single STL or intercity relay circuit due to distance of transmission, terrain anomalies, or similar circumstances; or, (2) more than one STL circuit is needed to connect additional studios or more than one FM intercity relay circuit is needed to connect additional FM broadcast stations in the network; and it is shown that the nature and extent of use of such additional circuits is such as to justify their authorization.

(e) Each station shall be licensed at a fixed location and the direction of radiation of the antenna shall be fixed.

§ 4.532 *Service.* (a) The license of an FM broadcast STL station or a standard broadcast STL station authorizes the relaying of programs from a studio to the transmitter of the broadcast station with which it is licensed, for simultaneous or delayed broadcast: *Provided, however,* That where the licensee of an FM broadcast STL station or a standard broadcast STL station is the licensee of an FM broadcast station and a standard broadcast station in the same city or metropolitan district, the license of each such STL station authorizes the relaying to be made to either or both such broadcast stations.

(b) The license of an FM intercity relay station authorizes the relaying of FM broadcast programs and communications relating thereto between FM broadcasting stations located in different cities in order to provide network FM broadcasting. The operation of FM intercity relay stations is subject to the condition that no harmful interference is caused to other radio stations, present or future, operating in accordance with the Table of Frequency Allocations set forth in § 2.104 (a) of this chapter.

(c) Each FM broadcast STL station, standard broadcast STL station, or FM intercity relay station will be licensed for unlimited time operation.

(d) During periods in which it is not a part of the broadcast circuit, the transmitting equipment may be used for the transmission of communications which pertain to the broadcast operations.[2] Superfluous transmissions are not permitted.

§ 4.533 *Remote control and unattended operation.* (a) Broadcast STL or FM intercity relay stations may be operated by remote control: *Provided,* That such operation is conducted in accordance with the conditions listed in this section: *And provided further,* That the Commission is notified at least 10 days prior to such operation and that such notification is accompanied by a detailed description of the proposed remote control installation showing the manner of compliance with the following conditions:

(1) The operating position shall be under the control and supervision of the licensee and shall be the place at which a licensed operator meeting the requirements of § 4.565 and responsible for the operation of the transmitter is stationed;

(2) A carrier operated device shall be provided at the operating position which shall give a continuous visual indication when the transmitter is radiating; or, in lieu thereof, a device shall be provided which will give a continuous visual indication when any transmitter control circuits have been placed in a condition to produce radiation;

(3) Facilities shall be provided at the operating position which will permit the operator to turn the transmitter carrier on and off at will; and

(4) The transmitter and all of its operating controls shall be so installed and protected that they are not accessible to other than authorized personnel.

(b) FM intercity relay stations, and broadcast STL stations where the circuit requires the use of more than one STL transmitter, may be operated unattended: *Provided,* That such operation is conducted in accordance with the conditions listed below: *And provided further,* That the Commission is notified at least 10 days prior to the beginning of such operation and that such notification is accompanied by a detailed description of the proposed installation showing the manner of compliance with the following conditions:

(1) The transmitter is capable of retransmitting by self-actuating means a radio signal received from another radio station or stations;

(2) The transmitter shall be provided with adequate safeguards to prevent improper operation of the equipment;

(3) The transmitter shall be so installed and protected that it is not accessible to other than duly authorized persons;

(4) Appropriate observations shall be made, at intervals not exceeding one hour during the period of its operations, at the receiving end of the circuit by a person holding a valid first or second class radiotelephone operator license who shall immediately institute measures sufficient to assure prompt correction of any condition of improper operation that is observed; and

(5) The station licensee shall remain responsible for the proper operation of the station, and all adjustments or tests during or coincident with the installation, servicing, or maintenance of the station which may affect its proper operation, shall be performed by or under the immediate supervision and responsibility of a person holding a valid first or second class radiotelephone operator license.

(c) The Commission may notify the licensee not to commence remote control or unattended operation, or to cancel, suspend, or change the date of the beginning of such operation as and when such action may appear to be in the public interest, convenience and necessity.

§ 4.534 *Power limitations.* Broadcast STL and FM intercity relay stations will be licensed with a power output not in excess of that necessary to render satisfactory service. The license for these stations will specify the maximum authorized power. The operating power shall not be greater than necessary to carry on the service and in no event more than 5 percent above the maximum power specified. Engineering standards have not been established for these stations. The efficiency factor for the last radio stage of transmitters employed will be subject to individual determination but shall be in general agreement with values normally employed for similar equipment operated within the frequency range authorized.

§ 4.535 *Emission authorized.* (a) Broadcast STL and FM intercity relay stations normally will be authorized to employ frequency modulation only.

(b) The maximum frequency swing [3] employed shall not be in excess of 200 kilocycles.

§ 4.536 *Directional antenna required.* Each broadcast STL or FM intercity relay station is required to employ a directional antenna. Considering one kilowatt of radiated power as a standard for comparative purposes, such antenna shall provide a free space field intensity at one mile of not less than 435 mv/m in the main lobe of radiation toward the receiver and not more than 20 percent of the maximum value in any azimuth 30 degrees or more off the line to the receiver. Where more than one antenna is authorized for use with a single station, the radiation pattern of each shall be in accordance with the foregoing requirement.

RULES RELATING TO EQUIPMENT

§ 4.551 *Equipment changes.* The licensee of a broadcast STL or FM intercity relay station may make any changes in the equipment that are deemed desirable or necessary provided:

(a) That the operating frequency is not permitted to deviate more than the allowed tolerance;

(b) That the emissions are not permitted outside the authorized band;

(c) That the power output complies with the license and the regulations governing the same; and

(d) That the transmitter as a whole or output power rating of the transmitter is not changed.

RULES RELATING TO TECHNICAL OPERATION

§ 4.561 *Frequency tolerance.* The licensee of each broadcast STL or FM intercity relay station shall maintain the operating frequency of the station within plus or minus 0.005 percent of the assigned frequency.

§ 4.562 *Frequency monitors and measurements.* The licensee of a broadcast STL or FM intercity relay station shall provide the necessary means for determining that the frequency of the station is within the allowed tolerance. The date and time of each frequency check, the frequency as measured, and a description or identification of the method employed shall be entered in the station log. Sufficient observations shall be made to insure that the assigned carrier frequency is maintained within the prescribed tolerance.

§ 4.563 *Station inspection.* The licensee of each broadcast STL or FM intercity relay station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 4.564 *Station and operator license; posting of.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible, in a conspicuous place in the room in which the transmitter is located: *Provided,* That if the transmitter operator is located at a distance from the transmitter pursuant to § 4.533 the station license shall be posted in the above-described manner at the operating position.

(b) The original license of each station operator shall be posted at the place where he is on duty: *Provided, however,* If the original license of a station operator is posted at another radio transmitting station in accordance with the rules governing that class of station and is there available for inspection by an authorized Commission representative, a verification card (Form 758–F) is acceptable in lieu of the posting of such license: *Provided further, however,* That if the operator on duty holds a restricted radiotelephone operator permit of the card form (as distinguished from the diploma form) he shall not post that permit but shall keep it in his personal possession.

§ 4.565 *Operator requirements.* One or more radio operators holding any class of commercial radio operator license or permit shall be on duty at the place where the transmitting apparatus is located, except as provided in § 4.533, and in actual charge of its operation. Further provisions and restrictions concerning the operator's authority are contained in Part 13 of this chapter. The licensed operator on duty and in charge of a broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such stations. However, such duties shall in no wise interfere with the operation of the broadcast transmitter.

§ 4.566 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 4.567 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders in each case as may be deemed necessary.

OTHER RULES RELATING TO OPERATION

§ 4.581 *Station records.* (a) The licensee of each broadcast STL or FM intercity relay station shall maintain adequate records of the operation, including:

(1) Hours of operation.

(2) Program transmitted.

[2] If the transmitter and receiver are equipped with a multiplex circuit, communications during broadcast periods may be authorized upon application therefor. Such a circuit, if used, shall be designed and operated in a manner which will not cause spurious emissions or derogation of the program transmission. Studio to transmitter and transmitter to studio communication may also be provided by equipment operated under the remote pickup broadcast station rules.

[3] The term "frequency swing" means the instantaneous departure of the frequency of the emitted wave from the center frequency resulting from modulation.

(3) Frequency check.
(4) Pertinent remarks concerning transmission.

(b) Where an antenna structure(s) is required to be illuminated see § 17.38 of this chapter.

(c) Station records shall be retained for a period of two years.

§ 4.582 *Station identification.* Each broadcast STL or FM intercity relay station shall announce its call letters at the beginning and end of each period of operation, and during operation, at least once every hour, it shall either announce its call letters or make an announcement [4] which will permit it to be identified.

SUBPART F—RULES GOVERNING TELEVISION AUXILIARY BROADCAST STATIONS

NOTE: The rules in this subpart govern television auxiliary broadcast stations operated by a television broadcast station licensee. The services performed by these stations may be performed for the television broadcast station licensee by a communications common carrier under the rules governing that service.

DEFINITIONS AND ALLOCATION OF FREQUENCIES

§ 4.601 *Definitions.* (a) Television pickup station: A land mobile station used for the transmission of television program material and related communications from the scenes of events occurring at points removed from television broadcast station studios to television broadcast stations.

(b) Television STL station (studio-transmitter link): A fixed station used for the transmission of television program material and related communications from the studio to the transmitter of a television broadcast station.

(c) Television inter-city relay station: A fixed station used for inter-city transmission of television program material and related communications for use by television broadcast stations.

(d) Wherever used in this subpart the term "television broadcast station licensee" includes a television broadcast station permittee.

§ 4.602 *Frequency assignment.* (a) The following frequencies are allocated for assignment to television pickup, television STL, and television inter-city relay stations:

Band A (Mc)	Band B (Mc)	Band C (Mc)	Band D (Mc)	
1990–2008	6875–6900	10500–10525	12700–12725	12950–12975
2008–2025	6900–6925	10525–10550	12725–12750	12975–13000
2025–2042	6925–6950	10550–10575	12750–12775	13000–13025
2042–2059	6950–6975	10575–10600	12775–12800	13025–13050
2059–2076	6975–7000	10600–10625	12800–12825	13050–13075
2076–2093	7000–7025	10625–10650	12825–12850	13075–13100
2093–2110	7025–7050	10650–10675	12850–12875	13100–13125
2450–2467	[1] 7050–7075	10675–10700	12875–12900	13125–13150
2467–2484	[1] 7075–7100	----------	12900–12925	13150–13175
2484–2500	[1] 7100–7125	----------	12925–12950	13175–13200

[1] Pending further order by the Commission, frequencies between 7050 Mc and 7125 Mc will be reserved for use by communications common carriers to provide television pickup and television STL service to television broadcast stations.

[4] Such as announcement during program operation of the call letters of the broadcast station with which the broadcast STL station is operated.

Frequencies shown above between 2450 and 2500 Mc in Band A and between 10,500 and 10,700 Mc in Band C are allocated to accommodate the incidental radiations of industrial, scientific, and medical (ISM) equipment, and stations operating therein must accept any interference that may be caused by the operation of such equipment. ISM frequencies are also shared with other communication services and exclusive channel assignments will not be made, nor is the channeling shown above necessarily that which will be employed by such other services.

(b) Except as provided above each television broadcast station licensee in an area may request the assignment of one channel in Band A or Band B and one channel in Band D on an exclusive basis. In making such exclusive assignments, priority will be based on the filing date of an appropriate application (FCC Form 313) completed in accordance with the instructions thereon. Frequency assignments will normally be made as requested if the requested frequency is not assigned to another licensee on an exclusive basis. However, the Commission reserves the right to assign frequencies other than those requested if, in its opinion, such action is warranted.

(c) Where the relative locations of the studio and transmitter are such as to permit co-channel operation of television STL stations by two or more licensees in the same area such licensees may, by mutual agreement, request the assignment of a common channel for STL use on an exclusive basis. In the event that such a shared assignment is made each participating licensee may request the assignment of an individual exclusive channel in Band A, Band B, or Band D in addition to the shared STL channel.

(d) A television broadcast station licensee will normally be limited to the assignment of not more than three channels in Bands A and B combined, only one of which will be assigned on an exclusive basis: *Provided, however,* That additional channels in Bands A and B may be assigned on a non-exclusive basis upon a satisfactory showing that additional channels are necessary and that such additional channels, if assigned, will not be needed to provide an exclusive channel to some other licensee in the same area within the foreseeable future. The number of channels in Bands C and D that may be assigned to a licensee in a single area is not restricted.

(e) Non-exclusive channel assignments are subject to withdrawal without advance notice to provide an exclusive channel assignment to a licensee pursuant to the provisions of paragraph (b) of this section. The Commission reserves the right to select the non-exclusive channel assignment to be withdrawn; however, withdrawals will normally be made in the following order:

(1) The most recent channel assignment to the licensee having the greatest number of assignments in Band A, B, or D. Determination as to whether the withdrawal shall be made in Band A, Band B, or Band D, will be based on the design of the equipment proposed to be used by the applicant for whom the exclusive channel is required.

(2) Where two or more licensees are assigned individually an equal number of non-exclusive channels in the same band and a greater number of channels in that band than any one of the other licensees, the assignment of most recent date.

(3) In all other cases the assignment of most recent date of a non-exclusive channel.

(f) The use of frequencies in the bands 1990–2110 Mc, 6875–7125 Mc, and 12,700–13,200 Mc, by television inter-city relay stations shall be on a secondary basis and is subject to the condition that no harmful interference is caused to stations operating in accordance with the table of frequency allocations in § 2.104 (a) of this subchapter.

(g) In the event that a television broadcast station licensee engages a communications common carrier to provide television pickup or television STL service, the frequencies available to that licensee may be assigned to the communications common carrier for the purpose of providing such service to that licensee. For the purpose of applying the provisions with respect to exclusive channel assignments and the withdrawal of channels, channels assigned to communications common carriers to provide television pickup or television STL service to an individual television broadcast station licensee will be considered to be assigned to that television broadcast licensee.

§ 4.603 *Sound channels.* (a) The frequencies listed in § 4.602 (a) may be used for the simultaneous transmission of the picture and sound portions of television broadcast programs and for cue and order circuits, either by means of multiplexing or by the use of a separate transmitter within the same channel. When multiplexing of a television STL station is contemplated consideration should be given to the requirements of § 3.687 of the rules governing television broadcast stations regarding the overall system performance requirements. Applications for new television pickup, television STL, and television inter-city relay stations shall clearly indicate the nature of any multiplexing proposed. Multiplexing equipment may be installed on licensed equipment without further authority of the Commission: *Provided,* That the Commission in Washington, D. C., and the Commission's engineer-in-charge of the radio district in which the station is located shall be promptly notified of the installation of such apparatus: *And provided further,* That the installation of such apparatus on a television STL station shall not result in degradation of the overall system performance of the television broadcast station below that permitted by § 3.687 of this subchapter.

(b) The following additional frequencies are allocated for assignment to television STL stations and television inter-city relay stations for the transmission of the sound portion only of television program material or communications relating thereto: [1]

Mc	Mc	Mc	Mc	Mc
890.5	895.0	899.0	903.0	907.0
891.0	895.5	899.5	903.5	907.5
891.5	896.0	900.0	904.0	908.0
892.0	896.5	900.5	904.5	908.5
892.5	897.0	901.0	905.0	909.0
893.0	897.5	901.5	905.5	909.5
893.5	898.0	902.0	906.0	910.0
894.0	898.5	902.5	906.5	910.5
894.5				

Stations operating on these frequencies must accept any interference that may be experienced from the operation of industrial, scientific, and medical equipment in the 890–940 Mc band.

(c) Remote pickup broadcast stations may be used in conjunction with television pickup stations for the transmission of the aural portion of television programs or events that occur outside a television studio and for the transmission of cues, orders, and other related communications necessary thereto. The rules governing remote pickup broadcast stations are contained in Subpart D of this part.

§ 4.604 *Frequency selection to avoid interference.* (a) Applicants for new television pickup, television STL, and television inter-city relay stations shall endeavor to select frequency assignments which will be least likely to result in mutual interference with other licensees in the same area. Consideration should be given to the relative locations of receiving points, normal transmission path, and nature of the contemplated operation.

(b) Because of the more or less continuous nature of the operation of television STL stations, frequency assignments to such stations will normally be designated as the exclusive channel of the licensee pursuant to § 4.602 (b).

(c) Where two or more licensees are assigned a common channel for television pickup, television STL, or television inter-city relay purposes in the same area and simultaneous operation is contemplated, they shall take such steps as may be necessary to avoid mutual interference. If a mutual agreement to this effect cannot be reached, the Commission shall be notified and it will take such action as may be necessary, including time-sharing arrangements, to assure an equitable distribution of available facilities.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.621 *Cross reference.* See §§ 4.11 through 4.23.

§ 4.631 *Purpose of television auxiliary stations.* (a) The license of a television pickup station authorizes the transmission of program material, orders concerning such program material, and related communications necessary to the accomplishment of such transmissions, to its associated television broadcast station,[2] to such other stations as are also broadcasting the same program material, or to the network or networks with which the television broadcast station is affiliated. Television pickup stations may be operated in conjunction with other television broadcast stations not aforementioned: *Provided,* That the transmissions by the television pickup station shall be under the control of the television pickup station licensee and that such operation shall not exceed a total of 10 days in any 30-day period. Television pickup stations may be used to provide temporary studio-transmitter links without further authority of the Commission provided that the installation of the antenna will not increase the height of any existing structure by more than 20 feet. Television pickup stations may not be used in lieu of common carier fixed inter-city video transmission facilities for network operation of two or more television broadcast stations where adequate common carrier fixed inter-city video transmission facilities are available.

(b) The license of a television STL station authorizes the transmission of program material, orders concerning such program material, and related communications necessary to the accomplishment of such transmissions, from the studio or studios of the associated television broadcast station to the transmitter of that station. A television STL station may be authorized to operate in the direction from the transmitter to the studio upon a showing that such operation is necessary and that it may be effected without the assignment of frequencies in addition to those available for assignment to the applicant under the rules in this part.

(c) Television inter-city relay stations provide a means on an interim basis whereby television broadcast licensees may provide their own inter-city television transmission services in connection with the operation of their television broadcast stations. The provision for this service is a purely temporary measure designed to assist the television industry until such time as adequate common carrier facilities are available, and broadcasters who venture into the business of relaying television programs by means of television inter-city relay stations should plan to amortize their investments at the earliest possible date.

§ 4.632 *Licensing requirements.* (a) A license for a television pickup, television STL, or television inter-city relay station will be issued only to the licensee of a television broadcast station.[3] A separate application is required for each transmitter and the application shall be specific with regard to the frequency requested. Except as provided in § 4.604 (b), the first channel assigned in Band A or Band B to a licensee will be considered to be the exclusive assignment provided in § 4.602 (b). Exclusive channel assignments in Band D will be designated only upon request. A licensee may request a change in its exclusive channel assignment only where there are unassigned channels available. In making such changes, the priority set forth in § 4.602 (b) will be observed.

(b) An application for construction permit for a new television inter-city relay station or for renewal of license of an existing station shall be accompanied by a verified statement containing the following:

(1) A full statement as to why the applicant requires the requested facilities including reasons why common carrier facilities cannot be utilized; and,

(2) A showing that the applicant has, at the earliest time reasonably practicable, requested the appropriate common carrier or common carriers serving the general area involved to furnish the inter-city television transmission service required by the applicant, including in such showing a copy of the request or requests and of the reply or replies received from such common carriers.

(c) An application for construction permit for a new television pickup station or for renewal of license of an existing station shall designate the television broadcast station with which it is to be operated and specify the area in which the proposed operation is intended.

(d) In case a licensee has two or more television broadcast stations located in different cities, it shall, in applying for a new television pickup station or for renewal of license of an existing station, designate the television broadcasting station in conjunction with which it is to be operated principally, and it shall not thereafter operate the television pickup station in conjunction with another of its television broadcast stations located in a different city for a total of more than 10 days in any 30-day period.

§ 4.633 *Temporary authorizations.* (a) Special temporary authority may be granted for the operation, as a television auxiliary broadcast station, of equipment licensed to another television broadcast station, or other class of station, or equipment of suitable design not heretofore licensed. Such authority will normally be granted only for special operation of a temporary nature.

(b) A request for special temporary authority for the operation of a television auxiliary broadcast station may be made by informal application, which shall be filed with the Commission at least 10 days prior to the date of the proposed operation: *Provided,* That an application filed within less than 10 days of the proposed operation may be accepted upon a satisfactory showing of the reasons for the delay in submitting the request.

(c) An application for special temporary authority shall set forth full particulars of the purpose for which the request is made, and shall show the type of equipment, power output, emission, and frequency or frequencies proposed to be used, as well as the time, date and location of the proposed operation. In

[1] Shared with other services. See § 2.104 (a) of this chapter.

[2] As used in this subpart, "associated television broadcast station" means a television broadcast station licensed to the licensee of the television auxiliary broadcast station and with which the television auxiliary station is licensed as an auxiliary facility.

[3] The services performed by these stations may be performed for the television broadcast station licensee by a communications common carrier under the rules governing that service.

the event that the proposed antenna installation will increase the height of any natural formation, or existing manmade structure, by more than 20 feet, a vertical plan sketch showing the height of the structure proposed to be erected, the height above ground of any existing structure, the elevation of the site above mean sea level, and the geographic coordinates of the proposed site, shall be submitted with the application.

(d) A request for special temporary authority shall specify a channel or channels consistent with the provisions of § 4.602: *Provided,* That in the case of events of wide-spread interest and importance which cannot be transmitted successfully on these frequencies, frequencies assigned to other services may be requested upon a showing that operation thereon will not cause interference to established stations: *And provided further,* That in no case will a television auxiliary broadcast operation be authorized on frequencies employed for the safety of life and property.

§ 4.634 *Remote control operation.* (a) A television auxiliary station may be operated by remote control provided that such operation is conducted in accordance with the conditions listed below, and provided further that the Commission is notified at least 10 days prior to such operation and that such notification is accompanied by a detailed description of the proposed remote control installation showing the manner of compliance with the following conditions:

(1) The operating position shall be under the control and supervision of the licensee and shall be the place at which a licensed operator, meeting the requirements of § 4.665 and responsible for the operation of the transmitter, is stationed.

(2) A carrier operated device shall be provided at the operating position which shall give a continuous visual indication when the transmitter is radiating; or, in lieu thereof, a device shall be provided which will give a continuous visual indication when any transmitter control circuits have been placed in a condition to produce radiation;

(3) Facilities shall be provided at the operating position which will permit the operator to turn the transmitter carrier on and off at will; and

(4) The transmitter and all of its operating controls shall be so installed and protected that they are not accessible to other than duly authorized personnel.

(b) The Commission may notify the licensee not to commence remote control operation, or to cancel, suspend, or change the date of beginning for such operation as and when such action may appear to be in the public interest, convenience, and necessity.

§ 4.635 *Unattended operation.* (a) Television inter-city relay stations and television STL stations, where the circuit requires the use of more than one STL transmitter, may be operated unattended: *Provided,* That such operation is conducted in accordance with the conditions listed below: *And provided further,* That the Commission is notified at least 10 days prior to the beginning of such operation and that such notification is accompanied by a detailed description of the proposed installation showing the manner of compliance with the following conditions:

(1) The transmitter is capable of retransmitting by self-actuating means a radio signal received from another radio station or stations;

(2) The transmitter shall be provided with adequate safeguards to prevent improper operation of the equipment;

(3) The transmitter shall be so installed and protected that it is not accessible to other than duly authorized persons;

(4) Appropriate observations shall be made, at intervals not exceeding one hour during the period of its operation, at the receiving end of the circuit by a person holding a valid first or second class radiotelephone operator license who shall immediately institute measures sufficient to assure prompt correction of any condition of improper operation that is observed; and

(5) The station licensee shall remain responsible for the proper operation of the station, and all adjustments or tests during or coincident with the installation, servicing, or maintenance of the station which may affect its proper operation, shall be performed by or under the immediate supervision and responsibility of a licensed operator as provided in § 4.665.

(b) The Commission may notify the licensee not to commence unattended operation, or to cancel, suspend, or change the date of the beginning of such operation as and when such action may appear to be in the public interest, convenience, and necessity.

§ 4.636 *Power limitations.* Television auxiliary broadcast stations will be licensed with a power output not in excess of that necessary to render satisfactory service. The license for these stations will specify the maximum authorized power. The operating power shall not be greater than necessary to carry on the service and in no event more than 10 percent above the maximum power specified. Engineering standards have not been established for these stations. The efficiency factor for the last radio stage of transmitters employed will be subject to individual determination but shall be in general agreement with values normally employed for similar equipment operated within the frequency range authorized.

§ 4.637 *Emission and bandwidth.* (a) Television auxiliary broadcast stations operating on frequencies above 1500 Mc may be authorized to employ any type of emission suitable for the transmission of the visual and accompanying aural signals. The emission of such stations shall be confined to the assigned channel.

(b) Television auxiliary broadcast stations operating on frequencies below 1500 Mc may be authorized to employ either frequency modulation or amplitude modulation, or both, depending upon the equipment employed. The emissions of such stations shall be confined to the assigned channel.

RULES RELATING TO EQUIPMENT

§ 4.651 *Equipment changes.* (a) Commission authority upon appropriate formal application (FCC Form 313) therefor is required for any of the following equipment changes:

(1) A change of the transmitter as a whole (except replacement with an identical transmitter), or a change in the power output.

(2) A change of frequency assignment.

(3) A change in the location of a television STL or television intercity relay station (except relocation of the equipment within the same building) or a change in the area of operation of a television pickup station.

(4) Any change in the antenna system of a television STL or television intercity relay station which will result in a change of more than 20 feet in the height above ground of the antenna and supporting structure, or that will result in a change of the direction of the main radiation lobe.

(b) Other equipment changes not specifically referred to above may be made at the discretion of the licensee provided that the engineer-in-charge of the radio district in which the station is located, and the Commission at its Washington office, are notified in writing upon the completion of such changes, and provided that the changes are appropriately reflected in the next application for renewal of license of the television auxiliary broadcast station filed by the licensee.

RULES RELATING TO TECHNICAL OPERATION

§ 4.661 *Frequency tolerance.* (a) The licensee of a television auxiliary broadcast station shall maintain the operating frequency of its station so that the normal sideband energy shall fall within the assigned channel. If transmission is by asymmetrical sideband operation, suitable filters or other devices shall be employed to insure a minimum of radiated energy outside the assigned channel.

(b) Television STL stations operating on frequencies shown in Section 4.603 (b) shall maintain their operating frequency within 0.005 percent of the assigned frequency.

§ 4.662 *Frequency monitors and measurements.* The licensee of a television auxiliary broadcast station shall provide means for measuring the operating frequency in order to insure that the emissions are confined to the authorized channel. The date and time of each frequency check, the frequency as measured and a description or identification of the method employed shall be entered in the station log.

§ 4.663 *Station inspection.* The licensee of each television auxiliary broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 4.664 *Station and operator licenses; posting of.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible in a conspicuous place in the room in which the transmitter is located: *Provided:*

(1) If the transmitter operator is located at a distance from the transmitter pursuant to § 4.634 the station license shall be posted in the above-described manner at the operating position.

(2) If the station is licensed for mobile operation, the station license or a photo copy thereof shall be affixed to the equipment or kept in the possession of the operators on duty at the transmitter. If a photo copy is used the original license shall be available for inspection by an authorized government representative.

(b) The original license of each station operator shall be posted at the place where he is on duty: *Provided, however,* That if the original license of a station operator is posted at another radio transmitting station in accordance with the rules governing that class of station and is there available for inspection by an authorized Commission representative, a duly issued verified statement [4] may be posted at the television auxiliary broadcast station in lieu of such original license: *And provided further,* That if the television auxiliary broadcast station is licensed for mobile [5] operation, a duly issued verification card [6] attesting to the existence of such original license may be carried on the person of the operator in lieu of the posting of such license or verified statement.

§ 4.665 *Operator requirements.* (a) One or more radio operators holding valid radiotelephone first-class or radiotelephone second-class operator licenses shall be on duty at the place where the transmitting apparatus of any television auxiliary broadcast station is located and in actual charge of its operation: *Provided, however,* That if a station is operated by remote control as provided in § 4.634, such operator or operators must be on duty at the control point in lieu of the transmitting location: *And provided further,* That, in case a station is operated unattended as provided in § 4.635 such an operator shall be on duty at the receiving end of the circuit and shall be responsible for the required observations and the proper operation of the station within the terms of its license.

(b) The licensed operator on duty and in charge of a television auxiliary broadcast station may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operators license which he holds and the regulations governing such stations; however, such duties shall in nowise interfere with the operation of the television auxiliary broadcast station.

§ 4.666 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited.* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 4.667 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders in each case as may be deemed necessary.

§ 4.681 *Station logs.* (a) The licensee of each television auxiliary broadcast station shall maintain adequate records of the operation including:

(1) Hours of operation.

(2) Call letters of broadcast station to which program transmitted.

(3) Frequency check.

(4) Pertinent remarks concerning transmission.

(b) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

(c) Station records shall be retained for a period of two years.

§ 4.682 *Station identification.* (a) Each television auxiliary broadcast station shall identify itself by transmitting its call sign at the beginning and end of each period of operation; and during operation, shall identify itself on the hour by transmitting its own call sign or the call sign of the television broadcast station with which it is associated.

(b) Identification transmissions during operation need not be made when to make such transmission would interrupt a single consecutive speech, play, religious service, symphony concert, or any type of production. In such cases, the identification transmission shall be made at the first interruption of the entertainment continuity and at the conclusion thereof.

(c) Where more than one television auxiliary broadcast station is employed in an integrated relay system, the station at the point of origination may originate the transmission of the call signs of all the stations in the relay system.

(d) The transmission of the call sign shall normally employ the type of emission for which the station is authorized, i. e., a visual transmitter shall employ visual identification and an aural transmitter shall employ aural identification: *Provided, however,* When the transmitter is used for visual transmission only, the identifying call sign may be transmitted in international Morse code by keying the radio frequency carrier or a modulating signal impressed on the carrier. The Commission may, at its discretion, specify other methods of identification.

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

In the matter of revision of Part 2 of the Commission's rules and regulations to effect certain editorial changes therein.

The Commission having under consideration the desirability of making certain editorial changes in Part 2 of its rules and regulations; and

It appearing, that the amendments adopted herein are editorial in nature, and therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing, that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i) and (5) (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 20th day of June 1955, that, effective July 1, 1955, Part 2 of the Commission's rules and regulations is revised to include the editorial changes herein and all outstanding amendments adopted as of this date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Basis and purpose. These rules are issued pursuant to Final Acts of the International Telecommunication and Radio Conferences, Atlantic City, 1947, ratified by the United States on June 18, 1948, and Title III of the Communications Act of 1934, as amended. In order

to effectuate the purposes of that act and in particular to make available a rapid, efficient, nationwide, and worldwide wire and radio communication service the rules provide for allocations and terms of assignment and use of frequencies and call letters, and distress, disaster, and emergency radio communication common to all radio stations.

Subpart A—Definitions

Sec.
2.1 Definitions.

Subpart B—Allocation Assignment and Use of Radio Frequencies

2.101 Station symbols.
2.102 Nomenclature of frequencies.
2.103 Assignment of frequencies.
2.104 Frequency allocations.

Subpart C—Emissions

2.201 Emission, modulation and transmission characteristics.
2.202 Bandwidths.

Subpart D—Identification of Radio Communication, and Allocation and Use of Call Signs

2.301 Identification of transmissions.

2.542 Limitation on availability of equipment files for public reference.
2.543 Making available type approved or type accepted equipment for testing or inspection.

Subpart G—Laws and International Treaties and Other Agreements

2.601 Appendix A—Laws, Treaties Agreements and Arrangements Relating to Radio.
2.602 Appendix B—Date and method of entry into force of ITU Radio Regulations (Atlantic City, 1947) listed in Article 47 thereof as not entering into force on 1 January 1949, based on provisions of the Geneva Agreement (Agreement of the Extraordinary Administrative Radio Conference, Geneva, 1951).

AUTHORITY: §§ 2.1 to 2.602 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303.

SUBPART A—DEFINITIONS

§ 2.1 *Definitions.* The following definitions are issued:

Aeronautical advisory station (FAA). An aeronautical station used for advisory and civil defense communications with private aircraft stations.

Aeronautical fixed service. A fixed service intended for the transmission of information relating to air navigation preparation for, and safety of flight.

Aeronautical fixed station (FXA). A station in the aeronautical fixed service.

Aeronautical marker beacon station (RLA). A radionavigation land station in the aeronautical radionavigation service which provides a signal to designate a small area above the station.

Aeronautical mobile service. A mobile service between aircraft stations and aeronautical stations, or between aircraft stations.

Aeronautical radionavigation service. A radionavigation service intended for the benefit of aircraft.

Aeronautical station (FA). A land station in the aeronautical mobile service, carrying on a service with aircraft stations. In certain instances an aeronautical station may be placed on board a ship.

Aeronautical utility land station (FLU). A land station located at airdrome control towers and used for control of ground vehicles and aircraft on the ground at airdromes.

Aeronautical utility mobile station (MOU). A mobile station used for communication, at airdromes, with the aeronautical utility land station, ground vehicles, and aircraft on the ground.

Aircarrier aircraft station (MAA). An aircraft station aboard an aircraft engaged in, or essential to, transportation of passengers or cargo for hire.

Aircraft station (MA). A mobile station installed on board any type of aircraft and continuously subject to human control.

Airdrome control station (FAC). An aeronautical station providing communication between an airdrome control tower and aircraft.

Altimeter station (ROA). A radio navigation mobile station, in the aeronautical radionavigation service, the emissions of which are intended to determine the altitude of the aircraft, aboard which the altimeter station is located, above the earth's surface.

Amateur service. A service of self training, intercommunication and technical investigations carried on by amateurs, that is, by duly authorized persons interested in radio technique solely with a personal aim and without pecuniary interest.

Amateur station (AR). A station in the amateur service.

Authorized frequency. The frequency assigned to a station by the Commission and specified in the instrument of authorization.

Authorized power. The power assigned to a radio station by the Commission and specified in the instrument of authorization. The authorized power does not necessarily correspond to the power used by the Commission for purposes of its Master Frequency Record (MFR) and notification to the Bureau of the International Telecommunications Union.

Aviation services. Aviation services are primarily for the safe, expeditious and economical operation of aircraft. They include the aeronautical fixed service, aeronautical mobile service, aeronautical radionavigation service, and secondarily, the handling of public correspondence to and from aircraft.

Base station (FB). A land station in the land mobile service carrying on a service with land mobile stations.

Broadcasting service. A radiocommunication service of transmissions to be received directly by the general public.

This service may include transmissions of sounds or transmissions by television, facsimile or other means.

Broadcasting station (BC). A station in the broadcasting service.

Carrier. In a frequency stabilized system, the sinusoidal component of a modulated wave whose frequency is independent of the modulating wave; or

The output of a transmitter when the modulating wave is made zero; or

A wave generated at a point in the transmitting system and subsequently modulated by the signal; or

A wave generated locally at the receiving terminal which when combined with the side bands in a suitable detector produces the modulating wave.

Carrier frequency. The frequency of the carrier.

Citizens radio service. A radiocommunication service of fixed, land, or mobile stations, or combinations thereof, intended for use by citizens of the United States for private or personal radiocommunication (including radio signaling, control of objects by radio, and other purposes).

Civil Air Patrol Land Station (FLV). A land station used exclusively for communications of the Civil Air Patrol.

Civil Air Patrol Mobile Station (MOV). A mobile station used exclusively for communications of the Civil Air Patrol.

Coast station (FC). A land station in the maritime mobile service carrying on a service with ship stations.

Common carrier fixed station (FXC). A fixed station open to public correspondence.

Contract developmental station (EXG). An Experimental Station operated by a manufacturer of radiocommunication equipment for the sole and express purpose of developing equipment or a technique to be employed by stations belonging to and operated by the United States.

Developmental fixed station (FXJ). A fixed station operated for the express purpose of developing equipment or a technique solely for use only in that portion of the non-government fixed service which has been specifically allocated the authorized frequency of the developmental fixed station.

Developmental land station (FLA). A land station operated for the express purpose of developing equipment or a technique solely for use only in that portion of the non-government mobile service which has been specifically allocated the authorized frequency of the developmental land station.

Developmental mobile station (MOA). A mobile station operated for the express purpose of developing equipment or a technique solely for use only in that portion of the non-government mobile service which has been specifically allocated the authorized frequency of the developmental mobile station.

Disaster Communications Service. A service of fixed, land, and mobile stations licensed or authorized to provide essential communications incident to or in connection with disaster or other incidents which involve loss of communications facilities normally available or which require the temporary establishment of communications facilities beyond those normally available.

Distance measuring equipment. A radionavigation aid in the aeronautical radionavigation service that determines the distance of an interrogator from a transponder by measuring the time of transmission to and from the transponder.

Domestic fixed service. A fixed service intended for the transmission of information between points, all of which lie within the 48 states and the District of Columbia, except for the domestic haul of international traffic.

Domestic fixed public service. A fixed service, the stations of which are open to public correspondence, for radiocommunication between points all of which lie within: (a) the 48 states and the District of Columbia, or (b) within a single territory or possession of the United States.

Domestic public radiocommunication services. The land mobile and domestic fixed public services the stations of which are open to public correspondence.

Experimental station (EX). A station utilizing Hertzian waves in experiments with a view to the development of science or technique. This definition does not include amateur stations.

Export developmental station (EXE). An experimental station operated by a manufacturer of radiocommunication equipment for the sole and express purpose of developing equipment or a technique to be employed by stations under the jurisdiction of a foreign government.

Facsimile. A system of telecommunication for the transmission of fixed images with a view to their reception in a permanent form.

Facsimile broadcasting station (BCM). A broadcasting station utilizing facsimile primarily.

Fixed public control service. A fixed service carried on for the purpose of transmitting intelligence between transmitting or receiving stations in the Public Radiocommunication Services and the message centers or control points associated therewith.

Fixed service. A service of radiocommunication between specified fixed points.

Fixed station (FX). A station in the fixed service.

Flight test station (FAT). An aeronautical station used for the transmission of essential communication in connection with the testing of aircraft or major components of aircraft.

Flying school station (FAS). An aeronautical station used for radiocommunication pertaining to instructions to students or pilots while actually operating aircraft.

FM broadcast STL station (FXF). A fixed station utilizing telephony to transmit from a studio of an FM broadcasting station to the transmitter of that broadcasting station, programs to be broadcast by that station.

FM broadcasting station (BCF). A broadcasting station utilizing telephony by means of frequency modulation, and when authorized under a Subsidiary Communications Authorization (SCA), utilizing F9 emissions.

FM inter-city relay station (FXM). A fixed station used for the transmission of FM broacasting programs from one FM broadcasting station to other FM broadcasting stations to provide simultaneous network FM broadcasting and operated only by FM broadcast licensees.

Glide path station (RLG). (This term will be defined at a later date.)

Harmful interference. Any radiation or any induction which endangers the functioning of a radionavigation service or of a safety service or obstructs or repeatedly interrupts a radio service operating in accordance with the regulations in this part.

Hertzian waves. Electromagnetic waves of frequencies between 10 kc and 3,000,000 Mc.

Industrial radio services. Any service of radio communication essential to, operated by, and for the sole use of, those enterprises which for purposes of safety or other necessity require radiocommunication in order to function efficiently, the radio transmitting facilities of which are defined as fixed, land or mobile stations.

Industrial, scientific, and medical equipment. Devices which use Hertzian waves for industrial, scientific, medical, or any other purposes including the transfer of energy by radio and which are neither used nor intended to be used for radiocommunication.

Instrument landing system. A system of radionavigation, intended to facilitate aircraft in landing, which provides lateral and vertical guidance, including indications of distance from the optimum point of landing.

International broadcasting station (BCI). A broadcasting station employing frequencies allocated to the broadcasting service between 5950 kc and 26100 kc, whose transmissions are intended to be received directly by the general public in foreign countries.

International control station (FXI). A fixed station in the fixed public control service associated directly with the international fixed public radiocommunication service.

International fixed public radiocommunication service. A fixed service, the stations of which are open to public correspondence and which is intended to provide radiocommunication between the United States and its territories and foreign or overseas points.

Interzone station (FXY). A fixed station in the public safety (police) radio service using radiotelegraphy (A1 emission) for communication with zone stations within the zone and with interzone stations in other zones.

Kc (kilocycle). A kilocycle (kc) means one kilocycle per second and is equal to one thousand cycles per second.

Land mobile service. A mobile service between base stations and land mobile stations, or between land mobile stations.

Land mobile station (ML). A mobile station in the land mobile service capable of surface movement within the geographical limits of a country or continent.

Land Radiopositioning station (PL). A station in the radiolocation service, other than a radionavigation station, not intended for operation while in motion.

Land station (FL). A station in the mobile service not intended for operation while in motion.

Land transportation radio services. Any service of radio communication operated by, and for the sole use of certain land transportation carriers, the radio transmitting facilities of which are defined as fixed, land, or mobile stations.

Localizer station (RLL). A radionavigation land station in the aeronautical radionavigation service which provides signals for the lateral guidance of aircraft with respect to a runway center line.

Loran station (RLN). A long distance radionavigation land station transmitting synchronized pulses. Hyperbolic lines of position are determined by the measurement of the difference in the time of arrival of these pulses.

Marine radio beacon station (RLM). A radionavigation land station, the emissions of which are intended to enable a ship station to determine its bearing or its direction in relation to the marine radio beacon station.

Maritime mobile service. A mobile service between ship stations and coast stations, or between ship stations.

Maritime radionavigation service. A radionavigation service intended for the benefit of ships.

Mc (megacycle). A megacycle (Mc) means one thousand kilocycles.

Meteorological aids service. A service of emissions of special radio signals intended solely for meteorological, including hydrological, observations and exploration.

Meteorological radar station (WXD). A station in the meteorological aids service, employing radar, not intended for operation while in motion.

Mobile, except television pickup, station (MOZ). Any mobile station other than a television pickup station.

Mobile radiopositioning station (PO). A station in the radiolocation service, other than a radionavigation station, intended to be used while in motion or during halts at unspecified points.

Mobile service. A service of radiocommunication between mobile and land stations, or between mobile stations.

Mobile station (MO). A station in a mobile service intended to be used while in motion or during halts at unspecified points.

Modulation. The process of producing a wave some characteristic of which varies as a function of the instantaneous value of another wave, called the modulating wave.

Omni directional range station (RLO). A radionavigation land station in the aeronautical radionavigation service providing direct indication of the bearing (omni bearing) of that station from an aircraft.

Operational fixed station (FXO). A fixed station, not open to public correspondence, operated by and for the sole use of those agencies operating their own radiocommunication facilities in the Public Safety, Industrial, Land Transportation, Marine, or Aviation Service.

Primary standard of frequency. The primary standard of frequency for radio frequency measurements shall be the national standard of frequency maintained by the National Bureau of Standards, Department of Commerce, Washington, D. C. The operating frequency of all radio stations will be determined by comparison with this standard or the standard signals of station WWV of the National Bureau of Standards.

Private aircraft station (MAP). An aircraft station on board an aircraft not operated as an air carrier.

Public correspondence. Any telecommunication which the offices and stations, by reason of their being at the disposal of the public, must accept for transmission.

Public radiocommunication services. The land mobile and fixed services the stations of which are open to public correspondence.

Public safety radio service. Any service of radiocommunication essential to either the discharge of non-federal governmental functions relating to public safety responsibilities or the alleviation of an emergency endangering life or property, the radio transmitting facilities of which are defined as fixed, land, or mobile stations.

Racon. A radionavigation system transmitting, automatically or in response to a predetermined received signal, a pulsed radio signal with specific characteristics.

Racon station (RLC). A radionavigation land station which employs a racon.

Radar. Radiolocation system where transmission and reception are carried out at the same location, and which utilizes the reflecting or retransmitting properties of objects in order to determine their positions.

Radio. A general term applied to the use of Hertzian waves.

Radiobeacon station. A radionavigation station the emissions of which are intended to enable a mobile station to determine its bearing or its direction in relation to the radiobeacon station.

Radiocommunication. Any telecommunication by means of Hertzian waves.

Radio direction finding. Radiolocation in which only the direction of a station is determined by means of its emissions.

Radio direction finding station (RG). A radiolocation station intended to determine only the direction of other stations by means of transmissions from the latter.

Radiolocation. Determination of a position or of a direction by means of the constant velocity or rectilinear propagation properties of Hertzian waves.

Radiolocation service. A service involving the use of radiolocation.

Radiolocation station. A station in the radiolocation service.

Radionavigation. Radiolocation intended solely for the determination of position or direction or for obstruction warning, in navigation.

Radionavigation land station (RL). A station in the radionavigation service not intended for operation while in motion.

Radionavigation mobile station (RO). A station in the radionavigation service intended to be used while in motion or during halts at unspecified points.

Radionavigation service. A radiolocation service involving the use of radionavigation.

Radionavigation station. A station in the radionavigation service.

Radio range station (RLR). A radionavigation land station in the aeronautical radionavigation service providing radial equisignal zones.

Radiosonde. An automatic radio transmitter in the meteorological aids service usually carried on an aircraft, free balloon, kite or parachute, which transmits meteorological data.

Radiosonde station (WXR). A station in the meteorological aids service employing a radiosonde.

Remote pickup broadcast base station (FBR). A base station, licensed for the transmission of program material from remote points of origination to a broadcasting station for simultaneous or delayed broadcasting and for the transmission of orders pertaining to such programs.

Remote pickup broadcast mobile station (MLR). A land mobile station, licensed for the transmission of program material from remote points of origination to a broadcasting station for simultaneous or delayed broadcasting and for the transmission of orders pertaining to such programs.

Ship station (MS). A mobile station in the maritime mobile service located on board a vessel which is not permanently moored.

Standard broadcast station (BCS). A broadcasting station operated on a frequency in the band 535–1605 kilocycles.

Standard frequency service. A radiocommunication service for the transmission of standard and specified frequencies of known high accuracy, intended for general reception.

Standard frequency station (SS). A station in the standard frequency service.

Surveillance radar station (RLS). A radionavigation land station in the aeronautical radionavigation service employing radar to display the presence of aircraft within its range.

Telecommunication. Any transmission, emission or reception of signs, signals, writing, images, and sounds or intelligence of any nature by wire, radio, visual or other electromagnetic systems.

Telegraphy. A system of telecommunication for the transmission of written matter by the use of a signal code.

Telemetering. Automatic radiocommunication, in a fixed or mobile service intended to indicate or record a measurable variable quantity at a distance.

Telemetering fixed station (FXE). A fixed station, the emissions of which are used for telemetering.

Telemetering land station (FLE). A land station, the emissions of which are used for telemetering.

Telemetering mobile station (MOE). A mobile station, the emissions of which are used for telemetering.

Telephony. A system of telecommunication set up for the transmission of speech, or in some cases, other sounds.

Television. A system of telecommunication for transmission of transient images of fixed or moving objects.

Television broadcasting station (BCT). A broadcasting station utilizing both television and telephony to provide combination and simultaneous visual and aural programs intended to be received directly by the general public.

Television inter-city relay station (FXN). A fixed station used for inter-city transmission of television program material and related communications for use by television broadcast stations.

Television pickup station (MLT). A land mobile station used for the transmission of television program material and related communications from the scenes of events occurring at points removed from television broadcast station studios to television broadcast stations.

Television STL station (studio-transmitter link) (FXT). A fixed station used for the transmission of television program material and related communications from a studio to the transmitter of a television broadcast station.

Zone station (FXZ). A fixed station in the public safety (police) radio service using radiotelegraph (A1 emission) for communication with other similar stations in the same zone and with an interzone station.

SUBPART B—ALLOCATION ASSIGNMENT AND USE OF RADIO FREQUENCIES

§ 2.101 *Station symbols.* The following symbols shall be used to designate the several classes of stations:

Symbol	Class of station
AR	Amateur station.
BC	Broadcasting station.
BCF	FM broadcasting station.
BCI	International broadcasting station.
BCM	Facsimile broadcasting station.
BCS	Standard broadcast station.
BCT	Television broadcasting station.
EX	Experimental station.
EXE	Export developmental station.
EXG	Contract developmental station.
FA	Aeronautical station.
FAA	Aeronautical advisory station.
FAC	Airdrome control station.
FAS	Flying school station.
FAT	Flight test station.

Symbol	Class of station
FB	Base station.
FBR	Remote pickup broadcast base station.
FC	Coast station.
FL	Land station.
FLA	Developmental land station.
FLE	Telemetering land station.
FLU	Aeronautical utility land station.
FLV	Civil air patrol land station.
FX	Fixed station.
FXA	Aeronautical fixed station.
FXC	Common carrier fixed station.
FXE	Telemetering fixed station.
FXF	FM broadcast STL station.

WXD	Meteorological radar station.
WXR	Radiosonde station.

§ 2.102 *Nomenclature of frequencies.* Frequencies shall be expressed in kilocycles per second (kc) at and below 30,000 kilocycles per second and in megacycles per second (Mc) above this frequency.

Frequency subdivision	Frequency range
VLF (very low frequency)	Below 30 kc.
LF (low frequency)	30 to 300 kc.
MF (medium frequency)	300 to 3,000 kc.
HF (high frequency)	3,000 to 30,000 kc.
VHF (very high frequency)	30,000 kc. to 300 Mc.
UHF (ultra high frequency)	300 Mc. to 3,000 Mc.
SHF (super high frequency)	3,000 Mc. to 30,000 Mc.
EHF (extremely high frequency)	30,000 Mc. to 300,000 Mc.

§ 2.103 *Assignment of frequencies.* (a) Except as otherwise provided in this section the assignment of frequencies and bands of frequencies to all stations and classes of stations and the licensing and authorizing of the use of all such frequencies between 10 kc. and 30,000 Mc., and the actual use of such frequencies for radiocommunication or for any other purpose, including the transfer of energy by radio, shall be in accordance with the table of frequency allocations herein, except that in individual cases the Commission may, without rule-making proceedings, authorize, on a temporary basis only, the use of a frequency or frequencies not in accordance with the table below for projects of short duration or emergencies where the Commission finds that important or exceptional circumstances require such utilization: *Provided,* That no such authorization will be granted where harmful interference would be caused thereby to any service operating in accordance with the table of frequency allocations: *And provided further,* That such authorizations are not intended to develop a service to be operated on frequencies other than those allocated such service in the table of frequency allocations.[1]

[1] From time to time when the Commission moves a service from one band to another it provides that existing stations may continue on the old band for a certain length of time, usually in order to provide for the amortization of equipment. Nothing in this section shall be construed as inconsistent with such authorizations.

(b) Experimental stations, for the development of techniques or equipment to be employed by services or classes of stations set forth in columns 8 and 9 of the table of frequency allocations in § 2.104 (a), may be authorized to use frequencies allocated to those services or classes of stations: *Provided,* That no harmful interference will be caused to the services or stations to which these frequencies are regularly assigned.

(c) The use of frequencies in the bands above 25 Mc allocated exclusively to Government stations and the use of frequencies below 25 Mc which may not be in accordance with § 2.104 (a) may be authorized to non-Government stations in those instances where the Commission finds, after consultations with the appropriate Government agency or agencies, that such assignment is necessary for intercommunication with Government stations or where such use by non-Government stations is required for coordination with Government activities.

(d) Aircraft stations may use those frequencies below 30 Mc allocated to the maritime mobile service as shown in column 8 of § 2.104 (a) (5) in accordance with paragraphs 570 and 571 of the Atlantic City 1947 Radio Regulations which are quoted herewith:

570 (1) Aircraft stations may communicate with stations of the maritime mobile service.

571 (2) For this purpose only, they may utilize frequencies allocated to the maritime mobile service and must then conform to the provisions of these Regulations relating to the maritime mobile service.

§ 2.104 *Frequency allocations.*—(a) *Table of frequency allocations.* (1) In the table of frequency allocations below 25 Mc, the authority extended to stations in the fixed service, unless otherwise specified, extends only to those stations in the following categories of service:

(i) Aeronautical fixed;

(ii) Fixed (in Territories);

(iii) International fixed public;

(iv) Fixed service which, as of January 1, 1952, had station assignments on the frequencies 2848, 4245, 5365, 7625, and 7690 kc.

(2) In the table of frequency allocations between 5000 and 25,000 kc, the authority extended to stations in the mobile service, unless otherwise specified, extends only to those stations in the following categories of service:

(i) Aeronautical mobile;

(ii) Maritime mobile.

(3) In the table of frequency allocations below 25,000 kc (25 Mc):

(i) Stations assigned, as of January 1, 1955, on frequencies in the bands shown below, operating in a service other than indicated in column 8 for the frequency concerned, but operating in accordance with the Cairo table of frequency allocations, may continue to be authorized to use these frequencies only until the Atlantic City table of frequency allocations comes into force.

(kc)	(kc)
2495–2850	5550–5680
3025–3400	7300–8195
4238–4700	8476–8745
4750–5450	11400–11700
5480–5500	

(ii) Stations in services shown in column 8, in bands for which the Atlantic City table of frequency allocations is not yet in force, shall observe the provisions with respect to non-interference contained in paragraph 79 of the Cairo, 1938, Radio Regulations.

(iii) The Commission may authorize on a temporary basis only, the use of a frequency contained in the bands indicated in subdivision (i) of this subparagraph for the special purpose of assisting the implementation of the Atlantic City, 1947, Radio Regulations. Stations which may be so authorized shall observe the non-interference conditions of paragraph 79 of the Cairo, 1938, Radio Regulations or paragraph 88 of the Atlantic City, 1947, Radio Regulations, depending upon which international allocation is in effect for the frequency so authorized.

(4) The effective dates of the Atlantic City table of frequency allocations are as follows:

Frequency band (kc):	Effective date
14–55	Aug. 15, 1952
55–150	Aug. 15, 1952
150–200	Dec. 1, 1952
200–535	Nov. 1, 1952
535–1605	Dec. 1, 1952
1605–2000	Jan. 1, 1952
2000–25,000	[1]

[1] Date to be determined.

(5) The following is the table of frequency allocations.

FOOTNOTES

ATLANTIC CITY FOOTNOTES

(110) Limited to coastal telegraph stations using unmodulated emission (A1 only).

(112) The development of long distance radionavigation systems is authorized in this band which will become exclusively allocated wholly or in part for the use of any one such system as soon as it is internationally adopted. Other considerations being equal, preference should be given to the system requiring the minimum bandwidth for world-wide service and causing the least harmful interference to other services. If a pulse radionavigation system is employed, the pulse emissions nevertheless must be confined within the band, and must not cause harmful interference outside the band to stations operating in accordance with the Regulations.

During the experimental period prior to the international adoption of any long distance radionavigation system in this band, the rights of existing stations operating in this band will continue to be recognized.

(115) Limited to ship stations (telegraphy exclusively).

(116) The fixed service is authorized, provided no harmful interference is caused to ship telegraphy in the North Atlantic and the Mediterranean areas.

(124) Priority is given to the aeronautical fixed service in northern areas which are subject to auroral disturbances.

(125) Priority is given to the aeronautical radionavigation service in Region 2, China, India and Pakistan.

(127) In Region 2, the aeronautical radionavigation service is permitted in the band 285–325 kc provided that no harmful interference is caused to the maritime radionavigation service.

(129) The aeronautical radionavigation service has priority except in New Zealand.

(133) The frequency 410 kc is designated for the maritime radionavigation service (radio direction-finding). Other services shall not cause harmful interference to radio direction finding.

(137) In Region 2, in addition to the provisions of Note 133, the aeronautical radionavigation service has priority over the aeronautical mobile service.

(139) Limited to telegraphy.

(140) The frequency 500 kc is the international distress and calling frequency. The conditions for its use are prescribed in article 33 of the Radio Regulations (Atlantic City, 1947).

(147) In any particular area the Loran system of radionavigation operates either on 1850 or 1950 kc, the band occupied being 1800–1900 kc or 1900–2000 kc. Any of the authorized services may employ whichever of these two bands is not required for Loran on the condition that they do not cause harmful interference to Loran.

(148) The frequency 2182 kc is the distress and calling frequency for the maritime mobile service (telephony). The interested administrations will insure by special arrangement where necessary, that an adequate guard-band is provided. The conditions for the use of this frequency are prescribed in article 34 of the Radio Regulations (Atlantic City, 1947).

(149) For the explanation of the terms "Aeronautical mobile (R)" and "Aeronautical mobile (OR)" see 256 and 257.

(150) For the conditions of use of this band by the broadcasting service see 243, 244 and 250–254 (in article 5 of the Radio Regulations, Atlantic City, 1947).

(151) In Region 2, provision will be made for coastal telegraphy in the maritime mobile service by special arrangement.

(152) The standard frequency is 2500 kc.

(155) The band 4063–4438 kc may be used, exceptionally and on the essential condition that harmful interference is not caused to the maritime mobile service, by fixed stations of mean power not exceeding 50 watts communicating only within the national boundaries of the countries concerned. At the time of notification of these cases the attention of the International Frequency

Registration Board is drawn to the above condition.

(156) The standard frequency is 5000 kc.

(157) The band 6200–6525 kc may be used, exceptionally and on the essential condition that harmful interference is not caused to the maritime mobile service by fixed stations of mean power not exceeding 50 watts communicating only within the national boundaries of the countries concerned. At the time of notification of these cases the attention of the International Frequency Registration Board is drawn to the above condition.

(161) The standard frequency is 10,000 kc.

(163) Between 12,925 and 13,200 kc the U. S. S. R. will meet their special requirements for the fixed service with due regard to technical provisions (power, location, antenna, etc.) with a view to minimizing the possibility of harmful interference with the maritime mobile service. Coast stations in the maritime mobile service will also have due regard to technical provisions (power, location, antenna, etc.), with a view to minimizing the possibility of harmful interference with the fixed service in the U. S. S. R. The International Frequency Registration Board will be consulted regarding these arrangements.

(164) The frequency 13,560 kc is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of ±0.05% of this frequency. Radiocommunication services operating within these limits must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

(166) The standard frequency is 15,000 kc.

(167) Between 17,160 and 17,360 kc, the U. S. S. R. will meet their special requirements for the fixed service with due regard to technical provisions (power, location, antenna, etc.) with a view to minimizing the possibility of harmful interference with the maritime mobile service. Coast stations in the maritime mobile service will also have due regard to technical provisions (power, location, antenna, etc.) with a view to minimizing the possibility of harmful interference with the fixed service in the U. S. S. R. The International Frequency Registration Board will be consulted regarding these arrangements.

(168) The standard frequency is 20,000 kc.

(169) Inter-ship telegraphy in the maritime mobile service is permitted in the band 23,350–24,000 kc.

(170) The standard frequency is 25 Mc.

(171) The frequency 27.12 Mc is designated for industrial, scientific, and medical purposes. Emissions must be confined within the limits of ±0.6 percent of that frequency. Radiocommunication services operating within those limits must accept any harmful interference that may be experienced from the operation of industrial, scientific, and medical equipment.

(172) In Region 2, Australia, New Zealand, the Union of South Africa, and the territory under mandate of Southwest Africa, the amateur service will operate within the band 26.96–27.23 Mc.

(176) The frequency 40.68 Mc is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of ±0.05% of that frequency. Radiocommunication services operating within those limits must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

(184) The frequency 75 Mc is designated for aeronautical marker beacons. In Region 1, the guard band is ±0.2 Mc; in Regions 2 and 3, ±0.4 Mc.

(195) The frequency 121.5 Mc is the aeronautical emergency frequency in this band.

(198) The frequency 156.80 Mc is designated for world-wide use for safety, calling and intership and harbor control communications in the maritime mobile service (simplex telephony). Any other use of this frequency should be avoided in areas where such other use is liable to cause harmful interference to the maritime mobile service. The interested administrations will ensure, by special arrangements where necessary, that an adequate guard band is provided. In Region 2, its use for this purpose will be restricted to the frequency modulated type of transmission (F3) and it is strongly recommended that the same type of transmission be adopted for this purpose in Regions 1 and 3.

(208) The meteorological aids service (radiosonde) may be operated in the band 400–420 Mc.

(210) In the band 420–460 Mc the aeronautical radionavigation service has priority. The other services are admitted to this band only on condition that harmful interference is not caused to the aeronautical radionavigation service.

(211) In Region 2, the allocation for the aeronautical radionavigation service in the band 420–460 Mc is temporary and is exclusively for altimeters.

(212) In Region 2, the frequency 915 Mc is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of ±25 Mc of that frequency. Radiocommunication services operating within those limits must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

(214) In Region 2, the fixed service may operate in the band 890–940 Mc.

(216) In Region 2, the band 1300–1660 Mc is intended for an integrated system of electronic aids to air navigation and traffic control. Administrations of the other Regions should envisage the possibility of the future application of such a system on a world-wide basis.

(218) In Region 2 and the United Kingdom, the use of the band 1300–1365 Mc is restricted to surveillance radar.

(220) In Region 2, Australia, New Zealand, Northern Rhodesia, Southern Rhodesia, the Union of South Africa, the territory under mandate of Southwest Africa, and the United Kingdom, the frequency 2450 Mc is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of ±50 Mc of that frequency. Radiocommunication services operating within those limits must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

(222) The meteorological aids service may be operated in the band 2700–2900 Mc.

(223) The band 3246–3266 Mc is designated for racons.

(224) In the band 2900–3300 Mc shipborne radar in merchant ships is confined within the band 3000–3246 Mc.

(226) The band 5440–5460 Mc is designated for racons.

(227) In the band 5250–5650 Mc shipborne radar in merchant ships is confined within the band 5460–5650 Mc.

(228) In Region 2, Australia, New Zealand, Northern Rhodesia, Southern Rhodesia, the Union of South Africa, the territory under mandate of Southwest Africa, and the United Kingdom the frequency 5850 Mc is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of ±75 Mc of that frequency. Radiocommunication services operating within those limits must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

(230) The band 9300–9320 Mc is designated for racons.

(231) In the band 8500–9800 Mc shipborne radar in merchant ships is confined within the band 9320–9500 Mc.

(239) In certain cases, for which provision is made in articles 33 and 34 (of the Radio Regulations, Atlantic City, 1947), aircraft stations are authorized to use frequencies in the maritime mobile bands between 4000 and 23,000 kc for the purpose of entering into communication with stations of the maritime mobile service.

(256) Frequencies in any band allocated to the aeronautical mobile (R) service are reserved for communications between any aircraft and those aeronautical stations primarily concerned with the safety and regularity of flight along national or international civil air routes.

(259) The band 328.6–335.4 Mc is for the use of the Instrument Landing System (glide path).

(260) The band 4200–4400 Mc is for the use of radio altimeters.

(261) The band 5000–5250 Mc is for the use of instrument landing systems.

(269) In Region 2, the frequency band 2088.5–2093.5 kc is reserved exclusively for calling (telegraphy only).

(277) The frequency 8364 kc is designated for the use of survival craft equipped to transmit on frequencies between 4000 and 23,000 kc and wishing to establish, with stations of the maritime mobile service, communications relating to search and rescue.

NG FOOTNOTES

NG1 On the condition that harmful interference will not be caused to services operating in accordance with the table of frequency allocations, the following classes of stations may be authorized to use frequencies in this band: (1) Experimental stations engaged solely in scientific or technical radio experiments not related to an existing or proposed service nor intended to develop a proposed service or specific use of radio, (2) contract developmental stations, and (3) export developmental stations.

NG2 Emissions from industrial, scientific, and medical equipment using the frequency 27.12 Mc must be confined to the band 26.96–27.28 Mc.

NG3 Operational fixed stations may be authorized to use frequencies in this band in accordance with columns 10 and 11 of the table of frequency allocations, on the condition that harmful interference will not be caused to the reception of television stations on channels 4 or 5. In any area in the continental United States, the Aviation service and Marine service may each be authorized to use four of the frequencies in the band 72–76 Mc listed in column 10 for operational fixed stations in these services.

NG4 Facsimile broadcasting stations may be authorized in the band 88–108 Mc.

NG5 Fixed stations in the Domestic Fixed Public service may be authorized to use any of the frequencies in the band 72–76 Mc indicated in column 10, on the conditions that (a) harmful interference will not be caused to the reception of television stations on channels 4 or 5 and (b) that harmful interference will not be caused to operational fixed stations.

NG6 The use of the frequencies in the block 152.87–153.35 Mc may be authorized, in any area, to Remote Pickup broadcast base and mobile stations on the condition that harmful interference will not be caused to the Industrial Radio services.

NG7 The use of the frequencies 156.27, 156.33, 156.39, 156.45, 156.51, 156.57, 156.63, 156.69, 156.75, 156.87, 156.93, 156.99, 157.05, 157.11, 157.29, 157.35, 157.41, 157.47, 161.85, 161.91, and 161.97 Mc may be authorized to base and land mobile stations in the Public Safety Radio Services on the condition that no harmful interference will be caused to the Maritime Mobile Service except that on the frequencies 157.05 and 157.11 Mc this authority may be extended only to those stations authorized prior to April 28, 1952, Public Safety Service operations at points within 150 statute miles of coastal areas and navigable gulfs, bays, rivers, and lakes may be authorized only after factual finding indicates that, on an engineering basis, no harmful interference will be caused to the Maritime Mobile Service.

NG8 The international intership service has priority on this frequency.

NG9 The international port operational service, on a simplex basis, has priority on this frequency.

NG10 The frequency 156.80 Mc has been designated for world-wide use for safety, calling and intership and harbor control communications in the maritime mobile service.

NG11 The use of the frequencies in the block 159.51–161.79 Mc may be authorized to base and land mobile stations in the Public Safety Radio Services, in any area, on the condition that harmful interference will not be caused to stations in the Railroad Radio Service.

NG12 Only those land stations which communicate with mobile (except television pickup) stations, are authorized to use frequencies in this band.

NG13 Frequencies in this band will be selected for assignment in such a manner that, on an engineering basis, the lowest frequency in the band is assigned which will not cause harmful interference to stations in that area already assigned frequencies in accordance with the table of frequency allocations.

NG14 Interim FM relay stations may be authorized to use the band 940–952 Mc on the condition that harmful interference will not be caused to stations operating in accordance with the table of frequency allocations.

NG15 Frequencies in this band will be selected for assignment in such a manner that, on an engineering basis, the highest frequency in the band is assigned which will not cause harmful interference to stations in that area already assigned frequencies in accordance with the table of frequency allocations.

NG16 Television inter-city relay stations may be authorized to use frequencies in this band on the condition that harmful interference will not be caused to stations operating in accordance with the table of frequency allocations.

NG17 Land radiopositioning stations and mobile radiopositioning stations, including speed measuring devices, may be authorized to use frequencies in the band 2450–2500 Mc on the condition that harmful interference will not be caused to the fixed and mobile services.

NG18 Land radiopositioning stations and mobile radiopositioning stations, excluding speed measuring devices, may be authorized to use frequencies in this band on the condition that harmful interference will not be caused to the radionavigation service.

NG19 In the Chicago area only, the frequency 161.85 Mc may be authorized to base and land mobile stations only for train communications in the Railroad Radio Service.

NG20 In those portions of the States of Texas and New Mexico in the area bounded on the south by parallel 31°53' N., on the east by longitude 105°40' W., on the north by parallel 33°24'N., and on the west by longitude 106°40' W., the frequency band 220–225 Mc is not available for use by amateur stations engaged in normal amateur operation between the hours of 0500 and 1800 local time Monday through Friday inclusive of each week. However, the entire frequency band 220–225 Mc shall be available in all areas to those amateur stations authorized to operate in an organized civil defense network during all periods when civil defense emergencies exist and, in addition, special arrangements for civil defense drills between the hours and within the area set forth above may be made upon mutual agreement between the Federal Communications Commission Engineer in Charge at Dallas, Texas, and the Area Frequency Coordinator at White Sands, New Mexico, if it appears necessary to conduct such drills. Such arrangements shall specify dates and times, and will depend upon the degree of use of the frequency band at White Sands at any particular time.

NG21 For radiolocation activities of the petroleum industry only, land radiopositioning stations and mobile radiopositioning stations may be authorized to use frequencies in this band, provided that such use (a) shall be limited to locations within 150 miles of the shoreline of the Gulf of Mexico, (b) shall be subject, internationally, to the provisions of paragraph 88 of the Atlantic City, 1947, Radio Regulations and to the use-in-derogation provisions of Article 7 of the Cairo General Radio Regulations, (c) shall not cause harmful interference to stations in the Disaster Communications Service between the times at New Orleans of sunset and sunrise or at any time during an actual or imminent disaster in any area. Stations in the Disaster Communications Service shall not cause harmful interference to radiopositioning stations between the times at New Orleans of sunrise and sunset except during an actual or imminent disaster in any area.

NG22 Fixed stations in services in column 11, allocated frequencies in this band, may use the frequencies in column 10 allocated to such services on the condition that harmful interference will not be caused to services operating in accordance with the table of frequency allocations.

NG23 (a) The amateur service may use, in any area, whichever bands, 1800–1825, 1875–1900, 1900–1925 or 1975–2000 kc, are not required for Loran in that area, in accordance with the following conditions:

(1) The use of these frequencies by the amateur service shall not be a bar to the expansion of the radionavigation (Loran) service;

(2) The amateur service shall not cause harmful interference to the radionavigation (Loran) service;

(3) Only types A1 and A3 emission shall be employed;

(4) Amateur operation shall be limited to:

Area	Bands (kilocycles)	Direct current plate input power in watts	
		Day	Night
Minnesota, Iowa, Missouri, Arkansas, Louisiana, and States to the east of these States, including District of Columbia.	1800–1825, 1875–1900	500	200

(b) The provisions of (a) above shall be considered as temporary in the sense that they shall remain subject to cancellation or to revision, in whole or in part, by order of the Commission without hearing whenever the Commission shall deem such cancellation or revision to be necessary or desirable in the light of the priority within this band of the Loran system of radionavigation.

NG24 For conditions which apply to the use of this band, refer to the North American Regional Broadcasting Agreement.

NG25 The aeronautical radionavigation service may be authorized the use of the frequencies 1638 kc and 1708 kc only.

NG26 Fixed stations associated with the maritime mobile service may be authorized, for purposes of communication with coast stations, to use frequencies assignable to ship stations in this band on the condition that harmful interference will not be caused to services operating in accordance with the Table of Frequency Allocations.

NG27 Fixed stations in the Public Safety Radio Service may be authorized the use of frequencies in this band which are authorized to base and mobile stations of this service on the condition that harmful interference will not be caused to services operating in accordance with the Table of Frequency Allocations.

NG28 In the Territory of Hawaii, the frequency bands 76–88 Mc and 98–108 Mc are allocated exclusively to the fixed service for use by common carrier fixed stations for inter-island communications only.

NG29 The frequency 2182 kc may be authorized to fixed stations associated with the maritime mobile service for the sole purpose of transmitting distress calls and distress traffic, and urgency and safety signals and messages.

NG31 On the condition that harmful interference will not be caused to services operating in accordance with the table of frequency allocations, land stations authorized and used primarily as coast stations (not open to public correspondence) and associated land mobile stations may be authorized to use, on a secondary basis, the frequencies 156.4, 156.5, and 157.0 Mc: *Provided*, That, in each case, the frequency assignment will be common to the maritime mobile and land mobile services and that the maritime mobile service shall, at all times, have priority.

NG32 The use of frequencies in the band 25.85–26.1 Mc may be authorized in any area to remote pickup broadcast base and mobile stations on the condition that harmful interference is not caused to stations in the broadcast service.

NG33 As a special condition placed upon the use of frequencies in this band, the authority contained in 2.104 (a) (3) does not extend to stations in the broadcasting service.

NG34 The frequency, 6240 kc, may be authorized to ship telephone stations and coast telephone stations operating in the Mississippi River maritime mobile service system on the condition that harmful interference will not be caused to services operating in accordance with the table of frequency allocations.

NG36 Stations in the fixed service in Alaska may continue to be authorized the use of frequencies in this band on the condition that the provisions of Paragraph 88 of the Atlantic City, 1947, Radio Regulations are observed.

NG37 Transmission on the frequency 161.9 Mc by coast stations at Chicago, Illinois, may be authorized on condition that harmful interference is not caused to the Land Transportation Radio Services on 161.85 Mc.

NG38 The frequency 6455 kc may be authorized to ship telephone stations and coast telephone stations operating in the Mississippi River maritime mobile service system on the condition that harmful interference will not be caused to services operating in accordance with the table of frequency allocations.

NG39 Experimental stations used by educational institutions for purposes of technical instruction in, and demonstration of, microwave techniques using pulsed emis-

sions only may be authorized to use frequencies in this band on the condition that harmful interference will not be caused to stations in the Radiolocation Service.

NG41 The frequencies 4067, 4372.4 and 8205.5 kc may be authorized for use by either ship or coast radiotelephone stations operating in the Mississippi River system.

NG42 Stations in the International Fixed Public Radiocommunication Service in Florida, South of 25°30' North Latitude, may be authorized to use frequencies in the band 716–890 Mc on the condition that harmful interference will not be caused to the broadcasting service of any country. This is an interim allocation the termination of which will later be specified by the Commission when it is determined that equipments are generally available for use in bands allocated internationally to the fixed service.

NG44 The spacing between frequency assignments in this band shall be 10 kc. The first and last assignable frequencies are those indicated in column 10.

NG45 The spacing between frequency assignments in this band shall be 20 kc. The first and last assignable frequencies are those indicated in column 10.

NG46 The spacing between frequency assignments in this band shall be 40 kc. The first and last assignable frequencies are those indicated in column 10.

NG47 The spacing between frequency assignments in this band shall be 50 kc. The first and last assignable frequencies are those indicated in column 10.

NG48 The spacing between frequency assignments in this band shall be 60 kc. The first and last assignable frequencies are those indicated in column 10.

NG49 The spacing between frequency assignments in this band shall be 100 kc. The first and last assignable frequencies are those indicated in column 10.

NG50 The spacing between frequency assignments in this band shall be 200 kc. The first and last assignable frequencies are those indicated in column 10.

US FOOTNOTES

US1 Pulsed emissions prohibited.

US2 Emissions from industrial, scientific and medical equipment using the frequency 40.68 Mc must be confined to the band 40.66–40.70 Mc.

US4 The use of the frequency 75 Mc by aeronautical marker beacons is temporary and may be authorized until they are moved to a frequency band allocated for the aeronautical radionavigation service, or until they are no longer required. (See notes 216 and US12).

US5 The frequency assignment plan in effect for both governmental and nongovernmental stations in the band 108–132 Mc is indicated in columns 10 and 11.

US6 Public correspondence in the frequency bands allocated exclusively to the aeronautical mobile service is not permitted.

US8 In the government band 216–220 Mc, the frequencies 217.425 through 217.675 Mc and 219.325 through 219.575 Mc, inclusive, may be authorized for use by non-government telemetering mobile stations aboard aircraft and telemetering land stations, for telemetering to and from aircraft in flight, when an engineering study indicates that harmful interference will not be caused to stations operating in accordance with the table of frequency allocations.

US10 This band is designated for government stations, with adequate channels to be reserved for civil aviation.

US11 The aeronautical radionavigation service will not be permitted to use the band 420–460 Mc after Feb. 15, 1958.

US12 The band 960–1215 Mc is for distance measuring and other functions related to those performed in the band 1365–1660 Mc.

US14 In non-military aviation, it is not anticipated that the altimeter function will be performed in the band 1365–1660 Mc except in coordination with other functions required for an aeronautical radionavigation system.

US15 Emissions from industrial, scientific and medical equipment using the frequency 10600 Mc must be confined to the band 10500–10700 Mc. Sharing by radiocommunication services is to be determined at a later date.

US16 Emissions from industrial, scientific and medical equipment using the frequency 18000 Mc must be confined to the band 17850–18150 Mc. Radiocommunication services operating within the band 17850–18150 Mc must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

US17 Contract developmental stations and export developmental stations may be authorized to use frequencies in this band on the condition that harmful interference will not be caused to services operating in accordance with the table of frequency allocations.

US18 Amateur power to be limited to 50 watts until Feb. 15, 1958.

US19 The use of the frequencies 170.475, 171.425, 171.575 and 172.275 Mc east of the Mississippi River and 170.425, 170.575, 171.475, 172.225 and 172.375 Mc west of the Mississippi River may be authorized to fixed, land and mobile stations operated by non-Federal forest fire fighting agencies. In addition, land stations operated by non-Federal conservation agencies for mobile relay operation only, may be authorized to use the frequency 172.275 Mc east of the Mississippi River and the frequency 171.475 Mc west of the Mississippi River. The use of any of the foregoing nine frequencies shall be on the condition that no harmful interference will be caused to Government Stations.

US20 In order to provide for inter-communication for safety purposes between government and non-government stations in the maritime mobile service, the frequencies 157.1 and 157.2 Mc are allocated exclusively in all areas, to government stations in the fixed and mobile services, and the frequencies 173.225, 173.275, 173.325, 173.375 Mc are allocated exclusively in all areas, to non-government stations in the fixed and land mobile services.

US21 The use of the frequency 148.14 Mc may be authorized to Civil Air Patrol land stations and Civil Air Patrol mobile stations on the condition that harmful interference will not be caused to government stations in the band 148–152 Mc.

US22 The use of the frequencies 166.250 and 170.150 Mc may be authorized to non-government Remote Pickup broadcast base and land mobile stations and to non-government base, fixed, and land mobile stations in the Public Safety Radio services (the sum of the band width of emission and tolerance not to exceed 60 kc) in Continental U. S. only, except within the area bounded on the west by the Mississippi River, on the north by the parallel of latitude 37°30' N., and on the east and south by that arc of the circle with center at Springfield, Ill., and radius equal to the airline distance between Springfield, Ill., and Montgomery, Ala., subtended between the foregoing west and north boundaries, on the condition that harmful interference will not be caused to government stations present or future in the government band 162–174 Mc. The use of these frequencies by Remote Pickup broadcast stations will not be authorized for locations within 150 miles of New York City; and the use of these frequencies by the Public Safety radio services will not be authorized except for locations within 150 miles of New York City.

US24 The use of the frequency 162.0 Mc may be authorized to non-government coast stations only.

US25 For the specific purpose of transmitting hydrological and meteorological data in cooperation with agencies of the federal government, the following frequencies may be authorized to non-government fixed stations on the condition that harmful interference will not be caused to government stations:

Mc.	*Mc.*	*Mc.*	*Mc.*
169.425	170.325	171.825	406.250
169.475	170.375	171.875	406.350
169.525	171.025	171.925	412.450
169.575	171.075	171.975	412.550
170.225	171.125	406.050	412.650
170.275	171.175	406.150	412.750

US26 This frequency band is not available to non-government stations.

US27 The use of the frequency 540 kc is subject to the conditions that no harmful interference is caused to the services operating on 500 kc, and in the band 510–535 kc.

US28 Airdrome control stations may continue to be authorized to use frequencies in this band on the condition that harmful interference will not be caused to services operating in accordance with the table of frequency allocations.

US29 For the specific purpose of transmitting hydrological and meteorological data in cooperation with agencies of the federal government, the frequency 40.68 Mc may be authorized to non-government fixed stations in the states of Pennsylvania and West Virginia on the condition that harmful interference will not be caused to Government stations.

US31 Navigation aids in U. S. and possessions between 200 and 415 kc are normally operated by the U. S. Government. However, authorizations may be made by the Commission for non-government operation in this band subject to the conclusion of appropriate arrangements between the Commission and the government agencies concerned and upon special showing of need for service which the government is not yet prepared to render.

(b) *Stipulation regarding frequencies below 27.5 Mc.* The international table of frequency allocations below 27.5 Mc in force is stipulated by the provisions of paragraphs 1076 and 1077 of the Atlantic City, 1947 Radio Regulations.

(c) *Explanation and instructions regarding use of table.* (1) Columns 1, 2, 3 and 4 of the table of frequency allocations are those stipulated in the Atlantic City Radio Regulations.

(2) In column 6 (above 25 Mc) the letter G means Federal Government radio stations, i. e., those belonging to and operated by the United States. The symbol NG means other than Federal Government radio stations, i. e., those whose frequencies are assigned by the Commission.

(3) Column 10 lists frequencies available for assignment to stations which conform to the nature of service or station listed in column 11 opposite the assignable frequency. The assignment and use of the frequencies listed in column 10 is limited to those stations which, by definition, are included in the services and classes of stations (columns 8 or 9) to which the frequency band (column 7) is allocated.

(4) In column 11 "Services" are in large block print and "Stations" in small print.

(5) The following symbols are used to designate footnotes in the table of frequency allocations.

(i) Any footnote consisting only of digits, e. g., (170), denotes a paragraph in the Atlantic City (1947) Radio Regulations.

(ii) Any footnote consisting of the letters US followed by one or more digits, e. g., US1, denotes a stipulation the application of which is not limited to non-government stations.

(iii) Any footnote consisting of the letters NG followed by one or more digits, e. g., NG1, is a stipulation applicable to the use of a band by non-Government stations.

SUBPART C—EMISSIONS

§ 2.201 *Emission, modulation and transmission characteristics.* The following system of designating emission, modulation and transmission characteristics shall be employed.

(a) The emission characters used in connection with frequency assignments express:

(1) Necessary bandwidth.

(2) Type of modulation or emission.

(3) Type of transmission.

(4) Supplementary characteristics authorized.

(b) Types of modulation and emission are symbolized according to the following letters:

(1) Amplitude modulation	A
(2) Frequency (or phase) modulation	F
(3) Pulsed emission	P

(c) Types of transmission are symbolized according to the following numbers:

(1) Absence of any modulation intended to carry information	0
(2) Telegraphy without the use of modulating audio frequency	1
(3) Telegraphy by the keying of a modulating audio frequency or audio frequencies or by the keying of the modulated emission (special case: an unkeyed modulated emission)	2
(4) Telephony	3
(5) Facsimile	4
(6) Television	5
(7) Composite transmissions and cases not covered by the above	9

(d) Supplementary characteristics are symbolized in accordance with the following letters:

(1) Double sideband, full carrier	(None)
(2) Single sideband, reduced carrier	a
(3) Two independent sidebands, reduced carrier	b
(4) Other emissions, reduced carrier	c
(5) Pulse, amplitude modulated	d
(6) Pulse, width modulated	e
(7) Pulse, phase (or position) modulated	f

(e) The classification of emissions is tabulated below:

Type of modulation or emission	Type of transmission	Supplementary characteristics	Symbol
1. Amplitude.	Absence of any modulation		A0
	Telegraphy without the use of modulating audio frequency (on-off keying).		A1
	Telegraphy by the keying of a modulating audio frequency or audio frequencies or by the keying of the modulated emission (special case: an unkeyed modulated emission).		A2
	Telephony	Double sideband, full carrier	A3
		Single sideband, reduced carrier.	A3a
		Two independent sidebands, reduced carrier.	A3b
	Facsimile		A4
	Television		A5
	Composite transmissions and cases not covered by the above.		A9
	Composite transmissions	Reduced carrier	A9c
2. Frequency (or phase) modulated.	Absence of any modulation		F0
	Telegraphy without the use of modulating audio frequency (frequency shift keying).		F1
	Telegraphy by the keying of a modulating audio frequency or audio frequencies or by the keying of the modulated emission (special case: an unkeyed emission modulated by audio frequency).		F2
	Telephony		F3
	Facsimile		F4
	Television		F5
	Composite transmissions and cases not covered by the above.		F9
3. Pulsed emissions.	Absence of any modulation intended to carry information.		P0
	Telegraphy without the use of modulating audio frequency.		P1
	Telegraphy by the keying of a modulating audio frequency or audio frequencies, or by the keying of the modulated pulse (special case: an unkeyed modulated pulse).	Audio frequency or audio frequencies modulating their pulse in amplitude.	P2d
		Audio frequency or audio frequencies modulating the width of the pulse.	P2e
		Audio frequency or audio frequencies modulating the phase (or position) of the pulse.	P2f
	Telephony	Amplitude modulated pulse	P3d
		Width modulated pulse	P3e
		Phase (or position) modulated pulse.	P3f
	Composite transmissions and cases not covered by the above.		P9

(f) Type B emission. As an exception to the above principles, damped waves are symbolized in the Commission's rules and regulations as type B emission.

§ 2.202 *Bandwidths*—(a) *Necessary bandwidths.* The necessary bandwidth is the width of the frequency band which is necessary in the over-all system, including both transmitter and receiver, for the proper reproduction at the receiver of the desired information, and does not necessarily indicate the interfering characteristics of an emission. For the determination of this necessary bandwidth, the following table may be considered as a guide. In the formulation of the table, the following working terms have been employed:

B = Telegraph speed in bauds.

N = Maximum possible number of black plus white elements to be transmitted per second, in facsimile television.

M = Maximum modulation frequency expressed in cycles per second.

D = Half the difference between the maximum and minimum values of the instantaneous frequencies; D being greater than $2M$, greater than $\frac{N}{T}$ or greater than B, as the case may be. Instantaneous frequency is the rate of change of phase.

t = Pulse length expressed in seconds.

K = An over-all numerical factor which differs according to the emission and depends upon the allowable signal distortion, and, in television, the time lost from the inclusion of a synchronizing signal.

(b) *Table of necessary bandwidths.*

I. AMPLITUDE MODULATION

Description and class of emission	Necessary bandwidth in cycles per second	Examples: Details	Examples: Designation of emission
Continuous wave telegraphy: A1.	BK $K=5$ for fading circuits. $K=3$ for non-fading circuits.	Morse code at 25 words per minute, $B=20$, bandwidth: 100 c/s.	0.1A1
		Four channel multiplex, 7 unit code, 60 words per minute per channel, $B=170$, $K=5$. bandwidth: 850 c/s.	0.85A1
Telegraphy modulated at audio frequency: A2.	$BK+2M$ $K=5$ for fading circuits. $K=3$ for non-fading circuits.	Morse code at 25 words per minute with 1,000-cycle tone, $B=20$. bandwidth: 2,100 c/s.	2.1A2
Commercial telephony: A3.	M, for single sideband	For ordinary single sideband telephony, $M=3,000$.	3A3a
	$2M$, for double sideband	For high-quality single sideband telephony, $M=4,000$.	4A3a
Broadcasting: A3.	$2M$	M may vary between 4,000 and 10,000 depending upon the quality desired.	8A3 to 20A3
Facsimile. Carrier modulated by tone and by keying: A4.	$\frac{KN}{T}+2M$ $K=1.5$	The total number of picture elements (black and white) transmitted per second = the circumference of the cylinder (height of picture) × number of lines per unit length × speed of rotation of cylinder in revolutions per second. Diameter of cylinder = 70 mm. Number of lines per mm = 3.77. Speed of rotation 1 turn per second. Frequency of modulation = 1,800 c/s. Bandwidth: 3,600 + 1,242 = 4,842 c/s.	4.84A4
Television: A5.	$\frac{KN}{T}$ $K=1.5$ (this allows for synchronization and filter shaping). NOTE: This band can be appropriately reduced when asymmetrical transmission is employed.	The total number of picture elements (black and white) transmitted per second = the number of lines forming each image × number of elements per line × number of pictures transmitted per second. Number of lines = 500. Number of elements per line = 500. Number of pictures per second = 25. Bandwidth: approximately 9 Mc/s.	9000A5

II. FREQUENCY MODULATION

Frequency-shift telegraphy: F1.	$BK+2D$ $K=5$ for fading circuits. $K=3$ for non-fading circuits.	Four-channel multiplex with 7-unit code, 60 words per minute per channel: $B=170$. $K=5$. $D=425$. Bandwidth: 1,700 c/s.	1.7F1
Commercial telephony and broadcasting: F3.	$2M+2DK$ For commercial telephony, $K=1$. For high-fidelity transmission higher values of K may be necessary.	For an average case of commercial telephony with: $D=15.000$. $M=3.000$. Bandwidth: 36,000 c/s.	36F3
Facsimile: F4.	$\frac{KN}{T}+2M+2D$ $K=1.5$	(See facsimile, amplitude modulation). Cylinder diameter = 70 mm. Lines per mm = 3.77. Cylinder speed = 1 r. p. s. Modulation tone = 1,800 c/s. $D=10,000$ c/s. Bandwidth: 25,000 c/s (approximately).	25F4

III. PULSED EMISSIONS

Unmodulated pulse: P0.	$2\frac{K}{t}$ K varies from 1 to 10 according to the permissible deviation in each particular case from a rectangular pulse shape. In many cases the value of K does not need to exceed 6.	$t=3\times10^{-4}$ $K=6$ Bandwidth: 4×10^{4} c/s.	4000P0
Modulated pulse: P2 or P3.	The bandwidth depends upon the particular types of modulation used, many of these being still in the development stage.	----------	----------

SUBPART D—IDENTIFICATION OF RADIO COMMUNICATION, AND ALLOCATION AND USE OF CALL SIGNS

§ 2.301 *Identification of transmissions.* For the purpose of identifications, with a view to the elimination of harmful interference and the general enforcement of applicable radio treaties, conventions, regulations, arrangements and agreements in force, and the enforcement of the Communications Act of 1934, as amended, and the Commission's rules, each station using radio frequencies shall identify its transmissions as prescribed by the rules governing the class of station to which it belongs.

§ 2.302 *Table of allocation of call signs.* The table which follows indicates the composition and blocks of international call signs available for assignment when such call signs are required to be transmitted for station identification by the rules pertaining to particular classes of stations. Assignments will be made in each block beginning with the lowest alphabetic and numerical combination available in each call sign district and increasing until requirements are met. When stations operating in two or more classes are authorized to the same licensee, for the same location, the Commission will assign a separate call sign to each station in a different class, according to the following table:

Col. 1 Class of station	Col. 2 Composition of call sign	Col. 3 Call sign blocks available
Coast[1]	3 letters	KAA thru KZZ. WAA thru WZZ.
Aeronautical[2]	3 letters, 1 digit	KAA2 thru KZZ9. WAA2 thru WZZ9.
Fixed,[2] coastal telephone in Alaska	3 letters, 2 digits	KAA20 thru KZZ99. WAA20 thru WZZ99.
Land (other than aeronautical and coast)[2]	3 letters, 3 digits	KAA200 thru KZZ999. WAA200 thru WZZ999.
Mobile telegraph (other than ship and aircraft).	4 letters, 1 digit	KAAA2 thru KZZZ9. WAAA2 thru WZZZ9.
Mobile telephone (other than ship and aircraft).	2 letters, 4 digits	KA2000 thru KZ9999.
Ship telegraph	4 letters	KAAA thru KZZZ. WAAA thru WZZZ.
Ship telephone[3]	2 letters, 4 digits	WA2000 thru WZ9999.
Ship telegraph and telephone	Same as for ship telegraph	
Ship radar[3]	Same as ship telephone	
Ship radar and telegraph	Same as for ship telegraph	
Ship radar and telephone	Same as for ship telephone	
Aircraft telegraph	5 letters	KAAAA thru KYZZZ. WAAAA thru WZZZZ.
Aircraft telephone	Registration Number	
Aircraft telegraph and telephone	Same as for Aircraft telegraph	
Lifeboats, liferafts and other survival craft	Call sign of parent ship or Aircraft plus 2 digits from 20 to 99 inclusive. The parent call sign must in such cases be a 5 letter call, if aircraft, or a 4 letter call, if a ship. See Parts 8 and 9 of this chapter.	
Broadcasting[4] (standard)	4 letters	KAAA thru KZZZ. WAAA thru WZZZ.
Broadcasting (FM)		KAAA thru KZZZ. WAAA thru WZZZ.
Broadcasting (FM) (where the last 2 letters are FM).	5 letters[5]	KAA-FM thru KZZ-FM. WAA-FM thru WZZ-FM.
Do	6 letters	KAAA-FM thru KZZZ-FM. WAAA-FM thru WZZZ-FM.
Broadcasting (television)	4 letters	KAAA thru KZZZ. WAAA thru WZZZ.
Broadcasting (television) (where the last 2 letters are TV).	5 letters[5]	KAA-TV thru KZZ-TV. WAA-TV thru WZZ-TV.
Do	6 letters	KAAA-TV thru KZZZ-TV. WAAA-TV thru WZZZ-TV.
Experimental (where the letter "X" follows the digit).	(2 letters, 1 digit, 3 letters)	KA2XAA thru KZ9XZZ. WA2XAA thru WZ9XZZ.
Amateur (letter X may not follow digit)	(1 letter, 1 digit, 2 letters)	K1AA thru K0ZZ. W1AA thru W0ZZ.
Do	(1 letter, 1 digit, 3 letters)	K1AAA thru K0ZZZ. W1AAA thru W0ZZZ.
Do	(2 letters, 1 digit, 2 letters)	KA1AA thru KZ0ZZ. WA1AA thru WZ0ZZ.
Do	(2 letters, 1 digit, 3 letters)	KA1AAA thru KZ0ZZZ. WA1AAA thru WZ0ZZZ.
Standard frequency		WWV and WWVH.

[1] Except for coastal telephone stations in the Territory of Alaska.
[2] Assignment shall be made according to the call sign district in which the station is located.
[3] See Part 8 of this chapter for assignment of call signs to ships documented by the Customs Bureau of the Treasury Department and provided with distinguishing signals for visual and aural signaling.
[4] Any three-letter call sign now authorized for use by a licensee of a standard broadcast station may continue to be available to such licensee for use by the station to which it now is authorized.
[5] Available only to licensees of Standard broadcast stations already assigned a three-letter call sign.

§ 2.303 *Table of geographic assignment of call signs.* The following geographic allocation of call signs will be used for all fixed, land, and radionavigation land stations except coast stations (other than coastal telephone stations in Alaska).

Call sign area	*Call sequence*[1][2]
Colorado, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota.	KAA–KBZ WAA–WBZ
Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	KCA–KDZ WCA–WDZ
New Jersey, New York	KEA–KFZ WEA–WFZ
Delaware, District of Columbia, Maryland, Pennsylvania	KGA–KHZ WGA–WHZ
Alabama, Georgia, Florida, Kentucky, North Carolina, South Carolina, Tennessee, Virginia.	KIA–KJZ WIA–WJZ
Arkansas, Louisiana, Mississippi, New Mexico, Oklahoma, Texas	KKA–KLZ WKA–WLZ
California	KMA–KNZ WMA–WNZ
Arizona, Idaho, Montana, Nevada, Oregon, Utah, Washington, Wyoming	KOA–KPZ WOA–WPZ
Michigan, Ohio, West Virginia	KQA–KRZ WQA–WRZ
Illinois, Indiana, Wisconsin	KSA–KTZ WSA–WTZ
Pacific areas	KUA–KVZ
Alaska	KWA–KZZ
Atlantic-Caribbean areas	WWA–WWZ

[1] Broadcasting station calls do not follow the sequence of this table.
[2] The first two letters of Experimental Station calls will follow the sequence of this table.

SUBPART E—DISTRESS, DISASTER AND EMERGENCY COMMUNICATIONS

§ 2.401 *Distress messages.* Each station licensee shall give absolute priority to radiocommunications or signals relating to ships or aircraft in distress; shall cease all sending on frequencies which will interfere with hearing a radiocommunication or signal of distress and except when engaged in answering or aiding the ship or aircraft in distress, shall refrain from sending any radiocommunications or signals until there is assurance that no interference will be caused with the radiocommunications or signals relating thereto; and shall assist the ship or aircraft in distress, so far as possible, by complying with its instructions.

§ 2.402 *Control of distress traffic.* The control of distress traffic is the responsibility of the mobile station in distress or of the mobile station which, by the application of the provisions of § 2.403, has sent the distress call. These stations may, however, delegate the control of the distress traffic to another station.

§ 2.403 *Retransmission of distress message.* Any station which becomes aware that a mobile station is in distress may transmit the distress message in the following cases:

(a) When the station in distress is not itself in a position to transmit the message.

(b) In the case of mobile stations, when the master or the person in charge of the ship, aircraft, or other vehicles carrying the station which intervenes believes that further help is necessary.

(c) In the case of other stations, when directed to do so by the station in control of distress traffic or when it has reason to believe that a distress call which it has intercepted has not been received by any station in a position to render aid.

§ 2.404 *Resumption of operation after distress.* No station having been notified to cease operation shall resume operation on frequency or frequencies which may cause interference until notified by the station issuing the original notice that the station involved will not interfere with distress traffic as it is then being routed or until the receipt of a general notice that the need for handling distress traffic no longer exists.

§ 2.405 *Operation during emergency.* The licensee of any station, except amateur, may, during a period of emergency in which normal communication facilities are disrupted as a result of hurricane, flood, earthquake, or similar disaster, utilize such station for emergency communication service in communicating in a manner other than that specified in the instrument of authorization: *Provided:* (a) That as soon as possible after the beginning of such emergency use, notice be sent to the Commission at Washington, D. C., and to the Engineer in Charge of the district in which the station is located, stating the nature of the emergency and the use to which the station is being put, and (b)

That the emergency use of the station shall be discontinued as soon as substantially normal communication facilities are again available, and (c) That the Commission at Washington, D. C., and the Engineer in Charge shall be notified immediately when such special use of the station is terminated: *Provided further*, (d) That in no event shall any station engage in emergency transmission on frequencies other than, or with power in excess of, that specified in the instrument of authorization or as otherwise expressly provided by the Commission, or by law: *And provided further*, (e) That the Commission may, at any time, order the discontinuance of any such emergency communication undertaken under this section.

§ 2.406 *National defense; free service.* Any common carrier subject to the Communications Act may render to any agency of the United States Government free service in connection with the preparation for the national defense. Every such carrier rendering any such free service shall make and file, in duplicate, with the Commission, on or before the 31st day of July and on or before the 31st day of January in each year, reports covering the periods of 6 months ending on the 30th day of June and the 31st day of December, respectively, next prior to said dates. These reports shall show the names of the agencies to which free service was rendered pursuant to this rule, the general character of the communications handled for each agency, and the charges in dollars which would have accrued to the carrier for such service rendered to each agency if charges for all such communications had been collected at the published tariff rates.

§ 2.407 *National defense; emergency authorization.* The Federal Communications Commission may authorize the licensee of any radio station during a period of national emergency to operate its facilities upon such frequencies, with such power and points of communication, and in such a manner beyond that specified in the station license as may be requested by the Army, Navy, or Air Force.

SUBPART F—EQUIPMENT TYPE APPROVAL AND TYPE ACCEPTANCE

§ 2.501 *Program defined.* In order to carry out its responsibilities under the Communications Act and the various treaties and international regulations, it is necessary for the Commission to ascertain that the equipment involved is capable of meeting the technical operating standards set forth in said statutes, treaties and the Commission's rules and regulations. To facilitate such determinations in those services where equipment is generally standardized, to promote the improvement of equipment and to promote the efficient use of the radio spectrum the Commission has designed two specific procedures for securing advance approval of equipment. These procedures are designated as type approval and type acceptance. Ordinarily, type approval contemplates tests conducted by Commission personnel, while type acceptance is based on data concerning the equipment submitted by the manufacturer or the individual prospective licensee. The procedures described in the sections that follow are intended to apply to equipment in those services which specifically require either type approval or type acceptance. These procedures may also be applied to equipment components, such as radio frequency power amplifiers, etc., to the extent specified in the rules of the particular service in which such components will be used.

§ 2.510 *Type approval.* (a) Type approval is normally based on tests performed at the Commission's laboratory at Laurel, Maryland. In certain cases, type approval may be based on tests performed at other locations provided the tests are conducted in accordance with procedures specified by the Commission and by or under the direction and supervision of Commission personnel.

(b) Application for type approval may be in the form of a letter addressed to the Secretary of the Commission. The letter shall specify the part of the rules under which type approval is desired and shall include any information specifically required to be submitted under such part of the rules. In addition the request shall describe the equipment to be tested and include the size and weight of each component. In most cases, the Commission will advise the applicant to ship the equipment prepaid to Chief, Laboratory Division, P. O. Box 31, Laurel, Md., complete with operating instructions and circuit diagrams. Upon completion of the tests, the equipment will be returned to the applicant, shipping charges collect.

(c) In the event of failure of the equipment to meet the Commission's technical requirements, notice may be given directly by the Chief, Laboratory Division, and arrangements made for modification or adjustment as required.

§ 2.511 *Limitations on type approval.* (a) Type approval is limited to a determination that, if the equipment is properly maintained and operated and no unauthorized change whatsoever is made in its construction, it is capable of complying with the technical requirements of the applicable part of the rules. Type approval shall not be construed as a determination with respect to features not covered by the rules of the service under which the equipment is approved.

(b) Type approval shall not be construed to mean that the equipment will continue to be satisfactory as the Commission's technical standards may be changed to conform with progress in the state of the art.

§ 2.512 *Withdrawal or refusal of type approval.* (a) Type approval may be withdrawn, if upon subsequent inspection or operation it is determined that the manufacturer has made unauthorized changes in the equipment or that the equipment does not comply with the technical requirements of the applicable part of the rules. The procedure for withdrawal of type approval in such cases shall be the same as that prescribed by the Commission for revocation of a radio station license pursuant to the provisions of the Communications Act of 1934, as amended.

(b) In the event changes in the Commission's technical standards necessitate the withdrawal of type approval, the procedure to be followed will be set forth in the order finalizing the revised technical standards after appropriate rule making proceedings.

(c) When type approval has been withdrawn, the manufacturer shall make no further sale of equipment which in any manner indicates that such equipment meets the type approval requirements of the Commission.

(d) When type approval has been withdrawn for unauthorized changes by the manufacturer, the Commission will consider that fact in determining whether the manufacturer in question is eligible to receive any new type approval.

(e) Any person affected by a refusal to grant type approval may file a petition for reconsideration within 30 days after written notice of such refusal has been issued, as provided in section 0.202 of the Commission's rules.

§ 2.520 *Type acceptance.* (a) Type acceptance of equipment is based on representations and test data submitted to the Commission by the manufacturer or prospective licensee. This information may be subject to check by Commission measurements.

(b) A separate request for type acceptance shall be submitted for each different type of equipment. Each request shall be in triplicate, signed by the applicant or by a duly authorized representative who shall certify that the application was prepared by him or at his direction and that to the best of his knowledge and belief the facts set forth in the application and accompanying technical data are true and correct. The technical test data required to be submitted shall be certified by the engineer who performed or supervised the tests who shall attach a brief statement of his qualifications.

(c) In the event there is no Commission action on an application for type acceptance within thirty (30) days after the application is filed, or within 30 days after the applicant has submitted additional data at the request of the Commission, the equipment will be deemed approved in accordance with the Commission's type acceptance procedure. The term Commission action as used in this section means either issuance of a public notice, a listing of the accepted equipment on the equipment list or sending a letter or post card to the applicant.

(d) Notice to applicant of type acceptance will be by post card and public notice will be given by listing the accepted equipment on the Commission's equipment list. Notice that an application has been found unacceptable for type acceptance will be by letter to the applicant.

§ 2.521 *Limitation on type acceptance.* (a) Type acceptance is limited to a finding that, insofar as can be determined from the data submitted, and if the equipment is properly maintained and operated and no change is made in its construction, except as provided for in § 2.540 (c), the equipment complies with current technical standards of the service in which the equipment will be operated. The fact that a particular equipment has been type accepted for licensing purposes shall not be construed as a determination with respect to mechanical features, nor of reliability under service conditions, except as provided for in the rules of the service under which the equipment is accepted.

(b) Type acceptance shall not be construed to mean that the equipment will continue to be satisfactory as the Commission's technical standards may be changed to conform with progress in the state of the art.

§ 2.522 *Withdrawal or refusal of type acceptance.* (a) Type acceptance may be withdrawn, if upon subsequent inspection or operation it is determined that the manufacturer has made changes in the equipment other than as provided for in § 2.540 (c), or that the equipment does not comply with the technical requirements of the applicable part of the rules. The procedure for withdrawal of type acceptance shall be the same as that prescribed by the Commission for revocation of a radio station license pursuant to the provisions of the Communications Act of 1934, as amended.

(b) In the event changes in the Commission's technical standards necessitate the withdrawal of type acceptance, the procedure to be followed will be set forth in the order finalizing the revised technical standards after appropriate rule making proceedings.

(c) When type acceptance has been withdrawn, the manufacturer shall make no further sale of equipment which in any manner indicates that such equipment meets the type acceptance requirements of the Commission.

(d) When type acceptance has been withdrawn for changes made by the manufacturer where such changes are not in accordance with the provisions of § 2.540 (c), the Commission will consider that fact in determining whether the manufacturer in question is eligible to receive any new type acceptance.

(e) Any person affected by a refusal to grant type acceptance may file a petition for reconsideration within 30 days after written notice of such refusal has been issued, as provided in section 0.202 of the Commission's rules.

§ 2.523 *General information required for type acceptance.* (a) Each request for type acceptance of equipment shall include the information listed in paragraph (b) of this section and in §§ 2.524 and 2.525. This information is general and is the minimum required for all equipments. In many cases, additional information specific to a particular service is also required. The applicant should carefully read the rules of the service in which the proposed equipment is intended to be operated to make sure that such additional specific information is furnished. If deemed necessary, the Commission may require additional information, test data, or testing in its own Laboratory at Laurel, Maryland, before determining the acceptibility of any specific equipment.

(b) The request shall include the following information insofar as it is applicable to the equipment:

(1) The type number of the equipment in accordance with § 2.540.

(2) The service and rule part under which the equipment is intended to be operated.

(3) Description of equipment: The description of equipment should include the type of emission, frequency range, power rating as defined in the applicable part of the rules, voltages applied to and currents into the several elements of the final amplifier tube or tubes for normal operation, function of each tube, circuit diagrams, instruction books when available, tune-up procedure, a description of the oscillator circuit and any devices installed for the purpose of frequency stabilization. When circuits or devices are employed for limiting modulation or suppression of spurious radiation a description of these should be included. The description should be sufficiently complete to develop all factors that may affect a determination as to whether the equipment will comply with the technical standards of the applicable rule parts.

§ 2.524 *Measurement data required for type acceptance.* Measurements shall be made to establish the following:

(a) Radio frequency power output at the RF output terminals when the transmitter is adjusted in accordance with the tune-up procedure to give the values of current and voltage on the circuit elements specified in § 2.523 (b) (3). Give details of the radio frequency load attached to the output terminals when this test is made.

(b) Modulation characteristics: (1) Voice modulated communications equipment: A curve or equivalent data showing the frequency response of the audio modulating circuit over a frequency range of 100 to 5000 cycles shall be submitted.

(2) Other types of equipment: A curve or equivalent data will be submitted which shows that the equipment will meet the modulation requirements of the rules under which the equipment is to be licensed.

(3) Equipment which employs modulation limiting: If a modulation limiting device or circuit is incorporated in the equipment a curve showng the percentage of modulation versus the modulation input voltage shall be supplied.

(c) Bandwidth occupied: The band of frequencies comprising 99 percent of the total radiated power extended to include any discrete frequency on which the power is at least 0.25 percent of the total radiated power; measured under the following conditions as applicable:

(1) Telegraph transmitters for manual operation—when keyed at 16 dots per second.

(2) Other keyed transmitters—when keyed at the maximum machine speed.

(3) Voice modulated transmitters equipped with a device to prevent overmodulation when modulated by an input signal 16 db greater than that required to produce 50 percent modulation: Test at 2500 cycles.

(4) Voice modulated transmitter without a device to prevent overmodulation when modulated by an input signal large enough to produce at least 85 percent modulation: Test at 2500 cycles.

(5) Standard broadcast transmitters—when modulated with a frequency of 7500 cycles at 85 percent modulation. FM broadcast transmitters, including TV aural transmitters, when modulated with a frequency of 15 kc at 85 percent modulation.

(6) Transmitters designed for other types of modulation—when modulated by an appropriate signal of sufficient amplitude to be representative of the type of service in which used. A description of the input signal used should be supplied.

(d) Spurious emissions from the transmitting equipment for the following conditions:

(1) *Radio frequency voltage measurements at the antenna terminals.* The radio frequency voltages generated within the equipment and appearing on a spurious frequency shall be checked at the equipment output terminals when properly loaded with a suitable artificial antenna. Curves or equivalent data shall show the magnitude of each harmonic and other supurious emission that can be detected when the equipment is operated with a carrier modulated under the conditions specified in paragraph (c) of this section for determining the band width occupied. The amplitude of spurious emissions which are more than 20 db below the permissible value need not be shown.

(2) *Field intensity measurements of spurious radiations.* On and after November 15, 1955, a report of field intensity measurements made to detect spurious emissions that may be radiated shall be made for the following equipments:

(i) Those in which the spurious emissions are required to be 60 db or more below the carrier level.

(ii) All equipment operating on frequencies higher than 25 Mc.

(iii) Hand carried transmitters, or others, where the antenna is an integral part of and attached directly to the transmitter.

(iv) Other types of equipment as required, when in the opinion of the Commission, there is need for such measurement.

(e) In all of the measurements set forth in paragraphs (a) to (d) of this section, the spectrum should be investigated from the lowest radio frequency generated in the equipment up to at least the tenth harmonic of the carrier frequency or to the highest frequency possible in the present state of the art of measuring techniques. Particular attention should be paid to harmonics and subharmonics of the carrier frequency as well as to those freqencies removed from the carrier by multiples of the oscillator frequency. Radiation at the frequencies of multiplier stages should also be checked. The amplitude of spurious emissions which are more than 20 db below the permissible value need not be reported.

(f) Frequency stability: The frequency stability of transmitting equipment shall be checked with variations in:

(1) *Temperature.* Vary the ambient temperature from −30° to +50° Centigrade for non-broadcast equipment. Use suitable limits for broadcast equipment. Only the oscillator need be subjected to this test.

(2) *Primary supply voltage.* Vary the primary supply voltage from 85 percent to 115 percent of the normal supply voltage at the input to the cable normally provided with the equipment, or at the power supply terminals if cables are not normally provided.

§ 2.525 *Measurement procedure for type acceptance.*

(a) The Commission will accept data in full accordance with established standards and measurement procedures as published by engineering societies and associations such as the Institute of Radio Engineers, American Institute of Electrical Engineers, the Radio-Electronics-Television Manufacturers Association and the American Standards Association. Specific reference should be made to the standards used. In lieu of such standards, the applicant will submit a description of each measurement procedure together with a listing of the actual test equipment used. The Commission will accept measurements made by a qualified engineer where the procedures employed are based upon sound engineering principles.

(b) For radio frequency equipment other than transmitters, appropriate tests and performance requirements may be specified in other parts of the rules.

§ 2.530 *Submission of technical information for application reference.* (a) Applications for station authorizations in some services require a detailed technical description of the equipment proposed to be used. In order to simplify the preparation and processing of applications by eliminating the need for submission of equipment specifications with each application, the Commission will accept for application reference purposes detailed technical specifications of equipment designed for use in these services. Manufacturers desiring to avail themselves of this procedure should submit in triplicate all information required by the application forms and the rules for the services in which the equipment is to be used. Applications for station authorizations submitted subsequent to such filing may refer to the technical information so filed.

(b) Receipt by the Commission of data for application reference purposes does not imply that the Commission has made or intends to make any finding regarding the acceptability of the equipment for licensing and such equipment will not be included on the list of equipment acceptable for licensing. Each applicant is expected to exercise appropriate care in the selection of equipment to insure that the unit selected will comply with the rules governing the service in which it is proposed to operate.

§ 2.540 *Identification and changes in equipment.* (a) Equipment of the same type is defined for the purposes of type acceptance as being equipment which is electrically and mechanically interchangeable. In addition, transmitters of the same type will have the same basic tube line up, frequency multiplication, basic oscillator circuit, basic modulator circuit, and maximum rated power input.

(b) Each type of equipment for which type approval, type acceptance, or filing for application reference purposes is requested shall be identified by a type number assigned by the manufacturer of the equipment. The type number shall consist of a series of not more than a total of seventeen digits, letters, punctuation marks and spaces. The type number shall be shown on a name plate affixed in a conspicuous place to such equipment. All equipment used pursuant to type approval or type acceptance shall have affixed to it such indication of type approval or type acceptance as may be required in the service rules governing such equipment.

(c) No change whatsoever may be made in the design of type approved equipment without prior authorization from the Commission. When a change is requested, the Commission may authorize the change or require that the modified equipment be identified with a new number and be resubmitted for type approval tests.

(d) Permissive changes may be made in type accepted equipment without prior Commission approval. There are two classifications of permissive changes, neither of which may involve change of type as defined in paragraph (a) of this section. The first classification includes those modifications in type accepted equipment which do not change the equipment characteristics beyond the rated limits established by the manufacturer and accepted by the Commission when obtaining type acceptance. There is no requirement that the Commission be notified of such changes. The second classification of permissive changes includes those which bring the performance of the equipment outside the manufacturers' rated limits as originally filed but not below the minimum requirements of the applicable rules. The Commission shall be supplied with complete information and results of tests regarding this class of permissive changes, in accordance with § 2.520 (b), prior to the operation of the modified equipment under an authorization of the Commission.

(e) Changes in type accepted equipment, except permissive changes as set forth in paragraph (d) of this section, shall not be made except under prior authorization of the Commission. When such a change is requested the Commission may authorize the change or require that the modified equipment be identified with a new type number and that additional information be submitted for further consideration as to type acceptance.

(f) If the assignment of a different type number is required as a result of equipment modification, a new name plate bearing the new type number shall be affixed to the modified equipment.

(g) Users shall not modify their own equipment except as provided in paragraph (c) or (d) of this section, as applicable.

§ 2.541 *Radio equipment lists.* Lists of type approved and type accepted equipment are expected to be published monthly by the Commission when there are changes to be entered. Public notice of type acceptance and type approval will be by publication in the equipment list, a copy of which will be furnished each manufacturer of listed equipment. Equipment which was listed prior to May 16, 1955, will be continued on the list unless it is removed by Commission action in accordance with the provisions of § 2.522. Copies of the Radio Equipment Lists are available for inspection at the Commission's offices in Washington, D. C., and at each of its field offices. The Radio Equipment List is published in three parts:

Part A, Television Broadcast Equipment.
Part B, Aural Broadcast Equipment.
Part C, Other than Broadcast Equipment.

§ 2.542 *Limitation on availability of equipment files for public reference.* (a) Files containing information about equipment submitted by manufacturers and other persons pursuant to the rules in this part will not be open to the public.

(b) The Commission will cooperate with a manufacturer's desire to withhold the addition of new equipment to the radio equipment list until a date no earlier than that specified by the manufacturer.

§ 2.543 *Making available type approved or type accepted equipment for testing or inspection.* Upon request by the Commission any manufacturer of equipment which has been type approved or type accepted by the Commission shall cooperate in making available to the Commission models of said type approved or type accepted equipment in order that the equipment may be tested or inspected either at the place of manufacture or at the Commission's laboratory at Laurel, Maryland.

SUBPART G—LAWS AND INTERNATIONAL TREATIES AND OTHER AGREEMENTS

§ 2.601 *Appendix A—Laws, Treaties, Agreements and Arrangements Relating to Radio.* (Corrected to June 1, 1955. Unless otherwise indicated, copies of these documents listed below may be obtained from the Government Printing Office, Washington 25, D. C.)

(a) The applicable Federal Laws, International Treaties, Agreements, and Arrangements in force relating to radio and to which the United States of America is a party, are listed below:

Date	Series [1]	Subject
1947	TIAS 1670	Interim Arrangement between the United States and Canada with respect to Mobile Radio Transmitting Stations. Effected by exchange of notes signed at Washington, D. C., June 25 and Aug. 20, 1947. Entered into force Aug. 20, 1947. (Not available at the Government Printing Office.)
1947	TIAS 1676	Agreement between the United States and the United Nations relative to headquarters. Signed at Lake Success, June 26, 1947. Entered into force Aug. 4, 1947. (The provisions of the agreement were also made Public Law 357 of the 80th Congress, approved Aug. 4, 1947.) (Not available at the Government Printing Office.)
1947	TIAS 1728	Agreement between the United States and Canada providing for Frequency Modulation Broadcasting in Channels in the 1, 1 and 6 Bands. Effected by exchange of notes signed at Washington, D. C., Oct. 15, 1947. Entered into force Oct. 15, 1947. (Not available at the Government Printing Office.)
1947	TIAS 1901	International Telecommunication Convention, Final Protocol and Radio Regulations. Signed at Atlantic City, Oct. 2, 1947, superseding the International Telecommunications Convention, Madrid, 1932. Entered into force Jan. 1, 1949, except for Radio Regulations enumerated in Article 47. However, the provisions of the Agreement signed at the Extraordinary Administrative Radio Conference, Geneva, 1951, which include the Additional Radio Regulations, are available only from the International Telecommunication Union, Geneva, Switzerland.) (Not available at the Government Printing Office.)
1948	TIAS 1902	Arrangement between the United States and Canada concerning Standard Broadcasting. Engineering Standards Applicable to the Allotment of notes signed at Washington, D. C., Nov. 15, 1947, and Apr. 11, 1948. Entered into force Apr. 1, 1948. (Not available at the Government Printing Office.)
1948	TIAS 2405	International Convention for the Safety of Life at Sea and Annexed Regulations. Signed at London, June 10, 1948. Entered into force Nov. 19, 1952.
1949	TIAS 2175	Telegraph Regulations (Paris Revision, 1949), annexed to the International Telecommunication Convention (Atlantic City, 1947) and Final Protocol to the Telegraph Regulations. Signed at Paris Aug. 5, 1949. Entered into force with respect to the United States Sept. 1, 1950.
1949	TIAS 2435	Agreement between the United States and Certain British Commonwealth Governments regarding Telecommunications. Signed at London, Aug. 12, 1949. Entered into force, Feb. 24, 1950. This Agreement was amended by TIAS 2705 which was signed Oct. 1, 1952.
1949	TIAS 2489	Inter-American Radio Agreement between the United States and Canada and Other American Republics. (Fourth Inter-American Radio Conference.) Signed at Washington, D. C., July 9, 1949. Entered into force Apr. 13, 1952, subject to the provisions of Article 31.
1950	TIAS 2433	Agreement between the United States and Ecuador concerning Radio Communications between Amateur Stations on Behalf of Third Parties. Effected by exchange of notes signed at Quito, Mar. 16 and 17, 1950. Entered into force Mar. 17, 1950.
1951	TIAS 2223	Agreement between the United States and Liberia regarding Radio Communications between Amateur Stations on Behalf of Third Parties. Effected by exchange of notes signed at Monrovia Nov. 9, 1950, and Jan. 9, 9 and 10, 1951. Entered into force Jan. 11, 1951.
1951	TIAS 2508	Treaty with Canada relating to Mutual Recognition by the United States and Canada of Certificates of Competency and Operator Licenses issued in either country. Signed at Ottawa Feb. 8, 1951. Entered into force May 15, 1952.
1951	TIAS 2259	Agreement between the United States and Ceylon concerning the Use of Facilities of Radio Ceylon. Effected by exchange of notes signed at Colombo May 12 and 14, 1951. Entered into force May 14, 1951.
1951	TIAS 2306	Agreement between the United States and Mexico which assigns Television Frequency Channels in the 76-216 Mc Band to Cities of the United States-Mexico Border. Effected by exchange of notes signed at Mexico Aug. 10 and Sept. 26, 1951. Entered into force Sept. 26, 1951. (TIAS 2306 is amended by TIAS 2654 which was signed at Mexico City June 4 and 25, 1952.)
1951	TIAS 2459	Agreement between the United States and Cuba concerning the Control of Electromagnetic Radiation. Effected by exchange of notes signed at Habana Dec. 10 and 18, 1951. Entered into force Dec. 18, 1951.
1951	TIAS 2753	Administrative Radio Conference to bring Agreement signed at the Extraordinary Administrative Radio Conference to bring into force the Atlantic City Allocations and other provisions of the Radio Regulations (Atlantic City, 1947) not brought into force Jan. 1, 1949. Signed at Geneva, Dec. 3, 1951. Entered into force Mar. 1, 1952.
1952	TIAS 2320	Agreement between the United States and Cuba regarding Radio Communications between Amateur Stations on Behalf of Third Parties. Effected by exchange of notes signed at Habana, Sept. 17, 1951, and Feb. 27, 1952. Entered into force Feb. 27, 1952.
1952	TIAS 2548	Agreement between the United States and Denmark regarding the Registration of Frequencies for Fixed Stations in Greenland by United States Authorities. Effected by exchange of notes signed at Washington, D. C., Mar. 28 and Apr. 4, 1952. Entered into force Apr. 4, 1952.

Date	Series [1]	Subject
1925	T. S. 724–A	Arrangements between the United States, Great Britain, Canada, and Newfoundland. Effected by exchange of notes signed September and October 1925, providing for the prevention of interference by ships of the coast of the United States with radio broadcasting. Entered into force Oct. 1, 1925. (Not available at the Government Printing Office.)
1928 and 1929	T. S. 767–A	Arrangement between the United States and the Dominion of Canada governing radio communication between private experimental stations. Effected by exchange of notes signed Oct. 2 and Dec. 29, 1928, and Jan. 12, 1929. Entered into force Jan. 1, 1929. This Arrangement is continued by the Arrangement contained in E. A. S. 62. (Not available at the Government Printing Office.)
1929	T. S. 777–A	Arrangement between the United States, Canada, Cuba, and Newfoundland relating to assignment of high frequencies on the North American Continent. Effected by exchange of notes signed at Washington, D. C., Feb. 26 and 28, 1929. Entered into force Mar. 1 of Oct. 5, 1933.) Arrangement still in force with respect to the United States and Canada (including Newfoundland). (Not available at the Government Printing Office.)
1934		Communications Act of 1934, as amended.
1934	E. A. S. 62	Arrangement between the United States and the Dominion of Canada relative to radio communications between private commercial stations and between amateur stations. Effected by exchange of notes Apr. 23 and May 2 and 4, 1934. Entered into force on May 4, 1934. (Not available at the Government Printing Office.)
1934	E. A. S. 66	Arrangement between the United States and Peru concerning radio communications between amateur stations on behalf of third parties. Effected by exchange of notes signed Feb. 16 and May 23, 1934. Entered into force May 23, 1934. (Not available at the Government Printing Office.)
1934	E. A. S. 72	Arrangement between the United States and Chile relative to radio communications between amateur stations on behalf of third parties. Effected by exchange of notes signed at Santiago Feb. 2 and 17, 1934. Entered into force Aug. 17, 1934. (Not available at the Government Printing Office.)
1937	E. A. S. 109	Agreement between the United States and Canada relating to the exchange of Information concerning Issuance of radio licenses. Effected by exchange of notes signed Mar. 2 and 10, Aug. 17, Sept. 8 and 20, Oct. 9, 1937. Effective Jan. 1, 1938. (This Agreement was largely superseded by TIAS 2027 and TIAS 1553) and under the Inter-American Radio Regulations (TIAS 1892) and the Telecommunications Convention (T. S. 938). (Not available at the Government Printing Office.)
1937	T. S. 938	Inter-American Radio Communications Convention between the United States and Other Powers. Signed at Habana, Dec. 13, 1937 (First Inter-American Conference). Entered into force Apr. 17, 1939. (Not available at the Government Printing Office.)
1937	T. S. 962	North American Regional Broadcasting Agreement (NARBA) between the United States, Cuba, Dominican Republic, Haiti, and Mexico. Signed at Habana, Dec. 13, 1937. Entered into force Mar. 29, 1941. E. A. S. 227 and TIAS 1553 supplement this agreement. (Not available at the Government Printing Office.)
1938	T. S. 949	Regional Radio Convention between the United States (in behalf of the Canal Zone) and Other Powers. Signed at Guatemala City, Dec. 8, 1938. Entered into force Oct. 8, 1939 (Not available at the Government Printing Office.)
1938	E. A. S. 136	Arrangement between the United States and Canada relating to Radio Broadcasting. Effected by exchange of notes signed Oct. 28, 1938, and Mar. 29, 1940. Entered into force Mar. 29, 1940. (Not available at the Government Printing Office.)
1938	E. A. S. 142	Agreement between the United States and Canada concerning Radio Communications. Effected by exchange of notes signed in June, July, August, September, October, November and December 1938. Entered into force Aug. 1, 1938. (Not available at the Government Printing Office.)
1939	E. A. S. 143	Arrangement between the United States and Canada concerning the Use of Radio for Civil Aeronautical Services. Effected by exchange of notes signed Feb. 20, 1939. Entered into force Feb. 20, 1939. (Not available at the Government Printing Office.)
1940	E. A. S. 190	Agreement between the United States and Mexico with regard to Broadcasting. Effected by exchange of notes signed Aug. 24 and 28, 1940. Entered into force Mar. 28, 1941. (Not available at the Government Printing Office.)
1941	E. A. S. 227	Supplementary North American Regional Broadcasting Agreement signed at Washington, D. C., Jan. 30, 1941. Entered into force Mar. 29, 1941. (See T. S. 962 and TIAS 1553). (Not available at the Government Printing Office.)
1944	E. A. S. 400	Agreement between the United States and Canada concerning Construction and Operation of Radio Broadcasting Stations in Northwestern Canada. Effected by exchange of notes signed at Ottawa Nov. 5, and 25, 1943, and Jan. 17, 1944. Entered into force Jan. 17, 1944. (Not available at the Government Printing Office.)
1946	TIAS 1527	Agreement between the United States and the Union of Soviet Socialist Republics at Moscow, May 24, 1946. Entered into force May 24, 1946. (Not available at the Government Printing Office.)
1946	TIAS 1553	North American Regional Broadcasting (NARBA) Interim Agreement between the United States and Other Governments (Mexico City, March 29, 1946. (See T. S. 962 and E. A. S. 227.) Supplemented by an Arrangement between the United States and Canada concerning Engineering Standards Applicable to the Allocation of Standard Broadcasting Stations (540–1600 kc) (TIAS 1892 which entered into force, Apr. 1, 1948). (Not available at the Government Printing Office.)
1947	TIAS 1652	Agreement between the United States and the United Kingdom of Great Britain and Northern Ireland concerning Telecommunication Standardization of Distance Measuring Equipment. Signed at Washington, D. C., Oct. 13, 1947. Entered into force Oct. 13, 1947. (Not available at the Government Printing Office.)

[1] T. S.—Treaty Series. E. A. S.—Executive Agreement Series. TIAS—Treaties and Other International Acts Series.

[2] In addition, certain resolutions and recommendations were adopted by a number of countries, members of the International Telecommunication Union Region 2 at Washington, D. C., on July 9, 1949. (Not available at the Government Printing Office. Available from the International Telecommunication Union, Geneva, Switzerland.)

Date	Series [1]	Subject
1952	TIAS 2594	Agreement between the United States and Canada which assigns Television Frequency Channels to Cities within 250 Miles of the United States-Canadian Border. Effected by exchange of notes signed at Ottawa Apr. 23, 1952, and June 23, 1952. Entered into force June 23, 1952. (Not available at the Government Printing Office.)
1952	TIAS 2654	Amendment to TIAS 2366. Amends the Agreement between the United States and Mexico on the Allocation of Television Channels Along the United States-Mexican Border. Signed at Mexico June 4 and 25, 1952. Entered into force June 25, 1952.
1952	TIAS 2666	Agreement between the United States and Canada for the Purpose of Promoting Safety on the Great Lakes by Means of Radio. The Agreement applies to vessels of all countries as provided for in Article 3. Signed at Ottawa, Feb. 21, 1952. Ratifications exchanged at Washington, D. C., Nov. 13, 1952. Entered into force Nov. 13, 1954. (Not available at the Government Printing Office.)
1952	TIAS 2701	Agreement between the United States and Haiti regarding Short Range Aid to Navigation. Effected by exchange of notes signed at Port-au-Prince Aug. 22 and 29, 1952. Entered into force Aug. 29, 1952.
1952	TIAS 2705	London Revision (1952) of the London Telecommunication Agreement (1949) between the United States and Canada and Certain British Commonwealth Governments. Signed at London Oct. 1, 1952. Entered into force Oct. 1, 1952. This amends the agreement contained in TIAS 2435 signed at London Aug. 12, 1949.

(b) In addition, the United States of America is bound by certain treaties and agreements which are generally considered as superseded because some of the contracting countries other than the United States did not become a party to subsequent treaties and agreements. The United States is, in such instances, bound to the original document with respect to our relations with these particular countries. These include the following:

Date	Series [1]	Subject
1912	T. S. 581	International Radiotelegraph Convention, Final Protocol and Service Regulations. Signed at London, July 5, 1912. Entered into force July 1, 1913. (Not available at the Government Printing Office.)
1927	T. S. 767	International Radiotelegraph Convention and General Regulations. Signed at Washington, D. C., Nov. 25, 1927. Entered into force Jan. 1, 1929. (Not available at the Government Printing Office.)
1932	T. S. 867	International Telecommunication Convention, General Radio Regulations annexed to the International Telecommunication Convention. Signed at Madrid Dec. 9, 1932. Entered into force Jan. 1, 1934. (Not available at the Government Printing Office.)
1937	E. A. S. 200	Inter-American Arrangement concerning Radiocommunications and Annex. Signed at Habana Dec. 13, 1937. Entered into force July 1, 1938. This Arrangement was replaced by the Inter-American Agreement concerning Radiocommunications signed at Santiago Jan. 26, 1940 (E. A. S. 231). Countries which approved the 1937 Arrangement but which have not approved the 1940 Arrangement are: Haiti, Mexico, Panama, and Peru. (Not available at the Government Printing Office.)
1938	T. S. 948	General Radio Regulations (Cairo Revision, 1938) and Final Radio Protocol (Cairo Revision, 1938) annexed to the International Telecommunication Convention of Madrid, 1932. Superseded by the Radio Regulations annexed to the International Telecommunication Convention (Atlantic City, 1947). Entered into force Sept. 1, 1939. (Not available at the Government Printing Office.)
1940	E. A. S. 231	Inter-American Radio Communications Agreement between the United States, Canada, and Other American Republics. (Second Inter-American Radio Conference). Signed at Santiago Jan. 26, 1940. (Not available at the Government Printing Office.)

[1] T. S.—Treaty Series. E. A. S.—Executive Agreement Series.

(c) The following treaties, agreements, and arrangements have been signed by the United States of America and are included for informational purposes because of their importance, or for the imminence of their effective dates:

Date	Series [1]	Subject
1950		North American Regional Broadcasting Agreement (NARBA) between the United States, Canada, Cuba, Dominican Republic, United Kingdom of Great Britain and Northern Ireland for the Territories in the North American Region (Bahama Islands and Jamaica). Signed at Washington, D. C., Nov. 15, 1950. Agreement will enter into force subsequent to ratification or adherence of at least three of the following four countries, in accordance with Part III, Paragraph 1, of the Agreement: Canada, Cuba, Mexico and the United States. Subject to ratification procedure in the United States. (Not available at the Government Printing Office. Available from the Department of State Telecommunications Policy Staff, Washington 25, D. C.)
1952		Buenos Aires International Telecommunication Convention. A revision of the Atlantic City Convention of 1947. Subject to completion of ratification procedure in the United States. (Not available at the Government Printing Office. Available from the International Telecommunication Union, Geneva, Switzerland.)

[1] TIAS—Treaties and Other International Acts Series.

(d) There are, in addition to the foregoing, certain treaties, agreements, or arrangements primarily concerned with matters other than the use of radio but which affect the work of the Federal Communications Commission, insofar as they involve communications. Among the most important of these are the following:

Date	Series [1]	Subject
1944	TIAS 1591	International Civil Aviation Convention.[2] Signed at Chicago, Dec. 7, 1944. Entered into force Apr. 4, 1947.
1946 to present		ICAO Regional Air Navigation Meetings, Communications Committee Final Reports.[2]
1946		ICAO Communication Division, Second Session, Montreal.[2]
1949		ICAO Communication Division, Third Session, Montreal.[2]
1951		ICAO Communication Division, Fourth Session, Montreal.[2]
1954		ICAO Communication Division, Fifth Session, Montreal.[2]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

ARTISTIC CARD PUBLISHING CORP. ET AL.

Subpart—*Combining or conspiring:* § 13.430 *To enhance, maintain or unify prices.* In or in connection with the offering for sale, sale, or distribution of greeting cards in interstate commerce, and on the part of respondent Artistic Card Publishing Corp., and on the part of the four other corporate respondents, and their officers, etc., directly or indirectly, jointly or severally, or through any corporate or other device, engaging in, entering into, participating in or carrying out any planned common course of action, understanding, agreement, combination or conspiracy between any two or more of said respondents, or between any one or more of said respondents and another, or others not parties, to: Fix or establish prices at which said greeting cards are to be sold or offered for sale, fix or establish quantity brackets, fix or establish any common method or formula for calculating prices or using any such method or formula so established or fixed, and holding meetings at which prices, terms, conditions of sale, or trade practices or policies designed to eliminate competition in price or otherwise are discussed or acted upon; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Artistic Card Publishing Corp. (Elmira, N. Y.) et al., Docket 5984, May 12, 1955]

In the Matter of Artistic Card Publishing Corp., Chilton Greetings Company, Doehla Greeting Cards, Inc., White Plains Greeting Card Corp., Card Mart, Inc., Colonial Greetings, Inc., Elmira Greeting Card Co., Inc., Phillips Card Company, United Craftsmen, Inc., Hedenkamp & Company, Clyde L. Evans, and Lawrence E. Evans, Individually and as Copartners, Trading and Doing Business as New England Art Publishers; and Charles E. Schwer and John L. Schwer, Individuals and Copartners Trading and Doing Business as Charles E. Schwer Co. and Artistic Card Company, Inc.

This proceeding was heard by Frank Hier, hearing examiner, upon the complaint and amended complaint of the Commission, which charged respondents joined in the latter with agreeing to fix prices, quantity brackets, discounts, terms, and conditions of sale, and with separating orders and thereby avoiding consolidation of quantities to avoid lower prices for the larger quantities in a single order, in violation of section 5 of the Federal Trade Commission Act; respondents' answers; various hearings at which testimony and other evidence were introduced; and upon a stipulation entered into between counsel whereby it was agreed, following the dismissal for failure to establish a prima facie case against certain of the respondents named in the original complaint, that the remaining respondents named in the amended complaint, along with a new respondent, the alter ego of one of said remaining respondents, with the same stockholders and directors, would stand upon answers filed in the original complaint, and that the record made under said original complaint should be considered the record under the otherwise identical amended complaint, and as the basis for disposition by the hearing examiner of the proceeding.

Thereafter, following the filing of proposed findings of facts and conclusions by all counsel except on behalf of respondent Card Mart, Inc., and Elmira Greeting Card Co., Inc., and the closing of the case, said hearing examiner made his initial decision in which he set forth the aforesaid matters, and, based upon consideration of the entire record and his observation of the witnesses, his finding that the proceeding was in the interest of the public, and his findings as to the facts,[1] and his order, including order to cease and desist, as to the four manufacturing respondents, and said affiliated respondent, order denying all motions to dismiss the proceeding as to said respondents, and order dismissing the proceeding as to the distributor respondents.

Thereafter, following appeals from said hearing examiner's initial decision by counsel in support of the complaint and on behalf of respondents, and the decision of the Commission denying said appeals for the reasons therein set forth, the matter was disposed of by the Commission's "Final Order", dated May 12, 1955, as follows:

This matter having come before the Commission on appeals from the hearing examiner's initial decision filed by counsel in support of the complaint and on behalf of respondents Artistic Card Publishing Corp., Chilton Greetings Company, Doehla Greeting Cards, Inc., White Plains Greeting Card Corp., and Artistic Card Company, Inc.; and the matter having been heard on briefs and oral argument; and the Commission having rendered its decision denying the appeals and affirming the initial decison:

It is ordered, That the aforesaid respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have com-

plied with the order contained in said initial decision.

The order in said initial decision, thus adopted as the decision of the Commission, is as follows:

It is ordered, That respondents, Artistic Card Publishing Corp., a corporation, Chilton Greetings Company, a corporation, Doehla Greeting Cards, Inc., a corporation, White Plains Greeting Card Corp., a corporation, doing business in its own corporate name or in the name of its division, Thomas Doran Co., or any other name, Artistic Card Company, Inc.,[1] a corporation, and the officers, agents, employees and representatives of each of them, directly or indirectly, jointly or severally or through any corporate or other device, in or in connection with the offering for sale, sale, or distribution of greeting cards in interstate commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from engaging in, entering into, participating in or carrying out any planned common course of action, understanding, agreement, combination or conspiracy between any two or more of said respondents, or between any one or more of said respondents and another, or others not parties hereto, to do or perform any of the following acts or things: Fixing or establishing prices at which said greeting cards are to be sold or offered for sale, fixing or establishing quantity brackets, fixing or establishing any common method or formula for calculating prices or using any such method or formula so established or fixed and from holding meetings at which prices, terms, conditions of sale, or trade practices or policies designed to eliminate competition in price or otherwise are discussed or acted upon.

It is further ordered, That all motions to dismiss this proceeding as to them, filed by the above-named respondents, be, and the same are, hereby denied.

It is further ordered, That this proceeding be, and the same hereby is, dismissed as to respondents Card Mart, Inc., Colonial Greetings, Inc., Elmira Greeting Card Co., Inc., Phillips Card Company, United Craftsmen, Inc., Hedenkamp & Co., Inc., all corporations, and as to respondents Clyde L. Evans and Lawrence E. Evans, copartners doing business under the partnership name of New England Art Publishers, and as to respondents Charles E. Schwer and John L. Schwer, copartners doing business under the partnership name of Charles E. Schwer Co., and motions to that end, filed by these respondents, are accordingly granted.

Issued: May 12, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 55-5094; Filed, June 24, 1955; 8:50 a. m.]

[1] Since Artistic Card Publishing Corp. and Artistic Card Company, Inc., have common ownership, direction and control, any order against one alone could be easily ignored by the other, therefore both are included. The one is the alter ego of the other.

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

PART 270—CIGARS AND CIGARETTES: MANUFACTURERS, IMPORTERS, AND DEALERS

On May 10, 1955, a notice of proposed rulemaking with respect to regulations designated as Part 270 of Title 26 (1954) of the Code of Federal Regulations was published in the FEDERAL REGISTER (20 F. R. 3154). The purposes of the proposal were to implement the Internal Revenue Code of 1954, which necessitated the issuance of new regulations, and to supersede 26 CFR (1939) Part 140, as last amended by Treasury Decision 6052, approved November 10, 1953, and 26 CFR (1939) Part 457, as added by Treasury Decision 4744, approved June 24, 1937, insofar as they relate to cigars and cigarettes. No data, views, or arguments pertaining thereto having been received during the period of 15 days from the date of publication of said notice, the regulations so published are hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. The preamble is amended by adding a new paragraph 3.

PAR. 2. Section 270.151 is amended by striking from the second sentence, which begins, "Such manufacturers", the words "his bond," and inserting in lieu thereof the words "their bonds,".

PAR. 3. Section 270.159 is amended by inserting a comma after the word "used" and by striking the word "and" in the phrase "and experimenting" and inserting in lieu thereof the word "or".

PAR. 4. Section 270.161 is amended by striking the words "in order that" in the phrase "in order that credit therefor in the records" and inserting in lieu thereof the word "before".

PAR. 5. Section 270.163 is amended by striking from the last sentence, which begins, "Such claim shall", the phase "why the claim shall be allowed," and inserting in lieu thereof the following: "relied upon for the allowance of the claim".

PAR. 6. Section 270.166 is amended by striking therefrom the second, third, and fourth sentences, which begin, "Before such tobacco", "the manufacturer shall", and "All copies of the applicable form", respectively, and adding in lieu thereof the following new sentences: "Before such tobacco materials, cigars, and cigarettes are released to him, the manufacturer shall prepare and furnish to the collector of customs having custody of the tobacco materials, cigars, and cigarettes, a notice of release of tobacco materials, Form 2146, or a notice of release of cigars and cigarettes, Form 2145, as the case may be. With respect to Form 2145, it will be necessary for the manufacturer to present such notice to the assistant regional commissioner for his endorsement to show that the applicant is a properly qualified manufacturer in his region before it is furnished to the collector of customs. The collector of customs shall insert the date of release of the tobacco materials or cigars and cigarettes described thereon, return one copy to the manufacturer, retain one copy for his records, and transmit one copy to the assistant regional commissioner shown thereon."

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: June 21, 1955.

M. B. FOLSOM,
Acting Secretary of the Treasury.

Preamble. 1. These regulations, 26 CFR Part 270, "Cigars and Cigarettes—Manufacturers, Importers, and Dealers," are promulgated to implement the Internal Revenue Code of 1954 and supersede 26 CFR (1939) Part 140, as last amended by Treasury Decision 6052, approved November 10, 1953, and Part 457, as added by Treasury Decision 4744, approved June 24, 1937, insofar as they relate to cigars and cigarettes.

2. These regulations shall not affect any act done, or any liability or right accruing or accrued, or any suit or proceeding had or commenced, before the effective date of these regulations.

3. The regulations in this part shall be effective on the date of publication in the FEDERAL REGISTER. These regulations are necessary for the enforcement of the applicable provisions of the Internal Revenue Code of 1954, effective January 1, 1955. It is hereby found that it is contrary to the public interest to issue the regulations subject to the effective date limitation of section 4 (c) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003 (c)).
